Mr. Ingram: From the eight battalions currently under command of the General Officer Commanding (Northern Ireland) (GOC(NI)), it is planned that one company of the 2nd Battalion The Royal Regiment of Fusiliers (currently based at Palace Barracks, Belfast) will be available to form part of our regular roulement of forces for Operation TELIC deploying to Iraq during April/May 2005. GOC (NI) keeps the security situation under close review and will ensure that sufficient forces are available to provide routine military support to the police and additional troops can be made available to him from Land Command, if required, for example during the marching season.

Maritime Coherency Study

Mr. Soames: To ask the Secretary of State for Defence what the purpose is of the Maritime Coherency Study: who is involved in it and when it will report. [216105]

Mr. Ingram: The purpose of the Maritime Coherence Study is to produce a balanced, more coherent and affordable maritime programme, which places a stable and realistic demand on the UK naval shipbuilding sector. It is being led by the Equipment Capability Customer area of the Ministry of Defence and has involved stakeholders from the Front Line Commands, the Defence Procurement Agency and the Defence Logistics Organisation. Final decisions on the study will be taken in the current planning round, which is still under way.

MRSA

Simon Hughes: To ask the Secretary of State for Defence what *(a)* advice has been given and *(b)* precautions are taken against the spread of MRSA in military ambulances; and if he will make a statement. [216397]

Mr. Caplin: The majority of secondary care for armed forces personnel is provided at Ministry of Defence hospital units within host NHS hospitals. Ambulances used for transfer fall under the local health authority and will adhere to the procedures and precautions laid down by the local health authority.

Some military ambulances are retained by armed forces medical centres. Guidelines to prevent the spread of infection are provided at a single service level. These include staff protection and ambulance disinfection. The guidelines are in line with the current procedures recommended by the local health authorities.

Ambulances are also used by the armed forces for transfer of a small number of patients in Cyprus and Gibraltar. These ambulances follow the same infection control procedures as the UK based medical centres with staff referring to the local infection control manuals supplied by the single service infection control teams in the UK. A local infection control nurse is on hand to provide immediate support and advice where necessary.

MRSA has not been identified as a major problem for troops returning from military operations abroad. Nevertheless, when operating in field conditions staff are instructed on the importance of preventing the spread of any infection and are given specific guidelines to follow to prevent the spread of infection relevant to the particular theatre. Ambulances on operations are cleaned as per single service guidelines on the decontamination of equipment.

Uniform Suppliers

Mr. Neil Turner: To ask the Secretary of State for Defence where the four test houses which tested the fabric for the cut and sew camouflage uniform contract were; and whether the test confirmed that the fabric tested was the camouflage fabric to be used in the uniforms to be supplied. [215196]

Mr. Ingram: The test houses were in China and the United Kingdom. The tests confirmed that the fabric meets Ministry of Defence specification requirements.

It is the responsibility of the prime contractor to ensure that the fabric used for the production of camouflage uniforms continues to meet the specification for the finished items.

Mr. Neil Turner: To ask the Secretary of State for Defence how many additional people have been taken on by *(a)* Coonen Textiles and *(b)* Watt and Stone Ltd as a result of the award to them of the cut and sew camouflage uniform contract. [215289]

Mr. Ingram: So far 17 new jobs have been created within Cooneen Watts & Stone Ltd as a result of this contract award, and in addition approximately 40 jobs have been safeguarded. It is anticipated that further jobs will be created during the life of the contract.

CULTURE, MEDIA AND SPORT

Composers (Television Programmes)

John Robertson: To ask the Secretary of State for Culture, Media and Sport if she will ask Ofcom to introduce a code of practice on contracts for composers commissioned to write music for television programmes. [217423]

Mr. Caborn: No. This is a competition matter and I understand it is currently the subject of a complaint to the Office of Fair Trading. Under their concurrency arrangement with the OFT, Ofcom will keep in touch with them on the matter. The Department has no powers to intervene in this area.

FOREIGN AND COMMONWEALTH AFFAIRS

Asian Tsunami

Mr. Oaten: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the Government provided for *(a)* support and *(b)* repatriation of British citizens in the first week after the Asian tsunami. [217037]

Mr. Mullin *[holding answer 21 February 2005]:* The total cost incurred in providing support to British citizens in the first week after the Asian tsunami is not yet available. Cost information is still being collected from those who provided assistance, including the Foreign and Commonwealth Office (FCO), other Government Departments, the police, local authorities and non-government organisations. The support effort continues and we expect the costs to amount to many millions of pounds. Assistance provided is outlined as follows:

The Emergency Response Team in the FCO was fully staffed and operating from 08.30 on 26 December with the telephone number advertised nationally. The Metropolitan Police Casualty Bureau was operational on a 24/7 basis, with up to 50 police call handlers on duty by 15.00 on 26 December.

14 Rapid Deployment Team (RDT) members were deployed to Sri Lanka on 26 December and 28 December. Further RDT support was deployed on 5 January. Two Disaster Victim Identification teams were deployed to Sri Lanka and Thailand on 29 December. Over 30 officers were deployed from other Missions to Thailand during the immediate crisis period. A temporary office was set up in a Phuket hotel at monthly rental of about £48,000.

From 1–6 January, 13 Police Family Liaison Officers (FLOs) were deployed overseas. 378 FLOs have been deployed in the UK and overseas to date.

BA charter flights from Bangkok and Brussels returned British citizens to the UK on 30 December and 31 December at a cost of approximately £215,000.

10 refrigerated units to store victims remains were sent to the region on 31 December at an initial cost of about £230,000.

A package to help victims of the Tsunami or their families was put in place on 28 December which includes assistance for: hospital expenses and medical repatriation; repatriation of the deceased in the absence of insurance; and for two family members to travel to the region.

Belarus

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs which Minister will be attending the meeting to be hosted by Lithuania in March in respect of the future of EU relations with Belarus; and if he will make a statement. [217422]

Mr. MacShane: We have not yet received a formal invitation to attend any event in Lithuania.

Burma

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of

24 January 2005, *Official Report*, column 147W, on Burma, for what reasons he will not provide the information requested. [215335]

Mr. Alexander: As the hon. Member will know, it is not our practice to disclose details of the positions taken by other member states in internal EU discussions. I therefore have nothing to add to my right hon. Friend the Foreign Secretary's earlier statement.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter dated 10 November 2004 from the right hon. Member for Manchester, Gorton with regard to Mr S. Akhtar, transferred from the Home Department. [217283]

Mr. Mullin: I replied to my right hon. Friend on 21 February.

Detained British Citizens

Mr. McNamara: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries in which British citizens and residents are being *(a)* lawfully and *(b)* unlawfully detained at the request of, or in co-operation with, the United States military or intelligence agencies; how many persons are detained in each country; and how many are under 18 years. [209046]

Mr. Mullin: We are aware of two British nationals being held as security internees by the coalition forces in Iraq. Both are held under the provisions of United Nations Security Council Resolution 1546.

We are aware of five British residents currently being detained by the US at Guantanamo Bay.

None of the above are under the age of 18.

European Public Bodies

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the activity of the European Maritime Safety Agency in the UK in the last 12 months; and if he will list its publications and newsletters published over that period. [215228]

Mr. Jamieson: I have been asked to reply.

European Maritime Safety Agency (EMSA) provides technical advice to the Commission and the member states on maritime safety and prevention of pollution by ships. It assists with updating and developing new EU legislation, monitoring its implementation and evaluating the effectiveness of measures in place. Key areas of the Agency's work and study programme in the last 12 months have included technical work on improving the Port State Control inspection regime; scrutiny of the performance of classification societies (ship inspection bodies); a study of the investigation of maritime accidents; development of a vessel traffic monitoring and information system; and workshops on counter-pollution response and goal based safety standards.

The Administrative Board of EMSA, comprising representatives of each member state, the Commission and the shipping industry, met three times during 2004. Minutes of these meetings are available on the EMSA website www.emsa.eu.net together with details of the Agency's 2004 and 2005 work plans. EMSA's technical publications will also be available on its website.

Gibraltar

Mr. Alan Duncan: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure that the legal system in Gibraltar prevents discrimination on the grounds of sexual orientation. [217340]

Mr. MacShane: Under the constitutional reform proposals, an assessment of the powers required by the UK Government will take full account of the fact that the UK is responsible for Gibraltar's compliance with EU law, including ultimately before the European Court of Justice. We wish to ensure that Gibraltar's constitution is in line with its international obligations, including the European Convention of Human Rights.

We have previously told the Gibraltar Government that we believe the age of consent should be equalised for homosexual and heterosexual couples to avoid a potential breach of Articles 8 and 14 of the European Convention on Human Rights.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the length of queues at the border crossing between Spain and Gibraltar and *(b)* the average time taken to cross the border. [216061]

Mr. MacShane: The average delay during the day is between 15 to 30 minutes. However traffic delays occur at peak times of the day and particularly in the summer months, sometimes for up to two hours. This is unacceptable.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress in discussions with the Spanish authorities on repairs to the Royal Navy submarine docked in Gibraltar. [216062]

Mr. MacShane: HMS Sceptre left Gibraltar on 9 February as scheduled. Officials from Spain, the UK and the Chief Minister of Gibraltar discussed the issue of submarine visits to Gibraltar at the tripartite talks in Malaga on 10 February.

International Criminal Tribunal

Mr. Chaytor: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with other EU governments about the transfer of Ante Gotovina to the International Criminal Tribunal for War Crimes in the former Yugoslavia at The Hague. [214717]

Mr. MacShane: The UK Government shares the International Criminal Tribunal for the former Yugoslavia (ICTY) Chief Prosecutor's concerns about the lack of full Croatian co-operation with the ICTY, as

reported to the UN Security Council in November 2004. I have had several conversations with EU member governments about the need to encourage Croatia to accept its international responsibility to deliver Ante Gotovina to The Hague as soon as possible, in order that negotiations can begin as planned on 17 March. Statements by successive meetings of the General Affairs and External Relations Council have upheld this obligation, which I welcome.

I also refer my hon. Friend to the answer I gave to my hon. Friend the Member for Western Isles (Mr. MacDonald) on 3 February 2005, *Official Report*, column 1105W.

Iraq

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of people killed in Iraq between 20 March 2003 and 4 April 2004, including Iraqis, coalition forces and other nationalities; and what sources he has used in calculating this figure. [210527]

Mr. Rammell: We have no way of reliably estimating the total number of Iraqi civilians killed between 20 March 2003 and 4 April 2004. I refer the hon. Member to the statement made by my right hon. Friend the Foreign Secretary on this subject of 17 November 2004, *Official Report*, columns 92–95WS and the reply given by my right hon. Friend the Minister for Armed Forces (Mr. Caplin) on 27 January 2005, *Official Report*, column 541W to the hon. Member for Mid Norfolk (Mr. Simpson).

We understand from the Ministry of Defence that the number of UK service personnel killed between 20 March 2003 and 4 April 2004 is 59. The Ministry of Defence state that they do not keep records of Multi-National or coalition forces killed in Iraq. However, they say that open sources show that 721 Multi-National or coalition forces, including UK service personnel, were killed during that period.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the net migration into the Kurdish area of northern Iraq since 2003; and if he will make a statement. [213241]

Mr. Rammell: We have no information on migration into the Kurdish area of northern Iraq since 2003. To research this question further would involve our posts making extensive inquiries and commissioning specific research which could be done only at disproportionate cost.

Kurds

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the number of Kurdish people who *(a)* migrated from the northern part of Iraq during the Saddam Hussein regime to (i) Iran, (ii) Turkey, (iii) Syria and (iv) other countries and *(b)* have migrated to the northern part of Iraq since the end of the Saddam Hussein regime from (A) Iran, (B) Turkey, (C) Syria and (D) other countries; and if he will make a statement. [213236]

Mr. Rammell: We have asked our posts in the relevant countries, and UKDel Geneva, to obtain the information requested from the UN High Commission for Refugees (UNHCR). It has become clear from the information received that the available figures are incomplete. Furthermore, the categories used to collect data vary from country to country, making it extremely difficult to collate comparable statistics. In many cases, the figures for the ethnic background of refugees are unreliable and the Kurdish element in the overall total for refugees from Iraq is not identified. To obtain further information would involve our posts making extensive inquiries and commissioning specific research which could be compiled only at disproportionate cost. The information that we have obtained is set out as follows.

In Iran, in early 2003, before the "mainly" spontaneous repatriation movement, the UNHCR estimates that there were 63,000 camp based and identified non-camp based Iraqi Kurdish refugees. The UNHCR estimates that there are currently 20,000 Iraqi Kurds still in Iran. The UNHCR estimates that there are also some 8,000 Faili Iraqi Kurds in Iran. Some of these are included in the overall number of Iraqi Kurds.

In Syria, the largest single influx of Iraqi refugees occurred in 1991, when about 8,000 persons, mainly Kurds, arrived. There are currently 234 Kurds registered with the UNHCR office in Damascus.

In Turkey, the UNHCRs active caseload of Iraqi refugees and asylum-seekers totals 1,576 persons, of whom 227 (14.4 per cent.) are ethnic Kurds. The UNHCR in Turkey has also registered 1,146 Iranian refugees who previously resided in Iraq for varying periods. These refugees are ethnic Kurds who entered Turkey between 2001 and 2003, prior to the onset of hostilities.

Middle East

Diana Organ: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what progress has been made in ensuring that women are represented at the Palestine/Israel peace negotiations; [216907]

(2) whether he supports UN Resolution 1325, calling for women to be represented at the Palestine/Israel peace talks; [216908]

(3) what representations he has received concerning UN Resolution 1325, on representation of women at the Palestine/Israel peace talks. [216909]

Mr. Rammell: We supported UN Security Council Resolution (UNSCR) 1325 on the role of women in the prevention and resolution of conflicts. We are not aware of any representations to British Ministers concerning the application of UNSCR 1325 to the Middle East Peace Process. However, we support efforts to integrate women into the peace process.

We welcome the participation of Palestinian women in the municipal elections which took place in the West Bank on 23 December 2004. 46 of the 306 newly elected councillors are women. Around half of them won their seats owing to a provision in the electoral law reserving

at least two seats per council to women. We wish to see women continuing to play an active role in the Middle East peace process.

Nepal

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received regarding the whereabouts of Krishna Pahadi, founding chairman of the Human Rights and Peace Society of Nepal; and if he will make a statement. [216709]

Mr. Alexander: Krishna Pahadi was arrested on 9 February and taken from the offices of the Human Rights and Peace Society of Nepal. We have made inquiries, but do not know where he is being held.

Immediately after the takeover of power by the King we issued a statement with our EU partners which expressed our grave concerns about restrictions on liberty and calling for human rights to be respected. Our ambassador in Kathmandu raised these issues, including the detention of activists and political leaders, directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised this with the new Nepalese Foreign Minister on 7 February.

We are at present uncertain how many human rights activists are being detained but we are keeping the situation under review and will continue to press for the immediate release of all political and human rights detainees.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* representatives of the UK Government have had with (i) members and (ii) representatives of the (A) Government and (B) royal family of Nepal regarding the whereabouts of Krishna Pahadi, founding chairman of the Human Rights and Peace Society of Nepal; and if he will make a statement. [216710]

Mr. Alexander: In an audience with the King on 8 February, our ambassador in Nepal raised our concerns about the suspension of civil liberties and called for the immediate release of all political and human rights detainees. In my statement of 1 February, I expressed the UK Government's grave concerns about the situation in Nepal and called for the immediate restitution of multi-party democracy. We understand that Krishna Pahadi was arrested on 9 February and have sought to find out where he is being detained. We will continue to press for the release of all political and human rights detainees.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of *(a)* the number of people (i) arrested and (ii) detained under house arrest since the dissolution of the Government of Nepal by King Gyanendra on 1 February and *(b)* how many of these people are members of the (A) Communist Unified Marxist-Leninist Party and (B) People's Front; and if he will make a statement. [216731]

Mr. Alexander: On the information available to us we estimate that around 125 people were arrested following the actions by the King of Nepal on 1 February 2005, of whom nine were detained under house arrest. Because of media and other restrictions, we may not be aware of all those arrested, especially outside Kathmandu. Of the 125, 19 were members of the Unified Marxist Leninist party and one was a member of the United People's Front. A number of those detainees have now been released, although some party leaders still remain in detention.

Immediately after the takeover of power by the King we issued a statement with our EU partners which expressed our grave concerns about restrictions on liberty and calling for human rights to be respected. Our Ambassador in Kathmandu raised our concerns, including the detention of political leaders, directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised this with the new Nepalese Foreign Minister on 7 February.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the terms of the state of emergency proclaimed by King Gyanendra in Nepal on 1 February, with particular reference to public meetings and demonstrations; and if he will make a statement. [216732]

Mr. Alexander: The King's takeover of power in Nepal on 1 February was accompanied by the imposition of a state of emergency which included the suspension of many fundamental rights. These included the right to association, the right to freedom of expression, the right to property, the right against preventative detention and the rights of the press.

The UK is deeply concerned by the measures taken under the state of emergency and believes they undermine the institutions of democracy and increase the risk of instability in Nepal. Our Ambassador in Kathmandu raised our concerns directly with the King in an audience on 8 February. On 14 February my right hon. Friend the Foreign Secretary announced that we were recalling our Ambassador from Kathmandu for consultations in view of the seriousness of the situation.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the willingness of the leadership of the Royal Nepal Army to negotiate with the Maoists. [217323]

Mr. Alexander: The King's move to dismiss the Prime Minister and assume power outside the framework of a multi-party democratic system will unfortunately, probably put back the prospect of any negotiated settlement. In our view negotiation with the Maoists should be the responsibility of a representative civilian government, to which the Royal Nepalese Army is accountable.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what type of UK military personnel have worked with the Royal Nepalese Army during the past 12 months. [217324]

Mr. Alexander: In the past 12 months 20 UK military personnel have visited Nepal to assist and train the Royal Nepalese Army. This includes mechanical,

electrical and stores specialists, and one person who attended a mountain warfare course run by the Nepalese military. There have also been some individual visits in relation to the supply of short take-off and landing aircraft to the Government of Nepal.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likelihood of military success by the Royal Nepal Army against the Maoists. [217329]

Mr. Alexander: The UK has consistently held the view that there can be no military resolution and that a negotiated political settlement involving all parties offers the best way to resolve the conflict in Nepal and to create a stable democracy with good governance and respect for human rights. We will continue to press all parties for an early return to negotiations.

Somalia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* impact on the stability of Somalia of and *(b)* likelihood of delays to the planned move of the Somali Government from Kenya to Somalia as announced by Prime Minister Mohamed Ali Gedi on 9 February; and if he will make a statement. [216728]

Mr. Mullin: We welcome Prime Minister Gedi's statement that the Transitional Federal Government will begin to return to Somalia on 21 February. We believe the establishment of a functioning government will help to restore stability and law and order and bring about an improvement in economic conditions for the population. Security remains a key concern, but discussions inside and outside Somalia are under way to assist the process of stabilisation and demilitarisation.

Any judgment as to the timing of the move must be for the Transitional Federal Government. Delays are possible but a successful outcome will be more important than timing.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the efforts undertaken by the *(a)* African Union and *(b)* Arab League to facilitate the move of the Somali Government from Kenya to Somalia on 21 February; and if he will make a statement. [216729]

Mr. Mullin: The African Union is actively supporting the Somalia peace and reconciliation process and has offered to provide a Peace Support Mission. It has also mandated the Inter-Governmental Group on Development countries, Djibouti, Ethiopia, Kenya, Sudan and Uganda to provide troops and/or equipment as an interim peace support mission to provide security for the Transitional Federal Government after its relocation to Somalia.

The Arab League has also been asked by the Transitional Federal Government to provide peace support, and is considering the request.

Any deployment would be subject to confirmation by the Somali Parliament and UN Security Council authorisation.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance *(a)* the UK and *(b)* the EU (i) have offered, (ii) are delivering and (iii) will be delivering to facilitate (A) the move of the Somali Government from Kenya to Somalia on 21 February and (B) the normalisation of the situation in Somalia after the government's move; and if he will make a statement. [216730]

Mr. Mullin: The British contribution to the reconciliation process leading to the creation of the Transitional Federal Government (TFG) will be £365,000. Further assistance for the Government's relocation to Somalia and its immediate needs has been set aside, but the scale and timing of the disbursements will have to be decided in consultation with the TFG and in the light of developments. Further substantial UK bilateral aid to Somalia will be available if the TFG can create the security conditions in which it can be delivered effectively.

A number of European Union member states as well as other members of the International Community have contributed to the reconciliation process and are considering making further contributions. The European Commission has been the principal donor of EU funds to the Somali National Reconciliation Conference, including for the relocation of MPs and conference delegates; and is considering how it may support the Transitional Federal Government's relocation plans.

Uganda

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the government of Uganda regarding *(a)* military incursions into the Democratic Republic of the Congo (DRC) and *(b)* the illegal exploitation of natural resources from the DRC. [216916]

Mr. Mullin: We regularly discuss the Democratic Republic of Congo (DRC) with the Ugandan Government. I last raised the subject with President Museveni during my visit to Uganda in August. We have consistently reminded Uganda to play a constructive role in the DRC peace process, and of its obligations to respect the DRC's territorial integrity.

We are working to end the illegal exploitation of natural resources so that the DRC's mineral wealth can be used for the benefit of the Congolese people. We have urged regional governments on several occasions to do more to prevent illegal resource exploitation.

Venezuala

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Venezuela on further entrenchment of democracy in the region. [215759]

Mr. Rammell: During my recent visit to Venezuela, I encouraged the Venezuelan Government to work for national reconciliation following the presidential recall referendum in 2004.

We continue to work with governments, NGOs and other donors on good governance issues in Venezuela and the wider region.

Further details about the Foreign and Commonwealth Office's (FCO) work in the field of promoting democracy are contained in Chapter 8 of the FCO's annual human rights report for 2004, available on the FCO website at: www.fco.gov.uk/humanrights.

CABINET OFFICE

Freedom of Information

Dr. Julian Lewis: To ask the Chancellor of the Duchy of Lancaster what involvement he has had in co-ordinating policy across Departments in respect of the answering of requests made under the Freedom of Information Act 2000. [217135]

Mr. Milburn *[holding answer 21 February 2005]:* The Secretary of State for Constitutional Affairs and Lord Chancellor has the policy lead on the Freedom of Information Act 2000.

I am a member of the Cabinet Committee MISC 28 whose terms of reference are to

> "oversee the Government's strategy of Freedom of Information and the commencement of the Freedom of Information Act 2000".

Government Vehicles

Mr. Hammond: To ask the Minister for the Cabinet Office (1) what recent representations he has received concerning the external marking of dual fuel vehicles within the Government car fleet; [216622]

(2) what steps he is taking to ensure that dual fuel vehicles in the Government car fleet are externally marked as such for the protection of fire fighters in the event of a fire or accident involving such vehicles. [216623]

Mr. Miliband: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and Despatch Agency. I have asked its Chief Executive Mr. Nick Matheson to write to the hon. Member. Copies of his letter will be placed in the Library and will be printed in the *Official Report*.

Letter from Nick Matheson to Mr. Philip Hammond, dated 23 February 2005:

The Minister for the Cabinet Office has asked me in my capacity as the Chief Executive responsible for the Government Car and Despatch Agency (GCDA) to reply to your Parliamentary Questions the external marking of LPG powered cars.

GCDA has received no representations about the external marking of LPG powered vehicles. There is no legal requirement for such vehicles to be externally marked and so we do not add any extra markings to our car fleet over and above those provided by the manufacturers or LPG converter companies.

Staff Training

Mr. George Osborne: To ask the Minister for the Cabinet Office what the costs of departmental *(a)* staff training days and *(b)* staff development days held away from the Department were in each year since 1997. [213789]

Mr. Miliband: The Cabinet Office is committed to providing access to training for staff and developing them to their full potential. However, it is not possible to provide information on costs of staff training days and staff development days held away from the Department since 1997, as these costs are not separately identifiable on the Department's accounting system. It cannot therefore be readily retrieved without incurring disproportionate cost.

Targets

Mr. George Osborne: To ask the Minister for the Cabinet Office how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215801]

Mr. Miliband: I refer the hon. Member to the answer he received from my hon. Friend the Financial Secretary of the Treasury (Mr. Timms) on 21 February 2005, *Official Report*, column 75W.

WORK AND PENSIONS

Access to Work

Paul Holmes: To ask the Secretary of State for Work and Pensions what the take-up of the *(a)* Access to Work Scheme, *(b)* Job Introduction Scheme and *(c)* New Deal for Disabled People was in each region in the latest period for which figures are available; and how many requests for early entry into (i) other New Deal programmes and (ii) Workstep were received. [214638]

Maria Eagle: The available information on the take-up of the Access to Work programme, the Job Introduction Scheme and the New Deal for Disabled People programme is in the tables.

Access to Work—starts to the programme

Jobcentre Plus region/country	*New beneficiaries—from April 2003 to March 2004*	*Existing beneficiaries—on 31 March 2003*	*Total*
East of England	967	1,289	2,256
East Midlands	1,699	988	2,687
London	1,058	2,207	3,265
North East	750	743	1,493
North West	1,637	2,562	4,199
Scotland	1,475	2,396	3,871
South East	1,546	2,225	3,771
South West	1,695	1,758	3,453

Access to Work—starts to the programme

Jobcentre Plus region/country	New beneficiaries—from April 2003 to March 2004	Existing beneficiaries—on 31 March 2003	Total
Wales	973	2,537	3,510
West Midlands	1,279	1,426	2,705
Yorkshire and Humber	2,354	1,280	3,634
Total	15,433	19,411	34,844

Notes:
1. New beneficiary figures relate to people receiving Access to Work assistance for the first time, and data are for the financial year April 2003-March 2004.
2. Existing beneficiary figures relate to people who were new beneficiaries in a previous financial year and who continued to receive help in the financial year April 2003-March 2004.
3. Data provided are for the latest complete financial year.

Job Introduction Scheme—spend and average numbers helped

Jobcentre Plus region/country	Total spend (£)	Average numbers helped
East of England	60,992	135
East Midlands	41,879	95
London	42,577	95
North East	90,356	200
North West	63,503	140
Scotland	98,346	220
South East	103,971	230
South West	82,931	185
Wales	93,914	210
West Midlands	125,915	280
Yorkshire and Humber	90,370	200
Total	894,755	1,990

Notes:
1. Information on numbers of people starting the Job Introduction Scheme is not collected. Figures for numbers helped through the Job Introduction Scheme are based on a Job Introduction Scheme participant spending an average period of six weeks on the programme at a cost of £75 per week.
2. Expenditure figures are rounded to the nearest thousand.
3. Average numbers helped figures are rounded to the nearest five.

DWP Information Directorate

There is no early entry criteria for the New Deal 50 plus programme and all entrants must have been in receipt of a relevant qualifying benefit for six months. People joining New Deal for Disabled People can have immediate entry as long as they are in receipt of a qualifying benefit. People joining New Deal for Partners can have immediate entry to the programme as soon as their partner makes a claim for a qualifying benefit. All single parents with a youngest child under the age of 16, who are not working, or working less than 16 hours a week, can join New Deal for Lone Parents immediately.

There are a range of eligibility criteria for entry onto the Workstep programme. However, when a person does not meet the criteria, discretionary decisions can be made to enable early entry to take place. Between 1 April 2003 and 31 March 2004, a total of 59 discretionary decision applications were received by Jobcentre Plus, of which 54 were accepted. Between 1 April 2004 and 31 December 2004, a total of 115 discretionary decision applications were received, of which 109 were accepted.

Information on early entrants to the New Deal for Young People and New Deal 25 plus programmes is in the table.

Early entrants to New Deal for Young People and New Deal 25 plus

	New Deal for Young People	New Deal 25 plus
Total starts	160,660	95,820
of which:		
Early entrants	29,590	20,000

Notes:
1. Data refer to the period October 2003-September 2004—latest available figures.
2. Figures refer to total starts and could include people who have started these programmes more than once.

Incapacity Benefit

Paul Holmes: To ask the Secretary of State for Work and Pensions how many people received incapacity benefit in each *(a)* local authority and *(b)* parliamentary constituency in the last period for which figures are available; and what proportion of the working population these totals amounted to in each case. [214639]

Maria Eagle: Working age population estimates are not available by parliamentary constituency. The available information has been placed in the Library.

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many people who received incapacity benefit had a net benefit receipt of *(a)* zero and *(b)* less than £20 a week after assessment with other means-tested benefits in the last period for which figures are available. [215056]

Maria Eagle: The available information is in the tables.

Working age claimants of incapacity benefit (IB) or severe disablement allowance (SDA) by amount of income support received: August 2004

Number

	All IB/SDA claimants	*IB/SDA claimants not also in receipt of income support*	*IB/SDA claimants also in receipt of income support*
All IB/SDA claimants	2,661,000	1,390,300	1,270,700
Weekly amount of income support			
Zero	1,390,300	1,390,300	n/a
£0.01 to £19.99	167,800	n/a	167,800
£20 and over	1,102,900	n/a	1,102,900

n/a = Not applicable.

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding
2. Working age claimants are men aged 16–64 and women aged 16–59.

Information Directorate, 5 per cent. Working Age Client Group sample.

Housing benefit (HB) and council tax benefit (CTB) recipients also claiming incapacity benefit (IB) or severe disability allowance (SDA) by weekly amount of HB/CTB, and whether or not income support is also in payment: May 2003

Number

	All IB/SDA claimants also in receipt of HB/CTB	*IB/SDA claimants also in receipt of HB/CTB but not also in receipt of income support*	*IB/SDA claimants also in receipt of HB/CTB and also in receipt of income support*
All IB/SDA claimants also in receipt of HB/CTB	670,000	280,000	390,000
Weekly amount of HB/CTB			
£0.01 to £19.99	150,000	60,000	90,000
£20 and over	510,000	220,000	290,000

Notes:

1. Figures are rounded to the nearest ten thousand. The totals may not sum due to rounding.
2. The figures are based on a one per cent sample and are therefore subject to a degree of sampling variation.
3. The data refers to benefit units, which may be a single person or a couple.
4. Council tax benefit totals exclude any second adult rebate cases.
5. Housing benefit figures exclude any extended payment cases.
6. All overlaps between HB and CTB recipients have been removed.

Housing benefit and council tax benefit management information system, annual one per cent sample, taken in May 2003.

Paul Holmes: To ask the Secretary of State for Work and Pensions what the average time taken is for the completion of a personal capability assessment for *(a)* incapacity benefit claimants and *(b)* income support claimants in each year since 1997. [215110]

Maria Eagle: Doctors spend as long as is required to carry out an appropriate assessment for each individual claimant. Some types of disabling conditions will take longer than others to assess, depending on the nature of the individual's physical and/or mental disabilities.

No breakdown is available by which benefit is in payment.

The available information is in the table.

National average time taken to complete the personal capability assessment

	Minutes
2000	37.8
2001	37.1
2002	35.2
2003	35.8
2004 (January to August)	36.9

Note:

The information requested is not available for the period 1997 to 1999

Source:

Atos Origin

Mr. Flight: To ask the Secretary of State for Work and Pensions (1) what the average time taken to process a claim for incapacity benefit was in each year since 1975; [215246]

(2) what the average time taken to process a claim for income support was in each year since 1975; [215250]

(3) what the average time taken to process a claim for income-based jobseeker's allowance was in each year since 1975; [215251]

(4) what the average time taken to process a claim for contribution-based jobseeker's allowance was in each year since 1975. [215252]

Mr. Pond: The administration of Jobcentre Plus is a matter for the chief executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Howard Flight, dated 23 February 2005:

The Secretary of State has asked me to reply directly to your questions concerning the average time taken to process a claim for Incapacity Benefit, Income Support, Income-Based Jobseeker's Allowance and Contribution-Based Jobseeker's Allowance in each year since 1975. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus sets internal performance measures for managing its workloads in addition to the published targets set by Ministers. These internal measures include clearance times for Incapacity Benefit, Income Support and Jobseeker's Allowance. Currently, these internal measures are being met.

You will see from the following tables that the Average Actual Clearance Time for each of the benefits shown has increased, although our performance targets are still being met. The upward trend in clearance times reflects the greater emphasis on secure and accurate payment of benefit. Changes to the Claims and Payments regulations in 1997 put the onus of proof on customers to provide supporting evidence for a claim.

Increasing effort has been applied to enforcing this regime and we believe that this has been reflected in reductions in fraud (fraud and error losses have reduced by 37 per cent. between 1998 and 2004).

There has also been a significant period of change across the Department; the creation of Jobcentre Plus and The Pension Service involved considerable movement of staff between the two agencies and consequently required the training

of new benefit processing officers.

Incapacity Benefit

Figures are only available from April 1998. The available information is in the table.

Average processing times for incapacity benefit claims.

Calendar year	*Average actual clearance time (days)*
April-December 1998	11.9
1999	15.9
2000	16.0
2001	15.7
2002	16.2
2003	15.7
2004	16.9

Source:
Central Data Unit for figures up to and including July 2004; Management Information Systems Programme 04 (MISP04) from August 2004 to December 2004.

Income Support

Figures are only available from April 1994. The available information is in the table.

Average processing times for income support claims

Calendar year	*Average actual clearance time (days)*
April to December 1994	5.6
1995	6.1
1996	7.0
1997	7.6
1998	8.8
1999	9.2
2000	9.2
2001	9.9
2002	8.7
2003	10.3
2004	10.9

Source:
Central Data Unit for figures up to and including July 2004; Management Information Systems Programme 04 (MISP04) from August 2004 to December 2004.

Jobseeker's Allowance

Figures are not available broken down by type of Jobseeker's Allowance. Figures are only available from 1997. The available information is in the table.

Average processing times for jobseeker's allowance claims

Calendar year	*Average actual clearance time (days)*
1997	8.1
1998	8.7
1999	9.7
2000	9.1
2001	9.6
2002	10.2
2003	10.8
2004	12.0

Source:
Central Data Unit for figures up to and including July 2004; Management Information Systems Programme 04 (MISP04) from August 2004 to December 2004.

I hope this is helpful.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will list other benefits available to incapacity benefit recipients; and what changes there have been in recipient numbers of each benefit in each of the last five years. [217425]

Maria Eagle: The key benefits available to incapacity benefit claimants are income support, disability living allowance, housing benefit and council tax benefit. The information on the total numbers receiving these benefits is in the table.

Income support, disability living allowance, housing benefit and council tax benefit caseloads in Great Britain, 2000–04 (at May each year)

As at May:	*Income support*	*Disability living allowance*	*Housing benefit*	*Council tax benefit*
2000	3,810,500	2,130,500	4,033,300	4,830,100
2001	3,927,900	2,240,500	3,874,400	4,673,400
2002	3,929,800	2,353,500	3,812,600	4,601,700
2003	3,982,200	2,475,000	3,796,400	4,627,800
2004	2,171,500	2,585,800	3,879,400	4,800,200

Notes:
1. Figures are rounded to the nearest 100.
2. The data refers to benefit units, which may be a single person or a couple.
3. From November 2003 income support figures are severely affected by the introduction of pension credit, which replaced minimum income guarantee on 6 October 2003. Pension credit cases are not included in the figures in the table.
4. Disability living allowance figures are adjusted to take out late terminations.
5. Housing benefit and council tax benefit figures for any non-responding authorities have been estimated.
6. Council tax benefit totals exclude any second adult rebate cases.
7. Housing benefit figures exclude any extended payment cases.

Source:
Information Directorate, 5 per cent. samples and Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in May 2000 to 2004.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many people left incapacity benefit, broken down by destination, in the last period for which figures are available. [217426]

Maria Eagle: The available information is in the following table.

All incapacity benefit and severe disability allowance terminations in the quarter ending 31 August 2004, by reason for termination

	Number
All terminations	125,300
Closed certificate	35,700
Death of claimant	7,100
Retirement pension award	16,700
At request of claimant	15,200
Did not attend medical	8,500
Did not return questionnaire	3,700
Failed own occupation test	800
Failed personal capability assessment	27,600
Return to work and also applied for 52-week linking	6,600
Other reason	3,300

Notes:
1. Figures are rounded to the nearest 100. Totals may not sum due to rounding.

2. Figures include all incapacity benefit, severe disability allowance and credits-only cases.

3. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total incapacity benefit only terminations for August 2003 increased by 34 per cent. in the year following their initial release.

Source:

Information Directorate, 5 per cent. sample.

Income-related Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the budget has been for *(a)* income support, *(b)* the disability premium, *(c)* incapacity benefit and *(d)* other income-related benefits in each of the past five years. [217424]

Mr. Pond: The available information is in the following table.

Benefit expenditure in real terms, 2004–05 prices — *£ million*

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Income support for people aged under 60	9,346	10,044	10,434	10,239	10,369
Of which:					
With a disability premium	4,057	4,398	4,701	4,563	4,719
Income support/minimum income guarantee/pension credit for people aged 60 and over	4,256	4,557	4,868	4,708	4,896
Incapacity benefit	7,644	7,530	7,324	7,095	6,861
Jobseeker's allowance (income-based)	3,148	2,710	2,318	2,210	2,091
Housing benefit and discretionary housing payments	12,457	12,426	12,577	13,268	12,722
Council tax benefit	2,827	2,865	2,914	2,975	3,342

Notes:

1. All figures have been rounded to the nearest million pound.
2. Figures quoted for 1999–2000 to 2002–03 are actual outturn and those quoted 2003–04 are estimated outturn.
3. Income support expenditure has been provided separately for people aged under 60 and people aged 60 and over. Expenditure for those aged 60 and over includes minimum income guarantee and pension credit.
4. It is not possible to accurately state expenditure on the disability premium paid within income support. Rather than make any assumptions about the level of disability premium expenditure, all expenditure on people who receive a disability premium has been included.
5. Incapacity benefit is not an income-related benefit.

Source: DWP expenditure tables.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many people in receipt of income support with disability premium left the benefit, broken down by destination, in the last period for which figures are available. [217427]

Mr. Pond: The information is in the table.

Terminations of income support (IS) with disability-premium (DP) claimants between 1 December 2003 to 29 February 2004

	Number
All IS DP terminations in period	44,800
Moved to jobseekers allowance within 91 days of termination	4,000
Moved to IS and/or incapacity benefit within 91 days of termination	10,400
Moved to pension credit within 91 days of termination	6,700
Other destination	23,700

Notes:

1. Figures are rounded to the nearest hundred and are subject to a degree of sampling variation.
2. The data refers to benefit units, which may be a single person or a couple.
3. Only the first destination has been taken into account. The claimant may have had more than one benefit claim to one or more benefits within the 91 day period. However we have recorded their first claim only.
4. Other destinations are all claimants who have not had a claim to jobseekers allowance, income support, incapacity benefit or pension credit within 91 days of their IS DP claim terminating. They may have returned to one of these benefits at a later date, received another benefit, started employment, died, or left income support for an unknown reason.

Source:

Information Directorate, 5 per cent. "Terminations' dataset

Pathways to Work

Paul Holmes: To ask the Secretary of State for Work and Pensions how much his Department has spent on the Pathways to Work Programme since it was created; what his estimated expenditure on these pilots is for the next three years; and what the cost has been *(a)* per client and *(b)* per incapacity benefit claimant in the relevant area. [214634]

Maria Eagle: The information concerning expenditure is in the tables.

Expenditure on Pathway to Work pilots

	£
Jobcentre Plus services	16,252,190
Customer payments	6,154,550
Other categories of payment	24,586,450
Total	46,993,190

Note:

1. The figure for Jobcentre Plus services is actual spend. The figures shown for customer payments and other categories are estimated. These estimates are based on the anticipated volume of customers who will access the various elements of provision and the average cost of that provision.

Source:

DWP administrative data.

Estimated expenditure on Pathway to Work pilots over the next three years

	£
2005–06	84,300,000
2006–07	148,800,000
2007–08	165,900,000

Note:

These estimates are based on the anticipated volume of customers who will access the various elements of provision and the average cost of that provision.

As the pilots are still at a relatively early stage it is not possible to give a meaningful figure for the average cost per client or per incapacity benefit claimant in the relevant area. This is because there will be a disproportionate number of customers in the early stages of the pilot (compared to the steady state) and because early figures include an element of start-up costs.

Telephone Helplines

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many telephone helplines his Department sponsors; and how many calls each helpline received on the latest date for which figures are available. [212009]

Maria Eagle: The following table lists DWP helplines and the approximate number of inbound calls each helpline deals with on a weekly basis.

	Sites	*Approximate number inbound calls per week (network)*
Child Support Agency		
CSA national helpline	7	15,000
Disability and Carers Service		
Benefit inquiry line	1	33,200
Disability living allowance/attendance allowance	1	109,000
The Pension Service		
Pension centres	24	249,810
Pension credit application line (outsourced to Ventura)	1	46,840
Retirement pension teleclaims	1	11,478
Retirement pension forecasting team	1	29,516
Winter fuel helpline	1	10,866
Inherited SERPS	1	436
Pension guide orderline	1	542
Pension information line	1	1,453
Pensions direct	1	20,822
International pension centre	1	4,679
Jobcentre Plus		
Employer direct	11	41,538
Of which:		
From employers	—	38,100
From jobcentre plus offices	—	3,438
Jobcentre plus direct: jobseeker direct	17	220,855
Jobcentre plus direct: first contact	39	98,879
Debt Management		
Debt centres (debt recovery service which is not specifically a helpline service)	10	16,236
DWP		
National benefit fraud hotline	1	2,989

Note:
Figures are updated on a monthly basis and are correct as at 2 February 2005.

Correspondence

Mr. Webb: To ask the Secretary of State for Work and Pensions when the Parliamentary Under-Secretary of State for Disabled People will reply to the letter of 13 December from the hon. Member for Northavon regarding a constituent, Karen Walker. [217430]

Maria Eagle: I have replied to the hon. Member today.

New Deal

Paul Holmes: To ask the Secretary of State for Work and Pensions how many and what percentage of people who entered the new deal for *(a)* young people and *(b)* partners have found sustained employment since each programme was launched (i) in total and (ii) broken down by constituency. [216944]

Jane Kennedy: The new deal has been successful in helping more than 1.2 million people into work and new deal for young people has contributed to this success by helping more than half a million young people into employment.

People who return to jobseeker's allowance after finding a job through the new deal have added to their skills and experience, making it easier for them to find a job in the future. In addition, when they re-enter the new deal, people move into work sooner than they did the first time they were on the programme because they have recent experience of work, and have more jobsearch skills.

Between April 1999 and March 2004, 7,820 people started the new deal for partners programme, of which 1,870 people have gained a job. Information on new deal for partners is not available at constituency level. A measure of sustainability is not available for new deal for partners.

The available information has been placed in the Library.

Five-year Strategy

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) whether, under the plans published in his Department's five-year strategy, a claimant suffering from a condition which is serious enough to prevent them from doing any kind of work for a period of time, but which is expected to be temporary, would receive the rehabilitation support allowance or the disability and sickness allowance; [215547]

(2) what scope there would be, under the plans published in his Department's five-year strategy, for claimants to move from the rehabilitation support allowance to the disability and sickness allowance and vice versa. [215568]

Maria Eagle: Rehabilitation and support allowance will be for people with less severe impairments that can be well managed with the right support and so need not be a major long- term obstacle to getting back to work. Disability and sickness allowance will focus more on those with the most severe impairments where the health problem or disability will, for some time, form a very significant obstacle to getting back to work. However, we know many people with severe impairments still do work, and want to do so. Disability and sickness allowance recipients will still be able to access any appropriate programme or financial support.

The basis of the division between the two benefits will be the severity of functional limitation as a result of a health condition or disability. Much more detailed work and consultation will be required in order for us to establish a settled boundary between the two allowances and how we provide for movement between the two.

CONSTITUTIONAL AFFAIRS

Judicial Appointments

Paddy Tipping: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many *(a)* full-time and *(b)* part-time judicial officer appointments have been made in each year since 1975. [215189]

Mr. Lammy *[pursuant to his reply, 9 February 2005, c. 1609W]:* I listed incorrect figures in tables 1A, 1B and 2. The amendments are now underlined in tables 1A, 1B and 2 as follows.

Table 2 is also amended to clearly show the separate figures for the Lord Chancellor's appointment of lay magistrates (excluding the Duchy of Lancaster) and appointments made in the Duchy of Lancaster (for which the Lord Chancellor does not appoint).

Tables 1A and 1B show full-time appointments for the calendar years 1975–1997. The figures include appointments of Judicial officers to full-time Tribunal posts for Tribunals administered by DCA (formerly Lord Chancellor's Department) but exclude those administered by other Government Departments (such as the Employment Tribunal and The Appeal Service and its pre 1999 predecessor The Independent Tribunal Service). These tables also include lay magistrates appointments from 1990 onwards.

The figures for the early years are drawn from very old records and as such cannot be verified as 100 per cent. correct.

Table 1A: 1975 to 1984

	Full-time appointments
1975	45
1976	46
1977	43
1978	57
1979	39
1980	65
1981	41
1982	53
1983	48
1984	62

Table 1B: 1985 to 1994 Full-time and Lay Magistrates appointments

	Full-time	*Lay magistrates*
1985	53	n/a
1986	82	n/a
1987	54	n/a
1988	60	n/a
1989	54	n/a
1990	55	2,059
1991	92	2,017
1992	120	2,070
1993	127	2,062
1994	91	1,593
1995	110	1,843
1996	100	1,682
1997	66	1,573

n/a = Not available.

Table 2: 1998–99 to 2003–04 Full-time, part-time (fee paid) and Lay Magistrates appointments

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Appointments in the Duchy of Lancaster	n/a	n/a	252	312	213	280
Total	1,278	1,423	1,618	1,786	1,623	1,758

n/a = Not available.

Sickness Absence

Mr. Hammond: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department is taking to reduce the numbers of sick days taken by staff in the Department. [216631]

Mr. Lammy: We are developing new attendance management policies and systems to be introduced in the spring. These will place greater accountability on managers to deal with absence and take into account recommendations of the recently published Managing Attendance in the Public Sector report. They will introduce a more robust approach to reviewing absence on both short and long-term sickness focusing on earlier management interventions. Our overall approach revolves around building management capability, through training and support, to underpin the new policies.

In the medium term we have work under way to better understand patterns of sickness absence and what actions will have the greatest leverage to bring overall absence levels down. This will enable us to develop a revised attendance management strategy.

HEALTH

Animal Insulin Supplies

Tim Loughton: To ask the Secretary of State for Health if he will make a statement on the recent interruption of supply of animal insulin from CP Pharmaceuticals. [210219]

Ms Rosie Winterton: CP Pharmaceuticals (now Wockhardt UK) experienced production difficulties, but these have now been fully resolved and supply of all affected products will be back to normal by mid February to early March. There has been available a minimum of one presentation of each of the company's animal insulins at all times.

Anti-depressants

Mr. Burstow: To ask the Secretary of State for Health how the Medicines and Healthcare products Regulatory Agency's review of tricyclic drugs will take account of the safety of future classes of anti-depressant drug. [215711]

Ms Rosie Winterton: The committee on safety of medicines' expert working group on the safety of selective serotonin reuptake inhibitors has made recommendations for the conduct of future clinical trials of antidepressants. A copy of its report is available in the Library. The Medicines and Healthcare products Regulatory Agency will take forward these recommendations within the European drug regulatory system.

Assertive Outreach Teams

Mr. Lansley: To ask the Secretary of State for Health if he will make a statement on the powers available to assertive outreach teams to assist them in carrying out their functions. [216153]

Ms Rosie Winterton: As set out in the mental health policy implementation guide (2001), assertive outreach is responsible for providing the full range of interventions to support the service user and his/her carers for sustained periods. Assertive outreach staff should have the skills and training to co-ordinate care and provide a broad range of interventions, including the delivery of care and treatment under the Mental Health Act 1983.

Care Standards

Mr. Hammond: To ask the Secretary of State for Health if he will take steps to ensure that persons making applications to the Commission for Care Standards Inspection in different areas are not required *(a)* to furnish and *(b)* to pay for separate Criminal Records Bureau checks in respect of each application to a different office. [216524]

Dr. Ladyman: All care workers and registered providers of care homes, domiciliary care agencies and adult placement schemes must have a Protection of Vulnerable Adults (PoVA) check before they start work. Access to a check is through the Criminal Records Bureau (CRB). Therefore, a PoVA check also includes a CRB check.

The requirement for charging for a Criminal Records Bureau (CRB) check is set out in the Police Act 1997. There is no provision in the legislation for allowing an application to be made without payment of a fee.

Children's Burns Unit (Newcastle)

Mr. Cousins: To ask the Secretary of State for Health what review his Department is undertaking of children's burns units; and whether the closure of the children's burns unit at the Royal Victoria Infirmary, Newcastle is under consideration. [216495]

Miss Melanie Johnson: The national burn care group is considering options for reconfiguration of specialist burns services across England and Wales. Decisions have not yet been made regarding the development of burn care centres and any proposals for change will be subject to a full public consultation process.

Chorley Hospital

Mr. Hoyle: To ask the Secretary of State for Health how many babies were born at Chorley Hospital in each of the last three years; and how many mothers and babies transferred to Chorley after childbirth at Preston in the last period for which figures are available. [216208]

Miss Melanie Johnson: The numbers of live births occurring in Chorley and District Hospital in 2001 to 2003 are shown in the table.

	Number
2001	252
2002	210
2003	229

Source:
Office for National Statistics.

Information about the transfer of mothers and babies to a specific hospital is not collected centrally.

Correspondence

Mr. Wilshire: To ask the Secretary of State for Health when the Minister of State will reply to the letter dated 30 November 2004 about the projected overspend by the Ashford and St. Peter's Hospitals Trust. [217328]

Ms Rosie Winterton *[holding answer 21 February 2005]:* The hon. Member's original letter was not received in the Department. We now have a copy and we will reply as soon as possible, and within the Department's target time for reply of 20 days.

Dentistry

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 27 January 2005, *Official Report*, column 546W on dentistry, how many dental practices were on the nhs.uk database, including those not registering new patients; how many were registering new patients; how many were not registering new patients but providing occasional NHS treatment to non-registered patients; and how many were not registering new patients or providing occasional NHS treatment to non-registered patients. [215993]

Ms Rosie Winterton *[holding answer 10 February 2005]:* As of 31 December 2004, there were 8,931 general and personal dental practices in England.

On 10 February 2005, there were 8,447 general and personal dental practices shown on the nhs.uk website as able to accept at least one category of patient for registration or occasional treatment under the national health service.

The number of general (GDS) and personal dental service (PDS) practices shown on the website either as willing to register new NHS patients and/or accept them for occasional treatment on 24 November 2004, is shown in the following table.

	GDS	PDS	Total
Registering children aged 0 to 18 years for NHS treatment	3,533	164	3,697
Registering charge exempt adults for NHS treatment	2,615	143	2,758
Registering charge paying adults for NHS treatment	2,273	139	2,412
Providing occasional NHS treatment to non registered patients	1,281	134	1,415

Mr. Lansley: To ask the Secretary of State for Health what percentage of *(a)* adults and *(b)* children are registered with dentists (i) operating under General Dental Service contracts, (ii) operating under Personal Dental Service contracts and (iii) in total. [216145]

Ms Rosie Winterton: The table shows the percentage of adults and children registered with dentists operating under general dental service (GDS) contracts, operating under personal dental service (PDS) contracts and the total. These figures are for England as of 31 December 2004.

	Population (Million)	Registered with dentist Number (Million)	Percentage
Adult			
GDS	38.8	13.8	36
PDS	38.8	3.1	8
Total	38.8	16.9	44
Children			
GDS	11.1	5.7	51
PDS	11.1	1.1	10
Total	11.1	6.8	61
Total[1] adults and children			
GDS	49.9	19.5	39
PDS	49.9	4.2	8
Total	49.9	23.7	47

[1] Figures for total registrations regardless of age

Mr. Gale: To ask the Secretary of State for Health (1) if he will list the names and addresses of the dentists in Kent still accepting new NHS patients; [216250]

(2) if he will list the dentists in Kent that have closed their lists to NHS patients during the last 12 months. [216251]

Ms Rosie Winterton *[holding answer 21 February 2005]:* Under the Data Protection Act, we are not able to receive or pass on details relating to individual dentists.

The following table shows primary care trusts (PCTs) in the county of Kent, which are wholly or partially accepting the registration of new patients. Further information, including the addresses of dental practices, which are accepting national health service patients is available at www.nhs.uk. Information is not available centrally on individual dentists that have closed their lists to NHS patients.

PCTs	Total practices in PCT	Registering children aged 0 to 18 years for NHS treatment	Registering charge exempt adults for NHS treatment	Registering charge paying adults for NHS treatment
5CM—Dartford, Gravesham and Swanley	33	16	15	8
5FF—South West Kent	43	17	6	6
5L2—Maidstone Weald	43	16	2	2
5L3—Medway	40	24	17	12
5L4—Swale	14	4	5	3
5LL—Ashford	17	4	1	—
5LM—Canterbury and Coastal	30	6	1	—
5LN—East Kent Coastal	37	[1]—	[1]—	[1]—
5LP—Shepway	20	4	2	—
Grand total	277	91	49	31

[1] Not accepting any new NHS patients for treatment.
Source:
nhs.uk website

In 2004, there were 37 "complete leavers" in the county of Kent in the last 12 months, as of 31 December 2004.

Departmental Budgets

Mr. Burstow: To ask the Secretary of State for Health when the Department's central budgets for *(a)* 2006–07, *(b)* 2007–08 and *(c)* 2008–09 will be published. [217205]

Mr. Hutton: Central budgets for 2006–07 and 2007–08 are in the process of being finalised and will be published in due course. Central budgets for 2008–09 form part of the next spending review settlement.

Departmental Policies (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health if he will set out, with statistical information relating as closely as possible to the constituency, the effect on Chorley of his Department's policies and actions since 1997. [216239]

Miss Melanie Johnson: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant

evidence that these policies have yielded considerable benefits for the Chorley constituency. For example:

At the end of November 2004, the number of people waiting more than nine months for in-patient treatment within Chorley and South Ribble Primary Care Trust (PCT) had fallen to zero, from 247 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for out-patient treatment within Chorley and South Ribble PCT had fallen to 362, from 1,655 in June 2002.

Figures for December 2004 show that all patients within Chorley and South Ribble PCT are able to be offered an appointment with a primary care professional within two working days, an improvement from 54.5 per cent, in June 2002.

Chorley and South Ribble PCT's financial allocation increased to £188.2 million for 2004–05, a real terms increase of 6.9 per cent. This will increase to £266.7 million in 2007–08.

In June 2003, at Lancashire Teaching Hospitals NHS Trust, 92.5 per cent., of patients spent less than four hours in accident and emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 97.1 per cent.

Between September 2002 and June 2004, the number of consultants at Lancashire Teaching Hospitals NHS Trust has increased from 167 to 170.

In the Chorley local authority (LA) area, death rates from cancer per 100,000 population have fallen from 218.1 in 1997 to 174.4 in 2003.

In the Chorley LA area, death rates from coronary heart disease per 100,000 population have fallen to 128.6 in 2003, from 194.3 in 1997.

In April 2003, a new £700,000 dermatology and diabetes centre opened at Chorley and South Ribble Hospital.

In 2002, a new £1.6 million 30 bed medical ward was opened at Chorley and South Ribble Hospital.

A replacement computed tomography scanner was delivered to Royal Preston Hospital in November 2002.

The Royal Preston Hospital has received two additional linear accelerators; one in August 2001 and another in January 2002.

Department of Health.
Office for National Statistics.

Diamorphine

Mr. Lansley: To ask the Secretary of State for Health (1) what assessment he has made of whether Wockhardt's production of diamorphine will be sufficient to meet NHS requirements; and if he will make a statement; [213270]

(2) if he will list the alternative medicines his Department has recommended for use in the NHS for pain management while supplies of diamorphine are being addressed; whether these alternative medicines require additional equipment in order to administer them; and what additional resources are being made available to the NHS for pain management; [213271]

(3) what arrangements he has made with alternative *(a)* UK and *(b)* foreign suppliers of diamorphine to the NHS. [213272]

Ms Rosie Winterton: The national health service Purchasing and Supply Agency is continuing to monitor the supply situation closely. Wockhardt has increased its production and these extra supplies are being distributed to the NHS.

The decision about transferring patients to alternative medicines is a clinical one and needs to be determined by the prescribing doctor, taking into account all the circumstances of a particular case. Interim clinical guidance was issued to healthcare professionals on 23 December 2004 and this is being updated by the Association for Palliative Medicine.

Equipment for administration of medicines is available through the normal channels.

The Department allocates revenue funding to primary care trusts (PCTs) on the basis of the relative needs of their populations. In the allocations for 2003–04 to 2005–06, none of the substantial growth money has been identified for specific purposes.

It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how best to use these funds to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Departmental officials are in close contact with manufacturers of diamorphine regarding United Kingdom supply. However, the details are commercially confidential.

Fertility Treatment

Mr. Dhanda: To ask the Secretary of State for Health what progress his Department has made on the extension of the availability of in vitro fertilisation treatment to all who require it in all areas of England. [216462]

Miss Melanie Johnson: We have made it clear to primary care trusts (PCTs) that we are looking to those which provide no in vitro fertilisation treatment (IVF) to meet a minimum national level of provision of one cycle of IVF by April 2005. We know that PCTs are working together to commission services to take account of this and the clinical guideline produced by the National Institute for Clinical Excellence. In the longer term, we expect the national health service to make progress to full implementation of the guideline.

Fluoride

Norman Baker: To ask the Secretary of State for Health what assessment he has made of the maximum safe daily intake of fluoride. [214234]

Miss Melanie Johnson: There are no known adverse effects on health at fluoride intakes below those causing clinical skeletal fluorosis. This condition appears to require fluoride intakes of at least 10 milligrams daily for at least 10 years. Skeletal fluorosis in the United Kingdom appears to be non-existent—with the exception of a reported case in 1966—see Webb-Peploe MM, Bradley WG (1966): "Endemic fluorosis with neurological complications in a Hampshire man"—Journal of Neurology, Neurosurgery and Psychiatry, Vol. 29, pp. 577–584.

General Practitioners

Chris Grayling: To ask the Secretary of State for Health how many general practitioners there were for each 100,000 of population in *(a)* England, *(b)* each strategic health authority and *(c)* each primary care trust in each year since 1997. [217059]

Mr. Hutton: Information on the number of general practitioners (excluding retainers, registrars and locums) per 100,000 weighted population in England broken down by strategic health authority and by primary care trust in each year since March 2002 has been placed in the Library.

Information prior to 2002 is not available in a comparable format.

Health Expenditure (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health what the average health expenditure per head of population in Chorley constituency was in *(a)* 1997, *(b)* 2001 and *(c)* 2005. [216204]

Miss Melanie Johnson: The expenditure per weighted head of population in the South Lancashire health authority (HA) area is shown in the table. It is not possible to provide information on the Chorley constituency area, nor figures for 2005.

South Lancashire HA

Period	*£ per head*
1996–97	609.98
2000–01	779.41

Notes:

1. Expenditure is taken from audited health authority accounts and summarisation forms which are prepared on a resource basis and therefore differ from cash allocations in the year. The expenditure is the total expenditure accounted for by the health authority. Figures are given in cash terms.
2. Allocations per weighted head of population provide a much more reliable measure to identify differences between funding of health.
3. In many HAs, there are factors which distort the expenditure. These include:
the HA acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and
asset revaluations in national health service trusts being funded through HAs.
4. The majority of general dental services expenditure is not included in the individual health authority accounts or summarisation forms and is separately accounted for by the Dental Practice Board (DPB). An element of pharmaceutical services expenditure is accounted for by the Prescription Pricing Authority (PPA) and not by HAs. Total expenditure on these items by the DPB and the PPA cannot be allocated to individual health bodies and are therefore omitted from the answer.
5. For these reasons expenditure per head cannot be compared reliably between HAs or between different years.

Sources:

South Lancashire HA audited accounts 1996–97.
South Lancashire HA audited summarisation forms 2000–01.
Weighted population figures 1996–97 and 2000–01.

Health Funding (Huddersfield)

Mr. Barry Sheerman: To ask the Secretary of State for Health how much was allocated to healthcare in the Huddersfield constituency in *(a)* 1997 and *(b)* 2004. [216880]

Miss Melanie Johnson: In 1997–98, revenue allocations were made to health authorities (HAs). In December 2002, primary care trusts (PCTs) were notified of their revenue allocations for 2003–04 to 2005–06, and the latest round of revenue allocations, covering the period 2006–07 and 2007–08, was announced on 9 February 2005.

The tables show the revenue allocations made to Calderdale and Kirklees HA for 1997–98, and to those PCTs covered by Calderdale and Kirklees for 2003–04 to 2005–06 and for 2006–07 to 2007–08.

Table 1: Calderdale and Kirklees revenue allocations 1997–98

£000

Calderdale and Kirklees HA	259,169

Table 2: Calderdale and Kirklees revenue allocations 2003–06

£000

	Allocation		
PCT	*2003–04*	*2004–05*	*2005–06*
Calderdale	182,246	198,557	215,534
Huddersfield Central	121,658	132,742	144,457
North Kirklees	149,007	163,617	178,807
South Huddersfield	67,967	74,050	80,382

Table 3: Calderdale and Kirklees revenue allocations 2006–08

£000

	Allocation	
PCT	*2006–07*	*2007–08*
Calderdale	254,621	275,396
Huddersfield Central	172,344	186,412
North Kirklees	215,698	236,133
South Huddersfield	97,051	104,967

Health Funding (North Yorkshire)

Miss McIntosh: To ask the Secretary of State for Health if he will make a statement on health service budgets in North Yorkshire. [217331]

Miss Melanie Johnson: Revenue allocations to primary care trusts (PCTs), to cover the period 2006–07 and 2007–08, were announced on 9 February 2005.

The table shows the allocations made to PCTs in North Yorkshire for the 2006–07 and 2007–08 revenue allocations:

Revenue allocations in North Yorkshire 2006–08

£000

	Allocation	
PCT	*2006–07*	*2007–08*
Craven, Harrogate and Rural District	235,518	254,740
Hambleton and Richmondshire	129,360	139,918
Scarborough, Whitby and Ryedale	198,010	216,805
Selby and York	307,131	335,917

Illegal Organ Trafficking

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to reduce illegal organ trafficking; and what discussions he has had with international bodies on such trafficking. [216177]

Ms Rosie Winterton: The Human Tissue Act 2004 states that the trafficking of human organs is an offence and subject to legal penalties.

The Department continues to participate in formal discussions with the Council of Europe and the European Union about the prevention and control of organ trafficking.

Medical Devices Agency

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* fatal accidents and *(b)* adverse incident reports to the Medical Devices Agency there were in each year since 1997; and what the most common causes were. [216376]

Ms Rosie Winterton: The information on total numbers of reported medical device related adverse incidents and reported incidents involving a fatality is shown in Table 1.

Table 1: Reported medical device related adverse incidents, 1997–2004

	Total number of reported incidents	*Reported incidents involving a fatality*
1997	5,383	47
1998	6,298	79
1999	6,610	87
2000	7,249	92
2001	7,896	141
2002	8,756	175
2003	8,795	166
2004	8,840	179

For summary information and reporting purposes, the Medicines and Healthcare products Regulatory Agency groups the causes of medical device related adverse incidents into four categories:

Before delivery—issues relating to design, manufacture, quality control and/or packaging.

After delivery—relating to performance and/or maintenance failures and device degradation.

User error—where the device had not been used in accordance with the instructions for use.

No established link to device—where *(a)* the device was found subsequently to work as intended (possibly due to an intermittent fault, tampering, or user error) or *(b)* it was not available for inspection, or *(c)* because the report was made on precautionary basis.

The percentage of incidents falling into each of these categories in 2004 is shown in Table 2.

Table 2: Reported medical device related adverse incidents, 2004

Cause of incident	*Percentage[1] of all incident reports (number = 8,840)*	*Percentage[1] of reported incidents involving a fatality (number = 179)*
1. Before delivery	27	11
2. After delivery	29	14
3. User error	17	22
4. No established link to device	55	75

[1] Figures total more than 100 per cent. as multiple causes have been identified in some reports.

Mental Health

Tim Loughton: To ask the Secretary of State for Health how many people have been sectioned under the Mental Health Acts in each of the last 10 years, broken down by *(a)* men, *(b)* women and *(c)* children. [214787]

Ms Rosie Winterton *[holding answer 7 February 2005]:* Information is not available in the requested format. Information on the number of detentions under Parts II, III and X the Mental Health Act 1983 of patients, on admission and subsequent to admission in national health service facilities, including high security psychiatric hospitals, and independent hospitals in England in each of the last ten and eight years (respectively) for which data are available is shown in the tables. Information on the gender of patients detained subsequent to admission to hospital is not collected. Nor is any information distinguishing adults from children.

Information on the gender of patients detained subsequent to admission and their age groups will be available via the mental health dataset in the future. This will provide local clinicians and mangers with better quality information for clinical audit, and service planning and management.

Number of detentions under the Mental Health Act 1983 of patients, on admission and subsequent to admission in national health service facilities (including high security psychiatric hospitals), in England, 1993–94 to 2003–04.

Number

	Total detentions (on admission and subsequent to admission) in NHS facilities	*Detentions on admission in NHS facilities*		*Detentions subsequent to admission in NHS facilities*
		Male	*Female*	
2003–04	43,847	13,371	11,419	19,057
2002–03	44,649	13,449	11,617	19,583
2001–02	45,563	12,980	11,510	21,073
2000–01	45,654	13,521	11,662	20,471
1999–2000	45,546	13,536	11,739	20,271
1998–99	46,003	13,679	11,956	20,368
1997–98	43,291	13,096	11,325	18,870
1996–97	40,516	12,358	10,438	17,720
1995–96	41,628	13,099	11,307	17,222
1994–95	40,275	13,054	11,524	15,697
1993–94	37,141	12,179	10,829	14,133

Figures exclude previous legislation (fifth schedule) and other acts.

A patient may be detained more than once.

Data on patients detained subsequent to admission were not collected in respect of high security psychiatric hospitals prior to 1996–97.

Data on patients detained subsequent to admission are not collected by gender.

Detentions subsequent to admission include changes from Section 136 to Sections 2 and 3.

Number of detentions under the Mental Health Act 1983 of patients, on admission and subsequent to admission in independent hospitals, in England, 1996–97 to 2003–04.

Number

	Total detentions (on admission and subsequent to admission) in independent hospitals	*Detentions on admission in independent hospitals*		*Detentions subsequent to admission in independent hospitals*
		Male	*Female*	
2003–04	1824	862	536	426
2002–03	1803	844	456	503
2001–02	2180	984	672	524
2000–01	1803	831	562	410
1999–2000	1961	829	577	555
1998–99	1840	761	489	590
1997–98	1445	545	414	486
1996–97	1295	464	431	400

Figures exclude previous legislation (fifth schedule) and other acts.

A patient may be detained more than once.

Data on patients detained subsequent to admission were not collected in respect of Independent hospitals prior to 1996–97.

Data on patients detained subsequent to admission are not collected by gender.

Detentions subsequent to admission include changes from Section 136 to Sections 2 and 3.

Mr. Lamley: To ask the Secretary of State for Health what proportion of applications under section 2 of the Mental Health Act 1983 were *(a)* solely for the protection of other people, *(b)* solely in the interests of the health and safety of the patient and *(c)* for a combination of the two, in each year since 1997. [216157]

Ms Rosie Winterton: The information is not centrally available.

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* low, *(b)* medium and *(c)* high security beds there have been in the NHS in England in each year since 1997. [216162]

Ms Rosie Winterton: Information is not available in the requested format. Information on the total number of mental illness beds in wards open overnight and in secure units in national health service hospitals in each year since 1997 is shown in the following table.

Average daily number of available beds, wards open overnight, mental illness sector and secure units, England

	Available beds: wards open overnight: mental illness sector	*Available beds: mental illness sector: other ages: secure unit*
1996–97	37,640	1,575
1997–98	36,601	1,921
1998–99	35,692	1,747
1999–2000	34,173	1,882
2000–01	34,214	1,952
2001–02	32,783	1,848
2002–03	32,753	2,064
2003–04	32,410	2,557

Source:
Department of Health Form KH03.

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to support primary care trusts in developing their commissioning capacity in mental health. [216163]

Ms Rosie Winterton: "National Standards, Local Action: Health and Social Care Standards and Planning Framework 2005/06–2007/08" (2004) sets out the framework for all national health service organisations and social service authorities to use over the next three financial years to take forward the NHS improvement plan.

The national specialised services mental health definition subset provides guidance to commissioners on securing effective collective planning arrangements that take into account the needs of a planning population considerably larger than that of a single primary care trust (PCT). A group led by the national director for mental health is currently reviewing the subset with a view to publish updated guidance later this year.

Local health communities should design the provision of their services for the treatment and management of mental health problems according to the standards set in the national service frameworks for mental health (1999), older people (2001) and children, young people and maternity services (2004) and in light of the clinical guidelines and technology appraisals published by the National Institute for Clinical Excellence.

Further support for PCTs to commission mental health services is provided through the primary care mental health programme led by the London development centre of the National Institute for Mental Health in England. Relevant publications can be obtained from its website at www.nimhe.org.uk.

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to assist those caring for sufferers of mental illness. [216170]

Ms Rosie Winterton: The national service framework (NSF) for mental health provides a rationale and evidence base for a national standard for mental health services relating to carers of people with mental health problems. In accordance with the NSF, all individuals who provide regular and substantial care for a person on the care programme approach should have an assessment of their caring, physical and mental health needs repeated on at least an annual basis. People who provide regular and substantial care for a person on the care programme approach are also entitled to have their own written care plan, which is given to them and implemented in discussion with them.

The Carers and Disabled Children Act 2000 strengthens the rights of all carers to an assessment of their own needs as carers. It involves a right to a carer's assessment. It gives local councils mandatory duties to support carers by providing services to carers directly and in the provision of breaks, as well as, directly supporting carers by providing direct payment for carers' services.

In line with the NHS Plan, mental health provider trusts are recruiting 700 carer support workers to increase the breaks available for carers and to strengthen carer support networks. To consolidate the progress that is being made and to build on good practice and research, the Department published guidance entitled "Developing Services for Carers and Families of People with Mental Illness in 2002".

Mr. Lansley: To ask the Secretary of State for Health how many and what percentage of the total number of hospital inpatients detained under the Mental Health Act 1983 have appealed to mental health review tribunals since 1997. [216174]

Ms Rosie Winterton: The information is not available in the format requested. However, information on the number of detentions and applications to mental health review tribunals is shown in the tables.

Number of detentions under the Mental Health Act 1983 of patients in national health service facilities (including high security psychiatric hospitals) and independent hospitals in England, 1997–98 to 2003–04

	Number
2003–04	45,671
2002–03	46,452
2001–02	47,743
2000–01	47,457
1999–2000	47,507
1998–99	47,843
1997–98	44,736

Notes:

1. Figures exclude previous legislation (fifth schedule) and other acts.

2. A patient may be detained more than once.

3. The data include short-term detentions under section 5 of the Mental Health Act 1983. Patients detained under section 5 cannot make applications to mental health review tribunals.

Number of applications to mental health review tribunals in England, 1997 to 2004 (calendar years)

	Number
2004	21,413
2003	21,634
2002	20,980
2001	20,368
2000	20,421
1999	19,709
1998	18,503
1997	15,687

Mr. Lansley: To ask the Secretary of State for Health how many people in England are estimated to be suffering from *(a)* mild to moderate and *(b)* severe mental illness. [216176]

Ms Rosie Winterton: The Office for National Statistics published a report, "Psychiatric morbidity among adults living in private households, 2000" in Great Britain. It was found that 164 per 1,000 of the adult population suffered from neurotic disorder, which can be broadly regarded as mild to moderate mental illness. The prevalence rate for probable psychotic disorder was five per 1,000 and for personality disorder 44 per 1,000 of the adult population. These disorders can be regarded as severe mental illness.

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to improve the quality of information management in mental healthcare. [216178]

Ms Rosie Winterton: A number of important initiatives are leading to major improvements in information management for mental healthcare.

The care programme approach model is an integral part of the national service framework for mental health, which was published in 1999 and has since been implemented across the national health service in England. It requires all providers of adult specialist mental health care to keep an electronic record of key information on all patients cared for together with details of the care they receive. This information should be accessible at any time by care practitioners.

The mental health minimum data set is a database containing a wide range of information on patients, details of the care they are receiving or have received and some of the outcomes of care. All providers of adult specialist mental health care are required to maintain this database and it provides a valuable resource for clinicians and service managers.

Information on mental health care is also included as an integral part of the national programme for information technology, which is currently being implemented.

Missed Appointments

Mr. Hoyle: To ask the Secretary of State for Health how many people failed to attend appointments in *(a)* Chorley Hospital and *(b)* Preston Hospital in 2003–04. [216828]

Miss Melanie Johnson: The information is not available in the format requested. However, information in relation to the Lancashire Teaching Hospitals National Health Service Trust, which includes Chorley and South Ribble District General Hospital and the Royal Preston Hospital, is shown in the table.

Consultant out-patient attendances—Lancashire Teaching Hospitals (RXN), 2003–04

QMOP Department of Health quarterly return.

MRI Scans

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 7 February 2005, *Official Report*, columns 1336–7W, on MRI scans, what concerns were raised in the representations he has received; and what assessment he has made of the likelihood of Alliance Medical recruiting radiographers from other private providers who then recruit staff from the NHS. [217201]

Mr. Hutton: The representations raised issues about the procurement process, the cost of the contract and issues relating to the level of service, which Alliance Medical Limited is contracted to provide. The recruitment of radiographers from private providers is a matter for Alliance Medical Limited.

Nevirapine

Mr. Colman: To ask the Secretary of State for Health what assessment his Department has made of *(a)* recent research into the effects of the drug Nevirapine and *(b)* the consequences of that research for mother-to-baby transmission of HIV/AIDS. [215965]

Miss Melanie Johnson: The nevirapine product marketed as Viramune by Boehringer Ingelheim has a European authorisation, the terms of which are under frequent revision as new research information comes to light and in response to post-marketing safety update reports from the company. New research data and reports are reviewed by the European Expert Committee on Human Medicinal Products (CHMP) to see if the warnings and recommended uses of the product need to be changed. The United Kingdom feeds into that process, taking advice from the committee on the safety of medicines as necessary.

The British HIV Association (BHIVA) has reviewed its guidelines on the management of HIV infection in pregnant women and the prevention of mother-to-child transmission, taking account of the recent research on nevirapine. BHIVA will be consulting on the revised guidelines shortly before they are published.

NHS Staff

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* graduate primary care workers, *(b)* gateway workers, *(c)* support time and recovery workers, *(d)* community development workers and *(e)* carer support workers are currently employed in the NHS. [216151]

Ms Rosie Winterton: The requested information is not yet available. Progress on the number of graduate primary care workers, gateway workers, support, time and recovery workers, community development workers and carer support workers employed in the national health service will be available when the Durham adult mental health service mapping is finalised in spring 2005.

Mr. Cousins: To ask the Secretary of State for Health how many NHS *(a)* hospital, *(b)* public health medicine and *(c)* community health service staff were employed in the main NHS staff groups in the Newcastle Primary Care Trust area in (i) 1996, (ii) 2001 and (iii) 2004. [216491]

Miss Melanie Johnson: The information is not available in the format requested. Data for Northumberland Tyne and Wear Strategic Health Authority, broken down by organisation, are shown in the table.

Night Care

Mr. Greg Knight: To ask the Secretary of State for Health how many people in *(a)* Derbyshire, *(b)* Leicestershire and *(c)* the East Riding of Yorkshire receive full or part-time night care at home funded by the local authority. [216481]

Dr. Ladyman *[holding answer 21 February 2005]:* Information on the number of people receiving full or part-time night care at home is not centrally available.

The following table shows the number of contact hours of home care occurring out of hours or overnight in Derbyshire, Leicestershire and East Riding during a survey week in September 2003. Some of these hours will be delivered by council employees while others will be delivered by the private and voluntary sector.

Number and rate of contact hours of home care provided out of hours or overnight in September 2003[1]

Rounded numbers and rates

Councils with social services responsibilities	*Out of hours*[2]	*Overnight,*[3] *live-in*[4] *and 24 hour services*[5]	*Total*
Number of contact hours			
Derbyshire	6,500	11,100	17,600
Leicestershire	6,400	400	6,800
East Riding	500	500	1,000
Contact hours per 10,000 households			
Derbyshire	211	358	569
Leicestershire	263	16	279
East Riding	35	38	73

[1] Survey week in September 2003.

[2] Out of hours: services which are provided outside of the normal working day, but not including night sitting services, live-in or 24 hours services.

[3] Overnight services: night sitting services carried out on a regular or ad-hoc basis.

[4] Live-in services: Where the carer lives, either permanently or temporarily, in the home of the client, working for the local authority directly or under contract. It excludes informal carer arrangements with relatives or friends.

[5] 24 hours services: round the clock care provided by several workers on a shift basis.

Obesity

Mr. Burstow: To ask the Secretary of State for Health what percentage of women were classified as obese in *(a)* England and *(b)* each region in each year since 1990, broken down by socio-economic group. [216374]

Miss Melanie Johnson: Information is not available in exactly the form requested. Figures available from the health survey for England are shown in the tables. The tables give, for England, the percentage of women who are obese (with a body mass index over 30) from 1991, when the health survey began, to 2003 by social class and for the period 1998 to 2003 by Government office region. Figures prior to 1998 are not available by Government office region. The samples sizes available in the health survey do not allow robust estimates to be calculated for each region broken down by social/economic status.

Prevalence of obesity among women by survey year and social class

Aged 16 and over with a valid height and weight measurement

	Social class of head of household[1]						*1991–2003*

Primary Care Trusts

Mr. Flook: To ask the Secretary of State for Health if he will list the spearhead primary care trusts and the constituencies that they cover in the south-west. [216924]

Ms Rosie Winterton *[holding answer 21 February 2005]:* There are no spearhead primary care trusts within the south-west. The spearhead group list consists of the local authority areas that were in the bottom fifth nationally for three or more of the following five factors:

Male life expectancy at birth,

Female life expectancy at birth,

Cancer mortality rate in under 75s,

Cardio vascular disease mortality rate in under 75s,

The index of multiple deprivation 2004 (local authority summary), average score.

Note:
Data for the first four factors are for the period 1995–97.

Regulation

Mr. Lidington: To ask the Secretary of State for Health what estimate he has made of the cost to local authorities of implementing new statutory and regulatory duties that were the responsibility of his Department which have come into force since May 2001. [216900]

Dr. Ladyman *[holding answer 22 February 2005]:* The Department provides the financial resources needed by local authorities to deliver their adults' personal social services commitments and most appropriately meet the needs of the local community. Responsibility for children's personal social services transferred to Department for Education and Skills from 1 April 2004.

Whilst the Department is responsible for establishing overall social care policy, it is for local authorities themselves to manage the implementation of new

statutory or regulatory changes, including the attribution of appropriate resources, in accordance with locally determined priorities.

The Department publishes regulatory impact assessments in relation to new statutory and regulatory duties. These show that the cost to local authorities of implementing such new duties since May 2001 can be estimated at around £43 million, with a further £159 million shared between local authorities and other organisations.

Residential Care

Mr. Goodman: To ask the Secretary of State for Health how many of the people in residential care in 2002–03 were disabled. [216043]

Dr. Ladyman *[holding answer 21 February 2005]:* This information is not collected routinely. However, from the 2001 census there were around 304,000 people living in residential care, who reported having a limiting long-term illness. This represents some 94 per cent. of all those living in residential care at the time of the census.

Wells Report

Keith Vaz: To ask the Secretary of State for Health when he will publish the Wells Report. [211261]

Ms Rosie Winterton: My right hon. Friend the Secretary of State for Health does not currently intend to publish the Wells Report.

HOME DEPARTMENT

Alcohol-related Disorder

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on his Department's strategy for tackling the problems of alcohol-related disorder in towns and city centres. [216755]

Ms Blears: The Government are taking forward work to tackle alcohol-related crime and disorder through the Alcohol Harm Reduction Programme. Recent achievements include: the Alcohol Misuse Enforcement Campaigns which took place over the summer and winter last year, the introduction of new fixed penalty notices for minor alcohol offences from November last year and the launch of the first tranche of the Tackling violent Crime Programme—providing extra help to those areas which have the highest volumes of violent crime. We are also working with the Office of the Deputy Prime Minister to develop guidance for local authorities to help them manage the night-time economy.

To build on this work, the Government published a consultation document called "Drinking Responsibly" on 21 January 2005 outlining new policy proposals for tackling the problems of alcohol-related disorder. The proposals included: Alcohol Disorder Zones for town and city centres, Drinking Banning Orders, a review of the penalties associated with alcohol-related crimes and new police closure powers for premises selling to under-age children. Replies to the proposals in the consultation paper are due by the 28 February 2005. We will consider all of the responses before making any final decisions on the proposals.

Al-Takfir wa al-Hijra

Angus Robertson: To ask the Secretary of State for the Home Department what assessment his Department has made of the activities in the UK of Al-Takfir wa al-Hijra since January 2002; and if he will make a statement. [216718]

Mr. Charles Clarke: Any information suggesting illegal activity by any individual or group will be investigated by the appropriate authorities. Should anyone have evidence of criminal acts being carried out they should take it to the police in the first instance.

Anti-terrorism Measures

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many anti-bomb litter bins have been installed in major metropolitan areas. [215349]

Mr. Charles Clarke: Individual local authorities, transport operators and site owners providing litter bins in public places will determine numbers, distribution and type to be provided. We do not hold information about the number of blast resistant litter bins installed.

Correspondence

John Barrett: To ask the Secretary of State for the Home Department if he will instruct the Visa Correspondence Section of UK Visas to respond to correspondence from the hon. Member for Edinburgh, West, regarding a case involving Qamar Zamanai Mansoori and Fareda Ui-Haz Sadique (Now Fareda Bano). [204772]

Mr. Mullin: I have been asked to reply.

UKVisas replied to the hon. Member on 16 December 2004. UKVisas also corresponded by e-mail with the hon. Member's office on 18 January, 1 February and 8 February.

Crime Statistics

Mr. Hoyle: To ask the Secretary of State for the Home Department what his estimate is of the number of recorded crimes in *(a)* the North West and *(b)* Lancashire in 2004; and what percentage were cleared up. [215324]

Ms Blears: The latest available information on recorded crime and detections for the North West and Lancashire is for 2003–04 and is published in Table 7.04 of Home Office Statistical Bulletin 10/04; a copy of which is available in the Library.

Criminal Cases Review Commission

Peter Bottomley: To ask the Secretary of State for the Home Department when the Criminal Cases Review Commission expects to start and to complete the Stage 2 Review of *(a)* the case of Derek Jack Tully and *(b)* a case received on 10 February which had the same priority. [216587]

Paul Goggins: It is not the practice to give specific information about a particular case. Cases in the Stage 2, at-liberty queue currently being allocated to a Case Review Manager are, on average, 30 months old. Cases in the Stage 2, in-custody queue currently being allocated to a Case Review Manager are, on average, 19 months old. The Commission would expect applications received in February 2005 to wait a comparable time, but this is subject to other factors such as the need to prioritise certain cases and the time taken to complete case reviews in progress. The majority of cases (some 77 per cent.) are, however, allocated for review with minimal delay, because they are assessed as requiring less than five caseworker-days' work.

It is not possible to estimate how long the review of a case will take until it has been allocated to a Case Review Manager.

Peter Bottomley: To ask the Secretary of State for the Home Department what assessment he has made of the level of resources the Criminal Cases Review Commission would need to eliminate queues of cases by March 2006; and what targets for reduction in queues Ministers have set. [216588]

Paul Goggins: There has been no assessment made by the Home Office of the level of resources required by the Criminal Cases Review Commission to eliminate queues of cases by March 2006. Ministers have not currently set targets for reduction in queues.

Criminal Offences

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the criminal offences created in legislation sponsored by his Department in the *(a)* 2002–03 and *(b)* 2003–04 session, broken down by Act. [206871]

Paul Goggins: The table lists the criminal offences in this Department's legislation passed in the sessions 2002–03 and 2003–04. The Sexual Offences Act 2003 contains 55 offences; most of them are codifications of the pre-existing law.

Crime (International Co-operation) Act 2003

Section 34(1)	Failure by a financial institution to comply with a requirement imposed under a customer information order.
Section 34(3)	False statement made by a financial institution in purported compliance with a customer information order.
Section 39	The same offences in Scotland.
Section 42	Disclosure by an institution or its employee of specified facts about a financial investigation.

Anti-social Behaviour Act 2003

Section 4(1)	Remaining on or entering premises in contravention of a closure notice.
Section 61	Failure to comply with a direction to leave land etc.

Sexual Offences Act 2003

Section 1	Rape.
Section 2	Assault by penetration.
Section 3	Sexual assault.
Section 4	Causing a person to engage in sexual activity without consent.
Section 5	Rape of a child under 13.
Section 6	Assault on a child under 13 by penetration.
Section 7	Sexual assault of a child under 13.
Section 8	Causing or inciting a child under 13 to engage in sexual activity.
Section 9	Sexual activity with a child.
Section 10	Causing or inciting a child to engage in sexual activity.
Section 11	Engaging in sexual activity in the presence of a child.
Section 12	Causing a child to watch a sexual act.
Section 13	Child sex offences committed by young persons.
Section 14	Arranging or facilitating the commission of a child sex offence.
Section 15	Meeting a child following sexual grooming etc.
Section 16	Abuse of position of trust: sexual activity with a child.
Section 17	Abuse of position of trust: causing or inciting a child to engage in sexual activity.
Section 18	Abuse of position of trust: sexual activity in the presence of a child.
Section 19	Abuse of position of trust: causing a child to watch a sexual act.
Section 20	Abuse of position of trust: acts done in Scotland.
Section 25	Sexual activity with a child family member.
Section 26	Inciting a child family member to engage in sexual activity.
Section 30	Sexual activity with a person with a mental disorder impeding choice.
Section 33	Causing a person with a mental disorder impeding choice to watch a sexual act.
Section 34	Inducement, threat or deception to procure sexual activity with a person with a mental disorder.
Section 35	Causing a person with a mental disorder to engage in or agree to engage in sexual activity by inducement, threat or deception.
Section 36	Engaging in sexual activity in the presence, procured by inducement, threat or deception, of a person with a mental disorder.
Section 37	Causing a person with a mental disorder to watch a sexual act by inducement, threat or deception.
Section 38	Care workers: sexual activity with a person with a mental disorder.
Section 39	Care workers: causing or inciting sexual activity.
Section 40	Care workers: sexual activity in the presence of a person with a mental disorder.
Section 41	Care workers: causing a person with a mental disorder to watch a sexual act.
Section47	Paying for sexual services of a child.
Section 48	Causing or inciting child prostitution or pornography.
Section 49	Controlling a child prostitute of a child involved in pornography.
Section 50	Arranging or facilitating child prostitution or pornography.

Crime (International Co-operation) Act 2003

Section 52	Causing or inciting prostitution for gain.
Section 53	Controlling prostitution for gain.
Section 57	Trafficking into the UK for sexual exploitation.
Section 58	Trafficking within the UK for sexual exploitation.
Section 59	Trafficking out of the UK for sexual exploitation.
Section 61	Administering a substance with intent that sexual activity takes place.
Section 62	Committing an offence with intent to commit a sexual offence.
Section 63	Trespass with intent to commit a sexual offence.
Section 64	Sex with an adult relative: penetration.
Section 65	Sex with an adult relative: consenting to penetration.
Section 66	Exposure.
Section 67	Voyeurism.
Section 69	Intercourse with an animal.
Section 70	Sexual penetration of a corpse.
Section 71	Sexual activity in a public lavatory.
Section 91	Offences relating to notification by sex offenders.
Section 113	Offence of breach of a sexual offences prevention order or an interim sexual offences prevention order.
Section 122	Offence: breach of foreign travel order.
Section 128	Offence: breach of a risk of sexual harm order or an interim risk of sexual harm order.

Asylum and Immigration (Treatment of Claimants etc) Act 2004

Section 2	Entering the UK without a passport etc.
Section 4	Trafficking people for exploitation.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for the Home Department what the costs of departmental *(a)* staff training days and *(b)* staff development days held away from the Department were in each year since 1997. [213796]

Fiona Mactaggart: Individual directorates within the Home Office have responsibility for allocating resources for external development opportunities; they identify the appropriate development for their staff according to business needs, and within their own budgets. The Home Office offers staff a comprehensive programme of development opportunities, and they are encouraged to use the most cost effective method to meet their needs.

Information is not collected centrally on the cost of staff training and development days held away from the Department.

Further information on departmental costs of staff training over the years since 1997 could be obtained only at disproportionate cost.

Departmental Credit Cards

Mr. George Osborne: To ask the Secretary of State for the Home Department how many credit cards for official expenditure are held by his Department. [206434]

Fiona Mactaggart: In the core Home Office, its Executive Agencies and NDPBs, Government Procurement Cards (GPC) are used for official expenditure on low value reimbursable items up to the value of £500 (e.g. last minute travel, overnight accommodation (B&B), conference booking or a training course). At present the Department holds 1,889 GPC cards.

Other than GPC cards, the Department does not hold any credit cards for official expenditure.

Departmental Polices

Mr. Martyn Jones: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to the Clwyd, South constituency, the effects on Clwyd, South of his Department's policies and actions since 2 May 1997. [210325]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Clwyd, South constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the North Wales Police Force increased by 256 from 1,369 to 1,625. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 21 CSOs on North Wales' streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, North Wales has seen a reduction in recorded domestic burglary crimes of 5 per cent. and in recorded vehicle crimes of 4 per cent.

North Wales police will receive £78.0 million in general grants for 2005–06, an increase of 3.76 per cent. (£2.8 million) over 2004–05. North Wales benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the Force would have received £1.9 million less. General grants funding to North Wales has increased by 28.3 per cent. between 1997–98 and 2005–06. In addition to general grants, North Wales will also receive around £9.5 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour. social behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales

and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. For example, nine CCTV projects in the Clwyd, South area (which includes the three Community Safety Partnerships (CSPs) of Wrexham, Flintshire and Denbighshire) received a total of £666,835 under the CRP.

Since 2001, a number of successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships (CDRPs) and specific projects. These include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001 under these initiatives, a total of £1.97 million has been allocated to the Clwyd, South area. A further £1.42 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the National Assembly for Wales for CSP capacity building across Wales.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Wrexham, Flintshire and Denbighshire set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In the three Community Safety Partnerships that include Clwyd a total of 11 antisocial behaviour orders are currently in force as of 11 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the Year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Dr. Kumar: To ask the Secretary of State for the Home Department if he will set out, including statistical information relating as directly as possible to the constituency, the effect on Middlesbrough, South and Cleveland, East constituency of his Department's policies since 8 June 2001. [206839]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Middlesbrough, South and East Cleveland constituency, as well as for all parts of the UK.

For example, between March 2001 and March 2004, the number of police officers in the Cleveland Police Force increased by 290 from 1,407 to 1,697. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 75 CSOs on Cleveland streets to tackle crime and antisocial behaviour. Between 2001–02 and 2003–04, Cleveland has seen a reduction in recorded domestic burglary crimes of 21 per cent. and in recorded vehicle crimes of 12 per cent.

Cleveland Police Force will receive £90.9 million in general grants in 2005–06, an increase of 4.67 per cent. (£4.1 million) over this year. This is significantly higher than the minimum increase of 3.75 per cent. guaranteed to all forces. Cleveland Force also gains £0.2 million from the 2003–04 Amending Report, bringing their overall grant to £91.1 million. General grants funding to Cleveland Police Force has increased by over 14 per cent. between 2001–02 and 2005–06. In addition to general grants, Cleveland will receive next year around £4.7 million in specific grants funding for targeted initiatives. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. For example, six CCTV projects in the Middlesbrough CDRP area received a total of £791,179 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These

initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1,290,644 has been allocated to Middlesbrough CDRP under these initiatives. A further £1.45 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the North East for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Middlesbrough set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Middlesbrough a total of 32 antisocial behaviour orders have been issued as of 1 February 2005. Middlesbrough is also one of 50 communities across the country that have been designated as 'Together Action Areas' and are set to get extra help to tackle antisocial behaviour. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the House Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Middlesbrough has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Middlesbrough Drug Action Team amounted to £2.07 million, rising to £2.78 million in 2004–05. Details of action taken to tackle drugs in the Middlesbrough, South and East Cleveland constituency can be obtained from the Middlesbrough Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

To support strong and active communities in which people of all races and backgrounds are valued, the Home Office funded a Community Cohesion Pathfinder in Middlesbrough over 18 months to September 2004. This invested £150,000 via the local authority and £90,000 via voluntary and community sector partners. The Pathfinder focused on young people, education, and sports and cultural activities. Outcomes included a Listening Schools project bring together parents and school staff, inter-faith working, training of young people in community involvement and cultural activities celebrating diversity. A Pathfinder Youth Champions scheme in Middlesbrough also ending September 2004 produced a total of 45 young community champions engaged in the regeneration of their community through project-based activities.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

The Government's Time Ltd. Development Fund (2002 to 2005) has invested £125,538 in Middlesbrough aimed at increasing the number of people involved in community and voluntary activities.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mr. Gordon Marsden: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215613]

Fiona Mactaggart: The Government has put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Blackpool South constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Lancashire Police Force increased by 332 from 3,247 to 3,579. The Government's introduction of community support officers (CSOs) in 2002 has put 117 CSOs on Lancashire

streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Lancashire has seen a reduction in recorded domestic burglary crimes of 41 per cent. and in recorded vehicle crimes of 39 per cent.

Lancashire Police Force will receive £190.8 million in general grants for 2005–06, an increase of 4.31 per cent. (£7.9 million) over last year. Lancashire Police also gains around £0.4 million from the Amending Report for 2003–04, bringing the overall increase to 4.52 per cent. General grants funding to Lancashire has increased by 14.5 per cent. between 1997–98 and 2000–01 and by 13.5 per cent. between 2001–01 and 2005–06. In addition to general grants, Lancashire will also receive £17.4 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The crime reduction programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Two CCTV projects in the Blackpool CDRP area received a total of £666,350 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1.05 million has been allocated to Blackpool CDRP under these initiatives. A further £2.3 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the North West for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Blackpool set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle anti-social behaviour and nuisance. In Blackpool a total of 20 antisocial behaviour orders have been issued as of 10 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government has invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Blackpool has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Blackpool Drug Action Team amounted to £1.05 million, rising to £1.53 million in 2004–05. Details of action taken to tackle drugs in the Blackpool South constituency can be obtained from the Blackpool Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams

The Government is working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk

Ross Cranston: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to the

constituency, the effects of his Department's policy since 1997 on Dudley, North constituency; and if he will make a statement. [213145]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Dudley, North constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the West Midlands Police Force increased by 895 from 7,113 to 8,008. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 134 CSOs on West Midlands streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, West Midlands has seen a reduction in recorded domestic burglary crimes of 35 per cent. and in recorded vehicle crimes of 28 per cent.

West Midlands Police Force is receiving £426.5 million in general grants for 2005–06, an increase of 6.81 per cent. (£27.2 million) over this year. West Midlands also gains around £0.8 million from the Amending Report for 2003–04, bringing the overall increase to 7.0 per cent. General grants funding to West Midlands has increased by 34 per cent. between 1997–98 and 2005–06. In addition to general grants, West Midlands will also receive around £29 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Four CCTV projects in the Dudley CDRP area as a whole received a total of £286,459 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1.6 million has been allocated to the Dudley CDRP under these initiatives. A further £2.03 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the West Midlands for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Dudley set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Dudley a total of 29 antisocial behaviour orders are currently in force as of 9 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10-year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Dudley has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Dudley Drug Action Team amounted to £1.9 million, rising to £2.4 million in 2004–05. Details of action taken to tackle drugs in the Dudley, North constituency can be obtained from the Dudley Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams_.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. For 2003–04 to 2005–06 Dudley Racial Equality Council is receiving a £291,431 Connecting Communities Grant from the Home Office to improve the access of black and ethnic minority people to jobs and services.

Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mrs. Lawrence: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Preseli Pembrokeshire constituency, the effects on Preseli Pembrokeshire of his Department's policies and actions since 2 May 1997. [211321]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Preseli Pembrokeshire constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Dyfed-Powys Police Force increased by 160 from 1,005 to 1,165. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 11 CSOs on Dyfed-Powys streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Dyfed-Powys has seen a reduction in recorded domestic burglary crimes of three per cent. and in recorded vehicle crimes of two per cent.

Dyfed-Powys Police Force is receiving £52.2 million in general grants for 2005–06, an increase of 3.75 per cent. (£1.9 million) over 2004–05. Dyfed-Powys benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the Force would have received £1.3 million less. General grants funding to Dyfed-Powys has increased by 24 per cent. between 1997–98 and 2005–06. In addition to general grants, Dyfed-Powys will also receive around £6 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Two CCTV projects in the Pembrokeshire CDRP area received a total of £234,900 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime Safety Partnerships (CSPs, formerly CDRPs) in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £496,631 has been allocated to Pembrokeshire CSP under these initiatives. A further £1.42 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the National Assembly for CSP capacity building across Wales.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Pembrokeshire set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Pembrokeshire a total of 11 antisocial behaviour orders have been issued as of February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mr. Salter: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Reading, West constituency, the effects on Reading, West of his Department's policies and actions since 2 May 1997. [215818]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Reading, West constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Thames Valley police force increased by 408 from 3695 to 4103. The Government's introduction of community support officers (CSOs) in 2002 has put 18 CSOs on Thames Valley streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Thames Valley police force area has seen a reduction in recorded domestic burglary crimes of 11 per cent. and in recorded vehicle crimes of 29 per cent.

Thames Valley police will receive £220.6 million in general grants for 2005–06, an increase of 3.75 per cent. (£7.9million) over last year. Thames Valley benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the force would have received £4.1 million less. General grants funding to Thames Valley has increased by 28.9 per cent. between 1997–08 and 2005–06. In addition to general grants, Thames Valley will also receive around £23.8million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The crime reduction programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in the Reading CDRP area received a total of £749,500 from the CRP and one CCTV project in the west Berkshire CDRP area (which includes part of the Reading west constituency) received a total of £16,500 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction partnerships in England and Wales. These initiatives include communities against drugs, the safer communities initiative, the small retailers in deprived areas scheme and the building safer communities fund. Since 2001, a total of £1.56 million has been allocated to Reading CDRP and £587,626 to west Berkshire CDRP under these initiatives. A further £2.57 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the south east for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a prolific and other priority offenders (PPO) scheme in Reading and in west Berkshire set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's crime reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Reading a total of 12 antisocial behaviour orders (ASBOs) have been issued and in west Berkshire a total of four ASBOs have been issued as of 17 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling drug misuse is a priority of this Government and its policy is set out in the 10 year national drug strategy launched in 1998 and updated in December 2002. (A copy of the updated drug strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Reading and west Berkshire has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the drugs intervention programme. In 2003–04 the allocation for reading drug action team amounted to £1.71 million, rising to £2.01 million in 2004–05. For west Berkshire drug action team, the 2003–04 allocation amounted to £597,102, rising to £729,165 in 2004–05. Details of action taken to tackle drugs in the Reading, West constituency can be obtained from the Reading drug action team and west Berkshire drug action team for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by £1.5 million people between

2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

Investment is also being made in voluntary and community sector infrastructure under the ChangeUp Scheme, so that frontline groups and organisations can access the support and expertise they need to improve and expand. £100,000 has been made available to the Reading area and £100,000 has been made available to the west Berkshire area in 2005 to take forward this work.

Reading borough council also participates in the south east community cohesion learning network which is managed by the Government Office for the south east. The network is made up of representatives from 16 south east community cohesion priority areas including local authority officers, the police, and other regional organisations with an interest in community cohesion. The network facilitates the sharing of information, learning and good practice on community cohesion issues in the region.

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–2008, available on the Home Office website at http://www.homeoffice.gov.uk.

Mrs. Fitzsimons: To ask the Secretary of State for the Home Department if he will make a statement on the effects of his Department's policies to combat antisocial behaviour in Rochdale. [217372]

Ms Blears: The Government's TOGETHER campaign helps local people and agencies to tackle and not tolerate antisocial behaviour. TOGETHER applies across all England and Wales including the hon. Member's constituency.

Rochdale has a comprehensive antisocial behaviour strategy, and this is prioritised in Rochdale's Police Reassurance project and plans. This sets out how different delivery agencies are working together to synchronise the effort and impact on antisocial behaviour.

Rochdale has also introduced an alcohol ban scheme, which is a joint project between the Community Safety Team, Trading Standards, pubs, clubs and the police. Any person involved in alcohol related incidents outside or near to a public house or nightclub will be banned for 6 or 12-months from all the pubs and clubs involved in the scheme.

Between April 2004 and December 2004, Rochdale has seen a 4.9 per cent. reduction in neighbourhood problems such as youth nuisance, criminal damage, public disorder and domestic disputes.

52 ASBOs have been issued since 1999 and over 30 acceptable behaviour contracts issued and signed by individuals.

Mr. Chris Smith: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Wokingham constituency, the effects on Wokingham of his Department's policies and actions since 2 May 1997. [215980]

Fiona Mactaggart: The Government has put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Wokingham constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Thames Valley Police Force increased by 408 from 3,695 to 4,103. The Government's introduction of community support officers (CSOs) in 2002 has put 18 CSOs on Thames Valley streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, the Thames Valley Police Force area has seen a reduction in recorded domestic burglary crimes of 11 per cent. and in recorded vehicle crimes of 29 per cent.

Thames Valley Police will receive £220.6 million in general grants for 2005–06, an increase of 3.75 per cent. (£7.9million) over 2004–05. Thames Valley benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the force would have received £4.1 million less. General grants funding to Thames Valley has increased by 28.9 per cent. between 1997–98 and 2005–06. In addition to general grants, Thames Valley will also receive around £23.8 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The crime reduction programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in West Berkshire CDRP (which includes part of Wokingham constituency) received a total of £16,500 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £774,136 has been allocated to Wokingham CDRP and £587,626 to West Berkshire CDRP under these initiatives. A further £2.57 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the south-east for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Wokingham and West Berkshire set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. Two antisocial behaviour orders have been issued in Wokingham and four in West Berkshire as of 17 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government has invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Wokingham and West Berkshire have seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Wokingham Drug Action Team amounted to £568,685, rising to £693,422 in 2004–05. For West Berkshire Drug Action Team, the 2003–04 allocation amounted to £597,102, rising to £729,165 in 2004–05. Details of action taken to tackle drugs in the Wokingham constituency can be obtained from the Wokingham Drug Action Team and West Berkshire Drug Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams

The Government is working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk

Investment is also being made in voluntary and community sector infrastructure under the ChangeUp Scheme, so that frontline groups and organisations can access the support and expertise they need to improve and expand. £100,000 has been made available to the Wokingham area in 2005 to take forward this area of work. Further information on the aims of ChangeUp can be found on the Home Office Website at http://www.homeoffice.gov.uk/comrace/active/developing/index.html

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at http://www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk

Forensic Medical Examiners

Vera Baird: To ask the Secretary of State for the Home Department what percentage of forensic medical examiners are women *(a)* in England and Wales, *(b)* in the Cleveland Police area and *(c)* in the north-east of England. [215573]

Paul Goggins: This information is not held centrally.

Imitation Firearms

Mr. Oaten: To ask the Secretary of State for the Home Department how many individuals have been *(a)* prosecuted and *(b)* convicted for possession of an imitation firearm in a public place under section 37 of the Anti-Social Behaviour Act 2003. [217389]

Ms Blears: Offences under the Anti-Social Behaviour Act 2003, Section 37 came into force on 20 January 2004. Statistics of court proceedings for 2004 will be published in the autumn of 2005.

Immigration Status (Notification)

Mr. Collins: To ask the Secretary of State for the Home Department when he expects Mrs. Moreton of Carr Bank, Milnthorpe, Cumbria to receive written notification of her immigration status and the return of her passport and other personal documentation as undertaken in letters from the Immigration Minister to the hon. Member for Westmorland and Lonsdale dated 17 November 2004 and 4 February 2005; and if he will make a statement. [216843]

Mr. Browne: Written confirmation of Mrs. Shoreton's immigration status was sent to her on 8 February. Her passport and personal documentation were enclosed.

Intercept Evidence

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on his decision not to bring forward proposals to allow the use in court of intercept evidence. [216695]

Mr. Charles Clarke: I refer my hon. Friend to the written statement I laid before the House on 26 January 2005, *Official Report*, column 19WS.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether an assessment has been made of the *(a)* nature and *(b)* extent of intercept evidence in the cases of the Belmarsh detainees. [216696]

Mr. Charles Clarke: As stated in my written statement on 26 January 2005, *Official Report*, column 19WS, the Home Office-led review concluded that intercept would not have made a critical difference in bringing prosecutions against the Belmarsh detainees. It would not be appropriate to disclose details of any intercept relating to the Belmarsh detainees.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment his Department has made of the use made of intercept evidence in court in other countries. [216697]

Mr. Charles Clarke: The Home Office-led review looked at the experience of a range of other countries, all of which regard intercept product as a valuable contribution to evidence used in their courts. However, the review found that there was no evidence that other countries do better than the UK in securing the convictions of terrorists or serious criminals through the use of intercept as evidence.

The review found that the United Kingdom could not simply transplant the evidential regimes of other countries because our legal system is very different, being both adversarial and subject to ECHR considerations. No other country examined had a statutory basis for intelligence agencies to assist law enforcement agencies as is the case in the United Kingdom. The review underlined the importance and value of the unparalleled co-operation between the United Kingdom's intelligence and law enforcement agencies but noted that this would be at risk, in a way that did not apply to the same extent to other jurisdictions, if there was a possibility that sensitive capabilities and techniques might be exposed.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of whether special court procedures could be introduced to enable intercept evidence to be used in court. [216698]

Mr. Charles Clarke: I am not at present persuaded that special court procedures would significantly alter the balance of risks and benefits of using intercept evidence in court.

Kimberley Quinn

David Davis: To ask the Secretary of State for the Home Department whether he requested that a policeman be stationed outside Kimberley Quinn's home. [203227]

Mr. Charles Clarke: I have not issued any instructions surrounding this matter. My right hon. Friend the Member for Sheffield Brightside (Mr. Blunkett), the former Home Secretary has stated that he too did not issue operational instructions to the Met Police and has never had a conversation about this with them.

David Davis: To ask the Secretary of State for the Home Department if he will publish details of the occasions on which Mrs. Quinn visited his Department. [203248]

Mr. Charles Clarke: There are no records of any occasions when Mrs. Quinn visited the Department.

David Davis: To ask the Secretary of State for the Home Department on how many occasions Mrs. Quinn travelled in the Home Secretary's car without him; if he will list the *(a)* origin, *(b)* distance and *(c)* destination of those trips; on how many of these occasions documents were also taken in the car; and whether those documents were of time-sensitive importance. [203249]

Mr. Charles Clarke: The Home Office holds no record of Mrs. Quinn travelling in the former Home Secretary's car.

Licensing Act

Mr. Don Foster: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted and *(b)* convicted under (i) section 172, (ii) section 172A and (iii) section 173 of the Licensing Act 1964 in each year since 1997; how many landlords have had their licences revoked due to breach of these provisions; and if he will make a statement. [212060]

Ms Blears: Statistics from the Home Office Court Proceedings Database on the number of people prosecuted and convicted under sections 172, 172A and 173 of the Licensing Act 1964, England and Wales, 1997–2003 is contained in the following table.

Statistics for 2004 will be available in the autumn.

No central data are available on the reasons why a justices' licence is revoked by the licensing justices. Statistics on revocations are also only collected triennially. The numbers of revocations since 1997 is therefore as follows.

Number of persons proceeded against and found guilty at magistrates courts for certain offences under the Licensing Act 1964, England and Wales, 1997–2003[1]

		1997		1998	
Offence description	*Statute*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Permitting drunkenness or riotous conduct on the premises or selling liquor to a drunken person	Licensing Act 1964 s.172	9	4	22	11
Relevant person working in licensed premises to permit drunkenness or violent behaviour etc.	Licensing Act 1964 s.172A as added by Criminal Justice and Police Act 2001 s.32	—	—	—	—
Person in licensed premises procuring intoxicating liquor for a drunken person or aiding a drunken person to obtain drink	Licensing Act 1964 s.173	3	2	5	3

		1999		2000	
Offence description	*Statute*	*Proceeded against*	*Found guilty*	*Proceeded against*	*Found guilty*
Permitting drunkenness or riotous conduct on the premises or selling liquor to a drunken person	Licensing Act 1964 s.172	13	10	10	2
Relevant person working in licensed premises to permit drunkenness or violent behaviour etc.	Licensing Act 1964 s.172A as added by Criminal Justice and Police Act 2001 s.32	—	—	—	—
Person in licensed premises procuring intoxicating liquor for a drunken person or aiding a drunken person to obtain drink	Licensing Act 1964 s.173	2	1	—	—

		2001		2002		2003

Litherland House

Mr. Kilfoyle: To ask the Secretary of State for the Home Department if he will provide an account of expenditure on Litherland house, Bootle, since the start of his Department's occupancy. [216746]

Fiona Mactaggart: Home Office Pay and Pensions Service took occupation of Litherland house in June 1998. The following table details the combined rent and service charges that have been paid by the Department in each financial year since occupation. The figures quoted do not include capital expenditure or other costs such as furniture and staffing.

Litherland house—combined rent and building service costs

Financial year	*Cost (£)*
1998–99	198,101.54
1999–2000	360,263.55
2000–01	338,974.83
2001–02	497,031.46
2002–03	419,447.27
2003–04	553,630.50
2004-January 2005	366,626.00

Notes:

1. The figures reflect the dates that rent and service charge invoices were actually levied and paid.
2. There is an outstanding invoice for £35,000 (relating to the 2002–03 year) which is currently in dispute.
3. On 1 April 2002, additional space was rented in Litherland house as well as training facilities within The Triad office complex in Stanley road. The Triad accommodation is charged to the Litherland house budget.
4. HOPPS leased further accommodation in India buildings, in June 2004. This is charged to the Litherland house budget.

Ministerial Residence

David Davis: To ask the Secretary of State for the Home Department for what reasons the right hon. Member for Sheffield, Brightside (Mr. Blunkett) is residing in the official residence of the Secretary of State for the Home Department. [209870]

Mr. Charles Clarke: There are a number of former Ministers and Prime Ministers who continue to receive special security requirements after leaving office. We therefore take into account the assessment of the threat to them. On this basis, the Prime Minister has agreed that the right hon. Member for Sheffield, Brightside can continue to have use of the official residence while his security arrangements are reviewed, and appropriate measures can be put in place.

David Davis: To ask the Secretary of State for the Home Department what the cost of maintenance of his official residence was in each year since 1997. [209872]

Mr. Charles Clarke: The costs of maintenance were as follows:

	Maintenance (£)
1997–98	2,581
1998–99	14,849
1999–2000	2,055
2000–01	6,457
2001–02	1,386
2002–03	[1]37,338
2003–04	877
2004–05	[2]3,130

[1] Includes roof works of £12,342
[2] to date
Note:
All costs exclude VAT as this is recoverable

Miscarriages of Justice (Compensation)

Keith Vaz: To ask the Secretary of State for the Home Department what procedure *(a)* his Department and *(b)* the Assessor follows in assessing the compensation for victims of miscarriages of justice who are entitled to compensation under section 133 of the Criminal Justice Act 1988. [216087]

Paul Goggins: Although the Home Secretary decides in principle whether compensation should be paid, the assessment of the amount of compensation is undertaken by an Assessor, appointed by the Home Secretary under section 133(4) of the 1988 Act, who is experienced in the assessment of damages. The current Assessor is Lord Brennan QC. Each case is considered on the basis of the circumstances relating to that individual claimant.

The assessment is made on the basis of written submissions setting out the relevant facts. When the claimant or the claimant's representative is informed that a payment will be made, they are invited to submit to the Claims Assessment Team, in the Office for Criminal Justice Reform, any information or representations which they would like the Assessor to take into account when considering the amount of compensation to be paid. The Claims Assessment Team prepares a draft memorandum based on this material.

The draft memorandum will be sent to the claimant, or the claimant's representative, for their comments. Factual inaccuracies in the draft memorandum will be corrected and a copy of any comments made by the claimant will be sent to the Assessor with the memorandum. The Assessor may, through the Claims Assessment Team, seek further information or clarification arising from the material placed before him. For example, he may ask them to instruct independent accountants to advise him as to the reasonableness of certain pecuniary loss claims.

In reaching his assessment, the Assessor will apply principles analogous to those governing the assessment of damages for civil wrongs. The assessment will take account of pecuniary and non-pecuniary loss arising from the wrongful charge or conviction and loss of liberty that results from it. The Assessor will take into account any reasonable expenses, legal or otherwise, incurred by the claimant in reversing the conviction or pursuing the claim for compensation.

National Offender Management Service

John McDonnell: To ask the Secretary of State for the Home Department how a contestability model for the Probation and Prison Services in England and Wales will avoid increasing bureaucracy. [204974]

Paul Goggins: The development of a contestability model, will be designed in order to drive up the quality of interventions and management of offenders.

John McDonnell: To ask the Secretary of State for the Home Department whether the Vision for the National Offender Management Service was endorsed at the NOMS Performance Board on 24 January. [215998]

Paul Goggins: The Vision for the National Offender Management Service (NOMS) was endorsed at the NOMS Executive Board on 24 January 2005.

John McDonnell: To ask the Secretary of State for the Home Department how he expects the introduction of contestability in the National Offender Management Service to contribute to the Vision Statement aim of working together to reduce re-offending. [216001]

Paul Goggins: Contestability is the principle that best quality and best value for money is achieved through ensuring that services are opened up to competition. The procurement of high quality services to offenders will contribute to the reduction of re-offending.

Mr. Hancock: To ask the Secretary of State for the Home Department who the employers will be of offender managers under the proposed National Offender Management Service structure. [216117]

Paul Goggins: As I announced on 20 July 2004, offender managers will remain employed by Probation Boards. As the National Offender Management Service (NOMS) develops, however, this will involve changes to the role of Boards and to the management relations between Regional Offender Managers (ROMs) and offender managers. Detailed feasibility work and consultation will be undertaken before any final decisions are made with regard to organisational change.

Neighbourhood Watch Scheme

Mr. Oaten: To ask the Secretary of State for the Home Department what research he has evaluated on the effectiveness of the Neighbourhood Watch Scheme in reducing crime. [216219]

Ms Blears: It is difficult to determine exactly the impact of Neighbourhood Watch activity in reducing crime in isolation from other crime reduction interventions. The 2000 British Crime Survey found that 75 per cent. of respondents thought that Neighbourhood Watch schemes were effective in preventing crimes such as burglary, the percentage being similar for members and non-members of Neighbourhood Watch schemes.

Home Office Research Findings 150, published in 2001, gives further information.

Opinion Polling

Mr. Denham: To ask the Secretary of State for the Home Department in what areas his Department conducted opinion polling in each of the last three years. [200984]

Fiona Mactaggart *[holding answer 30 November 2004]:* The Home Office undertakes a wide range of research activities that support the development of information led policy, including surveys of public perception and focus groups of the public that consider Home Office issues and its related areas of responsibility.

The department conducts or commissions such work only when it is justified by the specific needs of a particular policy or programme and when this is the most economical, efficient and effective way to achieve the purpose. Consulting and involving the public helps inform both policy formulation and the delivery of better quality public services.

Areas where opinion polls (as opposed to other forms of market and opinion research) have been conducted in the last three years are:

Antisocial behaviour
CCTV
Community engagement
Community penalties
Forensic science services
Identity/Entitlement cards
Impact of graffiti
Passports
Race equality
Sentencing
Victims
Voluntary organisations
Youth justice

Parliamentary Questions

Mr. Steen: To ask the Secretary of State for the Home Department when he expects to reply to the question tabled by the hon. Member for Totnes on 27 January, about the Holocaust Memorial Day Commemoration in Westminster Hall, ref. 212226. [216245]

Fiona Mactaggart *[holding answer 21 February 2005]:* I replied to the hon. Member on 8 February 2005, *Official Report*, column 1419W.

Police

Mr. Colman: To ask the Secretary of State for the Home Department whether ethnic background is a factor taken into account when allocating training places to candidates who have been selected for the Metropolitan police. [215969]

Ms Blears: In allocating training places at Hendon, the Metropolitan Police Service (MPS) tries to ensure that as far as possible every course intake has a diverse range of recruits taking account of gender and ethnicity. This is in response to their commitment to build a work force which is more representative of the communities they serve.

Mr. John Taylor: To ask the Secretary of State for the Home Department what the cost of pension provision to the West Midlands police force was in each of the last 10 years; and what percentage of the total budget of the force this represented in each year. [210192]

Ms Blears *[holding answer 24 January 2005]:* The information is set out in the table.

	Net pensions expenditure (£000)	Proportion of net expenditure (percentage)
1995–96	34,304	10.4
1996–97	34,530	10.2
1997–98	44,073	12.2
1998–99	42,215	11.5
1999–2000	43,192	11.3
2000–01	47,209	12.0
2001–02	52,585	12.8
2002–03	54,220	13.0
2003–04	55,239	12.5
2004–05	58,094	12.6

Source:
Chartered Institute for Public Finance and Accountancy Police Statistics—actuals 1995–96 to 2002–03 and estimates 2003–04 and 2004–05.

Helen Southworth: To ask the Secretary of State for the Home Departmentif he will place in the Library a table showing the percentage of officers of each rank above inspector in each constabulary who are *(a)* women and *(b)* from ethnic minorities. [216935]

Ms Blears: A copy of a table showing the percentage of officers of each rank above inspector in each constabulary who are *(a)* women and *(b)* from ethnic minorities has been placed in the Library.

Mr. Cousins: To ask the Secretary of State for the Home Department how many *(a)* uniformed officers and *(b)* civilian staff there were in each police authority area in the North East region at (i) 31 March 2003 and (ii) 31 March 2004; and what these figures are per head of police authority population. [216489]

Ms Blears: The latest information on police service strength was published in Home Office Statistical Bulletin number 13/04, 'Police Service Strength England and Wales, 31 March 2004'.

The available information for the North East Region is given in the table:

Number

	Police officers		Police staff		Community support officers		Traffic wardens	
	2003[1]	2004[1]	2003[1]	2004[1]	2003[1]	2004[1]	2003[1]	2004[1]
Cleveland	1,592	1,697	694	764	37	77	7	8
Durham	1,662	1,701	602	600	10	28	15	4
Northumbria	4,018	4,061	1,457	1,495	0	51	59	56
North East Region	7,272	7,459	2,754	2,859	47	155	81	68
Per 100,000 population								
Cleveland	294	314	128	141	7	14	1	1
Durham	281	288	102	102	2	5	2	1
Northumbria	290	294	105	108	0	4	4	4
North East Region	289	297	109	114	2	6	3	3

[1] As at 31 March each year.

Mr. Damian Green: To ask the Secretary of State for the Home Department what estimate he has made of the amount of time senior police officers spent providing information for Government Regional Offices in the last year for which figures are available; and if he will make a statement. [203021]

Ms Blears: The information requested is not collected, nor is it possible to make any reliable estimate.

Home Office Regional Directors and their teams in the Government Offices for the Regions have an important part to play in helping to secure local delivery of the Government's objectives in respect of crime, substance misuse and community cohesion. This inevitably requires them to meet regularly with key partners in their areas including, of course, the police. I know that Government Offices do all they can to ensure that dialogue is productive, and bureaucracy kept to a minimum.

Police Finance

Mr. Willis: To ask the Secretary of State for the Home Department what the percentage increase in precept was for each policy authority in England in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [211451]

Ms Blears *[holding answer 27 January 2005]:* The information is set out in the following table.

Annual percentage increase

	2001–02	2002–03	2003–04
Avon and Somerset	7.5	14.8	33.9
Bedfordshire	4.9	12.0	18.7
Cambridgeshire	8.9	39.0	19.8
Cheshire	5.9	13.7	19.8
Cleveland	6.0	38.3	25.1
Cumbria	7.6	10.9	30.1
Derbyshire	6.0	22.0	21.5
Devon and Cornwall	5.0	19.4	39.9
Dorset	9.3	12.2	19.2
Durham	7.2	14.2	23.5
Dyfed-Powys	6.4	7.9	26.5
Essex	4.5	9.4	19.7
Gloucestershire	5.2	14.6	51.7
Greater Manchester	3.1	6.5	33.1
Gwent	12.1	13.3	25.2
Hampshire	7.2	27.3	29.5
Hertfordshire	6.5	11.9	21.3
Humberside	42.2	11.2	18.5
Kent	8.1	22.2	28.9
Lancashire	8.5	8.8	18.6
Leicestershire	11.4	26.1	10.0
Lincolnshire	4.5	5.0	10.1
Merseyside	5.0	11.0	7.2
Metropolitan	30.7	9.9	21.9
Norfolk	16.0	20.0	21.5
Northamptonshire	4.2	26.8	23.6
Northumbria	6.9	4.5	9.7
North Wales	5.4	16.7	31.5
North Yorkshire	9.7	41.5	76.1
Nottinghamshire	7.7	21.4	28.3
South Wales	6.4	5.0	15.2
South Yorkshire	6.0	18.0	27.3

Annual percentage increase

	2001–02	2002–03	2003–04
Staffordshire	13.1	7.0	25.3
Suffolk	9.9	22.3	33.2
Surrey	4.6	16.1	40.1
Sussex	6.5	18.1	39.9
Thames Valley	6.9	14.0	44.6
Warwickshire	9.8	19.5	15.2
West Mercia	6.0	33.1	14.6
West Midlands	4.5	8.2	15.0
West Yorkshire	3.6	24.8	17.0
Wiltshire	9.8	9.9	19.8

Source:
Office of the Deputy Prime Minister and National Assembly for Wales

Linda Gilroy: To ask the Secretary of State for the Home Department what the financial settlement for the Devon and Cornwall Police Authority was in each year between 1995–06 and 2004–05. [212054]

Ms Blears *[holding answer 31 January 2005]*: The information is set out in the table.

£ million

	General government grants[1]	Specific grants and capital provision[2]	Total
1995–96	122.9	3.6	126.5
1996–97	129.3	2.7	132.0
1997–98	133.0	2.7	135.7
1998–99	141.1	4.0	145.1
1999–2000	146.7	2.5	149.2
2000–01	150.2	5.8	156.0
2001–02	156.9	15.4	172.3
2001–02[3]	152.8	15.4	168.2
2002–03	156.7	16.9	173.6
2003–04	161.5	17.6	179.1
2004–05	166.7	18.8	185.5

[1] General government grants comprise Home Office police grant, ODPM revenue support grant and national non-domestic rates.
[2] Includes funding from the crime fighting fund, rural policing fund, basic command unit funding, community support officer funding, special priority payments, the DNA expansion programme, capital provision, Airwave and the premises improvement fund.
[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements of NCS/NCIS. Adjusted (lower) figures for 2001–02 are therefore included for future comparison.

Police Funding

Mrs. Spelman: To ask the Secretary of State for the Home Department what the total revenue raised from police precepts was in each police authority in England and Wales for each year since 1996–97. [207956]

Ms Blears: The information is set out in the following table.

Revenue raised from police precept on council tax

£ million

	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05

Office of the Deputy Prime Minister and National Assembly for Wales.

Mrs. Spelman: To ask the Secretary of State for the Home Department what the level of the police precept on band D council tax was in each policy authority in England and Wales for each year since 1996–97. [207957]

Ms Blears: The information is set out in the following table.

Police precept on council tax (band D)

£

	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05

Note:
Figures for 1996–97 for England are not available to two decimal points.
Source:
Office of the Deputy Prime Minister and National Assembly for Wales

Police Vehicle Collisions

Sarah Teather: To ask the Secretary of State for the Home Department how much was spent on repairing police vehicles following collisions in London in each of the last three years for which figures are available, broken down by basic command unit; and how many injuries resulted from a police collision in London in each year. [210789]

Ms Blears: This is a matter for the Commissioner. I have asked him to write to the hon. Member and place a copy in the Library.

Police/Crime Statistics (Durham)

Mr. Kevan Jones: To ask the Secretary of State for the Home Department what the level of crime was in North Durham in *(a)* 1997, *(b)* 2001 and *(c)* the latest period for which figures are available. [214465]

Ms Blears: Statistics on the levels of crime specifically in North Durham are not collected centrally. Figures for the Durham police force area as a whole are as follows:

Recorded offences in Durham

	Number
1997	47,976
2001	48,613
2003–04	48,432

Because of changes to the coverage and counting rules in April 1998 and the introduction of the National Crime Recording Standard in April 2002, these data are not on a comparable basis.

Police/Media

Mr. Amess: To ask the Secretary of State for the Home Department what guidance he has given to police officers on briefing the media when a person is *(a)* arrested and *(b)* detained in custody. [216357]

Ms Blears: The Media Advisory Group of the Association of Chief Police Officers publish guidance notes on media handling in a range of operational situations. The notes aim to encourage consistency of practice by police forces but are issued only for their guidance. It is a matter for individual chief constables, in conjunction with their media advisers, to decide whether, and how, the notes should be implemented. The guidance notes are set out on http://www.acpo.police.uk/asp/policies/policieslist.asp, including Guidance Note 2 on individuals under investigation.

Policing

Geraldine Smith: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* burglaries and *(c)* vehicle thefts has been in Morecambe and Lunesdale since 1997. [216776]

Ms Blears: Statistics relating specifically to Morecambe and Lunesdale are not available centrally. Morecambe and Lunesdale comes within the Lancaster Crime and Disorder Reduction Partnership (CDRP) area and information at CDRP level is only available from 1999–2000.

Geraldine Smith: To ask the Secretary of State for the Home Department how much Government funding has been spent on policing in Morecambe and Lunesdale in each of the last 10 years. [216783]

Ms Blears: Central Government support to Lancashire constabulary is set out in the table. It is a matter for the Chief Constable and Police Authority to determine its final annual budget and decide how to deploy the available resources across the force area. The Chief Constable informs me that details of spending in Morecambe and Lunesdale are not available.

	General government grants[1] *(£ million)*	*Annual percentage change in general government grants*	*Specific grants and capital provision*[2] *(£ million)*
1997–98	146.9	—	2.2
1998–99	153.6	4.6	2.4
1999–00	155.9	1.5	2.2
2000–01	162.2	4.0	6.6
2001–02	168.1	3.6	18.2
2001–02[3]	164.0	—	18.2
2002–03	168.7	2.9	15.1
2003–04	177.1	4.9	15.4
2004–05	182.9	3.3	15.8
2005–06	190.8	4.3	17.4

[1] General government grants comprise Home Office Police grant, ODPM Revenue Support Grant and National Non-Domestic Rates.

[2] Includes funding from the Crime Fighting Fund, Rural Policing Fund, Basic Command Unit funding, Street Crime Initiative, Community Support Officer funding, Special Priority Payments, the DNA Expansion Programme, capital grant, Airwave and the Premises Improvement Fund. Total for specific grants in 2005–06 are an estimate.

[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements of NCS/NCIS. Adjusted figures for 2001–02 are therefore included.

Mrs. Fitzsimons: To ask the Secretary of State for the Home Department how many police officers in Rochdale there were *(a)* in 1997 and *(b)* the latest date for which figures are available. [217374]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Between March 2002 and March 2004 full-time equivalent police officer numbers for the Rochdale Metropolitan Borough (P) Division increased by 12.5 per cent. (from 409 in March 2002 to 460 in March 2004). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd QPM) and within the Rochdale Metropolitan Borough (P) Division deployment of officers is a matter for the Divisional Commander.

Mr. Oaten: To ask the Secretary of State for the Home Department how much money has been spent on policing per head of population in each police force in England and Wales in each year since 1997. [201416]

Ms Blears: The information is set out in the following table.

Government funding for police authorities is chiefly allocated using a funding formula that distributes resources on the basis of relative policing need. The formula is currently being reviewed to ensure it reflects modern policing needs. Funding is not, and never has been, distributed on a per capita basis.

Net revenue expenditure[1] *per head of population*[2]

Prison Information Booklets

Mr. Stinchcombe: To ask the Secretary of State for the Home Department what the contractual obligations for privately managed prisons are in relation to the provision of information to prisoners. [215296]

Paul Goggins: Both public sector and privately managed prison establishments are obliged to adhere to the provisions contained in Prison Service Order 6710 on Prison Libraries, and which sets out the publications which must be held by all Libraries and made available to prisoners. These publications include relevant legislation, documents and manuals on the management of prisons and guidance on legal matters.

Prison Service Intranet

Mr. Stinchcombe: To ask the Secretary of State for the Home Department whether privately managed prisons have access to the Prison Service intranet. [215297]

Paul Goggins: Privately managed prisons do not currently have access to the Quantum IT infrastructure which supports the Prison Service intranet. Work commenced in January 2005 to provide these establishments with limited access to the electronic version of the Offender Assessment System (OASys).

Plans are in hand to allow privately managed prisons access the Quantum IT infrastructure from summer 2005.

Prisoners (Communication Costs)

Mr. Oaten: To ask the Secretary of State for the Home Department what the cost to his Department was in each of the last three years for *(a)* prisoners' private letters, *(b)* prisoners' legal letters, *(c)* foreign national prisoners' telephone calls and *(d)* telephone calls made by prisoners on arrival in prison. [214988]

Paul Goggins: The information requested is not collected centrally.

The Prison Service has a statutory obligation to assist prisoners to maintain external contacts as part of their rehabilitation. To this end, convicted prisoners are allowed to send one letter a week and unconvicted prisoners two at public expense by 2nd class post. Prisoners are required to meet the cost of any additional letters but Governors and Directors have the discretion to fund special letters in exceptional circumstances (such as when a prisoner is to be transferred, or is involved in legal proceedings).

Prisoners pay to make an estimated 25 million telephone calls a year. For Foreign National prisoners, Governors have the discretion to provide a free 5-minute call provided that the prisoner in question has not received a domestic visit in the preceding month. Governors also have the discretion to provide prisoners with access to an official telephone or make a call on their behalf to a close relative or partner within the first 24 hours of their arrival into prison. The only other occasion where prisoners are provided with calls at official expense is in urgent domestic circumstances involving a close relative or partner.

Prisons

Simon Hughes: To ask the Secretary of State for the Home Department what the average cost was in the last

year of a place in each prison in *(a)* the Prison Estate and *(b)* privately run prison establishments: and if he will make a statement. [214365]

Paul Goggins: The average cost per place for each Prison Service and privately run establishment for the financial year 2003–04 is listed in the tables. These figures are not directly comparable since prisons vary widely in a number of factors which impact on costs such as the type of prison, category of security, levels of crowding, facilities and layout, location and the age of establishment.

A. Prison service establishments

[1] The costs for private prisons excludes capital charges (Cost of Capital, Cost of Capital Credit and Depreciation), making the figures comparable with the public prison service.
[2] HMP Bronzefield, a privately run prison, opened in June 2004 and is therefore excluded from this data.

Dr. Cable: To ask the Secretary of State for the Home Department what the budget is for prison education in 2004–05; what allocation has been made to 2007–08; and if he will make a statement. [216738]

Paul Goggins: The Department for Education and Skills has a specified and non-transferable budget for offenders' learning and skills of £136 million in 2004–05, which rises to £152.5 million for each of the years 2005–06, 2006–07 and 2007–08. This covers learning and skills in prison as well as for offenders in the community.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he is taking to improve rehabilitation for short-term and remand prisoners. [216803]

Paul Goggins: The introduction of Custody Plus, under the Criminal Justice Act 2003, will improve rehabilitation for all short-term prisoners by providing post-release supervision by the probation service of at least six months in all cases.

In the meantime, a range of interventions have been introduced for short-term prisoners to address pressing needs in health, basic skills, drugs, and job search and benefits advice. From April 2005, all local prisons will be required to carry out housing needs assessments for every new prisoner, including those serving short sentences and on remand. A drug rehabilitation programme specifically for short-term prisoners is already being rolled-out following a successful pilot launched in April 2004.

All prisoners, including those on remand, receive induction on admission to prison, which includes interviews on healthcare and resolving problems such as preserving accommodation, employment, and meeting family responsibilities.

Mr. Chope: To ask the Secretary of State for the Home Department what the incidence of smoking in prisons in England and Wales was in the last period for which figures are available. [217209]

Paul Goggins *[holding answer 21 February 2005]:* This information is not routinely collected. In 1999 the report by the Office for National Statistics "Substance Misuse Among Prisoners in England and Wales" recorded that 78 per cent. of male sentenced, 85 per cent. of male remand, 81 per cent. of female sentenced and 83 per cent. of female remand prisoners were current smokers.

Mr. Chope: To ask the Secretary of State for the Home Department what the policy of the Government are in relation to prisoners who do not wish to be exposed to the effects of passive smoking in their cells. [217210]

Paul Goggins *[holding answer 21 February 2005]:* Each prison develops its own "no smoking" policy in line with current health and safety advice and taking into account the type of establishment it is, its population and the special needs of that population. Wherever possible prisoners should not be required to share accommodation with a smoker if they so request.

Sexual Assault Referral Centres

Vera Baird: To ask the Secretary of State for the Home Department how many sexual assault referral centres are now functional in England and Wales; where they are situated; and how many are funded *(a)* wholly and *(b)* partly by (i) primary care trusts, (ii) strategic health authorities and (iii) local police forces. [215571]

Paul Goggins: There are 13 Sexual Assault Referral Centres (SARCs) now functional in England and Wales, listed in the table. There are other examples of work between police and health services to provide services to victims of sexual assault that do not refer to themselves as 'SARCs', for example the STAR service in West Yorkshire. It should be noted that levels of service offered by the 13 SARCs vary.

The table shows the funding arrangements for existing SARCs. SARC funding arrangements are negotiated at a local level. The majority of SARCs are jointly funded by local police forces and primary care trusts. Strategic health authorities do not have responsibility for allocation of funding.

All percentages are approximate. Where information about exact funding contributions has not been available, the sources of funding are given.

SARCs	
St. Mary's Manchester	Accommodation and associated costs, plus ancillary staff, provided by Central Manchester and Manchester children's university hospitals trust. Staffing and running costs provided by Greater Manchester police (GMP)
The Haven Camberwell, London	50 per cent. London area PCTs 50 per cent. Metropolitan police
The Haven Paddington, London	50 per cent. London area PCTs 50 per cent. Metropolitan police
The Haven Whitechapel, London	50 per cent. London area PCTs 50 per cent. Metropolitan police

SARCs	
SAFE Centre, Preston, Lancashire	5 per cent. Lancashire teaching hospitals NHS trust 95 per cent. Lancashire constabulary
Juniper Lodge, Leicester, Leicestershire	25 per cent. Leicester City PCT 75 per cent. Leicestershire police
REACH, Northumbria	Jointly funded by: Northumberland health authority Sunderland health authority Gateshead and South Tyneside health authority Newcastle and North Tyneside health authority Northumbria police
Rowan Centre, Walsall, West Midlands	Management, running costs and maintenance of premises provided by Walsall teaching PCT Forensic medical examinations funded by West Midlands police
Codner, Derbyshire	Funded by Derbyshire police with contribution from Derbyshire rape crisis group
Dartford, Kent	Part-time manager and upkeep costs provided by Darent Valley hospital Forensic examination costs provided by Kent police
The Sanctuary, Swindon, Wiltshire	Jointly funded by local police and health. The centre is being extensively developed and new funding arrangements are currently being negotiated
The Milne Centre and Cabot Suite, Bristol	Funded out of sexual health clinic budget
Peterborough Cambridgeshire	Peterborough City PCT Cambridgeshire constabulary

Vera Baird: To ask the Secretary of State for the Home Department which sexual assault referral centres employ forensic nurses. [215575]

Paul Goggins: St. Mary's Centre in Manchester has employed a forensic nurse since March 2001, initially funded as a two-year pilot project by the Home Office Crime Reduction Programme. We do not know of any other Sexual Assault Referral Centres (SARCs) which employ forensic nurses at the present time, but are aware of plans in some centres to develop the use of forensic nurses to undertake forensic examinations of service users reporting rape or sexual assault.

Staff Custody Officers

John McDonnell: To ask the Secretary of State for the Home Department what training arrangements are proposed for designated officers to act as staff custody officers in the Serious Organised Crime and Police Bill. [215293]

Ms Blears: The training arrangements for the post of custody officer will be identical to those undertaken by a police sergeant fulfilling the role.

Although Centrex have developed a national training programme for custody officers there is no formal qualification required before a police officer can take on the role of custody sergeant. It will remain a matter for individual force policy on training required before the appointment of police officers and police staff to this role.

National Occupational Standards for the Police Sector developed by Skills for Justice set out the competencies and skills required for authorising and managing police detention and form an Integrated Competency Framework. In terms of the custody officer, the competency framework focuses on the key areas of making detention decisions; managing the detention of individuals; and authorising and reviewing continued detention.

In addition, further work is under way with stakeholders and the National Centre for Policing Excellence on developing guidance on how these standards are to be achieved. This will be issued for consultation later this year and published in January 2006. Combined with the competency framework, we will have in place definitive standards for both police and police staff employed in the custody suite

Stolen Property

Mr. George Osborne: To ask the Secretary of State for the Home Department how many civil servants from his Department have *(a)* faced disciplinary proceedings as a result of allegations of theft, *(b)* been charged with theft and *(c)* been dismissed following theft allegations in each year since 1997. [206401]

Fiona Mactaggart: The Home Office and its Agencies currently have no records of disciplinary action taken relating to theft according to the central database set up in 2000–01. Figures recorded before the establishment of the database could be obtained only at disproportionate cost.

Student Visa Charges

Mr. Sarwar: To ask the Secretary of State for the Home Department what plans his Department has to increase overseas student visa charges. [213699]

Mr. Browne: I refer my hon. Friend to my statement of 7 February 2005, *Official Report*, column 69WS.

Violent Crime (Northumbria)

Mr. Cousins: To ask the Secretary of State for the Home Department how many violent offences involving

(a) violence against the person, *(b)* sexual offences and *(c)* robbery there were in each basic command unit of Northumbria police force area in (i) 2002–03 and (ii) 2003–04. [216485]

Ms Blears: The information requested is available on the Home Office website: http://www.homeoffice.gov.uk/rds/pdfs04/bcu2.xls

Departmental Policies

Mr. Michael Foster: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to Worcester constituency, the effects on Worcester of changes to his Department's policy since 1997. [213481]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Worcester constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the West Mercia Police Force increased by 325 from 2,040 to 2,365. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 67 CSOs on West Mercia streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, West Mercia has seen a reduction in recorded domestic burglary crimes of 10 per cent. and in recorded vehicle crimes of 36 per cent.

West Mercia Police Force is receiving £111.8 million in general grants for 2005–06, an increase of 3.75 per cent. (£4.1 million) over this year. West Mercia benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the Force would have received £2.5 million less. General grants funding to West Mercia has increased by 27 per cent. between 1997–98 and 2005–06. In addition to general grants, West Mercia will also receive around £10 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in the Worcester CDRP area received a total of £643,832 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £446,583 has been allocated to the Worcester CDRP under these initiatives. A further £2.03 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the West Midlands for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Worcester set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Worcester a total of 28 antisocial behaviour orders have been issued as of 9 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10-year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Worcestershire has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Worcestershire Drug Action Team amounted to £2.5 million, rising to £1.5 million in 2004–05. Details of action taken to tackle drugs in the Worcester constituency can be obtained from the Worcestershire Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local

people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Work Permits

David Davis: To ask the Secretary of State for the Home Department how many work permits were issued in *(a)* 2003 and *(b)* 2004, broken down by capacity in which they were issued. [216898]

Mr. Browne *[holding answer 22 February 2005]*: The table displays the number of work permits that were issued in *(a)* 2003 and *(b)* 2004, broken down by the capacity in which they were issued:

Work permit category	*2003*	*2004*
Business and Commercial	153,179	160,370
Sector Based Scheme	7,809	16,858
Training and Work Experience Scheme	5,980	4,204
Total	166,968	181,432

The figures for the Sectors Based Scheme for 2003 do not cover an entire 12 month period as the scheme started in May 2003.

Written Answers to Questions

Thursday 24 February 2005

SOLICITOR-GENERAL

Crown Prosecution Service

23. **Mr. Allen:** To ask the Solicitor-General pursuant to the answer of 2 December 2004, *Official Report*, columns 206–07W, on the Crown Prosecution Service, what progress has been made with the planned review of interaction between prosecutors and the police in the process from arrest to charge. [217649]

The Solicitor-General: A review of the charging arrangements in Nottinghamshire took place during December 2004. An action plan setting out a number of recommendations for improvement was provided to the Area after the review. Work on these actions has commenced and is being taken forward by the joint charging team.

A follow up visit to the Area, by the joint Crown Prosecution Service and police charging team to assess progress against the action plan, will be made in the spring.

24. **Andy Burnham:** To ask the Solicitor-General if she will make a statement on reform of the Crown Prosecution Service. [217650]

The Solicitor-General: The CPS reform programme aims to put prosecutors at the heart of the Criminal Justice System, providing a prosecuting service that meets the needs of victims and communities. This means prosecutors having a bigger role at each stage of the criminal justice process from charge through to sentence and working in co-operation with others in the criminal justice process while maintaining that independence of decision-making which is the hallmark of British prosecutors.

Child Witnesses

25. **Mr. Jim Cunningham** To ask the Solicitor-General what steps the Crown Prosecution Service takes to prevent trauma suffered by children serving as witnesses at trials. [217652]

The Solicitor-General: Crown Prosecutors work closely with the police and other agencies to ensure that children, receive the help and support they need to cope with the court process and to assist them to give their best evidence through a range of special measures, including the use of screens, giving evidence in private, video recorded evidence in chief, live TV links, and the removal of wigs and gowns.

The introduction of witness care units across the country will further improve the experience for children. These will offer a single point of contact for witnesses, parents and carers, and a detailed needs assessment will be carried out to identify a witness's specific support requirements. A tailored support system can then be provided to them.

In relation, to child witnesses, witness care units can be expected to support children by, for example, arranging pre-trial court visits, providing an explanation as to what will happen in court, arranging a home visit, providing safe and easy access to court on the day of trial and also making contact with the local, school if there are difficulties in that regard.

Information Technology

Mrs. Curtis-Thomas: To ask the Solicitor-General if she will make a statement on the use of information technology to improve efficiency of working between the Crown Prosecution Service and the courts. [217653]

The Solicitor-General: Information technology has a key role to play in delivering a modernised, joined-up criminal justice system. The Crown Prosecution Service is working with the courts and other criminal justice system colleagues to secure more efficient use of information technology.

Examples of current initiatives are the use of secure e-mail between criminal justice practitioners, which will facilitate the effective trials management programme.

EDUCATION AND SKILLS

School Meals

8. **Diana Organ:** To ask the Secretary of State for Education and Skills what plans she has to involve parents in assessing the quality and nutritional value of school meals. [217634]

Ruth Kelly: Parents will be the front line of the drive to improve school meals, with an independent school food trust and tougher standards on processed food introduced in the new school year. Many schools already ensure that children eat healthy school meals. However, parents need to work with schools to improve the quality and nutritional value of their child's school meal. Further information on this initiative will be available in due course.

Vocational Education

10. **Syd Rapson:** To ask the Secretary of State for Education and Skills what plans she has to increase the take-up of vocational training in schools and colleges. [217636]

Ruth Kelly: On 23 February I placed before the House the Command Paper "14 to 19 Education and Skills". This should lead directly to an increase in the numbers undertaking vocational education and training in schools and colleges. Diplomas and better training facilities will make vocational education an attractive choice offering real opportunities. These proposals build on the success of our Apprenticeship and Increasing Flexibility programmes which have already provided a high quality vocational education for over 1 million young people.

Building Schools for the Future

16. **Mr. Beith:** To ask the Secretary of State for Education and Skills when she expects schools in Northumberland to benefit in the building schools for the future programme. [217642]

Mr. Stephen Twigg: Building Schools for the Future aims to transform secondary schools in 15 waves of investment from 2005–06, subject to future public spending decisions. We recently announced over £40 million capital for Northumberland over the next three years. Further, by 2011, we aim to support at least one secondary school of the future in the county. Its northern and central areas should join Building Schools for the Future between 2014 and 2017, followed by its western and south-eastern areas.

18. **Mr. Peter Atkinson:** To ask the Secretary of State for Education and Skills when she expects to announce the next stage of funding under the Building Schools for the Future Programme. [217644]

Mr. Stephen Twigg: We aim to announce the prioritisation of waves four and five of Building Schools for the Future, which will access funding in 2008–09 and 2009–10, in the autumn of 2006 following the settlement of the 2006 Spending Review.

Special Schools (Gloucestershire)

17. **Mr. Laurence Robertson:** To ask the Secretary of State for Education and Skills if she will make a statement on the future of special schools in Gloucestershire. [217643]

Margaret Hodge: Under arrangements introduced in the School Standards and Framework Act 1998, the consideration of proposals for establishing, altering, or discontinuing maintained special schools are a matter for local decision making. It is for the local School Organisation Committee to consider any objections received when they make their decision on proposals. If the School Organisation Committee cannot reach a unanimous decision, it will pass the case to the Office of the Schools Adjudicator for determination.

Education Select Committee Report

19. **Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills if she will make a statement on the recent report of the Education Select Committee on Public Expenditure on Education and Skills. [217645]

Mr. Stephen Twigg: We welcome the report on Public Expenditure from the Education and Skills Select Committee.

We are compiling a reply to the recommendations and will shortly be sending our reply to the Committee.

Music Manifesto

Kevin Brennan: To ask the Secretary of State for Education and Skills if she will make a statement on progress in implementing the music manifesto. [217640]

Derek Twigg: We are making good progress. A Manifesto Champion and Steering Group are in place and drawing up plans for future shared activities.

More than 180 organisations and individuals have signed up to the Music Manifesto. Together they have made more than 100 pledges of programmes and resources to support the key aims—including one from Lloyds TSB who pledged £10 million for musical instruments earlier this month. DfES pledges alone amount to more than £220 million.

Broadband Access

Mr. Gill: To ask the Secretary of State for Education and Skills what percentage of *(a)* primary and *(b)* secondary schools in (i) Leicester, South and (ii) England have broadband internet access. [217983]

Derek Twigg: My Department does not hold information specifically for Leicester South. As at the end of December 2004, 43 per cent. of primary schools and 100 per cent. of secondary schools in Leicester City had broadband connections, and 43 per cent. of primary schools and 98 per cent. of secondary schools in Leicestershire had broadband connections. This compares to 69 per cent. of primary schools, 99 per cent. of secondary schools and 72 per cent. of all schools in England with high speed broadband connections. We are on track to connect all schools by 2006.

EMA

Mr. Gill: To ask the Secretary of State for Education and Skills how many students in Leicester, South are receiving education maintenance allowance. [217980]

Mr. Ivan Lewis: On 1 February 2005, the number of students who had received one or more EMA payments for the academic year 2004/05 in the Leicestershire area was 6,232. This is the total figure, comprised of 3,984 students in the Leicester City local education authority area and 2,248 students in the Leicestershire local education authority area. We do not break this data down further into constituency and ward areas.

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the programme establishing a single financing and programming instrument for cultural co-operation (Culture 2000) met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217246]

Mr. Caborn: I have been asked to reply.

Between 1 July 2003 and 31 December 2004, the Culture 2000 Management Committee met in Brussels on: 7 July 2003, 17 November 2003 (Italian presidency), 29 March 2004 (Irish presidency) and 9 November 2004 (Dutch presidency). DCMS officials attended all the meetings.

Learndirect

Sue Doughty: To ask the Secretary of State for Education and Skills what the total costs of promotion of the learndirect scheme have been since the scheme's inception. [217482]

Mr. Ivan Lewis: Since its launch in 2000 learndirect has enrolled over 1.5 million learners and handled over 21 million inquiries through its National Advice Line. On the basis of information provided by Ufi, learndirect has spent £93.74 million to 31 July 2004 promoting these services.

Sue Doughty: To ask the Secretary of State for Education and Skills how many people have completed learndirect courses. [217596]

Mr. Ivan Lewis: In just five years learndirect has firmly established itself as one of the biggest e-learning networks in the world, and is successfully making learning more accessible to individuals and businesses. On the basis of information provided by Ufi, over 1.5 million learners have enrolled on learndirect courses and over 920,000 of these learners have completed their course.

National Curriculum

Stephen Hesford: To ask the Secretary of State for Education and Skills how her Department will tailor the curriculum to stretch academically able pupils. [217440]

Mr. Stephen Twigg: Our White Paper published on 23 February includes a range of proposals for ensuring stretch for all pupils across the 11 to 19 phase of secondary education. These include freeing up time at Key Stage 3 to introduce scope for greater breadth, depth and pace for gifted and talented pupils; the opportunity to provide some higher education courses in maintained schools; and building on the strengths of the existing GCSE and A-level qualifications in order to increase stretch and challenge for all pupils.

Plater College, Oxford

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills what advice the Learning and Skills Council gave Plater College, Oxford, following the report on the College of 20 October 2004 by the Adult Learning Inspectorate. [217944]

Mr. Ivan Lewis: This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to my hon. Friend with this information and a copy of his reply will be placed in the Library.

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills whether *(a)* her Department and *(b)* the Learning and Skills Council have a claim on any part of the assets of Plater College, Oxford, should its closure go ahead. [217945]

Mr. Ivan Lewis: Plater College, Oxford, is a Roman Catholic College operating in the FE sector. The college trustees have taken the decision to close the college in July 2005. It is not known, at this stage, whether the Department or the LSC will have any claim on the college's assets. This will be one of the issues to resolve as the college nears closure and will be dependent upon the terms of its memorandum and articles of association and its contractual arrangements with the LSC, which funds some of its activities.

Mr. Andrew Smith: To ask the Secretary of State for Education and Skills if she will make a statement on the future of Plater College, Oxford. [217946]

Mr. Ivan Lewis: Plater College, Oxford, is a Roman Catholic college operating in the FE sector. The College Trustees have decided to close the college in July 2005. The LSC is working closely with the college to ensure that the interests of current students and other learners in the area are safeguarded.

Pupil Referral Units

Mr. Willis: To ask the Secretary of State for Education and Skills what the cost is of setting up a new pupil referral unit; and what the average running costs were for pupil referral units in the last year for which figures are available. [216864]

Derek Twigg: We do not hold information on the cost of setting up new pupil referral units (PRUs). The cost will depend on the size of the accommodation required, the number of pupils and the particular needs to be met.

All PRUs are very different, and as a result the average running cost will vary widely depending on the individual characteristics of the PRU. However dividing the total planned expenditure on the provision of education at PRUs in England in 2004–05 (as recorded on local authorities 2004–05 section 52 budget statement) by the total number of PRUs in England as at January 2004 gives an estimated average planned running cost of around £466,000.

School Playground Schemes

Hugh Robertson: To ask the Secretary of State for Education and Skills what support the Government are giving to school playground schemes. [218004]

Mr. Stephen Twigg: Government support for capital investment in schools has risen to £4.9 billion this year, will be £5.5 billion next year, £5.8 billion in 2006–07 and will reach £6.3 billion by 2007–08. All schools and local authorities will benefit from this programme, which includes flexibility for local authorities and schools to prioritise expenditure on the areas they consider most important, including playgrounds.

The Big Lottery Fund (BLF) is providing around £81 million, through the New Opportunities for Physical Education and Sport programme, towards playground improvements in England. This includes playground markings, improvements to drainage and refurbishing existing facilities. We are also working with the BLF to ensure that these facilities will fully complement the Building Schools for the Future (BSF) programme. This programme aims to renew the secondary school estate (including playgrounds) in

15 waves starting from 2005–06. Schools, local authorities and their partners are encouraged to look as widely as possible at all educational needs, both inside and outside the classroom.

Furthermore, the Sporting Playgrounds programme is supporting £10 million of capital investment between April 2003 and March 2005. This will enhance around 600 primary school playgrounds to increase physical/sporting activities and improve behaviour.

For the past three years the Department has also provided £250,000 a year to Learning through Landscape, which has encouraged schools to improve and develop their grounds for curriculum-related use.

Truancy

Mr. Swire: To ask the Secretary of State for Education and Skills how many children played truant in the last year for which figures are available. [217633]

Mr. Stephen Twigg: In the school year 2003/04, 567,503 primary pupils and 696,600 secondary pupils recorded at least one half day's unauthorised absence. Unauthorised absence includes absence due to lateness or family holidays taken during term time without the school's permission, as well as truancy. Recent research in to pupil absence suggests that around 2 per cent. of secondary school pupils are persistent truants, responsible for almost half of all unauthorised absence in secondary schools.

Vocational Training

Bob Spink: To ask the Secretary of State for Education and Skills when she will next visit a further education college in the south-east to assess the provision of vocational training places. [217664]

Derek Twigg: I currently have no plans to visit further education colleges in the south-east. I would consider any such invitations, depending on diary commitments.

PRIME MINISTER

Iraq

Adam Price: To ask the Prime Minister whether the decision by the Metropolitan police to interview hon. Members as part of an on-going Official Secrets Act investigation into the disclosure of Iraq-related material was *(a)* authorised by and *(b)* communicated to (i) Ministers and (ii) officials in his Government. [218035]

The Prime Minister: The Metropolitan police have kept officials in the Cabinet Office informed of the progress of their inquiry, which was initiated at the request of the Cabinet Office. Decisions about the handling of the inquiry are a matter for the police.

Official Correspondence

Mr. Hammond: To ask the Prime Minister whether he has used a signing machine for official correspondence. [216625]

The Prime Minister: No. My office does, however, use an electronic version of my signature on some letters and messages.

INTERNATIONAL DEVELOPMENT

Iraq

Joan Ruddock: To ask the Secretary of State for International Development what support the UK has given to democracy-building in Iraq; what the cost of that support has been; and what proportion of the budget was allocated to support for women. [217433]

Hilary Benn: Democracy building is a strategic priority of the UK's support to Iraq, as set out in DFID's Iraq Country Assistance Plan (February 2004). DFID works closely with the FCO to support and encourage a stable, united and law abiding state that provides effective and representative government, sustainable economic growth and rising living standards for all Iraqi citizens.

DFID has funded a number of initiatives to support democracy-building activities in Iraq. These have included $10 million in support of the Independent Elections Commission of Iraq (IECI) for the recent elections; and funding for two advisers to the UN team supporting the IECI. DFID's £5 million Political Participation Fund (PPF) supports initiatives which aim to increase opportunities for political representation and participation in the political process. Projects funded so far include voter education and media and monitors' training for the recent elections. There is no specific allocation to support for women, but the project has a particular focus on supporting women's participation in the political process. So far nine projects amounting to over £300,000 have been specifically targeted at women.

Kosovo

Joan Ruddock: To ask the Secretary of State for International Development what support the UK has given to democracy-building measures in Kosovo, including training of local and national legislators; what the budget was for that support; and what proportion of that budget was allocated to support for women. [217432]

Mr. Gareth Thomas: DFID has provided the following funding to democracy-building measures in Kosovo:

Project	*Year*	*Amount (£)*
1. Support for domestic election observers—Local elections	2000	110,000
2. Support for domestic election observers—General Election	2001	163,584
3. Support to Kosovo Criminal Defence and Resource Centre (promoting human rights)	2001–02	93,000
4. International Foundation for Election Systems—Civic and Voter Education Outreach Programme	2001–02	349,749
5. International Foundation for Election Systems—Electoral Assistance and Civic Participation Programme	2002–03	249,899

In addition, the FCO has provided the following assistance under the Western Balkans Global Conflict Prevention Pool, which is a joint strategy between DFID, the FCO, and MoD:

Project	Fund	Amount (£)	Description
2002–03			
1. KOCB (Kosovo Organised Crime Bureau, UNMIK)	GCPP (Organised Crime [OC])	215,000	Law and order
2. Plemetina Community Centre	GCPP (Democracy and Interethnic Relations [DIER])	51,561	Reduction of inter-ethnic tension, confidence building and greater co-operation between ethnic groups in Plemetina community.
2003–04			
3. KOCB	GCPP (OC)	532,000	Law and order
4. IFES-Local Participation and Governance Programme	GCPP (DIER)	133,190	Community development and bringing citizens closer to municipalities
5. Open Eyes-Documentary Training Through Production	GCPP (DIER)	100,961	Building bridges of divided communities, portraying diversity in this region.
6. Forum—Customs Monitoring Kosovo	GCPP	100,000	Creation of an anti-crime and anti-corruption coalition involving structures, Kosovo governing institutions, UNMIK Customs Service, civil society organisations, the main printed and electronic media in Kosovo, to fight trafficking.
2003–04–05			
7. KACI Civil Bridges	GCPP (DIER)	117,684	Monitoring of municipal assemblies, and promotion of active and well-informed citizenship.
8. Podgorce Returns	GCPP (DIER)	296,960	Stabilisation and Integration for Returnees to Podgorce
9. IFES-Human Rights and Good Governance	GCPP (DIER)	345,380	Building NGOs capacities, working with elected officials and civil servants, training on human rights, transparency, anti-corruption, and advocacy.
10. Resolution for Kosovo Politicians	GCPP (DIER)	81,700	Five day conflict resolution course for Kosovo politicians.
11. Stabilisation of minorities and returns through Micro-credit	GCPP (DIER) and GOFRE	360,000	Promotion of sustainable reintegration of minorities and returns to Kosovo by enhancing their participation in the mainstream economy, through skills development and the provision of business mentoring, training and micro-credit.

The bulk of the UK's assistance to the region is contributed through the European Union's Community Assistance for Reconstruction, Development and Stabilisation (CARDS) programme. The UK contributes approximately 19 per cent. of CARDS funding which provided €291.18 million to Kosovo in the years 2002–04. The European Commission has funded democracy related projects in Kosovo including:

Project	Year	Amount (€ million)
1. Support to the assembly of Kosovo	2003–05	2 million
2. Building institutional capacity of Civil Society organisations to include those representing different ethnic communities	2004–05	1 million

None of these projects had specific allocations for women, although women have benefited from many of the activities.

Malawi

Tom Brake: To ask the Secretary of State for International Development what proportion of the funds from the new six-year health programme for Malawi, announced in December 2004, is earmarked for salaries of health workers in Malawi. [217544]

Hilary Benn: The salary component of the new six-year health programme in Malawi will cost $100 million including a 50 per cent. increase in salary for existing health workers and the salaries of additional health workers. This salary component represents about half of the total cost of the Emergency Human Resources Programme, which also includes training of Malawian health workers and the provision of expatriate volunteer specialists. DFID is contributing £55 million towards that programme or about half the total cost. Other smaller contributions will come from the Global Fund, UN agencies and bilateral donors. In addition, DFID is contributing £45 million towards the separate Essential Health Package component, making a total contribution of £100 million to the Malawi's health programme over the next six years.

Swaziland

Mr. Simmonds: To ask the Secretary of State for International Development what development aid has been provided by the UK to Swaziland in each year since 1997; and what assessment his Department has made of its effectiveness. [218180]

Hilary Benn: Total UK assistance to Swaziland since 1997 is set out in the following table:

	£000
1997–98	3,448
1998–99	3,981
1999–2000	3,533
2000–01	2,646
2001–02	1,282
2002–03	1,343
2003–04	907

DFID projects are subject to annual reviews of effectiveness. The results of the reviews are recorded on a central project review data-base which provides for reporting of portfolio performance.

TREASURY

Catering Costs

Mr. George Osborne: To ask the Chancellor of the Exchequer how much has been spent on *(a)* tea and *(b)* biscuits in the Department in each year since 1997. [215007]

Mr. Timms: Since July 2002, meeting refreshments for the Treasury have been supplied by the PFI contractor, Exchequer Partnerships. Meeting refreshments include tea, coffee, mineral water and biscuits. The costs for 2002–03 (July to 31 March) were £121,000, and the costs for 2003–04 were £188,000. It is not possible to identify separate costs for tea or biscuits, and information in respect of the earlier years could be provided only at disproportionate cost.

Charities (Scotland)

Mr. Foulkes: To ask the Chancellor of the Exchequer if he will make it his policy to accept registration of charities in Scotland by the Office of the Scottish Charity Regulator as providing proof of eligibility for tax relief for the bodies concerned. [217498]

John Healey: Wherever possible the Inland Revenue will accept registration as a charity by the Office of the Scottish Charity Regulator as proof of eligibility for charitable tax reliefs. However, taxation is not a devolved matter. The Revenue is required to apply the Taxes Acts consistently across the UK. In doing so, case law has established that the Revenue should apply its understanding of English law in relation to the definition of a charity where Scottish law differs from English law.

Debt Cancellation (Africa)

Mr. Gill: To ask the Chancellor of the Exchequer which countries in Africa have had their debts cancelled in each year since 1997. [217490]

Mr. Timms: Since 1997, 15 countries have reached completion point in the HIPC initiative. All of these countries are now receiving irrevocable debt relief (October 2004—Madagascar; July 2004—Ghana; April 2004—Niger, Ethiopia, Senegal; January 2004—Nicaragua; December 2003—Guyana; March 2003—Benin, Mali; June 2002—Mauritania; April 2002—Burkina Faso; November 2001—Tanzania; September 2001—Mozambique; June 2001—Bolivia; May 2000—Uganda).

A further 12 countries are at decision point and are receiving interim debt relief (July 2003—Democratic Republic of Congo; March 2002—Sierra Leone; May 2001—Chad; December 2000—Gambia, Guinea, Guinea Bissau, Malawi, Rwanda, Sao Tome and Principe, Zambia; October 2000—Cameroon; June 2000—Honduras).

In addition to those countries currently benefiting from the HIPC Initiative, the following African countries received treatments from the Paris Club involving an element of debt cancellation: 2004—Republic of Congo, Burundi; 2002—Cote d'Ivoire; 1998—Central African Republic, Cote d'Ivoire.

However, many countries are still having to choose between servicing their debt and investing in health, education, infrastructure and other areas necessary to allow them to attain the Millennium Development Goals. That is why the UK is proposing that we match bilateral debt relief of up to 100 per cent. with multilateral debt relief of up to 100 per cent. The UK will provide its share, approximately 10 per cent., of multilateral debt owed by eligible countries to the International Development Association and African Development Bank, and will continue to call on others to join us in this initiative.

Drug-related Deaths

Sarah Teather: To ask the Chancellor of the Exchequer how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30 and *(c)* 40 years in (i) Greater London and (ii) each London borough in the last five years for which figures are available. [217548]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Sarah Teather, dated 24 February 2005:

As National Statistician I have been asked to reply to your question asking how many drug-related deaths there were in people aged under *(a)* 21, *(b)* 30, *(c)* 40 in (i) Greater London and (ii) each London Borough in the last five years for which figures are available. (217548)

Figures are readily available from death certification on deaths due to drug poisoning, not the total number that were drug-related. The most recent year for which figures are available is 2002. Numbers of deaths certified as due to drug poisoning for each London Borough and the London Government Office Region in the five years 1998 to 2002 are given in the attached table. There were too few deaths at ages under 21 in all London Boroughs to release figures without risk of disclosure.

Figures are not readily available where death was indirectly related to the use of drugs as the direct cause is generally selected as the underlying cause of death (e.g. HIV infection).

Deaths related to drug poisoning[1], at ages under 30 and 40[2] by London borough[3], 1998–2002[4]

	All aged under 30					All aged under 40

Earnings (London)

Sarah Teather: To ask the Chancellor of the Exchequer if he will list for *(a)* male, *(b)* female and *(c)* all workers in (i) Greater London and (ii) each London borough the (A) weekly median earnings and (B) distribution of earnings for those earning (1) under the point below which 10 per cent. of earners fall and (2) the point above which 10 per cent. of earners exceed. [217546]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Sarah Teather, dated 24 February 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question to list for *(a)* males, *(b)* females and *(c)* all workers in (i) Greater London and (ii) each London borough the (A) weekly median earnings and (B) distribution of earnings for those earning (1) under the point below which 10 per cent. of earners fall and (2) the point above which 10 per cent. of earners exceed. (217546).

Average earnings are estimated from the Annual Survey of Hours and Earnings and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

These data are available on the national statistics web site: http://www.statistics.gov.uk/downloads/theme_labour/ASHE2004_inc/tab?_la.xls

We recommend that you use data for full time employees.

The Annual Survey of Hours and Earnings, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent. sample of all employees.

The Annual Survey of Hours and Earnings publication criteria ensures that all estimates are undisclosive. A number of estimates have been removed from the published tables for these reasons.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Contact Committee on Certain Schemes for Collective Investment in Securities met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217891]

Mr. Timms: The Contact Committee on Certain Schemes for Collective Investment in Transferable Securities met in Brussels on 18 July 2003, 22 October

2003, 19 December 2003 and 14 April 2004. Officials from HM Treasury and the Financial Services Authority attended the meetings.

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the European Securities Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217892]

Mr. Timms: Information on the composition of this committee and a summary record of the meetings held is available from the European Union website at http://europa.eu.int/index_en.htm.

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Insurance Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217908]

Mr. Timms: Information on the composition of this Committee and a record of the meetings held is available from the European Union website at http://europa.eu.int/index_en.htm.

Publications

Mr. George Osborne: To ask the Chancellor of the Exchequer how much has been spent on the production of in-house magazines in the Department in each year since 1997. [213645]

Mr. Timms: The Treasury's estimated costs for the production of the in-house staff magazine, were as follows:

	£
1996–97	17,000
1997–98	20,000
1998–99	17,000
1999–2000	18,000
2000–01	16,000
2001–02	18,000
2002–03	21,000
2003–04	20,000

Departmental Policies

Mrs. Fitzsimons: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as closely as possible to Rochdale constituency, the effects of his actions and policies on the constituency since 1997. [217301]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented, the economic performance of the Rochdale constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen by 38 per cent., while long-term unemployment and long-term youth unemployment have both fallen by 76 and 74 per cent. respectively.

The Neighbourhood Statistics Service provides a wide range of statistical information at local area level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./.

SR2004

Mr. Keith Simpson: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Ministry of Defence's SR 2004 settlement letter.[217943]

Mr. Boateng: The Ministry of Defence's SR 2004 settlement is set out in Chapter 13 of the 2004 Spending Review document (Cm 6237).

Further detail on forward defence plans are set out in "Delivering Security in a Changing World—Future Capabilities" (Cm 6269).

Tax Credits

Mr. Webb: To ask the Chancellor of the Exchequer how many staff are employed by his Department to investigate tax credit fraud *(a)* in total and *(b)* per 100,000 recipients of tax credits; and what his latest estimate is of the total level of tax credit fraud. [218002]

John Healey: The total number of staff employed by Inland Revenue to look at claimant error in tax credits is around 1,350. The number of families in receipt of tax credits in December 2004 was 5.04 million, which equates to approximately 27 members of staff per 100,000 families in receipt of tax credits.

Inland Revenue are currently reviewing a random sample of finalised 2003–04 awards to monitor the level of claimant error. However the Department will only be in a position to give an indication of the level of error later in 2005–06 once awards are finalised for the whole tax credit population and the exercise is completed.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many reports of computer failure the Inland Revenue has received since the introduction of new tax credits in *(a)* 2003–04 and *(b)* 2004–05. [216657]

Dawn Primarolo: None.

There were some well-publicised problems in the early days when the system did not perform as expected. However, the system has worked throughout the entire period since tax credits were introduced and has been performing robustly for some considerable time now.

Windfall Receipts

Mr. Keith Simpson: To ask the Chancellor of the Exchequer what his definition of a windfall receipt is. [217942]

John Healey: A windfall receipt is not a term used either in Budget documents or the National Accounts.

TRANSPORT

Disabled Access (Chorley)

Mr. Hoyle: To ask the Secretary of State for Transport what funding has been made available to improve disabled access to transport services in the Chorley constituency. [217589]

Charlotte Atkins: Regulations introduced under part 5 of the Disability Discrimination Act (DDA) require that all new public service vehicles used on local and scheduled service with a carrying capacity of more than 22 passengers, and all new rail vehicles, have to be accessible to disabled people. In addition, duties under part 3 of the DDA require service providers to take reasonable steps to provide access to transport infrastructure such as bus station and railway stations.

On funding the Government provide funding to improve access to public transport through the local transport plan (LTP) process. Local transport authorities in England outside London produce five-year LTPs, and report on progress against these plans in annual progress reports (APRs). The first five-year plans were submitted in 2000. The following table details the relevant funding categories allocated to the Lancashire local transport plan area, which includes Chorley.

Decisions on how to target funding towards specific projects and initiatives such as those to improve public transport accessibility are made at local level.

On access to the rail network, the SRA intend to consult on their disability strategy at the end of March. This will include priorities for improving accessibility at stations.

Chorley (Lancashire) local authority

£ million *Nature of funding*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Capital maintenance	6.10	16.63	17.78	13.34	16.18
Integrated block (small schemes)	4.80	11.20	11.92	12.05	13.03
Targeted bus grants	1.41	2.21	1.57	3.78	1.24
Total	12.31	30.04	31.27	29.17	30.45

Blue Badge Scheme

Malcolm Bruce: To ask the Secretary of State for Transport how application forms for disabled badges are made available to the public; and what the cost to public funds is of each method. [217479]

Charlotte Atkins: Application forms are available, on request, from local authorities. which are responsible for the administration of the Blue Badge Scheme. There is no statutory procedure that they are required to follow for the production or distribution of the forms.

It is for individual local authorities to allocate appropriate resources to administer the Blue Badge Scheme. Under existing regulations they are able to charge up to £2 for each badge they issue, to contribute towards these costs.

Driver and Vehicle Licensing Agency

Harry Cohen: To ask the Secretary of State for Transport how many tins of beans have been distributed by the Driver and Vehicle Licensing Agency as part of its recent campaign; at what cost; and if he will make a statement. [217074]

Mr. Jamieson: DVLA distributed 36 tins of baked beans as part of an advertising campaign aimed at road tax evaders in the London area during January 2005. The cost of this was £305, which includes design and printing of labels and purchase of tins of beans.

These tins were distributed to a number of radio stations in London, in order to generate on-air discussion about road tax evasion, and the disposal by crushing of untaxed vehicles.

M5

Mr. Liddell-Grainger: To ask the Secretary of State for Transport what assessment he has made of the level of congestion on the M5 between junctions 23 and 25. [217408]

Mr. Jamieson: The level of congestion on the M5 between Junctions 23 and 25 was considered as part of the London to South West and Wales Multi Modal Study (SWARMMS) commissioned by the Government office for the south-west. The final report in May 2002 stated that the motorway's operation was generally satisfactory at this location.

The Highways Agency records traffic flows and continually monitors the operation of the motorway. Although there has been an increase in traffic flows since the SWARMMS report this has not had a significant impact on the operation of the motorway.

Northern Trains

Mr. Truswell: To ask the Secretary of State for Transport what the remit is of the study commissioned by the Strategic Rail Authority into the respecification of the Northern Trains franchise; and if he will place in the Library a copy of the *(a)* full remit and *(b)* final report when completed. [214469]

Mr. McNulty: The contractors are being commissioned to provide advice to the Strategic Rail Authority for the review of the services in the Northern franchise. The review, which has always been part of the franchise specification, is required as the franchise has been derived from a complex merger of others and has a service pattern which has not been substantially reviewed for at least 10 years.

I will place a copy of the specification to contractors for the review of the Northern franchise in the Library of the House once the contracts have been finalised. I will also publish a summary of the findings of the contractor when available.

Railway Stations

Norman Baker: To ask the Secretary of State for Transport how many railway stations have *(a)* opened and *(b)* been re-opened since 1 May 1997. [211851]

Charlotte Atkins *[pursuant to the reply, 1 February 2005, c. 763W]:* The information provided should have been that since 1 May 1997 13 new stations have opened and 18 stations have re-opened.

Travel Costs

Norman Baker: To ask the Secretary of State for Transport what the change in the relative costs of travelling by *(a)* car, *(b)* train and *(c)* bus has been in each year since 1975, taking 1975 as a base figure of 100, and discounting inflation. [216421]

Charlotte Atkins *[holding answer 21 February 2005]:* The following table shows the information requested on real changes in the cost of transport as indices based on 1975 = 100.

	All motoring[1]	*Rail fares*	*Bus fares*
1975	100.0	100.0	100.0
1976	97.0	113.8	109.6
1977	95.7	114.5	108.9
1978	95.5	120.8	113.9
1979	99.6	117.9	112.9
1980	99.5	124.2	121.1
1981	99.5	126.9	119.8
1982	96.8	134.1	127.1
1983	98.9	135.1	128.5
1984	96.5	130.0	125.2
1985	95.3	130.4	122.9
1986	90.8	134.6	128.9
1987	92.2	135.9	131.0
1988	91.9	138.5	133.6
1989	89.9	140.2	133.6
1990	87.1	139.3	128.8
1991	88.5	145.4	138.8
1992	91.1	150.4	143.2
1993	93.5	158.4	147.2
1994	94.4	161.5	147.4
1995	93.0	163.1	147.8
1996	93.5	165.1	149.6
1997	95.4	163.8	150.3
1998	95.2	164.9	150.0
1999	96.0	168.3	153.1
2000	96.8	166.3	154.8
2001	94.6	169.7	158.4
2002	92.3	170.7	160.7
2003	90.9	168.8	162.6
2004	89.1	170.2	166.0

[1] "All motoring" includes the cost of purchase, maintenance, fuel tax and insurance.

Note:

The overall cost of motoring has fallen in real terms by 11 per cent. between 1975 and 2004. Over the same period, rail fares and bus fares have risen by 70 per cent. and 66 per cent. respectively.

Source:

Retail Prices Index, Office for National Statistics

Roads (Newcastle)

Mr. Cousins: To ask the Secretary of State for Transport whether the Highways Agency has been approached by Newcastle city council for *(a)* a 50 mph speed limit and *(b)* additional (i) accesses and (ii) slip roads on the A1 Newcastle Western By Pass between the Ponteland Road and Kingston Park Road interchanges. [216493]

Mr. Jamieson: Newcastle city council has not approached the Highways Agency for a 50 mph speed limit or additional accesses and slip roads on the A1 Newcastle Western Bypass between Ponteland Road and Kingston Park Road interchanges.

Train Operating Companies (Car Parking Charges)

Mr. Webb: To ask the Secretary of State for Transport if he will make it his policy to discourage train operating companies from introducing car parking charges where none currently exist. [217998]

Mr. McNulty: The charging for car parking facilities, is a matter for individual train operating companies.

WALES

Regional Assistance

Mr. Hancock: To ask the Secretary of State for Wales what recent representations he has received about mismanagement of EU regional development grants; and if he will make a statement. [217278]

Mr. Touhig: None.

Mr. Hancock: To ask the Secretary of State for Wales what procedures are in place in his Department to ensure that EU regional development grants are used in accordance with European Commission rules. [217280]

Mr. Touhig: The Wales Office does not administer the European Structural Funds in Wales. The Managing Authority for European Structural Funds in Wales is the Welsh Assembly. It operates a management and control system that the Commission has agreed fully meets its regulatory requirements. This is underlined by the performance award worth £65.4 million given to the Assembly by the European Commission last year for their management of the programmes.

Welsh Language Board

Adam Price: To ask the Secretary of State for Wales if he will make a statement on the outcome of his latest meeting with the Chair and Chief Executive of the Welsh Language Board. [217516]

Mr. Hain: I last met the Chair, Meri Huws, and the Chief Executive, Meirion Prys Jones, on 24 January.

We discussed a number of matters concerning the promotion of the Welsh language. The Government remain committed to the principle of treating Welsh and English on a basis of equality in the conduct of public business in Wales.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the United Kingdom will seek to ensure that it remains mandatory for member states to support measures to improve animal welfare standards in negotiations in Council on the European Commission proposal for a Council Regulation on support for rural development by the European Agricultural Fund for Rural Development (COM(2004) 490); and if she will make a statement; [217181]

(2) whether her Department is representing the *(a)* Scottish Executive and *(b)* Welsh Assembly in negotiations in Council on the European Commission proposal for a Council Regulation on support for rural development by the European Agricultural Fund for Rural Development (COM(2004) 490); [217182]

(3) how many officials from the Animal Welfare Division of her Department have been involved in the discussions with representatives of the European Commission and other member states about the European Commission proposal for a Council Regulation on support for rural development by the European Agricultural Fund for Rural Development (COM(2004) 490). [217183]

Alun Michael: The negotiations on the rural development regulation are continuing and throughout discussions the UK has been pushing for the necessary flexibility for member states to implement rural development programmes which reflect each countries priorities and circumstances and deliver the maximum public benefits. In accordance with this the UK has supported the inclusion of a measure to allow support for farmers who voluntarily meet higher animal welfare standards but have asked the Commission for clarification on their reasons for it being compulsory.

Defra officials represent the UK position in EU negotiations on the European Agricultural Fund for Rural Development and argue in accordance with a negotiating line agreed by Ministers. The Ministers of the devolved Administrations are fully involved in discussions regarding the formulation of the UK policy position and we benefit from the support of their officials. Devolved officials generally deal direct with the Commission on issues relating to devolved rural development programmes. Within Defra officials from across the Department, including animal welfare division, and Ministers have been fully involved in agreeing the UK negotiating line.

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213818]

Alun Michael: The information requested is as follows:

(a) Since the commencement of the congestion charging scheme a total of £3,620 has been paid as at January 2005.

(b) During the same period the total paid in penalty charges is £240.

Dairy Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the future of dairy farming in Lancashire. [216196]

Alun Michael: The UK dairy sector has a sustainable future and, in line with its "Strategy for Sustainable Farming and Food", the Government will work with the industry to facilitate and support its development. The UK has a comparative advantage in terms of climate, farm efficiency and size over many of its competitors. If those involved in the dairy supply chain can work together to maximise this potential and address some of the difficulties it faces, then there is no reason why it should not succeed.

Departmental Catering

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213619]

Alun Michael: The Department was created in June 2001. There are 12 sites which have a catering facility to which Defra makes a contribution towards running costs. The total costs are:

	£
2001–02	398,058
2002–03	432,328
2003–04	453,490

Note:
£15,600 additional contribution towards staffing costs in London restaurants

The Department regrets it is unable to split the costs as required. There is a bar and social club at one of the sites, all running costs are met by the Sports and Social Club.

Departmental Policies (Chorley)

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what grants her Department makes available to farmers in Chorley. [216199]

Alun Michael: The England Rural Delivery Programme (ERDP) contributes to the delivery of the Government's Strategy for Sustainable Farming and Food by helping farmers and foresters to respond better to consumer requirements and become more competitive, diverse, flexible and environmentally responsible. It also provides help to rural businesses and communities which need to adapt and develop.

The ERDP provides a framework for the operation of 10 separate but integrated schemes which provide new opportunities to protect and improve the countryside, to develop sustainable enterprises and to help rural communities to thrive. A total of £1.6 billion of EU and Government money is being made available under these schemes in England during the seven years (2000–06) of the Programme. Within Lancashire there a re nine ERPD funded schemes available of which the Rural Development Service administers seven. These are, Countryside Stewardship Scheme, Rural Enterprise Scheme, Process and Marketing Scheme, Vocational Training Scheme, Energy Crop Scheme, Organic Farm Scheme and Farm Woodland Premium Scheme.

The Rural Payments Agency and Forestry Commission administer the Hill Farm Allowance and Woodland Grant Scheme respectively.

To date, within Lancashire, the ERDP has funded (through RDS administered schemes) £3 million of projects and training as well as annual payments of £2.5 million to CSS agreement holders.

The Forestry Commission as yet does not currently make specific allocations to counties, but it is moving towards regional allocations through the Regional Forestry Framework and it is envisaged that this will in turn lead to county allocations. During 2004 the Woodland Grant Scheme paid out £300,000 towards new planting and woodland management plans. Within the constituency of Chorley, the total ERDP payments for 2004 were £152,000.

Defra will shortly launch a new scheme called Environmental Stewardship (ES). ES will be launched in England early 2005 to replace the existing agri-environment schemes (Environmentally Sensitive Areas, Countryside Stewardship and Organic Farming Schemes). ES has been developed with a high level of public consultation and a significant and much appreciated contribution from stakeholder organisations.

Footpaths

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many footpaths have been temporarily closed for over five years; for what reasons in each case; and when she expects each to be re-opened. [217441]

Alun Michael: Local highway authorities are responsible for the management of footpaths and therefore all information relating to temporary closures is held by them and not central Government. The information could be gathered only at a disproportionate cost.

Free Trade

Mr. Curry: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Solihull (Mr. Taylor) of 8 February 2005, *Official Report*, columns 1363–364W, on free trade, which items are included in the basket of food on which the Government bases the estimate that the cost of the Common Agricultural Policy to a family of four in the UK is in the range of £4.50 to £5.00. [216878]

Alun Michael: We estimate the consumer cost of the Common Agricultural Policy by assessing the difference between the domestic price of agricultural products and the world price of agricultural products, generally measured at the farm-gate level. This price difference is multiplied by the volume of consumption in the UK. The calculation is made for the following commodities: cereals, oilseeds, rice, sugar, milk, beef, sheep meat, pigment, poultry meat, eggs, fruit and vegetables, wine, olive oil, and tobacco.

The cost for a notional family of four is derived from the total cost for the UK using population data.

Green Box Review

Mr. Alan Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is the Government's policy to support proposals at the World Trade Organisation for a review of the Green Box. [217419]

Alun Michael: As part of the World Trade Organisation negotiations for the current Doha Development Round, a Framework Agreement was reached in August of last year. Under this Framework agreement, all WTO members agreed that Green Box criteria should be

> "reviewed and clarified with a view to ensuring that Green Box measures have no, or at most minimal, trade-distorting effects or effects on production. Such a review and clarification will need to ensure that the basic concepts, principles and effectiveness of the Green Box remain and take due account of non-trade concerns."

The UK Government fully supports a review on this basis.

Horse Passports

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs how many horse passports have been issued in London. [217528]

Alun Michael: There are no Passport Issuing Organisations based in London. Horse owners residing in London can apply to any Passport Issuing Organisation in the United Kingdom for their passports.

Parking

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on *(a)* provision of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department and its predecessors in each year since 1997. [213835]

Alun Michael: The Department was created in June 2001.

(a) A number of buildings across the Departments estate do offer on-site car parking for civil servants and visitors as per the tenancy and rental agreement for each site. No specific records are kept that identify the cost of providing car parking.

(b) The Department does not meet the cost of parking tickets and penalties incurred by civil servants. Civil servants are personally responsible for meeting the costs of any such fines.

Pay Television

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how many pay television subscriptions the Department had in each year since 1997; and what the cost was in each year. [207654]

Alun Michael: Since Defra came into existence in May 2001, the pay television subscription costs for each financial year are as follows:

Financial year	£
2001–02	42,522
2002–03	26,150
2003–04	9,415
2004–05	[1]—

[1] Figures not available. Most installations are now free view.

Rural Policy

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress towards modernising rural delivery within the Department's strategy. [214713]

Alun Michael: Since announcing the Rural Strategy in July 2004 we have made excellent progress. Our reforms are aimed at delivering services more efficiently, through a smaller number of organisations with clearer and more accountable roles. We are devolving delivery to give a better deal for the environment and the taxpayer and the overarching principle is sustainable development.

Work is now under way to identify clear priorities and simple processes in each region of England. In order to explore better ways of supporting rural communities we have identified a local "rural pathfinder" for each region. We are working with these rural pathfinders to test innovative ways of improving local delivery and they are currently developing their plans. From this April, rural socio-economic funding will be mainstreamed through Rural Development Agencies with an increase of £27 million in their single pot allocation to £72 million from Defra. Rural community councils will be funded directly by Defra and some further social and community funds will be channelled through Government Offices.

Everyone will benefit from our radical simplification of funding streams. Rural businesses are being helped by an additional £2 million that Defra has provided to Business Links this financial year.

We are establishing a smaller, more focused body to act as a strong voice for rural people and communities, especially those facing disadvantage.

Dr. Stuart Burgess has been appointed as the Chair of the Countryside Agency and Rural Advocate. By April 2005 the new organisation—the Commission for Rural Communities—will have been established as a distinct body, initially within the existing legal framework. It will use its statutory independent voice to hold to account those who deliver to the countryside and rural communities.

In order to conserve and enhance the resource of nature and realise the economic benefits of so doing, we are establishing an Integrated Agency consisting of English Nature, most of the Rural Development Service and parts of the Countryside Agency. We have already initiated closer working at the regional level between these three organisations, as part of preparing for the establishment of the new Agency. We are moving the Rural Development Service out of the policy core of Defra and providing it with greater autonomy and devolved authority for decision-making and delivery, and, in order to pave the way for the Service to move into being part of the new Integrated Agency, we have appointed Poul Christensen to chair a small non executive board. From April 2005 the bodies that will make up the Integrated Agency will have begun working as a confederation of partners as a precursor to the full establishment of the Integrated Agency by legislation.

On Thursday 10 February, we published (in draft) a Bill to implement those elements of the Rural Strategy that require primary legislation—including full establishment of the Integrated Agency and the Commission for Rural Communities.

By April we will also have begun delivering benefits to taxpayers through beginning the process of delivering around £21 million of efficiency gains per year by 2009–10.

Targets

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215798]

Alun Michael: I refer the hon. Member to the answer given on 21 February 2005, *Official Report*, column 75W by the Financial Secretary to the Treasury.

HOME DEPARTMENT

Asylum Seekers

Mr. Oaten: To ask the Secretary of State for the Home Department to which *(a)* countries and *(b)* regions affected by the tsunami removal of failed asylum seekers has been suspended; for how long suspensions will last in each case; and if he will make a statement. [214987]

Mr. Browne: The UK is currently not enforcing the removal of failed asylum applicants to the following countries, or parts of countries:

Sri Lanka—coastal areas of the north, east, south and south west;

Indonesia—the province of Aceh on the island of Sumatra;

The Maldives—affected islands;

India—coastal areas of Tamil Nadu, Kerala, Pondicherry, Andhra Pradesh and the

Andaman and Nicobar Islands.

This approach is in line with the UNHCR's recommendations for south-east Asia of 12 January 2005. Proposals to conduct removals to non-affected areas immediately outside of those identified above, are being reviewed sensitively and on a case by case basis. The Government do not attach a time scale to their policy to temporarily suspend enforced returns on the

basis that this is being monitored and kept under active review in light of the ongoing assessment and development of the country conditions.

Commonwealth Working Holiday Scheme

Mr. Burstow: To ask the Secretary of State for the Home Department how many *(a)* doctors, *(b)* nurses and *(c)* professions allied to medicine from Commonwealth countries are working in the UK on two-year visas under the Commonwealth Working Holiday Scheme; and what assessment he has made of the effects of changing the scheme to one-year visas on recruitment in the national health service. [217500]

Mr. Browne: Working Holidaymakers are required to obtain entry clearance prior to coming to the United Kingdom. This allows them to take relevant employment, including as doctors, nurses and in other healthcare professions. No central record is kept by the Home Office of the numbers of working holidaymakers in each part of the workforce, including medicine and healthcare, because they do not need separate permission to work after arrival.

After 12 months in the United Kingdom working holidaymakers are eligible for work permit employment in any of the occupations on the list of designated shortage occupations maintained by Work Permits (UK). These include doctors, nurses and other healthcare professions. Working holidaymakers were eligible to switch into these occupations after 12 months in the United Kingdom before the changes announced on 7 February. The effect of these changes on recruitment in the national health service is therefore neutral.

Crime Line

Mr. Hancock: To ask the Secretary of State for the Home Department what the average time taken to answer the Crime Line in London was in the last period for which figures are available. [216468]

Ms Blears: The information requested is not collected centrally.

Police

Mr. Brady: To ask the Secretary of State for the Home Department pursuant to his Department's answer of 15 December 2004, *Official Report*, column 1182W, on police divisions, what progress he has made in ensuring that *(a)* Trafford police division and *(b)* other police divisions have a suitable place of safety as defined by the Mental Health Act 1983. [213537]

Ms Blears: Further to my reply to the hon. Member's question of 15 December 2004, Trafford police division advises that they are meeting with representatives of the local primary health care trust on 22 February to discuss the provision of a designated place of safety in the division. The appropriate provision and location of a place of safety is a matter for local agreement between the police and the local trust.

Home Office are continuing discussions with colleagues in the Department of Health on the potential content of codes of practice proposed under the draft Mental Health Bill. The Bill was published on 8 September 2004 by the Department of Health and is currently under scrutiny by the Joint Committee on the draft Mental Health Bill. As indicated in my previous answer, we are looking to establish the statutory position whereby police stations can be used as places of safety only as a last resort and, if used for that purpose, for a limited time period only before transfer to a more appropriate environment.

Mr. Amess: To ask the Secretary of State for the Home Department what family details are recorded on police charge sheets; and what guidance is issued to police officers on how charge sheets should be completed. [215545]

Ms Blears: Only the detainee's name and address, and the address to which he or she will be bailed (if granted) are recorded on the charge sheet.

The charge sheet (form MG 4) is part of the process used by members of the prosecution team, police officers and Crown Prosecutors concerned with the preparation, processing and submission of prosecution files. A copy of the form and guidance on its completion is contained in the Prosecution Team Manual of Guidance. The Manual of Guidance Editorial Board, which consists of representatives from the Home Office, ACPO, the CPS and the office of the Director of Public Prosecutions, is responsible for the contents of the contents of the manual. The 2004–05 edition can be found at: http://www.homeoffice.gov.uk/justice/legalprocess/courts/manualofguidance.html.

Mr. Francois: To ask the Secretary of State for the Home Department what discussions he has had with the Chief Constable of the Essex Constabulary about plans to review police divisional boundaries in Essex; and if he will make a statement. [217154]

Ms Blears *[holding answer 21 February 2005]:* Deployment of police resources and the structural configuration to support policing issues is an operational matter and therefore falls firmly within the remit of the Chief Constable. This is not therefore an issue which the Secretary of State would normally involve himself.

Jim Dowd: To ask the Secretary of State for the Home Department how many police driving schools there were in England and Wales in each of the past 10 years; and how many police officers took *(a)* a standard driving course and *(b)* an advanced driving course in each year. [213250]

Ms Blears: Each of the 43 police forces in England and Wales has a police driving school. It is for individual chief constables to determine which officers should undertake driving courses according to the nature of their role. Under internal police procedures and policies, officers may not operate warning equipment (e.g. blue lights) or exceed the speed limit in responding to 999 calls unless they have achieved the requisite driving standards. Police drivers may not undertake pursuits unless they have successfully completed the advanced driving course.

Association of Chief Police Officers policy is that driving skills should be re-assessed every three to five years. In addition, line managers should review driving standards as part of the annual appraisal process.

The available information on numbers of police officers who took a standard driving course and an advanced driving course is shown in the following table.

Police forces/date	*Standard 1994–2004*	*Advanced 1994–2004*
Avon and Somerset		
2004	116	33
2003	230	59
2002	102	15

[1] Total amount for standard and advanced.
[2] Only 2004 figures available.

Mr. Stinchcombe: To ask the Secretary of State for the Home Department which department of the Prison Service advises prisons on producing information booklets for prisoners; whether the distribution of information booklets in prisons is monitored; and what guidelines have been issued concerning what information should be provided for prisoners *(a)* on reception and induction into prison and *(b)* prior to release. [215295]

Paul Goggins: The What Works in Prison Unit at Prison Service headquarters is responsible for the four centrally produced prisoners' information books, published in collaboration with the Prison Reform Trust. Their distribution is not monitored centrally; prisons order the books direct from Prison Service Enterprise and Supply Services, who also arrange printing. The production of local information books is left to the discretion of individual prisons and is not centrally monitored. Establishments can call upon policy leads at Prison Service headquarters for advice on specific topics. The guidance provided in Prison Service Order (PSO) 0550 on reception, PSO 0550 on prisoner induction and PSO 2300 on resettlement, which are published on the Prison Service website. Audit arrangements apply through standards based on the PSOs.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures his Department is taking to increase the amount of purposeful activity available for prisoners. [216802]

Paul Goggins: The Prison Service is committed to increasing the provision of quality purposeful activity for prisoners. Through the Custody to Work initiative, an investment of over £14 million per annum is being provided to expand the initiatives that have a positive impact on reducing re-offending and contribute to purposeful activity.

This money is being used to develop the following purposeful activities across the prison estate: more accredited skills training in sectors with realistic job opportunities for released prisoners (such as construction, utilities, catering, industrial cleaning, warehousing and transport); job-search training and support; through-the-gate job placement; education and housing advice and support services.

Prison Industries occupy prisoners in out-of-cell activity and wherever possible help them gain skills, qualifications and work experience to improve their employment prospects on release. Over £4 million has been invested in industrial workshops over the past two years to help develop quality purposeful activities.

Race Relations (Amendment) Act

Mr. Dhanda: To ask the Secretary of State for the Home Department how many NHS trusts have *(a)* complied with their statutory duties under the Race Relations (Amendment) Act 2000, *(b)* published a race equality scheme and action plan and *(c)* carried out race impact assessments. [216546]

Mr. Hutton: I have been asked to reply.

Strategic Health Authorities (SHAs) have performance management responsibility for NHS Trusts. Information on local race equality schemes and action plans, as well as race impact assessments can be obtained from SHAs.

To make sure that race equality is integral to delivering health services, four SHA chief executives in partnership with the Department and the Commission for Racial Equality developed a framework to assist national health service organisations measure for themselves their progress in promoting race equality within the health service. This guide can be accessed at (http://www.cre.gov.uk/pdfs.sha_race__equality_guide.pdf).

To ensure compliance with the legislation, the Department will be offering advice and support to NHS organisations in developing their new schemes. The Chief Executive Bulletin Issue 249, December 2004, included a reminder to all NHS organisations of the requirement to produce race equality schemes by 31 May 2005.

Royal Parks Constabulary

John McDonnell: To ask the Secretary of State for the Home Department by what mechanisms the Royal Parks Constabulary staff pay and conditions will be protected if they transfer to the Metropolitan Police Service as proposed in the Serious Organised Crime and Police Bill. [215292]

Mr. Caborn: I have been asked to reply.

The key elements of the proposed transfer arrangements, which have been the subject of consultation with members of the Royal Parks Constabulary (RPC) and their union representatives, are as follows.

RPC pay rates are pegged at 85.5 per cent. of MPS rates; officers transferring to the MPS as constables will therefore immediately benefit from a higher rate of pay, as well as the much improved career prospects which the

MPS is able to offer. Their length of service and rank will be recognised, and they will have the opportunity to remain in the Royal Parks Operational Command Unit for a maximum of 10 years. If an officer is ineligible, or chooses not to transfer as a constable but wishes to transfer as a Community Support Officer or member of police staff, then the MPS have agreed to maintain their rate of pay on a mark time basis for three years. If officers are ineligible to become MPS officers they will also have the option of redundancy, though we hope that few will be in this position.

As civil servants, RPC officers are currently in the Principal Civil Service Pension Scheme (PCSPS), whereas MPS officers are in the Police Pension Scheme (PPS). Officers transferring have the option of freezing their benefits in the PCSPS or transferring them to the PPS. We have worked very closely with the Government Actuary's Department on the arrangements for pensions transfers from the one to the other which are designed with the aim of providing at the time of retirement from the MPS a retirement package which will be at least as good as if they had remained in the PCSPS and retired at the same age.

The current retirement age for RPC officers is 60, subject to continuing satisfactory health, conduct and performance. For MPS officers the retirement age is 55, but the maximum retirement age is also 60, subject to application for, and annual approval of, extension of service. Annual extensions take into account health, conduct and efficiency, and the continuing requirement for the role. So RPC officers transferring will, subject to these requirements, have the opportunity to continue until 60.

The Police Act 1996 allows any person who was a member of a trade union immediately before joining a force to retain membership of that union with the consent of the Chief Officer. I understand that all requests from officers to retain union membership after their transfer to the MPS have been approved, and I see no reason why future requests should not also be approved.

CULTURE, MEDIA AND SPORT

Football

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what discussions Ministers have had with the Football Association on the scheduling of local derby football matches. [218003]

Mr. Caborn: None.

The scheduling of football matches is a matter for the Football Association to decide in consultation with local police.

In the light of the events that took place during the matches at Everton and Burnley last weekend, I understand that the Football Association plans to review the scheduling of matches with the police and broadcasters in advance of the next round of the FA Cup.

Ministerial Engagements

Mr. Gummer: To ask the Secretary of State for Culture, Media and Sport if she will list the ministerial engagements *(a)* out of London and *(b)* in London that she has cancelled since 1 January 2004. [209264]

Tessa Jowell: The information requested is listed as follows.

Secretary of State's ministerial engagements out of London that were cancelled and not rearranged 1 January 2004–17 January 2005

Date	*Engagement*
2 July 2004	Visit—Bath University
13 October 2004	Visit—Wilmslow High School
25 October 2004	Dinner—Warwick Business School
10 November 2004	NW Regional Public Health Culture and Health Think Tank, Liverpool

Secretary of State's ministerial engagements in London that were cancelled and not rearranged 1 January 2004–17 January 2005

Date	*Engagement*
9 January 2004	ExCel Exhibition Centre
28 January 2004	Delegation of theatre practitioners, House of Commons
28 January 2004	NOF Veterans Launch, Cabinet War Rooms
15 February 2004	BAFTA Film Awards, Odeon, Leicester Square
27 February 2004	FIFA Dinner, Wallace Collection
5 March 2004	Irish Rugby Reception, Irish Embassy, Grosvenor Place
31 March 2004	Parent Friendly Awards, Central London
7 April 2004	IPPR Dinner Public Interest Companies and Arts Regeneration, London
26 May 2004	"Reaching Out" Reception, Science Museum
8 June 2004	Visit—National Opera Studio, Wandsworth
1 October 2004	The Arts in America, Europe and Russia Conference, Spencer House
11 October 2004	Women of the Year Lunch and Assembly, The Savoy
20 October 2004	Visit—National Opera Studio, Wandsworth
9 November 2004	Dinner hosted by Adrian Friend—TAS scholarships, London
30 November 2004	Marketing Power 100—Women's Dinner, Wiltons, Jermyn Street

Staff Surveys

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Tatton (Mr. Osborne), 4 February 2005, *Official Report*, columns 1162–63W, on staff surveys, if she will place in the Library copies of the staff surveys conducted by her Department since 1997. [217471]

Mr. Caborn: The Department for Culture, Media and Sport has conducted three staff surveys since 1997—in 2000, 2001 and 2003—and I am arranging for copies of each of the survey reports to be been placed in the Libraries of both Houses.

Targets

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport how many targets have been

set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215793]

Mr. Caborn: I refer the hon. Member to the answer given to him by my hon. Friend the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

DEPUTY PRIME MINISTER

Building Regulations

David Taylor: To ask the Deputy Prime Minister if he will list organisations registered to provide competent person self-certification schemes for the purposes of compliance with Part P of the Building Regulations. [217542]

Phil Hope: The following organisations are authorised to operate competent person self-certification schemes for the purposes of compliance with Part P of the Building Regulations regarding the installation of fixed low or extra-low voltage electrical installations

BRE Certification Ltd.

British Standards Institution

ELECSA Ltd.

NAPIT Certification Ltd.

NICEIC Certification Services Ltd.

The following organisations are registered to provide competent person self-certification schemes for the installation of fixed low or extra-low voltage electrical installations as a necessary adjunct to or arising out of other work being carried out:

CORGI Services Ltd.

ELECSA Ltd.

NAPIT Certification Ltd.

NICEIC Certification Services Ltd.

Oil Firing Technical Association for the Petroleum Industry Ltd.

Correspondence

Sir Michael Spicer: To ask the Deputy Prime Minister when the Minister of State for Housing and Planning expects to respond to the letter from the hon. Member for West Worcestershire of 11 January. [217684]

Keith Hill: I replied to the hon. Member on 23 February.

Empty Dwellings

Mr. Hoyle: To ask the Deputy Prime Minister how many empty dwellings there have been in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [217588]

Keith Hill: The requested information is tabled as follows:

Total number of vacant dwellings at 1 April, 2002–04

	2002	*2003*	*2004*
Lancashire	23,022	22,128	19,691
Chorley	1,067	1,280	1,301

Source:
ODPM Housing Strategy Statistical Appendices return and Housing Corporation Regulatory and Statistical Return.

Mr. Hoyle: To ask the Deputy Prime Minister for what average length of time *(a)* council and *(b)* housing association properties were empty in the last period for which figures are available. [217595]

Keith Hill: No data are available to calculate the exact average length of time a council or a housing association property is vacant. However, figures for various vacant periods are available and are tabled as follows:

Length of vacant at 1 April 2004	*Local authorities Number of dwellings*	*Registered social landlords Number of dwellings/bedspaces*
Three weeks or less	12,200	9,100
Between three weeks and six weeks	8,900	6,000
Between six weeks and six months	15,700	11,200
Between six months and one year	6,500	5,800
Over one year	14,200	12,600
Total	57,500	44,700

Source:
ODPM Business Plan Statistical Appendices Annual Monitoring return and Housing Corporation Regulatory and Statistical Return

Sarah Teather: To ask the Deputy Prime Minister how many *(a)* interim and *(b)* final empty property management orders have been issued in London since the Housing Act 2004 entered into force, broken down by local authority. [217615]

Keith Hill: No interim or final empty dwelling management orders have been made since the Housing Act 2004 received Royal Assent as the provisions have not yet been commenced.

It is currently the intention of the Office of the Deputy Prime Minister to commence the provisions on empty dwelling management orders in October 2005 following public consultation and the making of secondary legislation.

Green Flag Award

Mr. Don Foster: To ask the Deputy Prime Minister in respect of how many parks and green spaces *(a)* successful and *(b)* unsuccessful applications were made for the Green Flag Award scheme in each year since 1997; and how many parks and green spaces there are in England. [217796]

Phil Hope: The number of Green Flag Award successful and unsuccessful applicants since the Scheme's inception in 1997 are:

	Number of successful applicants	*Number of unsuccessful applicants*
1997–98	7	9
1998–99	16	7

	Number of: successful applicants	unsuccessful applicants
1999–2000	35	11
2000–01	55	24
2001–02	81	21
2002–03	122	49
2003–04	177	57
2004–05	245	63

An estimate of the total number of parks and green spaces in England was made in the "Public Parks Assessment" (May 2001), which suggested there were 27,000 parks covering 143,000 hectares.

Mobile Phone Base Stations

Dr. Stoate: To ask the Deputy Prime Minister if he will make low-height base stations with wall-mounted antennae subject to normal planning and public consultation requirements; and if he will make a statement. [217701]

Yvette Cooper: The permitted development rights for electronic communications code system operators are set out in the Town and Country Planning (General Permitted Development) (Amendment) (England) Order 2001 (SI 2001 No. 2718). These permit some wall mounted antenna and exclude others. Those excluded will require planning permission.

Dr. Stoate: To ask the Deputy Prime Minister if he will subject the planning process associated with the erection of mobile phone base stations to independent review as recommended by the National Radiological Protection Board Report, "Mobile Phones and Health 2004". [217703]

Yvette Cooper: I refer my hon. Friend to the answer given to my hon. Friend the Member for Hampstead and Highgate (Glenda Jackson) on 18 January 2005, *Official Report*, column 869W.

Sickness Absence

Mr. Hammond: To ask the Deputy Prime Minister what initiatives his Department is taking to reduce the numbers of sick days taken by staff in the Department. [216621]

Yvette Cooper: Sickness absence is managed as part of the Office of the Deputy Prime Minister's objective of continually seeking ways to improve the health and welfare of its staff in a sensitive and supportive way. While recognising that staff should return to work only when they are fit and ready to do so, we are committed to managing sickness absence effectively.

To improve the effective management of sickness absence in the Office of the Deputy Prime Minister, we are improving the mechanism used for collecting, analysing and monitoring sickness absences. Workshops for staff have commenced so that they can better understand the sickness absence procedures. In addition, we will promulgate the recommendations identified by the Ministerial Taskforce in their "Managing Attendance in the Public Sector Delivery Plan". A copy of the report can be found at www.hse-databases.co.uk/gse/sickness.pdf

HEALTH

Bedside Telephones (Charges)

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the rates of telephone charges for patients using bedside telephones in NHS hospitals; and if he will make a statement. [216152]

Mr. Hutton: Bedside television and telephone services are now provided at around 75,000 beds in 155 national health service hospitals. Typically, the cost for an outgoing call made by the patient from the bedside is around 10 pence per minute (minimum 20 pence).

Crohn's Disease (Children)

Mr. Beggs: To ask the Secretary of State for Health how many children in England are diagnosed as suffering from Crohn's disease; what treatment provision is available to them; and what the average cost of treatment is per child. [216926]

Dr. Ladyman: Information on the numbers of children diagnosed with Crohn's disease and the average cost of treatment is not available. There were 2,491 admissions involving children and young people up to the age of 18 with a primary diagnosis of Crohn's disease to hospitals in England in 2003–04. Most patients will be treated with drugs, including steroids, to reduce inflammation or by means of special liquid feeds to rest the bowel. Surgery may be required to remove narrowed or damaged parts of the intestine. The cost of treatment will vary according to the severity of the condition and any complications. Examples of costs of selected hospital inpatient elective treatments for people with Crohn's disease are shown in the table.

Primary diagnosis of Crohn's disease: examples of costs and numbers

Healthcare resource group	National average cost per elective (£)	Number of in-patient finished admission episodes (all ages)	Number of in-patient finished admission episodes (0–18 years)
P12—Major gastrointestinal or metabolic disorders	1,815	1,540	1,540
F54—Inflammatory bowel disease—endoscopic or intermediate procedures in people under age 70 without complications	1,068	4,888	392
F06—Diagnostic procedures; oesophagus and stomach	605	362	151
F56—Inflammatory bowel disease in people under age 70 without complications	1,079	7,126	99
F32—Large intestine—very major procedures	4,587	789	74

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.

3. The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g., time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.
4. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
5. Healthcare resource groups (HRGs)—it should be noted that there may be many OPCS/ICD codes that map to a single HRG (a category into which similar treatments are grouped) and these are the national average costs at HRG level—they are not the costs of the individual codes within the HRG, so the actual costs of such OPCS codes, etc. may differ from those detailed.

Sources:

Finished admission episodes: HES, Department of Health.

National average costs: Reference Costs 2003 [relating to the financial year 2002–03] for activity undertaken by national health service trusts in England, for NHS patients.

Deep Vein Thrombosis

John Mann: To ask the Secretary of State for Health how many in-patient admissions there were for deep vein thrombosis in drug addicts in *(a)* 2002, *(b)* 2003 and *(c)* 2004, broken down by hospital. [209104]

Miss Melanie Johnson: Information showing the total number of finished admissions to national health service trust hospitals in England during 2001–02, 2002–03 and 2003–04, where deep vein thrombosis was the primary diagnosis and where drug addiction was mentioned, has been placed in the Library.

Dorset and Somerset Strategic Health Authority

Mr. Flook: To ask the Secretary of State for Health (1) how much money each primary care trust in the Dorset and Somerset Strategic Health Authority area has received for helping general practitioner surgeries to *(a)* expand, *(b)* build new surgeries and *(c)* renovate outdated buildings in each of the last four years; and what the budgets are for the coming financial year; [214609]

(2) how much money the Dorset and Somerset Strategic Health Area *(a)* has received and *(b)* is due to receive under the Local Improvement Finance Trust (LIFT) Scheme, broken down by primary care trust; [216471]

(3) how much of the 2004–05 Local Improvement Finance Trust (LIFT) allocation to Dorset and Somerset Strategic Health Authority has been spent, broken down by primary care trust. [216472]

Ms Rosie Winterton: There are presently no national health service local investment finance trust (LIFT) schemes or private finance initiative (PFI) activity related to general practitioner premises improvements in the Dorset and Somerset Strategic Health Authority (SHA) area. Dorset and premises improvements in the Dorset and Somerset Strategic Health Authority (SHA) area. Dorset and Somerset SHA has advised that it received no applications from local primary care trusts for the fourth wave of LIFT schemes.

Free Eye Tests (Leicester, South)

Mr. Gill: To ask the Secretary of State for Health how many free eye tests for pensioners there have been in Leicester, South in each year since 1997. [217984]

Dr. Ladyman: Figures for the number of sight tests by constituency or by pensioners are not collected centrally.

The table shows the number of national health service sight tests paid by the Leicestershire health authority (HA) for the years ending 31 March 2000 to 2003, and the six primary care trusts (PCTs) covering the old Leicestershire HA for the year ending 31 March 2004.

General ophthalmic services: number of sight tests paid by Leicestershire HA for patients aged 60 and over for the years ending 31 March 2000–04

	HA/PCT name	*Number of sight tests for aged 60 and over (Thousands)*
1999–2000	Leicestershire HA	53.9
2000–01	Leicestershire HA	69.4
2001–02	Leicestershire HA	75.1
2002–03	Leicestershire HA	76.1
2003–04	Melton, Rutland and Harborough PCT	10.9
	Leicester City West PCT	6.8
	Hinckley and Bosworth PCT	7.0
	Charnwood and North West Leicestershire PCT	22.9
	Eastern Leicester PCT	18.3
	South Leicestershire PCT	15.9
	Total	81.8

Notes:

1. Eligibility for NHS sight tests was extended to patients aged 60 and over from 1 April 1999.
2. PCTs took over responsibilities from HAs in October 2002.

MRSA

Norman Baker: To ask the Secretary of State for Health if he will make a statement on the incidence of MRSA in hospitals in Sussex. [217032]

Ms Rosie Winterton: There have been 262 reports of methicillin resistant Staphylococcus aureus (MRSA) bacteraemia by trusts in Sussex from April 2003 to March 2004.

It is for primary care trusts in partnership with strategic health authorities and other local stakeholders to determine how best to meet national and local priorities for improving health, and modernising services, including reducing hospital infections.

I am advised that acute trusts in Sussex are working hard to reduce the incidence of MRSA and have clear policies and strategies in place to help them achieve this.

Nurses' Uniforms

Dr. Murrison: To ask the Secretary of State for Health what proportion of NHS trust nurses' uniforms were *(a)* laundered at home and *(b)* cleaned under (i) commercial contract and (ii) in-house arrangements in the most recent period for which figures are available. [217069]

Mr. Hutton: Information relating to the proportion of nurses' uniforms that are laundered at home or under contract arrangements is not collected centrally.

Primary Care Trusts

Mr. Laws: To ask the Secretary of State for Health what the cost of running primary care trusts was in the most recent year for which figures are available; and if he will make a statement. [213959]

Mr. Hutton: Latest available figures show that, for the 164 primary care trusts established in 2001–02, administration costs totalled £490,075,000.

Shipman Inquiry

Mr. McNamara: To ask the Secretary of State for Health what the cost was of each stage of the Shipman Inquiry, broken down by main budget headings; and what the cost was of legal fees paid to each party represented. [215623]

Mr. Hutton: It is not possible to provide details of the cost of each stage of the Shipman Inquiry, but expenditure for the Inquiry as a whole up to the end of January 2005 is shown in the tables.

£ thousand

Shipman Inquiry expenditure (to 31 January 2005)	*Amount*
Chairman costs including clerk, expenses	79
Legal costs including inquiry legal team, agents, represented parties, other legal costs, experts, witnesses/search/research costs	10,623
Communications including printing/other media, website, public relations, subscriptions, publications	1,185
Facilities including fixtures and fittings, rental, maintenance, copier rental, hospitality	2,370
Information technology including project management, hardware, installations, technical support, legal document management, telecoms	6,231
Other administrative costs	436
Information technology including project management, hardware, installations, technical support, legal document management, telecoms	6,231
Other administrative costs including postage/courier, security, other admin costs	436
Staff costs	1,867
VAT refunds	(2,013)
Total	20,778

The legal fees of the represented parties funded from the inquiry's budget are shown in the following table.

£ thousand

Legal fees of represented parties funded by Shipman Inquiry (to 31 January 2005)	*Amount*
Tameside Families Support Group	2,159
Detective Inspector David Smith	126.5
Mr. Alan Massey, funeral director	27
Mrs. Primrose Shipman	35
Market Street surgery staff	28.5
Dr. Alan Banks, Medical Adviser, West Pennine health authority	19.5
Tameside Register Office staff	15
Mrs. Christine Whitworth, executor of victim	0.4

£ thousand

Legal fees of represented parties funded by Shipman Inquiry (to 31 January 2005)	*Amount*
Dr. Michael Overton, relative of victim	0.3
Mrs. Janet Schofield, housing manager at sheltered housing complex	1.4
Mrs. Ghislaine Brandt and Mr. Peter Rothman, Market Street pharmacy	3.5
Total	2,416.1

SCOTLAND

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Scotland how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213824]

Mrs. McGuire: The Scotland Office has incurred no expenditure on congestion charges or penalty charge notices. Costs incurred by vehicles provided by the Government Car Service (GCS) to the Scotland Office are paid by the GCS. I refer the hon. Member to the answer given by my hon. Friend the Minister for the Cabinet Office on 10 January 2005, *Official Report*, columns 89–90W.

Departmental Spending

Mr. Laws: To ask the Secretary of State for Scotland what his latest estimate is of unallocated departmental spending in *(a)* 2005–06, *(b)* 2006–07, and *(c)* 2007–08; and if he will make a statement. [213255]

Mrs. McGuire: I refer the hon. Member to the answer given by my right hon. Friend the Chief Secretary to the Treasury on 2 February 2005, *Official Report*, column 910W.

Regional Assistance

Mr. Hancock: To ask the Secretary of State for Scotland what recent representations he has received about mismanagement of EU regional development grants; and if he will make a statement. [217277]

Mrs. McGuire: Neither the Secretary of State nor I has received any such representations.

Mr. Hancock: To ask the Secretary of State for Scotland what procedures are in place in his Department to ensure that EU regional development grants are used in accordance with European Commission rules. [217281]

Mrs. McGuire: European Structural Funds programmes are required to operate in accordance with European Commission Regulations. The Scotland Office does not have oversight of any such programmes.

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Scotland what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing

copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215221]

Mrs. McGuire: The Scotland Office will place copies of information released under Freedom of Information, where considered appropriate in terms of the wider public interest, on the departmental website where this is believed to be the most suitable method for publication. In some instances, it may be necessary to direct interested individuals to other locations providing reasonable access to published material.

This corresponds with earlier guidance on publication schemes, issued by the Department for Constitutional Affairs in July 2002, which recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and NDPBs should consider whether the information disclosed is of general interest and include released information in the publication scheme where appropriate.

G8 Summit (Gleneagles)

Mr. Dalyell: To ask the Secretary of State for Scotland when he expects to be able to estimate the cost to public funds of the G8 summit at Gleneagles in July. [217454]

Mrs. McGuire: Discussions on the detailed arrangements for the summit, including resource matters, are continuing between the relevant authorities. However, as I indicated in my reply of 20 January 2005, *Official Report*, column 1060W, it is not customary to disclose the security costs for such events.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Scotland what the cost of staff mobile phone bills was in each year since 1997. [214901]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Details on the cost of mobile phones used by staff are not recorded separately.

Targets

Mr. George Osborne: To ask the Secretary of State for Scotland how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215834]

Mrs. McGuire: I refer the hon. Member to the recent answer given by my hon. Friend the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

CABINET OFFICE

Catering Costs

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215045]

Mr. Miliband: Information breaking down the expenditure by the categories requested cannot be readily retrieved without incurring disproportionate cost.

For details of the Cabinet Office spend on entertainment in each year since 1997, I refer the hon. Member to the answer I gave him on 10 January 2005, *Official Report*, column 88W.

"Delivering on the Promise"

Michael Fabricant: To ask the Minister for the Cabinet Office what the total cost was of the "Delivering on the Promise" technology programme. [217521]

Mr. Miliband: I refer the hon. Member to the reply given to the hon. Member for Sheffield, Hallam (Mr. Allan) on 16 November 2004, *Official Report*, column 1237W.

Michael Fabricant: To ask the Minister for the Cabinet Office if he will make a statement on the discontinuation of the DotP technology programme and the decision to switch to a commercially available off-the-shelf system. [217525]

Mr. Miliband: The DotP application is a content management software product. Since the original development of DotP the software market has matured and there may now be commercial-off-the-shelf products to which DotP could transition, so that it continues to deliver the strategic benefit and best value for money always envisaged by the DotP Programme. This is being considered and Government are still retaining all of their options.

Equal Pay Review

Mr. Gill: To ask the Minister for the Cabinet Office whether the most recent equal pay review conducted by his Department included comparisons of *(a)* ethnic groups, *(b)* disabled and able-bodied employees and *(c)* part-time and full-time employees. [217496]

Mr. Miliband: The Cabinet Office (CO), Central Office of Information (COI) and Government Car and Despatch Agency (GCDA) all operate their own delegated pay systems and therefore completed individual equal pay audits in 2003. Copies of the reviews are available in the Library of the House.

The approach and level of detail varied reflecting the size of the organisation and the issues they needed to address. The CO review covered gender, ethnicity, staff with disabilities and working patterns. COI covered gender, ethnicity and working patterns and the GCDA review focused on gender.

Sickness Absence

Mr. Hammond: To ask the Minister for the Cabinet Office what initiatives his Department is taking to reduce the numbers of sick days taken by staff in the Department. [216630]

Mr. Miliband: The Cabinet Office is committed to managing sick absence effectively, having implemented all recommendations of the 1998 report "Working Well Together". These are supported by robust monitoring procedures and in-house guidance and training for

managers and individuals. In support of the 2004 report "Managing Sick Absence in the Public Sector", the Cabinet Office will ensure that managers proactively monitor sick absence and that they have the tools and training to do so.

TRADE AND INDUSTRY

Community Interest Companies

Mr. Swayne: To ask the Secretary of State for Trade and Industry what progress she is making in defining the structure of proposed community interest companies; and if she will make a statement. [216101]

Jacqui Smith *[holding answer 21 February 2005]:* I refer the hon. Member to the reply I gave on 1 February 2005, *Official Report*, columns 798–99W.

Employment Rights

Mr. Sheerman: To ask the Secretary of State for Trade and Industry if she will make a statement on changes in employment rights since 1997. [217463]

Mr. Sutcliffe: Since 1997, we have introduced a foundation of decent minimum standards in the workplace. People at work in Britain have benefited from:

- a minimum wage
- a right not to work more than 48 hours a week
- four weeks' paid leave
- a discipline and grievance procedure (and to be accompanied by a Trade Union official)
- a right to no discrimination on grounds of religion, belief or sexual orientation
- a right to membership of a trade union
- a right to trade union recognition for collective bargaining in specified circumstances
- equal treatment for part-time and fixed-term employees compared with their full-time colleagues
- protection for public interest disclosure (whistleblowers)
- paternity leave, adoption leave, parental leave and time off for domestic emergencies
- a right to request flexible working with an obligation on employers to treat the request seriously (for parents of children up to six)
- Maternity leave increased from 16 weeks' paid leave at £60 in 1997 to 26 weeks paid at £100 or more.

In addition, from April 2005 employees will gain new rights to request information and consultation.

The improvements we have made to employment rights have not adversely affected the labour market, which is performing well. We have proved that regulation, providing it is well designed and well implemented, is not an obstacle to high employment or running businesses successfully.

The Government are committed to ensuring that employment rights are effectively implemented in all workplaces, so that they benefit all workers, including the most vulnerable.

In the 2004 pre-Budget report, we pledged improvements to the arrangements for parents to take paid leave after the birth of a child and to extend rights to work flexibly. We are committed to consulting with employers and other interested parties early this year.

Nordic Customs Union

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment she has made of the operation of the Nordic Customs Union in relation to the proposed restrictions on Norwegian imports of salmon into the EU. [216701]

Mr. Alexander: None, the Nordic Customs Union does not exist. The provisions of the European Economic Area apply to the movement of goods between Norway and member states of the European Union.

Parental Leave

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what changes to paternity and maternity leave have been introduced since 1997. [217464]

Mr. Sutcliffe: In 1999 we extended maternity leave for all employed women from 14 weeks to 18 weeks. The qualifying service for additional maternity leave was reduced to one year. Previously qualifying service was two years for women working at least 16 hours per week or five years for women working between eight and sixteen hours per week.

Leave was further simplified and extended in April 2003. All employed women are now entitled to 26 weeks' ordinary maternity leave. Women with six months qualifying service are able to take a further 26 weeks' additional maternity leave.

The right to paid paternity leave was introduced in April 2003. Eligible fathers can choose to take one or two weeks' paternity leave in the first eight weeks after their child is born.

Regional Development Agencies

Mrs. Spelman: To ask the Secretary of State for Trade and Industry what the estimated Government expenditure by regional development agencies is expected to be in 2004–05; and what expenditure is projected for 2005–06. [211137]

Jacqui Smith: I have set out in the following table the planned expenditure by each of England's nine Regional Development Agencies in 2004–05 and their indicative allocations for 2005–06.

£ million

	2004–05	*2005–06*
Advantage West Midlands	235	272
East of England Development Agency	91	129
East Midlands Development Agency	138	156
London Development Agency	327	373
North West Development Agency	226	382
One North East	365	240
South East of England Development Agency	128	157
South West of England Development Agency	111	153
Yorkshire Forward	284	295
Total[1]	1,905	2,157

[1] The RDA budget for 2005–06 following SR2004 was £2.163

billion. That figure excluded £21 million non-cash cost provision. The Office of the Deputy Prime Minister has since changed the profile of their contribution to RDAs so that the RDAs overall allocations is reduced by £26 million in 2005–06 and increased by £14 million in 2006–07 and £12 million 2007–08.

CONSTITUTIONAL AFFAIRS

Appointments

Paddy Tipping: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his Answer of 9 February to Question reference 215189, if he will break down the figures provided in tables 1A, 1B and 2 by gender. [216945]

Mr. Lammy: The breakdown of the figures provided in the answer on 9 February 2005, *Official Report*, column 1609W (and in my pursuant answer yesterday) are detailed in the following tables.

Tables 1A and 1B show full-time appointments for the calendar years 1975–97. The figures include appointments of Judicial officers to full time Tribunal posts for Tribunals administered by DCA (formerly Lord Chancellor's Department) but exclude those administered by other Government Departments (such as the Employment Tribunal and The Appeal Service and its pre 1999 predecessor The Independent Tribunal Service). These tables also include lay magistrates appointments from 1990 onwards.

Figures for the appointment and the gender split of part time judicial officers between 1975 and 1997, and for lay magistrates prior to 1990 is not given, as DCA does not hold complete figures on the appointment and gender of these judicial officers who were appointed during these periods, and those that exist could only be determined at disproportionate cost.

The gender split for full-time and part-time judicial officer appointments for each year between 1998–2004 is set out in tables 2A-D. These figures are obtained from the Judicial Appointments Annual Reports to Parliament for each of the financial years from 1998–2004.

It is also necessary to mention that while every care has been taken, the figures supplied for the years 1975–98 may not be wholly complete as they are drawn from very old records. For some of the very early appointments, the DCA have only a surname and initials thus it is not absolutely certain what the gender was, and in these cases, on the basis that there were very few women in the judiciary that long ago, it has been assumed that they are men.

Table 1A: 1975–84 full-time appointments

	Male	*Female*	*Total*
1975–97 full-time appointments gender split			
1975	44	1	45
1976	45	1	46
1977	41	2	43

Parental Contact Orders

Mrs. May: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the answer of 12 January 2005, *Official Report*, column 568W, on parental contract orders, how many of the 67,184 cases of disputed contact dealt with by the courts in 2003 were related to previous contact orders made in the same year. [217388]

Mr. Lammy: This information is not held centrally and could be provided only at disproportionate cost.

However, I would refer the right hon. Member to the Consultation Paper "Relationship Breakdown: Children's Needs and Parent's Responsibilities" (page14) where it confirms that "in just over half of the 300 cases surveyed as part of my Department Consumer Strategy work, there was at least one repeat application". It should be noted that this figure was, however, based on a limited sample in three courts and was just a snapshot at one point in time (the survey was carried out during February 2004). It is not known how many of the repeat orders related to previous orders in the same year.

It is important to note that not all repeat applications indicate conflict. It is common for orders to be revised to recognise a geographical move, change in working hours, or children getting older and needing different arrangements.

DEFENCE

A400M

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the A400M. [216552]

Mr. Ingram: A contract for the development and production of the A400M aircraft was signed with Airbus Military on 27 May 2003 by the Organisation for Joint Armaments Co-operation on behalf of the participating nations (Germany, France, Turkey, Spain, Belgium, Luxembourg and the United Kingdom). The contract milestones are being achieved, and as previously announced, on 16 December 2003, *Official Report*, column 839W the aircraft's planned In-Service Date for UK is 2011.

Aircraft

Mr. Hoyle: To ask the Secretary of State for Defence how much money has been spent on aircraft research by his Department in *(a)* Lancashire and *(b)* the North West since 1997. [216232]

Mr. Ingram: We recognise the importance of the aerospace industry in the North West, both to the Ministry of Defence and the wider economy. We have not placed any 'research' contracts with companies in the North West region but as my hon. Friend will be aware, the Ministry of Defence places a considerable volume of work with companies in the region on both new programmes and support for in-service aircraft. Much of the work on new programmes is classified as 'development', however, details on money spent on such programmes is not held centrally, and therefore could be provided only at disproportionate cost.

Assault Cases

Mr. McNamara: To ask the Secretary of State for Defence what the cost of out-of-court settlements for assault cases involving members of the armed forces has been in the last 12 months; and how many cases this represents. [217799]

Mr. Caplin: The Ministry of Defence has paid compensation of £269,218 during the past 12 months in 15 out of court settlements for assault cases involving members of HM forces on the basis of the Department's primary or vicarious liability.

BAE

Mr. John Smith: To ask the Secretary of State for Defence what the value was of the enabling contract for the Harrier Joint Upgrade and Maintenance Programme awarded to BAE Systems on 15 November 2004. [217385]

Mr. Ingram: £20.7 million.

Mr. John Smith: To ask the Secretary of State for Defence how many Harrier GR7s are being upgraded at BAE Warton; and at what cost. [216319]

Mr. Hoyle: To ask the Secretary of State for Defence what estimate he has made of the likely costs of *(a)* upgrading and *(b)* servicing fast jets at BAE Warton. [216882]

Mr. Ingram: At present nine Harrier aircraft are being modified at Warton. Three aircraft have already completed their modification. The 12 Harrier aircraft are being upgraded for a total cost of some £33 million (VAT exclusive).

Planned upgrades to bring all Tranche 1 Typhoon aircraft to the same standard are included in the production contract price. The majority of this work is likely to be carried out at BAE Warton. Subsequent upgrades have yet to be defined and costed.

Correspondence

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will place in the Library copies of letters sent in the current Parliament by defence Ministers to hon. Members following undertakings given in debates on the floor of the House, in Westminster Hall and in Standing Committee. [217995]

Mr. Caplin: The Ministry of Defence endeavours to routinely place copies of such letters in the Library of the House. Confirmation that this had been done in every instance since June 2001 could be provided only at disproportionate cost.

Counter-Mobility Capability

Mr. Keetch: To ask the Secretary of State for Defence if he will make a statement on British counter-mobility capability; what progress has been made on the Mines in the Next Century project; and if he will make a statement. [216702]

Mr. Ingram: The counter-mobility capability for the British Army is currently provided by the Shielder scatterable mine system and the Barmine anti-tank mine. We are currently considering how the capability can be provided in future through the Future Counter Mobility Capability programme which draws together the requirements of the Mines in the Next Century programme, and a number of other counter-mobility programmes. This work is in its concept phase.

Future Surface Combatant

Mr. Soames: To ask the Secretary of State for Defence what the reasons were for the cancellation of the Future Surface Combatant project. [216106]

Mr. Ingram: The Future Surface Combatant (FSC) programme has not been cancelled. Some of the assumptions associated with this project, which is still at the concept stage, have changed as a result of the MOD's recent planning rounds. As a result, it was decided to disband the FSC Integrated Project Team and transfer the programme to the DPA Future Business Group.

Landing Ship Logistics

Mr. Viggers: To ask the Secretary of State for Defence what the original agreed contract price in relation to the contract with Swan Hunter (Tyneside) for the construction of Landing Ship Logistics (LSL) Largs Bay and Lyme Bay was; what the latest anticipated cost is; how much BAE Systems will be able to claim from the Department by reason of the failure of Swan Hunter to deliver design information to BAE Systems in relation to the two LSLs that that company is to build; whether his Department will claim from Swan Hunter in respect of its lateness in delivering design information on the LSLs; and which party under the terms of the original Swan Hunter contract undertook to accept the risk of the engineering requirements being greater than anticipated. [216889]

Mr. Ingram *[holding answer 21 February 2005]:* The original contract price for the design and construction cost of the two Swan Hunter Landing Ship Dock (Auxiliary) ships, Largs Bay and Lyme Bay, was £148 million and the anticipated cost is now £235 million. The Ministry of Defence has made a provision of £40 million in the 2003–04 Accounts for delay and dislocation costs in respect to the two LSD(A)s that BAE Systems are building and has already paid £16 million as an initial payment. Negotiations continue on the final settlement figure with the company. As further disclosure could prejudice these negotiations I am withholding further information under the commercial interests exemption of the Freedom of Information Act 2000. The MOD will not be pursuing a claim from Swan Hunter in respect of providing information to BAE Systems as this would seriously jeopardise company's ability to delivery the Landing Ship Dock Auxiliary capability. The Swan Hunter undertook the engineering risk in delivering against the original contract. However, in September 2003, when the company announced that it could not absorb the risk and complete the contract at the agreed price and timescale, both financial and timescale risks were in effect transferred to the MOD.

This new Landing Ship Dock Auxiliary class will provide a significantly enhanced capability that will enable the faster deployment of troops, vehicles and stores into operational and front line areas, at a safer distance and in worse sea conditions than the Landing Ships they will replace. The construction of Largs Bay and Lyme Bay is virtually complete and the retention of Swan Hunter as the lead yard offers MOD and the taxpayer the best value for money solution for delivering this new capability.

Military Aircraft Crashes

Mr. Arbuthnot: To ask the Secretary of State for Defence how many military aircraft crashes have occurred in the UK in each year since 1993. [217294]

Mr. Caplin: The information requested is given in the following table:

	Number of air accidents
1993	12
1994	10
1995	10
1996	12
1997	9
1998	7
1999	12
2000	8
2001	[1]9
2002	8
2003	2
2004	6
Total	105

[1] This figure includes two USAF F15 aircraft.

The figures show air accidents in the UK and surrounding waters, resulting in category four or five damage. These are defined as: (Category 4)—damage to an aircraft that is not repairable on site because special facilities or equipment is unavailable; or (Category 5) damaged beyond economic repair. The figures exclude aircraft damage due to hostile action or ground accidents.

Mutual Defence Agreement

Alan Simpson: To ask the Secretary of State for Defence how many Exchange of Information and Visits reports have been generated since 1975 as part of the 1958 Mutual Defence Agreement; and if he will place copies of them in the Library. [216678]

Mr. Ingram: Since 1975, Exchanges of Information by Visit and Report have been raised in 34 subjects. Reports are being withheld in order not to prejudice international relations and to safeguard national security.

Official Residences

Chris Grayling: To ask the Secretary of State for Defence if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the occupants of each make towards running costs; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment was in 2003–04. [213563]

Mr. Caplin: I refer the hon. Member to the answer given to him by my right hon. Friend the Prime Minister on 20 January 2005, *Official Report*, column 1037W. I would also refer the hon. Member to the answer I gave on 20 November 2003, *Official Report*, column 1273W, to the hon. Member for Arundel and South Downs (Mr. Flight).

Service Accommodation

Mr. Wilkinson: To ask the Secretary of State for Defence if he will cause additional service married quarters accommodation to be built to house armed forces personnel of the same sex living together in partnerships. [218020]

Mr. Caplin: There should be no requirement to build new houses.

Mr. Wilkinson: To ask the Secretary of State for Defence what assessment he has made of the effects upon availability of accommodation in married quarters for service families of making them available to personnel of the armed forces of the same sex living together in partnership. [218022]

Mr. Caplin: It is not possible to identify the number of Service personnel who will elect to enter into a Civil Partnership. However, it is assessed that the numbers will be small and any associated requirement for married quarters would be absorbed within the existing housing management margin.

Service Medals

Mr. Hayes: To ask the Secretary of State for Defence pursuant to the answer of 18 December 2004, *Official Report*, column 1229W, on service medals, how many personnel who have served in operational theatres since 1997 and have fulfilled the awarding criteria for a medal have yet to receive the medal; how many service personnel who have fulfilled the criteria for long service medals have yet to receive the medal; how many personnel who have served in *(a)* Afghanistan, *(b)* Sierra Leone, *(c)* Iraq and *(d)* the Balkans (i) fulfil the criteria for, (ii) have received and (iii) have yet to receive the relevant campaign medal; and what the longest period is for which a serviceman has had to wait for a medal awarded for service since 1997. [216589]

Mr. Caplin: The information is not held in the format requested. However, all medals irrespective of type are normally engraved and despatched by the Department within two weeks of eligibility being established.

As at 4 February 2005 there were 4,815 personnel whose eligibility had been established, but had yet to receive their medal. Of these, 2,782 medals were waiting to be engraved, including 651 Iraq medals and 358 Canal Zone medals. The balance of 1,773 comprised all other awards including those for Afghanistan, Sierra Leone and long service medals.

In the remaining 2,033 cases, medals had been engraved and were awaiting despatch, but it is not possible to break these down by medal type.

Medals for service in the Balkans are NATO medals, which are normally issued by the NATO authorities in the operational theatre details. Figures relating to these medals are not held by the MOD.

Tornado GR4

Mr. John Smith: To ask the Secretary of State for Defence where he plans to house the additional service personnel who will provide depth support for the Tornado GR4 at RAF Marham; and at what estimated cost. [217195]

Mr. Ingram: The issue of accommodation was considered during the affordability analysis of the Investment Appraisal options. Further planning is now taking place to define the accommodation requirements at RAF Marham as progress is made in implementing the End to End programme.

Transport Aircraft

Mr. Hoyle: To ask the Secretary of State for Defence what the lift capability of the *(a)* A400M and *(b)* C-130 Hercules is. [216883]

Mr. Ingram: The A400M is contracted to deliver a load capability of 32 tonnes. The C-130 Hercules Mk 3 has a normal maximum load capability of 18 tonnes.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the total value in *(a)* monetary terms and *(b)* as a percentage of the country's total gross domestic product of (i) opium and heroin production in and (ii) opium and heroin exports from Afghanistan in each financial year since 2001–02; and if he will make a statement. [216708]

Mr. Rammell: The United Nations Office on Drugs and Crime (UNODC) conducts an annual survey into the level of opium poppy cultivation and production in Afghanistan. Full details can be found on their website http://www.unodc.org.

UNODC assesses that opium production and farm gate value of opiates in Afghanistan since 1999 is:

	Production (tonnes)	*Farm gate value (US$)*
1999	4,600	183 million
2000	3,300	91 million
2001	185	56 million
2002	3,400	1.2 billion
2003	3,600	1.02 billion
2004	4,200	0.6 billion

Since 2003 UNODC have also looked to assess the value of opiate exports from Afghanistan:

	Total export value of opiates (US$ billion)	*Percentage of licit GDP*
2003	2.3	50
2004	2.8	60

The UK, as lead nation, is committed to supporting the Afghan Government in the implementation of their comprehensive National Drug Control Strategy. I refer the hon. Member to the written statement I made on Afghanistan: Counter Narcotics on 29 November 2004, *Official Report*, columns 17–18WS.

Civil Servants

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of the annual cost of the enhanced early retirement scheme for civil servants in his Department and its agencies, for each year from 1997–98 to 2003–04 and what the estimated cost will be in each year from 2004–05 to 2007–08; and if he will make a statement. [211596]

Mr. Alexander: The cost of the Foreign and Commonwealth Office's (FCO) enhanced early retirement schemes from 1997–98 to 2003–04 is shown in the table. Final figures for 2004–05 are not yet available. However, as a result of a recent trawl for volunteers to help meet the FCO's efficiency targets, we estimate the cost of the early retirement programme between 2004–05 and 2007–08 to be around £30 million.

	£
1997–98	2,824,767
1998–99	3,314,768
1999–2000	3,801,817
2000–01	1,871,688
2001–02	2,825,390
2002–03	2,983,651
2003–04	3,814,280

Correspondence

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter of 20 October 2004, from the hon. Member for West Chelmsford, transferred from the Home Office on 1 November 2004, Ref. M15507/4, concerning Mr. Christian Magnussen. [217808]

Mr. Mullin: UKVisas, the Department responsible for entry clearance matters arising overseas, replied to the hon. Member on 16 December 2004.

Counter-terrorism Intelligence

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries with which the UK officially shares intelligence of a counter-terrorism nature; through what channels this intelligence sharing is undertaken; and if he will make a statement. [216381]

Mr. Straw: The security and intelligence agencies engage in liaison with the intelligence and law enforcement agencies in a large number of countries where we have common interests and concerns. Such arrangements depend on confidentiality and it is not the Government's policy to comment further on them.

Departmental Publications for the Visually Impaired

Mr. Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of publications issued by his Department are available in *(a)* Braille, *(b)* autoprint, *(c)* large print and *(d)* easy read format. [210467]

Mr. Rammell *[holding answer 24 January 2005]:* Of the 70 publications produced by the Foreign and Commonwealth Office (FCO) Services Publishing at the behest of FCO budget holders during 2003–04, other than the Departmental Report which was produced in 11 point type, none were requested to be made available in Braille, autoprint, large print or easy to read formats.

However, FCO Services continue to encourage budget holders to provide material in other formats where appropriate. Many are available on-line at www.fco.gov.uk and the FCO Departmental Report was produced with the co-operation of the Plain English Campaign and typeset in a larger size. The FCO web platform meets UK Government guidelines on accessibility for the visually impaired allowing text and images on websites to be displayed via screen readers and Braille displays.

Diplomatic Posts

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons he is closing the British Embassy in Madagascar. [217678]

Mr. Mullin: As my right hon. Friend the Foreign Secretary made clear in his written statement on 15 December 2004, *Official Report*, columns 137–40WS, we are making changes to our overseas network to reflect changing demands and challenges and to ensure the UK has a cost-effective and flexible network of overseas representation. This involves the closure of several diplomatic posts including the British Embassy in Antananarivo.

This is in no way a reflection on the current Government of Madagascar or on the quality of our bilateral relations. We will work with the Government of Madagascar to establish alternative forms of British representation, probably through an

Honorary Consul in Antananarivo, supported by non-resident accreditation from one of our diplomatic posts in the region.

Mr. Wilkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether closures of British missions other than those already publicly announced are planned for financial years 2005–06 and 2006–07. [217756]

Mr. Straw: No further decisions have been made to close missions, but as circumstance change we continuously review the shape of the network to align our resources more effectively to our priorities.

Mr. Wilkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects on British interests of the closure of the British embassies in *(a)* El Salvador, *(b)* Honduras and *(c)* Nicaragua. [217809]

Mr. Rammell: The decision to close our embassies in El Salvador, Honduras and Nicaragua was taken based on the need to align our resources with our priorities, to maximise efficiency and ensure that the UK has a cost-effective and flexible network of overseas representation.

However, we continue to have good relations, and work closely, with these countries. We have appointed non-resident Ambassadors to El Salvador, Honduras and Nicaragua to maintain British interests in the region through working visits, and we continue to provide consular services through Honorary Consuls in each country.

EC-Canada Joint Committee

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the EC-Canada Joint Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214310]

Mr. MacShane: I have been asked to reply.

The EU-Canada Joint Co-operation Committee met once under the Italian and once under the Dutch presidencies, on 24 November 2003 in Ottawa and 30 November 2004 in Brussels respectively. It did not meet under the Irish presidency. This is a Commission led group, which the Presidency of the day attends as an observer only. As such there were no British officials present at these meetings. Further information may be found at www.fco.gov.uk/commandpapers.

EU Commissioners

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on EU Commissioners' involvement in the domestic politics of member states. [216135]

Mr. MacShane: The current Treaty articles on the Commission make clear the complete independence enjoyed by the members of the Commission, who are required to discharge their duties in the general interest of the Community.

The UK Government fully supports the Code of Conduct for Commissioners, which states that "Commissioners may be active members of political parties or trade unions, provided that this does not compromise their availability for service in the Commission."

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) EEC-Russia Co-operation Committee, (ii) EC-Georgia Co-operation Committee and (iii) EC-San Marino Co-operation Committee met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement. [216226]

Mr. MacShane: During this period, there was one meeting of the EU-Georgia Co-operation Committee—on 16 July 2004 in Brussels. There were two meetings of the EU-Russia Co-operation Committee—on 20 October 2003 in Moscow and on 21 October 2004 in Brussels. There was one meeting of the EU-San Marino Co-operation Committee—on 12 July 2004 in Brussels. As Co-operation Committees are chaired by the Commission, with support from the presidency, there were no UK representatives at these meetings. However, the UK participated fully in formulating the EU's position for the meetings.

Intelligence

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken within the Counter Terrorism Policy Department to optimise systems for the processing of intelligence information; and if he will make a statement. [216904]

Mr. Straw *[holding answer 23 February 2005]:* The Foreign and Commonwealth Office's (FCO) Counter Terrorism Policy Department (CTPD) receives electronically an average of around 270 intelligence reports a week. As Sir Michael Jay, the Permanent Under-Secretary at the FCO, foreshadowed to the Foreign Affairs Committee in February 2003, the number of officers dealing with these reports has been increased—from two to five. These officers immediately alert all other FCO colleagues who need to be aware of particular reports, and ensure that any necessary action is set in hand—for example, prompt revision of FCO Travel Advice. CTPD is supported by a team of three FCO officers located within the Joint Terrorism Analysis Centre (JTAC)—a multi-agency body which brings together those involved across government in assessing and reporting of terrorist threat intelligence. This arrangement ensures that CTPD has advance notice of JTAC threat reports.

Iran

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many persons under 18 years he estimates are held under death penalty sentence in Iran; what information he has received in relation to each person's *(a)* personal details and

(b) crime; what representations the Government has made, and on what date, in respect of each individual case; and if he will make a statement. [215695]

Mr. Rammell: We take the sentencing to death of juveniles very seriously. Ministers have made clear our concerns on many occasions. Most recently I did so when I met the Iranian Ambassador on 7 February.

Amnesty International report that there are currently at least 30 juveniles awaiting execution. With our strong support the EU has, in the last six months, urged the Iranian authorities to review the sentences imposed on 15 juvenile cases. Individual cases also form an important part of the EU-Iran Human Rights Dialogue; the last session took place in June 2004.

The UK, along with all other EU member states, co-sponsored a resolution adopted by the UN General Assembly on 21 December, which called on Iran, "to comply with its obligations under article 37 of the Convention on the Rights of the Child and article 6 of the International Covenant on Civil and Political Rights not to impose the sentence of death for offences committed by persons below eighteen years of age".

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department has received on the number of sentences of *(a)* execution and *(b)* amputation in Iran in each of the last five years; how many were carried out on persons under 18 years of age; and if he will make a statement. [215696]

Mr. Rammell: We have serious concerns about the use of the death penalty in Iran. We have made our concern clear to the Iranian authorities on many occasions. The latest figures from Amnesty International indicate that 108 people were executed in Iran in 2003. And that since 1990 11 juvenile offenders have been executed.

The Iranian authorities declared a "moratorium" on amputations in March 2003. We are concerned by reports that people continue to receive sentences of amputation but it is unclear whether any amputations have been carried out.

Iraq

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Governments of *(a)* Syria, *(b)* Iran and *(c)* Jordan on insurgency in Iraq. [217187]

Mr. Rammell: Ministers and officials frequently discuss the situation in Iraq with the Syrian, Jordanian, and Iranian authorities. My right hon. Friend the Foreign Secretary raised this issue with Syrian Foreign Minister Shara'a in October 2004 and our ambassador in Damascus raises it on a regular basis. My right hon. Friends the Prime Minister and the Baroness Symons of Vernham Dean discussed the situation in Iraq with King Abdullah of Jordan in October 2004 and February 2005 respectively. The Foreign Secretary met with Hassan Rouhani, Secretary General of the Iranian Supreme National Security Council on 13 December 2004 and Foreign and Commonwealth Office Director-General John Sawers met with Foreign Minister Kharrazi and other senior figures in Iran's Government on 2 February 2005.

Israel

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the likelihood of the Israeli Government's budget being approved by the Knesset before 31 March; and if he will make a statement. [216704]

Mr. Rammell: This is a matter for the Israeli Government.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Israeli counterpart Silvan Shalom regarding Shalom's announced plan to campaign for a national referendum on the proposed pull out of Israeli forces from the occupied territories; what assessment his Department has made of the impact of this plan on the *(a)* viability of the proposal and *(b)* perception such proposals foster of the Israeli Government among (i) Palestinian officials, (ii) the Palestinian public and (iii) the Israeli public; and if he will make a statement. [216705]

Mr. Rammell: My right hon. Friend the Foreign Secretary last discussed the disengagement plan with Israeli Foreign Minister Silvan Shalom during his visit to Israel on 24 November 2004. The Government of Israel do not plan to hold a referendum on the disengagement plan. The debate on whether a referendum should be held is an internal Israeli political matter.

We welcome Prime Minister Sharon's plan to withdraw all settlements from Gaza and parts of the West Bank. We would like to see any withdrawal take place as soon as possible and be as complete as possible. We see the withdrawal of Israeli troops and dismantling of settlements as a step towards implementing the Roadmap.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of Israel's opening of the Erez crossing between Israel and Gaza; what assessment his Department has made of the *(a)* social and *(b)* economic impact this will have on (i) the Palestinian workers, (ii) the local community and (iii) the community in the Gaza strip as a whole; and if he will make a statement. [216706]

Mr. Rammell: We welcome the announcement by Israeli Defence Minister Shaul Mofaz on 10 February that 1,000 Palestinian workers will be permitted to go through the Erez crossing from Gaza into the Erez industrial zone and Israel.

We have not made a detailed assessment of the impact of Israel's opening of the Erez crossing. We are, however, concerned about the humanitarian and economic consequences of closures and curfews, which restrict the free movement of people and essential supplies between the Occupied Territories and Israel and other countries, as well as within the Occupied Territories themselves. We would like to see the easing of these restrictions continue, notwithstanding further terrorist or suicide attacks at or near the crossing.

Middle East

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the factors that might result in a breakdown of the ceasefire announced by Israel and the Palestinian Authority on 8 February in Sharm al-Sheikh; and if he will make a statement. [216323]

Mr. Rammell: We welcome the announcement of a ceasefire made by Prime Minister Sharon and President Abbas at the Sharm-el-Sheikh summit on 8 February. A mutual agreement to end four years of violence is a great step forward. It is critical that both sides stick to their commitments as this will be the best way of achieving long-term stability and enabling a return to the Roadmap. We call upon militant groups not to undermine the efforts made by the Israeli and Palestinian leadership.

We have not made any specific assessment of the dangers that might result in a breakdown of the ceasefire.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the outcome of the Israeli-Palestinian talks in Sharm el Sheikh on 8 February 2005; and if he will make a statement. [216382]

Mr. Rammell: We welcome the declarations made at the Sharm al-Sheikh summit hosted by Egyptian President Hosni Mubarak on 8 February 2005. The agreement by Prime Minister Sharon and President Abbas to end four years of violence is excellent news. We welcome both sides' affirmation of their commitment to the Roadmap and to the vision of a two state solution. We are committed to helping both sides in their efforts to escape the cycle of violence that has marked recent years and get back to the Roadmap.

North Korea

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the nuclear weapons capability of North Korea; and if he will make a statement. [216905]

Mr. Straw *[holding answer 23 February 2005]:* The Government have, for some time, had serious concerns about the nuclear programme and nuclear weapons ambitions of the Government of the Democratic People's Republic of Korea (DPRK). We take every opportunity to raise these concerns in our dealings with the DPRK Government.

The Government assesses that the DPRK extracted sufficient plutonium in the early 1990s for up to two nuclear warheads and that it has the technical capability to weaponise this material. Since then, the DPRK claims to have extracted enough plutonium from its stock of fuel rods to manufacture several additional nuclear warheads. We also believe the DPRK is pursuing efforts towards production of highly enriched uranium.

We urge the government of the DPRK to resume its engagement in the six-party talks, which aim to address and resolve the concerns of the international community about DPRK's nuclear programmes.

Parliamentary Questions

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will provide a substantive answer to the Question from the hon. Member for North Tayside tabled on 6 December 2004, ref. 203691. [217967]

Mr. MacShane: I replied on 21 February 2005.

Presidency of the European Communities

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on planned *(a)* commemorative (i) coins and (ii) stamps and *(b)* other commemorative items in the context of the UK presidency of the European Communities. [216047]

Mr. MacShane: Her Majesty's Government are not planning to produce coins, stamps or other commemorative items in the context of the UK presidency of the Council of the European Union in 2005.

Publicity

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimate of cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211662]

Mr. Alexander: Our records show that the total expenditure on advertising in 2003–04 was £632,777.

The total projected spend for 2004–05 is £671,264.

Total expenditure on publicity in 2003–04 was £559,000 and projected publicity expenditure in 2004–05 is £1.273 million.

Budgets for 2005–06 have not yet been agreed, but we expect our expenditure on advertising to be at a similar level to the present financial year. It is too early to project spending levels beyond the next financial year.

The Foreign and Commonwealth Office's (FCO) overseas posts and its non- departmental public bodies also incur advertising/publicity costs. Information about these costs could be provided only at disproportionate cost.

The FCO's records of expenditure on advertising/publicity for the financial years 1996–97 and 1997–98 are not held centrally. Figures for these years could be compiled only at disproportionate cost.

Spain

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK has made to the Government of Spain regarding its decision to legalise over a million illegal immigrants. [216136]

Mr. MacShane: We do not believe that governments should tell other governments what their sovereign policy on work and residence permits should be, so we have not sought to tell Spain what their policy should be.

Stem Cell Research

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his oral evidence to the European Scrutiny Committee on 8th February, whether it is his Department's assessment that any UK legislation to restrict stem cell research would be contrary to article 13 of the EU Charter of Fundamental Rights. [216137]

Mr. MacShane: Any UK legislation on stem cell research would be drafted so as to be consistent with the European Convention on Human Rights and in particular with the right to freedom of thought and expression enshrined in that Convention, from which Article 13 of the EU Charter of Fundamental Rights is derived.

Stolen Property

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the property belonging to his Department that has *(a)* been stolen and *(b)* been reported lost in each year since 1997, broken down by type of article. [206362]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) maintains an inventory system that comprises a fixed asset register and a non-financial asset inventory worth £1,237,864,000 (2003–04 figures). This covers FCO property held in FCO buildings in the UK and at all overseas missions. The fixed asset register is subject to verification by the FCO Home Estates Department (for the UK) and by overseas missions, usually twice a year. There is a £3,000 threshold for recording centrally FCO fixed assets, which meets FCO fixed assets policy and follows government guidelines. Details of property worth less than £3,000 are only kept by the relevant custodians.

All FCO entrances are guarded on a 24/7 basis. Most FCO non Information and Communications Technology (ICT) property worth more than £3,000 have electronic security tags. Very heavy and bulky items worth more than £3,000 are not electronically tagged but, given the 24/7 guarding arrangements, the chances of the theft of these items is very limited. Since 1997, there have been no reports of lost or stolen FCO non ICT items worth more than £3,000.

FCO ICT items are recorded using a bar code system. £4,100 worth of FCO ICT equipment was reported lost in 2004 when we started formally to record these figures. The four items lost were worth less than £3,000 each.

Thailand

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs which consultants were used to evaluate the cost of embassies and assess the value of embassy land proposed to be sold in Thailand; and what costs were incurred. [217199]

Mr. Straw *[holding answer 22 February 2005]:* Since 2002, when the present project commenced, we have used Brooke Real Estate to provide market updates at six monthly intervals on the diplomatic estate in Bangkok, at a total cost of £16,846.

Full details of earlier consultancies and costs could be obtained only at disproportionate cost. Brooke Real Estate were also paid £20,327 in 1999.

Uzbekistan

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will urge the Government of Uzbekistan to undertake an impartial review of all cases of imprisoned journalists in Uzbekistan; [208141]

(2) what representations he has made to the Government of Uzbekistan about *(a)* the relaxation of the system of state control over the media through reform of the Agency on Press and Information, *(b)* easing registration requirements for media outlets and *(c)* instructing officials to end informal and formal interference in media operations; [208142]

(3) what representations he has made to the Government of Uzbekistan about strengthening media freedom by *(a)* ending harassment and censorship of journalists and media outlets and *(b)* permitting the re-opening of newspapers closed since March 2002. [208143]

Mr. Rammell: We regularly highlight the importance of free media and free speech in our relations with Uzbekistan, both bilaterally and with our EU partners.

In April 2004, the UK supported the decision of the European Bank for Reconstruction and Development to cut around $31 million in economic aid projects to Uzbekistan. Among the reasons given for this action was the lack of press freedom in Uzbekistan.

In May 2004 our former ambassador to Tashkent marked World Press Freedom Day by delivering a public statement that was critical of media conditions in Uzbekistan. I have publicly backed the statements our former ambassador made regarding human rights abuses in Uzbekistan.

On 11 November 2004 the EU underlined to Foreign Minister Safayev the importance of balanced and accurate coverage of the December 2004 parliamentary elections in the media.

We frequently lobby the Uzbek authorities on cases of apparent injustice and harassment of the media that are brought to our attention. For example, with the EU, we raised with Foreign Minister Safayev the issue of Ruslan Sharipov, the journalist and human rights activist arrested in May 2003.

We will continue to urge the Uzbek authorities to work towards greater freedom of the media and freedom of speech, both bilaterally and with multilateral organisations. We shall also continue to raise with the Uzbek Government individual cases that are brought to our attention. I intend to raise the issue of an impartial review of imprisoned journalists with the Uzbek authorities during my forthcoming visit to Tashkent.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he has taken to discourage oil companies from operating within the disputed territory of the Western Sahara. [217224]

Mr. Rammell: The Government regard the sovereignty of Western Sahara as undetermined pending United Nations efforts to find a solution to the dispute over the territory. The UN legal counsel gave an opinion on the signing of contracts for exploration of mineral resources in Western Sahara in 2002 (S/2002/161 of 12 February 2002). We fully support this advice.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent report by the UN Secretary General about progress towards the referendum on self-determination in the Western Sahara, including the future of MINURSO. [217225]

Mr. Rammell: The United Kingdom fully supports the efforts of the UN Secretary-General and his special representative Alvaro de Soto to find a just, lasting and mutually acceptable solution to the Western Sahara dispute which provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

We believe UN efforts to find a solution to the dispute should be maintained and
continue to urge all parties to the dispute to engage constructively with the UN.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK has taken to encourage a settlement of the disputed fishing lands off Dakhla, Western Sahara. [217226]

Mr. Rammell: The UK Government have had no recent discussions regarding fishing lands off Western Sahara.

However the EU has, on several occasions held discussions with Morocco on fishing since the expiry of the EU Morocco fisheries agreement on 30 November 1999.

The Government regard the sovereignty of Western Sahara as undetermined pending United Nations efforts to find a solution to the dispute over the territory. We fully support the efforts of the UN Secretary-General to find a fair and lasting solution.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Morocco on the continuing detention of Saharawi dissidents in El Ayoun prisons. [217227]

Mr. Rammell: The UK Government have had no recent discussions with the Government of Morocco regarding the alleged detention of Saharawis in El Ayoun prisons.

Zimbabwe

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what educational, scholarship or hardship funds are made available by his Department to Zimbabwean students wishing to study in the United Kingdom; and what Government assistance is available to Zimbabwean students who, for political or human rights reasons, do not wish to return to Zimbabwe. [217761]

Mr. Straw: My Department provides support to Zimbabweans wishing to study in the UK through our Chevening Scholarship Programme. This year we are supporting 15 students. A similar number were sponsored last year.

We have serious concerns about the human rights situation in Zimbabwe. Should any student believe that he has a well founded fear of persecution, he is able to apply for asylum in the UK and have it considered in the normal way under the terms of the 1951 UN Refugee Convention and British legislation.

WORK AND PENSIONS

Benefit Office Closures

John Thurso: To ask the Secretary of State for Work and Pensions if he will list the benefit offices earmarked for closure in Scotland. [217078]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. John Thurso, dated 24 February 2005:

The Secretary of State has asked me to reply to your question concerning the benefit offices earmarked for closure in Scotland. This is something, which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

I have attached, at Annex A, a list of sites in Scotland that have either been closed, merged or are planned for closure as part of the Jobcentre Plus rollout programme and activity to centralise benefit processing. This list includes Social Security Offices, Jobcentres, Jobcentre Plus and Caller Offices in Scotland. Some of the site closures are dependent on the construction of new buildings or the acquisition of new premises.

It may be helpful if I explain that we are shaping the future Jobcentre Plus network in response to changing business needs. The need for face-to-face facilities for jobsearch and other aspects of our business has been superseded in many instances by new business processes and the use of information technology. For example, nationally, over the last 12 months we have seen an increase of over 40 per cent. in the number of hits on our jobsearch website. Encouraging our customers to use these new channels enables us to focus on those customers who need greatest help. We are also working with local partners to establish a Flexible Service Delivery, which will provide our customers with access to our services on third party premises.

I can assure you that we are committed to providing a high standard of customer service in Scotland and we will retain a significant network of offices through which customers can access our services.

I hope you find this helpful.

Annex A: Jobcentre Plus site closures (from April 2002 onwards)

Site	Region Scotland Status
Airdrie, Graham Street	—[1]
Alexandria, Mitchell Way	—[1]
Alloa, Bank Street	—[1]

Wick, Government Buildings (partial)	—[1]
Wishaw, Kirk Road	—[1]
Wishaw, Main Street	—[1]

[1] Planned for closure.
[2] Office has closed to public. Some sites may be retained for non-customer-facing activity.
[3] Office is co-located with another; one will 'close' as the site is redeveloped to support delivery of the new service.
[4] Has merged with co-located office.

New Deal for Young People

Mr. Gill: To ask the Secretary of State for Work and Pensions how many participants on the New Deal for Young People in Leicester, South constituency have been placed on training courses for *(a)* up to one year and *(b)* over one year in the last 12 months; and if he will make a statement. [215731]

Jane Kennedy: In the Leicestershire South constituency, 20[1] people started the Full Time Education and Training option between October 2003 and September 2004[2] and an additional 1,201 people started on the mandatory two week Gateway to Work course, which can include elements of training. Information on people undertaking other training through New Deal for Young People is not available.

It is the policy of New Deal for Young People (NDYP) that an individuals training is not funded for longer than 12 months.

Notes:

1. All figures have been rounded to the nearest 10.
2. Latest available data.

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2003.

Mr. Weir: To ask the Secretary of State for Work and Pensions what assessment he has made of (a) the impact on council tax benefit payments in Scotland and (b) the financial effects on his Department of the Scottish Parliament replacing council tax with a local income tax. [217976]

Mr. Pond: No such assessment has been made.

CSA

Mr. David Marshall: To ask the Secretary of State for Work and Pensions when he expects all Child Support Agency clients registered prior to 3 March 2003 to be transferred to the child support scheme introduced on 3 March 2003. [217381]

Mr. Pond: I refer my hon. Friend to the written answer I gave the hon. Member for Ashford (Mr. Green) on 8 December 2004, *Official Report*, column 568W.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many and what percentage of full-time equivalent Child Support Agency staff are employed as frontline staff. [216766]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 24 February 2005:

In reply to your recent parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many and what percentage of full-time equivalent Child Support Agency staff are employed as frontline staff.

I am not able to respond precisely to the question as asked. However, I can say that at 31 March 2005 the Agency is planning to employ around 10,300 staff. We have recently baselined the size of our head office function as 286 staff.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many Child Support Agency staff have been employed in teams handling complaints in each year since 1997. [216805]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 24 February 2005:

In reply to your recent parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply fro the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many Child Support Agency staff have been employed in teams handling complaints in each year since 1997.

I regret that we do not have the information for the period requested as we have only recently started recording this information separately.

We are currently employing 930 staff within the agency either directly in teams handling complaints and/or teams handling correspondence from Members of Parliament, stakeholder groups or clients who may have earlier made a complaint.

Five-year Strategy

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) what impact he expects the proposals in his Department's five-year strategy to have on *(a)* the number of people who start claiming incapacity benefits each year and *(b)* the proportion of these who are still claiming incapacity benefits 12 months after the commencement of their claims; [215552]

(2) how much of the one million fall in the numbers of people on incapacity benefit targeted in his Department's five-year strategy he expects will be attributable to *(a)* an increase in the rate at which existing claimants leave incapacity benefits and *(b)* a reduction in the number of new claimants; [215556]

(3) what impact he expects the proposals in his Department's five-year strategy to have on *(a)* the number of people who start claiming incapacity benefits in each year and *(b)* the proportion of these who are still claiming incapacity benefits 12 months after the commencement of their claims; [215558]

(4) what his timetable is for progress against his objective of reducing the number of people on incapacity benefits by one million; [215554]

(5) by what date he expects the number of people on incapacity benefits to have fallen by one million if the plans outlined in his Department's five-year strategy are implemented. [215555]

Jane Kennedy: Reducing the numbers of people on incapacity benefits by one million is a long term aspiration.

This long-term aspiration is challenging. It will require continued macroeconomic stability and further radical welfare reform to build on the success that has already been achieved. New claims are already down by 30 per cent. since 1997. The caseload has peaked after decades when the numbers increased—particularly in the 1990s when the caseload trebled. And in the latest two quarters there have been the first signs of a fall.

It is not possible to put a firm timetable on this. Not only does it require legislative changes we also need to review the evidence from the successful Pathways to Work pilots and successfully roll-out the programme.

We are already making progress. The significant improvement in off-flow rates registered in the pathways to work pilots, with 5,500 job entries up to last August, also shows for the first time how significant additional numbers of people on incapacity benefits can be helped back to work.

Realisation of our aspiration will depend on further evidence from pathways (for example on the impact of work-focused interviews for existing claimants, starting this month) and other initiatives. It will also depend on when we can start to understand the additional impact of the new arrangements set out in the five year strategy. Outside of DWP it will also depend on the scale of progress on, for example, fitness for work issues and progress on employers' sickness absence management policies.

Progress towards our aspiration should come, in part, from improving support so people do not need to come onto IB, that is, reducing inflows and improving off-flows by helping more people to leave the benefit for work.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will make a statement on the treatment of lump sum payments for those who have deferred drawing their retirement pension under the terms of the Pensions Act 2005 in *(a)* measurement of capital when assessing entitlement to means-tested benefits and *(b)* liability for income tax in the year in which the lump sum is drawn. [217968]

Malcolm Wicks: For the first time ever we are giving people the chance to defer their State Pension and build up a lump sum. Where a person chooses to take a lump sum, the intention is for the full amount to be disregarded in the calculation of their capital in pension credit, housing benefit and council tax benefit during their lifetime.

Taxation is a matter for the Chancellor, but it is proposed to tax the lump sum at the marginal rate (currently 10 per cent., 22 per cent., 40 per cent. or if not liable to tax—no deduction) applicable to the person's other income, either in the tax year in which the person starts drawing his State Pension or, if the person so chooses, the tax year following. Payment of a lump sum will not count as income for the age-related personal allowance.

NORTHERN IRELAND

Andersonstown News Group

Mr. Lidington: To ask the Secretary of State for Northern Ireland whether he has sought European Commission state aids approval for all or part of the Government's and Invest Northern Ireland's financial support to the Andersonstown News Group; and if he will make a statement. [208673]

Mr. Gardiner: During the five-year period for which figures are readily available (1 April 1999–31 December 2004) funding from Northern Ireland central Government sources has been made available to the Andersonstown News Group (ANG) from a number of Northern Ireland Departments. The state aids approval position in respect of this funding is detailed as follows.

Department of Enterprise, Trade and Investment (DETI)

DETI offered £92,248 under the EU Special Support Programme for Peace and Reconciliation's (Peace I) Interest Relief Subsidy Scheme (a scheme offered through local banks, subject to scrutiny by DETI and the European Investment Bank). This was notified to the European Commission and clearance received.

DETI offered £270,000 under the EU Programme for Peace and Reconciliation (Peace II) for workspace units (not related to the ANG's printing and publishing of newspapers.) This was assessed against state aid rules and was deemed not to be state aid as the support was not considered to have the potential to distort competition.

The Local Enterprise Development Unit (a predecessor body of Invest NI) provided funding for marketing, employment and management salary grants. This funding was issued under a notified scheme approved by the European Union Commission.

Support of £37,056 for training and development was provided under the Company Development Programme (CDP)(now managed by Invest NI). In 1993 the Commission formally acknowledged CDP as a regional aid scheme. In 1998 the Commission required all training support to be compliant with a new framework on training aid. At that stage action to re-notify was started but not followed through. To address this the block exemption report on CDP issued to the Commissioners on 27 July 2004 and the Commission acknowledgement was dated 30 July 2004.

DETI are providing funding of £4,000 via InterTradeIreland[1] through the Acumen programme. This programme is designed to stimulate cross-border trade by assisting individual SME's with tailored consultancy and sales salary support mechanisms. The programme is a partnership funded by Invest NI, Enterprise Ireland (in the Republic of Ireland) and InterTradeIreland. The programme was treated as exempt under the SME Block Exemption. This has been registered with the European Commission

Office of First Minister Deputy First Minister (OFMDFM)

Funding of £33,500 provided by OFMDFM was for the Irish language newspaper *Lá*. As it was the only Irish language newspaper in existence OFMDFM took the view that there was no distortion or potential distortion of competition and consequently the state aid rules would not be applicable.

Department of Finance and Personnel (DFP)

Peace I funding of £5,095 was provided by DFP under the District Partnerships Sub Programme for which Department of the Environment had oversight. This funding was for accommodation and administration costs. The amount involved did not exceed €100,000 and accordingly was within the Commission's established relevant de-minimis arrangements for small amounts of aid.

DFP in Northern Ireland and the Department of Finance in the Republic of Ireland, have approved funding of £199,150 in respect of a joint application from Preas an Phobail and Comharchumann Forbartha. Funding is for the expansion of *Lá* in selected border areas. The funding complies with state aid regulations on the basis that it is the only existing Irish language newspaper and does not have the potential to distort competition between EU member states.

Department of Culture, Arts and Leisure (DCAL)

The Arts Council for Northern Ireland (a non-departmental public body of DCAL) provided £54,400 funding towards the production of La. The amount involved did not exceed €100,000 and accordingly was within the Commission's established relevant de-minimis arrangements for small amounts of aid.

DCAL, through Foras na Gaeilge[2] the Irish Language Agency, has provided funding of £148,439 for the publication of La. DCAL has been advised by Foras that the aid is compatible with European Union law on state aid.

Department of Social Development (PSD)

DSD provided £277,375 under the Department's Urban Development Grant (UDG) scheme (23 November 1999) to assist the construction of new purpose built printworks and offices. The UDG scheme has been notified to the European Commission who consider it to be compatible with the EC Treaty. Consequently, UDG funding to the *Andersonstown News* is compatible with state aid rules.

DSD also provided £70,000 via Making Belfast Work (MBW) (March 2000). MBW is designed to augment mainstream spend by Departments in the most deprived areas of Belfast across a range of community interventions. At the time of funding, the *Andersonstown News* was a local community newspaper which did not trade across boundaries, and the content of which meant that it was not considered to have the potential to be tested across national boundaries. Following an internal economic appraisal the grant was not considered to support a tradable activity because the paper was unique and covered only local community issues. This funding was therefore not considered to be a notifiable state aid.

[1] InterTradeIreland (the Trade and Business Development Body) is funded jointly by DETI in Northern Ireland and the Department of Enterprise, Trade and Employment (DETE) in the Republic of Ireland. DETI contributes 33.3 per cent. and DETE 66.6 per cent. of the funding.

[2] Foras na Gaeilge (the Irish Language Agency of the North/South Language Implementation Body) is funded jointly by the Department of Culture, Arts and Leisure (DCAL) in Northern Ireland and the Department of Community, Rural and Gaeltacht Affairs (DCGRA) in the Republic of Ireland. DCAL contributes 25 per cent. and DCGRA contributes 75 per cent. of the funding.

Cleaning

Mr. George Osborne: To ask the Secretary of State for Northern Ireland what the costs of cleaning the Department were in each year since 1997. [213780]

Mr. Paul Murphy: The Northern Ireland Office (excluding its agencies and NDPBs) has spent the following on cleaning in each year since 1997:

	£
1997–98	79,023
1998–99	108,235
1999–2000	118,178
2000–01	118,369
2001–02	125,025
2002–03	263,062
2003–04	195,192

Criminal Justice

Rev. Ian Paisley: To ask the Secretary of State for Northern Ireland whether offences proscribed in Part II of the draft Criminal Justice (Evidence) (Northern Ireland) Order 2004 will include offences committed in respect of children aged 17 years. [217607]

Mr. Spellar: The Criminal Justice Evidence (Northern Ireland) Order 2004 provides the Secretary of State for Northern Ireland with a power to prescribe categories of offences which are 'of the same type' for use as an indicator that a defendant has a propensity to commit offences of a certain type. The draft proposed Criminal Justice (Evidence) (Northern Ireland) Order 2004 (Categories of Offences) Order 2005 proposes two such categories of offences: Part I deals with offences of theft; Part II deals with sexual offences against persons aged under the age of 17.

While Part II of the draft Order focuses on children aged under 17, any relevant previous conviction—including those committed against persons aged 17 or over—may be admissible at trial even when no relevant category of offences has been introduced. Both Part I and Part II categories are intended as a guide to the judiciary. Nor does the absence of categories for other types of offences prevent previous convictions from being admitted if they demonstrate a propensity to commit a certain type of offence. Further categories may be introduced at a later date.

Decommissioning Commission

Lady Hermon: To ask the Secretary of State for Northern Ireland what the cost of the Independent International Decommissioning Commission has been in each year since it was established. [216513]

Mr. Pearson: The Commission's running costs are shared equally between the British and Irish Governments. The British Government's share of the costs for each financial year, since the establishment of the Commission is as follows:

	Cost (£)
1997–98	428,256
1998–99	534,835
1999–2000	603,600
2000–01	701,814
2001–02	677,973
2002–03	309,600
2003–04	276,729
2004–05 (Up to and including December 2004)	263,778
Total	3,796,585

Electoral Register

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many electors in each constituency will have their names restored to the electoral register in Northern Ireland before the local government elections on 5 May 2005. [214506]

Mr. Spellar: The Chief Electoral Officer for Northern Ireland estimates that approximately 83,000 former electors on the Electoral Office for Northern Ireland's database will be carried forward, distributed across the 18 constituencies. Precise numbers per constituency that are carried forward will not be known until 1 April 2005 register (the register that will be in use for the local government elections in May) is actually published.

In-house Magazines

Mr. George Osborne: To ask the Secretary of State for Northern Ireland how much has been spent on the production of in-house magazines in the Department in each year since 1997. [213633]

Mr. Paul Murphy: The amount spent on the production of in-house magazines in the Northern Ireland Office is as follows:

	£
2004–05 Financial year	15,012
2003–04 Financial year	14,893
2002–03 Financial year	15,577
2001–02 Financial year	3,830
2000–01	0
1999–2000	0
1998–99	0
1997–98	0

Invest NI/LVM

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much financial assistance has been offered by Invest NI to LVM to locate new premises in *(a)* West Belfast and *(b)* East Belfast; and if he will make a statement on the status of this project. [213548]

Mr. Gardiner: Disclosure of this information is likely to prejudice the interests of the Northern Ireland economy. In accordance with section 29a of the Freedom of Information Act 2000, it would therefore not be in the public interest to release the information requested by the hon. Lady.

Organised Crime

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will make a statement on the Government's response to the assessment made by Professor Goldstock, in his report on organised crime in Northern Ireland, of the possible impact of new laws modelled on the United States Racketeer Influenced and Corrupt Organisations Act. [215781]

Mr. Pearson: The Government accepted the majority of Professor Goldstock's recommendations, but concluded that a Racketeer Influenced and Corrupt Organisations (RICO) type Act was not required at this stage. Law enforcement agencies in Northern Ireland continue to work closely to ensure that the best use is made of existing conspiracy legislation. In addition the Proceeds of Crime Act 2002 provides a robust framework for dealing with criminal assets.

Parades Commission

Mr. McNamara: To ask the Secretary of State for Northern Ireland what measures he has taken to ensure that, where reports of monitors acting on behalf of the Parades Commission contain evidence of breaches of determinations, those reports are routinely handed to the police service of Northern Ireland for investigation and the results of that investigation are fed back to the Commission. [213303]

Mr. Pearson: Rule 3.3 of the Parades Commission's Procedural rules outlines the confidential treatment of all evidence and information received by the Commission, including monitors' reports.

In light of Rule 3.3 there is no routine handing of reports to the PSNI in the circumstances outlined. However, the Commission is mindful of the need to work with the police to promote disciplined and responsible parading where parading is notified to take place. The Commission will take a judgment on when it is appropriate to refer a specific incident to the police.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what assistance is available from the Police Service of Northern Ireland to assist the Parades Commission in establishing a Compliance and Post-mortem Unit. [214237]

Mr. Pearson: PSNI have advised in their evidence to the Northern Ireland Affairs Select Committee that they could assist with the supply of information to the Commission on how to manage the process of establishing a Compliance and Post-mortem Unit and would be willing to work with them in the setting up of protocols/administrative arrangements should the Commission seek such assistance.

Police

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many police personnel were on duty in each police station in the Coleraine District Council area over each weekend during the first two weeks of January. [213973]

Mr. Pearson: The number of officers on duty per shift in the first two weekends of January 2005, in stations within the Coleraine District Command Unit, was as follows:

	Coleraine DCU Personnel		*Tactical Support Group*	
	Early	*Night*	*Early*	*Night*
1 January 2005	23	37	24	0
2 January 2005	20	21	21	0
8 January 2005	20	29	0	0
9 January 2005	20	19	25	0

The figures relate to both the early shift 0700–1900 hours and night shift 1900–0700 hours. The numbers reflect officers on duty for duty shifts only. They do not include Sector Police, CID, and support officers such as Crime Prevention, Operational Planning, National Intelligence and Community Safety. Officers attached to the Tactical Support Group are available to provide support anywhere within the District Command Unit.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the average response time from a call to the emergency number to attendance by a Police Service of Northern Ireland officer at an incident in Newtownards was in the most recent period for which figures are available. [214918]

Mr. Pearson: The Police Service of Northern Ireland does not currently record the response time to emergency calls.

The response time to emergency calls (999) will be part of the forthcoming policing plan, and will thus be recorded in the financial year to come.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what arrangements are in place for full-time reserve officers to transfer from the Police Service Northern Ireland to other police services in Great Britain. [216670]

Mr. Paul Murphy: While legislation exists to permit the direct transfer of regular officers in the PSNI to police forces in GB, and vice versa, the unique status of the Full-time Reserve means that there is no such provision, nor has there ever been, for FTR officers seeking to transfer on a similar basis.

Such officers may of course apply to join GB forces through the recruitment procedures which apply to that force. With that in mind, officials in the NIO have been working with colleagues in the PSNI, Policing Board and Police Federation to co-ordinate the staging of a careers fair to assist FTR officers who wish to pursue police careers elsewhere.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many police service of Northern Ireland officers work within the Ards district of Northern Ireland, broken down by principal duty conducted by each officer. [214919]

Mr. Pearson: The details for police officers attached to Ards District Command Unit on 8 February 2005 are as follows:

Duty type	*Number* *Regular and FTR*	*Part-time reserve*
Security Duty	5	—
Call Management	8	—
Station Duty Officer	5	—
Response Policing Teams	113	60
Community Policing Team	15	5
Support to Response and Community Policing[1]	19	—
Senior Command (Chief Insp. and above)	2	—
DCU Criminal Investigation	12	—
Total	179	65

[1] Including Custody officers, National Intelligence Model officers, Operational Planning, Community Safety officers, Domestic Violence Officers, Youth Diversion Officers, Crime Prevention Officers etc.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many police stations were in operation in Ards in each of the last six years. [214921]

Mr. Pearson: The following stations currently open in Ards District Command Unit are:

Newtownards —24 hour opening

Comber—Limited Opening

Donaghadee—Limited Opening

Portaferry—Limited Opening

Greyabbey Station was last used for limited opening 18 months ago, and would be occasionally used by the local community policing team.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many Police Service of Northern Ireland officers stationed in Ards were on out-of-station duties on an average shift in the last period for which figures are available. [214922]

Mr. Pearson: On 20 January 2005, the following resources were deployed on out of station duties:

	12 hour early shift	*8 hour early shift*	*8 hour late shift*	*12 hour night shift*
Response Team	10	1	2	9
Community Policing	0	10	9	0
CID	—	4	3	—

Averages are not recorded. To calculate such an average for a defined period would involve a manual trawl of records, and would incur disproportionate cost.

Water and Sewerage

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether it is his policy that the commissioning of the new waste water treatment works at Killinchy should be delayed if there is evidence of seawater regress into the sewerage infrastructure. [217466]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

Letter from Katharine Bryan to Mrs. Iris Robinson, dated February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about the possible delay in the commissioning of the new Wastewater Treatment Works at Killinchy if there is evidence of seawater regress into the sewerage Infrastructure (217466). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

The new Works at Killinchy is currently on schedule for completion and commissioning by September 2005 at an estimated cost of £2.5 million. Under the wastewater project, which involves pumping the flow from Whiterock, Water Service will be undertaking a survey and examination of the sewerage infrastructure in the Whiterock area. The outcome of that investigation will not delay commissioning of the new wastewater treatment works at Killinchy.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether he expects the work under way to upgrade the waste water treatment works at Killinchy/Whiterock to be completed and commissioned by September. [217467]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

Letter from Katharine Bryan to Mrs. Iris Robinson, dated February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question as to whether, works currently underway to upgrade the Wastewater Treatment Works at Killinchy/Whiterock will be completed and commission by September. (217467). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

Preliminary construction/site clearance for the new Works commenced at Killinchy in September 2004 with full construction getting underway in November 2004. The project is currently on programme for completion and commissioning by September 2005 at a projected cost of £2.5 million.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans the Water Service has for replacing the Whiterock Bay sewer; and whether the Water Service plans to provide *(a)* a storm overflow with a fully operational flap on the outfall, *(b)* a storm retention tank and *(c)* pumps upgrade. [217468]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write the hon. Lady in response to this question.

Letter from Mrs. Katharine Bryan to Mrs. Iris Robinson, dated 24 February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about what plans the Water Service has for replacing the Whiterock Bay Sewer; and whether the Water Service plans to provide a storm overflow with a fully operational flap on the outfall; a storm retention tank and pumps upgrade (217468). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

Water Service is confident that the main sewer at Whiterock Bay is operating satisfactorily, and there are no plans to replace it. Water Service intends however to carry out a survey and examination of the sewerage infrastructure under the Killinchy wastewater treatment works project. I will keep you informed of any conclusion reached as a result of that investigation.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether recent sewerage spillages occurring in Whiterock Bay have been found to be directly attributable to the unscreened storm overflow located there. [217469]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

Letter from Mrs. Katharine Bryan to Mrs. Iris Robinson, dated 24 February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question as to whether recent sewerage spillages occurring at Whiterock Bay have been found to be directly attributable to the unscreened storm overflow located there. (217469). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

The unscreened combined sewer overflow to which you refer is situated on the main sewer in Whiterock to the northwest of the boat park. Its purpose is to prevent out of sewer flooding during periods of heavy rain, when the flow in the main sewer can exceed its capacity, by discharging the excess flow into Whiterock Bay. Combined sewer overflows are a common feature on many sewerage systems in the UK.

Water Service has no record of complaints about this particular combined sewer overflow or about sewage spillages in the Bay. However, if you can provide me with specific details of sewage spillages, I will have the matter investigated as a matter or urgency.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether there has been evidence of seawater ingress in the sewerage infrastructures at Whiterock. [217481]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Lady in response to this question.

Letter from Mrs. Katharine Bryan to Mrs. Iris Robinson, dated 24 February 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question as to whether there has been evidence of seawater ingress in the sewerage infrastructures at Whiterock (217481). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

I can confirm that Water Service will be undertaking a survey and examination of the sewerage infrastructure in the Whiterock area as part of the wastewater scheme for the Killinchy wastewater treatment works. I will write to you again when the outcome is known.

Written Answers to Questions

Friday 25 February 2005

INTERNATIONAL DEVELOPMENT

HIV/AIDS (Children)

Alistair Burt: To ask the Secretary of State for International Development by what date the review of country assistance plans in countries with large numbers of orphans and children made vulnerable by HIV and AIDS will be completed. [217558]

Hilary Benn: Country assistance plans (CAPs) are reviewed annually by DFID country offices. The purpose of CAPs is to report progress against public service agreement (PSA) targets that includes tackling HIV and AIDS. This year, reviews will have a strong focus on assessing what progress each country has made on AIDS, and what contribution the international community has made, and where further action will be required.

TRANSPORT

A38 (Ivybridge)

Mr. Streeter: To ask the Secretary of State for Transport if he will provide a second entrance/exit for Ivybridge on the A38; and if he will make a statement. [218054]

Mr. Jamieson: I have no plans to provide another junction on the A38 to serve Ivybridge.

Congestion does occur on local roads within Ivybridge during peak periods. However, relief of congestion on the local road network is a matter for the local highway authority.

Facilitating further use of the trunk road to solve these problems would be contrary to Government policy.

Catering Costs

Mr. George Osborne: To ask the Secretary of State for Transport how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215041]

Charlotte Atkins: The Department does not maintain separate records of the expenditure on entertainment lunches and/or working lunches and is unable to provide figures in the breakdown requested without incurring disproportionate cost.

I refer the hon. Member to my answer of 13 January 2005, *Official Report*, column 599W, for expenditure on entertainment for 2002–03 and 2003–04.

Highways

Charles Hendry: To ask the Secretary of State for Transport what advice he gives to highways authorities regarding the use of keep clear zones on *(a)* highways and *(b)* other roads. [218243]

Charlotte Atkins: The Department for Transport's advice on the use of keep clear markings is set out in section 22 of Chapter 5 of the Traffic Signs Manual. A new edition was published in 2003. The guidance is applicable to all roads to which the public has access.

Noise Pollution (Heathrow Airport)

Martin Linton: To ask the Secretary of State for Transport what studies his Department has conducted on the effect at different times of day and night of noise pollution in Battersea from Heathrow airport. [218516]

Charlotte Atkins: The Department and its predecessors have commissioned a range of studies over the years about the effects of aircraft noise on annoyance and sleep disturbance at various times of day and night. These include the large-scale "Aircraft Noise Index Study" (CAA DR Report 8402) in the early 1980s, and the DoT "Report of a Field Study of Aircraft Noise and Sleep Disturbance" in the early 1990s. Neither study included fieldwork in Battersea, but the results of both can be generalized to that area.

On behalf of the Department, a consortium led by the MVA Consultancy is currently engaged in a major study of "Attitudes to Noise from Aircraft Sources in England" (ANASE). If this project proceeds to its second (major fieldwork and analysis) phase, sites will be sampled from a wide range of possible areas around Heathrow and other airports.

Railways (Trespass)

Mr. Greg Knight: To ask the Secretary of State for Transport what action is being taken *(a)* by his Department and *(b)* by Network Rail to warn young people of the dangers of trespassing on railway property. [218142]

Mr. McNulty: The cross-industry National Route Crime Group (NRCG), whose membership includes the Department and Network Rail, works with schools to educate young people about the dangers of trespassing on the railway. The NRCG has helped to create a number of interactive educational materials, for example the 'Trakkies' website for younger children and the 'Track Off' website which provides educational materials for teachers and which is accredited under the National Grid for Learning scheme. Network Rail, the British Transport Police and a number of train operating companies also have staff who visit schools on a regular basis to reinforce safety messages. The NRCG's Annual Plan 2005, copies of which will be placed in the Libraries of the House and are available at www.trackoff.org , describes the approach to be taken to increase awareness of railway crime issues during this year. Network Rail will also be launching a campaign before the school Easter break aimed at reminding older children and young teenagers about the dangers of the railway.

Trunk Roads (Bristol)

Mrs. Browning: To ask the Secretary of State for Transport if he will list all major trunk roads west of Bristol. [218304]

Mr. Jamieson: The major trunk roads currently due west of Bristol's north/south line are:

M4
M5
M48
M49
A303
A30
A38
A35.

CULTURE, MEDIA AND SPORT

Kempton Park/Betting Offices

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport (1) what representations she has received from the Racecourse Holdings Trust regarding its plans to build an all-weather horseracing track at Kempton Park; and if she will make a statement; [218106]

(2) if she will review the restrictions on the opening hours of licensed betting offices with a view to increasing opening hours in the summer; and if she will make a statement. [218107]

Mr. Caborn: We have been informed of the company's plans to build such a track, and of its belief that it would benefit from increased betting turnover flowing from an extension later into the evening, during the winter months, of the hours during which licensed betting offices are allowed to open. We have already announced our intention to allow such an extension when the Gambling Bill, if enacted, is brought into force.

TREASURY

Business Prosecutions

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer how many prosecutions of *(a)* small and medium enterprises and *(b)* large businesses were brought in 2003–04 for breaches of regulations sponsored by his Department; how much in total was imposed in fines in each case; and how many visits were made in 2003–04 by officials from his Department or agencies for which his Department is responsible to verify regulatory compliance in each case. [217179]

Mr. Timms: In 2003–04 the Inland Revenue and HM Customs and Excise undertook prosecutions only for breaches of criminal law, and not for breaches of regulations. Details of the criminal prosecution activity undertaken in 2003–04 are set out in the Annual Reports produced by each of those departments, copies of which are available in the House of Commons Library. Those figures do not, however, give details of the number of prosecutions involving small and medium enterprises and large businesses; the amount of fines imposed by the Courts in those cases; nor the number of visits made by officials to verify compliance in those cases.

That additional information is not readily accessible and could be ascertained only at disproportionate cost. In the case of regulations made by the Treasury for financial services regulation, 31 prosecutions were brought in 2003–04 by the Financial Services Authority under powers conferred as a result of the transfer of functions to it by the Financial Services and Markets Act 2000 (Mutual Societies) Order 2001 (SI 2001/2617). Of these prosecutions, 16 were for failure to file returns required by s.39 Industrial and Provident Societies Act 1965, as amended by the 2001 Order and 15 were for breach of s.43 Friendly Societies Act 1974, also as amended by that Order. The prosecutions were brought for offences contrary to s.61 of the Industrial and Provident Societies Act 1965 and section 98 of the Friendly Societies Act 1974. All resulted in convictions. In four cases, 12-month conditional discharges were ordered and in the other 27 cases fines totalling £16,675 were imposed.

It has not been possible in the time available to ascertain the number of visits made in the context of each case in order to verify regulatory compliance, as visits which may be characterised in this way are made on a regular basis by staff of the Financial Services Authority. Nor has it been possible in the time available to obtain a breakdown of prosecutions by size of firm.

Carers (Leicester, South)

Mr. Gill: To ask the Chancellor of the Exchequer what estimate he has made of the number of carers in Leicester, South. [217985]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Gill, dated 25 February 2005:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Question asking what estimate he has made of the number of carers in Leicestershire South. (217985)

Figures from the Census 2001 Report for Parliamentary Constituencies indicate that on Census day (29 April 2001) there were 9,099 people providing unpaid care in Leicestershire South Parliamentary Constituency.

The information below has been extracted from the CD supplement to the Census 2001 Report for Parliamentary Constituencies, which is available in the House of Commons Library. The table shows the distribution of these carers according to the number of hours of care provided per week.

Number of people providing unpaid care in Leicestershire, South: 2001

Provides care	*All People*
1 to 19 hours	5,798
20 to 49 hours	1,286
50 or more hours	2,015
Total	9,099

Table KS08 Census 2001 Report for Parliamentary Constituencies

Civil Servants

Mr. Laws: To ask the Chancellor of the Exchequer what his estimate is of the cost of the enhanced early retirement scheme for civil servants in his Department and its agencies, to each year from 1997–98 to 2007–08; and if he will make a statement. [211597]

Mr. Timms: Early retirement costs for past years, and estimates of the costs for 2004–05 and future years, where available, are set out in the following table.

£000

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05	2005–06	2006–07	2007–08
HM Treasury[1]	1,601	1,457	1,299	2,866	1,276	1,221	3,444	2,296	[2]—	—	—

Earnings Distribution (London)

Sarah Teather: To ask the Chancellor of the Exchequer what the average weekly earnings for full-time employees were in *(a)* London, *(b)* the borough of Brent and *(c)* the constituency of Brent East in each year since 1990. [217586]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Sarah Teather, dated 25 February 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking what the average weekly earnings for full-time employees were in *(a)* London, *(b)* the Borough of Brent and *(c)* the constituency of Brent East in each year since. (217586)

Average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE) and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for Annual Survey of Hours and Earning tables. The Annual Survey of Hours and Earnings does not collect data on the self employed and people who do unpaid work.

I attach a table showing the average earnings for full-time employees in London, Brent and East Brent.

The ASHE, carried out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent sample of all employees.

The Annual Survey of Hours and Earnings publication criteria ensures that all estimates are undisclosive. A number of estimates have been removed from the published tables for these reasons.

Gross weekly pay (£) including overtime, for full-time employee jobs[1]

Description/year	London	Brent	Brent East
New Earnings Survey[2]			
1990	336.5	296.5	[3]—
1991	361.0	316.4	[3]—
1992	385.4	336.5	[3]—
1993	408.8	362.6	[3]—
1994	420.6	356.1	[3]—
1995	441.5	376.1	[3]—
1996	455.0	394.5	369.3
1997	480.1	381.8	[4]374.5
1998	504.5	395.3	[4]397.3

Gross weekly pay (£) including overtime, for full-time employee jobs[1]

Description/year	London	Brent	Brent East
Annual Survey of Hours and Earnings[5]			
1998	515.7	406.3	[4]406.1
1999	536.5	418.3	[4]413.7
2000	571.5	451.0	[4]461.09
2001	606.6	451.9	[4]441.89
2002	641.3	468.5	[4]459.09
2003	659.0	459.7	[4]549.49
2004[6]	682.9	481.1	[4]508.09
2004[7]	680.1	475.1	[4]503.09

[1] Full-time employees on adult rates of pay whose pay for the pay period was unaffected by absence.

ONS

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Banking Advisory Committee met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217906]

Mr. Timms: The Banking Advisory Committee met in Brussels on 9 December 2003, 27 April 2004, 28 June 2004 and 24 November 2004. Officials from HM Treasury and the Financial Services Authority attended the meetings.

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Contact Committee on Combating Money Laundering

met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217907]

Mr. Timms: The Money Laundering Contact Committee met once during the Italian Presidency on 22 September 2003 in the European Commission's Charlemagne Building, 170 Rue de la Loi, Brussels. UK Government officials from the Treasury and the Home Office attended this meeting.

The Money Laundering Contact Committee met twice under the Irish Presidency. The first meeting took place on 14 January 2004 in the European Commission's Charlemagne Building, 170 Rue de la Loi, Brussels. UK Government officials from the Treasury and the Home Office attended this meeting. The Second Meeting took place on 31 March 2004 in the European Commission's Borschette Building, 36 Rue Froissart, Brussels. UK Government officials from the Treasury and the Home Office attended this meeting.

The Money Laundering Contact Committee met once under the Dutch Presidency on 14 October 2004 in the European Commission's Borschette Building, 36 Rue Froissart, Brussels. UK Government officials from the Treasury, Customs and the Home Office attended this meeting.

The Money Laundering Contact Committee is a Committee established under the aegis of the European Commission to facilitate consultation between member state government experts and European Commission representatives on EU and international policies and standards on combating money laundering.

EU Financial Services Action Plan

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer which of the remaining measures of the EU Financial Services Action Plan not yet implemented into UK law are considered to be minimum harmonisation directives for which the Government may choose to impose additional requirements. [217905]

Mr. Timms: The Government's record and approach to implementing the EU Financial Services Action Plan was set out in detail in "The EU Financial Services Action Plan: Delivering the FSAP in the UK", published jointly by the Treasury, FSA and Bank of England in May 2004.

Taxation

Mr. Frank Field: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Yeovil (Mr. Laws) of 9 February 2005, *Official Report*, column 1598W, on taxation, if he will re-state Table 4.2, page 88, of the December 2004 pre-Budget report, Cmnd 6408, to include figures for the marginal deduction rates of over 40 per cent. [217499]

Mr. Timms: The table shows estimates of the numbers facing marginal deduction rates (MDRs) in excess of 40 per cent.

Marginal deduction rate (percentage)	*Before budget 1998*	*2005–06 system of tax and benefits*
Over 100	5,000	0
Over 90	130,000	45,000
Over 80	300,000	195,000
Over 70	740,000	275,000
Over 60	760,000	1,715,000
Over 50	760,000	1,865,000
Over 40	800,000	2,035,000

Figures are cumulative. This table shows marginal deduction rates for working households in receipt of income related benefits or tax credits, where at least one person works 16 hours or more a week and where higher earnings would lead to reduced benefits or tax credits. They include the marginal effects of income tax and national insurance contributions, and the withdrawal of housing benefit and council tax benefit.

This analysis does not take into account the way in which the new tax credits will respond to rises in income. The new tax credits only respond to rises in income in the current year of more than £2,500, disregarding the first £2,500 of any rise. This means that recipients will not see their tax credits reduced as soon as their income rises, so reducing the effective marginal deduction in any one year.

As a result of the Government's reforms, almost half a million fewer low-income households now face marginal deduction rates in excess of 70 per cent. than did so in April 1998. The increase in the number of households facing marginal deduction rates of between 40 and 70 per cent. is primarily due to the introduction of tax credits, and more recently the extension of support to workers aged 25 or over without children.

HOME DEPARTMENT

Burglary

Ms Keeble: To ask the Secretary of State for the Home Department what the detection rates for domestic burglary in Northamptonshire were in *(a)* October 2003, *(b)* March 2004 and *(c)* November 2004. [203833]

Ms Blears: The available figures show that the detection rate for domestic burglary in Northamptonshire in 2003–04 was 15 per cent. Detection rate figures for individual months are not provided as they are potentially misleading. This is because many crimes are not detected in the same month that they are recorded. Detection rates are therefore estimated on the basis of those detected in that month. This tends to provide reliable estimates only for longer periods than one month, and the Home Office therefore prefers to provide figures for twelve month periods at least.

Graffiti

Mr. Dismore: To ask the Secretary of State for the Home Department if he will make a statement on the timescale for the introduction of graffiti removal notices under the Anti-social Behaviour Act 2003. [217720]

Ms Blears: The graffiti removal notice powers have been available on a pilot basis to 12 local authorities since April 2004. A consultation on the pilot exercise finished on 31 December 2004. The responses are still being analysed and a regulatory impact assessment of the powers is being produced. A decision on the introduction of the powers nationally will consider the consultation, the regulatory impact assessment, and an announcement will be made shortly.

International Labour Organisation Report

David Davis: To ask the Secretary of State for the Home Department (1) what plans he has to commission an investigation into the findings of the International Labour Organisation report, Forced Labour and Migration to the UK; [216378]

(2) whether *(a)* Ministers and *(b)* officials in his Department were involved in the preparation of the International Labour Organisation report, Forced Labour and Migration to the UK; [216379]

(3) whether *(a)* Ministers and *(b)* officials in his Department have read the International Labour Organisation report, Forced Labour and Migration to the UK. [216380]

Mr. Browne: The Government currently are responding to the International Labour Organisation on the content and recommendations of the draft report they commissioned on forced labour and migration. We will consider any further necessary action once these discussions are complete and the report is finalised. Officials in my Department and I have seen the draft report, but we were not involved in its preparation.

Police Custody (Mental Health Care)

Mr. Lansley: To ask the Secretary of State for the Home Department what steps he is taking to improve the training given to police officers in dealing with mentally ill people in custody. [216166]

Ms Blears: The National Learning Requirement for the police service sets out the priorities for training and development for the police service and is agreed by the Home Office, the Association of Chief Police Officers (ACPO) and the Association of Police Authorities (APA). ACPO is undertaking a review of the National Learning Requirement for mental health awareness training in the light of a report on "Mental Health and Social Exclusion" published by the Social Exclusion Unit in June 2004.

A cross-agency group—Justice and Offenders Service, Health, Education and Development (JOSHED) was established in December 2003 to develop cross-agency national occupational standards and accredited training on health awareness issues, including mental health awareness. A scoping study was commissioned by the group in January 2004 to identify common training needs across the criminal justice and correctional services agencies, including the police. The study considered mental health training provision. It identified and made recommendations for the improvement of training which are under consideration by ACPO.

WORK AND PENSIONS

Child Support

Mr. Webb: To ask the Secretary of State for Work and Pensions for what reason the average weekly assessments for child support maintenance are different to the average weekly payments made under *(a)* the old scheme and *(b)* the new scheme. [200469]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Mr. Steve Webb, dated 25 February 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, for what reason the average weekly assessments for child support maintenance are different to the average weekly payments made under *(a)* the old scheme and *(b)* the new scheme.

The Department is undertaking further analysis to permit us to understand the discrepancy better

The average weekly amount assessed is derived from the total value of all assessments. It is calculated by dividing that sum by the number of cases with a non-zero assessment. This includes those cases, for which maintenance is being received on behalf of the Secretary of State, and others which are low in value, plus those that are currently inactive. This definition applies to both new and old scheme figures.

The average weekly payment is derived from the total value of payments received in the period. It is calculated by dividing that sum by the number of cases that have made a payment in the period.

Clearly the information is not directly comparable because of discrepancies in the way it is collected and collated for the two different schemes.

Disability Benefits

Mr. Pope: To ask the Secretary of State for Work and Pensions what criteria were used when disability benefits were last uprated. [217712]

Maria Eagle: As required by sections 150 to 154 of the Social Security Administration Act 1992, the level of disability benefits is reviewed annually and is increased in April each year in line with the annual change in the retail prices index (RPI).

Disability Living Allowance

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions whether people who claim disability living allowance before reaching pensionable age can continue to claim it after reaching pensionable age; and if he will make a statement. [218051]

Maria Eagle: Yes.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many Disability Living Allowance applications were made for children in each of the

last three years; and how many were *(a)* rejected, *(b)* renewed, *(c)* successful reviews and *(d)* unsuccessful reviews in each year broken down by (i) county and (ii) region. [216936]

Maria Eagle: The information is not available in the format requested. Such information that is available is set out in the following tables.

DLA first awards broken down by successful claim for children under 16, at August each year

Thousand

August	Initial claim	Reviews
2002	178.6	11.1
2003	193.5	11.6
2004	204.9	12.1

DLA first awards broken down by successful claim and Government office region for children under 16, at August each year

Thousand

	2002		2003		2004	
	Initial claim	Reviews	Initial claim	Reviews	Initial claim	Reviews
North East	10.3	0.8	11.0	0.8	10.7	0.8
North west	22.9	1.9	24.9	1.8	26.2	1.9
Yorkshire and Humber	15.0	1.0	16.6	0.9	17.6	0.9
East Midlands	12.8	1.0	13.8	1.1	15.1	1.0
West Midlands	18.2	1.0	19.6	1.3	20.7	1.2
East	17.4	0.8	19.1	0.9	19.7	1.0
London	20.7	0.9	22.6	1.1	24.2	1.3
South East	22.4	1.1	24.7	1.3	26.6	1.4
South West	13.3	0.8	13.6	0.7	14.8	0.8
Wales	10.6	0.8	11.7	0.7	12.5	0.7
Scotland	14.9	0.9	15.9	0.9	16.9	1.1

Notes:
1. Figures taken from a 5 per cent. sample at 31 August of each year. Figures are in thousands and rounded to the nearest hundred.
2. Figures marked * are less than 500 and subject to a high degree of sampling variation.
3. '-' denotes nil or negligible.

Source:
InfD Centre.

From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

County information is not available as the data is not fully populated and therefore would provide unreliable results.

1: Initial claims rejected—all DLA claims (information by age or region not available) new disability living allowance claims by calendar year

Thousand

	Number of decisions on new claims	Number of claims refused	Claim refusal rate (percentage)
2002	420,840	194,605	46
2003	436,510	215,135	49
2004	444,275	234,180	53

2: DLA renewed disability living allowance renewals by calendar year—all DLA claims (information by age or region not available)

Thousand

	Number of renewals registered	Renewals decided	Successful renewals
2002	235,320	236,410	206,110
2003	246,510	245,180	215,670
2004	265,720	264,280	232,435

3: DLA reviews—all DLA claims (information by age or region not available) disability living allowance reviews, successful by calendar year

Thousand

	Number of reviews registered	Reviews decided	Successful reviews
2002	266,695	267,655	122,450
2003	258,930	258,030	117,375
2004	[1]237,155	251,845	[1]107,165

[1] No Figures for December 2004 for the number of reviews registered and successful reviews. Therefore the total will be slightly lower than the actual year.

Notes:
1. Figures are taken from 100 per cent. Management Information System data.
2. Figures are rounded to five.
3. Information from the MIS system works on a 'hit' basis and therefore a case within a year for registration may not also be within the same year for decided or successful, therefore figures are not comparable.
4. Data for unsuccessful reviews are not available, and on the basis of point 3, the number of these claims cannot be calculated from decided and successful reviews.

Source:
InfD

EDS

Mr. Webb: To ask the Secretary of State for Work and Pensions what date he has set for his summit meeting with EDS. [216765]

Mr. Pond: My right hon. Friend held a meeting with Michael Jordan (Chief Executive Officer) and Steve Schuckenbrock (Executive Vice President of Global Sales and Client Solutions) of EDS on 1 February 2005. At this meeting he took stock of the present position in

relation to EDS' contract to provide computer and telephony services to the Child Support Agency. He concluded that acceptable progress is being made in improving that service and proposes to hold a further meeting later in the year.

Incapacity Benefit

Michael Fabricant: To ask the Secretary of State for Work and Pensions how many people claimed incapacity benefit for mental health reasons *(a)* in the UK and *(b)* in the parliamentary constituencies of (i) Lichfield, (ii) Tamworth and (iii) Burton in (A) 1997 and (B) 2004; and if he will make a statement. [217520]

Maria Eagle: The available information is in the table.

Incapacity benefit and severe disability allowance claimants in certain parliamentary constituencies by diagnosis, at the quarter shown

	Great Britain	*Burton*	*Lichfield*	*Tamworth*
August 1997				
All	2,739,900	3,900	2,600	3,700
Mental and behavioural disorders	725,300	900	600	700
August 2004				
All	2,704,200	3,700	3,000	3,800
Mental and behavioural disorders	1,035,000	1,000	1,100	1,200

Notes:

1. Figures are rounded to the nearest hundred.
2. Figures include all incapacity benefit, severe disability allowance and credits-only cases.

Information Directorate; 5 per cent. sample.

New Deal

Mrs. Gillan: To ask the Secretary of State for Work and Pensions how many people who have obtained jobs through the new deal were still in employment 12 months later in each year for which figures are available. [214846]

Jane Kennedy: information is not available on the length of time individuals have spent in jobs gained through the new deal.

The available information on the number of individuals gaining jobs through new deal, and the proportion of those not returning to claim a working age benefit within 12 months is in the following tables.

New deal for young people

	Number of people gaining a job	*Proportion of those gaining a job who have not claimed a subsequent working age benefit within 12 months (percentage)*
January 1998 to June 1999	102,170	—
July 1999 to March 2000	80,970	46
April 2000 to March 2001	92,120	47
April 2001 to March 2002	73,680	47
April 2002 to March 2003	71,200	47
April 2003 to March 2004	75,010	—
April 2004 to September 2004	40,260	—

Notes:

1. Information from the DWP Work and Pensions Longitudinal Study is available from July 1999 to March 2004. To enable information to be provided on those not returning to claim a working age benefit within 12 months, these data are provided up to March 2003.
2. Information on the proportion not claiming a subsequent benefit excludes people who continued an existing benefit claim after starting employment.
3. Numbers are rounded to the nearest 10 and percentages are calculated on unrounded figures.

Targets

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215835]

Maria Eagle: I refer the hon. Member to the answer given to him on 21 February 2005, *Official Report*, column 75W, by the Financial Secretary.

CABINET OFFICE

Departmental Policies (Blackpool, South)

Mr. Gordon Marsden: To ask the Chancellor of the Duchy of Lancaster if he will set out, with statistical information relating as closely as possible to the constituency, the effect of the Duchy's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215685]

Mr. Milburn: The Duchy of Lancaster is not a Government Department and, therefore, is not involved in the setting or execution of national policies.

FOREIGN AND COMMONWEALTH OFFICE

Al-Takfir wa al-Hijra

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the activities of Al-Takfir wa al-Hijra in *(a)* the EU and *(b)* North Africa since January 2002; and if he will make a statement. [216733]

Mr. MacShane: We are aware that the Al-Takfir wa al-Hijra movement is active across parts of North Africa and Europe. Her Majesty's Government regularly assess all groups which they identify as posing a potential terrorist threat to UK interests.

Belarus

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he plans in conjunction with other EU member states for co-operation on essential border controls between the EU and Belarus; and if he will make a statement. [217453]

Mr. MacShane: The UK actively participates in joint EU operations at weak points on the EU's external border. There are plans for such operations at the border with Belarus in the future.

The UK Immigration Service also has regular operational contact with the authorities in Belarus on migration issues, including on border control matters. Home Office officials met recently with representatives from the Belarusian Ministry of the Interior to discuss co-operation on migration issues.

Cambodia

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of corruption in Cambodia; what assistance is being given to Cambodia to eliminate corruption; and if he will make a statement. [216125]

Mr. Alexander: Cambodia faces a challenging governance agenda of which combating corruption is of central importance, as the president of the World Bank made clear recently.

Strengthening governance remains a key part of UK bilateral assistance for Cambodia. The UK is helping the Government undertake critical reforms that will help tackle corruption. For example, we are helping the Government undertake reforms of management of public funds and we have supported work to tackle illegal logging.

At the annual consultative group meeting between Government and donors in Cambodia in December last year, the Government committed to specific actions to tackle reported corruption, enact anti-corruption legislation and increase Government openness and transparency.

However, these promises need to be backed by faster progress towards reform. I raised this issue with the Cambodian Minister of Justice, Mr. Ang Vong Vathana, on 27 January 2005. Our ambassador in Phnom Penh also raised it with the Cambodian Prime Minister Hun Sen on 1 February 2005.

We welcome the Cambodian Government's intention to adopt soon an anti-corruption law. We hope that the political will needed to implement the legislation will be forthcoming.

We will continue to encourage the Government of Cambodia to take concrete action against corruption and are providing practical support to help them do so.

Correspondence

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department will reply to the letters on behalf of Ms Amani Hamadalla *(a)* to Mr. Goldsmith of the Libya Desk dated 1 September and 19 October 2004 and *(b)* to Baroness Symons dated 19 November 2004. [217587]

Mr. Rammell: We regret the delay in replying to the hon. Member's correspondence, but note that officials from the Foreign and Commonwealth Office have been in direct contact with Ms Hamadalla several times during this period, including in relation to the issues raised in the hon. Member's letters of 1 September, 19 October and 19 November.

Officials at the British Embassy in Tripoli continue to raise Ms Hamadalla's case with the Libyan authorities. The Foreign and Commonwealth Office will write to the hon. Member with a full update shortly.

EU Contributions

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* gross and *(b)* net contributions of each EU member state since 1986. [217656]

Mr. Timms: I have been asked to reply.

Details of member states gross contributions, after taking account of the UK abatement, receipts, and indicative net contributions for the period 1986 to 2003, the latest year for which information is currently available, are set out in the following tables.

Gross contributions by member state 1986–2003

€ *million*

	Belgium	*Denmark*	*Germany*	*Greece*	*Spain*	*France*	*Ireland*
1986	1,448	791	8,730	632	2,321	6,885	344
1987	1,703	845	9,385	340	1,709	7,330	338
1988	1,834	956	11,535	430	2,678	9,096	328
1989	1,807	871	11,110	566	3,575	8,623	371

1991	8,700	109	3,538	n/a	712	n/a	n/a	4,736
1992	8,280	124	3,534	n/a	838	n/a	n/a	6,702
1993	10,265	167	4,031	n/a	909	n/a	n/a	7,627
1994	7,760	165	4,246	n/a	1,216	n/a	n/a	6,417
1995	6,414	168	4,350	1,763	865	887	1,658	9,252
1996	9,005	161	4,436	1,874	852	964	1,969	8,219

	Italy	Luxembourg	Netherlands	Austria	Portugal	Finland	Sweden	UK
1997	8,667	171	4,838	2,110	1,078	1,062	2,326	8,928
1998	10,582	217	5,105	2,086	1,105	1,146	2,383	12,537
1999	10,766	194	5,092	2,054	1,228	1,211	2,349	11,084
2000	11,000	186	5,497	2,094	1,255	1,226	2,633	13,867
2001	11,613	257	5,517	2,091	1,266	1,233	2,338	7,744
2002	11,279	184	4,468	1,809	1,187	1,185	2,086	10,153
2003	11,759	205	4,920	1,936	1,293	1,338	2,501	9,971

Note:

Figures for gross contributions are after account is taken of the UK's abatement and the bringing to account of surpluses and deficits in respect of member states contributions in earlier years. Since 1988, member states' contributions exclude 10 per cent. collection costs (25 per cent. from March 2001) in respect of sugar and agricultural levies and customs duties payments—which are deducted before contributions are made to the Community. Prior to 1988 member states made their sugar and agricultural levies and customs duties contributions available in full. The 10 per cent. collection costs were paid from the expenditure side of the Budget to member states and thus scored as receipts.

2000	10,880	908	2,277	1,398	3,257	1,396	1,215	7,896
2001	8,693	900	1,688	1,403	2,947	1,020	1,093	5,938
2002	8,241	975	1,591	1,554	3,873	1,203	1,245	6,168
2003	10,666	1,062	1,996	1,577	4,769	1,347	1,454	6,216

Notes:

1. With effect from 1988, payments to member states no longer include collection costs in respect of sugar and agricultural levies and customs duties. Since 1988 member states have retained 10 per cent. (25 per cent. from March 2001) of their levies and duties before making these contributions available to the Community.
2. Information for 1986 to 1991, which has been taken from ECA reports, may not include full data on the benefit to member states from spending on administration or "other institutions". Figures for 1986 to 1991 are not therefore fully comparable with those for later years.

Gross contributions minus receipts.

Europe Directorate

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total budget of the Europe directorate within his Department is in 2004–05; and how many staff work in the Europe directorate. [217953]

Mr. MacShane: The Foreign and Commonwealth Office's Europe directorate covers the UK's engagement with the EU's institutions, and our relations with all 24 other EU member states, the four European free trade area countries, those in the Balkans as well as Turkey, Ukraine, Moldova and Belarus—a total of 41 countries—plus the overseas territory of Gibraltar.

The total budget for the Europe directorate in 2004–05 is £127,473,000. This covers the running costs of operations at home and overseas (including locally engaged staff salaries), capital, and programme expenditure. There are 677 diplomatic service staff who work for the directorate—488 overseas, and 189 in London.

European Constitution

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 8 February 2005, *Official Report*, column 1455W, on the European Constitution, under what circumstances the charter of fundamental rights might impact upon member states when implementing Union law. [218017]

Mr. MacShane: The Provisions of the charter of fundamental rights are addressed to the institutions, bodies, offices and agencies of the Union with due regard for the principle of subsidiarity and to the member states only when they are implementing Union law. Member states implement EU law in various ways, including by adopting legislation, by administrative

practice or by enforcing penalties or other appropriate sanctions. The member states will need to take the rights, freedoms and principles set out in the charter, subject to its general provisions and with due regard to the official explanations, into account in carrying out such activities.

European Court of Justice

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those items of legislation introduced since 1997 in response to a ruling against the Government at the European Court of Justice. [216451]

Mr. MacShane: The Foreign and Commonwealth Office does not hold all the information requested. We have asked other Government Departments to provide us with the relevant information and I will write to the hon. Member once they have done so.

Indonesia

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs on what occasions over the last year UK embassy staff have visited Aceh in Indonesia to assess the risk of UK-sourced equipment being used for internal repression; and during which of those visits staff had unrestricted, unimpeded and unaccompanied access to local citizens. [217455]

Mr. Alexander: In the last 12 months, there have been several visits by embassy staff to Aceh. Two members of the British embassy visited Aceh in February 2004. They held meetings with members of the Indonesian army, and with local NGOs. The Defence Attaché visited Aceh as part of an EU delegation in May. On both occasions, there were restrictions on movement, due to the security situation in the province. Since the tsunami disaster on 26 December and the lifting of restrictions, there have been many visits to Aceh where movement was only restricted by the physical devastation following the earthquake and tsunami.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of Joel Boutroue's press briefing on 8 February 2005; what assessment his Department has made of the impact of the UN's view of the role of the provincial authorities, the district authorities and the Acehnese people on the Government of Indonesia and its policy towards Aceh; and if he will make a statement. [216404]

Mr. Alexander: We welcomed Mr Boutroue's comments on 8 February 2005 about the importance of involving the Acehnese in reconstructing their devastated province after the disaster on 26 December 2004. The Government of Indonesia have made clear that their main priority is to rebuild Aceh so that the lives of the people there who have suffered such tragic losses can be returned to normal as soon as possible, and that a political settlement to the long-running conflict is reached. With this objective in mind, the international community including the UN are in discussion with the people of Indonesia, particularly the people of Aceh, as to what help they can provide to assist in the recovery of the province.

Iraq

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of UK *(a)* companies and *(b)* individuals receiving mismanaged Iraqi reconstruction funds. [216457]

Mr. Rammell: We have not received any reports of UK companies or individuals receiving mismanaged Iraqi reconstruction funds.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he *(a)* requested and *(b)* received figures for Iraqi casualties from the Interim Iraqi Government prior to those contained in the statement by the Interim Iraqi Health Minister of 29 October 2004. [217168]

Mr. Rammell: We have had regular discussions on this issue with the Iraqi authorities. We have not received figures for periods earlier than that covered in the Iraqi Minister of Health's statement of 29 October 2004. These covered the period 5 April to 5 October 2004. The Iraqi Ministry of Health only began collating statistics for casualties in April 2004.

Mr. Marshall-Andrews: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his oral statement of 31 January 2005, *Official Report*, column 584, what the serious methodological difficulties are in relation to the figures of Iraqi casualties provided by the Iraqi Ministry of Health; whether these figures contain any attribution of the number of Iraqi deaths and injuries that have resulted from the actions of *(a)* multinational forces, *(b)* Iraqi security forces and *(c)* terrorists and insurgents; and whether the figures specify the number of Iraqi non-combatants who have been killed or injured by the actions of these three groups. [217442]

Mr. Rammell: The Iraqi Ministry of Health (MOH) released a statement on 28 January 2005, which explained that in its figures, collated from some 180 hospitals:

> "Casualties of car bombs and other clearly identifiable terrorist attacks are recorded as being caused by terrorist incidents. All other casualties are recorded as military action. The casualties may include insurgents, civilians as well as Iraqi police who are treated in MOH hospitals. The casualties may have been killed or injured by terrorist or coalition forces. Coalition forces include Iraqi police, Iraqi security forces, and the Multi-National forces".

Kyrgyzstan

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK will be sending election observers to Kyrgyzstan for the election on 27 February. [218305]

Mr. Rammell: Yes. We have provided two long-term observers and 16 short-term observers to the OSCE/ODIHR election observation mission.

Saudi Arabia

Patrick Mercer: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of Prince Abdullah of Saudi Arabia's call for the UK to join Saudi Arabia in the establishment of an international centre for combating terrorism. [216815]

Mr. MacShane: We welcome HRH Crown Prince Abdullah's encouragement of greater international co-operation on counter-terrorism. The recent conference in Riyadh was of considerable political significance. The Saudi Government have promised a fuller explanation of their proposal for an international counter-terrorism centre. We will look at it seriously.

Sudan

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs whether there has been conflict between NATO and EU contingency plans for military intervention in the Sudan. [217795]

Mr. Mullin: The UN Security Council is currently planning for the establishment of a UN Peace Support Operation for Sudan to begin deployment in the next few weeks. There are no plans for any military intervention by either the EU or NATO but the EU are giving financial, logistical and technical assistance to the African Union Mission in Darfur.

Uganda

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of corruption in Uganda; what assistance is being given to Uganda to eliminate corruption; and if he will make a statement. [216126]

Mr. Mullin: Corruption continues to be a problem in Uganda. In September, the UK, along with other donor partners, raised the issue directly with President Museveni. We called on the Ugandan Government to tackle corruption more effectively, particularly with regard to its failure to act on high-profile corruption cases and the resulting detrimental impact corruption had on development and investment.

Fighting corruption is a priority for the UK development assistance programme in Uganda. Our work aims to enhance the institutional capacity of key anti-corruption agencies, and to develop a more efficient and co-ordinated approach to fighting corruption in Uganda.

West Papua

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 21 December 2004, *Official Report*, column 1626W, on West Papua, what format he expects a review of the Act of Free Choice for Papua to take; whether there is a timetable for the review; and if he will make a statement. [216368]

Mr. Alexander: The report of the special representative who oversaw the implementation of the UN backed 1969 Act of Free Choice resulting in West Papua becoming a province of Indonesia was accepted by a majority vote of the UN in November 1969. Any review of it is a matter between the UN and the Indonesian Government.

The British Government, together with other members of the international community, have continued to stress to the Indonesian Government at the highest level the need to fully implement the 2001 special autonomy law for Papua. This law allows for the establishment of a Truth and Reconciliation Committee to look at the incorporation of Papua into Indonesia in the 1960s.

CONSTITUTIONAL AFFAIRS

EU Committees

Angus Robertson: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the committee on the service in the member states of judicial and extrajudicial documents and co-operation between the courts of the member states in the taking of evidence in civil or commercial matters met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217814]

Mr. Lammy: There are two separate committees, one relating to the regulation on the service in the member states of judicial and extrajudicial documents and the other relating to the regulation on co-operation between the courts of the member states in the taking of evidence in civil and commercial matters. There have been no meetings of either committee during the Italian, Irish or Dutch presidencies. However there were two ad hoc meetings convened by the European Commission in Brussels on 17 July 2003 and 14 April 2004 to discuss the regulation on service at which the UK was represented by officials from the Department for Constitutional Affairs and the Scottish Executive.

European Constitution

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many questions were drafted and considered before the final text of the question for the referendum on approval of the EU Constitution was agreed; and if he will publish the shortlist of questions. [217184]

Mr. Lammy: The wording of the question was decided following collective agreement at ministerial level with relevant Departments.

We currently have no plans to publish material relating to the formulation and internal development of the Government's policy on the terms of the question.

High Court Judges

John Mann: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average age of current High Court judges is. [218038]

Mr. Lammy: As at 21 February 2005 there are currently 107 High Court judges in post, whose average age is 58 years and 8 months.

Training Budget

John Mann: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the total education and training budget of the Department is for 2005–06. [218036]

Mr. Lammy: The Departmental allocation for provision of staff education and training for 2005–6 is not yet available. I shall write to my hon. Friend the Member for Bassetlaw once the details of my Department's budget for staff training and education are available.

John Mann: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the training budget for *(a)* lay magistrates and *(b)* High Court judges is in 2005. [218037]

Mr. Lammy: Judicial training is the responsibility of the Judicial Studies Board (JSB), an independent body chaired by Lord Justice Keene. Training for magistrates is paid for and delivered at local level in 42 administrative areas. The budget for magistrates training is not ring-fenced and currently cannot be isolated from the overall grant allocation made by the Department for Constitutional Affairs to the Magistrates Courts Service. The JSB provides a core continuing professional education curriculum, the aim of which is to strengthen and deepen the skills and knowledge of existing judicial office-holders. High Court judges are invited to relevant continuation seminars. In addition, the JSB provides a programme of regular after-court seminars for the senior judiciary. There is no ring-fenced budget for High Court judges' training and the resources devoted to it can only be identified at disproportionate cost.

EDUCATION AND SKILLS

Cleaning Costs

Mr. George Osborne: To ask the Secretary of State for Education and Skills what the costs of cleaning the Department and its predecessors were in each year since 1997. [213833]

Derek Twigg: The total cost of cleaning the Department for Education and Skills Headquarter buildings both internally and externally are as follows:

Financial year	*Total cost (£)*
1997–98	543,580
1998–99	505,290
1999–2000	648,960
2000–01	624,290
2001–02	729,730
2002–03	793,370
2003–04	830,740

Disabled Access

Tom Cox: To ask the Secretary of State for Education and Skills whether all buildings in her Department within the Greater London area are fully accessible to disabled people; and if she will make a statement. [218201]

Mr. Stephen Twigg: I can confirm that both of the Department's buildings within the Greater London area are fully accessible to people with disabilities. Facilities for people with disabilities are considered to be an integral part of the Department's day-to-day operations and are a key consideration in all accommodation change programme/projects.

Doctorates

Sandra Gidley: To ask the Secretary of State for Education and Skills how many doctorates were awarded in each subject in each of the last three years, broken down by gender. [217111]

Dr. Howells: The latest available information is given in the table. A new method of coding subject was introduced on the Higher Education Statistics Agency (HESA) record in 2002–03, hence figures for 2002–03 onwards are not directly comparable to earlier years.

Doctorates obtained at UK HEIs, 2001–02

Subject	*Male*	*Female*	*Total*
Medicine and dentistry	710	675	1,385
Subjects allied to medicine	335	440	775

Higher Education Statistics Agency (HESA).

Education and Youth Council

Mr. Hood: To ask the Secretary of State for Education and Skills what the outcome was of the Education and Youth Council held on 21 February 2005; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [218159]

Mr. Ivan Lewis: I attended the Education and Youth Council on behalf of the United Kingdom. During the education part of the Council, we discussed the education and training aspects of the Lisbon mid-term review and adopted conclusions on the importance of education and training to Lisbon. The conclusions will be transmitted to the European Council and ask it to emphasise education and training in the Lisbon mid-term review, for example by calling on member states to have lifelong learning strategies in place by 2006 and by improving the exchange of good practice on education and training at European level. As part of the discussion, Commissioner Figel presented the Commission's communication on Lisbon and explained that it identified six key areas of work for Education Ministers; effective investment; national lifelong learning strategies; higher education; vocational training; European qualifications framework and the Youth Pact.

I tabled a paper setting out the UK position and also spoke to emphasise that growth and employment should be the focus of the Lisbon strategy and that achieving the Lisbon goals depended on investing effectively in education and skills, which was strongly supported. I also highlighted the importance of a flexible labour market and suggested that while it was important for the state to pay for basic skills, employers and individuals should invest in higher level skills. I also suggested that member states should work together on reforming higher education funding, discuss the use of ICT in delivering lifelong learning and collect evidence on the links between skills and productivity.

On the basis of presentations from experts, we held an exchange of views on how discussion did not lead to any conclusions but the presidency has asked the Commission to continue to look at these issues. I also tabled a paper under this item and explained that the UK was beginning to give schools more autonomy, but that school leadership was also a key element to success. I also noted, along with Italy, that we are developing an approach based on the principle of personalising the learning experience to the needs of the individual. On the issue of equal opportunities for all, I explained that financial incentives were being offered in the UK for pupils from lower income backgrounds to stay on in school after compulsory education.

During the youth part of the Council, we discussed and adopted conclusions on the youth aspects of the Lisbon mid-term review. The conclusions endorse the initiative proposed by France and supported by Germany, Sweden and Spain to establish an EU Youth Pact. I tabled a UK position paper and said that I saw the Youth Pact as an opportunity to demonstrate to young people that the EU is not simply a remote bureaucracy with no impact on their lives. The Pact should work towards eliminating youth unemployment, developing young people's skills and confidence to prepare them both professionally and personally and encouraging a positive approach to learning amongst young people. Commissioner Figel explained that the Commission would adopt a communication in May, which would outline their ideas for the content of the Pact.

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the second general system for the recognition of professional education and training met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [214309]

Dr. Howells: No meetings of the Committee on the second general system were held during the Italian and Dutch presidencies. A meeting was held during the Irish presidency on 23 April 2004, in Brussels, and the UK National Co-ordinator responsible for the general system was present.

Financial Education

Ms Walley: To ask the Secretary of State for Education and Skills what steps are being taken to include financial education as a compulsory element of the national curriculum. [217722]

Derek Twigg: In the 14–19 Education and Skills White Paper, the Department has set out our commitment to supporting financial capability education. In line with the emphasis on improving function skills set out in the White Paper and as part of the wider review of GCSE maths, we have asked the QCA to consider including financial capability more explicitly in the maths curriculum.

Personal finance education is covered in the curriculum through the non-statutory framework for Personal, Social and Health Education (PSHE), and through subjects such as Citizenship, Mathematics and Business Studies. The Department recognises the importance of financial education in enabling young people to develop the financial capability they need to make informed decisions.

Formal Consultations

Mr. Hoban: To ask the Secretary of State for Education and Skills how many formal consultation processes the Department has initiated since 1997. [217767]

Derek Twigg: My Department was established after the general election in 2001 and has initiated a total of 148 formal written consultations since then. Prior to 8 June 2001, the Department for Education and Employment (DfEE) conducted a total of 407 formal written consultations. A list of the initiatives my Department has consulted on since June 2001 can be found at: www.dfes.gov.uk/consultations/

Freedom of Information

Dr. Julian Lewis: To ask the Secretary of State for Education and Skills what her policy is in respect of the publication *(a)* on the departmental website and *(b)* by

placing copies in the Library of (i) all or (ii) only a selection of the information disclosed in response to Freedom of Information requests since January. [215195]

Derek Twigg *[holding answer 10 February 2005]*: "Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and NDPBs should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate"

The DfES has a publication scheme in place and the Department does intend to provide information of wider public interest released under the Freedom of Information (FOI) Act as an extension to the current scheme. Technical work is currently being undertaken to provide a disclosure log. The Department does not routinely place information in the Library and there are no proposals to amend this policy in the light of FOI.

Growth Areas (Funding)

Phil Sawford: To ask the Secretary of State for Education and Skills what funding her Department has earmarked for growth areas to ensure that they have the resources required to meet the demands of a growing population. [218328]

Derek Twigg: All local authorities are required to provide annual information as part of the Pupil Level Annual Schools Census (PLASC). This provides the Department with up-to-date information on pupil numbers, including forecast increases. PLASC data are used to calculate the allocation of funding to local authorities and schools which takes into account new pupil places in growth areas.

Higher Education (EU Nationals)

Mr. Clappison: To ask the Secretary of State for Education and Skills whether students from EU accession states will be eligible for *(a)* university bursaries and *(b)* higher education grant from 2006 onwards; and what estimate she has made of (i) the number of students from EU accession states likely to apply to UK universities and (ii) the proportion of such students eligible for the higher education grant. [217860]

Dr. Howells: It is for universities to decide who should be eligible for bursary schemes that they administer. EU students who are not migrant workers, or are not the spouse, civil partner or child of migrant workers, will not be eligible for the new £2,700 grant to be introduced from 2006/07 onwards. The Department does not produce projections of EU students from accession countries independently of the EU as a whole.

Mr. Clappison: To ask the Secretary of State for Education and Skills how many students from EU accession countries have obtained places at English universities in each year since 1997. [217957]

Dr. Howells: The available information on undergraduate entrants is taken from the Higher Education Statistics Agency (HESA) student record and figures are given in the table.

EU accession country[1] domiciled undergraduate entrants at English HE institutions[2], 1997/98 to 2003/04

Academic year	*Entrants*
1997/98	1,260
1998/99	1,400
1999/2000	1,585
2000/01	1,525
2001/02	1,555
2002/03	1,560
2003/04	1,885

[1] Includes Cyprus, the Czech Republic, Hungary, Malta, Poland, Estonia, Latvia, Lithuania, Slovenia and Slovakia.

[2] Figures exclude the OU.

Note:

Snapshot as at 1 December and figures are rounded to the nearest 5.

Source:

Higher Education Statistics Agency (HESA)

The Universities and Colleges Admissions Service (UCAS) have published figures for entry in 2004 which show that there were 2,422, applicants from EU accession countries accepted to full-time undergraduate courses at UK institutions.

Early figures for 2005 entry suggest that the number of applicants from the EU accession countries who have applied by the 15 January advisory early closing date has increased by 78.8 per cent. to 3,427 compared to 1,917 at the same point last year.

Maintenance Grants

Dr. Cable: To ask the Secretary of State for Education and Skills what the cost of the maintenance grant payable to poorer students was in the last year for which figures are available; and if she will make a statement. [216741]

Dr. Howells: The expenditure, including planned expenditure, on the Higher Education Grant in academic year 2004/05 to date is £91 million[1].

The HE Grant was introduced for new entrants into higher education in England and Wales in academic year 2004/05 to help cover the costs of participating in HE. The grant is fully means-tested and is non-repayable. The maximum grant in 2004/05 is £1,000 and is available to students with a family income of up to £15,200. Students with a family income between £15,201 and £21,185 will receive part of the grant.

[1] Provisional data as at 16 February 2005. Final data will be published in a Statistical First Release by the Student Loans Company in November 2005.

Dr. Cable: To ask the Secretary of State for Education and Skills if she will estimate the cost of educational maintenance allowance bonus payments in each year from 2003/04 to 2009/10; and if she will make a statement. [216743]

Mr. Ivan Lewis: Information on expenditure for the 2003/04 academic year relates to the last year of the pilots which ran three different models for bonus payments, all of which differed from the way bonuses work in the national scheme. Only a third of England

was covered and the scheme was administered by local education authorities. Within the overall expenditure on EMA pilots in 2003/04 it is estimated that some £21.5 million was spent on bonuses.

In the national scheme young people studying a two-year course may receive up to £500 in bonuses as long as they make good progress in their studies and they return to study after Christmas and summer holidays.

Estimated costs for each academic year of the national scheme are available up to 2007/08 and assume that the current model and assumptions continue unchanged, for example it is assumed that 75 per cent. of young people on EMA will receive bonuses. These estimated costs, which take account of the phased implementation are as follows.

	£
2004/05	43,521,000
2005/06	78,425,000
2006/07	86,598,000
2007/08	85,550,000

Overseas Students

Mr. Cousins: To ask the Secretary of State for Education and Skills how many overseas students there were at each university in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05; and what percentage of the student body this represented in each case. [216488]

Dr. Howells: The available information is shown in the following table.

Enrolments by overseas[1] students to UK HEIs by Institution

	2001-02		2002-03		2003-04	
	Number	Percentage	Number	Percentage	Number	Percentage
Anglia Polytechnic University	2,480	11	2,075	9	2,250	10

HESA

Mr. Martyn Jones: To ask the Secretary of State for Education and Skills what assessment she has made of certain universities' plans to increase the number of overseas students; what plans she has to ensure that these plans do not affect the Government's plans for getting more pupils from mainstream state schools into those universities; and if she will make a statement. [216662]

Dr. Howells: The Government recognise the importance of overseas students to the UK. They provide significant benefits to the economy and to individual institutions and we want that to continue. However, as self-governing bodies, universities and higher education colleges are responsible for their own admission decisions. It is up to each institution to decide on the proportion of overseas students it plans to recruit. This does not affect the overall position of home students. Throughout the UK overseas students are recruited in addition to home students and the Government remain committed to widening participation in higher education. We continue to believe that all those who have the potential to benefit from higher education should have the opportunity to do so.

Race Relations (Amendment) Act

Mr. Dhanda: To ask the Secretary of State for Education and Skills how many *(a)* local education authorities and *(b)* universities have (i) complied with their statutory duties under the Race Relations (Amendment) Act 2000, (ii) published a race equality scheme and action plan and (iii) carried out race impact assessments. [216548]

Dr. Howells: The Department is not responsible for ensuring or monitoring the compliance of local education authorities or higher education institutions (HEIs) with requirements arising from the Race Relations (Amendment) Act 2000, and so does not hold such information.

Under the Act, the Commission for Racial Equality (CRE) monitors compliance and enforces specific duties. A CRE news release on the findings of its survey of the progress of Britain's public bodies towards putting the legislation into practice is available at http://www.cre.gov.uk/media/nr_arch/2003/nr030703.html.

The Higher Education Funding Council for England (HEFCE) has a responsibility to ensure that the HEIs it funds comply with the Act. HEFCE undertook a sector-wide review of race equality policies in October 2002, followed up by two further reviews (in May 2003 and May 2004) in which it revisited those policies which had not originally met CRE's standards. A HEFCE report on the outcomes of this review process is available at http://www.hefce.ac.uk/Pubs/rdreports/2004/rd09_04/.

Specialist Schools

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will list the specialist schools closed since 1997, broken down by *(a)* local education authority and *(b)* constituency. [217766]

Mr. Stephen Twigg: Since 1997 three specialist schools have closed for the following reasons:

Westlands High (Cheshire LEA, Congleton Constituency, Technology College)

Westlands School closed with two other schools (Dane Valley and Heathfield) as part of a local reorganisation in 2000 and two new schools opened in their place, Congleton High (Engineering College from 2004) and Eaton Bank School (Maths and Computing College from 2004).

Merlyn Rees (Leeds LEA, Leeds Central Constituency, Arts College)

Closed with Matthew Murray High in 2003 to form a new school, South Leeds College (not currently a Specialist School).

Coney Green (Bury LEA, Bury South Constituency, Technology College)

Coney Green closed with Radcliffe High in 2004 to form a new school, Radcliffe Riverside School (Technology College from 2004).

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Education and Skills what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215090]

Derek Twigg: The cost of producing a staff identity pass in the Department for Education and Skills is £1.87. This is made up of material costs at 0.50 pence and staff costs at £1.37. The number of staff identity passes that have been reported lost or stolen in each year since 1997 are:

	Number of passes
1997	[1]19
1998	[1]34
1999	[1]25
2000	[1]73
2001	163
2002	200
2003	434
2004	99
2005	10

[1] Partial numbers only due to records not retained.

Stationery

Mr. George Osborne: To ask the Secretary of State for Education and Skills how much the Department and its predecessors spent on *(a)* stationery and *(b)* office supplies in each year since 1997. [213852]

Derek Twigg: The Department for Education and Skills has national contracts for the provision of stationery and office supplies, with purchasing delegated to management level. Our accounting system does not make a distinction between stationery and office supplies. Information regarding expenditure is shown in the following table:

Financial year	*Total expenditure on stationery and office supplies (£)*
1997–98	930,031
1998–99	956,745
1999–2000	1,107,350
2000–01	1,184,931
2001–02	1,232,297
2002–03	1,015,163
2003–04	951,448

Student Debt

Annabelle Ewing: To ask the Secretary of State for Education and Skills what research her Department has undertaken on whether student loans are a disincentive to *(a)* mature students and *(b)* students from ethnic minority backgrounds to entering further and higher education. [217551]

Dr. Howells: The Department has published the following studies that have investigated the factors, including cost and attitudes to debt, that influence whether mature people and people from minority ethnic groups decide to enter higher education:

"Why The Difference? A Closer Look at Higher Education Minority Ethnic Students and Graduates" 2004 DfES Research Report 552.

"For Me or Not For Me? That is the Question: A Study of Mature Students' Decision- Making and Higher Education" 2002 DfES Research Report 297

"Potential mature student recruitment to HE" 2002 DfES Research Report 385

These reports can be downloaded from the Department's research internet site at http://www.dfes.gov.uk/research/. They show that debt and cost are one of several factors people consider when deciding whether or not to participate in higher education.

All minority ethnic groups and mature people are well-represented in higher education. For example, all minority ethnic groups are estimated to have a higher higher education initial participation rate (HEIPR) than whites while mature students now comprise over three fifths of the student population.

The Department has not commissioned research on whether student loans deter mature people and people from minority ethnic groups from entering FE. FE students are not eligible for student loans.

Annabelle Ewing: To ask the Secretary of State for Education and Skills how much her Department allocated to the Student Loans Company in 2004–05. [217560]

Dr. Howells: The Student Loans Company's total resource budget provided by the DfES was £46 million for financial year 2004–05. Outturn against budget is reported each year in the Department's Annual Report which can be accessed on http://www.dfes.gov.uk/deptreport2004/, and in the company's own annual report at http://www.slc.co.uk/frames/corpinfo/fset.html.

Annabelle Ewing: To ask the Secretary of State for Education and Skills how many deferral applications the Student Loans Company has received in each year of its operation; and what percentage this represents of all students due to repay in each year. [217562]

Dr. Howells: Deferral of payment only occurs for the mortgage-style loans. The table shows the numbers of UK borrowers with publicly owned mortgage-style loans due to be repaid, numbers deferring, and deferrals as a percentage of those in repayment status, at the end of each financial year.

Borrowers (thousands)

Financial year[1]	*In repayment status*	*Deferring*	*Percentage deferring*
1992–93	54	23	43
1993–94	138	61	44
1994–95	263	122	46
1995–96	429	207	48
1996–97	623	312	50
1997–98	758	361	48
1998–99[2]	627	287	46
1999–2000[2]	514	232	45
2000–01	623	293	47
2001–02	759	373	49
2002–03	793	374	47
2003–04[3]	750	336	45

[1] The number of those in deferment before 1992–93 was negligible.
[2] Two tranches of student loans were sold to the private sector, in March 1998 and March 1999, this accounts for the reduction in the number of borrowers shown in the table in the following years.
[3] Provisional.

Source:
Student Loans Company

Income-contingent loans were introduced from the start of the academic year 1998/99. There is no concept of deferment for those with income-contingent loans who repay through the tax system—repayments are not collected from those below the earnings threshold.

Annabelle Ewing: To ask the Secretary of State for Education and Skills how many default notices the Student Loans Company has issued in each year of its operation; and what percentage this represents of all students due to make repayments in each year. [217563]

Dr. Howells: The Student Loans Company only issues Notices of Default (NODs) after a few months of arrears when initial attempts at contact have failed. Therefore not all borrowers behind with payments are issued with NODs. In addition some borrowers may be issued with more than one NOD. Therefore it is not possible to calculate the number of borrowers in receipt of NODs as a percentage of the total number of borrowers in repayment status. Data are readily available only for the past three years.

	NODs issued
2002/03 April–March	226,299
2003/04 April–March	188,897
2004/05 April–February	99,474

Annabelle Ewing: To ask the Secretary of State for Education and Skills if she will commission research to determine what percentage of student debt is a consequence of the introduction of the student loans system. [217565]

Dr. Howells: Increases in average personal student debt, including estimates of student loan debt, have been recorded in periodic student income and expenditure surveys (SIES) in the period since student loans were first introduced; and a further survey is being conducted at the present time, with publication of the report in late 2005. According to the latest published SIES, for 2002/03, outstanding average student loan debt for final year students totalled £8,052 which was 85 per cent. of their total average borrowings of £9,512. However, final year students on average had savings of £846 reducing their average indebtedness to £8,666. Figures for average student loan debt are also available from the Student Loans Company.

Annabelle Ewing: To ask the Secretary of State for Education and Skills how many student loans debts have been written off in each of the last five years; and what the total cash value of the deleted debt was. [217566]

Dr. Howells: The table shows the numbers of UK borrowers with publicly-owned student loans written-off in financial years 1999–2000 to 2003–04 and the amounts written-off. This includes borrowers with mortgage-style loans and those with income-contingent loans.

	Financial year				
	[1]*1999–2000*	[2]*2000–01*	[2]*2001–02*	[2]*2002–03*	[2]*2003–04*
Borrowers[3]	900	600	900	1,100	1,200
Amount written-off (£ million)	1.2	1.1	1.4	2.6	3.2

[1] Figures for 1999–2000 include some transactions which relate to the previous financial year.
[2] Provisional
[3] Borrowers who had at least one loan account written-off during the financial year.

Source:
Student Loans Company

The introduction of income-contingent student loans in 1998–99 has meant the amount of student loan paid out has increased, and consequently the amounts written-off are larger. The first cohort with income-contingent loans on three year courses entered repayment status in April 2002.

Annabelle Ewing: To ask the Secretary of State for Education and Skills what research her Department has undertaken to assess the impact of Student Loans on students from less affluent backgrounds entering further and higher education. [217567]

Dr. Howells: In March 2001 the Department published a research entitled "Social Class and Higher Education: Issues Affecting Decisions on Participation by Lower Social Class Groups" by Connor, H. Dewson, S. Tyers, C. Eccles, J. Regan, J. and Aston, J. This can be downloaded from the Department's research internet site at http://www.dfes.gov.uk/research/.

This found that finance is one of a number of concerns people had when they were deciding whether or not to attend university. However, among qualified young people who had decided not to go to university the main reason was not related to the likely costs involved but because they wanted to start work or because they did not need a higher education qualification for their chosen career.

The Youth Cohort Study shows that differences in participation rates between different social class groups largely reflect differences in prior attainment. The Department has not commissioned research on whether student loans deter people from less affluent backgrounds from entering FE. FE students are not eligible for student loans.

TRADE AND INDUSTRY

Carbon Dioxide Reduction

Adam Price: To ask the Secretary of State for Trade and Industry what the projected reduction in carbon dioxide levels by 2010 will be if Government renewable energy targets are met. [217505]

Mr. Mike O'Brien: The Government's 2010 target of 10 per cent. energy coming from renewable sources would mean a reduction of 2.5 million tons of carbon dioxide per year over the same energy being produced by gas powered stations.

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Trade and Industry how many gyms are available to staff in the Department; and what the cost of providing them was in the last year for which figures are available. [204376]

Ms Hewitt: The Department of Trade and Industry has one gymnasium at 1 Victoria Street for the use of members of the DTI Sports and Social Association. The Department does not incur any direct costs for this facility.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Republic of South Africa Joint Committee on scientific and technological co-operation met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215904]

Ms Hewitt: The last meeting of the EU-South Africa Steering Committee took place in Brussels on 2 and 3 December 2003 during the Italian presidency. Meetings are convened by the European Commission, and the member states are not invited, therefore no UK officials attend.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the multiannual community programme to stimulate development and use of European digital content on the global networks and to promote linguistic diversity in the information society (e-Content) met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217253]

Ms Hewitt: The Committee for the implementation of the multiannual community programme to stimulate development and use of European digital content (e-Content) met three times during the course of the three presidencies (on 11 July 2003, 21 November 2003, 30 September 2004). The meetings took place in Luxembourg and on each occasion the United Kingdom was represented by an official from the Digital Content and Publishing Unit of the Department of Trade and Industry.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee for implementation of the Community market-access strategy met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217835]

Mr. Alexander: The committee met once during each presidency in Brussels on 21 November 2003, 30 June 2004 and 30 November 2004. Officials from the Department of Trade and Industry attended each meeting.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Co-ordinating Group for the Community regime for the control of exports of dual-use goods met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217839]

Nigel Griffiths: The Co-ordinating group met once on 6 November 2003 in Brussels during the Italian presidency. A DTI representative was present at the meeting. There were no meetings during the Irish and Dutch presidencies.

Angus Robertson: To ask the Secretary of State for Trade and Industry (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Quota Administration Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217915]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on Common Rules for Imports of Products from Third Countries met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217916]

(3) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on Common Rules for Imports from Certain Third World Countries met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217917]

(4) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Textile Committee (Conventional Regime) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217919]

(5) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on Common Rules for Imports of Textile Products from Certain Third Countries (autonomous regime) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217834]

Mr. Alexander: These committees are not recognised under the titles given. Matters relating to EU quotas would have been discussed in either the "Textile Management Committee" (for textiles) or the EU Regulation Committee (for the EU's Chinese non textile dti quotas). Committee meetings are held in Brussels and would have been attended by a representative of the Department of Trade and Industry.

External Consultants

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much UK Trade and Investment was spent on external consultants and advisors in each of the last three years. [210280]

Ms Hewitt: To date UK Trade and Investment's records show spend of £4.3 million in the current financial year (2004–05) on external consultancy and advice. Spend recorded under the same heads in 2003–04 amounted to £5.7 million. Comparable data are not available for 2002–03.

The largest element of the spend reflects the costs of providing specialist sector and market advice and specialist developmental and training support to SMEs, particularly new to export and new to market companies. Spend in these categories amounted to £2.6 million in 2003–04 and £2.8 million to end January in the current financial year. The cost of marketing support services to UK Trade and Investment—such as project management of events, promotional campaigns and marketing development—amounted to £1.4 million in 2003–04; and is £0.6 million so far this year.

Gas

Mr. Gill: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of changes in wholesale gas prices on the ability of the UK to meet its carbon dioxide reduction targets. [217491]

Mr. Mike O'Brien: Some exploratory analysis of the impact of CO_2 prices on emissions has been produced and reported as part of a November 2004 DTI publication on updated emissions projections. Carbon price analysis can be found at annex 7 of the report. The analysis does not explicitly examine gas price or fuel price differential scenarios but it is noted that the impact of CO_2 prices can be sensitive to the background assumptions, such as energy prices and power station efficiencies. Higher gas prices will tend to require higher carbon prices in order to meet required emission reductions. The report is available electronically:

http://www.dti.gov.uk/energy/sepn/uep2004.pdf

Annex 2a of this report shows the background assumptions for fuel prices.

Hydrogen Fuel

Mr. Weir: To ask the Secretary of State for Trade and Industry what assessment she has made of the *(a)* environmental and *(b)* financial effects of the use of hydrogen fuel for (i) transport and (ii) other users. [218059]

Mr. Mike O'Brien: In 2004, the Department for Trade and Industry commissioned E4tech and others to undertake a study of how the UK might develop a strategic framework for hydrogen energy activities in the UK. The study considers the costs and environmental benefits of a number of possible hydrogen energy chains, and concludes that by 2030 six hydrogen energy transport chains could provide cost-competitive CO_2 reductions and greater energy security. Further details of the work are available via the DTI's website at http://www.dti.gov.uk/energy/sepn/hydrogen_framework_full.pdf. The Government will be considering the study's recommendations carefully, and will publish these, together with a considered response, shortly.

The financial and environmental impacts of the use of hydrogen as a road transport fuel were also addressed in a report published by the Government in July 2004. This report, which is available at www.dti.gov.uk/energy/sepn/futuretransport.shtml, considered issues such as how much hydrogen might be needed to fuel all UK road transport by 2050, and what the impacts of this might be on the UK's wider energy and other policies.

Mr. Weir: To ask the Secretary of State for Trade and Industry what financial support *(a)* has been and *(b)* will be made available to support the development of hydrogen fuel cell technologies in each of the last five years; and if she will make a statement. [218060]

Mr. Mike O'Brien: In the last five years the Government provided funding averaging £1.5 million a year for research, development and demonstration projects into hydrogen fuel cell technology, as well as over £450,000 for a trial of three hydrogen-powered buses in London. The Government have also recently announced up to £7.5 million of funding for a low carbon and fuel cell technologies centre of excellence, which will open in Loughborough later this year.

Mr. Weir: To ask the Secretary of State for Trade and Industry when she expects to publish the report produced by E4tech for her Department on hydrogen fuel technologies. [218061]

Mr. Mike O'Brien: In 2004, the Department for Trade and Industry commissioned E4tech and others to undertake a study of how the UK might develop a strategic framework for hydrogen energy activities in the UK. The study considers the costs and environmental benefits of a number of possible hydrogen energy chains, and concludes that by 2030 six hydrogen energy transport chains could provide cost-competitive CO_2 reductions and greater energy security. Further details of the work are available via the DTI's website at http://www.dti.gov.uk/energy/sepn/hydrogen_framework_full.pdf. The Government will be considering the study's recommendations carefully, and will publish these, together with a considered response, shortly.

Mr. Weir: To ask the Secretary of State for Trade and Industry what assessment she has made of the economic value of hydrogen fuel technologies to *(a)* Scotland and *(b)* the UK in (i) five, (ii) 10 and (iii) 20 years' time. [218062]

Mr. Mike O'Brien: The study by E4tech, Element Energy and Eoin Lees Energy[1] looks at the 2030 timeframe, but mainly from an energy policy perspective. It concludes that by 2030; six hydrogen energy chains could provide cost-competitive CO_2 reductions and enhanced energy security. The Renewables Innovation Review[2] concluded that fuel cells could provide significant economic benefits for the UK by 2020, estimated at annual revenues of £1.8 billion per annum as a share of a global market of £50 billion per annum. The report does not provide a separate breakdown for Scotland.

[1] http://www.dti.gov.uk/energy/sepn/hydrogen_framework_full.pdf
[2] http://www.dti.gov.uk/energy/renewables/policy/renewables_innovation_review.shtml

Mr. Weir: To ask the Secretary of State for Trade and Industry what assessment she has made of the PURE hydrogen fuel cell project in Unst; and if she will make a statement. [218058]

Mr. Mike O'Brien: I am aware of the PURE hydrogen fuel cell project in Unst, although my Department has not made any formal assessment of the project.

As I said in the adjournment debate on 20 December 2005, *Official Report*, columns 2043–46, I would be interested in visiting the Shetland Isles to see the developments taking place at a suitable time.

Mr. Weir: To ask the Secretary of State for Trade and Industry what assessment she has made of the *(a)* environmental impact and *(b)* financial cost of small scale hydrogen fuel cell projects where the hydrogen fuel is created from (i) mains electricity, (ii) wind turbines and (iii) solar power. [218050]

Mr. Mike O'Brien: The study by E4tech, Element Energy and Eoin Lees Energy[1] reports the modelling of the cost and CO_2 performance of a number of hydrogen energy chains, using a range of data sources which closely match the Markal model used to underpin the Energy White Paper. The study suggests that by 2030 six hydrogen energy transport chains could provide cost competitive CO_2 reductions and enhanced up-stream energy security. The use of hydrogen for stationary power generation and heat did not in general meet these criteria, but hydrogen could be useful in situations where there are substantial renewable energy sources but the export of electricity is constrained (e.g. the Western Isles).

[1] http://www.dti.gov.uk/energy/sepn/hydrogen_framework_full.pdf.

Internet (Premium Rate Services)

Mr. Edward Davey: To ask the Secretary of State for Trade and Industry how many incidences of consumers unwittingly using premium rate services when accessing the internet have been recorded in the past 12 months, and how many resulted in *(a)* prosecution and *(b)* compensation. [217526]

Mr. Mike O'Brien: About 80,000 complaints have been recorded by the Premium Rate Regulator the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS) in the last 12 months. ICSTIS has no powers to prosecute, but can order redress to be paid to those consumers who claim it, and in these cases redress is paid by the offending service provider. However ICSTIS holds no records of the number of successful claims.

Langage Power Station

Mr. Streeter: To ask the Secretary of State for Trade and Industry whether the licence granted for a power station at Langage, Plymouth, is conditional upon the developer establishing an energy park adjacent thereto. [218056]

Mr. Mike O'Brien: The power station consent is not dependent on the establishment of an energy park. The energy park is the subject of a separate agreement between South Hams district council and the developer which is legally binding on the current owner or any future buyer.

Legal Expenditure

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the expenditure by her Department on legal fees was in each year since 1997. [213214]

Ms Hewitt: My Department spent just under £5 million in 2003–04 procuring legal advice on commercial matters from private sector firms. The vast majority of these costs relate to the restructuring of

British Energy and British Nuclear Fuel Limited and £1.5 million was recovered by the Department. It has not been possible to provide comparable figures prior to this without disproportionate cost, due to a fundamental change in the Department's accounting systems in 2003. However, the legal costs for BE and BNFL have been falling since 2003–04 and will eventually cease (probably by 2006–07).

Mobile Phones (Health Implications)

Dr. Stoate: To ask the Secretary of State for Trade and Industry (1) what progress she has made in implementing the recommendations of the National Radiological Protection Board report, mobile phones and health 2004; and if she will make a statement; [217694]

(2) what steps she has taken *(a)* to clarify and *(b)* to make more information available about legal responsibilities and regulations in relation to the installation of microcells and picocells as recommended by the National Radiological Protection Board report, mobile phones and health 2004; [217695]

(3) how she intends to help minimise exposure to radio waves of the potentially vulnerable sub-groups identified in the National Radiological Protection Board report, mobile phones and health 2004. [217698]

Mr. Mike O'Brien: The Government welcomed the timely review undertaken by the National Radiological Protection Board which was published on 11 January 2005. The report made many recommendations about mobile phones and health. We are studying the recommendations and will make a response once we have considered them fully.

Nuclear Industry Safety

Mr. Dalyell: To ask the Secretary of State for Trade and Industry what representations she has had from *(a)* the Nuclear Safety Advisory Committee and *(b)* the Health and Safety Advisory Committee in relation to safety in the dismantling of nuclear power stations. [217763]

Mr. Mike O'Brien *[holding answer 24 February 2005]:* The Chair of the Health and Safety Commission wrote to me on 18 November 2004 raising some concerns about the pace of competition for nuclear site management for which the NDA will be responsible from 1 April. I have responded to that letter and a copy of the correspondence has been placed in the House of Commons Library.

Llew Smith: To ask the Secretary of State for Trade and Industry when she expects to publish the latest annual nuclear material unaccounted for data for United Kingdom civil nuclear installations; what discussions *(a)* her Department, *(b)* BNFL and *(c)* the UK Atomic Energy Authority has had with (i) the Euratom Safeguards Directorate and (ii) the International Atomic Energy Agency on the verification of the data; and if she will make a statement. [217606]

Mr. Mike O'Brien: The United Kingdom Atomic Energy Authority, British Nuclear Fuels plc and Urenco (Capenhurst) Ltd. published nuclear material unaccounted for data for 2003–04 on 17 February 2005. Prior to publication, the industry wrote to the European Commission's Safeguards Directorate and the International Atomic Energy Agency to ensure that the figures to be published were reconciled with safeguards reports made under Commission Regulation 3227/76. This correspondence was conducted through the Safeguards Office in my Department. BNFL and the Safeguards Office are currently in discussion with the European Commission to resolve measurement issues that have been identified in certain aspects of nuclear material accountancy at Sellafield.

Llew Smith: To ask the Secretary of State for Trade and Industry if she will ask the European Commission to publish the letters on Euratom safeguards inspections at Sellafield, to which she referred in her answer of 19 April 2004, *Official Report*, column 73. [217604]

Mr. Mike O'Brien: No but the European Commission provides annual reports on its Euratom safeguards activities, the most recent of which (COM(2004) 861) was published by the Commission on 13 January 2005 and covered safeguards activities during calendar year 2003.

Offshore Wind Programme

Adam Price: To ask the Secretary of State for Trade and Industry if she will make a statement on the value of offshore capital funding following the SR04 spending review. [217512]

Mr. Mike O'Brien: To date a total of £117 million in capital grants has been committed to round 1 offshore wind farms. A further £50 million has been allocated to support wave and tidal demonstration projects.

Adam Price: To ask the Secretary of State for Trade and Industry how many rounds of funding will be available as part of the Government's offshore wind programme. [217513]

Mr. Mike O'Brien: To date there have been three rounds of capital grant funding made available for offshore wind.

Adam Price: To ask the Secretary of State for Trade and Industry what criteria are used to determine capital grant funding for the offshore wind programme. [217514]

Mr. Mike O'Brien: The criteria for determining eligibility for the last round of capital grants for offshore wind projects can be found at www.dti.gov.uk/energy/renewables/support/guidance_notes.pdf.

Renewables

Adam Price: To ask the Secretary of State for Trade and Industry what account was taken of the recent Renewables Innovation Review in planned expenditure on renewables up to 2010; and if she will make a statement. [217509]

Mr. Mike O'Brien: The Renewables Innovation Review was one of the major pieces of work used by the Government to shape their expenditure plans for renewable energy over the period 2005–08. In total the Government have allocated over £500 million to emerging renewables and low carbon technologies over the period 2002–08 in the form of R&D and spending for capital grants.

Research and Development (Expenditure)

Mrs. Anne Campbell: To ask the Secretary of State for Trade and Industry what expenditure her Department and its agencies have made on research and development with overseas government laboratories or research establishments, including collaborative government funded laboratories and research establishments in each financial year since 2001–02. [201361]

Ms Hewitt: The Department funds research and development with overseas government laboratories and research establishments through the UK Research Councils. A breakdown of significant international subscriptions and funding for overseas research centres by the Research Councils for each financial year since 2001–02 is given in the following table.

Breakdown of international subscriptions by the Research Councils (£ million)

Research Council	*Organisation/Activity*	*2001–02*	*2002–03*	*2003–04*
EPSRC	Institut Laue-Langevin (ILL)	7.5	8.7	—
	European Synchrotron Radiation Facility (ESRF)	5.0	5.5	—
	European Science Foundation	0.1	0.2	0.2
Total		12.6	14.4	0.2
CCLRC	Institut Laue-Langevin (ILL)	—	—	10.8
	European Synchrotron Radiation Facility (ESRF)	—	—	6.1
Total		0.0	0.0	16.9
MRC	European Molecular Biology Conference	1.3	1.1	0.3
	European Molecular Biology Laboratory	4.3	5.7	5.9
	International Agency for Research on Cancer	0.9	0.8	0.6
	Human Frontier Science Programme	0.5	0.8	1.0
	Gambia and Uganda centres	12.8	13.5	14.2
Total		19.8	21.9	22.0
NERC	Ocean Drilling Programme (ODP)	2.0	2.0	1.0
	Integrated Ocean Drilling Programme (IODP)	—	—	0.7
	European Space Agency	—	—	46.3
	European Science Foundation	—	0.1	0.2
	New Initiatives	—	—	0.5
Total		2.0	2.2	48.6
PPARC	European Space Agency	28.7	34.5	46.9
	Anglo-Australian Telescope	1.3	1.3	1.5
	European Incoherent Scatter Facility (EISCAT)	0.5	0.5	⩾0.6
	European Organisation for Nuclear Research (CERN)	69.4	68,9	73.1
	European Southern Observatory (ESO)	—	10.7	15.0
	European Science Foundation	0.1	0.1	0.1
Total		100.0	116.0	137.2
Total		134.5	154.6	208.1

Note:
From 2003–04 responsibility for both ILL and ESRF have transferred to CCLRC from EPSRC

Mrs. Anne Campbell: To ask the Secretary of State for Trade and Industry what expenditure her Department and its agencies has made on research and development by private sector companies in each financial year since 2001–02. [201362]

Ms Hewitt: The Department supports research and development by private sector companies through a number of funding streams including the industrial exploitation of science, support for competitiveness and renewable energy. Total funding for financial years 2001–02 and 2002–03 are given in the table. Final figures for the financial year 2003–04 are not yet available.

	£ million
2001–02	382.5
2002–03	451.3

Mrs. Anne Campbell: To ask the Secretary of State for Trade and Industry what expenditure has been made by her Department and its agencies on research and development relating to the UK university departments and research centres in each financial year since 2001–02. [201363]

Ms Hewitt: The Department through the seven research councils funds research and development in UK university departments and in research council centres and institutes. Total funding in each financial year since 2001–02 was as follows.

£ million

	UK university departments	*Research council institutes*
2001–02	774	500
2002–03	813	545
2003–04	799	522

These figures do not include funding of £675 million from the science budget between 2001–02 and 2003–04 to support both science research infrastructure and knowledge transfer from universities and research council institutes.

Russian Economic Forum

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry whether *(a)* she and *(b)* members of her Department plan to visit the Russian Economic Forum in London from 10 to 12 April. [217603]

Mr. Alexander: My right hon. Friend the Secretary of State has no plans at present to attend the Russian Economic Forum but officials will do so.

Special Advisers

Mr. Tyrie: To ask the Secretary of State for Trade and Industry what role is fulfilled by the third special adviser in her Department. [210488]

Ms Hewitt: Special advisers in this Department are appointed under the terms and conditions set out in the code of conduct for special advisers.

Mr. Tyrie: To ask the Secretary of State for Trade and Industry if she will list the speeches her special advisers made in an official capacity between 31 March 2003 and 31 March 2004, broken down by date. [210555]

Ms Hewitt: None. All meetings held by special advisers and all speeches given by special advisers are conducted in accordance with the requirements of the code of conduct for special advisers.

Wind Turbines

Adam Price: To ask the Secretary of State for Trade and Industry what estimate she has made of the levels of carbon dioxide reduction achieved by the current stock of wind turbines. [217506]

Mr. Mike O'Brien: We have not made an estimate of carbon dioxide reductions from the current stock of wind turbines. However, according to the BWEA figures there are currently 1,186 turbines producing 888.8 MW and saving 2,010,000 tonnes of carbon dioxide a year over the same energy produced by coal powered stations.

Adam Price: To ask the Secretary of State for Trade and Industry when the ETSU W/13/00921 REP report on low frequency noise and vibrations was compiled; what size turbines were studied; and if she will make a statement. [217508]

Mr. Mike O'Brien: Assuming the reference to ESTU W/13/00921 means the ETSU 97 "The Assessment and Rating of Noise from Wind Farms" which was published in September 1996. The turbines studied for the report were 450 kW machines at St. Breock in Cornwall.

Adam Price: To ask the Secretary of State for Trade and Industry what reduction in carbon dioxide emissions is expected from the proposed wind turbine programme. [217510]

Mr. Mike O'Brien: As stated in my answer to question 217505 Government's renewable target of 10 per cent. of energy from renewable sources by 2010 would mean a reduction, per year, of 2.3 million tons of carbon dioxide over that same energy being produced by gas. The 10 per cent. target relates to all renewable technologies. The Government do not have a wind turbine programme. The support being provided by Government for renewables under the RO is technology neutral.

NORTHERN IRELAND

Anti-social Behaviour Orders

Lady Hermon: To ask the Secretary of State for Northern Ireland how many antisocial behaviour orders have been issued in Northern Ireland since their introduction; and if he will make a statement. [218240]

Mr. Spellar: ASBOs were introduced to Northern Ireland on 25 August 2004. The relevant authorities who may apply for antisocial behaviour orders (ASBOs)—the police, the Housing Executive and councils—have received guidelines and training on using ASBOs. These agencies are currently in the process of gathering evidence for potential ASBO applications, but to date none have yet gone to court.

Fair Employment and Treatment Order

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how many times the Equality Commission has used its powers of investigation under Article 11 of the Fair Employment and Treatment Order 1998; and if he will make a statement. [216671]

Mr. Spellar: The Equality Commission has not conducted an investigation under Article 11 of the Fair Employment and Treatment (Northern Ireland) Order 1998 (FETO) but rather works with employers through Article 55 FETO review mechanisms in pursuit of fair participation.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how many times the Equality Commission has used its powers in relation to contract compliance under Articles 62 to 66 of the Fair Employment and Treatment Order 1998; and if he will make a statement. [216672]

Mr. Spellar: Since its creation in 1999 the Equality Commission has not served a notice that an employer is not qualified within the meaning of Articles 62 to 66 of the Fair Employment and Treatment (Northern Ireland) Order 1998.

Homelessness

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the timetable is for action following the consultation on homelessness; and what steps will be taken once the consultation is completed. [217768]

Mr. Spellar: The Department for Social Development is currently considering the responses it has received to the consultation document "Promoting the Social Inclusion of Homeless People: Addressing the Causes and Effects of Homelessness in Northern Ireland". To date 48 responses have been received. In view of the importance attached to addressing homelessness, an extension was granted to the deadline for responses in order to facilitate a number of organisations. I expect to receive the Department's recommendations for future action by the autumn of 2005.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what resources have been earmarked for the implementation of the homeless strategy. [217769]

Mr. Spellar: I understand that the question refers to the strategy being developed by the interdepartmental, cross-sectoral Working Group set up to address the issue of homelessness in the context of promoting social inclusion. The Working Group's remit is to consider how Government Departments, agencies and non-departmental public bodies can best work together to ensure that the risk of homelessness is reduced and that the full range of appropriate services is available to homeless people. The strategy being developed by the Working Group, which must be affordable and deliverable, will aim to ensure that better services are delivered by using existing resources in a more joined-up way. However, the Housing Executive is currently spending almost £30 million per year on temporary accommodation and other services for the homeless.

Housing

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many housing executive staff have been seconded to assist local communities and residents groups in each Northern Ireland constituency since 2001; what the length of secondment was in each case; and what the cost of each secondment was. [217503]

Mr. Spellar: A total of 13 staff were seconded to a variety of groups to assist local communities at no cost to the Housing Executive as the salaries were recouped from the organisations concerned. The work of many of these groups would cross constituency boundaries and could not therefore be categorised by constituency. The following table provides the names of the groups, the areas which they serve and shows the period of secondment:

Seconded to	*Area*	*Dates to-from*
Making Belfast Work	All Belfast	July 1996-March 2003
Making Belfast Work	All Belfast	September 1996-March 2003
Making Belfast Work	All Belfast	March 1997-October 2001
North Belfast Partnership Board	North Belfast	May 2000 to date
South Belfast Partnership Board	South Belfast	November 2000-March 2004
North Belfast Community Action	North Belfast	January 2003-January 2004
North Belfast Community Action	North Belfast	January-May 2003
First Housing Aid and Support Service	Londonderry	June 2003-October 2004
North Down Local Strategy Partnership	Bangor	December 2003 to date
North Belfast Community Action	North Belfast	February-August 2004
North Belfast Partnership	North Belfast	February 2004 to date
West Belfast Partnership Board	West Belfast	July 2004 to date
Colin Neighbourhood Renewal	West Belfast	November 2004 to date

Police Service (Protestant Applicants)

David Burnside: To ask the Secretary of State for Northern Ireland how many Protestant applicants who qualified to join the Police Service of Northern Ireland have been rejected since its establishment because of the 50:50 sectarian recruitment procedures. [214228]

Mr. Pearson: We have been extremely encouraged by the fact that 37,957 applications have been made from across the whole community, to join PSNI as a trainee constable. As a result, large numbers have made it to the pool of suitably qualified candidates, yet failed to be appointed due to the finite number of posts available.

I am advised that there have been 2,427 occasions where qualified non-Catholic applicants have been rejected from the trainee constable competitions run since the introduction of the temporary 50:50 recruitment provisions contained in the Police (Northern Ireland) Act 2000.

Of these, 408 applications have been rejected as a result of the 50:50 provisions. The remaining 2,019 applications would have been rejected, irrespective of 50:50, if appointment from the pool had been on merit only.

The Government fully acknowledge that 50:50 recruitment amounts to discrimination, but believes that the provisions are justified as a temporary means of rectifying an acute historical imbalance in the composition of the police service. This is clearly working, with the proportion of Catholics among regular officers rising from 8 per cent. in 2001 to 17.14 per cent. today. Our target is to increase this proportion to 30 per cent. by 2010–11.

Social Inclusion Working Group

Mr. McGrady: To ask the Secretary of State for Northern Ireland who the members are of the sub-committee on housing of the Promoting Social Inclusion Working Group of the Office of the First Minister and Deputy First Minister. [217771]

Mr. Spellar: The Promoting Social Inclusion Working Group on homelessness is being led by the Department for Social Development. The names of the Working Group's members are on the Department's internet site, at the following address: http://www.dsdni.gov.uk/housing/social-inclusion.asp.

The list of members can be found on the second page of the link "Documents issued by the group to date".

ELECTORAL COMMISSION

Overseas Voter Registration

Mr. Evans: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what the estimated cost is of the posting of leaflets produced by the Electoral Commission to promote overseas voter registration to embassies and consulates abroad. [218223]

Mr. Viggers: I am informed by the Electoral Commission that 73 Consulates, Embassies and High Commissions have so far ordered a total of 33,000 copies of its leaflet giving electoral information for British citizens living overseas, which includes advice on eligibility to register as an overseas voter, and on how to do so. The total cost to date to the Commission of the associated postage is £510.

Voter Information

Peter Bottomley: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what recent information the Electoral Commission has made available to *(a)* overseas, *(b)* service and *(c)* postal voters; and if he will place copies in the Library. [217549]

Mr. Viggers: I am informed by the Electoral Commission that it has made information available to each of these groups through a range of outlets. Two new leaflets provide electoral information for British citizens living overseas and for members of Her Majesty's armed forces and both include specific information on how to register to vote. These have been widely distributed via the Foreign and Commonwealth Office and the Ministry of Defence respectively. The Commission has also carried out a range of other activities targeted at overseas and service voters, including advertising, media relations and information on its website, as well as distributing information via the Foreign and Commonwealth Office and the Ministry of Defence. As regards postal votes, the Commission has produced an information leaflet that is available to the public through electoral administrators and from the Commission's voter helpline and website.

I have asked the Commission to place copies of each of the leaflets in the Library.

DEPUTY PRIME MINISTER

"Homes for All" Initiative

Mr. Hayes: To ask the Deputy Prime Minister whether his proposal to provide starter homes at £60,000 each under the "Homes for All" initiative includes public subsidy for the construction of associated infrastructure. [217338]

Keith Hill: "Homes for All", the Office of the Deputy Prime Minister's five-year plan launched on 24 January 2005, announced that English Partnerships, on behalf of the Office of the Deputy Prime Minister, will be launching a competition that will invite organisations to bid for the right to construct one or more new developments on sites in their ownership. By using public sector land to provide the sites, the competition can focus on improving construction efficiency, quality and design.

The competition will provide up to 1,000 homes. The winners of the competition will be expected to abide by local planning requirements and provide the usual supporting on-site infrastructure.

A minimum of 30 per cent. of the housing dwellings within the competition will be built to a target cost of £60,000 and the remainder will be larger and smaller dwellings that should be built at an equivalent cost-efficiency. The £60,000 target relates to the construction cost element.

Consultants

Mr. Laws: To ask the Deputy Prime Minister what the total expenditure by his Department on external consultants was in *(a)* 1996–97 and *(b)* 2003–04; and what the estimated cost of employing external consultants will be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [211558]

Yvette Cooper: The Office of the Deputy Prime Minister was formed in May 2002. It is not possible to provide information prior to that date, neither is it possible to provide estimates for future spend as this information is not held. For the financial years 2003–04 and the 2004–05 to date, the cost of employing external consultants is as follows:

	£
The Office of the Deputy	
2003–04	47,000,000
Prime Minister	
2004–05 to date	58,940,306.84
Executive Agencies	
2003–04	6,305,906
2004–05 to date	3,079,585

These figures do not include the Government Offices, which perform functions on behalf of 10 Government Departments.

Departmental Costs

Mr. George Osborne: To ask the Deputy Prime Minister what the cost of staff mobile phone bills was in each year since 1997. [214895]

Yvette Cooper: The Office of the Deputy Prime Minister was formed in May 2002. The information requested is not held centrally and could be provided only at disproportionate cost.

Enterprise Gateways/Hubs

Tim Loughton: To ask the Deputy Prime Minister what the *(a)* location and *(b)* cost of each (i) Enterprise Gateway and (ii) Enterprise hubs is, broken down by county. [213173]

Yvette Cooper: The information requested is tabled as follows.

£

County	Incubation network	Capital investment	Revenue (per annum)
Berkshire	*Enterprise Hubs*	700,000	255,000
	Newbury		
	Reading		
	Slough		
	Enterprise Gateways	50,000	85,000
	Slough		
Buckinghamshire	*Enterprise Hubs Aylesbury Vale*	100,000	255,000
	High Wycombe		
	Milton Keynes		
	Enterprise Gateways	0	85,000
	Chilterns		
East Sussex	*Enterprise Hubs*	950,000	255,000
	Brighton		
	Eastbourne		
	Hastings		
	Enterprise Gateways	0	85,000
	Newhaven		
Hampshire	*Enterprise Hubs*	400,000	255,000
	Farnborough		
	Solent		
	Southampton		
	Enterprise Gateways	0	0
Isle of Wight	*Enterprise Hubs*	350,000	85,000
	Isle of Wight		
	Enterprise Gateways	0	0
Kent	*Enterprise Hubs*	650,000	340,000
	Canterbury		
	Food Science		
	Medway		
	Sittingbourne		
	Enterprise Gateways	50,000	255,000
	Medway		
	Folkestone		
	Romney Marsh		
Oxfordshire	*Enterprise Hubs*	350,000	255,000
	North Oxford		
	Southern Oxfordshire (1)		
	Southern Oxfordshire (2)		
	Enterprise Gateways	50,000	85,000
	Faringdon		
Surrey	*Enterprise Hubs*	600,000	85,000
	Surrey		
	Enterprise Gateways	0	0
West Sussex	*Enterprise Hubs*	300,000	85,000
	Crawley		
	Enterprise Gateways	2,860,000	85,000
	Adur		

Notes:
1. Revenue cost for each Enterprise Hub and Gateway is £85,000 per year.
2. Capital costs reflect total capital investment to date. This investment is determined by market need for physic incubator space and/or hotdesking and specialist facilities (e.g. laboratory space)

Housing (London)

Sarah Teather: To ask the Deputy Prime Minister when he plans to transfer additional powers to the Mayor of London in respect of implementing housing policy for London. [217613]

Keith Hill: The Office of the Deputy Prime Minister expects to make an announcement in the near future about the outcome of the consultation "Housing and Planning in the Regions" that proposed merging Regional Housing Boards and Regional Planning Bodies by transferring to the Regional Assemblies in

England, (and in London to the Mayor) in the second half of 2005 responsibility for the work of the Regional Housing Boards in preparing Regional Housing Strategies and advising Ministers on the allocation of housing investment.

Mobile Phone Base Stations

Dr. Stoate: To ask the Deputy Prime Minister if he will include microcells and picocells in low-height mobile phone stations in the normal planning process. [217702]

Yvette Cooper: Picocells are antennas located inside buildings and microcells are very small and usually disguised on the exterior of buildings. A fundamental principle of the planning system is that it does not seek to control works for the maintenance, improvement or other alteration of any building (other than listed buildings) being works which:

(i) affect only the interior of the building; or

(ii) do not materially affect the external appearance of the building.

The Government have not included these kind of developments in the planning system as it would require fundamental changes to the planning system and primary legislation.

Neighbourhood Improvement Districts

Mrs. Spelman: To ask the Deputy Prime Minister (1) what the maximum increase in council tax expected in a neighbourhood improvement district is; [216270]

(2) which tier of Government will be able to introduce a neighbourhood improvement district in a two-tier local government area; [216271]

(3) whether parish councils will be able to introduce a neighbourhood improvement district. [216272]

Mr. Raynsford: As explained in the Office of the Deputy Prime Minister's recent discussion document 'Citizen Engagement and Public Services: Why Neighbourhoods Matter', we are seeking views on a range of ideas, including possible neighbourhood improvement districts, to provide opportunities and support for neighbourhood activities. This follows the introduction of Business Improvement Districts under the 2003 Local Government Act. We would welcome comments on whether neighbourhood improvement districts might be introduced, and if so, how and what financial arrangements they might have.

Regional Chambers (Incineration and Waste Disposal)

Mrs. Spelman: To ask the Deputy Prime Minister what role regional chambers have in incineration and waste disposal matters. [217792]

Keith Hill: In all regions outside London the regional chamber (known as the regional assembly) is the regional planning body. As the regional planning body, the regional chamber is responsible for keeping the regional spatial strategy under review and preparing draft revisions. These should include, as an integral part of the regional spatial strategy, a clear and deliverable strategy for managing waste.

Regional Housing Funding

Mr. Edward Davey: To ask the Deputy Prime Minister how much Regional Housing Pot funding will be available in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08, broken down by regional housing board. [217577]

Keith Hill: Figures for 2005–06 are tabled as follows. The Office of the Deputy Prime Minister will announce regional figures for 2006–07 and 2007–08 once we have considered the responses to our consultation paper on how the total resources available (£2,625 million and £2,912 million respectively) should be divided up.

	£ million
North East	86
Yorkshire and the Humber	144
East Midlands	116
East of England	167
London	1,071
South East	367
South West	137
West Midlands	182
North West	250
Total	2,519

Social Housing

Mr. Edward Davey: To ask the Deputy Prime Minister what the expenditure was on Transitional Local Authority Social Housing Grant in each Government office region in 2003–04; and what the estimated expenditure is for *(a)* 2004–05 and *(b)* 2005–06. [217568]

Keith Hill: The following table shows the actual expenditure by region through transitional Local Authority Social Housing Grant (LASHG) in 2003–04 and latest estimates of investment for 2004–05 and 2005–06 to registered social landlords (RSLs) operating transitional LASHG schemes in debt free local authorities receiving grant via the Housing Corporation under section 18 of the Housing Act 1996.

Transitional LASHG to debt free local authorities by region

£ million

	Actual	*Forecast*	
	2003–04	*2004–05*	*2005–06*
London	23	6	9
South East	116	16	16
South West	54	6	5
East	27	10	5
East Midlands	9	1	1
West Midlands	14	2	2
North West	3	1	1
North East	0	0	0
Yorkshire and Humber	3	0	1
Total for all regions	249	42	39

The above does not include information on with debt local authorities who receive revenue support to compensate for the loss of investment income. This is made available through a special grant programme under section 88b of the Local Government Finance Act 1988.

Mr. Edward Davey: To ask the Deputy Prime Minister what proportion of the redundant NHS sites designated for low-cost homes under the First Time Buyers Initiative will include provision for social rented housing. [217569]

Keith Hill: It is anticipated that much of the surplus NHS land will have the potential to accommodate housing development to address high demand and provide affordable homes. This will be determined following an assessment of each site's potential and taking into account local demand and the planning context. Where residential development is proposed, it will include provision for affordable housing including social rented homes as part of the planning process. It is too early to be more specific.

Mr. Edward Davey: To ask the Deputy Prime Minister how many of the 10,000 new social rented homes that are planned to be built in 2007–08 will be delivered through the expanded private finance initiative; and if he will make a statement. [217570]

Keith Hill: The Housing Private Finance Initiative programme has a target of delivering 6,300 additional dwellings of social rented housing by 2007–08 through a mix of new-build and the acquisition and refurbishment of empty private sector properties.

Mr. Edward Davey: To ask the Deputy Prime Minister pursuant to the answer of 26 January 2005, *Official Report*, column 440W, on social housing, whether he expects any of the 14,000 social housing units planned to be funded with Transitional Local Authority Social Housing Grant not to be completed until after 1 April 2006. [217571]

Keith Hill: Current estimates are that 27 dwellings may complete after 31 March 2006.

Mr. Edward Davey: To ask the Deputy Prime Minister pursuant to the answer of 18 January 2005, *Official Report*, column 867W, on social housing, (1) how many of the 40,000 low-cost home ownership units will be built in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08; [217573]

(2) how many of the 75,000 social rented homes will be built in *(a)* 2005–06, *(b)* 2006–07 and *(c)* 2007–08. [217574]

Keith Hill: For 2005–06 the Office of the Deputy Prime Minister currently estimates that around 27,000 homes will be provided for rent and around 18,000 for low cost home ownership schemes. Decisions have not yet been taken on the allocation of regional housing pot funding, of which the Housing Corporation's approved development programme is one element, for 2006–07 and 2007–08.

Estimates will be dependent on the recommendations made by Regional Housing Boards and the decisions on allocation of resources through the regional housing pot. The Office of the Deputy Prime Minister will announce decisions on the allocation of funding within regions in the summer.

Mr. Edward Davey: To ask the Deputy Prime Minister if he will make a statement on the criteria for eligibility for the 15,000 homes planned under his First Time Buyer Initiative. [217575]

Keith Hill: I refer the hon. Member to the Office of the Deputy Prime Minister's Public Service Plan 'Homes for All', presented to the House on 24 January of this year. Paragraphs 4.7 and 4.8 set out the information requested as well as further information on the First Time Buyers Initiative. Copies of the plan are available from the Library of the House.

Mr. Edward Davey: To ask the Deputy Prime Minister what estimate the Department has made of the capital receipts that will be generated by Right to Buy in *(a)* indebted and *(b)* debt free authorities in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08. [217572]

Keith Hill: Current estimates are tabled as follows:

£ million

	With-debt	*Debt-free*
2004–05	2,412	272
2005–06	2,339	272
2006–07	2,197	267
2007–08	2,030	262

Waste Disposal/Collection

Mrs. Spelman: To ask the Deputy Prime Minister what effects the Planning and Compulsory Purchase Act 2004 has had on the role of county councils in determining local policies on waste disposal and collection. [217787]

Keith Hill: Regional planning bodies are expected to seek the advice of county councils when preparing and implementing regional spatial strategies. County councils themselves will be responsible for the preparation and implementation of minerals and waste development frameworks. Both regional and local planning will take a spatial planning approach, bringing together and integrating policies for the development and use of land with other policies and programmes which influence the nature of places and how they function.

Mrs. Spelman: To ask the Deputy Prime Minister what role regional spatial strategies play in the determination of policies on incineration and waste disposal. [217794]

Keith Hill: Regional Spatial Strategies should enable sustainable waste management in line with the Government's national waste strategy and be capable of being carried forward into local development documents prepared by waste planning authorities. Draft Planning Policy Statement 10 "Planning for Sustainable Waste Management", currently undergoing consultation, proposes that regional spatial strategies should include waste policies, a distribution of waste tonnage requiring management by waste planning authority area and, where necessary, a pattern of waste facilities of national, regional or sub-regional significance.

Westbury Homes Development (Plymouth)

Mr. Streeter: To ask the Deputy Prime Minister if he will call in the proposed planning application by Westbury Homes at the former Blue Circle site, Pomphlett, Plymouth for determination by his Department; and if he will make a statement. [218057]

Keith Hill: As of 23 February 2005, no such planning application has been submitted, although Plymouth city council expect one to be submitted in the week commencing 28 February. It will then be for the Council to decide whether the project is a departure from the development plan, and whether it should be referred to the First Secretary of State, my right hon. Friend the Deputy Prime Minister. It is too early to comment on the application or whether it will be called in, because we do not know what the application will contain, and to comment now could risk prejudicing the First Secretary of State, my right hon. Friend the Deputy Prime Minister's future decisions.

HEALTH

A and E Admissions

Mr. Hoyle: To ask the Secretary of State for Health how many accident and emergency admissions there were in *(a)* Chorley and *(b)* Preston for (i) adults and (ii) children in each of the last 16 quarters. [215498]

Ms Rosie Winterton: The information is shown in the tables. Data split by adults and children are not held centrally.

Attendances at accident and emergency (A and E) departments at Lancashire teaching hospitals national health service trust

	Quarter	*Total A and E attendances at Lancashire teaching hospitals NHS trust*[1]
2004–05	2	27,637
2004–05	1	27,944
2003–04	4	24,898
2003–04	3	24,581
2003–04	2	27,235
2003–04	1	26,883
2002–03	4	23,757
2002–03	3	23,733
2002–03	2	26,272
2002–03	1	26,322

[1] Lancashire teaching hospitals includes both Royal Preston hospital and Chorley and South Ribble district general hospital.

Source:
Department of Health dataset QMAE

Buckinghamshire Mental Health Trust

Mr. Goodman: To ask the Secretary of State for Health (1) which NHS bodies pay people employed by Buckinghamshire Mental Health Trust; [217941]

(2) how many people and what percentage of people employed by Bucks Mental Health Trust are paid by other NHS bodies; [217949]

(3) how many *(a)* hospitals and *(b)* other NHS bodies have equipment supplied to them by the Central Sterile Supplies Department at Wycombe Hospital. [217950]

Ms Rosie Winterton *[holding answer 24 February 2005]:* The information requested is not collected by the Department.

Consultant Episodes

Mr. Lansley: To ask the Secretary of State for Health how many finished consultant episodes in NHS hospitals in England there were in each year from 1999 to 2004. [208798]

Miss Melanie Johnson: The information requested is shown in the following table.

Count of finished consultant episodes—national health service hospitals in England 1998–99 to 2003–04

	Finished consultant episodes
1998–99	12,108,141
1999–2000	12,290,278
2000–01	12,476,470
2001–02	12,407,588
2002–03	12,716,440
2003–04	13,175,880

Notes:

1. A finished consultant episode is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

2. Figures are grossed for both coverage and missing/invalid clinical data, except for 2002–03 and 2003–04, which are not yet adjusted for shortfalls.

3. Figures prior to 2003–04 exclude NHS commissioned activity performed in the independent sector. Additional activity takes place in other care settings: in 2003–04, there were 517,000 operative procedures in primary care and 2,072,000 procedures in outpatients. Equivalent outpatient figures for 2002–03 are 1,735,000 procedures and 1,115,000 procedures for 2001–02.

Hospital episode statistics, Department of Health.

Dentistry

Mr. Burstow: To ask the Secretary of State for Health what estimate his Department has made of the cost of exempting all patients *(a)* over 75 and *(b)* under 21 years from dental charges on the NHS; and if he will make a statement. [213476]

Ms Rosie Winterton: Children and young people under age 18, expectant and nursing mothers and people on low incomes are already exempt from dental charges. The cost of extending these exemptions would be the amount of patient charge income forgone. Patient charges raised from national health service dental treatments in the general and personal dental service amounted to £29.3 million in 2003–04 in England for patients aged 75 or over. £10.7 million was raised for patients aged 18, 19 and 20.

Mr. Lansley: To ask the Secretary of State for Health (1) what research he has commissioned into the impact on dental laboratories of methods of working under personal dental services contracts; [210823]

(2) what research *(a)* has been commissioned and *(b)* is planned into differences in treatment patterns between dentists operating under general dental service contracts and personal dental service contracts. [216146]

Ms Rosie Winterton: The Comptroller and Auditor General presented a report to the House on 23 November 2004 entitled "Reforming NHS Dentistry: ensuring effective management of risks". This includes a review of the Personal Dental Service (PDS) system. This reported that in 1998, the Department commissioned the university of Birmingham to review the implementation of the PDS pilot scheme. The review focused on all 15 first wave pilots and five of the second wave pilots and examined developments over the first three years of operation. As the aim of each pilot was unique the review reviewed each pilot's progress against its specific objectives and did not compare relative performance.

The review's key findings were that the PDS system improved access to national health service dental services and provided greater flexibility to provide NHS services. Changes in the method of payment changed the nature of professional work undertaken; the specialist pilots were successful in providing specialist dental care in a non-hospital setting; and most pilots had a key person whose enthusiasm was central to facilitating progress. There was also some evidence to suggest that dentists may initially prescribe proportionately fewer intricate dental appliances from dental laboratories under the PDS system than dentists working to the current general dental services contract. Against this, the research shows that dentists in the PDS spend more time on treating patients and this should generate more work for dental laboratories. Case studies which the NHS Modernisation Agency are carrying out on the field sites, which they are managing to develop and test new ways of working in NHS dentistry should provide further information on changes in practice.

In managing PDS schemes, primary care trusts seek to ensure that patients receive all the services, which are clinically necessary.

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the average percentage of working time that all dentists operating under the general dental contract have spent on NHS work, in each year since 1997. [216144]

Ms Rosie Winterton: The available information is in Appendix E of the supplement to the 30th report 2001 of the Review Body on Doctors' and Dentists' Remuneration Cm 4999. In table 89, in March 2000, mean hours per week of a general dental practitioner on general dental service (GDS) (national health service) work were 25.13 hours with 7.91 hours on private practice and with 1.16 hours shared time. GDS time as a percentage of GDS time and private practice time in March 2000 was 76 per cent.

We are to introduce new contractual arrangements for NHS dentistry which are intended to make NHS dentistry more attractive to dentists. One of the main changes is the replacement of the treatment based, item of service method of paying dentists with a remuneration package derived from an evidence-based assessment of patients' overall oral health care needs. This will enable dentists to spend more time with their patients and reward them for giving oral health promotion advice.

Eye Tests

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of implementing a policy of free eye tests for all NHS patients. [217492]

Ms Rosie Winterton: Free sight tests on the national health service are already available to priority groups: children under 16, those aged 16–18 in full-time education, people on low incomes who might otherwise be deterred by the cost of a private sight test and defined categories of people at particular risk of developing eye disease. In April 1999 we extended free sight tests to all people aged 60 and over.

Based on the most recent data available, we estimate that the cost of extending free sight tests to all those who currently pay privately for sight tests would be an additional £89 million based on the 2004–05 rate of £17.82 per test.

We believe that the current range of entitlements to free sight tests and optical vouchers is sufficient to meet the needs of young people, people on low incomes and individuals at particular risk of developing eye disease. A further extension would not be the best use of the funds available for the development of the NHS.

Ministerial Engagements

Mr. Gummer: To ask the Secretary of State for Health if he will list the Ministerial engagements *(a)* out of London and *(b)* in London that he has cancelled since 1 January 2004. [209217]

Dr. Ladyman: Since 1 January 2004, Departmental Ministers have cancelled 31 engagements in London and 19 engagements outside London, which are listed as follows. All engagements are subject to ministerial and parliamentary business. When engagements have had to be cancelled, wherever possible we try to re-instate them at a later date.

Multiple Myeloma

Mr. Havard: To ask the Secretary of State for Health what treatments are available on the NHS for the treatment of multiple myeloma. [215825]

Miss Melanie Johnson: Treatments available on the national health service for multiple myeloma are listed in the British National Formulary, which can be found at www.bnf.org.

When a patient is being treated by a hospital, the consultant can arrange for the supply of any drug or other substance, even one not normally available on NHS prescription, provided the primary care trust or NHS trust agree to supply it at the NHS's expense.

Orthodontists

Mr. Hoyle: To ask the Secretary of State for Health how many orthodontists are employed at *(a)* Chorley hospital and *(b)* Preston hospital. [215510]

Miss Melanie Johnson: As at 30 September 2003, there were no orthodontists employed by the Lancashire teaching hospitals NHS trust. Within the Cumbria and Lancashire strategic health authority area there were 11 orthodontists in post. This information is shown in the following table.

Hospital, public health medicine and community health services (HCHS): dental staff within the orthodontics specialty within Cumbria and Lancashire strategic health authority

Numbers (headcount)

As at 30 September 2003		*All staff*	*Of which: consultant*
Cumbria and Lancashire	Q13	11	3
Of which:

Prosecutions (Non-entitlement to Treatment)

David Davis: To ask the Secretary of State for Health how many individuals have been *(a)* arrested and *(b)* prosecuted for obtaining free treatment on the NHS to which they are not entitled in each year between 1997 and 2004, broken down by the reason for non-entitlement to treatment. [217436]

Mr. Hutton *[holding answer 24 February 2005]:* Between September 1999 and 2004, a total of 29 persons have been arrested for obtaining or seeking to obtain free national health service treatment to which they were not entitled. These arrests occurring in the following years;

	Number of arrests
1999	1
2000	1
2001	3
2002	3
2003	9
2004	12

During the same period 35 persons[1] were successfully prosecuted for obtaining or seeking to obtain free NHS treatment to which they were not entitled.

Prosecutions were broken down to the following reasons to non-entitlement in each year between 1999 and 2004.

[1] The disparity between persons arrested (29) and persons prosecuted (35) is caused by the fact that an arrest is not always required to progress to criminal prosecution.

	1999	*2000*	*2001*	*2002*	*2003*	*2004*
Use of false identity	1	1	—	2	8	7
False claim of exemption	—	—	—	—	4	3
Use of stolen/altered prescription	—	—	2	—	4	3

Waist Size

Tim Loughton: To ask the Secretary of State for Health what the average *(a)* weight and *(b)* waist size of (i) men and (ii) women was in each of the last 10 years. [214788]

Miss Melanie Johnson *[holding answer 7 February 2005]:* Figures for the average weight and waist circumference for men and women in England in each of the last 10 years are shown in the table.

Mean weight and waist circumference, by survey year and sex—age 16 and over with a valid weight and waist circumference measurement

Weight[1] and waist circumference[2]	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

York NHS Hospital Trust (Expenditure)

Hugh Bayley: To ask the Secretary of State for Health how much capital has been spent in *(a)* York District Hospital and *(b)* York NHS Hospital Trust in each year since 1992–93; and what the purpose was of each investment worth more than one million pounds made since 1997. [217621]

Miss Melanie Johnson *[holding answer 23 February 2005]:* Information on the purpose of capital investment is not held centrally. The following table shows the value of capital investment at York Hospitals National Health Service Trust.

York Hospitals NHS Trust, net book value of purchased capital additions for each year

	Cash terms (£000)
1992–93	5,791
1993–94	6,028
1994–95	7,456

Written Answers to Questions

Monday 28 February 2005

WORK AND PENSIONS

New Deal (Nottingham)

15. **Mr. Allen:** To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the new deal in Nottingham, North. [218096]

Jane Kennedy: The new deal has succeeded in helping more than 1.2 million people into work, including more than 3,000 people in Nottingham, North. It has helped to reduce long-term adult unemployment by 82 per cent. and long-term youth unemployment by 68 per cent. in my hon. Friend's constituency.

Attendance Allowance (Coventry)

16. **Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions how many pensioners in Coventry receive attendance allowance. [218097]

Maria Eagle: Some 8,200 people in Coventry were receiving attendance allowance on 31 August 2004.

Income-related Benefits

17. **Mr. Andrew Turner:** To ask the Secretary of State for Work and Pensions if he will make a statement on the latest take-up rates for income-related benefits. [218098]

Malcolm Wicks: Office for National Statistics data for the period 2002–03 were published on 8 February. The figures predate the introduction of pension credit. Nearly 1.8 million households were getting the minimum income guarantee in October 2003, but by December last year, over 2.6 million households—over 3.2 million individuals—were getting pension credit.

The latest departmental estimates for pension credit show that, in 2004–05, take-up is over 80 per cent. for those on the guarantee element, and could be as high as 90 per cent. for single women pensioners entitled to the guarantee element.

Welsh Language

18. **Hywel Williams:** To ask the Secretary of State for Work and Pensions what assessment he has made of services in Welsh provided by third parties acting on behalf of his Department. [218100]

Jane Kennedy: DWP has adopted the principle that in the conduct of public business and the administration of justice in Wales it will treat the English and Welsh languages on a basis of equality. Some services are delivered through contracts with third parties or partnerships involving other Government Departments or the Voluntary Sector. In all such cases we ensure that our contractors and partners understand and abide by the provisions of the DWP Welsh Language Scheme. An assessment of services in Welsh forms part of the Department's standard contract monitoring processes and any failings identified will be dealt with under the terms of the individual contract.

Child Support

19. **Mr. Carmichael:** To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the Child Support Agency. [218101]

Mr. Pond: We have acknowledged problems with the new IT system. The agency is working with EDS to resolve the problems. Work to stabilise the system is under way and it has already brought about improvements. We expect the remedial work to be completed later this year.

However, it is important that we remember that it is the responsibility of parents to support their children and there is nothing to stop them making their own arrangements to do so.

Departmental Staff (Wales)

21. **Mr. Simon Thomas:** To ask the Secretary of State for Work and Pensions what representations he has received from *(a)* the National Assembly for Wales and *(b)* local authorities in Wales regarding the proposed closure of his Department's offices in Wales. [218104]

Jane Kennedy: We have received a number of representations from Assembly Members and local authorities.

But the service we provide is not just about offices; and our innovative approach means that our customers, including sick and disabled people, no longer have to visit an office to access many of our services.

Massive investment of over £2 billion over four years since 2002 means that we can deliver more responsive services with fewer offices and with a more modern approach.

Incapacity Benefit

22. **Bob Spink:** To ask the Secretary of State for Work and Pensions if he will make a statement on his plans for reforms of incapacity benefit; and what estimate he has made of the number of people who will find work as a result of his plans. [218105]

Maria Eagle: We have recently set out our plans for fundamental reform of incapacity benefits in our Five Year Strategy. We want to create a new framework of support for people who can return to work and offer greater security to those who face the greatest obstacles to doing so.

Our aim is to have the key elements of the package in place by 2008, but this will be dependent on being able to roll out Pathways to Work nationally first. We cannot yet make an estimate of the numbers who find work as a result of these reforms.

Mr. Cousins: To ask the Secretary of State for Work and Pensions what proposed changes to the linking rules for existing receivers of incapacity benefit formed the basis of his Department's five year strategy. [215054]

Maria Eagle: As set out in the Department's five year strategy we are taking the opportunity to review a range of aspects of the linking rules with a view to improving their effectiveness in encouraging people on incapacity benefits to try a return to work.

We are considering proposals for change from a number of sources from both inside and outside the Department. We have agreed to look at the feasibility of making the incapacity benefit linking rules more flexible, for example by allowing automatic registration and a faster return to work after using the linking rules. We aim to make them simpler, less restrictive and easier to understand and use.

Employment

Mr. David: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's progress towards full employment. [218088]

Jane Kennedy: Since 1997 the number of people in work in the UK has risen by more than 2 million and the employment rate to 74.9 per cent., one of the highest figures on record.

However, we aim to go further—our long-term aspiration is to reach an employment rate of 80 per cent.—by maintaining economic stability and building on the success of our welfare reforms.

Access to Work Programme

Paul Holmes: To ask the Secretary of State for Work and Pensions how many people have received *(a)* full and *(b)* partial grants from the Access to Work programme in each year since its introduction; and if he will make a statement. [209714]

Maria Eagle: Access to Work is a specialist disability programme which was introduced in 1994. It provides practical advice and support to help disabled people enter or stay in paid employment. The support is aimed at overcoming work related obstacles resulting from disability. It does this through a system of grants towards the cost of providing support. The amount of support available to any individual will depend on their work related needs resulting from disability. Grants made under the programme are not specifically categorised as "full" or "partial"

Information on the number of people helped each year since Access to Work was introduced is in the table.

Number of people helped each year since Access to Work was introduced

	New beneficiaries	*Existing beneficiaries*	*Total beneficiaries*
1994–95	7,669	2,725	10,394
1995–96	9,579	4,098	13,677
1996–97	3,639	6,480	10,119
1997–98	5,167	7,658	12,825
1998–99	6,326	9,768	16,094
1999–2000	9,786	10,943	20,729
2000–01	12,318	13,569	25,887
2001–02	13,137	19,661	32,798
2002–03	15,199	21,407	36,606
2003–04	15,433	19,411	34,844
Total	98,253	115,720	213,973

Note:
New beneficiaries are people who receive Access to Work Assistance for the first time ever within the financial year. Existing beneficiaries are people who received Access to Work assistance in a previous financial year, and continue to receive financial support. Existing beneficiaries in 1994–95 are people who were transferred to Access to Work from other programmes.

Jobcentre Plus internal Management Information

Benefits

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many pensioner households received *(a)* free TV licences, *(b)* winter fuel payment, *(c)* pension credit and *(d)* council tax benefit in (i) Lancashire and (ii) Chorley in 2003–04. [217594]

Malcolm Wicks: TV Licensing, which administers free television licences for people aged 75 or over as agents for the BBC, is not able to provide geographical breakdowns of the number of free licences issued. However, the number of households with at least one person aged 75 or over with entitlement to the winter fuel payment in 2003–04 was 63,590 in Lancashire and 5,065 in the Chorley constituency. These households would be eligible for free TV licences.

Information on the number of households in Lancashire and Chorley that received a winter fuel payment in 2003–04 is in the Library.

The most recent numbers of households and individuals receiving pension credit in Lancashire and Chorley are set out in the following table:

	Households	*Individuals*
Lancashire	54,275	66,270
Chorley	3,920	4,795

Notes:
1. Figures are rounded to the nearest five.
2. Pension credit—individuals comprise claimants and partners and may contain a small number of partners aged under 60.
3. Parliamentary constituencies and local authorities are assigned by matching postcodes against the relevant ONS directory.
4. The Pension credit figures are for December 2004.
5. Council tax benefit (CTB) data for pensioners can only be taken from an annual 1 per cent. sample. To provide these statistics at a lower than regional level would be subject to a high degree of sampling variation. Therefore county level figures for Lancashire are not available.
6. Parliamentary constituency level statistics are not available for CTB, therefore Chorley data cannot be supplied.
Source:
IAD Information Centre.

The information on council tax benefit (CTB) is not available in the format requested.

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions how many pensioners in the Bridgewater constituency were in receipt of means-tested benefits in *(a)* 1997 and *(b)* 2004. [217344]

Malcolm Wicks: The information requested is not available.

Income-related benefits include income support, housing benefit and council tax benefit and jobseekers allowance (income based). Housing benefit and council tax benefit figures are not available at constituency level.

Income support, jobseekers allowance (income based) and pension credit (from October 2003) data are available by parliamentary constituency as shown in the following table.

Thousand

IS/JSA(IB)/PC(GC) beneficiaries aged 60 and over	*Bridgewater parliamentary constituency*
May1997	3.1
August 2004	3.5

Notes:
1. Figures are based on 1 per cent. and 5 per cent. samples and subject to a degree of sampling variation.
2. IS/JSA(IB) figures are rounded to the nearest hundred.
3. Pension credit is guarantee credit only.
4. Beneficiaries are all claimants and partners aged 60 or over. This includes claimants aged under 60 where there is a partner aged 60 or over.

New Deal

Mrs. Gillan: To ask the Secretary of State for Work and Pensions what the average cost is of a job obtained through the new deal since it commenced. [214847]

Jane Kennedy: The average cost of helping an individual into work through new deal is £3,258.

Ian Lucas: To ask the Secretary of State for Work and Pensions what role the new deal is playing in north-east Wales in progress towards his targets for full employment. [218083]

Jane Kennedy: The new deal has played a vital role in achieving one of the highest employment rates on record. Nearly 9,000 people have been helped into work through the new deal in north-east Wales, including more than 1,500 in Wrexham.

The employment rate in north-east Wales has risen by more than 6 percentage points since 1997 and by over 8 percentage points to nearly 77 per cent. in my hon. Friend's constituency.

Tom Cox: To ask the Secretary of State for Work and Pensions how many disabled people living in the Greater London area have participated in the new deal for disabled people. [218204]

Jane Kennedy: The available information is that a total of 8,940 people in the London Jobcentre Plus Region have started the new deal for disabled people since the start of the programme in July 2001.

Pensions

Mr. John Taylor: To ask the Secretary of State for Work and Pensions if he will make a statement on the financial assistance that will be available to people who have been affected by the wind-up of their pension scheme. [218375]

Malcolm Wicks: I refer to the written ministerial statement on the Financial Assistance Scheme, I gave on 22 February 2005, *Official Report*, column 16WS.

John Thurso: To ask the Secretary of State for Work and Pensions how many pension service surgeries have been *(a)* cancelled and *(b)* earmarked for cancellation in Scotland as part of his Department's efficiency programme. [217080]

Malcolm Wicks: No local service information points, previously termed surgeries, have been cancelled nor are there any current plans to cancel local service information points as a direct result of the Department's efficiency programme.

At a local level, information points are subject to constant evaluation to ensure their viability and effectiveness. This means that information points may be withdrawn or be relocated depending on changing demands in the locality. The fact that an information point is useful today does not mean that it always will be. This is not new, is not related to the efficiency challenge and will continue to be a feature of the Pension Service local service operations.

The Pension Service will continue to meet the needs of customers by providing a wider range of different service offerings within information points (either on our own or in conjunction with our partners) supported by the telephony service offered by our pension centres and the face to face service offered by local service and partners.

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many women received a state pension on the basis of their own contributions in *(a)* 1997 and *(b)* each year since 2001, broken down by region and county; how many of these pensions were (i) 50 per cent. or less, (ii) 75 per cent. or less and (iii) 75 per cent. or more of the basic pension rate. [216218]

Malcolm Wicks: The available information is set out in the tables. Information prior to 1999 cannot be broken down by region or county.

Numbers of female state pension recipients receiving a state pension based wholly or partly on their own national insurance contributions by government office region (GOR), county or unitary authority as at: March 2000; March 2001; March 2002; March 2003 and March 2004

The number of women in Great Britain receiving a basic state pension based wholly or partly on their own national insurance contribution record

Thousands

	Total number of women in Great Britain receiving a basic state pension based on their own national insurance record	*Number of women in Great Britain receiving 50 per cent. or less of a basic state pension*	*Number of women in Great Britain receiving 51 per cent. to 75 per cent. of a basic state pension*	*Number of women receiving 76 per cent. or more of a basic state pension*
March 2000	3,749.8	286.9	336.2	3,126.7
March 2001	3,857.9	277.7	363.9	3,216.3
March 2002	3,971.7	270.1	391.4	3,310.2
March 2003	4,108.3	267.1	427.2	3,414.0
March 2004	4,259.0	263.3	465.1	3,530.6

1. Numbers are taken from a five per cent. sample and are therefore subject to a degree of sampling variation.
2. Numbers are rounded to the nearest hundred and are expressed in thousands.
3. Totals may not sum due to rounding.
4. Local authorities are assigned by matching postcodes against the relevant ONS postcode directory.
5. Numbers also refer to women who are receiving a basic state pension based on their own contribution record which is increased by using the contribution record of their husband or former husband. Numbers do not include women entitled to a basic state pension based on their own record which is then increased when they meet the conditions for a category D pension.
6. Category A basic state pension rates:
March 2000—£66.75;
March 2001—£67.50;
March 2002—72.50; March 2003—75.50; and
March 2004—£77.45.

PRIME MINISTER

Official Histories

Mr. Keith Simpson: To ask the Prime Minister how many Government-sponsored official histories are in preparation; when each was commissioned; who the authors are; what the estimated date of completion is in each case; and what the estimated cost in each case is. [218676]

The Prime Minister: The following official histories are currently in preparation:

Title	*Author*	*Date commissioned*	*Estimated publication date*
From Defence by Committee to Defence by Ministry	Professor Donald Cameron Watt	1974	2006
External Economic Policy since the War Volume 2	Professor Leslie Pressnell	1974	2006
Special Operations Executive in Greece	Professor Richard Clogg	1984	2006
Special Operations Executive in Italy	Christopher Woods	1989	2006
Falklands Campaign	Professor Lawrence Freedman	1997	2005
UK Accession to the EEC Volume 2	Professor Alan Milward	1997	2006
UK Accession to the EEC Volume 3	Professor Alan Milward	1997	2009
The Development of North Sea Oil and Gas	Professor Alexander Kemp	1999	2006
Channel Tunnel	Dr. Terence Gourvish	2001	2006
The Civil Service since Fulton	Professor Rodney Lowe	2002	2008
The Official Biography of Desmond Morton	Mrs. Gill Bennett	2002	2006
D-Notice System	Rear Admiral Nick Wilkinson	2004	2008
Privatisation	Professor David Parker	2004	2009

In the financial year 2003–04 the cost of running the official history programme was £190,000. This includes fees and expenses of historians and research assistants and costs associated with publication, but excludes staff costs of Cabinet Office administrative support and accommodation-related overheads. In the case of the SOE histories no fee is paid for the authors' work, instead they seek recompense through royalties from their publishers.

Iraq

Lynne Jones: To ask the Prime Minister whether the statement made by the Attorney-General on 17 March 2003 setting out his views on the legality of the use of armed force against Iraq was a summary of the advice received by the Government. [218322]

Annabelle Ewing: To ask the Prime Minister whether he had a role in the *(a)* framing, *(b)* drafting and *(c)* drawing up of the Answer given by the Attorney-General on 17 March 2003 on Iraq. [218595]

Adam Price: To ask the Prime Minister whether the summary of the Attorney-General's advice on the legality of the war in Iraq published in the Official Report on 17 March 2003 was drafted by *(a)* Downing street and *(b)* Cabinet Office officials. [218430]

The Prime Minister: I refer the hon. Members to the answer given by my right hon. noble Friend the Attorney-General, Lord Goldsmith, today.

Lynne Jones: To ask the Prime Minister whether the complete text of the Attorney-General's opinion on the legality of the invasion of Iraq was seen by the full Cabinet. [218540]

The Prime Minister: Information relating to internal meetings, discussion and advice and the proceedings of Cabinet and Cabinet Committees is not disclosed as to do so could harm the frankness and candour of internal discussion.

Ministerial Travel

Mrs. Brooke: To ask the Prime Minister (1) how many days he has spent overseas on official business in each year since 1997; [211247]

(2)when he will reply to the question tabled by the hon. Member for Mid-Dorset and North Poole on 24 January, reference 211247. [215730]

Mr. Andrew Turner: To ask the Prime Minister if he will list the overseas trips he has made on official business or using official transport, since 1997, broken down by date. [211869]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year.

All travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, the Code of Conduct for Special Advisers, and the Civil Service Management Code.

Due to an administrative error the following was omitted from the list published in 1999: 2–26 August 1997—Italy and France.

Prime Minister's Questions

Dr. Pugh: To ask the Prime Minister what assessment he has made of the merits of altering the format of Prime Minister's questions. [218566]

The Prime Minister: None.

Dr. Pugh: To ask the Prime Minister whether he has plans to bring forward proposals to alter the format of Prime Minister's questions. [218567]

The Prime Minister: No.

Dr. Pugh: To ask the Prime Minister whether he has received representations from the public about the impression of the House given by the broadcasting of Prime Minister's question time. [218858]

The Prime Minister: The information is not available in the format requested. Given the volume of correspondence I receive covering a broad spectrum of issues, my office records letters by subject rather than by the view expressed.

US Presidential Meeting

Llew Smith: To ask the Prime Minister what *(a)* matters he discussed and *(b)* decisions were reached at his breakfast meeting in Brussels with President Bush on 22 February. [217940]

The Prime Minister: I discussed a wide range of issues with President Bush, including the Middle East Peace Process, the UK's G8 presidency and Iraq.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Apiculture

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what consultation process was undertaken with stakeholders prior to the announcement of changes to scientific resources available to support beekeeping. [216700]

Alun Michael: None. The proposed 20 per cent. reduction in expenditure with the National Bee Unit was determined following an internal review of resource allocation across the whole of Defra.

The reduction will be concentrated on the field force of bee inspectors rather than the Unit's scientific services, which will be substantially maintained. The decision does not apply to the Department's spend on bee health research and development.

Mr. Dalyell: To ask the Secretary of State for Environment, Food and Rural Affairs what the reason was for the reduction in the funding allocation to the Bee Health Programme at the National Bee Unit. [216911]

Alun Michael: The budget for the Bee Health Programme in England was identified in Defra's Activity Baseline Review as an area where 20 per cent. savings (equivalent to £250,000 p.a.) could be realised from 2008. The review examined all of the Department's existing activities and the resources available to them.

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned on the effectiveness of shook swarming as a means of controlling foulbrood. [216690]

Alun Michael: National Bee Unit studies on the application of the 'shook swarm' technique with antibiotic for the control of European foul brood disease have already been subject to independent scientific peer review. It is our intention that the results from trials of the technique without the use of antibiotic should be independently assessed once enough data have been gathered and evaluated.

Mr. Willis: To ask the Secretary of State for Environment, Food and Rural Affairs what level of inspection of bee colonies she is proposing when European foulbrood is removed from statutory controls. [216691]

Alun Michael: Once a decision had been made to remove a statutory enforcement role for control of European foul brood in England, inspections would no longer be targeted on this disease. However, the National Bee Unit would continue to offer advice to beekeepers on managing the disease through its extension programme. Apiary inspections would thereafter concentrate on maximising control of American foul brood disease and surveillance for notifiable exotic bee pests, including the small hive beetle.

Arrangements for bee health matters in Wales, Scotland and Northern Ireland are the responsibility of the respective devolved Administrations.

Earth Observation Summit

Mr. Dalyell: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the results of the Earth Observation Summit in Brussels on 16 February. [217762]

Mr. Morley: The Summit participants adopted a resolution on the future of the Group on Earth Observations (GEO) and the Global Earth Observation System of Systems. The resolution included endorsement of a 10-year implementation plan. The plan details the work needed to assess the capacity of existing observation systems, identify gaps in the global observational network, and to work with others to address those gaps and develop more coordinated and comprehensive systems. A further result was the issue of a communiqué that emphasised the high priority that should be given to tsunami and multi-hazard warning systems within the GEOSS.

The UK endorsed the plan and the communiqué along with the other 57 countries participating in GEO.

EU Subsidies

Mr. Alan Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the monetary value of direct EU export subsidies for agricultural goods exported by the EU to Africa in each of the last five years for which figures are available. [217200]

Alun Michael: Total expenditure on EU export refunds (subsidies) is as follows.

	Expenditure (£ million)
1999	5,572.8
2000	5,646.2
2001	3,400.6
2002	3,432.4
2003[1]	3,703.0

[1] Data for 2003 refers to appropriations for commitments entered in the budget for 2003.

Sources:

"Agriculture in the European Union" for 2000-03 and "The Agricultural Situation in the European Union" for 1999.

However, information on expenditure on export subsidies is not available by destination country and thus subsidised exports to Africa are not separately identifiable.

Horse Passports

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated revenue raised from *(a)* horse passports and *(b)* animal passports is. [217529]

Alun Michael: The Government do not collect any revenue from the issue of horse passports. Charges are made by individual Passport-Issuing Organisations and retained by those organisations. The Government do not charge pet passports since any charges are a matter for the vets who issue pet passports to pet owners. No charges are made for cattle passports.

Meat/Dairy Products

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the main export markets are for *(a)* beef, *(b)* lamb, *(c)* dairy products and *(d)* pork produced in England. [216568]

Alun Michael: The following table shows UK exports of beef, lamb/sheep, dairy products, pork/bacon and ham by main export market for the 12 months to November 2004. Exports from England are not separately identified.

UK exports of specified commodities, December 2003-November 2004

Commodity/country	*Total (t'000)*
Dairy produce	
Irish Republic	414.0
Belgium	76.8
Netherlands	55.7

Further information on the production and supply of agricultural commodities can be found at: http://statistics.defra.gov.uk/esg/publications/auk/2004/excel.asp.

Single Farm Payments

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the timing of single farm payments to farmers entitled to receive them in 2005–06. [216646]

Alun Michael: The payment window for the Single Payment Scheme is 1 December 2005 to 30 June 2006. The objective is to make as many payments as possible as early as practicable, within that window.

The Rural Payments Agency issued a News Release on 19 January confirming that the most probable date for payments to start is February 2006.

Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs how waste from schools is defined with respect to the Environmental Protection Act 1990; and what duties are incumbent on *(a)* waste authorities and *(b)* schools for the collection and disposal of waste from schools. [218307]

Mr. Morley: Section 75(5)*(d)* of the Environmental Protection Act 1990 defines waste from premises forming part of a university or school or other educational establishment as household waste. In addition, Schedule 2 to the Controlled Waste Regulations 1992 classifies this waste as household waste for which a charge for collection may be made.

Section 45(1) of the 1990 Act places a statutory duty on waste collection authorities to arrange for the collection of household waste. Section 48(1) of the 1990 Act requires waste collection authorities to deliver for disposal to the waste disposal authority all waste which has been collected under section 45.

Section 51(1) of the 1990 Act requires waste disposal authorities to arrange for the disposal of the waste collected in its area by the waste collection authorities.

Schools may arrange for the collection of their waste with either the waste collection authority or any other person who is an "authorised person" for the purposes of section 34 of the 1990 Act (the duty of care).

Mr. Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs on what date Newcastle upon Tyne city council applied for a grant for a gas from waste burning plant; what *(a)* volume and *(b)* type of materials are proposed to be gasified and burnt; what sum of money has been requested; and if she will place the application in the Library. [218033]

Mr. Morley *[holding answer 24 February 2005]:* The Strategy Unit report "Waste Not, Want Not" (published in November 2002) pointed out that new options for dealing with residual waste need to be developed and tested as landfill diminishes in importance. To address this issue, Defra's Waste Implementation Programme is currently delivering a programme of advice on and development of new technologies including pilots for

more innovative waste management practices—providing detailed and impartial technical and operational data to inform future decision-making.

Defra's latest call for industrial research proposals or projects aimed at developing pilot scale treatment equipment closed on 30 November 2004. Project proposals are now being evaluated by an expert advisory committee, including representatives from the public, private, community, NGO and financial sectors against a range of key criteria. Full details of the evaluation process are available on the Defra website.

I can confirm that Newcastle city council has submitted a proposal for a pilot scale gasification and pyrolysis plant as part of the current bidding round on 29 November 2004. It would not be appropriate at this stage to release detailed information on any individual proposal as this would be likely to prejudice the commercial interests of local authorities' industry partners. However, details of preferred bidders and information on their specific projects will be announced publicly in the spring.

TRANSPORT

Congestion (Birmingham)

Mr. Greg Knight: To ask the Secretary of State for Transport what assessment he has made of the effect on congestion of the suspension of bus lanes on Tyburn Road in Birmingham. [218012]

Charlotte Atkins: This is a matter for Birmingham city council and the Department has made no formal assessment of the impacts. I understand the city council is monitoring the traffic flows and will make the information available in due course.

Disability Discrimination Act

Mr. Keetch: To ask the Secretary of State for Transport how many *(a)* applications for special authorisation orders were made and *(b)* special authorisation orders were granted under section 43 of the Disability Discrimination Act 1995 in each of the last five years; and if he will make a statement. [218493]

Charlotte Atkins: The table details the number of applications for special authorisation and the number of special authorisations granted.

	Applications received	*Special authorisations granted*
2001	116	111
2002	70	70
2003	79	79
2004	269	189
2005	13	13

These figures include applications and special authorisations that may have been granted, but have now expired. The total number of special authorisations currently in force is 208.

The increase in numbers in 2004 is attributable to short-term special authorisations granted for a single vehicle type. We would not expect this to occur again.

Mr. Keetch: To ask the Secretary of State for Transport what consultation he undertakes before issuing special authorisation orders for public service vehicles under section 43 of the Disability Discrimination Act 1995; and if he will make a statement. [218494]

Charlotte Atkins: Section 43 of the Disability Discrimination Act 1995 does not require consultation before a Special Authorisation is issued.

However, key stakeholders are often consulted during the process to ensure that all parties are fairly represented. These would include the Disabled Persons Transport Advisory Committee (DPTAC), the Department's statutory advisers on disability issues, groups representing disabled people, trade bodies representing vehicle manufacturers and operators.

Mr. Keetch: To ask the Secretary of State for Transport how many public service vehicles are subject to current special authorisation orders granted under section 43 of the Disability Discrimination Act 1995; what percentage of all regulated public service vehicles this represents; and if he will make a statement. [218495]

Charlotte Atkins: An annual survey of vehicle operators carried out by the Department for Transport indicates that there are 9,770 regulated full size buses. Although there is no similar data for coaches, these are likely to represent an almost insignificant proportion of the regulated Public Service Vehicle fleet.

There are currently 208 buses and coaches operating under special authorisation representing approximately 2 per cent. of all regulated Public Service Vehicles.

Mr. Keetch: To ask the Secretary of State for Transport if he will list the fines which have been issued under section *(a)* 40 and *(b)* 41 of the Disability Discrimination Act 1995; and what plans he has to alter the enforcement procedure for vehicles that contravene public service vehicle accessibility regulations. [218234]

Charlotte Atkins: The Vehicle Operator and Services Agency of the Department for Transport has made no prosecutions to date for contravention of the public service vehicles accessibility regulations. Instead it has been found that close liaison between operators, manufacturers and the Department has been effective in resolving the few cases of non-compliant vehicles found within the public service vehicle fleet.

The current enforcement procedure generally requires a thorough inspection by a departmental certifying officer before each and every vehicle, falling within the scope of these regulations, is introduced into service. Subsequent in-service inspections can be carried out by VOSA as part of their ongoing targeted enforcement regime.

The Department continuously monitors its enforcement programme and has no evidence to suggest that current provisions are ineffective, and therefore has no plans to modify the enforcement procedures.

Blue Badge Scheme

Mr. Brady: To ask the Secretary of State for Transport when he will publish revised draft regulations for disabled parking permits. [218421]

Charlotte Atkins: We expect to consult on the draft amendment regulations this summer. These will make the following changes to the blue disabled persons parking badge scheme:

extend the scheme to children under the age of two with specific medical conditions requiring the transport of bulky medical equipment;

introduce temporary badges to those people with temporary mobility impairment which makes it impossible or unreasonably difficult for them to walk and which is likely to last for a period of at least 12 months;

modify the wording for the upper limb criterion;

change the wording on the badge to indicate the side to be displayed; and

reintroduce a hologram onto the badge as an additional security measure.

Highway Maintenance

John Thurso: To ask the Secretary of State for Transport what his policy is on the percentage of road length, broken down by highway category type, which should be considered for structural maintenance work in each local authority area in 2004. [218211]

Charlotte Atkins: Structural maintenance work on highways last year, as at any time, was a matter for the local authorities themselves to decide.

The Department recommends that local authorities maintain their roads in accordance with the code of practice for maintenance management "Delivering best value in highway maintenance" published in 2001. In deciding on structural maintenance work authorities should pay regard, amongst other things, to the surface condition surveys of carriageways they are required to carry out annually. These produce the best value performance indicators 96, 97a and 97b (for principal, non-principal classified and unclassified roads respectively) that indicate the proportion of the network that should be considered for structural maintenance. ODPM will publish the 2004–05 results of these surveys for each English local authority later this year.

Parking

John Thurso: To ask the Secretary of State for Transport how much *(a)* income was derived from and *(b)* expenditure has been incurred by each local authority on parking, broken down by (i) charges and (ii) penalties where available, in financial year 2003–04. [218207]

Charlotte Atkins: Information on local authority parking income and expenditure for the financial year 2003–04 is not available. However, the Office of the Deputy Prime Minister intend to publish the information by the end of April.

Public Service Vehicles

Mr. Keetch: To ask the Secretary of State for Transport what percentage of public service vehicles are required to comply with public service vehicle accessibility regulations; and if he will make a statement. [218235]

Charlotte Atkins: An annual survey of vehicle operators carried out by the Department for Transport indicates that there are almost 80,000 public service vehicles operating in Great Britain. These comprise a range of vehicles, including minibuses, full size buses and coaches. Vehicle size, age, carrying capacity and type of operation will dictate which of these must meet the requirements of the public service vehicle accessibility regulations. This makes it impossible accurately to determine what percentage of public service vehicles are currently required to comply with the regulations.

Nevertheless, the regulatory impact assessment (RIA) carried out prior to the introduction of the PSV accessibility regulations predicted future changes in bus fleet composition, including reduced numbers of double deck buses and increased numbers of minibuses. It was estimated that by the time of full compliance, i.e. 2017 for buses and 2020 for coaches, almost 53,000 buses will fall within the scope of regulations, representing towards 95 per cent. of the bus fleet capacity at that time. Numbers of coaches were more difficult to predict but the RIA estimated that 1,250 vehicles would fall within the scope of regulations. This is likely to represent 5 per cent. of the total coach fleet in 2020.

However, the Department is currently discussing with industry whether it might be possible to extend the scope of regulations to include coaches used on tour services. If vehicles operated in this way were brought within scope of the regulations, this would result in a far greater proportion of accessible coaches in the fleet.

Railway Property (Crime)

Mr. Greg Knight: To ask the Secretary of State for Transport how many persons were prosecuted for criminal acts committed on or against railway property in the last year for which figures are available. [218011]

Mr. McNulty: The British Transport Police (BTP) have informed me that in the year April 2003–March 2004 a total of 12,189 people were prosecuted by the BTP in England and Wales. This figure represents all offences excluding revenue offences.

St. Pancras Station

Mr. Yeo: To ask the Secretary of State for Transport (1) if he will set a completion date for the fitting-out of the Thameslink Box at St. Pancras station; [218638]

(2) when the Department expects to complete the fitting-out of the Thameslink Box at St. Pancras station. [218640]

Mr. Darling: The Department is committed to delivering the station fit-out, but needs to look further at the options for completing the work, including timing, before we can give the go-ahead. Consequently the Department has not set any dates for the start and completion of the work.

Mr. Yeo: To ask the Secretary of State for Transport how much the fitting-out of the Thameslink Box at St. Pancras station will cost. [218641]

Mr. Darling: The most recent projected cost of the fitting-out of the St. Pancras Midland Road station is approximately £60 million (at 2003–04 prices) which includes the fitting out, rail systems alterations and client costs required to make the station operational. This figure may change depending, for example, on future decisions on the scope and programme for the works.

Trust Ports

Mr. Chope: To ask the Secretary of State for Transport for what reason trust ports which are classified as public corporations have not produced resource accounts for 2003–04; and whether they will be required to do so for 2004–05. [218687]

Mr. Jamieson: Trust Ports are not required to produce resource accounts. This is a requirement of Government departments and Trading Funds only.

Working Time Direqtive

Mr. Yeo: To ask the Secretary of State for Transport when he expects to announce the final details of the Working Time Directive regulations applicable to road haulage operators. [218633]

Mr. Darling: I expect to be able to publish our formal guidance and table the implementing regulations before Parliament very shortly.

EDUCATION AND SKILLS

Academy Teachers

Mr. Pollard: To ask the Secretary of State for Education and Skills what professional regulation applies to academy teachers. [217590]

Mr. Stephen Twigg: Academies are registered independent schools. Like all independent schools, they are not bound by the legislation which requires teachers in maintained schools to register with the General Teaching Council for England (GTC), which is the professional regulating body for teachers in the maintained sector. However, as the vast majority of teachers within academies will have moved across from the maintained sector, most will already be registered with the council and are likely to remain so. We will be writing shortly to academies to clarify this issue and will certainly encourage them to continue to register existing staff with the council. Ultimately, however, this is a matter for individual teachers to decide.

Faith Schools (West Midlands)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how many private faith schools there are in the West Midlands region, broken down by constituency. [217690]

Mr. Stephen Twigg: The figures provided by independent schools at the last annual schools census for which figures are available, January 2004, are shown in the following table.

Independent schools: number of schools by faith

January 2004

By parliamentary constituency in the West Midlands Government office region	*No religious character*	*Church of England*	*Roman Catholic*	*Muslim*	*Other Christian faith*[1]	*Other*

Total	108	26	9	13	30	2

[1] Includes schools of mixed denomination or other Christian beliefs.

Grammar School Ballots

Mr. Brady: To ask the Secretary of State for Education and Skills if she will list each request for an electoral roll in connection with a grammar school ballot made in the last 12 months; and what the *(a)* name of the education authority area, *(b)* date of the request and *(c)* name of the person or persons making the request were in each case. [218428]

Mr. Stephen Twigg: In the last 12 months there has been only one request for petition thresholds to be set, which is the first step in the petition process. The request, made on 22 December 2004, asked that thresholds be set for all local education authority areas that have grammar schools. No threshold will be set for Ripon in Yorkshire, as there was an unsuccessful ballot in March 2000 and the five year moratorium on further ballots is still in effect.

I cannot name those who requested the petition, as to do so would not comply with the Data Protection Act 1998.

Higher Education

Mr. Clappison: To ask the Secretary of State for Education and Skills what estimate she has made of the number of university students who would have been entitled to receive the higher education grant in the current academic year; and what estimate she has made of the number who will apply for it in the academic year beginning in 2006. [217996]

Dr. Howells: Preliminary data from the Student Loans Company show that just over 100,000 students are entitled to either a full or a partial grant for academic year 2004/05. We expect to have firmer figures of the number of applications made in 2004/05 by April 2005 and will then be better placed to estimate the number of students applying for the grant in academic year 2006/07.

Charles Hendry: To ask the Secretary of State for Education and Skills what discussions she has had with the higher education sector concerning the future take-up of courses in *(a)* mathematics and *(b)* scientific disciplines; and if she will make a statement. [218881]

Dr. Howells: As Minister for Higher Education I regularly meet representatives of the sector to discuss this issue.

The Government are committed to increasing the number of students taking up higher education courses in mathematics and scientific disciplines. The 10-year science and innovation investment framework, published jointly by Treasury, the Department for Trade and Industry and the Department for Education and Skills last July, sets out a range of new measures to address the problem. These cover all phases of education from schools through to higher education. In addition, the then Secretary of State for Education and Skills wrote to the Higher Education Funding Council for England (HEFCE) at the beginning of December asking their advice on what types of action should be considered to strengthen and secure subjects of strategic national importance, including mathematics and science.

Looked-after Children

Mrs. May: To ask the Secretary of State for Education and Skills how many looked-after children have not had a school place in each year since 1997, broken down by *(a)* accommodation and *(b)* age. [217668]

Margaret Hodge: The information is not collected centrally.

Mrs. May: To ask the Secretary of State for Education and Skills what estimate the Government have made of the number of looked-after children that receive lay visitors; and what measures the Government have taken to increase this number. [217669]

Margaret Hodge: The DfES does not collect statistics on the number of looked-after children for whom an independent visitor has been appointed. The Government currently have no plans to collect this information.

Official Residences

Chris Grayling: To ask the Secretary of State for Education and Skills if she will list the official residences for which her Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the occupants of each make towards running costs; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment was in 2003–04. [213561]

Mr. Stephen Twigg: The Department for Education and Skills is not responsible for any official residences.

Primary Teachers

Charles Hendry: To ask the Secretary of State for Education and Skills (1) what financial support is available to students undertaking qualifications to enter teaching at primary education level; [218817]

(2) whether tuition fees support available to students undertaking the Postgraduate Certificate in Education qualification is available to students undertaking work-based primary education degrees; and if she will make a statement. [218847]

Mr. Stephen Twigg: Students on undergraduate courses of initial teacher training are eligible for the same package of financial support as other undergraduates. Students taking Postgraduate Certificate in Education courses currently receive full tuition fee remission and a £6,000 training bursary.

My right hon. Friend has no present plans to extend these incentives to undergraduates.

Departmental Policies

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills if she will set out statistical information relating as closely as possible to the Rochdale constituency, with effects of her Department's actions and policies on Rochdale since 1997. [217368]

Mr. Stephen Twigg: The Rochdale constituency lies within Rochdale local education authority. The most recent Key Stage 2 and GCSE and equivalents Achievement for pupils attending schools in Rochdale are given in the following tables.

Key Stage 2 Achievements of 11-year-old pupils attending schools in the Rochdale constituency

	Percentage of pupils gaining level 4 and above		
	1997	*2004*	*Percentage point improvement 1997–2004*
Rochdale—English[1]	54	67	13
Rochdale—Maths[1]	56	65	9
National Average—English[2]	63	78	15
National Average—Maths[2]	61	74	13

[1] Pupils attending schools in Rochdale constituency.
[2] The average for all schools in England (including independent schools)

GCSE and equivalents[1] Achievement of 15-year-old pupils[2] attending schools in the Rochdale constituency

Percentage of 15-year-olds gaining	*1997*	*2004*	*Percentage point improvement 1997–2004*
Rochdale—5+A*–C	37.1	41.7	4.6
Rochdale—5+A*–G	81.1	86.2	5.1
National Average—5+A*–C	45.1	53.7	8.6
National Average—5+A*–G	87.0	88.8	1.8

[1] For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.
[2] As standard the results reported relate to pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas are continuing to deliver better results.

Further information by constituency, is provided within the Department's 'In Your Area' website available at http://www.dfes.gov.uk/inyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offer comparisons between 1997 and the latest available year and cover five geographies. These are parliamentary constituency, ward, local authority district, local education authority, Government office region. England figures are also provided.

The information available within the website is grouped in a number of broad categories including Literacy and Numeracy at age 11, Literacy and Numeracy at age 14, GCSE/GNVQ results, Pupils with Special Educational Needs, School Initiatives, School Workforce, School Funding and Resources, Children's Social Services, Early Years, Class Sizes, Post 16, Higher Education and Adult Education

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we can disseminate more information about the effects of our policies at a local level. The In Your Area website will be further developed over the coming months to include additional

information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post 16.

Schools

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how much public funding has been made available for computers for schools in Coventry since 1997. [217689]

Derek Twigg: The Department does not hold information on funding for ICT at constituency level. However, Coventry South is in Coventry LEA and allocations for this authority, since 1998, are detailed in 'Funding for ICT in Schools in England' which is available in the House Library.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many competitions have been held by local education authorities for the provision of a new school since the powers were introduced. [218481]

Derek Twigg: There have been no competitions for new secondary schools since the requirement for a competition for additional secondary schools was introduced in June 2003. The Education Bill currently before Parliament will extend the requirement for a competition to all new secondary schools, including schools replacing existing schools as a result of reorganisation, unless the Secretary of State agrees that in a particular case the objectives of increasing the quality and diversity of provision could be met by other proposals commanding support in the area.

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the ratio is of students to teachers in the town of Romford. [217145]

Mr. Stephen Twigg: The following table provides pupil and staff information for maintained primary and secondary schools in Romford constituency in January 2004, the latest information available.

	Pupil:Teacher ratio[2]	*Pupil:Adult ratio*[3]
Maintained primary schools[1]	24.0	14.7
Maintained secondary schools[1]	17.5	12.2

[1] Includes middle schools as deemed.

[2] Based on the full-time equivalent of qualified teachers.

[3] Based on the full-time equivalent of all teaching and support staff (excluding admin and clerical staff).

Source:

Annual School Census.

Mr. Sheerman: To ask the Secretary of State for Education and Skills if she will make a statement, with statistical information relating as directly as possible to Huddersfield constituency, on the effects on Huddersfield of the Government's programme for capital investment in schools since 1997. [217461]

Mr. Stephen Twigg: The following table sets out the capital allocation to Kirklees metropolitan council and its schools for the years since 1997 to 1998. Information is not held centrally on allocations at constituency level.

Kirklees

	£000
1997–98	3,573
1998–99	4,899
1999–2000	6,808
2000–01	74,020
2001–02	12,187
2002–03	44,421
2003–04	17,253
2004–05	19,324

Tom Cox: To ask the Secretary of State for Education and Skills how many primary schools in the Greater London area she estimates will need to be replaced within the next five years; and if she will make a statement. [218199]

Mr. Stephen Twigg: My Department does not hold information that would be needed to estimate how many primary schools in the Greater London area will need to be replaced within the next five years.

The bulk of schools capital is now allocated by formula to authorities and schools, so that they can address their local priorities. Prioritisation of need should be through an open, rigorous and consultative asset management planning process, based on assessments of the needs of all schools. Where work is needed, there should be consideration of whether repair, remodelling, or replacement is appropriate.

Central Government capital support for investment in schools has increased from under £700 million in 1996–97 to £4.9 billion this year and will rise further to £6.3 billion by 2007–08. Progress is being made year-by-year in improving the quality of the school building stock.

Tom Cox: To ask the Secretary of State for Education and Skills how many schools in the Greater London area have only outside toilet facilities on their premises; and if she will make a statement. [218200]

Mr. Stephen Twigg: My Department does not hold this information.

In March 1998 the then Secretary of State announced that £35 million had been allocated to address the issue of school toilets which could only be accessed from outside and certain energy management improvements. At that time around 450 projects were supported by the Department, with most local education authorities submitting proposals and over the two years 1998–1999 and 1999–2000 a large proportion of outside toilets (and inefficient boilers) were replaced at a cost of about £70 million. It was, and still is, the responsibility of LEAs to identify needs and to seek funding.

Sarah Teather: To ask the Secretary of State for Education and Skills which schools in Greater London, broken down by London borough, ran a budget deficit in the year ended 31 March 2003; and how much this deficit was for each school. [217541]

Mr. Stephen Twigg: The information requested has been placed in the Libraries.

Teacher Recruitment

Dr. Cable: To ask the Secretary of State for Education and Skills what estimate she has made of the cost of the fast track teacher recruiting programme in each year from 2001–02 to 2009–10; and if she will make a statement. [216742]

Mr. Stephen Twigg: The Fast Track teaching programme invests in developing effective leadership in schools; it is not primarily a recruitment programme.

The cost of Fast Track for the years 2001–04 and estimated costs for 2004–06 are shown as follows. We are reviewing the cost of the programme for future years.

	£ million
2001–02	8.27
2002–03	8.07
2003–04	12.9
2004–05	[1]18.4
2005–06	[2]23.0

[1] estimated end of year forecast
[2] estimate

Teacher Training Agency

Dr. Cable: To ask the Secretary of State for Education and Skills what the administration budget of the Teacher Training Agency was in the last financial year for which figures are available; and what allocations have been made for each year to 2009–10. [216740]

Mr. Stephen Twigg: The Teacher Training Agency's grant letter for 2005–06 says the following about the TTA's administrative costs taking into account efficiency savings levels measured against the 2004–05 baseline.

"We have agreed the following:

an administrative costs baseline of £23.8 million for 2004–05

£22.5 million for 2005–06

£21.2 million for 2006–07

£19.9 million for 2007–08

Administrative costs here mean all costs involved in running the TTA's business as distinct from delivering front-line services."

Figures for 2008–09 and 2009–10 are not available.

TREASURY

Alcohol/Tobacco Smuggling

Mrs. Brooke: To ask the Chancellor of the Exchequer what action his Department is taking to clarify the rules on the importation of cigarettes and alcohol for personal use only following visits to Europe; and if he will make a statement. [217735]

John Healey: Information for travellers is available from the National Advice Service, the Customs website (www.hmce.gov.uk) and in posters and public notices available at major ports and airports within the UK and some European airports.

Mrs. Brooke: To ask the Chancellor of the Exchequer how many individuals have been prosecuted for bringing *(a)* too many cigarettes and *(b)* too much alcohol into the UK from Europe in each year since 2001; and if he will make a statement. [217736]

John Healey: The information is not readily available in the format requested. HM Customs and Excise central records collate the number of prosecutions but do not distinguish the specifics of smuggling within and from outside Europe.

For details of the number of prosecutions since 2001, I refer the hon. Member to the Customs and Excise annual report 2003–04, which is available in the House of Commons Library.

Mrs. Brooke: To ask the Chancellor of the Exchequer (1) how many privately owned vehicles have been destroyed following seizure at UK ports by HM Customs and Excise due to suspicion of smuggling cigarettes and alcohol purchased in Europe; and if he will make a statement; [217738]

(2) how many privately owned vehicles have been seized and subsequently returned to the owner by HM Customs and Excise at UK ports on suspicion of smuggling cigarettes and alcohol from Europe in each year since 2001; and if he will make a statement; [217739]

(3) how many privately owned vehicles have been seized by HM Customs and Excise at UK ports due to suspicion of smuggling cigarettes and alcohol from Europe in each year since 2001. [217740]

John Healey: HM Customs and Excise records on seized vehicles do not distinguish between privately owned vehicles and those owned by commercial entities.

Mrs. Brooke: To ask the Chancellor of the Exchequer what the *(a)* annual and *(b)* monthly cost of using private security firms to secure and patrol the vehicles seized by HM Customs and Excise at UK ports has been in each year since 2001; and if he will make a statement. [217737]

John Healey: HM Customs and Excise have a single contract for the storage of all goods, including all vehicles, which are seized throughout the UK, not just UK ports.

Costs for private security to secure and patrol the vehicles seized by HM Customs and Excise at UK ports are included in the overall costs of this contract and are not available individually.

Correspondence

Mr. Steen: To ask the Chancellor of the Exchequer if he will ask the Director of Child Benefit and Tax Credit Operations to reply to a letter from the hon. Member for Totnes dated 4 February about Mr. and Mrs. R. Bridle of Brixham, regarding alleged overpayment of tax credits; and for what reason Mr. Bridle was advised that this matter would be dealt with in six to eight weeks. [218306]

Dawn Primarolo: The Tax Credit Office (TCO) aims to deal with 80 per cent. of letters from customers within 15 days and 95 per cent. within 40 days. Where it looks as if they will be unable to reply quickly, TCO aims to

acknowledge receipt of the customer's letter and say when they expect to be able to reply. TCO will reply to the hon. Member and his constituent shortly.

Departmental Policies

Mr. Martyn Jones: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as directly as possible to Clwyd, South constituency, the effect on the constituency of policies pursued by his Department at the Council of Ministers since 1997; and if he will make a statement. [215719]

Mr. Timms: The Chancellor of the Exchequer attends the ECOFIN formation of the Council of Ministers. One policy that benefits the Clwyd, South constituency is Structural Funds and Cohesion Policy, agreed as part of the EU budget. At ECOFIN, the UK has consistently argued both that the overall EU budget should be constrained, and focused on value for money, and also that spending should provide a good budgetary deal for the UK. In the current Financial Perspective, part of my hon. Friend's constituency is included in the west Wales and the valleys area, for which the Government secured objective 1 status at the Berlin European Council in 1999. The outcome also included funding through objective 3, which applies in the parts of Clwyd, South not covered by objective 1, and objective 2 which also applies in some parts of Clwyd, South. Based on this, in subsequent spending reviews, the Treasury has made available extra allocations, outside the Barnett formula, for the Welsh Objective 1 programmes, including in the 2004 Spending Review £106 million for 2005–06, £128 million for 2006–07 and £147 million for 2007–08.

This has allowed the Objective 1 programme so far, for example, to commit £1 billion to 1,300 projects reporting the creation and safeguarding of some 84,000 gross jobs. This funding, together with other Government policies, has helped to support the Clwyd, South economy, to reduce unemployment from 1,422 in 1997 to 1,058 in 2000 and to 752 now—overall, since May 1997, claimant unemployment has fallen by 48 per cent., while long-term unemployment and long-term youth unemployment have fallen by 88 and 81 per cent. respectively.

Energy Products Directive

Mr. Simon Thomas: To ask the Chancellor of the Exchequer (1) what estimate he has made of the amount of revenue forgone in respect of rebated diesel for private leisure craft in each year since the Energy Products Directive came into force; [218521]

(2) what estimate he has made of the number of private leisure craft which have used rebated red diesel in each year since the Energy Products Directive came into force. [218531]

John Healey: No robust estimate of the revenue forgone has been possible due to a lack of data. The Government do not hold any figures for numbers of private pleasure craft. The British Marine Federation has estimated that there are approximately 451,000 private pleasure boats in the UK, although this figure includes all types of boats, not just those using red diesel.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on Excise Duties met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217890]

Dawn Primarolo: The Committee on Excise Duties meets in Brussels approximately twice a year as determined by the European Commission.

The Committee met once during the Italian Presidency, on 12–14 December 2003, once during the Irish Presidency, on 1–2 April 2004 and once during the Dutch Presidency, on 1–2 July 2004.

Officials from HM Customs and Excise represented the UK.

Angus Robertson: To ask the Chancellor of the Exchequer how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Economic Policy Committee: Working Party and Reduced Compositions met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217897]

Mr. Timms: The Economic Policy Committee (EPC) met formally 16 times during the Italian, Irish and Dutch Presidencies of the EU. All meetings were held in Brussels, with the exception of one Informal meeting held in London in June 2004. The various working groups and reduced compositions of the EPC met on 30 occasions in Brussels during these three Presidencies. The UK Government was represented on each occasion by Treasury officials.

Inspection and Enforcement Activities

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what the cost of inspection and enforcement activities carried out by *(a)* his Department and *(b)* regulatory bodies and agencies sponsored by his Department was in (i) 1996–97 and (ii) 2003–04. [217786]

Dawn Primarolo: The Chancellor's Departments which carry out inspection or enforcement type activities are the Inland Revenue and HM Customs and Excise. In the course of achieving their objectives, however, neither Department separately identifies inspection or enforcement activity, with the exception of the law enforcement work of HM Customs and Excise. This focuses on the management of risks to society that arise from the illegal importation of prohibited or restricted goods such as class A drugs, firearms or paedophile material. It is not therefore possible to provide the information requested on costs of inspection and enforcement activities for 1996–97 and 2003–04, although more information on the activities of HM Customs and Excise and of the Inland Revenue and the administrative costs of running the Departments, including the costs to HM Customs and Excise of working to reduce crime and drug dependency and on investment in compliance activity in the Inland Revenue, can be found in their annual reports and accounts.

Mobile Phones

Dr. Stoate: To ask the Chancellor of the Exchequer what tax and national insurance benefits will be available from April to employers who supply mobile phone and associated contracts to employees and their families. [217704]

Dawn Primarolo: The provision of a mobile phone by an employer to a director or employee or any member of their family or household has been exempt from tax and national insurance contributions since April 1999.

Pensioners (Employment)

Mr. Webb: To ask the Chancellor of the Exchequer what percentage of *(a)* men aged 65 years or over and *(b)* women aged 60 years or over are in (i) full-time and (ii) part-time employment; and if he will provide corresponding estimates at three-yearly intervals since 1975. [217997]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Steve Webb, dated 28 February 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about employment. I am replying in his absence. (217997)

The attached table gives estimates, based on the Labour Force Survey, of the proportion of men aged 65 and over and women aged 60 and over who were in full and part-time employment for the three month periods ending May every three years from 1986 to 2004. Data for earlier periods are not available on a consistent basis.

As with any statistical sample survey, estimates from the Labour Force Survey are subject to sampling variability.

People over retirement age[1] working full or part-time as a percentage[2] of population over retirement age

Percentage (not seasonally adjusted)

Three month period ending May	*Full-time*			*Part-time*		
	All	*Men*	*Women*	*All*	*Men*	*Women*
1986	1.9	2.4	1.6	4.8	4.8	4.8
1989	2.2	2.7	1.9	5.7	5.7	5.6
1992	2.5	3.1	2.2	5.6	5.4	5.7
1995	2.2	2.7	1.9	5.7	5.3	5.9
1998	2.1	2.5	1.8	5.5	4.9	5.9
2001	2.2	2.4	2.0	5.7	4.6	6.3
2004	2.6	2.8	2.4	6.7	5.7	7.4

[1] Defined as men aged 65 and over and women aged 60 and over.
[2] Percentages are based on people working full or part-time as a percentage of all those in the relevant age groups.

ONS Labour Force Survey.

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) in how many cases where the Inland Revenue has contacted child care providers whose details have been provided by claimants of the child care element of child tax credit the child had been removed from the child care provider; [217687]

(2) how many times the Inland Revenue contacted child care providers whose details have been provided by claimants of the child care element of child tax credit in *(a)* 2003–04 and *(b)* 2004–05. [217688]

Dawn Primarolo *[holding answer 25 February 2005]:* Where a 2003–04 or 2004–05 tax credit award includes an element of help towards the cost of child care, the Inland Revenue has contacted child care providers to verify the details that have been provided by the claimant.

In 2003–04, the Department contacted around 215,000 child care providers to check information and so far in 2004–05 they have contacted around 251,000 providers. Wherever possible, the Department sends a single, composite inquiry covering all the claims in which the child care provider features.

Unlike the previous tax credits, the amount of help towards child care is not fixed for the duration of the award. The new tax credit system is designed to respond to changes in circumstances and where people alter their child care arrangements the amount of tax credits they receive may be adjusted to ensure they continue to receive the right amount of money. Claimants are required to tell the Inland Revenue within three months where the amount they pay for child care falls by £10 per week or more. Other changes can be reported when finalising the claim after the end of the tax year, although the Inland Revenue encourages claimants to report changes as and when they happen to avoid over and under payments.

LEADER OF THE HOUSE

Parliamentary Commissioner for Standards (Inquiry Costs)

Mr. Sanders: To ask the Leader of the House if he will bring forward proposals to enable the recovery of the Parliamentary Commissioner for Standards' inquiry costs from the hon. Member concerned where a complaint is upheld; and if he will make a statement. [217797]

Mr. Hain: I have no plans to do so.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Salmond: To ask the Secretary of State for International Development what measures his Department is taking to limit the number of deaths and injuries in Afghanistan resulting from unexploded ammunition; and what proportion of such deaths and injuries has been of children. [218823]

Hilary Benn: DFID is supporting mine and undeveloped ordnance clearance in Afghanistan. In the period 2002–04 we provided £3.8 million to the United Nations Mine Action Service (UNMAS) for its clearance work in Afghanistan.

DFID is also supporting the Halo Trust's Weapons and Ammunition Disposal Programme through its contribution to the Global Conflict Prevention Pool (GCPP). In 2004–05, the GCPP has provided £430,000 to this programme, which is focused on destroying excess ammunition and small arms, much of which is unserviceable and unsafe.

It is difficult to obtain precise information casualties from landmine and unexploded ammunition in Afghanistan. However, according to the International Committee of the Red Cross, in 2003 (the latest year for which there are figures) there were 846 new casualties, of which 184 resulted in death. Of the 846 casualties, 384 casualties were children under the age of 18 years. The information available does not provide a breakdown by age of the casualties resulting in death.

Bosnia-Herzegovina

Mr. Soames: To ask the Secretary of State for International Development what the principal lessons learned by his Department on reconstruction and development during the reconstruction period in Bosnia-Herzegovina were. [218048]

Hilary Benn: DFID, MOD, the FCO and the Cabinet Office are setting up the 'Post Conflict Reconstruction Unit' to do more to improve the United Kingdom's capacity to deal with post conflict stabilisation. The experience of reconstruction and development in Bosnia and Herzegovina during the reconstruction phase, while not recorded formally, did highlight a number of lessons that the new unit will consider as well as lessons identified from other post conflict stabilisation and reconstruction scenarios where HMG has been involved. It is hoped to link this process to the US Office of the Co-ordinator for Reconstruction and Stabilisation and draw from the UN Lessons Learned Unit.

Emergency Aid

Mr. Salmond: To ask the Secretary of State for International Development how much in the aid budget for 2004–05 is set aside for dealing with emergency situations; where the money has been pledged; and if he will make a statement. [218824]

Hilary Benn: DFID sets aside a sum of money each year to a central Contingency Reserve to enable the UK to respond to both humanitarian emergencies and reconstruction needs. In 2004–05 this amounted to £30 million. DFID also had a humanitarian assistance contingency budget of £49 million in 2004–05, of which about £12 million was allocated to provide emergency relief.

The Government's immediate humanitarian response to the Asia tsunami relief effort included committing the full Contingency Reserve of £30 million as well as £20 million from the humanitarian response budget.

The UK has provided over £6 million in non-tsunami emergency funding in 2004–05. A breakdown of the recipients is as follows:

Country	*Emergency situation*	*Total committed (£)*
Madagascar	Cyclone	255,000
Morocco	Earthquake	155,000
Haiti	Complex emergency	1,891,000
Dominican Republic	Floods	57,168
Haiti	Floods	418,400
Tajikistan	Floods	25,000
Nepal	Floods	100,000
Paraguay	Fire	10,000
Caribbean	Hurricane Ivan	1,829,527
Haiti	Tropical Storm Jeanne	884,976
Indonesia	Earthquake	30,000
Philippines	Storms and typhoons	300,000
Colombia	Floods	82,500

In addition, humanitarian assistance is provided through a number of our country programmes. The bulk of this is within Africa; and in 2004–05 this provision amounted to an earmarking within country budgets of approximately £110 million. An Africa regional humanitarian budget of £37 million was used to meet unexpected humanitarian needs. The country budgets allocations have also been varied within year depending on circumstances. The following table sets out the initial humanitarian allocations, by country, for 2004–05:

Country	*Humanitarian assistance (£)*
Angola	2,980,000
Burundi	1,680,000
Eritrea	1,050,000
Somalia	1,880,000
Congo	15,640,000
Ethiopia	10,000,000
Sudan	30,530,000
Kenya	8,740,000
Tanzania	9,920,000
Uganda	7,080,000
Malawi	2,000,000
Zimbabwe	13,800,000
Sierra Leone	2,000,000
Liberia	3,000,000
Guinea Conakry	1,000,000
RCI	1,000,000

In other regions, we did not set aside separate budgets for emergency and humanitarian work. However assistance has been provided in, for example, Iraq and Afghanistan.

HIV/AIDS

Charles Hendry: To ask the Secretary of State for International Development what financial assistance his Department has provided in each of the past five years to voluntary organisations working to prevent HIV/AIDS in sub-Saharan Africa. [218244]

Hilary Benn *[holding answer 25 February 2005]:* This information is not available from our statistics. DFID tends to support integrated HIV/AIDS programmes and it is therefore difficult to break down support for HIV/AIDS prevention as distinct from treatment and care activities. Also, our support to voluntary organisations takes three forms (direct support to UK-based organisations through our Civil Society Challenge Fund, direct support to local organisations through our country programmes and Partnership Programme Agreements) only the first of which can be readily disaggregated in the way requested.

We support 18 major UK voluntary organisations through Partnership Programme Agreements. These are strategic level agreements based on shared aims and specific outcomes rather than individual project activities. It is therefore not possible for us to apportion support to HIV/AIDS activities. However the majority

of these organisations do have an agreed outcome specifically targeted at HIV/AIDS. The level of our support for Partnership Programme Agreements has increased from £47 million to £62.5 million over the past five years.

Alistair Burt: To ask the Secretary of State for International Development (1) whether the Department's field offices will be producing detailed action plans in addition to the revised country assistance plans in those countries with large numbers of orphans and children made vulnerable by HIV and AIDS; [217557]

(2) what steps the UK Government are taking to ensure that the Department's field offices help to increase the capacity of ministries in developing countries responsible for protecting the rights and meeting the needs of orphans and children made vulnerable by HIV and AIDS. [217556]

Mr. Gareth Thomas: I refer the hon. Member to the responses I gave to my hon. Friend the Member for Northampton, North, (Ms Keeble) on 10 February 2005, *Official Report*, columns 1638W and 1394W respectively (UIN 215342 and UIN 215343).

Alistair Burt: To ask the Secretary of State for International Development what steps the Government are taking to ensure that the issue of orphans and children made vulnerable by HIV and AIDS is made a priority during the review of the European Union's Programme for Action on Poverty Diseases in 2005. [217559]

Mr. Gareth Thomas: I refer the Member to the response I gave to the Member for Mid Dorset and North Poole, (Mrs. Brook), on 1 February 2005, *Official Report*, column 794W. (UIN 211156),

Iraq

Mr. Hancock: To ask the Secretary of State for International Development what investigations the Government has undertaken on the possible involvement of UK *(a)* individuals and *(b)* companies in the mismanagement of Iraq reconstruction funds. [217903]

Hilary Benn: No investigations have been carried out by the Government on the possible involvement of UK individuals or companies in the mismanagement of Iraqi reconstruction funds.

The UK supported the establishment of the International Advisory and Monitoring Board (IAMB) —mandated by United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003—as an independent, objective body to oversee coalition management of Iraqi oil revenues and reconstruction spending.

The IAMB'S report on the two independent audits of coalition use of Iraqi funds in the Development Fund for Iraq (DFI) states that

"all known oil proceeds ... have been properly and transparently accounted for in the DFI".

IAMB audit reports are available on the IAMB website at www.iamb.info.

Landmines

Charles Hendry: To ask the Secretary of State for International Development what steps the Government is taking to eliminate the problem of landmines; and what funding was made available to countries affected by landmines in the last year for which figures are available. [218884]

Hilary Benn: The following table lists DFID's contributions to global mine action in financial year 2003–04.

	£
United Nations Children's Fund (UNICEF)—Core Support	650,000
United Nations Mine Action Service (UNMAS)—Core Support	2,000,000
United Nations Development Programme (UNDP)—Core Support	600,000
Research and Knowledge	1,766,720
Ottawa Sponsorship Programme (support to poor countries to enable attendance at international mine action meetings).	16,660
Angola—HALO Trust demining (Road Verification)	117,650
Angola—Mines Advisory Group (MAG) demining via UN office of Humanitarian Affairs (OCHA)	100,000
Angola—UNDP Capacity Building	300,000
Afghanistan—UNMAS Demining	2,000,000
Cambodia (MAG)	271,250
Iraq—(MAG) demining S Iraq	781,639
Iraq—UNMAS Demining	4,357,378
Iraq MAG Preparedness	80,883
N Caucasus—UNICEF Mine Risk Education, Victim Support	60,000
Sudan UNMAS	1,000,000
HALO Other	32,402
Total	14,134,582

In addition the UK share of European Community global mine action for the calendar year 2003 (the latest year for which we have figures), was £2.9 Million.

Malawi

Tom Brake: To ask the Secretary of State for International Development when the extra funds from the new six-year programme of support to the Malawi health service will be released. [217545]

Hilary Benn: DFID financing will begin in April 2005. By that time, we expect the Government of Malawi to have implemented the conditions for the release of our aid for the grant. These are to present a plan to reform the Central Medical Stores and to increase the Government health budget by the amount of additional funding to be provided through its budget by DFID, Norway and the World Bank.

Uganda

Mr. Simmonds: To ask the Secretary of State for International Development what development assistance has been provided by the UK Government to Uganda in each year since 1997; and what it has been spent on. [217470]

Hilary Benn: The development assistance provided by the UK Government as bilateral aid to Uganda in each year since 1997–98 is shown in the following table. This is mainly in the form of Poverty Reduction Budget Support, project or sector aid in health and education, technical co-operation and grants to Civil Society Organisations. Further details are available in Table 7.1 of our annual publication "Statistics on International Development", copies of which are available in the Library of the House.

Bilateral aid to Uganda

£ thousand

Fiscal year	*Total UK Government expenditure*
1997–98	59,325
1998–99	64,261
1999–2000	90,286
2000–01	97,572
2001–02	68,724
2002–03	54,868
2003–04	59,614

Source:
Statistics on International Development

In addition the UK supports Uganda through its multilateral contributions.

Figures are given as follows for the imputed UK share of EC aid for calendar years over the same period.

UK share of EC aid (imputed)

£ million

1997	4.7
1998	5.0
1999	4.9
2000	5.4
2001	7.5
2002[1]	2.7

[1] Most recent year available.

TRADE AND INDUSTRY

Electricity Payments

Mr. Weir: To ask the Secretary of State for Trade and Industry what steps her Department is taking to reduce the differentials between pre-payment meters for electricity and other payment methods. [218822]

Mr. Mike O'Brien: Tariffs are a commercial matter for individual supply companies, some of whom have reduced differentials between pre-payment meters for electricity and other payment types.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on implementation of the multiannual programme for enterprise and entrepreneurship, in particular for small and medium-sized enterprises (SMEs) met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217254]

Nigel Griffiths: The Enterprise Programme Management Committee met twice during the Italian presidency, on 4 July and 12 November 2003; once during the Irish presidency, on 18 March 2004; and twice during the Netherlands presidency on 8 July and 8 December 2004. Each meeting took place at the European Commission in Brussels. One member of the Small Business Service attended two of these meetings and two members attended the other three meetings. The Committee fulfils an important task in managing the Multi-Annual Programme, which helps to improve enterprise and entrepreneurship policy at Governmental and Commission levels and provides support to businesses. The UK nominates experts for the Programme's project groups that advise on aspects of enterprise and entrepreneurship. The Programme is due to be replaced by the Competitiveness and Innovation Programme in 2007. My hon. Friends the Economic Secretary, the Minister with responsibility for food, farming and sustainable energy and I have jointly sent UK recommendations to the European Commission on the content of the new Programme.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the harmonisation of credit insurance provisions for transactions with medium- and long-term cover met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217838]

Mr. Timms: I have been asked to reply.

The Committee concerned meets only to consider a limited number of issues. It did not meet during the Italian, Irish or Dutch Presidencies.

The European Council Working Group on Export Credits met five times in Brussels during each of the three Presidencies in question. Officials from ECGD were present at each of these meetings.

Gas Prices

Mr. Weir: To ask the Secretary of State for Trade and Industry what assessment her Department has made of the causes of wholesale gas price rises in the past 12 months; and if she will make a statement. [218819]

Mr. Mike O'Brien: Spot wholesale gas prices have risen due to a number of factors: tighter gas markets as production from the North Sea declines and the UK becomes a net importer of gas, and high-fossil fuel prices driving higher gas prices on the Continent, which feed into UK prices via the gas interconnector. On the forward market, there is also a fair amount of 'market sentiment' about tightness of supply over the next two winters as we move towards more import dependency. The Ofgem Price Probe, published on 5 October 2004, also attributed these reasons for the price movements over the previous year, and the concurrent Financial Services Authority investigation into gas prices in autumn 2003 found no evidence of market abuse.

My right hon. Friend the Secretary of State met representatives of the energy intensive sectors of industry before Christmas and has asked officials to work with them to develop ideas for improving the operation of the forward gas market. My Department has also commissioned an independent consultant to analyse the current operation of the UK gas forward market and to identify the underlying causes of high forward prices for the next two winters.

The Government are working to ensure that the right framework is in place to allow the market to deliver sufficient quantities of gas at competitive prices. This is already happening, as major new import projects come forward, due to come on-stream over the next 3 years. The Government are also encouraging the European Commission to ensure prompt and full implementation of the second EU liberalisation package, which will contribute to the development of more competitive markets across Europe.

Nuclear Security

Llew Smith: To ask the Secretary of State for Trade and Industry how many incidents characterised as failures of security leading to unacceptable or undesirable consequences *(a)* have occurred at and *(b)* have been associated with personnel employed at licensed nuclear installations since 1 January 2004. [217494]

Mr. Mike O'Brien: I am advised that since 1 January 2004, there have been four incidents, which could be characterised as failures of security leading to unacceptable or undesirable consequences, that have occurred at licensed civil nuclear installations and one of these may have involved an employee.

Oil and Gas Production

Alan Simpson: To ask the Secretary of State for Trade and Industry what the ratio of offshore and onshore *(a)* flared and *(b)* vented associated gas to oil produced gas was in each year for which figures are available. [217103]

Mr. Mike O'Brien: The tables show annual offshore and onshore oil production, associated gas production, flaring and venting from oil producing fields, and the ratios of flaring and venting to the oil produced, since combined records for landward and seaward flaring and venting have been kept.

Offshore oil production, gas flaring and venting—in cubic metres (m^3) and thousand cubic metres (Km^3)

	Oil Production m^3	Associated Gas Production Km^3	Gas Flared Km^3	Gas Vented Km^3	Ratio of Flared Gas to Oil Production (1 to n Km^3/m^3)	Ratio of Vented Gas to Oil Production (1 to x Km^3/m^3)
1979	61,482,814	7,207,480	6,528,344	0	106	—
1980	64,933,732	7,245,871	4,580,540	0	71	—
1981	77,932,535	10,334,941	4,238,218	0	54	—
1982	95,583,994	13,935,654	4,017,198	0	42	—
1983	107,655,522	16,346,156	3,734,138	19,985	35	0
1984	141,430,215	21,925,657	3,399,136	329,176	24	2
1985	149,116,847	24,327,363	2,677,625	338,428	18	2
1986	154,679,166	25,865,305	2,155,514	379,269	14	2
1987	155,774,808	27,935,387	2,256,414	339,341	14	2
1988	164,597,956	32,180,666	2,335,759	312,769	14	2
1989	138,914,095	30,906,713	2,485,698	185,187	18	1

Petrol Stations

John Thurso: To ask the Secretary of State for Trade and Industry how many retail petrol stations there were in the UK in each year since 1997 *(a)* in total and *(b)* broken down by region. [218208]

Mr. Mike O'Brien: The Energy Institute, formerly known as Institute of Petroleum, produces an annual "Retail Survey" of the number of retail petrol filling stations in the UK. Historically, the regional breakdown data on petrol filling stations numbers have not been collected.

	Total UK retail petrol filling stations
1997	14,824
1998	13,758
1999	13,716
2000	13,043
2001	12,201
2002	11,425
2003	10,535
2004	Figure to be published

Small Businesses (Lancashire)

Geraldine Smith: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Morecambe and Lunesdale since 1997. [216786]

Nigel Griffiths: The Business Link Operator for Lancashire has supported 2,318 businesses in the Lancaster area (which includes Morecambe and Lunesdale constituency) since 2001. This information is not available at constituency level. The Small Business Service (SBS) was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide Business Support to small and medium sized enterprises from April 2001. Before this date Government support to businesses was provided through Training and Enterprise Councils and the Small Business Service does not have access to this data.

The type of assistance provided by the Business Link Operator includes pre-starts, start up advice, intensive assistance, IT support and Investors in People.

In addition a number of companies in the Morecambe and Lunesdale constituency have received support under DTI programmes since 1997:

Smart and its successor the Research and Development Scheme: Six companies—£434,207

Regional Selective Assistance Scheme: One company—£180,000

Enterprise Grant Scheme: 12 companies—£577,360.

The Enterprise Grant scheme was replaced by the Selective Finance for Investment in England on 1 April 2004. No offers have been made to companies in this constituency under this scheme.

A summary of support from Lancaster city council shows it paid out grants of £848,678 to support more than 30 companies in the Morecambe and Lunesdale area under the following schemes:

Scheme	*Number of businesses receiving grant*	*Amount of grant paid out (£)*	*Duration of scheme*
Lancaster City Council Business Development Scheme	12	25,459	1990 onwards
North West Tourist Board Invest in the Best	8	94,709	1998–2002
Promenade Business Frontage Scheme (SRB funded)	Unspecified	220,958	1996–97
Central Promenade Enhancements Scheme	Unspecified	300,000	1996–97
Poulton Neighbourhood Renewal	4	5,770	2003–04
Enterprise in Rural Communities	6	[1]201,782	2002–04
Total	30 plus	848,678	

[1] This total included a grant payment of £129,606 to Carnforth Station Railway Trust, to generate Carnforth Station which now provides business space for four businesses creating 11 jobs.

CABINET OFFICE

Congestion Charge

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213828]

Mr. Milburn: Responsibility for congestion charges and penalty notice charges incurred by vehicles provided to Government Departments by the Government Car and Despatch Agency (GCDA), rests with them. I have asked its Chief Executive, Nick Matheson, under the terms of the Framework Document to the GCDA to write to the hon. Member. Copies of his letter will be placed in the Library.

Excluding GCDA services provided to the Cabinet Office, the amount spent on congestion charges by the Department is shown in the table.

	Congestion charges (£)
2002–03	8,928
2003–04	9,608
2004–05 (to date)	9,423

The Cabinet Office has not incurred any congestion penalty charges.

Ministerial Vehicles

David Taylor: To ask the Minister for the Cabinet Office (1) what proportion of the fleet of ministerial vehicles used low sulphur fuels; [216299]

(2) how many ministerial car journeys *(a)* over 10 miles and *(b)* under 10 miles were undertaken in *(a)* 1998 and *(b)* 2004; [216300]

(3) what procedures are in place to measure the annual carbon dioxide emissions from ministerial vehicles; [216301]

(4) what steps have been taken since 1997 to reduce the amount of carbon dioxide emitted from ministerial vehicles. [216302]

Mr. Milburn: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and Despatch Agency. I have asked its Chief Executive Mr. Nick Matheson to write to my hon. Friend. Copies of his letter will be placed in the Library and will be printed in the *Official Report*.

CULTURE, MEDIA AND SPORT

EU Committees

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Contact Committee for implementation of the Television without frontiers Directive met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217951]

Mr. Caborn: The EU Contact Committee for the implementation of the Television without frontiers Directive met once during each presidency. The meetings took place in Brussels on:

21 October 2003

11 March 2004

21 October 2004

A DCMS official was present on each occasion.

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee for Cooperation in the Field of Tourism met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [218309]

Mr. Caborn: The Advisory Committee for Cooperation in the Field of Tourism, known as the Tourism Advisory Committee, met in Brussels on 4 September 2003 during the Italian presidency and on 15 September and 12 November during the Dutch presidency. The Committee did not meet during the Irish presidency. The UK Government was represented at these meetings by tourism officials from the Department for Culture, Media and Sport.

National Trust

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what recent discussions *(a)* she and *(b)* her Department has had with the Director General of the National Trust. [218476]

Mr. Caborn: The Secretary of State, the Minister for Media and Heritage and DCMS officials have regular discussions with the Director General of the National Trust. They most recently met on 2 February 2005.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what guidance *(a)* she and *(b)* her Department has given to the Director General of the National Trust about its proposed administrative changes. [218544]

Mr. Caborn: The National Trust is an independent, registered charity. The decision to implement any administrative changes rests solely with them.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what representations her Department has received about the proposed changes at the National Trust. [218545]

Mr. Caborn: The Department has not received any representations about proposed changes at the National Trust.

Sport (West Midlands)

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what funding has been allocated to building new sports facilities in the West Midlands region in the last five years. [217692]

Mr. Caborn: In the last five years, Sport England, the Big Lottery Fund and the Football Foundation have allocated £131,463,349 to the West Midlands region through a wide range of sports facilities programmes.

DEFENCE

Allied Rapid Reaction Corps

Mr. Soames: To ask the Secretary of State for Defence what the Allied Rapid Reaction Corps' training programme is for the next 18 months. [216543]

Mr. Ingram *[holding answer 21 February 2005]:* The only dedicated element of the Allied Rapid Reaction Corps is its Headquarters, which is currently training as a High Readiness Force (Land) HQ. This involves exercising as a Corps and Land Component Headquarters for generic multinational deployments on warfighting and peace support operations. From April 2005 HQ ARRC will begin preparation for an expected deployment to Afghanistan in 2006 to lead the International Security Assistance Force (ISAF). On present plans, HQ ARRC's ISAF training will involve two self contained Command Post exercises, periods of individual and collective military training and the NATO pre-operational directed training package. In addition, HQ ARRC will continue to support the training of UK formations, including the UK elements of the NATO Response Force throughout this period.

Army Prosecuting Authority

Lady Hermon: To ask the Secretary of State for Defence (1) if he will make a statement on *(a)* the remit and *(b)* the powers of the Army Prosecuting Authority in (i) Northern Ireland and (ii) the rest of the United Kingdom; [212036]

(2) what the membership is of the Army Prosecuting Authority; and if he will make a statement; [212037]

(3) how many times the Army Prosecuting Authority has met since its coming into operation; and what the outcome was in each case. [212047]

Mr. Caplin *[holding answer 1 February 2005]:* The Army Prosecuting Authority (APA) is a serving officer of Major General rank appointed by Her Majesty the Queen. The APA came into being on 1 April 1997 and meets regularly with his staff to discuss cases. In 2003 and 2004, 550 and 627 cases, respectively, were referred to the APA.

The remit of the APA is to bring prosecutions under military law against British Army personnel in UK or abroad. Once a case has been referred to the APA, he has the power to determine, prefer or amend an appropriate charge, conduct court martial proceedings or discontinue proceedings on any charge. He also has the power to delegate any of his functions to a suitable qualified officer appointed by him. When exercising his prosecution function, the APA is subject to the general superintendence of the Attorney-General and is independent of the Chain of Command. There is no difference in these matters between Northern Ireland and the rest of the United Kingdom.

Colombian Army

Tom Brake: To ask the Secretary of State for Defence pursuant to the answer of 4 February 2005, *Official Report*, column 1173W, on the Colombian Army, to which Colombian *(a)* engineer units and *(b)* national police units his Department has provided military assistance. [217547]

Mr. Ingram: The assistance in question is to train individual trainers in bomb disposal. It is not given to formed units. Information on which engineer or police units the trainees come from is not held centrally.

Deepcut Barracks

Mr. McNamara: To ask the Secretary of State for Defence what steps he has taken to investigate the allegations of Surrey police concerning intimidation of witnesses stationed at Deepcut Barracks by uniformed members of the Royal Military Police. [208381]

Mr. Ingram: The Ministry of Defence is aware of a media report concerning an allegation that a witness stationed at Princess Royal Barracks, Deepcut was subject to intimidation by uniformed members of the Royal Military Police. We understand that this allegation has not been formally reported to either the Surrey police during the course of their investigations, or to the Ministry of Defence. Our own inquiries have, however, proved this allegation to be unfounded.

Defence Expenditure (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year from 1997–98 to 2001–02 the RAF Personnel Manning Agency spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each year; and if he will make a statement. [215911]

Mr. Caplin: The RAF Personnel Management Agency (PMA) is located at RAF Innsworth, Gloucester and relinquished Agency status on 1 April 2004. RAF PMA does not undertake specific activity in Scotland and no staff are employed in this area. There is, therefore, no identifiable expenditure within the personnel budget.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 the Defence Geographic and Imagery Intelligence Agency spent in Scotland in (i) monetary terms and (ii) as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each year; and if he will make a statement. [216282]

Mr. Ingram: The Defence Geographic and Imagery Intelligence Agency (DGIA) was established in April 2000.

The Agency has not directly employed any staff in Scotland since its formation, although members of both JARIC and GEG have deployed to Scotland in support of Defence Training Exercises.

Rugby and Kenilworth	1	2	2	0	1	0
Shrewsbury and Atcham	6	2	1	0	1	0

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Disposal Services Agency spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215438]

Mr. Ingram: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Defence Secondary Care Agency spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215451]

Mr. Caplin: The Defence Secondary Care Agency (DSCA) was disbanded on 31 March 2003 and its functions were subsumed by the Defence Medical Education and Training Agency and the Defence Medical Services Directorate.

For the numbers of DSCA personnel employed in Scotland in 2002–03 and 2001–02 I refer the hon. Member to the answers given on 26 June 2003, *Official Report*, column 513W and 27 February 2002, *Official Report*, column 1284W. For the years 1997–98 to 2000–01 inclusive the only information available is that provided centrally by the Defence Analytical Services Agency in respect of civilian staff. This shows that no civilian staff were employed in Scotland by DSCA during that period.

Financial information, including overall personnel related expenditure, for each financial year from 1997–98 to 2002–03 is detailed in the Agency's Annual Report and Accounts for each of the years in question. These were placed in the Library of the House. Personnel expenditure by region is not held centrally and could be provided only at disproportionate cost.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Defence Procurement Agency spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215456]

Mr. Ingram: The DPA does not record costs on a geographical basis, neither does it retain historical information on the number of personnel employed in various locations, including Scotland, and as such cannot provide numbers relating to previous periods. Currently, the DPA has 112 posts in Scotland that, based on an average capitation rate, account for some £4.4 million. This is some 2.4 per cent. of the total personnel budget.

Defence Procurement

Angus Robertson: To ask the Secretary of State for Defence how much and what percentage of the UK procurement budget was spent in non-NATO countries in each year since 1997; what these figures represent as a percentage of the total defence budget in each year; and if he will make a statement. [216255]

Mr. Hoon: Estimates of equipment expenditure in non-NATO countries since 1997 are provided in the following table.

	£ million
1997–98	35
1998–99	45
1999–2000	30
2000–01	30
2001–02	25
2002–03	50
2003–04	80

These include sums spent with the United Kingdom owned companies and their subsidiaries attributed to these locations. The numbers have been rounded to the nearest £5 million.

Because of lack of consistency over time, and limited coverage in the defence procurement Vote[1], we have employed the Procurement Expenditure series that was published by the Defence Analytical Services Agency[2] in deriving the following percentages:

[1] Class 1, Vote 3, Systems Procurement and Research, was discontinued after 1998–99.

[2] The figures used were taken from Table 1.7, UK Defence Statistics 2002.

	Percentage of procurement expenditure
1997–98	0.37
1998–99	0.44
1999–2000	0.30
2000–01	0.29
2001–02	[1]n/a
2002–03	[1]n/a
2003–04	[1]n/a

[1] With the introduction of Resource Accounting and Budgeting, the Procurement Expenditure series was discontinued.

As a percentage of defence expenditure these figures constitute:

	Percentage of Defence expenditure
1997–98	0.17
1998–99	0.20
1999–2000	0.13
2000–01	0.13
2001–02	[1]0.10
2002–03	[1]0.19
2003–04	[1]0.27

[1] With the introduction of RAB there is a break in series in 2001–02. The "cash" defence expenditure figure is no longer prepared: MOD's net cash requirement has been employed in subsequent calculations to provide a figure that is roughly comparable.

Departmental Documents

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will list extant Defence Council Instructions. [217845]

Mr. Caplin: The information requested has been placed in the Library of the House.

Departmental Finance

Mr. Keith Simpson: To ask the Secretary of State for Defence by how much his Department's end of year

year 2004/05. We expect to have firmer figures of the

(a) accommodation and (b) age. [217668]

flexibility was changed following the introduction of the Treasury's cash management scheme in financial years (a) 2002–03 and (b) 2003–04. [217840]

Mr. Ingram: Following the introduction of the Treasury's cash management scheme, the Department's end year adjustment (net charge) was £10K in 2002–03 and £25K in 2003–04. These adjustments were reflected in the carry forwards for 2003–04 and 2004–05 respectively.

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will place in the Library copies of the monthly forecasts of payments and receipts provided to the Treasury under its cash management scheme for financial years 2002–03 to 2004–05. [217841]

Mr. Ingram: Copies of the monthly forecasts of payments and receipts provided to the Treasury under its cash management scheme for financial years 2002–03, 2003–04 and 2004–05 (April 2004 to January 2005) will be placed in the Library of the House in the next few days.

Mr. Keith Simpson: To ask the Secretary of State for Defence when he intends to publish his Department's SR 2004 Departmental Investment Strategy. [217842]

Mr. Ingram: The SR2004 Defence Departmental Investment Strategy will be published on the Ministry of Defence's website before Easter 2005.

Mr. Laws: To ask the Secretary of State for Defence what his latest estimate is of unallocated departmental spending in (a) 2005–06, (b) 2006–07, and (c) 2007–08; and if he will make a statement. [213263]

Mr. Ingram: I refer the hon. Member to the reply given by my right hon. Friend the Chief Secretary to the Treasury on 2 February 2005, *Official Report*, column 910W.

Diversity and Equality

Mr. Wilkinson: To ask the Secretary of State for Defence how many officially designated diversity and equality officers have been appointed in each of the three armed forces to date; whether he plans to appoint further such officers in financial year 2004–05; and what estimate he has made of the total (a) pay, (b) allowances and (c) supporting staff for these officers in 2005–06. [218019]

Mr. Caplin: The number of officially designated diversity and equality officers appointed in each of the armed forces to date is as follows:

Diversity and equality officers

Service	Number	Officer
RN/RM	1	Commander
	2	Lieutenant Commander
Army	1	Colonel
	1	Lieutenant Colonel
	2	Major
RAF	1	Warrant Officer

There are no plans to appoint any further diversity and equality officers in financial year 2004–05. The estimated cost of the total pay and allowances for designated diversity and equality officers in 2005–06, based on general capitation rates for the relevant rank or grade, is £901,894.

In the case of the Army the E1 civil servant provides dedicated support to the Equal Opportunities team. It is not possible to provide the exact cost for the RN and RAF of supporting staff as they provide services as part of a wider range of duties.

In addition, every unit of the armed forces has an Equal Opportunities Adviser (EOA) who provides support to personnel by giving advice and guidance on equality and diversity issues. EOAs are not dedicated diversity and equality officers, the duties involved are performed as part of the individual's normal role.

The total number of EOAs in the armed forces is not held centrally. EOAs do not receive any special allowances for carrying out their duties.

EU Defence Procurement

Mr. Hayes: To ask the Secretary of State for Defence if he will make a statement on his policy towards COM (2004) 608, the Communities Green Paper on Defence Procurement. [215200]

Mr. Ingram: The European Commission's Green Paper on Defence Procurement sets out to open the debate on creating a more transparent and open European defence equipment market, and on promoting further the global competitiveness of European defence industry. The Government supports any initiative that aims to create a more open, effective and competitive European Defence Equipment Market and provided a detailed response on the Green Paper to the European Commission on 15 February 2005.

Financial Submissions

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will place in the Library copies of his Department's monthly financial submissions to the Treasury's general expenditure monitoring system for (a) financial years (i) 2002–03 and (ii) 2003–04 and (b) the first nine months of 2004–05. [213584]

Mr. Ingram: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence which Ministers in his Department have visited Gibraltar in the last six months; how long each visit was; what the reason for the visit was; whom each Minister met; how many visits by Trident nuclear submarines there were to (a) Spain and (b) Gibraltar in the last three years; and what the purpose of each visit was. [217555]

Mr. Ingram: Two Defence Ministers have visited Gibraltar over the last six months. The Under Secretary of State for Defence, my hon. Friend the Member for Hove (Mr. Caplin), visited on 13–14 September 2004. He met Jewish Community Leaders, Royal Naval Hospital staff, Welfare Staff, Chief Minister, Regiment of Gibraltar members and veterans, and His Excellency the Governor. The primary purpose of the visit was

discussions relating to the Royal Naval Hospital Gibraltar. I visited Gibraltar on 10 February 2005. I met the Chief Minister, HQ British Forces Gibraltar staff, the Deputy Governor, Regiment of Gibraltar and Gibraltar Squadron personnel. The primary purpose of my visit was to inform the Chief Minister of the MOD's decision to outsource facilities management services in Gibraltar. There have been no visits to Spain or Gibraltar by Trident nuclear submarines in the last three years. .

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the number of jobs in his Department in Gibraltar; and what plans he has to change the number. [217597]

Mr. Ingram: The Ministry of Defence currently employs 519 military personnel, 61 UK based civil servants and 1,038 locally employed civilians in Gibraltar. It was announced last week that, in line with Government policy to obtain best value for defence from the tax payer's money, we are implementing in Gibraltar the current UK and overseas best practice model for delivering facilities management. This involves outsourcing all the activities of the Gibraltar Defence Estates and the Joint Logistic Unit (except laundry and Motor Transport Engineering which are subject to separate efficiency proposals). Some two military, five UK based civilian and 296 locally employed civilian posts fall within the scope of the contract and are likely to transfer to the successful contractor. In addition to this initiative, a review of the supply of support services (eg janitorial, catering and motor transport) is also underway. The review team has yet to report, but a reduction of about 70–90 posts is likely if an in-house option is secured. If not, up to 300 posts could be contractorised.

In addition, the Defence Communications and Services Agency (DCSA) in Gibraltar is also undertaking a review of its structure to improve effectiveness. It is planned that the DCSA will reduce the total number of staff and change the balance of employee types in favour of locally employed civilians. This is separate from the Defence Information Infrastructure (DII) initiative, which is due to impact on Gibraltar in 2007–08 and could lead to further outsourcing proposals. The DII initiative will replace our current administrative IT system. It is too early to assess what the impact will be, but up to 10 posts may be affected. As with all organisations, the MOD in Gibraltar will change and adapt to reflect an evolving defence need and the most effective way of delivering it.

Interrogation Techniques

Lynne Jones: To ask the Secretary of State for Defence whether the UK Government has carried out a comparative analysis of the interrogation techniques used by UK forces in South Eastern Iraq and US forces at Abu Ghraib and Guantanamo Bay. [205681]

Mr. Ingram: Although we have considered reports of the United States interrogation techniques as part of our approach to prisoner transfer arrangements, no comprehensive comparison has been undertaken.

Iraq

Tom Cox: To ask the Secretary of State for Defence what is the longest period of time that a *(a)* man and *(b)* woman has been held in detention or imprisonment by British military forces in Iraq. [208743]

Mr. Ingram: The longest period of time that a male security internee has been held by the United Kingdom forces is 22 months, since April 2003. For part of this period UK security internees were held by US forces at Camp Bucca. Since December 2003. all UK internees have been held at the UK-run Divisional Temporary Detention Facility.

Records indicate that the only female security internee held at the DTDF by UK forces was in custody for three months, between November 2003 and February 2004.

The only people currently in UK custody are security internees. The UK does not hold any criminal detainees or other categories of prisoners.

Tom Cox: To ask the Secretary of State for Defence how many *(a)* men and *(b)* women have been released from detention or prison in Iraq by British military forces since the overthrow of Saddam Hussein. [208748]

Mr. Ingram: As at 21 February 2005, 400 male security internees and one female security internee have been released from the UK's Divisional Temporary Detention Facility (DTDF) at Shaibah Logistics Base in Southern Iraq. This does not include several thousand Prisoners of War released in April and May 2003.

Harry Cohen: To ask the Secretary of State for Defence if he will list the Iraqis killed in respect of whom UK military personnel are subject to investigation but where charges have not yet been brought; and if he will make a statement. [211403]

Mr. Ingram: There are 21 Iraqi deaths for which the United Kingdom military personnel are under investigation, excluding those cases which have already been directed for trial. The names of the 21 are:

Zaher Sabti Zaher

Ather Khalaf Mohammed

Ali Saleem Aziz Mohammad

Ahmed Jabber Kareem

Said Shabram

Waleed Sayay Muzban

Baha Daoud Salim Musa

G. G. H. D. Roomi

Ali Alwan Sa'doon

Tahseen Aliwey Mustasher

Ukla Ataya, Alia Aziz, Basim Jassim Ja'Far Alar

Husband of Mrs. Zinab Hydra Hussein

Eheter Salman

Abdul Hussan Talab Hassan

Mrs. S. Kazim, Mrs. RZ Habib, Mrs. FT Zaab, Mrs. HS Naama, Mrs. S. Aziz

In addition there are 12 cases under investigation where UK forces returned fire after being attacked and believe that one or more unknown Iraqis may have been killed.

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on troop deployments in Iraq. [214110]

Mr. Ingram: There are currently approximately 9,200 UK service personnel deployed on Operation TELIC, of which 7,900 are currently serving in Iraq. The figure includes 220 additional personnel deployed from 1 February 2005 in order to provide logistics and other essential support following the expected Dutch withdrawal from Al Muthanna province in March 2005. Approximately 70 of these personnel will return to the UK in March.

Mr. Salmond: To ask the Secretary of State for Defence what plans his Department has made for permanent military bases and posts in Iraq; and if he will make a statement. [218826]

Mr. Ingram: There are no plans for any permanent UK military bases in Iraq.

Harry Cohen: To ask the Secretary of State for Defence how many deaths there have been in custody in Iraq *(a)* under UK forces control and *(b)* under US forces control; how many individuals taken into custody in Iraq have been moved outside the country by (i) UK forces and (ii) US forces; how many complaints alleging maltreatment of individuals taken into custody in Iraq have been made against (A) UK forces and (B) US forces; and if he will make a statement. [206717]

Mr. Ingram *[holding answer 10 January 2005]:* The service police have investigated seven incidences where individuals have died while in the custody of UK forces in Iraq. Three deaths occurred during detention at a UK facility, three occurred during operations shortly after the individuals were taken into custody, but before they had been formally detained, and one occurred during the transfer of a detainee on an aircraft. No individuals taken into custody by UK forces have been removed from Iraq. We have recorded 14 formal complaints made by detainees about their treatment after being taken into custody by the UK armed forces. All 14 have been investigated by the service police. We do not hold this information for US forces.

Kosovo

Joan Ruddock: To ask the Secretary of State for Defence what the cost to the UK was of military action in Kosovo. [217431]

Mr. Ingram *[holding answer 24 February 2005]:* The Ministry of Defence identifies the costs of operations in terms of the net additional costs it has incurred.

Additional costs incurred for Kosovo are as follows:

	£ million
1998–99	13.9
1999–2000	325.2
2000–01	220
2001–02	141.9
2002–03	87
Total	788

From 2003–04 operations in Kosovo and Bosnia were merged into a joint Balkans operation for which costs are gathered centrally. The cost for the Balkan Operation (Kosovo/Bosnia) for 2003–04 was £103.6 million.

Figures for 2004–05 will be published in the MOD's Annual Report and Accounts for 2004–05 in the autumn.

Nepal

Clare Short: To ask the Secretary of State for Defence whether he plans to review the provision by his Department of military assistance and training to the Government of Nepal following King Gyanendra's abolition of democracy in the country; and if he will make a statement. [215938]

Mr. Ingram: Her Majesty's Government are extremely concerned by the recent events in Nepal and by the actions of the King there. We are monitoring the situation as it develops and working closely with interested countries such as India and the US to achieve a co-ordinated international response. As announced on 21 February, we have suspended plans to deliver to Nepal a package of non-lethal military equipment. We are also keeping under review other aspects of our policy with regard to Nepal, including the issue of military training.

Northern Ireland

Lady Hermon: To ask the Secretary of State for Defence what figures the Government uses as representing the total number of service personnel who have died in the troubles in Northern Ireland *(a)* on active duty, *(b)* through suicide and *(c)* through accidents. [216410]

Mr. Caplin: The Ministry of Defence does not hold centrally compiled data covering deaths that occurred before 1984 as information on them is known to be unreliable.

During the period 1 January 1984 and 31 December 2004, there were a total of 228 deaths of regular service personnel in Northern Ireland. Of these, 132 occurred on-duty and 49 occurred off-duty. The duty status of 47 personnel cannot be readily identified.

The term "active service" has various meanings in different contexts. However, the Service Discipline Act contains a specific definition for the purposes of that legislation. In order to avoid a more restrictive interpretation than may be intended by the question, the above figure is based on all deaths that have occurred on-duty.

Forty-five of the 228 deaths were suicide or open verdict deaths, a further 86 of the 228 deaths were due to accidents. Some of the suicide and open verdict deaths, and deaths due to accidents occurred on duty and some occurred off duty. There are currently five deaths that are awaiting a coroner's verdict.

In addition, between 1 January 1984 and 31 December 2004, there were 32 deaths among non-regular service personnel (TA, Royal Irish Regiments 3–9, NRPS, Reserve) in Northern Ireland. Of these, 10 were due to suicide and open verdicts. Information on the cause of the remaining 22 has not been centrally compiled.

Porton Down

Mr. Dalyell: To ask the Secretary of State for Defence pursuant to the letter reference D/US of S/K 0565/05/L of 8 February to the hon. Member for Linlithgow, when he expects to obtain a date for the Judicial Review into aspects of the death of service volunteers at Porton Down in the 1950s and 1960s. [218429]

Mr. Caplin: An application seeking permission judicially to review the inquest into the death of Ronald Maddison has been filed in court. The parties are due to acknowledge receipt formally. It is anticipated that formal permission to go to judicial review, if granted, will be given during April, with potential for the hearing in late spring or early summer.

Procurement Costs

Mr. Soames: To ask the Secretary of State for Defence what the current forecast unit production cost is of the *(a)* Nimrod MRA4 and *(b)* Type 45 destroyer. [217961]

Mr. Ingram: A contract for the production of 12 Nimrod MRA4 is planned for later in 2005 at which time a forecast unit production cost will be established. The current forecast unit production cost of a Type 45 Destroyer is £576 million based on the currently approved programme of six ships.

Mr. Soames: To ask the Secretary of State for Defence what discussions his Department has had with BAE Systems on *(a)* price and *(b)* time variations on the (i) Nimrod and (ii) Type 45 destroyer projects. [217963]

Mr. Ingram: The Ministry of Defence is in constant discussion with BAE Systems on a wide range of issues on both of these projects including time and cost.

Negotiations are planned for the latter part of 2005 leading to a contract for the production phase of Nimrod MRA4, and to complete the contracting arrangements for the second batch of Type 45s (ships 4–6).

US Nuclear Weapons

Llew Smith: To ask the Secretary of State for Defence how many United States nuclear weapons are deployed in the United Kingdom; and what plans there are to change the numbers. [217488]

Mr. Hoon: I have nothing to add to the answer I gave on 28 April 2004, *Official Report*, column 996W, to the hon. Member for Ceredigion (Mr. Thomas).

Llew Smith: To ask the Secretary of State for Defence what assessment he has made of the interoperability of United Kingdom nuclear weapons with *(a)* current United States forces and *(b)* future United States forces and equipment deployed (i) in the United Kingdom and (ii) at United Kingdom bases elsewhere. [217489]

Mr. Ingram: No such assessment has been made.

World Security

Mr. Hancock: To ask the Secretary of State for Defence what the nature is of the standing commitment referred to in each of the tables in the annex to Cm 6269, "Delivering Security in a Changing World: Future Capabilities". [199990]

Mr. Ingram: The annex to the "Delivering Security in a Changing World: Future Capabilities" White Paper (Cm 6269) set out the force elements required to deliver UK defence policy, including meeting a range of 'Standing Commitments'. The force elements shown in the 'Standing Commitments' column in the annex are those permanently committed to a range of Military Tasks which are required concurrently with the forces for contingent operations (as described in the introduction to the annex). These include Strategic Intelligence; Nuclear Deterrence; Integrity of UK Waters and Airspace; and Defence and Security of the Overseas Territories.

These Military Tasks (grouped under the headings: Standing Strategic Tasks and Standing Home and Overseas Commitments) are described in Supporting Essay 2 in the "Delivering Security in a Changing World" White Paper (Cm 6041) of December 2003. These 'Standing Commitments' are part of the Department's overall approach to force structure planning. They should not be confused with the routine activities on which military units are employed on a day to day basis (tasks known colloquially as current military tasks or 'standing tasks' by the Royal Navy).

FOREIGN AND COMMONWEALTH AFFAIRS

Burma

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the UN Security Council regarding illicit drug production and trafficking in Burma. [209372]

Mr. Rammell: We have not made any representations to the UN Security Council specifically about the drug situation in Burma, since opium and amphetamine production and trafficking from Burma, although serious, does not represent a direct threat to the UK.

We have however made clear to the UN, including members of the Security Council, our concerns about the situation in Burma, in which the destabilising effect of drugs is one part. There is no consensus at present to bring Burma before the Security Council.

Chagos Archipelago

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the British representative in Diego Garcia and *(b)* the US authorities about the impact of the Indian Ocean earthquake and tsunami on the Chagos Archipelago. [207842]

Mr. Rammell: My officials are in daily contact with the British Representative on Diego Garcia who, in liaison with the US authorities there, has provided information about the damage sustained to the British Indian Ocean Territory.

Initial reports from the British Representative suggested that the island sustained minimal damage. The most significant damage occurred in the south of the island, where a 500 metre tract of vegetation was destroyed. There was no loss of human life or damage to

facilities. He has also reported that there has been no visible damage to the outer islands. The British Indian Ocean Territory Conservation Adviser will visit the Territory in February to make a formal assessment.

China

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Chinese authorities about the detention of the Chinese journalist Zhao Yan; and if he will make a statement on freedom of the press in China. [216123]

Mr. Rammell: We are aware of Zhao Yan's case and are monitoring the situation. We are concerned about the freedom of the press in China and regularly raise our concerns at our biannual UK/China Human Rights Dialogue, the last round of which was held in Beijing on 22 November 2004.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what the differences are between the European Code of Conduct on Arms Export criteria and the European Arms Embargo criteria as they apply to China; and if he will make a statement. [216124]

Mr. Rammell: The EU Code of Conduct on Arms Exports was adopted by the Council of the European Union on 8 June 1998. It contains eight criteria which member states must follow when assessing applications for export of items on an agreed Common List of Military Equipment, which extends significantly beyond directly lethal weapons. In the UK, the Code is applied through the Consolidated EU and National Arms Export Licensing Criteria, set out in a Statement given to my hon. Friend the Member for Crawley (Laura Moffatt) on 26 October 2000, *Official Report*, columns 199–203W, by the then Minister of State at the Foreign and Commonwealth Office, my right hon. Friend the Member for Neath (Mr. Hain). The Code also contains the obligation on member states to provide data for an annual report on EU arms exports, and a denial notification and consultation mechanism. The embargo has no such transparency arrangements.

The EU Arms Embargo on China predates the Code and the establishment of the EU's Common Foreign and Security Policy. In contrast with the Code, member states are free to interpret the embargo as they see fit, and there is no common understanding of its scope. The UK's interpretation was set out by the then Minister of State at the Foreign and Commonwealth Office, the late Derek Fatchett, in his reply to my hon. Friend the Member for Gedling (Vernon Coaker) on 3 June 1998, *Official Report*, columns 240–41.

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by his Department on *(a)* indoor bought plants, *(b)* indoor hired plants, *(c)* outdoor bought plants and *(d)* outdoor hired plants in each year since 1997. [205590]

Mr. Rammell: The cost for providing *(a)* indoor bought plants, *(b)* indoor hired plants, *(c)* outdoor bought plants and *(d)* outdoor hired plants in each year since 1997 could be obtained only at disproportionate cost.

Diplomatic Posts

Mr. Wilkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what effects on UK interests in South America he expects there to be as a result of the closure of the British embassy in Asunción, Paraguay. [217754]

Mr. Rammell *[holding answer 28 February 2005]:* The decision to close the British embassy in Asunción was taken based on the need to align our resources with our priorities, to maximise efficiency and ensure that the UK has a cost-effective and flexible network of overseas representation.

Her Majesty's Government continue to engage actively with Latin American Governments. I have travelled extensively in the region, taking the opportunity to discuss important bilateral and multilateral issues. The UK and Latin America share many values and international concerns and I have no doubt that our strong links will continue.

As we have made clear to the Paraguayan Government, we aim to conduct future relations and look after UK interests, via the accreditation of our ambassador in Buenos Aires and through the appointment of an honorary consul in Asunción.

EU Constitutional Treaty

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs how he plans to co-ordinate his Department's efforts to promote the Constitutional Treaty for the European Union with the EU Parliament's task force. [218227]

Mr. MacShane: I have no such plans.

EU Enlargement

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of Article I-5 of the Treaty Establishing a Constitution for Europe on *(a)* future internal enlargement of the EU whereby part of an existing member state becomes a separate member state of the EU, *(b)* transfer of territory from one member state to another and *(c)* the scope of possible arrangements between the UK and Spain on the future of Gibraltar. [218323]

Mr. MacShane: In relation to *(a)* and *(b)* , the hypothetical implications, legal and political, of part of an existing EU member state becoming independent or of the transfer of territory from one member state to another would have to be considered at the time in the light of all the circumstances. In relation to *(c)* the EU Constitutional Treaty preserves continuity for Gibraltar's status.

European Constitution

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* a

decision in Parliament and *(b)* a referendum will be required for the accessions of Bulgaria, Romania and Turkey to the EU if the European Constitution is ratified and accession negotiations are successful. [218018]

Mr. MacShane: Romania and Bulgaria officially closed their accession negotiations at the European Council in December 2004. The EU will sign an Accession Treaty with both countries on 25 April with the aim of completing their accession on 1 January 2007. As in the case of previous enlargements, a referendum is not necessary but legislation will be needed to amend the European Communities Act 1972 to give effect to the Accession Treaty in UK law. The same procedure will apply for Turkey if its accession negotiations are successful.

For applications made after entry into force of the Constitutional Treaty, there would be one change to the existing procedures. The existing Treaties require an application to join the EU to be "addressed to the Council". The Constitutional Treaty would require, in addition, that in future

> "The European Parliament and national parliaments shall be notified of this application".

But the remaining stages of an accession process (including those in the UK) would, under the Constitutional Treaty, proceed along the same lines as at present.

European Court of Justice

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* name and *(b)* nationality is of each member of the European Court of Justice; and if he will list for each member (i) any known political affiliation, (ii) any known religious affiliation or denomination and (iii) any known membership of trade unions, Masonic organisations, religious groups or other bodies. [218427]

Mr. MacShane: The members of the European Court of Justice are:

Vassilios Skouris, Greek
Francis Geoffrey Jacobs, British
Claus Christian Gulmann, Danish
Antonio Mario La Pergola, Italian
Jean-Pierre Puissochet, French
Philippe Léger, French
Peter Jann, Austrian
Dámaso Ruiz-Jarabo Colomer, Spanish
Romain Schintgen, Luxembourgeois
Ninon Colneric, German
Stig von Bahr, Swedish
Antonio Tizzano, Italian
José Narciso da Cunha Rodrigues, Portuguese
Christiaan Willem Anton Timmermans, Dutch
Leendert A. Geelhoed, Dutch
Christine Stix-Hackl, Austrian
Allan Rosas, Finnish
Rosario Silva de Lapuerta, Spanish
Koen Lenaerts, Belgian
Juliane Kokott, German
Luis Miguel Poiares Pessoa Maduro, Portuguese
Konrad Hermann Theodor Schiemann, British
Jerzy Makarczyk, Polish
Pranas Kuris, Lithuanian
Endre Juhász, Hungarian
George Arestis, Greek
Anthony Borg Barthet, Maltese
Marko Ilesic, Slovenian
Jiri Malenovsk?, Czech
Jan Klucka, Slovakian
Uno Lõohmus, Estonian
Egils Levits, Latvian
Aindrias O Caoimh, Irish
Roger Grass, French

Like judges in most democracies members of the European Court of Justice (ECJ) are not required to disclose the religious, political or other details sought by the hon. Member. Details of the members' backgrounds can, however, be found on the ECJ website: http://www.curia.eu.int/.

Iraq

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his statement on Iraq on 31 January 2005, *Official Report*, column 573, what the source is of the statement that the remains of 300,000 people had been buried in mass graves in Iraq; and what steps the Government have taken to verify these figures. [214216]

Mr. Rammell: In May 2003 Human Rights Watch estimated that there were at least 290,000 people missing in Iraq and stated

> "the answer to their whereabouts likely lies in these graves".

USAID is quoted as estimating in January this year that there are between 260 and 270 mass graves in Iraq and they estimate that between 300,000 and 400,000 people are buried in them. More recent estimates of the number of mass graves have revised the figure downward to 187. The final figure will not be known until all the graves have been completely exhumed. The figures we have used are the best estimates available to us at the moment.

We are working with the authorities in Iraq and in co-ordination with the United Nations to establish a national centre for missing persons and exhumations policy in Baghdad. It will provide the forensic and social expertise to manage the sensitive task of helping reunite families with the remains of their lost relatives and provide forensic evidence to support prosecutions of those who perpetrated mass murder. We have provided training for forensic and other experts who will carry out the exhumations and we are also providing judicial, prosecutor and investigator training for the Iraq Special Tribunal tasked with bringing to justice those responsible for mass killings in Iraq. So far one gravesite in Hatra has been partially exhumed to obtain forensic evidence for prosecutions and a second exhumation is planned soon. No official humanitarian exhumations have begun partly due to poor security but also because the infrastructure has not yet been established to manage this properly. We will continue to work with the Iraqi authorities and the United Nations to establish this infrastructure so that humanitarian exhumations can start as soon as possible.

Lesotho

Mr. Swayne: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the withdrawal of the UK High Commissioner to Lesotho. [217774]

Mr. Mullin: Our high commissioner to Lesotho has not been withdrawn. As my right hon. Friend the Foreign Secretary made clear in his written statement on 15 December 2004, *Official Report*, columns 137–41WS, we are making changes to our overseas network to reflect changing demands and challenges and to ensure the UK has a cost-effective and flexible network of overseas representation. This involves the closure of several diplomatic posts including the high commission in Maseru. We envisage the high commission closing around the end of 2005.

This is in no way a reflection on the current Government of Lesotho or on the quality of our bilateral relations. We will work with the Government of Lesotho to establish alternative forms of British representation, probably through an honorary consul in Maseru, supported by non-resident accreditation from Pretoria.

Ministerial Articles (Remuneration)

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial remuneration has been received by Ministers in his Department for the writing of articles in foreign media since May 1997. [216063]

Mr. Straw: None.

Russia

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs when *(a)* he and *(b)* a delegation from his Department last visited Russia. [217757]

Mr. Straw *[holding answer 24 February 2005]:* My last visit to Russia was from 6–7 July 2004, although I regularly see Russian Foreign Minister Lavrov in the margins of international meetings and speak to him on the telephone.

Foreign and Commonwealth Office Ministers and staff frequently make working visits to Russia. The most recent was on 21–22 February, when my hon. Friend the Minister responsible for the UK's relations with Russia, my hon. Friend the Member for Harlow (Mr. Rammell) visited Moscow. In addition to his programme of meetings with the Russian Government, my hon. Friend launched a major UK-Russia education initiative for the North Caucasus and took part in a conference on "British Political Traditions and Russian Reform".

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to meet the Russian Foreign Minister. [217758]

Mr. Straw *[holding answer 24 February 2005]:* I plan to have a bilateral meeting with the Russian Foreign Minister, Sergei Lavrov, in London on 1 March. Mr. Lavrov will attend "The London Meeting on Supporting the Palestinian Authority" the same day.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* he and *(b)* other Ministers in his Department have plans to visit Russia. [217759]

Mr. Straw: I do not have any plans to visit Russia in the immediate future. However, I will be meeting Russian Foreign Minister Lavrov in London on 1 March.

As the Under-Secretary of State for Foreign and Commonwealth Affairs, my hon. Friend the Member for Harlow (Mr. Rammell) has visited Russia very recently, there are not yet plans for another visit by a Foreign and Commonwealth Office Minister.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* he and *(b)* members of his Department plan to visit the Russian Economic Forum taking place in London from 10 to 12 April. [217760]

Mr. Straw *[holding answer 24 February 2005]:* At the moment I have no plans to attend the Russian Economic Forum, although the Foreign and Commonwealth Office will certainly be represented. In previous years Foreign and Commonwealth Office Ministers and officials have played an active part in the Forum, which is the most important annual UK-Russia economic event.

UN Committee on Torture

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the United Nations Committee on Torture's conclusions in relation to the UK's adherence to the Convention against Torture in Iraq and Afghanistan. [202531]

Mr. Rammell: The United Kingdom Government notes the Concluding Observations of the United Nations Committee against Torture following its dialogue with the Committee on the UK's 4th Periodic Report on 17 and 18 November. The Government always takes seriously the recommendations made by any of the UN's treaty monitoring bodies.

The Government are studying the Committee's observations and recommendations in detail, including on the application of the UN Convention in Iraq and Afghanistan, and will respond to the Committee well within the period of one year set by the Committee.

HEALTH

Alcohol-related Hospital Admissions

Mr. Gill: To ask the Secretary of State for Health how many admissions to *(a)* the Leicester Royal Infirmary accident and emergency department and *(b)* accident and emergency departments in England were found to be directly caused by alcohol consumption in each year since 1997. [217987]

Dr. Ladyman: The information requested is not available in the format requested. However, information for finished admission episodes for alcohol-related incidents is shown in the following tables.

Alcohol related accidents[1]: count of finished admission episodes for listed trusts, national health service hospitals in England—1996–97 to 2003–04

	Leicester Royal Infirmary NHS trust	*Total figures for Leicester Royal Infirmary NHS trust, Leicester general hospital NHS trust, Glenfield hospital NHS trust*	*University hospitals of Leicester NHS trust*
1996–97	77	80	—
1997–98	79	83	—
1998–99	140	144	—
1999–2000	85	89	—
2000–01	—	—	83
2001–02	—	—	75
2002–03	—	—	98
2003–04	—	—	207

[1] ICD—10 codes = "alcohol related accidents" as advised by NHSIA Clinical Coding Service Primary Diagnosis:
SOO—T74 Injuries (excludes certain cause of injury).
Secondary Diagnosis:
F10—Mental and behavioural disorders due to use of alcohol.
R78.0—Finding of alcohol in blood.
X45—Alcohol poisoning and exposure to alcohol.
Y90—Evidence of alcohol involvement determined by alcohol level.
Y91—Evidence of alcohol involvement determined by level of intoxication.
Notes:
1. The Leicester Royal Infirmary ceased to exist as an independent trust in 2000–01, when it merged with Leicester general hospital NHS trust and Glenfield hospital NHS trust to form university hospitals of Leicester NHS trust. Figures have been provided in column one for Leicester Royal Infirmary NHS trust, and a total in column two in order to provide equivalent figures for the three trusts that now constitute the university hospitals of Leicester NHS trust column three.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), Department of Health.

Alcohol related accidents[1]: count of finished admission episodes for listed trusts, national health service hospitals in England—1996–97 to 2003–04

	Finished admission episodes
1996–97	23,546
1997–98	25,294
1998–99	24,157
1999–2000	24,519
2000–01	23,570
2001–02	23,198
2002–03	22,787
2003–04	27,902

[1] ICD—10 codes = "alcohol related accidents" as advised by NHS Information Authority clinical coding service.
Primary Diagnosis:
SOO—T74 Injuries (excludes certain cause of injury).
Secondary Diagnosis:
F10—Mental and behavioural disorders due to use of alcohol.
R78.0—Finding of alcohol in blood.
X45—Alcohol poisoning and exposure to alcohol.
Y90—Evidence of alcohol involvement determined by alcohol level.
Y91—Evidence of alcohol involvement determined by level of intoxication.
Notes:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), Department of Health.

Ambulance Services

Tom Cox: To ask the Secretary of State for Health how much has been spent on ambulance services within the Greater London area in each of the last three years. [215143]

Dr. Ladyman: The London Ambulance Service National Health Service Trust covers the whole Greater London area.

The information requested is not held centrally. However, the table shows income figures for the London Ambulance Service NHS Trust for the past three years.

Income—London Ambulance Services NHS Trust

	Amount (£)
2001–02	135,775,000
2002–03	160,750,000
2003–04	168,508,000

Mr. Hoyle: To ask the Secretary of State for Health (1) how many ambulances are operational in Lancashire during the *(a)* day and *(b)* night; [216829]

(2) what the average time patients waited to be taken home by ambulance following discharge was at *(a)* Chorley Hospital and *(b)* Preston Hospital in the last period for which figures are available. [216892]

Miss Melanie Johnson: The information requested is not collected centrally.

Child Mental Health

Mr. Hoyle: To ask the Secretary of State for Health how many specialists in child mental health are employed in Lancashire Mental Health Trust. [216893]

Miss Melanie Johnson: The information requested is shown in the table.

Hospital, public health medicine and community health service: medical staff within the child and adolescent psychiatry specialty in Lancashire Care National Health Service Trust—as at 30 September 2003

	Number (headcount)
All staff	1
of which:	
Senior house officer	1

Source:
Department of Health medical and dental workforce census.

Departmental Expenditure (Research and Development)

Mrs. Anne Campbell: To ask the Secretary of State for Health what *(a)* his Department's expenditure and *(b)* the expenditure of each agency for which his Department is responsible on research and development relating to UK university departments and research centres was in each year between 2001–02 and 2003–04. [206997]

Miss Melanie Johnson: I refer my hon. Friend to the reply I gave on 15 February 2005, *Official Report*, columns 139–42W.

Drug Misusers

Mr. Lansley: To ask the Secretary of State for Health how many drug misusers were also diagnosed with mental illness in each year since 1986; and what proportion these figures represent of the total number of drug misusers in each year. [216156]

Miss Melanie Johnson: The data are not collected centrally.

Endometriosis

Mr. Lansley: To ask the Secretary of State for Health how much funding has been provided for research into endometriosis in each year since 1997–98. [216180]

Miss Melanie Johnson: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

MRC expenditure in the seven years from 1997–98 on research into endometriosis is shown in the table.

	£ million
1997–98	1.7
1998–99	1.8
1999–2000	1.8
2000–01	1.2
2001–02	1.2
2002–03	1.0
2003–04	Not yet available

The MRC does not normally allocate funds to particular topics. Research proposals in all areas compete for the funding available. When appropriate, high quality research, in particular areas of strategic importance, may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service. The Department's national research programme has, since 1997, funded one project related to endometriosis at a cost, to 31 March 2004, of £320,000.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of completed and ongoing projects, including a number concerned with endometriosis, can be found on the national research register at www.dh.gov.uk/research.

Food Dyes

Dr. Gibson: To ask the Secretary of State for Health what evidence the Food Standards Agency has examined concerning the effect of azo dyes other than Sudan I in food. [217714]

Miss Melanie Johnson: The Food Standards Agency has reviewed the available safety data on three other Sudan dyes (Sudan II, Sudan III and Sudan IV) and concluded that as with Sudan I that they should also be regarded as genotoxic carcinogens.

A number of other azo dyes are permitted for use as food colours in the European Union based on opinions on their safety delivered by independent experts on the Scientific Committee on Food. The safety of all permitted additives is kept under review. The European Commission has recently asked the European Food Safety Authority to re-evaluate the safety of all permitted food additives.

General Practitioners (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health what the average number of people per general practitioner is in *(a)* Chorley constituency and *(b)* the Chorley and South Ribble Primary Care Trust. [216827]

Miss Melanie Johnson: The information is not available relating to the Chorley constituency. Information relating to the Chorley and South Ribble Primary Care Trust (PCT) is shown in the table.

Population per general medical practitioner (excluding retainers, registrars and locums), for Chorley and South Ribble PCT—as at 30 June 2004

Chorley and South Ribble 5F2	*Number (headcount)*
All general medical practitioners (excluding retainers, registrars and locums)	115
Weighted population	201,241
Population per general medical practitioner (excluding retainers, registrars and locums)	1,750

Note:

All practitioners (excluding retainers, registrars and locums) include general medical service (GMS) unrestricted principals, personal medical service (PMS) contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (para. 52 SFA), PMS other and flexible career scheme GPs and GP returners.

Sources:

Department of Health GMS and PMS statistics.

Department of Health populations adjusted for age and need using the GMS non cash-limited component of the weighted capitation formula.

Health Service Expenditure

Geraldine Smith: To ask the Secretary of State for Health how much public funding has been spent on health in Morecambe and Lunesdale in each of the last 10 years. [216780]

Miss Melanie Johnson: Expenditure based on individual constituencies is not available, nor are data prior to 1996–97. The expenditure in Morecambe Bay Health Authority area and Cumbria and Lancashire Strategic Health Authority area is shown in the table.

Expenditure in Morecambe Bay Health Authority and Cumbria and Lancashire Strategic Health Authority

Morecambe Bay Health Authority area	*£000*
1996–97	202,763
1997–98	203,353
1998–99	253,162
1999–2000	327,800
2000–01	424,583
2001–02	555,771
2002–03	n/a
2003–04	n/a
Cumbria and Lancashire Strategic Health Authority area	
1996–97	n/a
1997–98	n/a
1998–99	n/a
1999–2000	n/a
2000–01	n/a
2001–02	n/a
2002–03	2,337,249
2003–04	2,421,861

Notes:

1. Expenditure is taken from audited health authority summarisation forms and primary care trust summarisation schedules, which are prepared on a resource basis and therefore differ from cash allocations in the year. Figures are given in cash terms.
2. Allocations per weighted head of population provide a much more reliable measure to identify differences between funding of health authorities and primary care trusts.
3. Figures for 1996–97 to 2001–02 have been prepared using gross expenditure figures. Figures for 2002–03 and 2003–04 have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning healthcare or other services.
4. In many health authorities there are factors which distort the expenditure. These include:
the health authority acting in a lead capacity to commission healthcare or fund training on behalf of other health bodies; and asset revaluations in national health service trusts being funded through health authorities or primary care trusts.
Cumbria and Lancashire acting as paying authority for student bursaries.
5. For these reasons expenditure cannot be compared reliably between health authorities or between different years.

Sources:

1. Morecambe Bay Health Authority audited accounts 1996–97 and 1997–98.
2. Morecambe Bay Health Authority audited summarisation forms 1998–99 to 2001–02.
3. Cumbria and Lancashire Strategic Health Authority audited summarisation forms 2002–03 and 2003–04.
4. Primary care trust audited summarisation schedules 2003–04 for bodies within the above health authority areas.

Mrs. Fitzsimons: To ask the Secretary of State for Health what the average health expenditure per head of population in Rochdale constituency was in *(a)* 1997 and *(b)* 2004. [217369]

Miss Melanie Johnson: Information requested on expenditure based on individual constituencies is not collected.

However, the expenditure per weighted head of population in Bury and Rochdale health authority in 1996–97 was £645.61 and in the Greater Manchester strategic health authority (SHA) area in 2003–04 £1,097.30.

Sources:

Bury and Rochdale Health Authority audited accounts 1996–97
Greater Manchester SHA audited summarisation forms 2003–04
Primary care trust audited summarisation schedules 2003–04 for bodies within the Greater Manchester area.
Weighted population figures 1996–97 and 2003–04.

HIV/AIDS

Mr. Evans: To ask the Secretary of State for Health what the cost to *(a)* Hyndburn and Ribble Valley Primary Care Trust and *(b)* Preston Primary Care Trust for treating AIDS patients was in the last year for which figures are available. [217476]

Miss Melanie Johnson: The information requested is not collected centrally. In line with our policy of "Shifting the Balance of Power", primary care trusts (PCTs) now control over 80 per cent., of the national health service budget and are responsible for planning and developing services according to the health needs of local people. In 2004–05, Hyndburn and Ribble Valley PCT and Preston PCT received allocations of £114.1 million and £155 million respectively.

By 2007–08, these allocations will increase to £166.4 million and £207 million.

Mental Health

Mr. Lansley: To ask the Secretary of State for Health how many patients in NHS hospitals in England have been under the care of *(a)* a mental illness consultant and *(b)* a learning disabilities consultant in each year since 1986. [216165]

Ms Rosie Winterton: Information is not available in the format requested. Information on the number of admissions to national health service hospitals under mental illness and learning disability specialties in each year since 1986 is shown in the table.

Admissions to NHS hospitals under mental illness and learning disability specialties, 1986–87 to 2003–04

	Mental illness	*Learning disability*
1986	197,250	40,060
1987–88	187,800	37,600
1988–89	190,600	36,800
1989–90	185,010	39,110
1990–91	188,310	48,360
1991–92	200,110	48,570
1992–93	209,730	51,410
1993–94	217,310	52,500
1994–95	216,550	53,990
1995–96	214,560	52,500
1996–97	210,320	53,200
1997–98	203,760	54,030
1998–99	198,640	44,580
1999–2000	195,320	37,920
2000–01	186,990	35,610
2001–02	182,220	38,200
2002–03[1]	174,450	35,180
2003–04[1]	162,250	28,820

[1] Figures for 2002–03 and 2003–04 have not yet been adjusted for shortfalls in data.

Note:

Data for 1986 are for the calendar year. From 1987 to 1988, data are for financial years.
Figures have been rounded to the nearest 10.
The columns in the table relate to patients who are admitted to hospital under mental illness and learning disability specialties.

Source:

Hospital Episode Statistics.

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* men and *(b)* women have been detained under (i) section 2, (ii) section 3 and (iii) section 4 of the Mental Health Act 1983 in England in each year since 1986; and how many have been voluntarily detained as psychiatric in-patients in each year since 1986. [216175]

Ms Rosie Winterton: Information is not available in the requested format. Information on the number of detentions under sections 2, 3 and 4 of the Mental Health Act 1983 of patients, on admission and subsequent to admission in national health service facilities, including high security psychiatric hospitals, in England in each of the last 17 and eight years for which data are available is shown in table A. Information on the number of detentions under these sections of the Act of patients on admission and subsequent to admission in independent hospitals in England in each of the last eight years for which information is available is shown in table B. Information on the gender of patients detained subsequent to admission to hospital is not collected.

Table A: Number of detentions under the Mental Health Act 1983 of patients, on admission under Section 2, Section 3 and Section 4 and subsequent to admission in NHS facilities (including high security psychiatric hospitals), in England, 1987–88 to 2003–04

		Detentions on admission in NHS facilities						
		Male			Female			
	Total detentions (on admission and subsequent to admission) in NHS facilities	Section 2	Section 3	Section 4	Section 2	Section 3	Section 4	Detentions subsequent to admission in NHS facilities
2003–04	31,852	6,908	4,437	865	6,742	3,798	718	8,384
2002–03	31,952	6,989	4,460	900	6,634	3,926	903	8,140
2001–02	32,082	6,530	4,272	1,059	6,497	3,877	976	8,871
2000–01	32,348	6,746	4,729	967	6,406	4,226	816	8,458

1998–99	32,398	6,632	4,657	937	6,568	4,434	752	8,418
1997–98	30,212	6,140	4,580	857	6,085	4,274	723	7,553
1996–97	28,022	5,652	4,402	788	5,432	4,077	694	6,977
1995–96	29,098	6,078	4,671	733	6,214	4,244	630	6,528
1994–95	28,918	6,376	4,188	726	6,472	4,143	685	6,328
1993–94	26,430	5,952	3,713	640	6,209	3,719	656	5,541
1992–93	24,350	5,451	3,108	633	5,963	3,243	604	5,348
1991–92	23,125	5,089	2,616	800	5,980	2,858	755	5,027
1990–91	20,786	4,504	1,881	687	5,639	2,168	799	5,108
1989–90	18,741	4,195	1,415	822	5,286	1,578	1,047	4,398
1988–89	18,910	4,010	1,312	879	5,416	1,517	1,139	4,637
1987–88	17,218	3,655	1,182	940	5,060	1,313	1,240	3,828

Notes:

1. A patient may be detained more than once.
2. Data on patients detained subsequent to admission were not collected in respect of high security psychiatric hospitals prior to 1996–97.
3. Data on patients detained subsequent to admission are not collected by gender.
4. Data on patients detained in 1986 were collected on a calendar year basis and therefore are not included in the table.
5. Detentions subsequent to admission include changes from Section 136 to Sections 2 and 3 and Informal to Sections 2 and 3.
6. Section 4 are emergency admissions therefore changes from Informal to Section 4 are not collected.

Table B: Number of detentions under the Mental Health Act 1983 of patients, on admission under Section 2, Section 3 and Section 4 and subsequent to admission in independent hospitals, in England, 1996–97 to 2003–04

		Detentions on admission in independent facilities						
		Male			Female			
	Total detentions (on admission and subsequent to admission) in independent facilities	Section 2	Section 3	Section 4	Section 2	Section 3	Section 4	Detentions subsequent to admission in independent facilities
2003–04	1,253	262	395	1	198	257	6	134
2002–03	1,286	264	370	6	159	251	6	230
2001–02	1,680	329	476	11	244	370	9	241
2000–01	1,367	271	406	6	220	299	6	159
1999–2000	1,480	302	381	9	243	288	10	247
1998–99	1,289	261	313	12	193	248	18	244
1997–98	1,061	208	246	11	181	211	9	195
1996–97	941	166	198	15	156	214	24	168

Notes:

1. A patient may be detained more than once.
2. Data on patients detained subsequent to admission were not collected in respect of Independent hospitals prior to 1996–97.
3. Data on patients detained subsequent to admission are not collected by gender.
4. Detentions subsequent to admission include changes from Section 136 to Sections 2 and 3 and Informal to Sections 2 and 3.
5. Section 4 admissions are emergency admissions therefore changes from Informal to Section 4 are not collected.

Information on the number of admissions to NHS hospitals under mental illness and learning disability specialties since 1986 is shown in table C. This includes both voluntary and compulsory admissions. This information is not available for the independent sector.

	Mental illness	*Learning disability*
1986	197,250	40,060
1987–88	187,800	37,600
1988–89	190,600	36,800
1989–90	185,010	39,110
1990–91	188,310	48,360
1991–92	200,110	48,570
1992–93	209,730	51,410
1993–94	217,310	52,500
1994–95	216,550	53,990
1995–96	214,560	52,500
1996–97	210,320	53,200
1997–98	203,760	54,030
1998–99	198,640	44,580
1999–2000	195,320	37,920
2000–01	186,990	35,610
2001–02	182,220	38,200
2002–03[1]	174,450	35,180
2003–04[1]	162,250	28,820

[1] Figures for 2002–03 and 2003–04 have not yet been adjusted for shortfalls in data.

Notes:

1. Data for 1986 is for the calendar year. From 1987 to 1988, data is for calendar years.
2. Figures have been rounded to the nearest 10.
3. The columns in the table relate to patients who are admitted to hospital under mental illness and learning disability specialities.

Source:

Hospital Episode Statistics.

Mr. Hoyle: To ask the Secretary of State for Health (1) if he will make a statement on new money for mental health in Lancashire; [217591]

(2) what funding has been allocated to health services in rural areas in South Lancashire in 2004–05. [217593]

Miss Melanie Johnson: Over 80 per cent. of national health service resources are allocated to primary care trusts (PCTs), which are responsible for commissioning health services to meet the needs of their local populations. The table shows allocations to PCTs in the Cumbria and Lancashire Strategic Health Authority (SHA) area.

PCT resource revenue allocations: Cumbria and Lancashire SHA area

£ million

PCT	*Allocation*			
	2004–05	*2005–06*	*2006–07*	*2007–08*
Blackburn with Darwen	158,299	175,336	207,706	227,152
Blackpool	166,655	182,076	213,766	232,537
Burnley, Pendle and Rossendale	264,963	289,574	339,612	371,238
Carlisle and District	102,316	111,989	187,964	158,474
Chorley and South Ribble	171,696	188,153	242,737	266,714
Eden Valley	58,439	63,669	83,150	90,291
Fylde	63,955	69,679	87,963	95,208
Hyndburn and Ribble Valley	103,859	114,072	152,279	166,452
Morecambe Bay	289,864	316,293	404,393	438,522
Preston	141,957	154,662	191,684	207,042
West Cumbria	122,798	133,788	171,945	188,244
West Lancashire	97,085	106,387	136,355	149,392
Wyre	112,822	123,458	158,954	174,770

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on funding for the Lancashire Mental Health Trust. [216894]

Miss Melanie Johnson: The Department does not provide funding directly to the Lancashire Care Trust. Resources are allocated to local primary care trusts to enable them to commission services to meet the health needs of their local population.

MRSA

Sarah Teather: To ask the Secretary of State for Health what estimate he has made of the percentage of patients in hospitals in each NHS Trust in Greater London who are infected with MRSA. [214796]

Miss Melanie Johnson: Information on the percentage of patients in hospitals who are infected with methicillin resistant *Staphylococcus aureus* (MRSA) is not collected centrally.

However, national and regional information on the mandatory MRSA surveillance system is published on the Health Protection Agency's website at www.hpa.org.uk/cdr/archives/2004/cdr2904.pdf.

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on the steps which are being taken to fight MRSA at *(a)* Chorley and *(b)* Preston Hospital. [216205]

Miss Melanie Johnson: The Department takes the issue of healthcare associated infections very seriously and has told the national health service that infection control should be at the heart of good management and clinical practice.

The Department has set a target to reduce methicillin resistant "Staphylococcus aureus" by 50 per cent., by 2008 from an April 2005 baseline. The National Patient Safety Agency launched the first national hand hygiene campaign, "cleanyourhands" in September 2004. Commitments in the Chief Medical Officer's publication, "Winning Ways" and the Department's action plan, "Towards Cleaner Hospitals and Lower Rates of Infection" and the NHS's "Matron's Charter" have focused on evidence-based actions to reduce infections.

NHS Investment (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health what capital investment was made in NHS facilities in Chorley in each year since 1998. [217592]

Miss Melanie Johnson: The information is not available in the format requested. The table shows capital investment in national health service organisations that provide services in Chorley.

	Amount (£000)
1998–99	3,786
1999–2000	7,021
2000–01	7,403
2001–02	18,727
2002–03	19,544
2003–04	31,469

Notes:

1. The figures in the table do not include private finance initiative (PFI) expenditure where PFI costs are revenue expenditure in the books of NHS bodies.
2. Capital investment will vary between years owing to the investment decisions at individual NHS bodies.

Sources:

1. Audited summarisation schedules of Lancashire Teaching Hospitals NHS Trust (2002–03 and 2003–04) and its predecessor NHS trusts (1998–99 to 2001–02).
2. Audited summarisation schedules of Chorley and South Ribble Primary Care Trust 2001–02 to 2003–04.

Self-harm

Mr. Lansley: To ask the Secretary of State for Health how many hospital admissions have been due to deliberate self-harm in *(a)* persons aged under 18 and *(b)* persons aged 18 years and over in each year since 1986. [216168]

Ms Rosie Winterton: This information is not centrally available. The Department collects information on numbers of finished consultant episodes of people who have been admitted in national health service hospitals with a primary diagnosis of injury and poisoning. However, it is not possible to ascertain the number of admissions due to deliberate self harm.

As part of the implementation of the national suicide prevention strategy, three centres have been established to monitor deliberate self-harm and provide accurate data on national trends and patterns to help inform suicide prevention interventions and detect changing patterns or local variations.

CONSTITUTIONAL AFFAIRS

Beneficial Ownership

Mr. Wilson: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs if he will make a statement on progress with the review of beneficial ownership of land. [217446]

Mr. Lammy: The report on Land Registry's Quinquennial Review, published in June 2001, recommended that consideration be given to including details of the beneficial or true ownership of land on the land register for England and Wales. In response to a previous question from my right hon. Friend on 23 February 2004, *Official Report*, column 217W, I announced that the planned consultation between Land Registry, the then Lord Chancellor's Department and other Government departments would be deferred pending a review of the timing of the several consultations to be carried out by Land Registry.

Following completion of this review in summer 2004, it was agreed that internal consultation with other interested Government departments should proceed with a view to deciding whether the recommendation warrants being taken forward to a public consultation. This internal consultation is still on-going. No time limit has been set for final decisions to be made although I can confirm that they will be announced to Parliament in due course.

European Convention on Human Rights

Adam Price: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs when the United Kingdom Government plans to ratify the Seventh Protocol to the European Convention on Human Rights. [218681]

Mr. Lammy: The Government will be in a position to ratify this Protocol when legislation revoking some obsolete family law provisions has been passed. The Government are awaiting a suitable legislative vehicle to achieve that.

Iraq

Annabelle Ewing: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs whether the Lord Chancellor was involved in *(a)* framing, *(b)* drafting and *(c)* drawing up the parliamentary answer given by the Attorney-General on 17 March 2003 on Iraq. [218548]

Mr. Leslie: The Lord Chancellor, the Lord Falconer of Thoroton had no role in framing, drafting or drawing up the answer.

Targets

Mr. George Osborne: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs how many targets have been set in each year since 1997 by the Department and its predecessors; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215838]

Mr. Lammy: I refer the hon. Gentleman to the answer given by my hon. Friend the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

DEPUTY PRIME MINISTER

Cleaning

Mr. George Osborne: To ask the Deputy Prime Minister what the costs of cleaning the Department and its predecessors were in each year since 1997. [213834]

Yvette Cooper: The Office of the Deputy Prime Minister was established in May 2002, since when the following has been spent on office cleaning in the Office of the Deputy Prime Minister (C).

	£
May 2002-March 2003	765,200
April 2003-March 2004	707,600

These figures do not include VAT or any sums recovered from other Government Departments, but do include consumable items such as toilet paper, soap, etc. The figures include all internal cleaning and cleaning of some external windows where it has not been possible to identify this as a separate cost.

The cost of cleaning the Office of the Deputy Prime Minister's agencies in the same period was:

	£
May 2002-March 2003	600,000
April 2003-March 2004	598,500

These figures include the Rent Service, which was an agency of the Office of the Deputy Prime Minister during the period covered. It transferred to the Department of Work and Pensions on 1 April 2004. The figures do not include the Fire Service College, where the internal cleaning costs cannot be separated from the "housekeeping" costs attributed to student occupation.

This answer does not include the buildings occupied by Government offices, who carry out functions on behalf of 10 Government Departments.

The costs for predecessor Departments are not held centrally, and could be provided only at disproportionate cost.

Local Government Finance

Mr. Edward Davey: To ask the Deputy Prime Minister if he will estimate the total council tax revenue raised by local authorities from charging on empty properties in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05. [218677]

Mr. Raynsford: It is provisionally estimated that just over £200 million is being raised by local authorities from charging council tax on long-term empty homes in 2004–05. Homes that have been empty for less than six months are exempt from council tax.

Corresponding estimates for 2002–03 and 2003–04 are not available as information on empty homes collected for those years did not include a breakdown by council tax band, and estimates for the total amount collected are dependent on this breakdown.

Mr. Edward Davey: To ask the Deputy Prime Minister what estimate he has made of total council tax revenue which will be raised by local authorities for charging on second homes in 2005–06. [218879]

Mr. Raynsford: None. Information relating to council taxes and second homes in 2005–06 is not yet available.

Mr. Michael Foster: To ask the Deputy Prime Minister what the annual revenue grant increase was for Worcester city council in each year from 1992–93 to 2004–05 in *(a)* real and *(b)* cash terms. [213456]

Mr. Raynsford: The changes in revenue grant for Worcester city council in each year from 1993–94 to 2004–05 in *(a)* real and *(b)* cash terms are tabled as follows.

Changes in revenue grant for Worcester city council

	Cash £000	Real terms at 2004–05 prices	Cash % change	Real term % change
1993–94	5,710	7,484	—	—
1994–95	6,285	8,120	10.1	8.5
1995–96	6,271	7,873	-0.2	-3.0
1996–97	6,329	7,688	0.9	-2.3
1997–98	6,186	7,327	-2.3	-4.7

Changes in revenue grant for Worcester city council

	Cash £000	Real terms at 2004–05 prices	Cash % change	Real term % change
1998–99	6,595	7,592	6.6	3.6
1999–2000	6,686	7,533	1.4	-0.8
2000–01	6,920	7,707	3.5	2.3
2001–02	7,130	7,744	3.0	0.5
2002–03	7,281	7,646	2.1	-1.3
2003–04	7,387	7,545	1.5	-1.3
2004–05	8,222	8,222	11.3	9.0

The cash figures have been deflated using the GDP deflator. Changes between years are not directly comparable because they do not take account of changes in function or funding.

The data are as supplied by the local authority and for 2003–04 and 2004–05 are budget data what the authority anticipate they will be receiving. Data for 1992–93 are not available. The budget data for 2004–05 include a large amount for "Planning developments", which will be funded by "special and specific grants inside Aggregate External Finance".

Revenue grants include special and specific grants inside Aggregate External Finance, SSA reduction grant, Revenue Support grant, Central Support Protection grant and Redistributed Non-domestic rates.

Departmental Expenditure

Mr. George Osborne: To ask the Deputy Prime Minister how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213629]

Yvette Cooper: The Office of the Deputy Prime Minister was established in May 2002. The Office of the Deputy Prime Minister (C) has two staff canteens and one bar, with the latter run by the sports and social club (SPARTA). None of these receive any sponsorship and they are provided at no cost to the Office of the Deputy Prime Minister.

The Office of the Deputy Prime Minister's Agencies provide two staff canteens, of which only the facility at the Planning Inspectorate in Bristol receives any sponsorship. The costs for the Planning Inspectorate facility are:

£

	Running cost	Staffing cost	Supply cost	Total cost
May 2002-March 2003	55,520	0	0	55,520
April 2003-March 2004	48,174	0	0	48,174

These figures are exclusive of VAT, and include subsidies paid to contractors. The figures do not include sums recovered from other Government Departments.

The Office of the Deputy Prime Minister's Agencies provide three bars which are at the Fire Service College and are for the use of those attending residential courses. None of these receives any sponsorship and they are provided at no cost to the Office of the Deputy Prime Minister.

This answer does not include the buildings occupied by Government Offices, who carry out functions on behalf of 10 Government Departments.

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on postage by the Department and its predecessors in each year since 1997. [215030]

Yvette Cooper: The Office of the Deputy Prime Minister was established in May 2002. Since that date the following has been spent on postage in the Office of the Deputy Prime Minister (C).

	£
May 2002-March 2003	297,846
April 2003-March 2004	300,713

In addition the following has been spent by the Office Deputy Prime Minister's agencies, mainly by the Planning Inspectorate and by the Rent Service (which was an agency of the Office of the Deputy Prime Minister during the period in question).

	£
May 2002-March 2003	667,605
Apr 2003-March 2004	649,074

These figures do not include VAT (where levied) or amounts recovered from other Government Departments. Postage includes franked or stamped items dispatched by Royal Mail or alternative provider, but not items dispatched by inter-departmental services (IDS), courier and inter-office vans. The figure for agencies includes a parcel service at the Fire Service College.

It is the Office of the Deputy Prime Minister's policy to dispatch mail by second class post, unless otherwise instructed by the originator.

This answer does not include the buildings occupied by Government offices, who carry out functions on behalf of 10 Government Departments.

The costs of postage for predecessor Departments are not held centrally, and could be provided only at disproportionate cost.

Mr. George Osborne: To ask the Deputy Prime Minister what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215079]

Yvette Cooper: The cost of producing an Office of the Deputy Prime Minister staff identity pass issued for long-term use in its headquarters buildings is £13.08. This includes materials, printing costs and staff costs for administration.

Identity passes may need to be replaced for a variety of reasons including loss, theft, damage or change of name. Until April 2004, when procedures for issuing passes were changed, the Office of the Deputy Prime Minister did not, as standard practice, record the reasons for the replacement of an identity pass. It is thus not possible to say how many were lost or stolen in each year. Data are only available for those that were reported .

The Office of the Deputy Prime Minister was created on 29 May 2002. The number of passes that were reported lost or stolen in each year since then are shown in the following table, together with the total number of replacement passes issued.

Period	*Replacement passes issued*	*Passes recorded lost*	*Passes recorded stolen*
1 June 2002–31 December 2002	68	0	1
2003	167	0	2
2004	143	32	7

Procedures are in place to ensure that electronic passes are deactivated as soon as their loss is reported. In addition, pass designs do not identify the building or organisation.

This answer does not include passes for buildings occupied by Government offices, who carry out functions on behalf of 10 Government Departments.

Mr. Bercow: To ask the Deputy Prime Minister if he will list the equipment leasing arrangements entered into by his Department in each of the last two years; and what the cost is to public funds in each case. [202464]

Yvette Cooper: The Office of the Deputy Prime Minister was formed in May 2002. This information is not held centrally and could be provided only at disproportionate cost.

Fire Services

Mr. Jim Cunningham: To ask the Deputy Prime Minister what consultation his Department has had with the West Midlands Fire Authority on proposed changes to night-time cover in the West Midlands region. [217691]

Mr. Raynsford: As was made clear in the debate on 22 February 2005, *Official Report*, column 55WH, the introduction of Integrated Risk Management Plans (IRMPs) in April 2003 allows fire and rescue authorities to target resources to address local risk, as well as to make the most effective use of their resources in preventing fires. Responsibility for the preparation of IRMPs lies with each individual Fire and Rescue Authority, having regard to my right hon. Friend the Deputy Prime Minister.

As well as setting out general principles and guidance, the National Framework makes it clear that each Fire and Rescue Authority should consult with interested parties in its area when preparing its IRMPs. The West Midlands Fire and Rescue Service has issued its proposal for the period April 2005 to March 2006, "Your Safety our Priority" for consultation. There is no requirement or expectation for consultation with the Office of the Deputy Prime Minister in respect of IRMPs.

Mr. Clifton-Brown: To ask the Deputy Prime Minister whether he has been able to provide the information on the location of the South West Regional Control Centre and related property issues requested by the Head of Legal Services of the Gloucestershire Fire and Rescue Authority under the Freedom of Information Act 2000. [217791]

Mr. Raynsford: The Office of the Deputy Prime Minister responded to the request for information from the Head of Legal and Democratic Services of the Gloucestershire Fire and Rescue Authority on 3 February 2005 in accordance with the provisions of the Freedom of Information Act 2000. There was no request for information on the location of the South West Regional Control Centre.

Planning

Hugh Robertson: To ask the Deputy Prime Minister how many appeals are awaiting resolution at the Planning Inspectorate. [218005]

Keith Hill: The information requested is tabled as follows. It gives the number of appeals awaiting resolution at the Planning Inspectorate as at 23 February 2005 by appeal type and procedure.

Appeal procedure	*Planning appeals*	*Enforcement appeals*	*Planning—Listed Building and Conservation Area appeals*	*Enforcement—Listed Building and Conservation Area appeals*
Written representation	10,189	907	401	78
Hearing	2,891	446	170	23
Inquiry	1,512	727	119	15
Procedure not as yet confirmed	136	125	3	7

Targets

Mr. George Osborne: To ask the Deputy Prime Minister how many targets have been set in each year since 1997 by his Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215802]

Yvette Cooper: I refer the hon. Member to the answer given on 21 February 2005 by my hon. Friend the Financial Secretary to the Treasury, *Official Report*, column 75W.

HOME DEPARTMENT

Asylum Seekers

Tony Baldry: To ask the Secretary of State for the Home Department (1) who will manage education at asylum accommodation centres; [211215]

(2) who will be responsible for providing education facilities at asylum accommodation centres; and who will be responsible for making decisions on provision. [211211]

Mr. Browne: These will be matters for the contractors. The contract for the Bicester accommodation centre requires GSL to provide a number of services including the provision of on site education which mirrors that provided in mainstream education.

Mr. Hancock: To ask the Secretary of State for the Home Department what the average time taken to remove individuals after all appeals to stay in the UK have been exhausted is. [211599]

Mr. Browne: Information about the average time taken to remove individuals after appeals to stay in the UK have been exhausted is not available for all case types.

However, management information indicates that the average time taken to remove individuals who have exhausted all rights to appeal following an unsuccessful asylum claim is approximately 20 months. This figure relates to the period January to December 2004.

This information has not been treated as quality assured and should be treated as provisional management information only.

Mr. Burns: To ask the Secretary of State for the Home Department what the cost of supporting asylum seekers awaiting a decision on whether they have a right to remain in the UK was in the latest year for which figures are available; and how many asylum seekers who have been refused permission to remain in the UK have not been removed from the country *(a)* because they are awaiting removal and *(b)* because they cannot be traced. [213491]

Mr. Browne *[holding answer 4 February 2005]:* In 2003–04 the cost of providing asylum support was £1,008 million. This figure includes the costs of supporting:

those awaiting a decision on their claim for asylum;

asylum seeking families who have received a final negative decision on their claim but who are still eligible to receive support; and

other unsuccessful asylum seekers who are receiving support under section 4 of the Immigration and Asylum Act 1999.

It is not possible to readily identify the costs of providing support to families and those receiving support under section 4 from the total costs.

Reliable information on the total number of asylum seekers who have been refused permission to remain in the UK and have not been removed, is not available, partly because some applicants may leave the United Kingdom without informing the Immigration Service.

Mr. Kevan Jones: To ask the Secretary of State for the Home Department how many failed asylum seekers there are in North Durham. [214676]

Mr. Browne: Reliable information on the number of failed asylum seekers in North Durham is not available, partly because some applicants may leave the United Kingdom without informing the Immigration Service.

Biometric Data

Mr. Edward Davey: To ask the Secretary of State for the Home Department whether the Government's plans for the storage of biometric data on *(a)* passports and *(b)* associated databases exceed the requirements of (i) plans for the harmonisation of biometric storage on European passports recently agreed by the General Affairs Council of the European Union and (ii) plans agreed through the International Civil Aviation Organisation. [217617]

Mr. Browne: The current plan in respect of passports is that the new ePassport will store a facial image biometric contained in a chip. This will not exceed the requirements of the EU standards set out in the recently adopted Regulation on security features and biometrics in passports and travel documents (15152/04). The inclusion of a facial biometric is also in accordance with the International Civil Aviation Organisation standard.

The biometric data will be held in a database used by current UKPS business processes and will be consistent with the data to be held in the new ePassport.

Community Support Officers (Huddersfield)

Mr. Sheerman: To ask the Secretary of State for the Home Department if he will make a statement, with statistical information relating as directly as possible to Huddersfield constituency, on the effects on Huddersfield of the Community Support Officer Scheme, with particular reference to *(a)* the number of officers and *(b)* their impact. [217462]

Ms Blears: I am informed by the Chief Constable, Mr. Colin Cramphorn, that on 1 February the Kirklees Area had 39 Community Support Officers. Of that number 26 are deployed to Huddersfield Division, which includes four Community Support Officers allocated to the District Antisocial Behaviour Unit that works across the Huddersfield and Dewsbury Divisions.

The West Yorkshire Police has not carried out any analysis of the impact of the introduction of Community Support Officers in Huddersfield. However, I am informed that across Kirklees Metropolitan Borough Community Support Officers are achieving 79 per cent. of their duty time on visible patrol duties. An independent analysis has been undertaken by the Centre for Criminal Justice Studies at the University of Leeds, "Patrolling with a Purpose", in relation to the impact of the introduction of Community Support Officers in Leeds and Bradford and was published in July 2004.

Private Finance Initiative (Consultant Costs)

Mr. Bercow: To ask the Secretary of State for the Home Department what the total external spend by his Department was on private finance initiative (PFI) consultants in each of the last two years; how many full-time equivalent consultants were employed over this period; how many billed consultancy days there were per year; what the implied average cost of each PFI consultant was; how many consultancy firms were used by his Department over this period; and if he will make a statement. [200774]

Fiona Mactaggart: From the best information available, the tables provide the details requested.

2 Marsham street

	2002-04
Total external spend on consultants (£)	63,500
Number of full-time equivalent consultants employed	0
Number of billed consultancy days	[1]44.5
Implied average cost of each PFI consultant (£)	31,750
Number of consultancy firms used	2

[1] Based on 7.5 hrs a day.

Heat energy services in prisons

	2002-03	2003-04
Total external spend on consultants (£)	220,304.97	72,338.92
Number of full-time equivalent consultants employed	0.75	0.25

Number of billed consultancy days	—	—
Implied average cost of each PFI consultant (£)	—	—
Number of consultancy firms used	8	3

Departmental Policies

Mr. Sedgemore: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Havant constituency, the effects on Havant of his Department's policies and actions since 2 May 1997. [216021]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Havant constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Hampshire police force increased by 328 from 3,452 to 3,780. Following the Government's introduction of Community Support

Officers (CSOs) in 2002, Hampshire has been allocated funds to recruit 25 CSOs in the first quarter of 2005 to tackle crime and antisocial behaviour on Hampshire streets. Between 1997 and 2003–04, Hampshire police force has seen a reduction in recorded domestic burglary crimes of 19 per cent. and in recorded vehicle crimes of 25 per cent.

Hampshire Police will receive £197.7 million in general grants for 2005–06, an increase of 3.75 per cent. (£7.2 million) over 2004–05. Hampshire benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the force would have received £4.9 million less. General grants funding to Hampshire has increased by 31.5 per cent. between 1997–98 and 2005–06. In addition to general grants, Hampshire will also receive around £16 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Four CCTV projects in the Havant CDRP area received a total of £235,000 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £569,288 has been allocated to Havant CDRP under these initiatives. A further £2.57 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the South East for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Havant set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Havant a total of 26 antisocial behaviour orders have been issued as of 22 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10-year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Havant has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Hampshire Drug Action Team amounted to £5.48 million, rising to £6.47 million in 2004–05. Details of action taken to tackle drugs in the Havant constituency can be obtained from the Hampshire Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mr. McNamara: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to the Hull,

North constituency, the effects on Hull, North of his Department's policies and actions since 2 May 1997. [211803]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Hull, North constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Humberside police force increased by 186 from 2,045 to 2,231. Following the Government's introduction of community support officers (CSOs) in 2002, Humberside is in the process of recruiting 22 CSOs to tackle crime and antisocial behaviour on Humberside streets. Between 1997 and 2003–04, Humberside has seen a reduction in recorded domestic burglary crimes of 27 per cent. and in recorded vehicle crimes of 18 per cent.

Humberside police force will receive £118.9 million in general grants for 2005–06, an increase of 3.75 per cent. (£4.3 million) on 2004–05. Humberside benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the force would have received £0.7 million less. Humberside also gains around £0.2 million from the amending report for 2003–04, bringing the overall increase to 3.95 per cent. General grants funding to Humberside has increased by 27 per cent. between 1997–98 and 2005–06. In addition to general grants, Humberside will also receive around £8 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Three CCTV projects in the City of Kingston-upon-Hull CDRP area received a total of £5.75 million from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £2.2 million has been allocated to City of Kingston upon Hull CDRP under these initiatives. A further £1.8 million has been provided over the two years 2003–04 and 2004–05 to the Home Office regional director in Yorkshire and Humber for CDRP capacity building across the region.

The Government recognise the important part played by communities in addressing the wider issue of the underlying gun culture. The Government's Connected Fund, launched in May 2004, is a non-bureaucratic funding stream designed to assist small local community projects across England, working to tackle gun crime and related issues. £515,000 has been given nationally so far. In Hull, the fund has paid for a series of workshops for eight to 13-year-olds, including talks from police about the negative impact of guns.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Kingston upon Hull a total of 61 antisocial behaviour orders have been issued as of February 2005. Hull is also one of 50 communities across the country that have been designated as 'Together Action Areas' and are set to get extra help to tackle antisocial behaviour. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Kingston upon Hull has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Kingston upon Hull Drug Action Team amounted to £3.5 million, rising to £4.5 million in 2004–05. Details of action taken to tackle drugs in the Kingston upon Hull constituency can be obtained from the Kingston upon Hull Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local

people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

Through the Government's Time Limited Development Fund (TLDF), Willow—The North Hull Women's Centre, which covers one of the most deprived areas in Hull, has received £93,248. The Willow Centre works to increase women's self esteem, improve skills and employment prospects. The TLDF has helped to increase the numbers of volunteers recruited and improve the training and support given (both within Willow and for outside organisations). For the first two years of the grant, volunteers have numbered 110.

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Ms Shipley: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to Stourbridge constituency, the effects of changes to departmental policy since 1997 on Stourbridge constituency. [216851]

Fiona Mactaggart: The Government has put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Stourbridge constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the West Midlands Police Force increased by 895 from 7,113 to 8,008. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 134 CSOs on West Midlands streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, West Midlands has seen a reduction in recorded domestic burglary crimes of 35 per cent. and in recorded vehicle crimes of 28 per cent.

West Midlands Police Force is receiving £426.5 million in general grants for 2005–06, an increase of 6.81 per cent. (£27.2 million) over this year. West Midlands also gains around £0.8 million from the Amending Report for 2003–04, bringing the overall increase to 7.0 per cent. General grants funding to West Midlands has increased by 34 per cent. between 1997–98 and 2005–06. In addition to general grants, West Midlands will also receive around £29 million in specific grants funding for targeted initiatives in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Four CCTV projects in the Dudley CDRP area (which includes Stourbridge) received a total of £286,459 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1.6 million has been allocated to the Dudley CDRP under these initiatives. A further £2.03 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the West Midlands for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Dudley set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Dudley CDRP a total of 29 antisocial behaviour orders are currently in force as of 9 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government has invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Dudley has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Dudley Drug Action Team amounted to £1.9 million, rising to £2.4 million in 2004–05. Details of action taken to tackle drugs in the Stourbridge constituency can be obtained from the Dudley Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. For 2003–04 to 2005–06 Dudley Race Equality council is receiving a £291,431 Connecting Communities Grant from the Home Office to improve the access of black and ethnic minority people to jobs and services.

Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk

This year, 2005, is the year of the volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk

Mr. Chris Smith: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Woodspring constituency, the effects on Woodspring of his Department's policies and actions since 2 May 1997. [215979]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Woodspring constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Avon and Somerset police force increased by 428 from 2,989 to 3,417. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 99 CSOs on Avon and Somerset streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Avon and Somerset has seen a reduction in recorded domestic burglary crimes of 33 per cent. and in recorded vehicle crimes of 30 per cent.

Avon and Somerset police force will receive £170 million in general grants for 2005–06, an increase of 4.8 per cent. (£7.8 million) over 2004–05. General grants funding to Avon and Somerset has increased by 26.1 per cent. between 1997–98 and 2005–06. In addition to general grants, Avon and Somerset will also receive around £17.7 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in the North Somerset CDRP area (which includes Woodspring constituency) received a total of £64,000 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £890,000 has been allocated to North Somerset CDRP under these initiatives. A further £1.98 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the South West for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in North Somerset set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In North Somerset a total of 20 antisocial behaviour orders have been issued as of February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10-year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. North Somerset has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for North Somerset Drug Action Team amounted to £793,149 rising to £976,550 in 2004–05. Details of action taken to tackle drugs in the Woodspring constituency can be obtained from the North Somerset Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Electronic Devices

Mr. George Osborne: To ask the Secretary of State for the Home Department how many electronic devices are owned by the Department, broken down by type. [207684]

Fiona Mactaggart: Information on the number and type of electronic devices owned by the Department is not held centrally and could be obtained only at a disproportionate cost.

Human Rights Act

Mr. Bercow: To ask the Secretary of State for the Home Department how many cases have been brought against his Department under the Human Rights Act 1998; and what the cost has been in *(a)* legal fees to defend cases and *(b)* compensation payments. [200772]

Paul Goggins: It is not possible to provide a detailed answer without incurring disproportionate expense. The Home Office deals with over 200 judicial review cases a month.

Many applicants rely on the Human Rights Act in addition to their other claims.

Our records do not distinguish cases where the Human Rights Act is invoked from cases where it is not. Consequently we are not able to attribute particular fees or costs to such cases.

International Student Visas

Mr. Plaskitt: To ask the Secretary of State for the Home Department what the average administration cost of granting an extension to an international student visa is. [218601]

Mr. Browne: The costs of processing student leave to remain applications are based on approved Treasury cost recovery guidelines.

This means taking the full cost of providing the leave to remain service, including overheads, and dividing it by the volume of applications in order to arrive at a fee per application.

National Offender Management Service

Mrs. Helen Clark: To ask the Secretary of State for the Home Department what estimate has been made of the effect on the number of civil service posts of the introduction of the National Offender Management Service. [201676]

Paul Goggins: 12 new posts have been created to manage the change programme and 10 new Regional Offender Managers have been appointed. The new National Offender Management Service (NOMS) headquarters is being redesigned by April 2005.

Although there may be temporary increases in civil service posts over the next two years, NOMS remains committed to reducing civil service posts by almost 900 to reach a target of 2,540 posts by March 2007. To date, 50 per cent. of this reduction has been achieved.

Mr. Dismore: To ask the Secretary of State for the Home Department whether an independent Chair will be appointed for each regional offender management area in England and Wales. [204964]

Paul Goggins: There are no such plans.

John McDonnell: To ask the Secretary of State for the Home Department how duplication in terms of the provision of services and policies will be avoided following the creation of two arrangements for the employment of staff for the Probation Service under the National Offender Management Service arrangements. [204972]

Paul Goggins: No decision has yet been taken on the future employment status of offender managers or those providing interventions. In the fully developed National Offender Management Service model, it is expected that providers of services to offenders will be drawn from the public sector, private sector and the voluntary and community sector. Core policies and commissioning standards will be set centrally.

John Austin: To ask the Secretary of State for the Home Department what consultation on the role of the National Offender Management Service with trade unions he plans to undertake. [216371]

Paul Goggins: Consultation with trade unions on the role of the National Offender Management Service (NOMS) is taking place within the NOMS Joint Consultative Council (JCC). Three JCC meetings have taken place since November 2004 and a programme of meetings has been arranged for 2005.

Consultation is taking place separately with employee representative bodies through the established Her Majesty's Prison Service, Central Home Office and Probation Service consultative arrangements.

John Austin: To ask the Secretary of State for the Home Department when the National Offender Management Service Programme Board last met; and what plans it has to meet. [216408]

Paul Goggins: The National Offender Management Service (NOMS) Programme Board met on 15 February 2005 and is scheduled to meet every fortnight.

Northamptonshire Police

Ms Keeble: To ask the Secretary of State for the Home Department how many *(a)* police officers, *(b)* community support officers and *(c)* wardens were employed by Northamptonshire police in (i) 1997–98 and (ii) 2003–04. [211283]

Ms Blears: There were 1,169 police officers in Northamptonshire police at the end of March 1998 and 1,239 at the end of March 2004.

Community Support Officers (CSOs) were introduced by the Police Reform Act 2002 and were not recruited by Northamptonshire police before March 2003. At the end of March 2004 there were 12 CSOs in the force.

Wardens are generally employed by local authorities and not by police authorities. I am told that the Northamptonshire police authority is currently providing funding towards the employment of two wardens in Northampton as part of the Crime and Antisocial Partnerships Initiative.

People Trafficking

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 4 February 2005, *Official Report*, column 1153W, on people trafficking, what administrative procedures would need to be put in place to collect this information; and if he will take the necessary steps to collect it. [216456]

Mr. Browne: In order to provide the requested information, we would need to set in place administrative and staffing arrangements to enable us to conduct a review of all relevant individual case files for the period. This would represent a disproportionate cost. I regret therefore that I will not be able to put these procedures in place.

Pieter Minnard

Mr. Caton: To ask the Secretary of State for the Home Department what investigations have been conducted into the decision to transfer Pieter Minnard to Leyhill open prison. [216571]

Paul Goggins: The Prison Service has looked into the circumstances surrounding Mr. Minnard's transfer to Leyhill open prison. Mr. Minnard received an appropriate risk assessment and was found to meet the criteria for open conditions before his transfer to Leyhill prison.

Police

Mr. Francois: To ask the Secretary of State for the Home Department what discussions he has had with the chief constable of the Essex constabulary about plans to merge the Southend and Rayleigh police divisions; and if he will make a statement. [217155]

Ms Blears *[holding answer 21 February 2005]*: Deployment of police resources and the structural configuration to support policing issues is an operational matter and therefore falls firmly within the remit of the chief constable. This is not therefore an issue which the Secretary of State would normally involve himself.

Mrs. Spelman: To ask the Secretary of State for the Home Department how much total Government grant per capita was given to each police force in England in each year since 1997. [207337]

Ms Blears: The information is set out in the table.

Government funding for police authorities is chiefly allocated using a funding formula that distribute resources on the basis of relative policing need. The formula is currently being reviewed to ensure it reflects modern policing needs. Funding is not, and never has been, distributed on a per capita basis.

Government grant funding[1] per head of population[2]

£

Force	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05

[1] Government funding includes general grant (Home Office police grant, ODPM/Welsh Assembly Government Revenue Support Grant and National Non-Domestic Rates). It also includes specific grants: Crime Fighting Fund, Rural Policing Fund, Basic Command Unit funding, Community Support Officer funding (including, for 2004–05, funding from Round 1 of the Neighbourhood Policing Fund), Airwave, DNA Expansion Programme, Counter Terrorism funding (MPS only), Street Crime Initiative, Special Priority Payments and capital grants.

[2] Source for resident population figures: Office of the Deputy Prime Minister and Welsh Assembly Government as used in the calculation of the police funding settlements.

[3] The Home Office also funds 75 per cent. of the cost of the London and south-east allowances for all qualifying officers. These figures are not included within the totals.

Dr. Starkey: To ask the Secretary of State for the Home Department what the total number of police force staff based in Milton Keynes was in each year since 1997. [217693]

Ms Blears: Information on police personnel strength at Basic Command Unit (BCD) level is collected annually and reflects the position at the end of March. Information on BCU strength for police (support) staff has only been available from March 2003 and is set out in the table. The deployment of police staff to BCUs is a matter for the Chief Constable (Mr. Peter Neyroud QPM).

Milton Keynes (D) Division

As at 31 March	Number of police officers
2003	98
2004	105

Home Office Research, Development & Statistics Directorate

Prisons

Sandra Gidley: To ask the Secretary of State for the Home Department how many women gave birth in prison in each year since 1997. [206289]

Paul Goggins: Full information is not available for the whole period, but the available data show that in 2004,114 women gave birth while serving a prison sentence. Further information could be obtained only at disproportionate cost.

Mrs. Gillan: To ask the Secretary of State for the Home Department what *(a)* actions and *(b)* adjustments have been made by the Prison Service Headquarters to reduce the Prison Service overspend in the current financial year; and what (i) efficiencies and (ii) savings have resulted. [214840]

Paul Goggins: In December 2004 the Director General of the Prison Service wrote to all senior managers requesting that any discretionary spending be avoided, and that recruitment be restricted to whatever is essential to maintain a safe and secure operation of prisons or the basic operation of the Service. This was done with the intention of reducing expenditure in order to ensure that the Prison Service did not exceed its delegated budget in the current financial year.

Each subsequent forecast of the spend for the year has indicated a lower overspend and the Service believes that final outturn will be close to budget.

Mr. Oaten: To ask the Secretary of State for the Home Department what proportion of prisoners who declared themselves as Muslims in each of the last five years were *(a)* British nationals and *(b)* foreign nationals. [214999]

Paul Goggins: The nationality of Muslim prisoners received into prison establishments in each of the last five years, as recorded on the Prison Service central IT system, is provided in the table.

First receptions of Muslims to prison establishments, by nationality—England and Wales 2000–04

	2000	2001	2002	2003	2004[1]
All	7,775	9,137	9,258	9,633	9,603
British nationals	4,617	5,038	5,549	5,411	5,269
Foreign nationals	2,992	3,866	3,481	3,954	4,155
Not recorded	166	233	228	268	179

[1] Information for 2004 is to 30 November only

Towards the end of 2004 the information on the religious affiliation of prisoners held on the central Prison Service IT system was comprehensively refreshed with updated information contained within the local IT systems in each prison establishment. This update had little impact on the overall population figures by religious group for most groups. However, it is estimated that the population of prisoners whose recorded religion was Buddhism or Muslim increased by around 1 per cent. each because of this data cleansing exercise.

Mr. Oaten: To ask the Secretary of State for the Home Department how many prisoners declared themselves to be of a particular religion when they entered prison in each of the last five years, broken down by religion. [215000]

Paul Goggins: The religious affiliation recorded on the prison establishments IT system for prisoners first received into prison establishments in each of the last five years are shown in the table.

First receptions to prison establishments, by religion England and Wales, 2000–04

	2000	2001	2002	2003	[1]2004
All first receptions	128,866	130,934	135,820	135,042	123,849
All Christian	70,971	70,620	73,471	72,636	62,606
Anglican	46,553	45,237	47,313	45,718	38,328
Free Church	1,427	1,746	1,685	1,599	1,312
Roman Catholic	21,035	21,136	22,066	22,182	19,953
Other Christian	1,956	2,501	2,407	3,137	3,013
Buddhist	310	332	418	492	534
Hindu	567	710	669	675	593

This update had little impact on the overall population figures by religious group for most groups. However, it is estimated that the population of prisoners whose recorded religion was Buddhism or Muslim increased by around one per cent each because of this data cleansing exercise.

Research and Development

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department what expenditure was made by *(a)* his Department and *(b)* agencies for which his Department is responsible on research projects by companies with headquarters in (i) the UK, (ii) other EU member states and (iii) non-EU states in each year since 2001–02. [206990]

Fiona Mactaggart: It is not possible to provide the information requested in respect of the core Home Office and its agencies. While it is possible to provide total expenditure on third party suppliers an analysis by

supplier or category of supplier cannot be provided without additional investigation and at disproportionate cost.

The Home Office currently sponsors the following agencies:

Criminal Records Bureau
Probation Service
Prison Service
United Kingdom Passport Service

Only the Core Home Office and Passport Service have recorded expenditure on Research and Development within the period covered by the question and these figures have been provided in response to separate questions.

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department what expenditure *(a)* his Department and *(b)* agencies for which his Department is responsible have made on research and development by private sector companies in each financial year since 2001–02. [206993]

Fiona Mactaggart: It is not possible to provide the information requested in respect of the core Home Office and its agencies. While it is possible to provide total expenditure on third party suppliers an analysis by supplier or category of supplier cannot be provided without additional investigation and at disproportionate cost.

The Home Office currently sponsors the following agencies:

Criminal Records Bureau
Probation Service
Prison Service
United Kingdom Passport Service

Only the Core Home Office and Passport Service have recorded expenditure on Research and Development within the period covered by the question and these figures have been provided in response to separate questions.

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department how much *(a)* his Department and *(b)* each agency for which his Department is responsible spent on research and development with overseas Government laboratories or research establishments, including collaborative Government funded laboratories and research establishments, in each year between 2001–02 and 2003–04. [207002]

Fiona Mactaggart: It is not possible to provide the information requested in respect of the core Home Office and its agencies. While it is possible to provide total expenditure on third party suppliers an analysis by supplier or category of supplier cannot be provided without additional investigation and at disproportionate cost.

The Home Office currently sponsors the following agencies:

Criminal Records Bureau
Probation Service
Prison Service
United Kingdom Passport Service

Only the Core Home Office and Passport Service have recorded expenditure on Research and Development within the period covered by the question and these figures have been provided in response to separate questions.

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department what expenditure was made by *(a)* the Department and *(b)* agencies for which the Department is responsible on research and development projects undertaken by organisations other than university departments, Government-funded research establishments and private sector companies in each year since 2001–02. [207014]

Fiona Mactaggart: The Home Office currently sponsors the following agencies:

Criminal Records Bureau
Probation Service
Prison Service
United Kingdom Passport Service

Only the Core Home Office and Passport Service have recorded expenditure on Research and Development within the period covered by the question and these figures have been provided in response to separate questions.

Sex Abuse (Interview Equipment)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the merits of using the video-link equipment available in prisons to record interviews between police and imprisoned witnesses in historical sex abuse cases. [207331]

Ms Blears: No assessment has been made of video-link equipment available in prisons for recording interviews between police and imprisoned witnesses in historical sex abuse cases. The Association of Chief Police Officers working group currently reviewing guidance to police officers conducting such investigations advise that any equipment meeting the 'Evidence Gathering By Camera Standards' set out in Home Office 'Achieving Best Evidence' can be used for interviews. In practice, where it is decided that an interview will be recorded, the police are likely to use accredited portable equipment or to take the prisoner to a dedicated site.

Visitor Numbers

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department what estimate he has made of the cost of bringing in a system of counting in and out visitors to the UK; and if he will make a statement. [215005]

Mr. Browne: The five-year immigration strategy that we announced on 7 February contained details of our plans through e-Borders to introduce an electronic system of counting in and out visitors to UK. The costs of this system, which we have not yet procured, are commercial in confidence.

NORTHERN IRELAND

Harcourt Developments

David Burnside: To ask the Secretary of State for Northern Ireland what discussions have taken place between Northern Ireland government departments and agencies and Mr. Phil Flynn since 1998. [218007]

Mr. Paul Murphy: No records exist of discussions between Mr. Phil Flynn of Harcourt Developments and the Northern Ireland Office or the Northern Ireland departments and agencies.

David Burnside: To ask the Secretary of State for Northern Ireland what discussions have taken place between Northern Ireland government departments and agencies and Harcourt Developments since 1998. [218008]

Mr. Paul Murphy: A number of Northern Ireland departments and agencies have had discussions with Harcourt Developments in relation to the development of sites at a number of locations. Records indicate that the Northern Ireland Office has had no discussions with the company.

Housing

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much funding the Housing Executive has provided in each year since 2001 to assist local communities and residents groups in each Northern Ireland constituency; and what criteria are used to determine the allocation of funding. [217504]

Mr. Spellar: The amount of funding for each financial year from 2001 is as follows:

	Financial year			
Constituency	*2001–02*	*2002–03*	*2003–04*	*1 April 2004 to 31 January 2005*
West Belfast	47,457	63,067	83,953	85,229
North Belfast	10,000	20,952	40,091	22,255
South Belfast	—	5,500	15,900	10,600
East Belfast	—	—	10,000	2,397
Foyle	—	8,291	23,000	23,800
Strangford	—	—	—	10,000
Newry and Armagh	16,000	27,000	19,000	—

The constituency designation is based on the name of the group and/or the known area where it operates and compared with the names of the wards in that constituency.

The criteria are as follows:

i. The Community Group is properly constituted,

ii. The need for community involvement is established,

iii. The project is strategically relevant,

iv. The project has clear and measurable objectives,

v. A monitoring and review policy is in place,

vi. Matched funding has been sought but not obtained or where funding is in place double funding does not occur,

vii. The project offers additional benefits to community other than services currently offered by the local Council, Housing Executive (Estate Wardens) and Northern Ireland Tenants Action Project.

Knives

Mr. Dodds: To ask the Secretary of State for Northern Ireland in how many crimes in Northern Ireland knives were used in each year since 1997; and how many were committed by teenagers in each year. [218802]

Mr. Pearson: The statistics are not available in the format requested. Figures for the period from 1 April 2001 are set out in the following table. Statistics regarding the number of teenage perpetrators are not readily available. To provide this information would require a manual trawl of records and would incur disproportionate cost.

Notifiable offences recorded where a knife was involved in the incident[1]

Offence class	*2001–02*	*2002–03*	*2003–04*	*1 April 2004 to 21 February 2005*
Offences against the person	350	369	367	326
Sexual Offences	8	4	7	3
Burglary	25	31	39	20
Robbery	365	431	324	229
Theft	33	12	21	18
Criminal damage	148	67	129	141
Offences against the State	85	71	91	120
Other notifiable offences	2	2	7	0
Total	1,016	987	985	857

[1] The figures relate to offences where a knife was involved in the incident—it is not known how the knife was actually used.

Media Grants

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will list the newspaper and broadcasting companies in Northern Ireland that have received grants from public funds or from Invest Northern Ireland since May 1997, stating in each case the Department or other body responsible for the grant, the purpose for which the grant was made and the sum of money involved. [208675]

Mr. Gardiner: Information for the period 1 April 1999 to 31 December 2004 has been prepared and placed in the Library. Information prior to 1 April 1999 is not readily available.

Paramilitary Organisations

Miss McIntosh: To ask the Secretary of State for Northern Ireland what steps he has taken to tackle criminal activities by paramilitary organisations. [217330]

Mr. Pearson: In respect of organised criminality by paramilitary organisations, the Government's response is led through the Organised Crime Task Force (OCTF). It produces an annual Threat Assessment which informs the strategic priority setting of the Law Enforcement Agencies (LEA). Expert Groups, involving both the LEAs and the Private Sector, work to develop measures and techniques to reduce the opportunities for organised criminality.

In 2004, the first Cross Border Organised Crime Assessment was launched by both An Garda Siochana and the Police Service of Northern Ireland. This and the level of joint operational activity are tangible evidence of the effective co-operation occurring across the border.

Vehicle Recovery Scheme

Lady Hermon: To ask the Secretary of State for Northern Ireland how many vehicles have been recovered in each police district command unit as part of the Managed Vehicle Recovery and Storage Scheme in each year since its introduction. [218242]

Mr. Pearson: The Managed Vehicle Recovery and Storage Scheme was launched on 1 October 2004.

The scheme uses a mapping system which is based upon deploying the nearest available recovery contractor to any given location and does not take account of District Command Unit boundaries therefore the figures are not available in the format requested.

Between 1 October 2004 and 22 February 2005, 2,670 vehicles were recovered under this scheme across Northern Ireland.

Written Answers to Questions

Tuesday 1 March 2005

CABINET OFFICE

Civil Service Pensions

Mr. Laurence Robertson: To ask the Minister for the Cabinet Office whether years spent in the Civil Service Pension Scheme up to 2013 will continue to attract pension rights based on the final salary of the employee on their retirement at age 65 years following the proposed changes to the scheme; and if he will make a statement. [218185]

Mr. Miliband: The Cabinet Office's consultation document, "Building a sustainable future", proposes that pension rights earned before April 2013 by staff in post on 5 April 2006 will continue to be calculated by reference to a pension age of 60 and their final salary whenever they choose to retire or leave service.

Mr. Laurence Robertson: To ask the Minister for the Cabinet Office what assessment he has made of the effect that the changes to the Civil Service Pension Scheme retirement age will have on serving prison officers who may become unable to carry out their prison work beyond the age of 60 years due to physical incapacity; and if he will make a statement. [218186]

Mr. Miliband: The Cabinet Office's consultation document, "Building a sustainable future", proposes that the new pension arrangements will, as now, include provisions for members who have to retire before pension age because of ill health or physical incapacity. The document also recognises that the physically-demanding nature of some members' jobs may not be compatible with a pension age of 65. Officials are discussing with employers of civil servants in physically-demanding occupations (including the prison services) the most appropriate way to handle these groups.

Mr. Laurence Robertson: To ask the Minister for the Cabinet Office what estimate he has made of the number of people who transferred pension rights from the armed forces to the Prison Service who will work for a number of years at the end of their careers without building up any further pension rights; and if he will make a statement. [218188]

Mr. Miliband: No assessment of the number of people who transferred pension rights from the armed forces to the Prison Service has been made. The Cabinet Office's consultation document, "Building a sustainable future", addresses the issue of restrictions on benefits and asks whether we should allow members to build up their pension without limiting them to 40 years' service.

Mr. Laurence Robertson: To ask the Minister for the Cabinet Office how many serving *(a)* prison officers and *(b)* other civil servants will be affected by the changes to the Civil Service Pension Scheme. [218189]

Mr. Miliband: The Cabinet Office's consultation document, "Building a sustainable future", proposes that the main changes to the Civil Service Pension arrangements should apply to existing staff from 1 April 2013, but that some changes might apply before then. As at 31 March 2004, there were 617,000 members of the scheme, of which some 27,000 are prison officers. The Scheme Actuary estimates that, of those members who are likely to be in post on 5 April 2006, 420,000 will still be in service in April 2013.

Statutory Regulatory Bodies

Denzil Davies: To ask the Minister for the Cabinet Office how many statutory regulatory bodies have been established since 1997. [217999]

Mr. Miliband: This information is not collected centrally.

PRIME MINISTER

Engagements

Mr. Simon Thomas: To ask the Prime Minister if he will list his official engagements for 11 February 2005. [218885]

The Prime Minister: I had no official engagements on 11 February 2005.

Lord Levy

Norman Baker: To ask the Prime Minister if he will publish a list of all the individuals or organisations who have met Lord Levy in 2004 to discuss public policy; if he will list the representatives of the gaming industry who have met Lord Levy to discuss the Government's proposals for gaming; how many meetings in 2004 have been attended by Lord Levy on official premises or in the presence of officials; what subjects were discussed; and which countries have been visited in 2004 by Lord Levy as his personal envoy. [218907]

The Prime Minister: The information is not held in the format requested. However, in his capacity as Prime Minister's envoy, Lord Levy undertakes meetings to exchange views on a range of issues, including the Middle East Peace Process, Latin America and Kazakhstan. Lord Levy's diary for 1999–2004 is available on the Foreign and Commonwealth Office website under the Freedom of Information Act.

Parliamentary Questions

Mrs. Brooke: To ask the Prime Minister when he will reply to the question tabled by the hon. Member for Mid-Dorset and North Poole on 24 January, reference 211247. [218836]

The Prime Minister: I replied on 28 February.

Queen's Flight

Chris Grayling: To ask the Prime Minister (1) on how many occasions he has used the Queen's Flight in each of the past five years; [213444]

(2) how much money his Office spent on chartering aircraft in each of the past five years. [213687]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year.

All travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, the Code of Conduct for Special Advisers, and the Civil Service Management Code.

TRANSPORT

Aircraft Charters

Chris Grayling: To ask the Secretary of State for Transport how much money his Department has spent on chartering aircraft in each of the past five years. [213690]

Charlotte Atkins: The department was formed in May 2002.

Travel by Ministers makes it clear that special flights may be authorised when a scheduled service is not available, or when it is essential to travel by air, but the requirements of official or parliamentary business or security considerations or urgency preclude the journey being made by a scheduled service. In respect of overseas travel by Ministers, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The list published in 1999 covers the period 2 May 1997 to 31 March 1999. Where RAF/Private Charter aircraft are used this is shown in the list. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. Information for 2004–05 will be published in due course.

In addition, the Department has spent the following on chartering aircraft since its formation:

	£
2002–03	0
2003–04	2,893.54
2004–05	5,720.00

Departmental Communication

Virginia Bottomley: To ask the Secretary of State for Transport what his Department's policy is on informing hon. Members of key decisions affecting their constituency transport infrastructure. [208219]

Charlotte Atkins: The Department's policy is to keep the House of Commons and individual Members informed as appropriate.

Driving Instruction

Mr. Pike: To ask the Secretary of State for Transport what guidelines on the Pass Plus course are issued to driving instructors and others involved in driving tuition; and if he will make a statement. [218563]

Mr. Jamieson: The Pass Plus Scheme is a voluntary scheme undertaken by Approved Driving Instructors (ADI). On registering as a Pass Plus instructor the ADI receives a Pass Plus starter pack which includes a comprehensive 34 page instructor guide. The guide explains the scheme and sets out the instructors role and the syllabus to be followed.

The starter pack also contains several copies of a 39 page pupils guide, which explains the scheme and syllabus from the pupil's perspective, training report forms, and copies of a list containing the names of the participating insurance companies. A copy of this information is supplied to the pupil upon entry to the scheme.

Mr. Pike: To ask the Secretary of State for Transport what statistics his Department collects for *(a)* motorway accidents and *(b)* motorway accidents involving newly qualified drivers; and if he will make a statement. [218565]

Mr. Jamieson: The Department for Transport collects detailed statistics on road accidents involving personal injury, including motorway accidents. These are reported in the annual publication "Road Casualties Great Britain: Annual Report", which can be found on the Department's website. There were 8,746 motorway accidents involving personal injury in 2003. Information on whether drivers in motorway accidents are newly qualified is not collected in this system.

Mr. Pike: To ask the Secretary of State for Transport what statistics his Department collects for *(a)* all road traffic accidents and *(b)* road traffic accidents involving newly qualified drivers; and if he will make a statement. [218772]

Mr. Jamieson: The Department for Transport collects detailed statistics on road accidents involving personal injury. These are reported in the annual publication "Road Casualties Great Britain: Annual Report", which can be found on the Department's website. There were 214,030 road accidents involving personal injury in 2003. Information on whether drivers are newly qualified is not collected in this system. However, we know from research we have undertaken that one in five new drivers has some sort of accident within one year of passing their driving test. A cohort study of new drivers currently under way will refresh this information.

East Coast Main Line

Mr. Yeo: To ask the Secretary of State for Transport when he expects to announce the awarding of the East Coast Mainline Franchise. [218636]

Mr. Darling: An announcement is likely to be made in the next few weeks.

EU Committees

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on Aids to Transport by Rail, Road and Inland Waterway met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217812]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee for the Application of Legislation on the Development of the Community Railways met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217813]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee for the (i) application of uniform principles on costing for railway undertakings and (ii) harmonisation and comparability of the accounting and annual accounts of railway undertakings met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218263]

Mr. McNulty: I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Transport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee (i) on the system of charging for the use of transport infrastructure, (ii) on the development of trans-European transport networks and (iii) for granting Community financial aid in the field of trans-European energy networks met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [218364]

Mr. McNulty: (i) There were no meetings of this Committee during the period in question.

(ii) This Committee met three times during the course of the three presidencies, on 20 October 2003, 11 May 2004 and 17 November 2004. The meetings took place in Brussels and on each occasion the United Kingdom was represented by an official from the Europe Division of the Department for Transport.

(iii) Responsibility for representation on this Committee rests with my right hon. Friend the Secretary of State for Trade and Industry. I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

European Aviation Safety Agency

Mr. Hayes: To ask the Secretary of State for Transport if he will make a statement on the activity of the European Aviation Safety Agency in the UK in the last 12 months; and if he will list its publications and newsletters published over that period. [215202]

Charlotte Atkins: Regulation (EC) No. 1592/2002 on common rules in the field of civil aviation safety and establishing a European Aviation Safety Agency makes a clear distinction between the safety responsibilities of the Agency and those remaining with member states' aviation authorities, such as the UK Civil Aviation Authority. However, the Regulation also allows the Agency to use the national authorities to carry out on its behalf tasks that need to be performed to meet its own responsibilities.

The Agency does not have a physical presence in the United Kingdom. While it has been recruiting staff to its offices in Cologne and establishing necessary procedures, all the necessary technical work to meet its responsibilities in the UK have been carried out on its behalf by the UK Civil Aviation Authority.

In 2004, the European Aviation Safety Agency approved the following airworthiness-related items for United Kingdom companies and UK-registered aircraft on the basis of investigations and recommendations made by the UK Civil Aviation Authority:

	Number
Modifications to aircraft	2,201
Repairs to aircraft	1,910
Airworthiness Directives and related items	60
Approval of organisations that design aircraft	27
Total	4,198

For some aircraft types operating on the UK register the Agency has assigned the airworthiness-related tasks in the categories above to other national aviation authorities, or to multi-national teams that include personnel from the EU national aviation authorities and, in some cases, employees of the Agency. As these tasks were undertaken in other countries, accurate information on the number and nature of approvals granted is not held in the UK.

The Agency does not have a publications service. During the last 12 months, the Agency has issued a considerable number of documents, including detailed consultations, information leaflets and the minutes of its Management Board's meetings, all of which can be accessed on the Agency's website at www.easa.eu.int.

Highway Schemes

Mr. Chope: To ask the Secretary of State for Transport which highway schemes provisionally approved by his Department in the local Transport Capital Settlements announced in *(a)* December 2000, *(b)* December 2001, *(c)* December 2002 and *(d)* December 2003 have since been rejected. [218685]

Charlotte Atkins *[holding answer 28 February 2005]:* No local major highway schemes that were provisionally approved between December 2000 and 2003 have since been rejected. However, the Bridgefoot Environmental Bypass provisionally approved in 2000 has subsequently been withdrawn by Warrington borough council.

Motor Cycles

Lembit Öpik: To ask the Secretary of State for Transport when he will announce the public consultation process for his Department's plans for a register for post-test motorcycle trainers; and if he will make a statement. [218533]

Mr. Jamieson: The consultation paper on developmental training for qualified motorcyclists is due to be published by the Driving Standards Agency in the early spring of this year.

Lembit Öpik: To ask the Secretary of State for Transport if he will make provision for Safety Camera Partnerships to fund the Bikesafe scheme when the Motor Cycle Industry Association's grant-aid finishes; and if he will make a statement. [218534]

Mr. Jamieson: The Department welcomes the police's initiative in developing the Bikesafe initiative. "The Government's Motorcycling Strategy", published on 22 February, recognised that Bikesafe is a legitimate component of roads policing promoting road safety, and police forces have the freedom to devote resources to the scheme.

The Safety Camera Programme has a specific purpose, provided for in the Vehicles (Crime) Act 2001, section 38 "Unified power for the Secretary of State to fund speed cameras etc.". The programme provides police forces and highway authorities with extra resources to support the deployment and operation of safety cameras, from the fines for speeding and red light offences detected, over and above their main funding. The resources provided through the programme cannot be used for other purposes, not provided for in the Act.

Motorways

Mr. Chope: To ask the Secretary of State for Transport how many new motorway service areas were opened in each of the last eight years. [218651]

Mr. Jamieson: Since February 1997 16 motorway service areas have opened:

	Service areas
1997	
M20	Maidstone
1998	
M40	Oxford
M56	Chester
1999	
M1	Tibshelf
M1	Donnington Park
M5	Cullompton (north bound)
M6	Stafford (south bound)
M42	Hopwood Park
M5	Bridgewater
2000	
A1(M)	Doncaster North
2001	
A1(M)	Peterborough
A14	Cambridge
A1(M)	Baldock
M3	Winchester
2003	
M54	Castle Farm (Telford)
2004	
M6 (toll)	Norton Canes

Rail Safety

Mr. Greg Knight: To ask the Secretary of State for Transport what action *(a)* his Department and *(b)* Network Rail plan to take to promote rail safety in the forthcoming 12 months; and if he will make a statement. [218143]

Mr. McNulty: The actions the Department will take include the simplification of the regulatory structure, the coming into operation of the Rail Accident Investigation Branch and the making of regulations to transpose the European rail safety directive.

Network Rail will continue its systematic improvement of the control of key risks, reduction of business loss, compliance with new legislation (including European directives) and work with industry partners to improve the safety and performance of Britain's railway.

Road Safety

Mr. Amess: To ask the Secretary of State for Transport how many traffic accidents took place in *(a)* Essex and *(b)* Southend in each year since 1997. [218278]

Mr. Jamieson: The information requested is shown in the following table.

Accidents in Essex: 1997–2003

	Essex	*Southend-on-Sea*
1997	6,886	692
1998	6,821	698
1999	6,843	717
2000	6,985	745
2001	6,773	686
2002	6,408	656
2003	6,182	612

Dr. Tonge: To ask the Secretary of State for Transport what plans he has to extend the provision of road safety cameras. [218957]

Mr. Jamieson: Road safety cameras are operated by local partnerships of police forces and highway authorities, which are provided with additional resources from fine receipts, through the national safety camera programme. Two further partnerships are to join the programme for 2005–06, Surrey and Merseyside. Following the issue of the "Handbook of Rules and Guidance for the National Safety Camera Programme for England and Wales for 2005–06" in

November 2004, partnerships have submitted their bids for the 2005–06 programme. Partnerships' bids are now being assessed, and I shall announce the results when the assessment is completed. Copies of the Handbook are in the Libraries of the House.

Mr. Ben Chapman: To ask the Secretary of State for Transport how many "Tiredness Kills" signs there are on motorways in England; and where they are located. [217713]

Mr. Jamieson: The number of "Tiredness Kills" signs on motorways in England and their locations are:

MSA	*Carriageway*	*Number of Signs*
A1(M) Blyth	(Southbound only)	1
M1 Leicester Forest East		2
M1 Toddington	(Northbound only)	1
M1 Trowell		2
M1 Woodall		2
M1 Wooley Edge		2
M2 Medway		2
M4 Reading		2
M4 Chieveley		2
M5 Cullompton	(Northbound only)	1
M5 Exeter		2
M5 Sedgemoor Services		2
M5 Frankley		2
M6 Burton		2
M6 Hilton Park		2
M6 Knutsford		2
M6 Sandbach		2
M6 Southwaite		2
M6 Stafford		2
M6 Tebay		2
M6 Killington		2
M6 Forton		2
M18 Doncaster North		2
M20 Maidstone	(Eastbound only)	1
M23 Pease Pottage		2
M25 Thurrock	(Southbound only)	1
M40 Cherwell Valley		2
M42 Tamworth		2
M62 Ferrybridge		2
M62 Hartshead Moor		2
M69 Leicester Forest East	(Southbound only)	1
M180 Doncaster North	(Westbound only)	1
Total number of Signs at MSAs		57

These signs, which are usually worded "Tiredness Can Kill, Take a Break", are generally provided on the approaches to Motorway Service Areas.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Transport what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215094]

Charlotte Atkins: The Department for Transport was formed in May 2002.

In DfT's London Headquarters in 2004–05 to date we have replaced some 76 passes but this also includes replacing damaged passes as well as those lost or stolen. Information from earlier years is not available. The cost of replacing each pass is £13.52.

For elsewhere on the DfT estate we do not have comprehensive information to be able to provide a definitive standard cost of producing staff identity pass because of the large number of buildings and various access arrangements. From the information available the estimated average cost is between a £1–£15.30 depending on what the pass is used for and its method of production. The figures we have available about the numbers of passes lost or stolen indicates that there were 233 in 2002–03 and 228 in 2003–04.

A303 (Stonehenge)

Mr. Key: To ask the Secretary of State for Transport what assessment he has made of the impact on *(a)* the Stonehenge visitor centre and *(b)* the A303(T) Stonehenge tunnel project and Winterbourne Stoke bypass of his decision to delegate the funding decisions to south-west regional bodies. [214174]

Mr. Jamieson *[holding answer 4 February 2005]*: The Secretary of State for Transport, jointly with the First Secretary of State, is currently considering the Inspector's report of the inquiry into the A303 Stonehenge Improvement scheme.

There are no plans to delegate decisions on transport schemes or their funding to regional bodies. Under the proposals in the consultation document "Devolving decision making: a consultation on regional funding allocations" the region would be invited to advise Ministers on the relative priority of transport investment proposals on the basis of long-term regional funding guidelines. Copies of the consultation document are available in the House Libraries.

Tyre Pressure Gauges

Mr. Key: To ask the Secretary of State for Transport who the responsible authority for inspecting the calibration and accuracy of tyre pressure gauges on garage forecourts is; and if he will make a statement. [218624]

Mr. Jamieson: The calibration and accuracy of tyre pressure gauges is not routinely checked by local authorities or departmental agencies. The National Weights and Measures Laboratory have responsibility for issuing type approvals to new types of mechanical tyre pressure gauges in accordance with European Directive 86/217/EEC. If EEC-verified mechanical gauges are placed on a UK garage forecourt they can be inspected by a local authority Trading Standards Officer and can be disqualified if found to be inaccurate or not in compliance with the approval.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Aquariums

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the animal welfare implications arising from the operation of aquaria, with particular reference to *(a)* the showing of abnormal and stereotypic behaviour, *(b)* the incidence of deformities and *(c)* the incidence of infections. [216349]

Mr. Morley: All zoos including aquaria are regulated under the Zoo Licensing Act 1981, under which they are subject to a comprehensive licensing and inspection regime. The aims of the regime include maintaining appropriate standards of animal welfare and a suitable environment for the animals, as set out in the Secretary of State's Standards for Modern Zoo Practice.

In addition, the Zoos Forum, the Government's advisers on zoo matters, have set up a working group which will be looking at developing possible research proposals in all aspects of the keeping of animals in zoos, including aquaria.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will review her Department's policy on the issue of licences to farmers and other landowners for the destruction of badgers associated with outbreaks of bovine tuberculosis. [214120]

Mr. Bradshaw: There are currently no plans to review the existing policy for issuing licences for culling badgers in order to prevent the spread of TB.

However, we are prepared to consider a badger culling policy if evidence from the Randomised Badger Culling Trial, or from other research, suggests that it would be successful in reducing bovine TB in cattle, and that a cost-effective and acceptable policy could be developed and implemented.

We are aware of the recently published results of badger culling research carried out in Ireland and have sought the advice of independent scientists on the relevance of the findings to the disease situation in Great Britain.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons her Department no longer publishes data on bovine tuberculosis infection rates in badgers. [214135]

Mr. Bradshaw: Data on bovine tuberculosis infection rates in badgers culled in the Randomised Badger Culling Trial (RBCT) are being assessed by the Independent Scientific Group on Cattle TB (ISG) and will be published at the end of the Trial. This decision follows advice from the RBCT independent statistical auditor who supported the ISG policy of withholding such data from immediate publication as it could compromise the future statistical integrity of the RBCT. The ISG is currently analysing data on the prevalence and pathology of TB in badgers collected as part of the RBCT and the RTA survey and will present these analyses in the peer-reviewed press when complete.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has conducted on public perception of the costs of the bovine tuberculosis control programme. [214136]

Mr. Bradshaw: We sought views on cost sharing for the future as part of last year's consultation 'Preparing for a new GB Strategy on bovine TB'. In addition Defra has funded a survey, carried out by the University of Reading, into the monetary value society places on changes in the size of the badger population.

The views submitted in response to the consultation exercise have been taken into account in developing the new bovine TB strategy. We aim to publish the new strategic framework very shortly.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what account she takes of public perception of badgers in determining her policy on badger culling for the purpose of controlling bovine tuberculosis; and what measures she plans to inform the public of the *(a)* economic effects, *(b)* potential public health risks of bovine tuberculosis infection in badgers and *(c)* welfare implications for badgers. [214139]

Mr. Bradshaw: Defra strives to ensure that its policies are based on the best available scientific evidence, and that they are cost-effective and sustainable. Any future decision on badger culling will need to take account of the way the general public perceives badgers and the acceptability of culling them to control TB in cattle. Views on wildlife management, including badger culling, were sought as part of Defra's consultation on a new long-term bovine tuberculosis (TB) strategy for Great Britain, during 2004. In addition Defra has funded a survey, carried out by the University of Reading, into the monetary value society places on changes in the size of the badger population. This will be available on the Defra website in due course.

Defra aims to publish the new bovine TB Strategy framework shortly. This will set out a clear framework for decision making on bovine TB for the future, including decisions on matters such as badger culling. Disseminating information to the public will form part of the TB Strategy Implementation/Communications Plan.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her policy to support *(a)* a significant reduction in numbers of red deer in the Dulverton area and *(b)* the targeted culling of sick deer to reduce the spread of *M. bovis* infection. [214132]

Mr. Bradshaw: Following wide consultation the Government recently produced an action plan for achieving the sustainable management of wild deer in England. Under this plan the management of local deer remains the responsibility of local deer managers, provided they meet the requirements of the Deer Act 1991 and the relevant welfare legislation.

Through the Deer Initiative, Defra is funding a deer liaison officer to work with landowners on deer management issues in the South-West and to assist with disease surveillance in deer, including bovine tuberculosis (TB).

Defra is currently considering the research required to increase our understanding of the role of deer in relation to bovine TB infection in cattle.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of pockets of *M. bovis* infection in deer for the health of *(a)* cattle and *(b)* other wildlife in the area. [214133]

Mr. Bradshaw: We are aware that TB is present in wild deer in parts of Exmoor. This was a factor, together with the disease history of cattle herds and other wildlife, in the decision to test cattle herds for TB over most of Exmoor on an annual basis.

BSE

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department has made in identifying a BSE test capable of supporting British beef producers who plan to export to *(a)* Europe and *(b)* third countries. [218475]

Mr. Bradshaw *[holding answer 25 February 2005]:* There are currently 11 tests for BSE approved by the EU. These tests are applied post-mortem to a brainstem sample.

Carbon Trust

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will publish on its website the annual accounts of the Carbon Trust since its inception, including *(a)* incoming revenue from all sources and *(b)* expenditure on specific programmes; [217214]

(2) what the expenditure of the Carbon Trust on external consultants was in the last year for which figures are available; [217217]

(3) what assessment has been made of the impact of the Carbon Trust in terms of annual carbon savings. [217218]

Margaret Beckett: The Carbon Trust is an independent company grant funded by Government. The trust publishes annual accounts on its website www.thecarbontrust.co.uk. As a private company expenditure on contracts held with external consultants is a matter for the Carbon Trust Board.

The Carbon Trust's assessment of the impact of its programmes, including annual carbon savings, is published in its annual report, available on its website. All current climate change policies are being evaluated under the Climate Change Programme Review.

Climate Change

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates the Government has made of the change in global temperatures between 2004 and *(a)* 2014, *(b)* 2024 and *(c)* 2054. [216363]

Mr. Morley: Hadley Centre research for the Defra funded UK Climate Prediction Programme forecasts an increase in global temperature of between 0.17–0.53°C in the coming decade. The most recent report from the Intergovernmental Panel on Climate Change, the Third Assessment Report, stated that temperatures are predicted to increase by 0.4–1.1°C compared with 1990 levels by 2025, and 0.8–2.6°C compared with 1990 levels by 2050. Global temperatures have increased by just over 0.2°C since 1990.

Computers (Recycling/Disposal)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what strategies her Department has put in place to aid the reuse and recycling of old computers. [216352]

Mr. Morley: Defra has been closely involved in developing implementation proposals for the Waste Electrical and Electronic Equipment (WEEE) Directive, which requires producers of electrical equipment, including computers, to reuse or treat and recycle their products to target levels.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of how many computers were disposed of in landfill in each of the last five years. [216353]

Mr. Morley: No estimate has been made of the numbers of computers disposed of in landfill in each of the last five years. However, industry figures suggest that 1,022,000 computers, 960,000 monitors and 627,000 laptops were disposed of by householders in 2003.

Co-operatives

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she is considering to encourage the formation of co-operatives for the purposes of tier-two payments. [217793]

Alun Michael: I assume that the hon. Member is referring to the new Environmental Stewardship Scheme that is due to be introduced shortly.

Under the second tier of the scheme, known as higher level stewardship, we will be offering a supplementary payment for group applications. This recognises the extra costs involved in facilitating communal agreements, for example on areas of common land or shared grazing, or on areas under more than one ownership that need to be managed collectively for resource protection, inter-tidal flood management or wetland management.

Full details of the Environmental Stewardship Scheme will be published later this week.

Date-based Export Scheme

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Date Based Export Scheme to be lifted. [218367]

Mr. Bradshaw *[holding answer 25 February 2005]:* Before beef export restrictions can be eased, there will need to be a further inspection visit from the EU's Food and Veterinary Office to check our BSE controls and our testing arrangements, a proposal from the European Commission to amend EU legislation, and agreement by other EU member states. Changes in export restrictions for beef from cattle born on or after 1 August 1996 are not expected before late 2005.

Energy Saving Trust

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will publish on its website the annual accounts of the Energy

Saving Trust since its inception, including *(a)* incoming revenue from all sources and *(b)* expenditure on specific programmes; [217215]

(2) what the expenditure of the Energy Saving Trust on external consultants was in the last year for which figures are available; [217216]

(3) what assessment has been made of the impact of the Energy Saving Trust in terms of annual carbon savings. [217219]

Margaret Beckett: The Energy Saving Trust is an independent company grant funded by Government. The trust publishes an annual report on its website www.est.org.uk. As a private company expenditure on contracts held with external consultants is a matter for the Energy Saving Trust Board.

The Energy Saving Trust's assessment of the impact of its programmes, including annual carbon savings, is published in its annual report, available on its website. All current climate change policies are being evaluated under the Climate Change Programme Review.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Milk and Milk Products met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217849]

Alun Michael: The Management Committee of the Common Organisation of Agricultural Markets for Milk and Milk Products met:

(a) 10 times during the Italian presidency, on 10 July, 24 July, 28 August, 11 September, 25 September, 16 October, 30 October, 13 November, 27 November, and 11 December 2003.

(b) 12 times during the Irish presidency, on 15 January, 28 and 29 January, 12 February, 26 February, 11 March, 25 March, 15 April, 29 April, 13 May, 27 May, 10 June, and 24 June 2004.

(c) 10 times during the Dutch presidency, on 15 July, 29 July, 26 August, 16 September, 30 September, 14 October, 28 October, 11 November, 25 November, and 16 December 2004.

All but one of the meetings were held in Brussels. The meeting of 14 October 2004 held during the Dutch presidency took place in The Hague.

The UK was represented by officials from Defra's Milk Branch, with representatives from the Department of Agriculture in Northern Ireland and the Rural Payments Agency attending occasionally when subjects of particular interest were discussed.

At the meetings the UK has supported the measures taken by the Commission to balance Community milk and milk product markets while taking budgetary considerations into account.

A series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies, are available on the Foreign and Commonwealth Office website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Beef and Veal met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217850]

Alun Michael: The Management Committee of the Common Organisation of Agricultural Markets for Beef and Veal met:

(a) 10 times during the Italian presidency, on 11 July (1 DEFRA representative attended), 25 July (1), 29 August (1), 12 September (2), 26 September (1), 17 October (1), 31 October (1), 14 November (2), 28 November (2), and 12 December (2).

(b) 10 times during the Irish presidency, on 16 January (2), 13 February (2), 27 February (2), 12 March (2), 25 March (2), 15 April (3), 29 April (1), 28 May (1), 11 June (1), and 22 June (2).

(c) 7 times during the Dutch presidency, on 16 July (1), 30 July (2), 17 September (1), 27 September (1), 15 October (2), 26 November (1), and 17 December (1).

All of the meetings were held in Brussels. The UK were represented by officials from the appropriate division of Defra. The number of representatives for each meeting is shown in brackets above.

A series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies, are available on the Foreign and Commonwealth Office website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Sheep and Goats met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217851]

Alun Michael: The Management Committee of the Common Organisation of Agricultural Markets for Sheep and Goats met:

(a) Twice during the Italian presidency, on 21 November (1 Defra representative attended) and on 12 December (2).

(b) Once during the Irish presidency, on 13 February (2).

(c) Twice during the Dutch presidency, on 16 July (1) and on 26 November (1).

All meetings were held in Brussels. The UK were represented by officials from the appropriate division of Defra. The number of representatives for each meeting is shown in brackets above.

A series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies, are available on the Foreign and Commonwealth Office website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for

Pigmeat met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217852]

Alun Michael: The Management Committee of the Common Organisation of Agricultural Markets for Pigmeat met:

(a) 5 times during the Italian presidency, on 15 July (2 Defra representatives attended, plus 1 expert), 17 September (1, plus 1 expert), 15 October (1), 18 November (1), and 15 December (1) 2003.

(b) 6 times during the Irish presidency, on 23 January (2, plus 1 expert), 16 February (3), 15 March (2), 21 April (2), 19 May (2), and 22 June (2) 2004.

(c) 5 times during the Dutch presidency, on 13 July (1), 14 September (2), 19 October (2), 16 November (1), and 14 December (1) 2004.

All meetings were held in Brussels. The UK was represented by officials from Defra's Livestock Products Division (Pigs branch), and experts were from the Meat and Livestock Commission. The number of representatives for each meeting is outlined above.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Meetings of Management and/or regulatory Committees in the field of agriculture—promotion of agricultural products met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217870]

Alun Michael: The Joint Management Committee for the Promotion of Agricultural Products met on the following dates:

(a) During the Italian presidency:

16 July 2003

9 September 2003

8 October 2003

17 December 2003

All meetings took place in Brussels and officials from Defra attended.

(b) During the Irish presidency:

4 February 2004

24 March 2004

12 May 2004*

14 June 2004*

All meetings took place in Brussels and officials from Defra attended. An official from the Rural Payments Agency also attended the meetings marked with an asterisk.

(c) During the Dutch presidency:

12 July 2004*

15 September 2004*

13 October 2004

18 November 2004

17 December 2004

All meetings took place in Brussels and officials from Defra attended. An official from the Rural Payments Agency also attended the meetings marked with an asterisk.

The Joint Committee for the Promotion of Agricultural Products was established in September 2000 following the introduction of Council Regulation (EC) 2702/1999 for the promotion of agricultural products in third countries. Council Regulation (EC) 2826/2000 which covers the promotion of agricultural products in the internal markets was introduced shortly afterwards. The regulations provide a framework for promoting Community agricultural produce through activities such as trade fairs, market research, advertising, information campaigns and fact finding visits.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee (i) for the adaptation to scientific and technical progress and implementation of the Directives on waste, (ii) on the Directive on packaging and packaging waste and (iii) for the adaptation to technical and scientific progress of the Directive on the protection of the environment, and in particular of the soil, when sewage sludge is used in agriculture met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [218313]

Mr. Morley: The Technical Adaptation Committee (TAC) for the Waste Electrical and Electronic Equipment (WEEE) and Restriction of Hazardous Substances (ROHS) Directives met on the following 12 occasions: During the Italian presidency (from July to December 2003) 11 July, 16 September, 26 November, 17 December, during the Irish presidency (from January to June 2004) 27 January, 3 March, 17 March, 10 June, 28 June and during the Dutch presidency (from July to December 2004) 20 July, 22 October, 10 December. UK experts from Defra and DTI were present and a detailed summary of these discussions, including unofficial meeting notes, may be found on the internet at the following website: http://www.dti.gov.uk/sustainability/weee/index.htm

TAC meetings for Packaging and Packaging Waste took place in Brussels during the Italian presidency on 30 October 2003 and included two UK experts, both from DTI. On 16 April 2004 a second meeting was held which included UK experts from both of DTI and Defra.

There were no TAC meetings held in relation to End of Life Vehicles (ELVs) during the Italian presidency. During the Irish presidency two meetings were held on 14 January and 10 June 2004. During the Dutch presidency there was a single meeting held on 2 December 2004. In these instances a DTI official represented the UK.

There were no meetings of the TAC on the sewage sludge Directive during the Italian, Irish or Dutch presidencies.

Flood Defence Committees

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the allocation of seats for regional flood defence committees. [217066]

Mr. Morley: Section 15 of the Environment Act 1995 provides that each English regional flood defence committee (RFDC) shall consist of:

(a) a chairman and a number of other members appointed by the Secretary of State;

(b) two members appointed by the Environment Agency;

(c) a number of members appointed by or on behalf of the constituent councils to form a bare majority on the RFDC.

In making her appointments, my right hon. Friend seeks to ensure that the profile of committee members forms a broad coverage of interests from the area including land drainage, planning, social, environmental and coastal issues; and also attempts where possible to achieve a balance on the committee in terms of geographical representation.

Local authority representation is set by statutory instrument and we seek to allocate seats—whole or shared—to the constituent councils based upon council tax data (band D equivalent properties).

Constituent councils are defined in section 15(6) of the Environment Act 1995 as, 'the councils of every county, county borough, metropolitan district, or London borough any part of which is in the area of a regional flood defence committee shall be the constituent councils for the regional flood defence committee for that area'. This therefore means that upper tier and unitary authorities are eligible for the local authority seats but not lower tier authorities such as district councils nor other bodies such as the Government office for the region concerned.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs whether the shared seat for City of York and North Yorkshire on the Yorkshire Regional Flood Defence Committee will be occupied by a representative from *(a)* City of York and *(b)* North Yorkshire county council. [217067]

Mr. Morley: Section 16(8) of the Environment Act 1995 provides for the sharing of seats of constituent councils. Seat sharing is commonplace on regional flood defence committees (RFDCs) throughout the country and councils normally decide between themselves how this will be managed, for example operating an annual rota system. If councils are unable to agree, the appointments are made by my right hon. Friend the Secretary of State. Non-voting members can attend meetings.

I understand that the allocation of the seat shared between City of York and North Yorkshire on the Yorkshire RFDC has not yet been decided.

Flood Defence Projects

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the priority scoring system for flood defence funding; [217064]

(2) what criteria are used to score flood defence projects to determine whether they are eligible for funding; and what criteria must be met for such funding to be received. [217068]

Mr. Morley: Despite large increases in Government funding—up from £312 million in 1997–98 to £570 million in 2005–06—there is still not enough to fund all worthwhile proposals from the flood and coastal defence operating authorities (the Environment Agency, local authorities and internal drainage boards). Defra therefore operates an objective and published priority scoring system which is intended to direct our finite funds to best effect nationally, to maximise the benefit obtained from the programme as a whole.

The current scoring system was introduced in 2003 after extensive consultation following a pilot introduced in 1997. In summary, proposed projects are scored on three elements—their estimated economic benefits, the number of people they are likely to protect and protection and enhancement of environmental and/or heritage assets. All three are compared to cost so that projects are treated fairly regardless of size. The higher the score, the higher the priority.

In order to be eligible for funding from Defra, projects must achieve Defra's published threshold score for the year in which they start. The threshold scores were last revised in November 2004 to take account of changes in operating authorities' investment plans. Because of an increased demand for grant nationally, the thresholds had to rise and are now 19 for projects to start in 2005–06 or 2006–07 and 15 in 2007 08.

The scoring system has no effect on the overall sum available for grant aid. It does not attempt to allocate funding to projects in an absolute sense but simply to rank proposals in a relative priority order. Defra is then able to allocate its funding to projects in priority order. The actual threshold score which a project must achieve will depend on available funding compared to need nationally. The thresholds are set by analysis of forward plans provided to Defra by operating authorities each year—proposals for funding are compared with available funds and I set the lowest threshold that can be afforded for the following financial year, together with indicative estimates of the likely thresholds for the following two years. The latter are reviewed a year later in the light of updated authorities' plans.

The threshold is the same for all projects and is applied broadly equally to all operating authorities. There can be exceptions such as for the very few projects required to protect environmental sites of international importance under the Habitats Directive but the amount of funding spent on these projects is low.

Flooding

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs which body is responsible in the event of flooding in a watercourse for which an internal drainage board is responsible *(a)* before 2006 and *(b)* after 2006; and if she will make a statement. [216008]

Mr. Morley: All watercourses effectively fall into one of two categories: *(a)* main rivers which are the responsibility of the Environment Agency and *(b)* ordinary watercourses which are the responsibility of local authorities or, where they exist, internal drainage boards.

Recognising that some ordinary watercourses create significant flood risk, in March 2003 the Government announced that all the so called "critical" ordinary watercourses (COWs) would become the responsibility of the Environment Agency (EA). This transfer of responsibility is in progress and will be completed by April 2006.

Once a COW has been transferred, it becomes a main river and the EA assumes full responsibility for all associated flood risk management and for dealing with any flooding from it. However, all other ordinary watercourses will remain the responsibility of the local authority or internal drainage board.

While the EA will retain the overall responsibility for the transferred COWs, they may decide to contract back maintenance and other work to the appropriate local authority or IDB where these bodies are willing to take this on and have a good track record.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department has taken to reduce flood risk in Chorley constituency. [216191]

Mr. Morley: Defra has overall policy responsibility for flood and coastal erosion risk in England. We fund most of the Environment Agency (EA)'s flood risk activities and provide grant aid on a project by project basis to the other flood and coastal defence operating authorities (local authorities and internal drainage boards) to support their investment in improvement works. Defra does not build defences, nor direct the authorities on what specific projects to do. The works programme to manage risk is driven by the operating authorities.

I understand from the EA that they have undertaken or are undertaking the following in connection with the reduction of flood risk in Chorley:

Capital Works

Croston Flood Wall—works to improve unstable sections of the existing flood defence walls along the River Yarrow, through the village of Croston, were completed in May 2004 (out-turn cost £680,000).

Revenue Works

Heavy Maintenance—works are programmed in March/April 2005 to replace and improve a critical debris screen at the entrance to a long culverted reach of the River Chor at Water Street, Chorley (estimated cost £30,000).

Routine Maintenance for example: at pumping stations, flood embankment mowing, channel-desilting, screen clearance, channel debris removal and general upkeep of existing flood defences (estimated cost £80,000).

Strategic Studies and Investigations

A strategic study into flood risk management covering the River Douglas catchment area is nearing completion. This takes in the major tributaries of the Rivers Yarrow and Lostock and their Critical Ordinary Watercourse tributaries, which cover part of the Chorley constituency. The strategy study is an important stage in determining flood risk and how to manage it. It also helps the EA to decide on future, sustainable flood protection measures. The expected completion date for the study is July 2005 (estimated cost £135,000).

This study has already highlighted that flood risk to Croston Village should be examined further. An investigation is now under way, the outcome of which will be a viability report for a Croston Village Flood Alleviation Scheme. The report should be completed by April 2005. Subject to the findings, a detailed feasibility study will be planned in the EA's medium/long-term programme, and improved flood risk management scheme options for the village will be considered.

Investigations into extending the current Flood Warning service within the Chorley constituency are planned within the next three to five years, subject to detailed feasibility studies.

Fly-tipping

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much rubbish was dumped by fly-tipping in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [216189]

Mr. Morley: No national data are currently available however, Flycapture, the national database for fly-tipping incidents was launched in April 2004. Flycapture data are currently being validated and will be made available once this process is complete.

Foot and Mouth

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the recent National Audit Office report on foot and mouth procedures; and what action she will take to impose more robust financial controls on compensation payments. [217086]

Mr. Bradshaw: I welcome this Report and its recommendations and am pleased to see it reflects the progress the Department has made since 2001, particularly on contingency planning, improved dialogue with stakeholders, and improving the Department's capacity and preparedness for combating another major disease outbreak. Overall the NAO consider that the Department has implemented most of the actions promised to the Committee and has made good progress on the others since 2001. I understand there are some areas requiring further work, but the Department is aware of them and working to resolve them as soon as is practicable.

We have already taken steps to control future costs of compensation for stock taken to control an outbreak of foot and mouth. These include the appointment of a new panel of valuers and four monitor valuers to ensure consistency, all of whom will be paid on a daily, rather than commission basis. Farmers will no longer appoint their own valuers.

In the long-term it is our aim to rationalise compensation arrangements for all notifiable animal diseases. As a first stage, we aim to rationalise the compensation arrangements for four cattle diseases, namely bovine TB, brucellosis, enzootic bovine leukosis

and BSE, later this year. FMD compensation will be examined in the second round as this will require changes to primary legislation

Gangmaster (Licensing) Act

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with gangmasters on the implications of the Gangmaster (Licensing) Act 2004 for their supply chains. [217085]

Alun Michael: Both I and the Parliamentary Under-Secretary for Food and Farming have met representatives of the Association of Labour Providers and individual labour providers on several occasions to discuss the implications of the Gangmaster (Licensing) Act 2004. We have also attended meetings of the Gangmaster Licensing Authority Consultative Committee, which includes representatives of the Association of Labour Providers and the Recruitment and Employment Confederation. A wide range of matters connected with the implementation of the Gangmaster (Licensing) Act and the establishment of the Licensing Authority was discussed at these meetings.

The Government welcomes the constructive role that labour providers and other stakeholder organisations have played in relation to the introduction of the new licensing arrangements. We look forward to maintaining this close relationship as the detail of the licensing scheme is developed and will ensure labour providers will continue to be consulted fully before the arrangements are finalised. We remain on course to establish the Gangmaster (Licensing) Authority in April and hope to be able to start processing licence applications before the end of the year.

Land Degradation

Dr. Kumar: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to reverse long-term land degradation. [215892]

Mr. Morley: A wide range of measures address land condition. Part IIA of the Environmental Protection Act 1990 was brought into force in April 2000 to address in particular the legacy of historic contamination, where this poses unacceptable risk to human health or the environment. Local authorities are now identifying contaminated land in their area, and ensuring that appropriate remedial action is taken.

Such remediation also takes place as part and parcel of the development of land, and is secured through the planning system, which aims to encourage the redevelopment and beneficial re-use of previously developed land. Last autumn, new planning guidance (PPS23—"Planning and Pollution Control") was issued by the Office of the Deputy Prime Minister, which aims to assist in the remediation of contaminated land through the process of development. A new Land Restoration Trust has been set up.

We have published a Soil Action Plan to help tackle the various risks and threats to soil. The plan is informed by key European initiatives such as the Water Framework Directive and work towards a European Thematic Strategy for Soil Protection. The EU Thematic Strategy identifies contamination, erosion and organic matter as three priority issues for soils and is also developing overarching plans for soil monitoring and R and D.

Under the Single Payment Scheme land managers are required to demonstrate that they are keeping the land in Good Agricultural and Environmental Condition (GAEC). GAEC standards, set specifically for England, apply to soil management and protection and to the maintenance of habitats and landscape features.

In the built environment soil degradation and erosion caused by construction activities can be a serious issue, particularly in terms of pollution of water resources. Defra is working with the construction industry to identify and address gaps in knowledge.

Within the suite of Sites of Special Scientific Interest (SSSI), notified for their conservation importance in England, degraded habitats will be addressed by our PSA target to have 95 per cent. of the SSSI area in favourable condition by 2010.

Defra will shortly be launching the new Environmental Stewardship Scheme which will replace the existing Countryside Stewardship and Environmentally Sensitive Areas Schemes. The new scheme will focus on natural resource protection, in addition to the primary objectives of the existing schemes, namely wildlife conservation; maintenance and enhancement of landscape quality and character; protection of the historic environment; and the promotion of access of the countryside. This will include measures to help protect watercourses and sensitive habitats by reducing diffuse pollution and soil erosion.

Recycling

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the responsibility of Chorley council to provide recycling facilities. [216190]

Mr. Morley: Government have set each local authority in England Statutory Performance Standards for recycling and composting of household waste for 2003–04 and 2005–06. In addition, the Household Waste Recycling Act 2003 requires waste collection authorities—subject to certain exemptions—to provide a kerbside collection service of at least two recyclable materials by 2010. It is local authorities' responsibility to decide the type of recycling facilities that should be provided, taking into account local circumstances, to help them meet the Standards and the requirements of the Act.

Rural Bus Services

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs how much was given in grants to rural bus services by the Countryside Agency in each year since 1997; and what plans she has to continue such grants. [201604]

Margaret Beckett: The Countryside Agency has undertaken a variety of time-linked pilot programmes on behalf of Government and has contributed to rural bus services on our behalf through the Rural Transport

Partnership and Parish Transport schemes. The Agency's database does not record information to distinguish funding for rural bus services from other grants to support other local transport needs within those schemes. Information about grants made in 1997–98, made by the Countryside Agency's predecessor, the Countryside Commission, is no longer available.

In 2004–05, the Department for Transport is making £51 million available for rural bus services through Rural Bus Subsidy Grant to bus companies and local authorities to maintain services which would otherwise be uneconomic. This is an increase from £48.5 million in 2003–04. The Department for Transport's annual Rural Bus Challenge competitions have also made a total of 301 awards amounting to £110 million over the last six years.

Since 1999 grants given each year to local transport initiatives in rural areas through the Rural Transport Partnership and Parish Transport Grant schemes are as follows:

£ million

	Rural transport partnership scheme[1]	Parish transport scheme[1]	Total
1998–99	[1]0.3	[1]1.6	[1]1.9
1999–2000	[1]1.3	[1]2.0	[1]3.3
2000–01	[1]2.8	[1]2.0	[1]4.8
2001–02	7.1	0.3	7.4
2002–03	13.1	0.9	14.0
2003–04	12.5	1.0	13.5
2004–05	[2]—	[2]—	[3]11.3
Total	—	—	[3]56.2

[1] Funding until 2001 from the Countryside Commission's Rural Transport Partnership scheme and Rural Transport Development Fund.
[2] Figure not yet available.
[3] To date.

On 1 April 2004, the Countryside Agency closed the Rural Transport Partnership and Parish Transport schemes to new grant applications although existing commitments will continue to be met.

From 1 April 2005, Defra will devolve delivery of economic and social regeneration policies to the Regional Development Agencies. This includes areas of activity such as those formerly covered by the Countryside Agency's transport schemes. We have also charged the Regional Development Agencies with contributing to the delivery of our Public Service Agreement target to improve the accessibility of services for people in rural England. In recognition of their larger role in the delivery of Defra's policies, Defra has given the Regional Development Agencies an additional £21.3 million per annum for the years 2005–06 to 2007–08.

We are discussing with the Regional Development Agencies what they will deliver and how it will be measured, to be included in their Tasking Framework. Defra expects them, in partnership with local government and others, to ensure that the needs of people in rural communities are addressed, through regional level strategies and delivery. But it will be for each Development Agency to determine the priorities for its region and, through their corporate plans, how they will achieve their agreed outcomes.

Salt Marshes (Lymington)

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects a specific defence option to protect the salt marshes of Lymington from erosion to be approved; and if she will make a statement. [216079]

Mr. Morley: Defra has overall policy responsibility for flood and coastal erosion risk management in England. Defra funds most of the Environment Agency's flood management activities in England and provides grant aid on a project by project basis to the other flood and coastal defence operating authorities (local authorities and internal drainage boards) to support their investment in improvement projects to manage flood and coastal erosion risk. To qualify for Defra funding proposals must satisfy essential technical, economic and environmental criteria and achieve the relevant "priority score" for the year in which work is programmed to start.

The Government encourages operating authorities to take a strategic approach to the provision of flood and coastal defences and they are required to consider a range of defence options. New Forest district council (NFDC), the local coast protection authority, is currently undertaking the West Solent Strategy Study and the area covered extends from Hurst Spit to Calshot Spit including the Lymington salt marsh. NFDC is, I understand, carrying out a public consultation exercise that will inform the options to be evaluated in the study.

NFDC's medium term plan includes work planned in Lymington where the council propose to reduce the rate of salt marsh erosion but I hope you understand that, until the West Solent Strategy Study is complete and until the council has submitted proposals for coast protection work in Lymington, I cannot comment on options for work.

Timber

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs whether the US based Sustainable Forest Initiative has been endorsed by the Central Point of Expertise on Timber. [216575]

Mr. Morley: The Sustainable Forest Initiative was assessed in October 2004 to determine if its certification scheme provides assurance of legal and sustainable timber as defined in the Government's model contract terms and conditions.

The Government has concluded that SFI's forest management standards and chain of custody system do meet the Government's contract criteria for assurance of legal harvesting but do not provide the required assurance of Sustainable forest management. The issue for the Government is not with SFI's forest management standards, which were found to be adequate, but with the chain of custody system which does not enable the consumer to determine the percentage of certified timber in the finished product. The Government could accept a combination of an SFI certificate and additional verification of the certified timber element but, as matters stand, a certificate alone would not suffice. Action to Implement this assessment will be effective from May 2005.

The full report on the five main certification schemes assessed can be found on the sustainable development in Government website at: http://www.sustainable-development.gov.uk/sdig/improving/pdf/f-cpet.pdf

Waste Tips

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what powers the Environment Agency has to close tips which cause a nuisance for local residents. [216192]

Mr. Morley: Landfill sites can be closed in the following circumstances:

(i) When the conditions specified in the landfill permit are satisfied (eg the site is full);

(ii) When the Environment Agency approves the initiation of the closure procedures following a request from the operator; or

(iii) By a reasoned decision of the Environment Agency to initiate closure procedures (eg because the requirements of the landfill permit are not being met).

In circumstances where the Environment Agency has taken a reasoned decision in accordance with (iii) above, the agency shall serve a closure notice on the operator of the landfill setting out its reasons for requiring closure. Clearly, adverse impact on the local environment/ residents may constitute one of those reasons.

Yorkshire Flood Defence Committee

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when the City of York will receive an individual seat on the Yorkshire Regional Flood Defence Committee. [217062]

Mr. Morley: I refer the hon. Member to the answer I gave her on 24 January 2005, *Official Report*, column 9W. The local authority representation on the Yorkshire Regional Flood Defence Committee remains as stated.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many rural flood defence projects are funded by the priority scoring system. [217065]

Mr. Morley: Defra's priority is to maximise the protection of people and assets in relation to the funding available. While there is no bias in the priority score system against rural projects, it is however true that projects are less likely to go ahead in sparsely populated areas as these will tend to score less highly than projects which protect larger numbers of people or higher asset values for a given cost. Most of the components making up the priority score of a given project are compared to cost so the crucial measurement is on benefits per unit cost and not on the absolute benefits of proposals. This ensures smaller projects are considered on an equal footing to larger ones.

We do not classify projects by urban or rural location and often the distinction will not be clear. We could not seek to gather this information without incurring disproportionate cost. As explained in my letter of 11 February to the hon. Member, I have placed in the House Library a list of improvement projects in England approved since May 1997, or which were approved earlier but received funding after that date.

FOREIGN AND COMMONWEALTH AFFAIRS

Zimbabwe

14. **Gregory Barker:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the forthcoming elections in Zimbabwe. [218407]

Mr. Mullin: We have made it clear that we look to Zimbabwe to comply in full with the South African Development Council electoral principles. We are concerned that the environment still falls woefully short of meeting this. Media, opposition and civil society in Zimbabwe need to be able to operate without fear of violence and intimidation. The intimidation of media and the break-up of an MDC training session earlier this month suggests otherwise.

Sri Lanka

15. **Mr. Llwyd:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met representatives of the Government of Sri Lanka to discuss the current political situation. [218408]

Mr. Alexander: My right hon. Friend the Foreign Secretary discussed the political situation in Sri Lanka with the President and Foreign Minister in the course of last year. He is looking looking forward to meeting the Sri Lankan Foreign Minister again in London this month.

My right hon. Friend the Secretary of State for International Development also visited Sri Lanka in January this year.

Cyprus

16. **Mr. Tynan:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Cyprus. [218409]

Mr. MacShane: The Government's objective remains the reunification of Cyprus, and we continue to support all efforts to achieve this aim in a manner that is fair, viable and lasting for the benefit of all Cypriots. It is in this context that we welcome the continued strong support for settlement and re-unification among Turkish Cypriots as reflected in the outcome of their elections on 20 February.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the outcome of the Turkish Cypriot elections on 20 February. [217721]

Mr. Rammell: We believe this outcome reflects the Turkish Cypriot Community's on-going desire to work for a comprehensive settlement on the basis of the Annan Plan and to realise in full the benefits of EU membership.

Kashmir

17. **Mr. Gordon Prentice:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterpart in Pakistan concerning the situation in Kashmir. [218410]

Mr. Alexander: My right hon. Friend the Foreign Secretary discussed the issue of Kashmir with his Pakistani and Indian counterparts during his visit to both countries earlier this month. More broadly, they discussed progress in the on-going composite dialogue between India and Pakistan. The Foreign Secretary particularly welcomed the announcement that was made on 16 February of a bus link between Muzaffarabad and Srinagar.

China

18. **Mr. David Stewart:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions on human rights he has had with the Government of China. [218411]

Mr. Rammell: My right hon. Friend the Foreign Secretary raised human rights issues in his meetings with Chinese Premier Wen Jiabao and Foreign Minister Li Zhaoxing in Beijing on 21 January. He encouraged China to ratify the International Covenant on Civil and Political Rights (ICCPR), called for progress in the reform of China's re-education through Labour system and lobbied on behalf of several individual cases of concern.

European Constitution

19. **Angela Watkinson:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of ratification of the proposed Constitutional Treaty for the European Union. [218412]

Mr. MacShane: Each member state will ratify the Treaty according to their own constitutional procedures. Three member states, Lithuania, Hungary and Slovenia, have already ratified the proposed Constitutional Treaty. Spain approved the Treaty in its referendum on 20 February. A referendum will be held in the Netherlands on 1 June. In the UK, the EU Bill was introduced on 25 January and had its Second Reading on 9 February.

Sudan

20. **Hugh Bayley:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK relations with Sudan. [218413]

Mr. Mullin: The UK has full diplomatic relations with Sudan. The Government regularly meets leaders of the major political parties and was heavily involved in negotiations of the Comprehensive Peace Agreement, signed on 9 January 2005. We are committed to helping the parties implement the agreement. We continue to press strongly the Government of Sudan and the rebels to resolve the conflict in Darfur peacefully, within the framework of the CPA.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* European Union and *(b)* African Union counterparts on how to ensure the safety of aid workers in Sudan. [205907]

Mr. Mullin: I would like to apologise for the delay in replying.

We are greatly concerned about the deteriorating security situation in Darfur and deplore the recent deaths of the Save the Children UK and Médecins Sans Frontières aid workers.

My right hon. Friend the Foreign Secretary spoke to the African Union (AU) Chairman, President Obasanjo on 22 December. My right hon. Friend the Secretary of State for International Development and I met, separately, with AU Commissioner for Peace and Security, Said Djinnet, in London on 21 December. We are working with the AU, both bilaterally and through the EU, to improve security in Darfur for aid workers and the civilian population.

We also regularly raise the issue of security, and the resultant effects on the delivery of humanitarian assistance, with EU partners. The Foreign Secretary last discussed this issue with EU counterparts at the General Affairs and External Relations Council on 13 December.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Sudanese Government on clemency in the case of Nagune Idin Abdallah, who is sentenced to death. [219335]

Mr. Mullin: We regularly press the Sudanese Government to abolish the death penalty. We discussed Mr. Abdallah's case at the joint Sudan-EU human rights dialogue meeting on 24 February 2005, during which the Government agreed to provide further information on his case. We will continue to pursue this and other such cases in Sudan through our embassy in Khartoum.

Iraq

21. **Ms Munn:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the establishment and growth of local women's organisations in Iraq. [218414]

Mr. Rammell: Since the fall of Saddam regime, more than 1,500 non-governmental organisations including women's groups have registered with the Iraqi Government. Following a Department for International Development study in 2004, DFID has supported projects encouraging Iraqi women to vote, and to increase their awareness of the political process as well as fostering partnerships between international women's organisations and national women's groups.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on investigations being undertaken by OLAF concerning illegal exports to Iraq indicating *(a)* what types of material are subject to investigation, *(b)* what the country of origin was of each type of material, *(c)* what the nationality is of those persons under investigation and *(d)* what the dates were of the alleged incidents; what the nature is of UK participation in the inquiries; and what involvement Communities staff have had in the inquiries. [216065]

Mr. MacShane: We are not aware of any investigations currently being undertaken by OLAF concerning illegal exports to Iraq.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations were held following the loss of nuclear material held by Iraq after the first Gulf War; and if he will make a statement. [217706]

Mr. MacShane: Inspectors from the International Atomic Energy Agency (IAEA) conducted thorough investigations into Iraq's nuclear weapons programme and made a full inventory of Iraq's known holdings of nuclear material in the 1990s. They reported to the UN regularly on their activities.

Following reports of looting in the aftermath of the recent conflict, IAEA inspectors conducted an inventory check in June 2003, and reported that, although some uranium compounds could have been dispersed, they were not of a quantity or type sensitive from a proliferation point of view.

Subsequently, as part of their regular inspections under Iraq's nuclear safeguards agreement, IAEA inspectors visited the al-Tuwaitha site in August 2004, on which occasion they confirmed that no nuclear materials subject to IAEA safeguards were unaccounted for.

Reports received in October 2004 concerning the disappearance of large amounts of high explosives and other dual-use materials are being investigated by the Iraq Survey Group. No nuclear material is reported as missing. We expect them to publish a report on their findings shortly as an addendum to their October 2004 comprehensive report.

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs on what grounds the Government have refused to publish the letters of Dr. Rod Barton of the Iraq Survey Group concerning weapons of mass destruction in Iraq. [218175]

Mr. MacShane: The Government have not received any formal request to publish Dr. Barton's letters.

United States

22. **Mr. Simon Thomas:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed nuclear proliferation with his US counterparts. [218415]

Mr. MacShane: Nuclear proliferation is an issue that is always on the agenda for discussions with my US counterparts, and was last discussed during the visit of Dr. Condoleeza Rice on 4 February.

Libya

23. **Dr. Cable:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on relations with Libya. [218416]

Mr. Rammell: Libya's decisions to formally accept responsibility for the Lockerbie bombing, renounce terrorism and take action to dismantle its Weapons of Mass Destruction development programmes have been important and welcome developments.

We are developing further our political, cultural and commercial ties, while continuing to seek progress on the issues of difference that remain between us.

China (Military Technology)

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assurances he gave to US Senator Lugar regarding EU restrictions on arms sales to prevent sensitive US technologies being diverted to China. [218387]

Mr. Rammell *[holding answer 28 February 2005]:* My right hon. Friend the Foreign Secretary met Senator Lugar, in his capacity as Chairman of the Senate Foreign Relations Committee, during his visit to Washington on 24 January. They briefly discussed the EU's controls on arms exports to China.

With regard to the ongoing review of the EU's arms embargo on China, the Foreign Secretary noted the conclusion reached at the European Council in December 2004 That

> "the result of any decision should not be an increase of arms exports from EU Member States to China, either in quantative nor in qualitative terms".

As the Foreign Secretary told the Committee on Strategic Export Controls on 12 January, the US has a legitimate and understandable interest both in the effectiveness of the EU's system of arms control and in the stability of the East Asian region. The review of the EU Arms Embargo, and any decisions arising from it are, of course, for the EU alone. But the EU will take all relevant factors into account.

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent by his Department on *(a)* new furniture and *(b)* hired furniture in each year since 1997. [205616]

Mr. Rammell: The Department has spent the following amount on new furniture, including freight costs and domestic equipment, since 1997:

	£ million
1997–98	17.7
1998–99	14.9
1999–2000	17.7
2000–01	16.0
2001–02	15.0
2002–03	13.0
2003–04	10.0

The Department does not normally hire furniture for permanent use.

The costs of hiring furniture for temporary use cannot be separately identified.

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Council (EEC—Countries of the Gulf Co-operation Council) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217920]

Mr. Rammell: During this period, the EU-GCC Joint Council met on 17 May 2004 in Brussels. The UK was represented by a Foreign and Commonwealth Office official.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (EEC—Yemen) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217921]

Mr. Rammell: During this period, the EC-Yemen Joint Co-operation Committee met on 6–7 October 2003 in Sana'a. The UK was represented by a Foreign and Commonwealth Office official.

EU Presidency

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what dates have been agreed for meetings of *(a)* the European Council and *(b)* configurations of the Council of the European Union during the UK presidency of the European Union. [218052]

Mr. Rammell *[holding answer 25 February 2005]:* During the UK Presidency of the EU the following provisional dates have been agreed for:

(a) European Council:

27–28 October 2005 and 15–16 December 2005.

(b) Councils of the European Union:

General Affairs and External Relations Council (GAERC)

18–19 July
24–25 October
21–22 November
12–13 December

ECOFIN

12–13 July
11 October
8 November
24 November
6 December

Justice and Home Affairs (JHA)

26 July
13–14 October
1–2 December

Agriculture and Fisheries

18–19 July
19–20 September
24–25 October
22–24 November
19–21 December

Transport, Telecom and Energy

6–7 October
1–2 December

Competitiveness

11 October
28–29 November

Education, Youth and Culture

14–15 November

Environment

17 October
5 December

Employment, Social Policy, Health and Consumer Affairs

3–4 November
8–9 December

A copy of the official calendar of the UK Presidency of the EU has been placed in the Library of the House.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress of the recent discussions between the UK and Spain concerning Gibraltar. [216076]

Mr. Rammell: Following my right hon. Friend the Foreign Secretary's joint statement on Gibraltar with his Spanish counterpart on 27 October 2004, representatives of the UK, Gibraltar and Spanish Governments met on 8–9 December 2004 to agree modalities for a new, trilateral forum. A first meeting of the new forum was held on 11 February 2005. These talks covered a range of issues including telecoms, the airport, nuclear submarines and delays at the border crossing with Spain.

Religious Organisations (EC Funding)

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list those religious organisations that are in receipt of financial support from the European Communities. [216064]

Mr. MacShane: The Commission does not provide core funding for any religious organisations. Some cross-faith bodies and religious linked NGOs have received EU grants to carry out specific projects.

The Commission does not maintain a list of religious organisations to which grants have been made, but selected projects for 2003 and 2004 can be found at the following URLs:

http://europa.eu.int/comm/dgs/education_culture/ong/sele2004.pdf

http://europa.eu.int/comm/dgs/education_culture/ong/sele2003.pdf

http://europa.eu.int/comm/secretariat_general/subvention/doc/subv-sg-accordees_2003_en.pdf

Russia

Mr. O'Hara: To ask the Secretary of State for Foreign and Commonwealth Affairs what funds his Department has allocated for programmes to help the sharing of information and experience to support the institutional framework for civil society in Russia. [218403]

Mr. Rammell: This financial year the Foreign and Commonwealth Office has spent over £900,000 on projects that cover human rights, governance and democracy issues in Russia. The aim is to have a positive impact on the development of civil society in Russia.

One of the larger projects is being implemented with the help of the Novosibirsk School of Civic Society and aims to improve the interaction between local government and local media.

Another, co-funded with the Westminster Foundation for Democracy, is contributing to the process of reform of regional-level public administration, intended to improve standards in public life.

Funding for financial year 2005–06 is currently under discussion. The focus in Russia will be on increasing respect for the rule of law and freedom of expression, both of which are critical to developing civil society.

Somalia

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government are providing to the exiled Somali Government to enable it to return to Mogadishu. [218182]

Mr. Mullin: I refer the hon. Member to the reply I gave to the hon. Member for Moray (Angus Robertson) on 23 February 2005, *Official Report*, column 664W.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place between the Government and international partners regarding the prospects for *(a)* stabilisation and *(b)* the establishment of an effective government in Somalia. [218184]

Mr. Mullin: We are working closely with the international community in Nairobi and with our EU partners to support the Somalia National Reconciliation process, which created new Transitional Federal institutions. We continue to support the early return of the Transitional Federal Government to Somalia, and to assist it with internal reconciliation and the restoration of good governance, stability and the rule of law.

South Africa

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations there have been into the loss of decommissioned nuclear weapons and related material and equipment following South Africa's abandonment of its nuclear weapons programme; and if he will make a statement. [217710]

Mr. MacShane: Upon accession to the Nuclear Non-Proliferation Treaty (NPT) in 1991, South Africa submitted an initial report providing a full inventory of its nuclear materials. The International Atomic Energy Agency (IAEA) conducted a number of inspections to verify the completeness of South Africa's report. They concluded that there was no evidence that the inventory was incomplete.

In 1993, however, the then South African Prime Minister F. W. de Klerk revealed that South Africa had been pursuing a nuclear weapons programme in the 1970s and 1980s, but that this programme had been abandoned in 1989. A team of IAEA technical experts travelled to South Africa in April 1993 to assess whether South Africa had indeed abandoned its programme. They found nothing that was inconsistent with South Africa's declaration.

Subsequently, under South Africa's nuclear safeguards agreement with the IAEA, inspectors have carried out regular checks to ensure that there has been no diversion of nuclear materials. They have not reported any discrepancy to the IAEA Board of Governors. A further reassurance is provided by the adoption by South Africa of an Additional Protocol to its safeguards agreement.

Togo

Mr. Gill: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the political situation in Togo; and if he will make a statement. [217988]

Mr. Rammell: We are concerned about the events following the death of President Gnassingbe Eyadema. We have urged the Togolese authorities to hold early credible and democratic presidential elections. We support the stance taken by the African Union and Economic Community of West African States, who are pressing the Togolese authorities to adhere to their constitution.

Tsunami

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how many bodies of British victims of the tsunami have been *(a)* identified and *(b)* repatriated. [216224]

Mr. Mullin: As at 16.00 on 23 February, we have confirmed that 65 British nationals died in the tsunami. Of those, 35 have been repatriated to the UK. The discrepancy is explained by the fact that some bodies await repatriation, others were either buried or cremated locally, and some were resident in third countries, to where they have been repatriated.

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the time taken to identify the British victims of the tsunami; and what assessment he has made of the merits of using fingerprinting instead of DNA testing. [216225]

Mr. Mullin: We are aware that delays in identifying victims adds to the distress of the families concerned. But there can be no short cuts in the Disaster Victim Identification (DVI) process and, even when bodies are found, the process of formally identifying them can be difficult and lengthy. More details of the process can be found on the Foreign and Commonwealth Office website, www.fco.gov.uk/tsunami.

The police have considered the merits of the three main ways in which bodies may be identified. Dental records, fingerprints and DNA may each be of value, either separately or in conjunction. The approach is decided on a case-by-case basis, because the precise value of each method depends on factors such as the condition of the body and the availability of ante mortem data. Most matches so far have been based on dental records.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UK was represented at the recent launch of the opposition Forum for Democratic Change in Uganda. [218266]

Mr. Mullin: The UK was represented at the launch of the Forum for Democratic Change's (FDC) new headquarters and its party platform by officials from our High Commission in Kampala.

Foreign and Commonwealth Office officials in London and Kampala are in regular contact with the FDC leadership and have a productive working relationship.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the level of support by President Museveni for Robert Mugabe's land policies. [218269]

Mr. Mullin: Our High Commissioner in Uganda met with President Museveni on 16 November and made clear the Government's views on land reform in Zimbabwe. He also expressed our disappointment at the comments made by the Ugandan President while on his visit to Zimbabwe.

TREASURY

Babies (Mortality Rate)

Mr. Lansley: To ask the Chancellor of the Exchequer what the mortality rate was for babies born prematurely with a birth weight of *(a)* less than 1500g and *(b)* less than 2500g in each year since 1975. [218112]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Andrew Lansley, dated 1 March 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking what the mortality rate was for babies born prematurely with a birth weight of *(a)* less than 1,500g and *(b)* less than 2,500g in each year since 1975. (218112)

The Office for National Statistics does not collect information on gestation at birth registration. Information on mortality rates of babies born prematurely is therefore not available.

The attached table shows numbers and rates of infant deaths for babies weighing *(a)* under 1,500g and *(b)* under 2,500g for the years 1978 to 2003. Data prior to 1978 are not readily available.

Infant deaths by birthweight (a) less than 1,500g and (b) less than 2,500g in England and Wales, numbers and rates: 1978 to 2003

	(a) Under 1,500 grams		(b) Under 2,500 grams	
	Number	[1]Rate	Number	[1]Rate
1978	2,106	474.0	3,689	94.5
1979	2,226	485.9	3,875	95.0
1980	2,075	427.3	3,639	85.8
1981	1,633	345.7	2,850	72.1
1982	1,581	331.3	2,691	67.4
1983	1,763	332.3	2,919	69.4
1984	1,752	315.4	2,847	66.8
1985	1,783	302.2	2,899	64.9
1986	1,839	302.4	2,988	65.3
1987	1,900	292.1	2,944	63.3
1988	1,967	302.1	3,046	66.7
1989	1,744	266.4	2,650	58.9
1990	1,673	257.4	2,476	53.8
1991	1,608	248.4	2,378	51.3
1992	1,593	239.8	2,237	49.9
1993	1,590	236.9	2,191	49.3
1994	1,605	220.3	2,155	47.7
1995	1,680	221.5	2,277	48.1
1996	1,800	227.3	2,380	50.4
1997	1,787	227.0	2,368	49.6
1998	1,698	219.4	2,231	47.0
1999	1,714	214.7	2,212	46.9
2000	1,595	211.7	2,092	45.7
2001	1,517	202.9	2,004	44.4
2002	1,494	200.4	1,963	42.7
2003	1,580	199.3	2,073	43.6

Monitor Series DH3 'Infant, childhood and perinatal mortality' (1978–1985) Series DH3 'Mortality statistics: Childhood, infant and perinatal' (1986–2002) Health Statistics Quarterly, No. 24, Winter 2004, pages 66–70 (2003)

Cancer

Dr. Gibson: To ask the Chancellor of the Exchequer what policies his Department has in place for supporting employees with cancer. [218672]

Mr. Timms: The Treasury has in place formal policies for managing sickness absence, and has a positive policy on disability, which also applies to staff suffering from cancer. The Treasury provides for a wide range of alternative working patterns, temporary reduced working hours and amendment to working patterns, part-time working as a result of sickness, home working and other rehabilitation support including workload and role adjustments for staff with health problems.

Child Trust Fund

Mr. Weir: To ask the Chancellor of the Exchequer whether the Inland Revenue will compel investment in an investment of the Revenue's choice in the event that an Islamic parent cannot find an investment vehicle for the child trust fund that complies with Islamic beliefs. [218226]

Mr. Timms: Parents have 12 months from the date of the issue of their Child Trust Fund vouchers in which to open an account for their child.

The Government are concerned that all children should have the opportunity to have a Child Trust Fund account so, if an account is not opened within 12 months, the Inland Revenue will open a Stakeholder Child Trust Fund account for the child. The Stakeholder Child Trust Fund is a low-cost, risk-controlled, equities-based account, from which parents can transfer at any time to a provider of their own choice.

The Government very much hopes that parents will be able to find Shari'a compliant investments either by choosing appropriate funds through an approved

stockbroker or through a specially-designed Shari'a compliant account as the market develops over the coming months.

The CTF regulations were specifically designed to ensure Shari'a accounts could be developed to give market operators flexibility to meet a full range of investment requirements.

Deaths (Civil Registration)

Dr. Pugh: To ask the Chancellor of the Exchequer whether he plans to make available to the financial sector details on deaths known to civil registration authorities. [218450]

Mr. Timms: The information requested falls within the responsibility of the Registrar General for England and Wales. I have asked him to reply.

Letter from Len Cook to Dr. John Pugh, dated 1 March 2005:

As Registrar General for England and Wales, I have been asked to reply to your recent Parliamentary Question on plans to make available death registration information to the financial sector. (218450)

The Births and Deaths Registration Act 1953 is quite specific as to the means of access to records of deaths held by the Registrar General and by registration officers. The Act gives persons the right to search the indexes in order to identify the entries they are looking for and to obtain certified copies (certificates) on payment of the statutory fee. Neither the Registrar General nor registration officers have any powers to disclose or share information in any other way.

Proposals in the form of the draft Regulatory Reform (Registration of Births and Deaths) (England and Wales) Order 2004, presented to Parliament on 22 July 2004, contained a draft provision that would have enabled the Registrar General to provide list cleaning services to financial sector companies in relation to death registrations. The House of Commons' Regulatory Reform Committee and House of Lords' Delegated Powers and Regulatory Reform Committee, whose first scrutiny reports were published in December 2004, decided that the draft Order should not proceed to its second stage of scrutiny as it was an inappropriate use of the order-making powers in the Regulatory Reform Act 2001. The Government is now considering its next steps for modernisation of the civil registration service.

We continue to meet and discuss with representative Private Sector Bodies how this issue can be addressed.

Economic Growth

Mr. Hepburn: To ask the Chancellor of the Exchequer if he will make a statement on trends in economic growth in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK since 1997. [218253]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Stephen Hepburn, dated 1 March 2005:

The National Statistician has been asked to reply to your recent Parliamentary Question about economic growth in the Jarrow, South Tyneside, the North East and the UK. I am replying in his absence. (218253)

Jarrow constituency is in Tyneside (NUTS3 area), which is currently the lowest geographic level at which regional Gross Value Added[1] (GVA) is published.

The GVA estimates in table A and GVA growth rates in table B are based on regional GVA published in December 2004. Regional GVA data are at current prices and therefore do not take inflation into account. GVA for the United Kingdom and North East (NUTS1 area) have been published up to 2003. GVA for Tyneside (NUTS3 area) has been published up to 2002. These data are available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7359

[1] Information presented here is Gross Value Added (GVA) which is Gross Domestic Product (GDP) less taxes (plus subsidies) on products.

Table A: Gross Value Added (£ million) 1997–2003

Area	1997	1998	1999	2000	2001	2002	2003
Tyneside	8,680	9,181	9,568	9,982	10,625	11,211	n/a
North East	25,253	26,219	26,959	27,910	29,287	30,655	32,340
United Kingdom	719,565	761,539	797,116	838,490	881,163	926,275	976,148

Table B: Percentage year on year growth of Gross Value Added 1998–2003

Area	1998	1999	2000	2001	2002	2003
Tyneside	5.8	4.2	4.3	6.4	5.5	n/a
North East	3.8	2.8	3.5	4.9	4.7	5.5
United Kingdom	5.8	4.7	5.2	5.1	5.1	5.4

Employment Statistics

Mr. Hepburn: To ask the Chancellor of the Exchequer (1) what the average age of women employed within the *(a)* manufacturing and *(b)* service sector was in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [218249]

(2) what the average age of people employed within the *(a)* manufacturing industry and *(b)* service sector was in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [218250]

(3) how many women have been employed within the *(a)* manufacturing industry and *(b)* service sector in (i) Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997. [218251]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Stephen Hepburn, dated 1 March 2005:

As National Statistician, I have been asked to reply to your Parliamentary Questions about employment. (218249, 218250, 218251)

Tables 1 to 3 provide the available information. In the cases of the tables for average ages of women and of all employees, figures are available for the years 1999 to 2004 but not for 1997 and 1998.

As with any sample survey, estimates from the Labour Force Survey are subject to sampling variability.

Table 1: Women employees in the manufacturing and service sectors in selected areas thousands

ONS Labour Force Survey

EU Budget

Kate Hoey: To ask the Chancellor of the Exchequer when he expects the EC draft budget for 2005 to be completed. [218737]

Mr. Timms: The 2005 EC budget was adopted by the European Parliament, following conciliation with the Economic and Financial Affairs Council, on 16 December 2004.

EU Communications

Kate Hoey: To ask the Chancellor of the Exchequer what budget was allocated for EU Communications in each of the past five financial years; and what is budgeted for the next financial year. [218782]

Mr. Timms: The annual budget of the European Communities details the resources allocated to EU Communications each calendar year. Copies of the EC budgets for 2001, 2002, 2003 and 2004 are available in the Library of the House. The 2005 EC budget will be deposited following its publication which is expected in March.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Co-operation Sub-committee (i) EEC-Korea, (ii) EEC-United States of America and (iii) EEC-Israel met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement; [218436]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Customs Co-operation Committee—EEC-Andorra met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218460]

Dawn Primarolo: The committees are the responsibility of the European Commission. Member states are not involved.

European Constitution

Kate Hoey: To ask the Chancellor of the Exchequer pursuant to the answer of 17 January 2005, *Official Report*, column 701W, on the European Constitution, when the Foreign and Commonwealth Office budget for informing the public about the EU and the EU constitutional treaty was agreed with the Treasury; and what methodology was used to calculate the budget. [218783]

Mr. Timms: For the Foreign and Commonwealth Office, the 2002 spending review set an overall resource budget of £1,503 million and an overall capital budget of £136 million for 2004–05. Decisions on allocations from within these totals are for the Foreign and Commonwealth Office.

Kate Hoey: To ask the Chancellor of the Exchequer if he will list budgets the Treasury has agreed with the Foreign and Commonwealth Office for financial year 2004–05 which could be used to fund the provision of public information on the EU constitution. [218784]

Mr. Timms: The 2002 Spending Review set the Foreign and Commonwealth Office an overall resource budget of £1,503 million and an overall capital budget of £136 million for 2004–05. Decisions on allocations from within these totals are a matter for the Foreign and Commonwealth Office.

Health Expenditure

Mr. Lansley: To ask the Chancellor of the Exchequer what percentage of the UK's GDP was spent on health in each year since 1997, broken down by *(a)* public and *(b)* private expenditure; and what estimate he has made of the current EU average health expenditure as a proportion of GDP. [218125]

Mr. Boateng: The information about UK health spending is in the following table.

According to the latest figures from the Organisation of Economic Cooperation and Development (OECD), average total health expenditure in the EU in 2002 was 8.5 per cent. of GDP.

UK Health expenditure as a percentage of GDP

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Public Expenditure	5.4	5.4	5.4	5.6	6.0	6.3	6.7	6.9
Private expenditure	1.3	1.4	1.4	1.4	1.3	1.4	1.4	1.4
Total UK expenditure	6.7	6.8	6.8	7.0	7.3	7.7	8.1	8.3

Notes:

1. The public expenditure figures are taken from the National Statistics release of 2 December 2004.
2. Private spending is calculated in a similar way as for ONS Health Accounts. From 2003–04, it is assumed to carry forward as a constant share of GDP.
3. The EU figure is a simple average of the then 15 EU countries; it is not weighted by country population.

Malaria Vaccines

Tom Brake: To ask the Chancellor of the Exchequer what agreements with the private sector he has reached since his announcement on 24 November 2004 on the advance purchases of malaria vaccines; and what deadline he has set for these agreements to be reached. [218144]

Mr. Timms: The Chancellor announced last November that the UK Government, working with other Governments, was ready to enter into legally binding advance purchase contracts in order to speed up the development of malaria vaccines. The UK intends to take this forward during the course of its Presidency of the G7/8 and as a first step, at their meeting in London in February, G7 Finance Ministers agreed to explore the use of advance purchase commitments. The UK Government will also continue to consult stakeholders, including the pharmaceutical industry, on the parameters of these contracts.

Ministerial Visits

Mr. Rosindell: To ask the Chancellor of the Exchequer whether he plans to visit the London borough of Havering this year. [209493]

Mr. Gordon Brown: Treasury Ministers make many visits across the UK and will continue to do so this year.

Mr. Nelson Mandela

Llew Smith: To ask the Chancellor of the Exchequer when he last met Mr. Nelson Mandela; and what matters were discussed. [215264]

Mr. Gordon Brown: President Mandela spoke to the G7 Finance Ministers' meeting ahead of their meeting on Friday 4 February to urge them to take action on 100 per cent. multilateral debt relief, trade justice and additional aid to meet the Millennium Development Goals.

Near Cash

Mr. Arbuthnot: To ask the Chancellor of the Exchequer what definition he uses of near cash. [218781]

Mr. Boateng: I refer the right hon. Member to the answer I gave to the hon. Member for Mid-Norfolk (Mr. Simpson) on 5 July 2004, *Official Report*, columns 600–01W.

Parliamentary Questions

Mr. Frank Field: To ask the Chancellor of the Exchequer when he will reply substantively to the question tabled by the right hon. Member for Birkenhead on 7 February, reference 215780. [218694]

Dawn Primarolo: I did so on 23 February.

Revenue and Customs

Mr. Andrew Smith: To ask the Chancellor of the Exchequer what consultations he plans to hold with trade unions on the move to strategic zones within Her Majesty's Revenue and Customs. [217137]

Dawn Primarolo: The concept of strategic zones for the Department's compliance work has been widely discussed with staff and trade unions, and is now receiving additional focus in ongoing departmental planning. The Union of Senior Revenue Officials (USRO) recently described the consultation on the subject as 'exemplary'. The planning work will also define the boundaries of the zones and identify the scope to move work into them and the implications for departmental presence elsewhere. This work will then be discussed by the Department's board and with Ministers for further consideration.

Savings

Mr. Flight: To ask the Chancellor of the Exchequer what estimate he has made of the cost of the Savings Gateway in each of the first five years after its launch. [218254]

Mr. Timms: In the pre-Budget report the Chancellor announced the launch of the larger Saving Gateway pilot for 2005. Evidence gathered through this pilot will be used to evaluate the future role matching could play in Government support for savings, both for those on low incomes and more generally. The new pilot will cost £15 million and all accounts opened will last for 18 months.

Mr. Flight: To ask the Chancellor of the Exchequer pursuant to the answer of 4 February 2005, *Official Report*, column 1186W, on savings plans, what methodology was used to calculate *(a)* that the estimated current cost of tax-exempt savings plans with an annual premium limit of £300 is around £70 million per year and *(b)* that increasing the limit to £600 per annum would cost an extra £30 million; and if he will make a statement. [218047]

Mr. Timms: The estimated £70 million annual cost of TESPs is based on assets under management data provided by the Association of Friendly Societies combined with assumptions on average returns and the rate of tax that would have been paid on them in an alternative taxed savings vehicle. The estimated £30 million cost of increasing the limit to £600 is based upon assumptions about the additional number of TESPs that would be opened and additional contributions made to take advantage of the higher limit.

Tax Credits

John Thurso: To ask the Chancellor of the Exchequer how many *(a)* working and *(b)* child tax credit award notices issued to couples in 2003–04 omitted the earnings of one of the partners resulting in an overpayment which the Revenue is now seeking to recover; and if he will make a statement. [218542]

Dawn Primarolo: The information requested is not available. The Inland Revenue is aware of a small number of occasions in 2003–04 when a tax credit award notice omitted the earnings of one partner. No separate records are available of precisely how many cases were involved.

Mr. Drew: To ask the Chancellor of the Exchequer how many people in the Stroud constituency have been required to pay back overpayments of *(a)* working tax credit, *(b)* child tax credit and *(c)* both working and child tax credit. [218643]

Dawn Primarolo: Details of how overpayments are recovered are provided in the Inland Revenue's Code of Practice 26 "What happens if we have paid you too much tax credit." Wherever practical overpayments are recovered out of future tax credit payments. Where entitlement has ended and there remains an overpayment to be recovered, the Inland Revenue issues claimants with a 'Notice to Pay'. Within the guidelines of Code of Practice 26 the claimant has the option to choose to pay back an overpayment over 12 months.

Information on the number of households in Stroud sent notices to pay is not available.

INTERNATIONAL DEVELOPMENT

Cambodia

Mr. Simmonds: To ask the Secretary of State for International Development what development aid has

been provided by the UK to Cambodia in each year since 1997; and whether the aid programme has been tied to (*a*) democratic and (*b*) economic reforms. [218183]

Hilary Benn: UK Government development assistance to Cambodia since 1997 can be broken down as follows:

	UK Government (£ million financial year)	*UK share of EC assistance (£ million calendar year)*
1997–98	4.8	2.9
1998–99	5.5	3.0
1999–2000	7.0	2.2
2000–01	7.5	3.9
2001–02	6.4	2.8
2002–03	9.8	2.2
2003–04	8.5	—

DFID's assistance is focused on Public Financial Management, HIV and AIDS, delivering health services to poor people and strengthening local government systems to enable poor people to have a say in decisions that affect them.

We do not make our aid conditional on specific policy decisions by partner governments, or attempt to impose policy choices on them. Instead we agree with partners on the purpose for which aid is being given, and agree benchmarks to assess progress.

In Cambodia, the Government sets benchmarks to monitor progress with implementing its poverty reduction strategy in discussion with donors at an annual meeting and these are monitored together throughout the year. These include benchmarks relating to governance, the economy and democratic processes. These benchmarks facilitate a dialogue between Government and donors on progress but our assistance is not tied to these benchmarks.

Iran Earthquake

Mr. Simmonds: To ask the Secretary of State for International Development (1) what assessment has been made of the extent of the damage caused by the Zarand earthquake in South Eastern Iran; and if he will make a statement; [218992]

(2) what assistance the UK has offered Iran following the Zarand earthquake in South Eastern Iran. [218993]

Hilary Benn: The Earthquake struck near the town of Zarand on 22 February at 05.55 am local time registering at 6.4 on the Richter scale. The Government of Iran report 490 deaths and 900 people injured. 59 villages and around 35,000 people have been affected.

The Iranian Government has not requested international assistance and no humanitarian agency is planning to launch an appeal for assistance. The Government of Iran and the Iranian Red Crescent Society are responding to the needs.

Following the news of the tragedy, DFID's Emergency Response Team was immediately activated and put on standby to provide assistance should the Iranian Government requested it. The Iranian officials informed the UK embassy in Tehran that international search and rescue teams were not required and other forms of international assistance are not needed at present. DFID officials remain in close contact with partners on the ground and continue to monitor the situation.

Low Income Countries (Expenditure)

Tom Brake: To ask the Secretary of State for International Development how much each low income country has spent on (*a*) health, (*b*) education and (*c*) debt repayment in each year since 2001. [218158]

Hilary Benn: The latest World Bank 'World Development Indicators' report (2004) shows health expenditure per capita and health expenditure as a percentage of GDP for each country in the world where data is available (Table 2.14). The most recent data are for 2001. I have arranged for a document entitled 'Tables for Parliamentary Question UIN 218158' to be deposited in the Libraries of the House. This contains a table on health spend taken from the World Development Indicators online database to which DFID subscribes. Data can also be accessed on line at http://www.worldbank.org/data/databytopic/health.html. Select 'Go to Health Topic Indicators' and then the countries or country groupings of interest.

The hard copy of the World Development Indicators report (2004) also has in Table 2.10, data on education inputs. This table can be downloaded from http://www.worldbank.org/data/databytopic/education.html This shows the percentage of total government expenditure on education (2001–02) and public expenditure per primary, secondary and tertiary student (1990–91 and 2001–02). A copy of the table will be deposited in the Library in the document mentioned previously; 'Tables for Parliamentary Question UIN 218158'.

Information on debt repayment is available in another World Bank publication 'Global Development Finance'. The latest edition is from 2004. 'Net flows and transfers on debt' are shown in Table 5 of Volume II of this report, which gives 'country tables'. This table shows average data for the period 1997–2001 and data for 2002. It will also be deposited in the Library of the House in the document 'Tables for Parliamentary Question UIN 218158'. It is available online from: http://web.worldbank.org/WBSITE/EXTERNAL/RESEARCH/EXTPROSPECTS/GDFEXT/GDFEXT2004/0,,contentMDK:20177059≥menuPK:335441≥pagePK:64097019≥piPK:64096667≥theSitePK:335432.00.html

An IMF publication 'Government Finance Statistics' provides more data which should allow direct comparison of government expenditure on health and education. This document is available in the House of Commons Library.

Hard copies of all the reports mentioned above are available in the House of Commons Library.

Malaria Vaccines

Tom Brake: To ask the Secretary of State for International Development how much his Department has spent on the development of malaria vaccines in each year since 2001. [218145]

Hilary Benn: To date DFID has not directly funded any research into the development of malaria vaccines. However, the Chancellor, Gordon Brown, recently announced that the Government are ready to work with other governments to enter into agreements to purchase malaria vaccine in advance in order to ensure a secure market. This funding mechanism, known as the Advanced Purchase Commitment (APC), will aim to attract private investment into vaccine development and production. The Treasury estimates that an APC for malaria would cost the UK £48 million per year giving a total of £288 million over the next six years.

Ministry of Defence

Angus Robertson: To ask the Secretary of State for International Development how much has been paid by his Department to the Ministry of Defence in each year since 2001, broken down by project. [218151]

Hilary Benn: Since 2001, there have been three occasions, including the current Indian Ocean disaster, that DFID has requested the Ministry of Defence's assistance to provide relief to countries affected by disasters. In 2001 following the Gujarat earthquake, DFID refunded £98,000 to the MOD for the transportation of UK search and rescue teams to the disaster site. In 2004, following hurricanes Ivan and Jeanne, DFID refunded £13,000 to the MOD for the replacement of relief items held on the naval task force that were provided, at DFID's request, to the affected countries. The marginal costs of MOD assistance in support of the humanitarian relief effort in response to the Indian Ocean earthquake-Tsunami is estimated at about £2.5 million.

Tsunami (Military Assistance)

Angus Robertson: To ask the Secretary of State for International Development what discussions he has had with the Ministry of Defence concerning charges for services relating to the relief operation following the Indian Ocean earthquake and tsunami. [218152]

Hilary Benn: I have not had discussions with the MOD concerning charges for services relating to the relief operation following the Indian Ocean disaster. I am content that the costs which were agreed in advance, are competitive with commercial rates and are based on marginal costing.

Angus Robertson: To ask the Secretary of State for International Development what the cost to his Department is of hiring *(a)* a UK military helicopter and *(b)* an equivalent private helicopter for a period of (i) one day, (ii) one week and (iii) one month to provide relief support in the Indian Ocean region. [218153]

Hilary Benn: Ministry of Defence (MOD) helicopters were not used to provide direct relief support on behalf of DFID in the aftermath of the Indian Ocean disaster, but Lynx helicopters were used to transport naval personnel from HMS Chatham to Sri Lanka. The chartering of helicopters is usually quoted in a rate per flying hour. The Super Puma helicopters chartered by DFID for use by the United Nations Humanitarian Air Service (UNHAS) do not have an exact UK military equivalent; however the MOD quote a figure of approximately £732 per flying hour for a Puma while the civilian charter quote a figure of approximately £1,981 per flying hour for a Super Puma. The carrying capacity of a Puma is 5,510 lbs, while the carrying capacity of a Super Puma is 9,920 lbs.

Angus Robertson: To ask the Secretary of State for International Development what the cost to his Department is of hiring *(a)* a UK military plane and *(b)* an equivalent commercial plane to deliver an equivalent consignment of aid from London to (i) Indonesia, (ii) Sri Lanka and (iii) Thailand; and if he will make a statement. [218154]

Hilary Benn: To date, no single route has been served by both a military and a civilian plane on DFID's behalf. Calculations of costs per task are based upon the flying time between the two locations. There are other variables such as airport handling charges but these would be common to both military and civilian charter or repositioning costs. In comparing costs of military and civilian aircraft carrying out similar tasks with the same payload, the best comparator is the rate charged per flying hour. For the C-17, tasked by DFID to transport relief items to countries affected by the Indian Ocean disaster, the MOD quoted an hourly flying rate of approximately £1,975.

There are no direct civilian equivalents of military aircraft and payloads are different, but the approximate rate for the civilian aircraft Antonov 124 is £4,225, £795 for the Ilyushin-76 and £483 for the Antonov 12. The C-17 has a payload of 75 tonnes; the Antonov 124 has a payload of 120 tonnes, the Ilyushin-76, 40 tonnes and the Antonov 12,15 tonnes.

EDUCATION AND SKILLS

Education Spending

Mr. Willis: To ask the Secretary of State for Education and Skills if she will break down by project the activities to support all objectives in Annex B of the Resource Budget of the 2004 Annual Report; if she will provide a similar breakdown for the 2003 Annual Report; and if she will estimate the corresponding expenditure for each year until 2007–08. [218680]

Derek Twigg *[holding answer 28 February 2005]:* I refer the hon. Member to Chapter 2 of the same document which provides a more detailed breakdown of how the money is to be spent and to the subsequent chapters which describe the plans in detail. The 2004 Annual report includes earlier years and plans to 2005–06. Detailed plans beyond that date have not yet been finalised. Annex B and Chapter 2 present figures on slightly different bases as Annex B includes expenditure with the Departmental Expenditure Limit (DEL) and Annually Managed Expenditure (AME) whereas Chapter 2 refers only to DEL. Within the figures in Annex B the Teachers' Pension Scheme is totally in AME as is the Educational Maintenance Allowance scheme from 2003–04 onwards. The small balancing

activity to reconcile to the AME total shown in Annex B is in Further Education, Adult Learning and Skills and Lifelong Learning 'Other'.

The Department does not account on a project basis, the majority of programmes are delivered through partners such as LEAs, NDPBs and other grant recipients and it is their responsibility to control delivery.

EU Committees

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Socrates Committee and Erasmus and Comenius subcommittees and (ii) Tempus Committee met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [218312]

Dr. Howells: (i) The Socrates Committee met once during the Italian presidency, twice during the Irish presidency, and once during the Dutch presidency. The meetings took place on 6–7 November 2003, 12–13 February 2004, 17–18 June and 11–12 November 2004 and all were held in Brussels. The meetings were attended by officials of the Joint International Unit (JIU) of my Department and the Department of Work and Pensions. The Socrates schools sub-committee did not meet during the Italian presidency, and met once during each of the Irish and Dutch presidencies. The meetings took place on 4 June 2004 and 8 November 2004 in Brussels and were attended by officials from JIU, and a representative of the British Council in its role as UK National Agency for part of the programme. The Socrates Higher Education sub-committee met on 23–24 October 2003, 1–2 June 2004 and 29 October 2004. The meetings were attended by officials from JIU, and a representative from UK Socrates-Erasmus Council as the UK National Agency for Erasmus.

(ii) The Tempus Committee did not meet under the Italian presidency, and met once during each of the Irish and Dutch presidencies on 3 February 2004 and 13 July 2004 in Brussels. The meetings were attended by officials from my Department and, on 3 February 2004, by a representative from the UK Socrates-Erasmus Council.

I refer the hon. Member to the series of Command Papers on the prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Education and Skills how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the EC-United States of America Joint Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214311]

Mr. Rammell: I have been asked to reply.

The EU-US Task Force met on 18 July 2003 in Rome, 27 October 2003 in Washington, 14 January 2004 in Dublin, 2 March 2004 in Washington, 23 March 2004 in Brussels, 6 May 2004 in Brussels, 26 May 2004 in Brussels, 14 July 2004 in Brussels and 26 October 2004 in Brussels. The Senior Level Group met on 25 September 2003 in Brussels, 12 November 2003 in Washington, 10 February 2004 in Brussels, 3 June 2004 in Brussels, 25 June 2004 in Dromoland 28 September 2004 in Washington and 6 December 2004 in Brussels. The presidency of the day represents other member states at these meetings and as such there were no British officials present at these meetings. Further information may be found at www.fco.gov.uk/commandpapers.

Home Start

Mr. Hoyle: To ask the Secretary of State for Education and Skills if she will make a statement on Home Start in Chorley; and what funding can be accessed by Home Start in Chorley. [216561]

Margaret Hodge: Home Start Chorley was established in 1996. In 2003–04 the scheme supported 270 families and a total of 421 children.

The scheme is mainly funded through a national lottery grant with additional funding from the local primary care trust and social services department. The Department for Education and Skills funds Home Start UK at a national level but does not fund individual local schemes. Home Start UK's regional consultants coordinate "Funding, Strategic Planning and Financial" workshops and an annual regional forum to update schemes on current practice and available funding opportunities. Additionally, funding updates are provided at quarterly regional and six monthly chair's meetings.

Marriage Support Services

Mrs. Brooke: To ask the Secretary of State for Education and Skills what discussions her Department has had with the Local Government Association on local authority support for marriage and relationship support services; and if she will make a statement. [216441]

Margaret Hodge: To our knowledge, no discussions have been held between the Local Government Association and the Department on local authority support for marriage and relationship support services.

Child Care Morecambe and Lunesdale

Geraldine Smith: To ask the Secretary of State for Education and Skills how many child care places have been created in Morecambe and Lunesdale since 1997. [216785]

Margaret Hodge: The Department is unable to provide details of child care places for Morecambe and Lunesdale. However, from April 1999 to March 2004 Lancashire local authority increased the number of child care places in Lancashire by 9,826 registered and unregistered places. The registered child care places in Lancashire in March 2004 was 26,391 places.

School Adjudicator

Mr. Hoban: To ask the Secretary of State for Education and Skills for each of the last five years, if she will list the cases referred to the school adjudicator in each of the last five years in respect of *(a)* admissions,

(b) school closures, (c) proposals to open new schools and (d) proposals to expand existing schools; and what the outcome of each case was. [218480]

Derek Twigg *[holding answer 28 February 2005]*: This information is published each year by the Office of the Schools Adjudicator in their annual report. Copies, for each year since the office was created in April 1999, have been placed in the House Library.

School Attendance

Iain Wright: To ask the Secretary of State for Education and Skills what the percentage rate of school attendance in (a) Hartlepool and (b) England and Wales was in the last period for which figures are available. [218502]

Derek Twigg: The school attendance rate for Hartlepool for 2003–04 was 93.5 per cent. compared with 93.4 per cent. for England.

School Meals

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills what estimate she has made of the average cost of the food content of school meals; and if she will make a statement. [218424]

Derek Twigg: Local education authorities publish details in their annual budget statements of sums delegated to schools for school meal provision, but this information does not include a breakdown detailing the sum allocated in respect of school meal ingredient costs. We cannot, therefore, provide the information requested. However, we are considering whether any changes are needed in the context of our future plans for improving the quality of school meals, which include stricter nutritional standards from 2006 and a school food trust.

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Education and Skills what initiatives her Department is taking to reduce the numbers of sick days taken by staff in the Department. [216642]

Derek Twigg: My Department is committed to managing sickness absence effectively and is working towards meeting the recommendations of the recently published report, "Managing Attendance in the Public Sector".

Managers are responsible for day to day sickness absence management. Absence data for each employee are recorded centrally and monitoring arrangements are in place that trigger when formal action must be taken. The Department's HR Business Partners work closely with managers to identify trends and problem areas and deliver tailored support and solutions. A pilot scheme is running bringing occupational health nurse advisers to headquarters buildings on a regular basis to provide advice and support on sickness absence. Sickness absence statistics are reported annually to Cabinet Office.

Other action taken to improve sickness absence rates include: introducing health awareness programmes, with screening for cholesterol and high blood pressure, to promote and encourage healthy lifestyle options; and a variety of fitness programmes available to staff. On National No Smoking Day, we will announce a package of support for smokers who want to quit as part of our commitment to become a smoke free workplace by 2006. Systems and practices are being developed, in line with HSE guidance, to help prevent work-related stress occurring.

Sure Start

Mrs. May: To ask the Secretary of State for Education and Skills what the total expenditure on the Sure Start Strengthening Families Grant has been in each year that it has been in operation; and what the projected spending on this scheme is for the next three years. [217207]

Margaret Hodge: The Strengthening Families Grant represents the coming-together, in July 2004, of the Family Support Grant (FSG, originating in the Home Office) and the Marriage and Relationship Support Grant (MARS, originating in Department of Constitutional Affairs). Awards for this grant programme will become effective for financial year 2005–06. The fund allocation for this programme totals £11 million. The same spend is projected for the next three years. This will include committed funds for ongoing MARS and FSG grants and newly allocated SF grants.

Mr. Drew: To ask the Secretary of State for Education and Skills if she will make a statement on (a) the operation of the Sure Start programme in Gloucestershire, and (b) planned further schemes. [217221]

Margaret Hodge: Gloucestershire has two Sure Start local programmes.

Sure Start Barton, Tredworth and White City was approved in October 2000 and supports around 900 young children and their families living in these areas. Sure Start Cheltenham was approved in February 2003 and supports around 740 young children and their families living in the Hester's Way and Oakley, Whaddon, Lynmouth and Priors area of the district. Barton, Tredworth and White City Sure Start Local Programme have spent £1,214,000 on their capital projects and Cheltenham Sure Start Local Programme have had approximately half of their £1,075,000 capital allocation approved for specific projects in the area.

Both programmes deliver a wide range of child, family health and parental support services. Recent Sure Start Unit monitoring reports for the month September 2004 show that Sure Start Barton, Tredworth and White City saw around 35 per cent. of children that month and has visited all of families with newborn babies within the first two months of their child's life. Sure Start Cheltenham has visited around 70 per cent. of families with newborn babies within the first two months of their child's life. Evidence of impact from local evaluation of the Sure Start Barton, Tredworth and White City programme also shows that from a baseline of 51 per cent. of mothers breastfeeding at birth, the rate is now

57 per cent. The programme has also reported that activities associated with the 'Improving and Learning' objective has resulted in a 30 per cent. increase in the use of library services.

There is one mini Sure Start local programme (Dursley and Cam) in Stroud which was approved in December 2002. The programme received a revenue grant in 2004–05 of £100,000 to support the delivery of outreach and health services, family support and adult education. This programme is linked to a 50 place neighbourhood nursery (Treetops Nursery) in Dursley with additional outreach and family support being delivered from Rednock Community Centre in Dursley and from GL11 Community Project in Cam. Sure Start has contributed £256,000 in capital funding towards the nursery's integrated education and care facilities. We are also providing start up revenue grant funds of £270,000, available over three years to help ensure the Nursery is firmly established. This is being developed into a children's centre and is expected to be designated by March 2006. The children's centre will reach children and families in Dursley, Cam East and Cam West wards.

Gloucestershire has five neighbourhood nurseries delivering 190 new early education and childcare places. Gardners Lane Early Excellence Centre in Cheltenham was approved in 2002. It has received a revenue grant of £242,150 in 2004–05 and will continue to receive this level in 2005–06. It has had a one-off capital grant of £376,100. This centre is also being developed into a children's centre.

Gloucestershire county council is planning to create eight children's centres by April 2006. The locations of these children's centres are as follows: Treetops children's centre in Dursley ward; Hesters Way children's centre building on existing provision from the Cheltenham Sure Start local programme and the neighbourhood nursery in Hesters Way ward; Bartongate children's centre building on existing provision from Barton, Tredworth and White City Sure Start Local programme and the Neighbourhood Nursery in the Eastgate ward in Gloucester; Finlay children's centre building from the Gloucester Sure Start Local Programme on a school site and covering the Barton and Tredworth ward; Gardners Lane children's centre building on the Early Excellence centre and reaching those in the wards of St. Peter's, St. Paul's, Lower High Street and Swindon Village; Robinswood children's centre building from the Early Years centre in the Matson ward; Rowanfield children's centre building on Rowanfield Infants School in St. Mark's ward and Linden children's centre building on Linden Primary School covering Moreland and Westgate wards.

These centres will reach 4,731 children under five resident in the areas. 176 new child care places will mean that 469 full-time child care places are available within the eight areas. Gloucestershire have been given indicative allocations of £1 million for capital development and £355,000 of revenue funding for the development of these children's centres.

Schools (Surplus Places)

Mr. Hoban: To ask the Secretary of State for Education and Skills if she will list the projects to reduce surplus places funded through the Targeted Capital Fund in each of the last three years; what the cost of each project was; and how many places were lost under each project. [218478]

Derek Twigg *[holding answer 28 February 2005]:* In accordance with the Targeted Capital Fund programme, projects were accepted from local education authorities that included reductions in surplus places. Information on these projects, and the places lost per project, is not recorded centrally.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many times she has used the powers under schedule 7 of the Schools Standards and Framework Act 1998 to require local education authorities to bring forward plans to reduce the number of surplus places. [218479]

Derek Twigg *[holding answer 28 February 2005]:* Local education authorities are responsible for balancing the supply of places in their area, to ensure schools serve the needs of their local communities and provide good quality education in the most cost effective way.

The Secretary of State's powers under schedule 7 of the Schools Standards and Framework Act 1998 are reserve powers, which have not yet had to be used.

SOLICITOR-GENERAL

Iraq

Mr. Cash: To ask the Solicitor-General what involvement *(a)* the Lord Chancellor and *(b)* Baroness Morgan had in preparation of the reply to the parliamentary question tabled by the hon. Member for Stone to the Prime Minister on 11 March 2003 on the legal basis for military intervention in Iraq to which the Attorney-General referred in evidence to the Butler Inquiry on 5 May 2004; and if she will make a statement. [218964]

Mr. Grieve: To ask the Solicitor-General where and in what buildings, the written statement made to Parliament on 17 March 2003 setting out the legal basis for the war in Iraq was prepared; and by whom. [219422]

Mr. Tyrie: To ask the Solicitor-General (1) what discussions the Attorney-General had with respect to drafting the written answer of 17 March 2003, *Official Report, House of Lords*, column WA2; [219444]

(2) what advice the Attorney-General received, and from whom, prior to the writing of the written answer of 17 March 2003, *Official Report, House of Lords*, column WA2; [219445]

(3) whether the Attorney-General's written answer of 17 March 2003, *Official Report, House of Lords*, column WA2, was written by the Attorney-General. [219446]

The Solicitor-General: The Attorney-General's written answer of 17 March 2003, *Official Report*, column 515W, which I relayed to the House, was drawn

up in the office of the Attorney-General. Those involved were the Attorney-General and myself, two officials in our office, three officials from the Foreign and Commonwealth Office and Christopher Greenwood QC. The draft was also discussed with the then Lord Chancellor, Lord Irvine of Lairg. The Attorney-General was fully involved throughout the drafting process and personally finalised and approved the answer.

No other Minister or official was involved. In particular, neither Baroness Morgan of Huyton nor Lord Falconer of Thoroton, nor any official in the Prime Minister's office had any involvement whatever in the drafting of the answer. The Attorney-General has never said that they did so. As the Attorney-General has always made clear, he set out in the answer his own genuinely held, independent view that military action was lawful under the existing Security Council resolutions.

Parliamentary Questions

Lynne Jones: To ask the Solicitor-General how many officials were involved in drafting the parliamentary answer to Baroness Ramsey (HL2172); and from which Department each came. [218541]

The Solicitor-General: Five officials were involved: two from the Legal Secretariat to the Law Officers and three from the Foreign and Commonwealth Office.

HEALTH

Agenda for Change

Dr. Gibson: To ask the Secretary of State for Health if he will guarantee that all Whitley conditions of employment are protected during the implementation of Agenda for Change. [217715]

Mr. Hutton: The protection arrangements which apply under Agenda for Change to staff employed by national health service organisations have been agreed by the NHS Staff Council. These arrangements are set out in Section 46 of the NHS Terms and Conditions of Service Handbook, a copy of which is in the Library.

Asthma

Ms Walley: To ask the Secretary of State for Health if he will exempt asthma medication from prescription charges. [217447]

Ms Rosie Winterton: We have no plans to extend the existing list of medical conditions that give exemption from prescription charges. The list has been reviewed on a number of occasions but no clear cut case for extending it has emerged. There is no consensus on what additional conditions might be included in any revised list of medical exemptions, or how distinctions could be drawn between one condition and another.

Government policy is to help those who may have difficulty paying charges. The current exemption and charge remission arrangements are intended to ensure that no one need be deterred from obtaining any necessary medication on financial grounds. Consequently, 86 per cent., of prescriptions are dispensed free of charge.

Consultants

Mr. Webb: To ask the Secretary of State for Health how many full-time equivalent consultants were employed in the NHS on the latest date for which figures are available; how many were employed in 1997; and if he will make a statement. [217773]

Mr. Hutton *[holding answer 25 February 2005]:* The latest data available is at June 2004.

The information requested is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS): medical and dental consultants

England[1]	*Whole time equivalents*
September 1997	19,661
June 2004	27,640

[1] Data as at 30 September 1997 and 30 June 2004.
Source:
Department of Health medical and dental workforce census

The number of whole-time equivalent consultants working in the National Health Service increased by 7,979 or 41 per cent., between September 1997 and June 2004. The number of specialist registrars has also increased significantly over recent years and these doctors will become the consultants of the future.

Continuing Care

Mr. Burns: To ask the Secretary of State for Health (1) how much has been paid to date by his Department to individuals or their families where it has been found that they were inappropriately charged for NHS continuing care since 1996; [211696]

(2) pursuant to the answer of 24 January to the hon. Member for West Chelmsford to question reference 210193, if he will list by each strategic health authority (SHA) the number of complaints each SHA has investigated on allegations of individuals being inappropriately denied funding for continuing care at *(a)* December 2003, *(b)* March 2004 and *(c)* July 2004; and if he will list in each case (i) the number and percentage of completed investigations and (ii) the number of cases eligible for payment as of July 2004. [211832]

Dr. Ladyman *[holding answer 1 February 2005]:* The exact amount of restitution paid to date is not known centrally. However, we estimate the figure to reach £180 million by the end of the process.

With regard to the number of complaints investigated, I refer the hon. Member to the statement I made to the House on 16 September 2004, *Official Report*, column 175WS. That statement provides the latest available statistics, including the most up to date information on the numbers of cases eligible for payment. Further to this information, the table shows details of the number of requests for retrospective funding investigations received between 31 March and 31 July 2004 and the total number of retrospective cases completed by the 31 July 2004:

Strategic health authority name	Number of requests for retrospective funding investigations between 31 March and 31 July	Total number of retrospective funding investigations completed by 31 July
Norfolk, Suffolk and Cambridgeshire	110	608
Bedfordshire and Hertfordshire	30	132
Essex	20	209
North West London	17	209
North Central London	46	101
North East London	23	169
South East London	36	246
South West London	25	182
Northumberland, Tyne and Wear	35	202
County Durham and Tees Valley	23	223
North and East Yorkshire and North Lincs	46	302
West Yorkshire	42	177
Cumbria and Lancashire	75	419
Greater Manchester	66	285
Cheshire and Merseyside	103	651
Thames Valley	39	195
Hampshire and Isle of Wight	74	544
Kent and Medway	65	280
Surrey and Sussex	137	555
Avon, Gloucestershire And Wiltshire	109	857
South West Peninsula	49	533
Dorset And Somerset	76	429
South Yorkshire	26	197
Trent	81	395
Leics, Northants and Rutland	31	245
Shropshire and Staffordshire	37	432
Birmingham and The Black Country	37	278
West Midlands South	41	275

Cossham Hospital

Dr. Fox: To ask the Secretary of State for Health what assessment he has made of the effects on communities served by Cossham hospital arising from the transfer of services from Cossham hospital to community health facilities in Kingswood town centre. [217681]

Ms Rosie Winterton *[holding answer 24 February 2005]:* I have made no assessment. It is for strategic health authorities, as the local headquarters of the national health service, to oversee service improvements in their local areas because with their knowledge of the local community they are best placed to do so.

Dr. Fox: To ask the Secretary of State for Health what additional services will be available to the community hitherto served by Cossham hospital as a result of the transfer of services from Cossham hospital to community health facilities in Kingswood. [217682]

Ms Rosie Winterton *[holding answer 24 February 2005]:* The public consultation undertaken by the local national health service in Bristol relating to Cossham hospital has been extended to 1 March 2005. No final decisions, therefore, have been taken on this matter.

I understand it is proposed that the community health facilities in Kingswood, Orchard Medical Centre and the Kingswood Health Centre be extended so that services such as outpatient clinics, X-ray and physiotherapy would be placed alongside general practitioner practices.

Dr. Fox: To ask the Secretary of State for Health what the objectives were of the transfer of services from Cossham Hospital to community health facilities in Kingswood town centre. [217683]

Ms Rosie Winterton *[holding answer 24 February 2005]:* It is for primary care trusts in partnership with the local health community to work to improve services for their local population.

I understand the local national health service in Bristol's proposals are to provide modern, appropriate services and facilities for the local population.

Dentists

Sarah Teather: To ask the Secretary of State for Health how many dentists' surgeries in *(a)* Greater London and *(b)* each London borough were accepting new NHS patients in each of the last five years for which figures are available. [217543]

Ms Rosie Winterton: This data is not available by Greater London or by London boroughs. Information on the number of dental practices accepting new national health service patients in London as at 15 February 2005 broken down by strategic health authority and primary care trust has been placed in the Library. Data is not available for the last five years.

Departmental Policies (Rochdale)

Mrs. Fitzsimons: To ask the Secretary of State for Health if he will set out, with statistical information relating as closely as possible to the Rochdale constituency, the effect on Rochdale of his Department's policies and actions since 1997. [217371]

Miss Melanie Johnson: The Government has put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Rochdale constituency.

For example in March 1997[1], there were 431 patients waiting more than 12 months for in-patient treatment and 2,283 waiting nine to 11 months. Latest figures show 1,202 waiting six to eight months and nobody waiting more than nine months.

In March 1997[1], there were 3,587 patients waiting more than 13 weeks for out-patient treatment. Latest figures show 1,183 waiting more than 13 weeks.

The latest published figures show that 94.9 per cent. of patients spend less than four hours in the accident and emergency department. In September 2002, the figure was 78.3 per cent. and in September 2003, the figure was 92.3 per cent.

99.8 per cent. of urgent referrals for suspected cancer were seen by a specialist within two weeks.

A total of 811,000 has been provided from the cancer plan central capital allocation for a scanner, as part of the 50 extra scanners across England. This magnetic resonance imaging scanner will become operational for patients in summer 2005 at the Rochdale Infirmary and is expected to increase the annual number of scans from 7,800 to 11,000.

A new mobile catheter laboratory funded by the New Opportunity Fund will be based at Rochdale Infirmary from March 2005. The laboratory will expand the facilities available at the cardiology unit enabling an additional 1,800 angiograms to be carried out in a full year.

Work is commencing to convert a ward at Rochdale Infirmary to a 500,000 16-station renal dialysis unit which is due to open in May 2005.

[1] Figures from 1997 are the sum of the figures for the preceding NHS trusts (Oldham NHS trust, Rochdale healthcare NHS trust, North Manchester healthcare NHS trust and Bury healthcare NHS trust) to their merger in 2002 to form the Pennine acute hospitals NHS trust.

General Practitioners

Rev. Martin Smyth: To ask the Secretary of State for Health what the average remuneration for a general practitioner was in each of the past 15 years. [218828]

Mr. Hutton *[holding answer 28 February 2005]:* Figures based on information for Great Britain are shown in the table.

	Intended average net remuneration/income (£)
1989–90	31,105
1990–91	33,630
1991–92	37,512
1992–93	40,010
1993–94	40,610
1994–95	41,890
1995–96	43,165
1996–97	44,483
1997–98	46,031
1998–99	48,037
1999–2000	52,606
2000–01	54,219
2001–02	56,510
2002–03	61,618
2003–04	67,040

Rev. Martin Smyth: To ask the Secretary of State for Health what the arrangements for sick pay provision for general practitioners are. [218829]

Mr. Hutton *[holding answer 28 February 2005]:* The rights of general practitioners (GPs) partners in partnership agreements to paid sickness leave is a matter for their partnership agreement. For GPs who are salaried, employed either by general medical service contractors or primary care trusts, their entitlement to sick pay should reflect that available to hospital doctors. Under other forms of primary medical contracts, e.g. personal medical services or alternative provider medical services this will be a matter for locally agreed contracts.

Health Tourism (Cost)

David Davis: To ask the Secretary of State for Health what estimate he has made of the amount health tourism cost the NHS in England in each year between 1997 and 2004. [217439]

Mr. Hutton: *[holding answer 24 February 2005]:* Successive Governments have not required the national health service to provide statistics on the number of overseas visitors treated under the provisions of the NHS (Charges to Overseas Visitors) Regulations 1989, as amended. It is therefore not possible to give a definitive assessment of the scale of health tourism.

Influenza

Dr. Murrison: To ask the Secretary of State for Health (1) how many doses of *(a)* amantadine and *(b)* other flu vaccines or antivirals his Department has stockpiled in preparation for an influenza pandemic; [214756]

(2) what estimate his Department has made of the number of doses of *(a)* flu vaccine and *(b)* antivirals which need to be stockpiled in preparation for an influenza pandemic. [214757]

Miss Melanie Johnson: The UK Health Departments' UK Influenza Pandemic Contingency Plan is being published today, together with our procurement of antivirals. This puts the United Kingdom in the forefront of international preparedness for a possible flu pandemic. The document is on the Department's website at www.dh.gov.uk/pandemicflu.

We are working closely with other governments and the World Health Organisation to ensure the international community is as well prepared as it can be to spot and address the early signs of a pandemic as quickly as possible.

However, it makes sense to ensure we in the UK are as prepared as we can be and have drugs for use against an influenza pandemic here. That is why 14.6 million courses of oseltamivir have been ordered for delivery over the next two financial years. This will enable us to treat one in four of the UK population—the proportion which the WHO recommends we plan for.

Mixed Sex Accommodation

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of inpatients accommodated in mixed sex accommodation. [216158]

Ms Rosie Winterton: We have made no estimate of the number of in-patients accommodated in mixed or single-sex wards. We collect information on the total number of hospital admissions each year. This does not identify into which type of accommodation those patients are admitted.

The provision of single-sex accommodation is measured as compliance with three objectives we have set, requiring national health service trusts to provide single-sex sleeping areas, separate bathroom and toilet facilities for men and women, and where appropriate, safe facilities for the mentally ill. Compliance is measured annually at trust level and information at ward level is therefore not available.

Nationally, 97 per cent., of NHS trusts are fully compliant with our standards.

MRI Scans

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 7 February 2005, *Official Report*, columns 1337W, on MRI scans, what funding has been identified to cover additional diagnostic services; and what progress has been made towards the plans for phase two of the independent sector procurement programme. [217202]

Mr. Hutton *[holding answer 23 February 2005]:* £135 billion of investment in the national health service will be allocated to English primary care trusts for 2006–07 and 2007–08 to ensure the NHS continues to deliver improvements in patient care. This includes a £1 billion independent sector procurement programme to ensure that NHS patients will get speedier access to high quality diagnostic tests, including magnetic resonance imaging scans. The Department will issue an advertisement inviting expressions of interest soon.

MRSA

Mr. Gill: To ask the Secretary of State for Health how many cases of MRSA have been found in each hospital of the University Hospitals of Leicester NHS Trust since 2002. [217982]

Dr. Ladyman: The information requested is not collected at a national level to show numbers for individual hospitals within national health service trusts.

The numbers of methicillin resistant Staphylococcus aureus (MRSA) bacteraemias reported for the University Hospitals of Leicester NHS Trust is shown in the table.

	Number of MRSA bacteraemias reported
2002–02	163
2002–03	144
2003–04	132

National Burn Care Review

Mr. Soames: To ask the Secretary of State for Health when he will consult on the recommendations of the national burn care review. [218169]

Mr. Hutton: There will be a national consultation on the recommendations made in the report after it has been seen and accepted by the National Burn Care Group. This consultation is not expected to take place before the summer of 2005.

Mr. Soames: To ask the Secretary of State for Health when he will publish the recommendations of the national burn care review. [218170]

Mr. Hutton: The National Burn Care Group has asked the sub-group to carry out further work since the draft report was circulated to its members. A final report is not expected to be completed until the summer of 2005.

NHS Estate

Dr. Evan Harris: To ask the Secretary of State for Health if he will publish the full results of the last annual condition surveys for *(a)* 2000–01, *(b)* 2001–02, *(c)* 2002–03 and *(d)* 2003–04; and if he will publish future surveys within a set timeframe from the financial year end. [217583]

Mr. Hutton: Annual condition surveys are not collected centrally. It is for individual national health service trusts to determine whether to publish them.

NHS Reference Costs

Mr. Blunt: To ask the Secretary of State for Health what percentage of NHS reference costs are the costs for *(a)* all treatments, *(b)* elective and day care and *(c)* critical care services were for the Surrey and Sussex healthcare NHS trust in the latest financial year for which figures are available. [217679]

Ms Rosie Winterton *[holding answer 24 February 2005]:* The following data is available from the Reference Costs 2003 data, relating to the financial year 2002–03 and is the most current available.

Surrey and Sussex Healthcare National Health Service Trust

	£	*Percentage of total cost reported in Reference Costs 2003*
Total cost reported in Reference Costs 2003 ['All treatments']	111,447,007	0.38
Total elective and day case cost reported in Reference Costs 2003	16,655,187	0.06
Total critical care services cost reported in Reference Costs 2003	4,669,228	0.02

Notes:

1. Data exclude activity and costs reported using HRG codes with a 'T' prefix. These were never ratified by the respective Royal Colleges.
2. Data represent total costs of treatment provided to NHS patients from NHS resources. They include the cost to the NHS of providing services in-house, and the cost of sub-contracting activity to non-NHS providers.
3. 'All treatments' reflect the total cost reported by Surrey and Sussex healthcare NHS trust, with the exception of those detailed in note one above.
4. The definition of day care activity is too broad to be recognised by Reference Costs. Where applicable, day case activity has been provided.
5. Elective and day case costs specifically exclude elective in-patient excess bed days.

6. Percentage figures are calculated on total cost as reported in Reference Costs 2003, for all providers, approximately £33 billion.

NHS Staff

Mr. Neil Turner: To ask the Secretary of State for Health what proportion of NHS staff are *(a)* medical, *(b)* nursing, *(c)* technical, *(d)* administrative (managerial and clerical) and *(e)* auxiliary and support; and what proportion of each category are covered by nationally negotiated wage rates and contract of employment conditions. [213746]

Mr. Hutton *[holding answer 21 February 2005]:* The proportion of staff working within groupings used to illustrate their role in the national health service is shown in the table. Information about the proportion of staff working in these groupings covered by nationally negotiated wage rates could be provided only at disproportionate cost.

NHS staff numbers[1] by group, and estimated[2] proportion of each group on national[3] (as opposed to local) pay scales: England

	Number (headcount) as at 30 September 2003	Percentage of total staff as at 30 September 2003	Percentage on national pay scales[3] as at August 2002
Total employed staff (HCHS only)	1,144,697	100.0	71
HCHS medical and dental staff (excl locums)	80,851	7.1	4
Qualified nursing, midwifery and health visiting staff	364,692	31.9	[4]
Total qualified scientific, therapeutic and technical staff	122,066	10.7	[4]
Qualified Ambulance staff	15,957	1.4	[4]
Support to clinical staff	360,666	31.5	[4]
NHS infrastructure support:	199,808	17.5	[4]
Central functions	92,257	8.1	[4]
Hotel, property and estates	72,230	6.3	[4]
Manager and senior manager	35,321	3.1	[4]
Other non-medical staff or those with unknown classification	657	0.1	[4]

[1] Excluding general practitioners (see note 2).
[2] The NHS earnings survey is based on the payroll of a sample of approximately 50 per cent. of NHS trusts in August.
[3] National pay scales include clones; these are local pay scales, which mirror national pay scales.
[4] This data cannot be provided.
Sources:
Department of Health non-medical workforce census (30 September 2003).
Department of Health medical and dental workforce census (30 September 2003).
Department of Health NHS Earnings Survey (August 2002).

Mr. Burstow: To ask the Secretary of State for Health whether the numbers of NHS staff referred to in his answer of 15 November 2004, *Official Report*, column 1171W are *(a)* headcount and *(b)* whole-time equivalent; and whether they cover (i) England, (ii) England and Wales and (iii) the UK. [217429]

Mr. Hutton *[holding answer 23 February 2005]:* The figures are in headcount and are for England only.

Mr. Cousins: To ask the Secretary of State for Health how many NHS *(a)* hospital, *(b)* public health medicine and *(c)* community health service (i) doctors and (ii) nurses in training were employed in the Newcastle primary care trust area in (A) 1996, (B) 2001 and (C) 2004. [216490]

Miss Melanie Johnson: The information is not available in the format requested. Student nurses receive bursaries or grants and are not employed by national health service organisations. As a result of changes to the way that nurse training is commissioned, it is not possible to provide comparable data for the Newcastle primary care trust (PCT) area. Data for the number of doctors in training within the Northumberland Tyne and Wear Strategic Health Authority, broken down by organisation, are shown in the table.

Hospital, public health medicine and community health service (HCHS): medical and dental staff of which doctors in training within Northumberland, Tyne and Wear Strategic Health Authority by organisation—as at 30 September each year

Department of Health medical and dental workforce census

Nurses

Mr. Sheerman: To ask the Secretary of State for Health how many *(a)* nurses, *(b)* health visitors, *(c)* practice nurses and *(d)* school nurses were employed (i) in England and (ii) in Huddersfield constituency in (A) 1997 and (B) 2004. [216876]

Miss Melanie Johnson: It is not possible to provide information for Huddersfield constituency because the previous and existing national health service trusts served an area significantly wider than Huddersfield constituency. The primary care trust (PCT) boundaries in the area are not coterminous with the Huddersfield constituency boundaries.

Information on the number of nurses, health visitors and practice nurses employed in England and in West Yorkshire Strategic Health Authority (SHA) in 1997 and 2003 (the latest year for which data is available) is shown in the table.

The Government collected information on the school nursing workforce in the September 2003 non-medical workforce census, but this information was incomplete. Information on the number of school nurses employed in the NHS will be available from the September 2004 non-medical workforce census, expected to be published in March 2005.

All NHS qualified nursing, midwifery and health visiting staff, including practice nurses employed in England, West Yorkshire SHA and Huddersfield areas as at 30 September[1] in each year

headcount

England	*1997*	*2003*
All qualified nurses (including practice nurses)	318,856	386,629
of which:		
Health visitor	12,410	12,984
Practice nurse	18,389	21,667
West Yorkshire SHA		
All qualified nurses (including practice nurses)	14,787	18,829
of which:		
Health visitor	595	609
Practice nurse	736	903

[1] Practice nurse figures as at 1 October for 1997.

Patients (Leicestershire)

Mr. Reed: To ask the Secretary of State for Health how many *(a)* in-patients and *(b)* out-patients were treated in Leicestershire in each year between 1992–93 and the last year for which figures are available. [216934]

Dr. Ladyman: The information requested is shown in the tables.

1. Count of finished in-patient admission episodes for selected providers national health service hospitals, 1993–94 to 2003–04

	Leicester General Hospital	*Leicester Royal Infirmary*	*Glenfield Hospital*	*NHS Trust University Hospitals of Leicester*	*Leicestershire Mental Health*	*Fosse Health, Leicestershire Community*	*Leicestershire and Rutland Healthcare*	*Leicestershire Partnership*
1993–94	44,956	83,442	19,078	—	—	—	—	—
1994–95	28,141	80,748	18,424	—	11,332	—	—	—
1995–96	42,039	85,973	22,489	—	3,519	11,070	—	—
1996–97	43,357	100,931	24,008	—	3,793	11,707	—	—
1997–98	45,875	103,626	22,338	—	2,239	9,683	—	—

1. Count of finished in-patient admission episodes for selected providers national health service hospitals, 1993–94 to 2003–04

	Leicester General Hospital	Leicester Royal Infirmary	Glenfield Hospital	NHS Trust University Hospitals of Leicester	Leicestershire Mental Health	Fosse Health, Leicestershire Community	Leicestershire and Rutland Healthcare	Leicestershire Partnership
1998–99	49,313	111,885	25,914	—	4,212	9,658	—	—
1999–2000	51,315	114,423	27,686	—	—	—	15,142	—
2000–01	—	—	—	182,101	—	—	8,046	—
2001–02	—	—	—	199,980	—	—	9,571	—
2002–03	—	—	—	201,155	—	—	—	4,557
2003–04	—	—	—	209,656	—	—	—	4,404

Notes:
1. A finished admission episode is the "first" period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
3. University Hospitals of Leicester NHS Trust was formed on 1 April 2000 following the merger of Leicester General Hospital NHS Trust, Leicester Royal Infirmary NHS Trust, and Glenfield Hospital NHS Trust. Leicestershire Mental Health Service NHS Trust was established in 1993 and dissolved in April 1999. Fosse Health, Leicestershire Community NHS Trust was established in 1994 and dissolved in April 1999. Leicestershire and Rutland Healthcare NHS Trust was established 1 January 1999. The new trust replaced the Leicestershire Mental Health Service and the Fosse Health, Leicestershire Community NHS Trusts. Leicestershire Partnership NHS Trust was established in April 2002. The new trust came into being when it changed its name from Leicestershire and Rutland Healthcare NHS Trust to Leicestershire Partnership NHS Trust.

Student Midwives

Chris McCafferty: To ask the Secretary of State for Health how many student midwives who entered training in *(a)* 2002–03 and *(b)* 2003–04 were over the age of 25 years. [218736]

Mr. Hutton: The number of student midwives who entered diploma training in 2002–03 and 2003–04 is shown in the table. Data are not collected by the specific age band requested.

Age band	*2002–03*	*2003–04*
Below 26	288	324
26 and above	321	276

Source:
Nursing and midwifery admissions service.

Chris McCafferty: To ask the Secretary of State for Health how many student midwives dropped out of training in *(a)* 2002–03 and *(b)* 2003–04. [218739]

Mr. Hutton: Information for England on the percentage of pre-registration midwifery students who have left their university course in 2002–03 and 2003–04 is not available. The attrition data for these academic years administered by the Higher Education Statistics Agency are in the process of being analysed.

Sunlight

Dr. Gibson: To ask the Secretary of State for Health (1) on what published scientific evidence the Government's recommendations to the public concerning exposure to sunlight are based, with particular reference to *(a)* exposure at peak hours and *(b)* using sunscreen; [217040]

(2) whether the public health consequences of sunlight exposure have been recently reviewed; and whether new guidelines have been published; [217042]

(3) what steps the Government has taken to inform the public of the effects on vitamin D status of measures that may be taken to reduce the risk of skin cancer; [217043]

(4) what evidential sources the Chief Medical Officer based his Better Health advice on exposure to the sun; and what account he took of consequential effects on vitamin D levels; [217044]

(5) what research he has commissioned on whether those who follow the advice on avoiding exposure to the sun at peak hours and using sunscreen would obtain sufficient vitamin D; [217061]

(6) what steps the Department has taken over the last 10 years to inform the public that exposure of skin to sunlight is necessary to provide vitamin D; [217075]

(7) what research his Department has evaluated concerning whether casual exposure of the hands and face to sunlight at British latitudes provides sufficient vitamin D for optimum health. [217273]

Miss Melanie Johnson: Skin cancer is the second most common cancer in the United Kingdom, with about 40,500 cases annually. 6,000 of these cases are malignant melanomas. While rare, mortality rates are high and 50 per cent. of patients die within two years.

The Government has been active in providing information to the public to advise people on the best ways to avoid skin cancer.

We have with key stakeholders developed the "SunSmart" campaign. It is run by Cancer Research UK and funded by the UK health departments. Cancer Research UK has received funding of around 400,000 for three years from 2003–06.

The SunSmart advice is:

stay in the shade between 11 am to 3 pm,

make sure you never burn,

always cover up with a T-shirt, wide brimmed hat and sunglasses,

remember to take extra care with children,

then use factor 15 plus sunscreen.

Further work by Cancer Research UK is being undertaken on risks associated with sunbeds.

No new guidelines have been issued in the last three years while the SunSmart campaign has been in place, although there has been variation on the ways in which the messages are put across to the public so as to achieve maximum and continuing impact.

The messages in the SunSmart campaign have been approved by the members of the United Kingdom Skin Cancer Working Group, which is hosted by the British Association of Dermatologists and includes representatives of the National Radiological Protection Board, the Skin Care Campaign, UK health departments, the Health and Safety Executive and other experts in the subject.

The following international studies discuss the scientific evidence for sun protection behaviours and messages These studies include: Interventions to prevent skin cancer by reducing exposure to ultraviolet radiation, A systematic review, Saraiya, Glantz, Briss et al., Am J Prev Med 2004; 27 (5).

European Code Against Cancer and scientific justification: third version (2003), Boyle, Autier, Bartelink et al, Annals of Oncology 14:973–1005, 2003.

IARC Handbooks of Cancer Prevention, Volume 5, Sunscreens, International Agency for Research on Cancer, World Health Organization, 2001.

Copies of these studies have been placed in the Library.

The Chief Medical Officer's advice in his top 10 tips for better health on protection from the sun reiterates the advice in the SunSmart campaign.

Government also funds the ultra-violet (UV) index on the Meteorological Office website (linked to the Cancer Research UK SunSmart website). Met Office weather reports on television and radio draw attention to the UV index when danger from the sun is high.

The United Kingdom Skin Cancer Working Group recently established a sub-group to consider questions relating to exposure to sunlight and Vitamin D. This sub-group at its meeting in January 2005 concluded that on present evidence it would be inappropriate to alter the SunSmart messages. However, it noted that an international workshop on the subject of exposure to the sun and Vitamin D levels will take place in Munich in October 2005 involving the organisations Euroskin and the WHOINTERSUN groups. One of the objectives of this international workshop is to produce a peer-reviewed publication as soon as possible. The Government will consider any implications for policy from the evidence in this report when it is available.

Telephone Numbers (0870)

Dr. Stoate: To ask the Secretary of State for Health if he will prohibit the use of national rate 0870 telephone numbers by general practices and other frontline primary care services; and if he will make a statement. [213505]

Mr. Hutton: Yes. From April, no national health service organisations providing local services will not be able to adopt national or premium rate numbers. General practitioner practices currently using national rate telephone lines will be expected to change these to "lo-call" numbers.

Waiting Times (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health what the average waiting time for surgery for patients in *(a)* Lancashire and *(b)* Chorley was in (i) 1997, (ii) 2001 and (iii) 2005. [216207]

Miss Melanie Johnson: The information requested for available years is shown in the tables.

In-patient waiting list and timebands for Chorley and South Ribble National Health Service Trust, Preston Acute Hospitals NHS Trust and Lancashire Teaching Hospitals NHS Trust 1996–97, 2000–01 and 2003–04

CULTURE, MEDIA AND SPORT

Cancer

Dr. Gibson: To ask the Secretary of State for Culture, Media and Sport what policies her Department has in place for supporting employees with cancer. [218590]

Mr. Caborn: The Department for Culture Media and Sport has a range of polices in place to support staff with medical conditions. These include occupational health advice on reasonable adjustments to allow staff to continue working where appropriate; support and advice from the DCMS Staff Counsellor; a range of flexible working provisions, including flexitime, part-time working, homeworking and paid/unpaid special leave; and six months fully paid sickness absence, followed by six months on half pay, up to a maximum of 12 months.

Digital Switchover

Syd Rapson: To ask the Secretary of State for Culture, Media and Sport (1) when she expects to announce the areas of the United Kingdom in which digital switchover will first take place; [214544]

(2) what criteria will be used in determining the order in which digital switchover will be introduced in the regions; [214545]

(3) if she will make a statement on her plans to implement a regional roll out of digital switchover. [214546]

Estelle Morris: The Government will confirm the timetable once all the remaining issues relating to digital switchover are resolved and we are satisfied that the interests of consumers, especially the most vulnerable, are well protected.

The order in which regions will be switched off is not one for the Government: it will be based on technical criteria and agreed between broadcasters, multiplex operators and Ofcom.

We expect Ofcom to issue a statement on the indicative regional order shortly.

Ofcom have issued a statement on the indicative regional order. This is available from the Ofcom website at: www.ofcom.org.uk.

Mr. Gale: To ask the Secretary of State for Culture, Media and Sport when she expects to announce the details of regional pilot schemes in preparation for digital switchover; what role regional pilot schemes will have in determining the date for digital switchover; and if she will make a statement. [218906]

Estelle Morris: The Government has no plans for regional pilot schemes. However, we are currently conducting a technical trial in South Wales to gauge the technical and consumer issues associated with the switchover process. This trial is not a blueprint for regional rollout but a vital part of the preparation for the national switchover.

The order in which regions will be switched off is not one for the Government: it will be based on technical criteria and agreed between broadcasters, multiplex operators and Ofcom.

Ofcom have issued a statement on the indicative regional order. This is available from the Ofcom website at: www.ofcom.org.uk.

The Government will confirm the timetable once all the remaining issues relating to digital switchover are resolved and we are satisfied that the interests of consumers, especially the most vulnerable, are well protected.

EU Committees

Angus Robertson: To ask the Secretary of State for Culture, Media and Sport how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the training programme for professionals in the European audio-visual programme industry and of the programme to encourage the development, distribution and promotion of European audio-visual works MEDIA II met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217952]

Estelle Morris: Between 1 July 2003 and 31 December 2004, the MEDIA Committee met in Brussels on: 15 July 2003, 22 September 2003, 31 October 2003, 12 November 2003, 10 December 2003 (Italian presidency), 20 February 2004, 25 March 2004 (Irish presidency) 16 July 2004 and 22 October 2004 (Dutch presidency) and in Athens on 12 November 2004 (Dutch presidency). The UK was represented at all these meetings, either by DCMS officials or UK Film Council representative or both.

Government Art Collection

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport how much the Government Art Collection has spent on new works of art in each of the last 10 years; where each item purchased since 1997 is located; and whether each is accessible to the public. [217393]

Estelle Morris: The following figures represent how much the Government Art Collection (GAC) has spent on works of art in the last 10 financial years and the current financial year.

	£
1994–95	127,000
1995–96	83,000
1996–97	123,000
1997–98	137,000
1998–99	127,000
1999–2000	179,000
2000–01	135,000
2001–02	158,000
2002–03	253,600
2003–04	225,200
2004–05[1]	110,500

[1] includes purchases up to 15 February 2005

Some works of art have been purchased or commissioned by other Government Departments.

A list of the current locations of works of art purchased since 1997 (as of 17 February 2005), and listed by Government Department and GAC, is provided in a separate document. I am arranging for copies of this document to be placed in the Libraries of both Houses.

The Government Art Collection is part of DCMS; its acquisition policy is guided by the Advisory Committee on the GAC which is a non-departmental public body. Members are both independent and ex-officio, including the Directors of the National Galleries.

The GAC plays a unique role in the UK in displaying works of art from its holdings in major Government buildings at home and abroad, in order to promote British art, culture and history. Due to the nature of Government buildings and current security issues, it is not possible for the general public to gain open access to most of the works on a daily basis. However, the buildings in which works of art are displayed—in reception rooms, entrance halls, Ministers' and Ambassadors' offices—all receive many thousands of visitors per year, all over the world.

Members of the public may consult the GAC to see individual works of art. Additionally, many Government buildings in the UK (including the GAC's own premises) are accessible during the annual Open House Weekend. The GAC also gives regular tours throughout the year round its premises, lends works of art to public exhibitions, and operates a website www.gac.culture.gov.uk listing and illustrating all its original works of art. A growing number of historical and modern prints are being added to this.

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 10 February 2005, *Official Report*, column 1724W, on Government Art Collection, how much the Government Art Collection spent in total on purchasing works of art in each of the last 15 years. [218984]

Estelle Morris: The following figures represent how much the Government Art Collection (GAC) has spent on works of art in the last 15 financial years and the current financial year.

Financial year	£
1989–90	98,000
1990–91	96,000
1991–92	116,000
1992–93	137,000
1993–94	123,000
1994–95	127,000
1995–96	83,000
1996–97	123,000
1997–98	137,000
1998–99	127,000
1999–2000	179,000
2000–01	135,006
2001–02	158,000
2002–03	253,600
2003–04	225,200
2004–05[1]	110,500

[1] Includes purchases up to 15 February 2005.

Some works of art have been purchased or commissioned by other Government Departments.

NORTHERN IRELAND

Non-departmental Public Bodies

Mr. Dodds: To ask the Secretary of State for Northern Ireland if he will list the membership and political background of the members of *(a)* non-departmental public bodies of the (i) Department of Agriculture and Rural Development, (ii) Department of Culture, Arts and Leisure, (iii) Department of Enterprise, Trade and Investment, (iv) Department of Education, (v) Department of Environment, (vi) Department of Employment and Learning, (vii) Department of Health and Social Services, (viii) Department of Regional Development, (ix) Department of Social Development and (x) Office of the First and Deputy First Minister and *(b)* health and personal social services bodies. [218064]

Mr. Paul Murphy: Those appointed to the boards of non-departmental public bodies and health and personal social services bodies are not required to declare their political background. However, they are asked to declare any significant political activity they may have undertaken in the five years prior to the date of their application.

Information on the membership and declared political activity of applicants and appointees to bodies sponsored by the 11 departments of the Northern Ireland Administration can be found in the Public Appointments Annual Reports, the most recent of which was published in 2004.

The reports are available from the Library of the House and can be found on the Internet at www.ofmdfinni.gov.uk/publicappointments.

CONSTITUTIONAL AFFAIRS

Official Residences

Chris Grayling: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213612]

Mr. Lammy: My Department is not responsible for any official residences.

The Palace of Westminster is responsible for the maintenance of the Lord Chancellor's residence in the House of Lords and for any work that needs to be carried out. There are no permanent staff employed at the residence. The Lord Chancellor's Private Office is responsible for the administration of the residence in terms of organising tours of the residence and keeping the diary of charitable functions. The Department does not make any contributions to the running cost of the residence. No refurbishment work has been carried out in the last five years.

The cost of *(a)* flowers and plants, *(b)* wine and entertaining and *(c)* food for the past five years is as follows:

(a) Flowers and Plants
2004—£609.23
2005—£27
(b) Wine and Entertaining
2005—£248.76
2004- £2,914.12
2003- £841.49
(c) Food
2005—£5,286.46
2004—£29,440.78
2003—£8,447.71
No figures are available centrally before 2003

Visa Appeals

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many visitor visa appeals were successful in 2004. [218324]

Mr. Lammy: The latest information taken from IRIS, the electronic database of the Immigration Appellate Authority (IAA), indicates that 10,918 of the family visitor visa appeals promulgated by Immigration Adjudicators during 2004 were decided in favour of the appellant.

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many of the successful visitor visa appeals in 2004 were *(a)* oral and *(b)* written. [218325]

Mr. Lammy: The latest information taken from IRIS, the electronic database of the Immigration Appellate Authority (IAA), indicates that of the 10,918 family visitor visa appeals promulgated by Immigration Adjudicators in 2004, and decided in favour of the appellant, 6,863 were oral appeals, and 4,055 were appeals determined on the papers alone.

HOME DEPARTMENT

Anti-social Behaviour Act

Mr. Byrne: To ask the Secretary of State for the Home Department how many crack house closures have been secured under the provisions of the Anti-social Behaviour Act 2003 in *(a)* Birmingham, *(b)* Bristol, *(c)* Leeds, *(d)* Liverpool, *(e)* Manchester, *(f)* Newcastle, *(g)* Nottingham and *(h)* Sheffield. [214041]

Caroline Flint: Data are not collected on a city basis. The latest available information is for closure orders by Government office region for the cities named for the period 20 January to end September 2004 is as follows.

	Number
(a) West Midlands	3
(b) South West	24
(c and h) Yorkshire and Humber	4
(d and e) North West	13
(f) North East	7
(g) East Midlands	10

Use of the "crack house" antisocial behaviour powers form a key part of Operation Crackdown, the national police enforcement three month campaign that is currently running until the end of March and has been signed up to by 33 police forces in England and Wales.

Armed Police

Tom Cox: To ask the Secretary of State for the Home Department how many armed police officers are employed by the Metropolitan Police Force. [215142]

Caroline Flint: The Commissioner of the Metropolitan Police tells me that his force had 2,209 firearms officers as at 7 February 2005.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he will reply to the letter dated 29 November 2004 from the right hon. Member for Manchester, Gorton with regard to Mr. S. Bhakar; [208710]

(2) when he will reply to the letter dated 29 November from the right hon. Member for Manchester, Gorton with regard to Mr. S Bhakar. [210144]

Mr. Charles Clarke: I replied to my right hon. Friend on 18 January 2005.

Cycling

Mr. Hammond: To ask the Secretary of State for the Home Department (1) what assessment he has made of the risk to pedestrians in Central London of cyclists ignoring red traffic signals; [216519]

(2) what advice he has given to police forces on identification and apprehension of cyclists who are observed ignoring red traffic signals; [216520]

(3) what steps he is taking to ensure active enforcement against cyclists ignoring red traffic signals. [216522]

Caroline Flint: It is an offence for a cyclist not to comply with light signals controlling traffic.

Chief officers of police are best placed to decide on the level of priority given to this offence in the light of its perceived seriousness, conflicting demands on police time and resources, and local circumstances.

As with other offending we would encourage members of the public to give evidence of specific problems and of particularly dangerous behaviour to the police. This will help ensure that the police target their responses effectively.

No assessment has been made of the risk to pedestrians in central London of cyclists failing to comply with light signals controlling traffic.

Mr. Hammond: To ask the Secretary of State for the Home Department how many fixed penalty notices have been issued for the offence of cycling on a pavement since 1 August 1999. [216626]

Caroline Flint: Figures on fixed penalty notices for pedal cycle offences are not collected centrally. However results from a special exercise undertaken to monitor new fixed penalties introduced on 1 August 1999 showed that in England and Wales for the period 1 August 1999 to 31 December 1999 there were 665 fixed penalty notices issued for the offence of cycling on a footway. A second exercise undertaken for the calendar year 2000 showed 821 fixed penalty notices issued for the offence.

The exercise has not been repeated.

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the answer of 18 January 2005, *Official Report*, column 895W, on cycling, how many cyclists involved in road accidents were reported as cycling without lights in the last period for which figures are available. [216394]

Caroline Flint: It is not possible from the information held on the Home Office Court Proceedings database to identify from the number of cyclists cautioned or proceeded against for "lighting and reflector" offences, what number were involved in road accidents, as the circumstances of the offence are not collected centrally.

Drugs

Mrs. Gillan: To ask the Secretary of State for the Home Department how many people were arrested for supplying class A drugs to children in each of the last six years. [204777]

Caroline Flint: Figures for the number of people arrested for supplying class A drugs to children are not collated centrally. However, we do have figures for the number of people arrested[1] for supplying main class A drugs in each of the last six years.

This information can found in the Home Office Drug Seizure and Offender Statistics Supplementary Tables 2001 and 2002 publication which can be accessed via the RDS website at http://www.homeoffice.gov.uk/rds/pdfs04/hosb0804supp.pdf. Tables required within this publication are as follows:

Drug type	Location
Cocaine	Table S2.17
Crack	Table S2.17a
Heroin	Table S2.19
LSD	Table S2.21
Ecstasy-type	Table S2.23
Methadone	Table S2.25

[1] Found guilty, cautioned or dealt with by compounding.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what area surveys of illicit drug use have been conducted by his Department; and which age groups they covered. [216689]

Caroline Flint: The main survey of drug use commissioned by the Home Office is the British Crime Survey, which measures illicit drug use among the general household population aged 16 to 59 years in England and Wales. Comparable information on drug use from this survey is available from 1996 and it is now conducted on a continuous yearly basis. In addition, the Home Office co-funds (with the Department of Health) a regular survey of smoking, drinking and drug use among schoolchildren aged 11 to 15 years in England. This has been carried out since 1986 but has not always cover drug use. Another Home Office survey, the Crime and Justice Survey, obtained information on illicit drug use among the general population aged 10 to 65 in England in 2003 and will provide follow-up data on drug use for the 10 to 25-year-olds in 2004 and 2005.

Other Home Office surveys which cover illicit drug use among other population groups but do not provide time series at present are:

the Arrestee Survey, a survey of arresteees aged 17 and over in a sample of custody suites in England and Wales (conducted since October 2003);

the Prisoners Criminality Survey, a survey of criminality among male prisoners in England and Wales was conducted in 2000. This survey asked about their drug use in the 12 months prior to custody;

the Community Penalties Criminality Survey, a survey of males and females serving community sentences throughout England and Wales was conducted in 2002. This survey asked about their drug use in the 12 months prior to interview;

the Survey of Mandatory Drug Testing in Prisons carried out in a representative sample of prisons in England and Wales in 2001 included questions on prisoners' illicit drug use prior to and in custody;

the 2001 Resettlement Survey included questions on prisoners illicit drug use before custody. The survey was a representative sample, which included participants from 76 prisons in England and Wales, with booster samples of female and young offenders. The youngest offenders included in the survey were aged 15.

Mr. Byrne: To ask the Secretary of State for the Home Department how many offenders per head of population charged with trigger offences have tested positive for *(a)* opiates and *(b)* crack cocaine in (i) Birmingham, (ii) Bristol, (iii) Leeds, (iv) Liverpool, (v) Manchester, (vi) Newcastle, (vii) Nottingham and (viii) Sheffield in the last 12 months. [214016]

Caroline Flint: The Home Office does not collect drug test data based on offenders per head of population. Instead, data is collected on drug tests arising from offenders charged with specified offences in 47 DAT areas with the highest levels of acquisitive crime. The following table breaks down the positive drug test results recorded for opiates (heroin), cocaine/crack or both in relevant areas between January—December 2004.

DAT	*Both (cocaine/crack and heroin)*	*Cocaine/crack only*	*Heroin only*
Birmingham	719	452	525
Bristol	552	299	215
Leeds	782	491	729
Liverpool	926	363	227
Manchester	663	468	353
Newcastle	65	125	244
Nottingham	831	500	370
Sheffield	440	239	238

Source:
DIP Monthly Monitoring Reports

The data incorporate positive drug test results arising from trigger and non-trigger offences. Five per cent of the data can be attributed to positive drug test results resulting from non-trigger offences.

Mr. Byrne: To ask the Secretary of State for the Home Department if he will estimate the percentage of crime linked to drug misuse in *(a)* Birmingham, *(b)* Bristol, *(c)* Leeds, *(d)* Liverpool, *(e)* Manchester, *(f)* Newcastle, *(g)* Nottingham and *(h)* Sheffield in the last 12 months. [214017]

Caroline Flint: Recorded crime figures are used to measure the extent of crime in local areas. Although these include statistics on drugs offences—such as possession—and on property crimes—such as burglary—they do not contain information on the offender's drug habits. It is therefore not possible to estimate from these statistics the percentage of all crime which is linked to the need to support a drug habit.

However, since April 2003 offenders charged in certain areas with certain offences known to be commonly committed by drug users have been tested for opiates (heroin) and cocaine/crack as part of the Drug Interventions Programme. The following table summarises the total number of offenders tested, and the numbers and percentages of those testing positive for opiates or crack/cocaine between January and December 2004 in the 47 DATs that operate drug testing on charge as part of the Drug Interventions Programme. This gives some indication of the proportion of property crime that may be linked to drug use, although it should be noted that not all crime by drug users is necessarily committed to support their habit.

Summary table of drug testing results January—December 2004

Area	*Numbers tested*	*Numbers testing positive*	*Percentage testing positive*
Birmingham	3,808	1,696	45
Bristol	1,734	1,066	61
Leeds	4,309	2,002	46
Liverpool	2,634	1,516	58
Manchester	3,440	1,484	43
Newcastle	1,293	434	34
Nottingham	3,221	1,701	53
Sheffield	1,874	917	49

Source:
DIP Monthly Monitoring Reports

Tom Cox: To ask the Secretary of State for the Home Department what quantity of illegal drugs was seized in the United Kingdom in each of the last three years; and what the estimated street value was of these drugs. [215160]

Caroline Flint: Data on the quantity of the main illegal drugs seized in the United Kingdom is available in the "Drug Seizure and Offender Statistics, United

Kingdom, 2001 and 2002" Home Office statistical bulletin, for which figures are currently available. Copies are available in the Library of the House.

The data related to the estimated street value of drugs seized in 2000 (the last year for which the data was collated by the Home Office) is available in "Table A: Value at street prices of main drug types seized by police and Customs, United Kingdom 2000" (page 27) of the Drug Seizure and Offender Statistics, United Kingdom 2000 publication.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he will take to ensure that drug users and the wider public are made aware of *(a)* what drug treatment involves and *(b)* the potential benefits of drug treatment. [213354]

Miss Melanie Johnson: I have been asked to reply.

The Government recognise the importance of making the public aware of drug treatment and its potential benefits. The Department has taken steps to increase awareness through the "Updated Drugs Strategy", published in 2002 and "Tackling Drugs—Changing Lives", which was published in December 2004 and details progress on all areas of the drugs strategy since its launch in 1998.

Both these documents describe what drug treatment involves including the benefits of drug treatment as well as the actions that the Government are taking to get more users into treatment.

An awareness and communications campaign called FRANK was launched by the Government in 2003. This £3 million a year campaign informs young people and their parents, carers and families about the effects and risks of taking illicit drugs, and gives advice, support and all details of drug treatment services.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make it his policy that drug treatment should be available on demand in the community. [213355]

Caroline Flint: Waiting times for drug treatment are at their lowest ever and 54 per cent. more people are in treatment than in 1998. Drug treatment is available to individuals based on their needs. Drug Action Teams (DATs) are responsible for assessing local needs and then commissioning services accordingly to meet the assessed needs of individuals, using the Drug Pooled Treatment Budget and other mainstream funds. In 2004, the Government announced significant year-on-year increases in the Pooled Treatment Budget from £253 million nationally in 2004–05 to £478 million nationally by 2007–08.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many crimes he estimates were committed by drug users in *(a)* England, *(b)* the North West and *(c)* Lancashire in the last period for which figures are available. [213904]

Caroline Flint: Recorded crime and other measures of crime currently available at regional and national level do not contain information on the offender's drug habits. It is therefore not possible at present to estimate the number of crimes committed by drug users in England, the North West and Lancashire.

Mr. Cummings: To ask the Secretary of State for the Home Department how many convictions for drug-related crime there were in the Easington constituency in the last year for which figures are available. [215518]

Caroline Flint: Official conviction figures include statistics on convictions for drugs offences, such as possession, supply, and on property crimes such as burglary, but do not contain information on the offender's drug habits. It is therefore not possible to estimate the volume of convictions which are linked to the use of drugs or to the operation of drug markets.

Information on the number of known drug offenders found guilty or cautioned for drugs offences is available for police force areas only and it is not possible therefore to give an estimate for Easington alone. For the Durham police force area, there were 1,180 convictions for drugs offences in 2001. The equivalent estimate for 2002 is 1,200. This information is available in the Area Tables of the 'Drug Seizure and Offender Statistics, UK, 2001 and 2002' filed in the House Library.

Paul Flynn: To ask the Secretary of State for the Home Department what the change in the price of *(a)* heroin, *(b)* cocaine, *(c)* crack, *(d)* cannabis, *(e)* ecstasy and *(f)* magic mushrooms has been in each of the last five years. [211234]

Caroline Flint: UK average prices per gram or unit cost for heroin, cocaine, crack, cannabis resin, herbal cannabis and ecstasy for the past five years are shown in the following table. We do not hold any information on magic mushrooms.

The figures in the table are worked out on the basis of information provided by all UK law enforcement. However our current picture is limited. For example, no consideration is currently taken of purity or weighting for size of local markets in producing this figure. NCIS is currently reviewing this.

UK average drug prices 1999 to 2004

As at December each year	*Herbal Cannabis (£ per ounce)*	*Cannabis Resin (£ per ounce)*	*Cocaine (£ per gram)*	*Crack (£ per 0.2g rock)*	*Heroin (£ per gram)*	*Ecstasy (£ per dose)*
1999	89	100	63	20	65	11
2000	82	85	65	23	70	9
2001	80	77	60	21	63	7
2002	83	81	56	20	61	6
2003	72	66	55	19	62	5
2004	72	61	51	18	55	4

Paul Flynn: To ask the Secretary of State for the Home Department if he will list organisations and individuals consulted in the formulation of the Drugs Bill. [211230]

Caroline Flint: The information requested by my hon. Friend is included within the regulatory impact assessment, at paragraphs 1.8, 2.9, 3.9 and 4.2.8. The regulatory impact assessment is available on the Home Office website and in the Library.

Sarah Teather: To ask the Secretary of State for the Home Department what estimate he has made of the number of people in Greater London who took *(a)* heroin, *(b)* marijuana, *(c)* cocaine and *(d)* ecstasy in each of the last 10 years. [217552]

Caroline Flint: The British Crime Survey (BCS) in England and Wales provides estimates of the proportion of people living in private households who used drugs in the year before interview. In recent years, the sample size has been increased and reliable estimates of drug use by region are possible. A regional analysis was carried out for the 2001/02 BCS, and provided estimates of the proportion of people using different types of drugs for the Government Office Region (GOR) of London which are shown in the table.

Table: Proportion of people aged 16 to 59 in the London GOR who used (a) heroin (b) marijuana (c) cocaine and (d) ecstasy in 2001–02 according to the British Crime Survey

	Percentage
Heroin	0.1
Marijuana	14.0
Cocaine	4.2
Ecstasy	3.5

Estimates of the number of drug users by region have not been made. There are also no directly comparable estimates for drug use by region published for earlier years. However, comparable figures for the prevalence of drug use in London will be included in a report of the drug use findings from the 2003–04 BCS to be published shortly.

It should be noted that, as a household survey, the British Crime Survey inevitably excludes people resident in institutions such as prisons, the army, student halls of residence, residential drug treatment centres and the homeless. The exclusion of these groups may result in an underestimation of drug taking prevalence.

Mr. Byrne: To ask the Secretary of State for the Home Department how many prosecutions for selling drugs where there was evidence of drug selling near schools there were in *(a)* Birmingham, *(b)* Bristol, *(c)* Leeds, *(d)* Liverpool, *(e)* Manchester, *(f)* Newcastle, *(g)* Nottingham and *(h)* Sheffield in the last year for which figures are available. [214040]

Caroline Flint: It is not possible from the information held on the Home Office Court Proceedings database to identify whether a person was proceeded against for selling drugs outside a school, as the circumstances of the offence are not collected centrally.

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions for *(a)* dealing in and *(b)* being in possession of (i) cocaine and (ii) LSD (A) Essex police and (B) Southend police have brought successfully in each year since 1997. [211438]

Caroline Flint: Data for cocaine and LSD drug possession and dealing prosecutions are currently not collated in the format requested.

Data on the number of known drug offenders found guilty or cautioned for cocaine and LSD drug offences, and the number of possession and dealing offences in the Essex police force area, are available in the appropriate sections in the Area tables of the "Drug Seizure and Offender Statistics, United Kingdom, 2001 and 2002", (the most recent year for which figures are currently available). Copies are available in the Library.

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions for *(a)* dealing in and *(b)* being in possession of (i) ecstasy and (ii) heroin (A) Essex police and (B) Southend police have brought successfully in each year since 1997. [211439]

Caroline Flint: Data for ecstasy and heroin drug possession and dealing prosecutions is currently not collated in the format requested.

Information on the number of known drug offenders found guilty or cautioned for ecstasy and heroin drug offences and the number of possession and dealing offences in the Essex police force area are available in the appropriate sections in the Area tables of the "Drug Seizure and Offender Statistics, United Kingdom, 2001 and 2002", (the most recent year for which figures are currently available). Copies are available in the Library.

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions for *(a)* dealing in and *(b)* being in possession of (i) amphetamines and (ii) cannabis (A) Essex police and (B) Southend police have brought successfully in each year since 1997. [211440]

Caroline Flint: Data for amphetamines and cannabis drug possession and dealing prosecutions is currently not collated in the format requested.

Information on the number of known drug offenders found guilty or cautioned for amphetamines and cannabis drug offences and the number of possession and dealing offences in the Essex police force area are available in the appropriate sections in the Area tables of the "Drug Seizure and Offender statistics, United Kingdom, 2001 and 2002", (the most recent year for which figures are currently available). Copies are available in the Library.

EU Committees

Angus Robertson: To ask the Secretary of State for the Home Department how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Advisory Committee on the protection of

animals used for experimental and other scientific purposes met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215406]

Caroline Flint: There were no meetings of the Advisory Committee on the protection of animals used for experimental and other scientific purposes during the Italian, Irish and Dutch Presidency of the EU.

Article 22 (3) of Directive 86/609/EEC (on the approximation of laws, regulations and administrative provisions of the member states regarding the protection of animals used for experimental and other scientific purposes) provides for the Commission to establish

> "a permanent consultative committee within which the member states would be represented, which will assist the Commission in organising the exchange of appropriate information, while respecting the requirements of confidentiality, and which will also assist the Commission in the other questions raised by the application of this Directive."

The Commission made a decision on 9 February 1990 (90/67/EEC) for setting up the Advisory Committee on the Protection of Animals for Experimental and Other Scientific Purposes under Article 22 of the Directive, including provision for representation and working methods. However, the Committee has never been established. The Commission has made a recommendation for the Directive to be revised. In its initial comments on what amendments might be considered, the United Kingdom has suggested that the Commission should consider either dispensing with or establishing the Advisory Committee.

Angus Robertson: To ask the Secretary of State for the Home Department how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the implementation of the programme training, exchanges and co-operation in the field of asylum, immigration and crossing of external borders (Odysseus) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215411]

Mr. Browne: The Odysseus funding programme expired in 2002 and was replaced by a funding programme known as ARGO. The Management Committee of ARGO last met on 5 November 2003 in Brussels. The UK was represented at this Committee by a Home Office official and an official from the UK Permanent Representation to the EU in Brussels. The Committee did not meet during the Irish or Dutch Presidencies of the EU.

Angus Robertson: To ask the Secretary of State for the Home Department (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Committee for the implementation of the incentive, exchange, training and co-operation programme for combating trade in human beings and the sexual exploitation of children (STOP) and (ii) Committee for the implementation of the programme of incentives and exchanges for legal practitioners (Grotius general and criminal) met; when and where each meeting took place; what UK Government expert was present at each meeting; and if he will make a statement; [216721]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the implementation of the incentive, exchange, training and co-operation programme for the prevention of crime (Hippocrates) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement; [217244]

(3) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the Joint Action establishing a programme of exchanges, training and co-operation for persons responsible for action to combat organised crime (Falcone) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [217245]

Caroline Flint: The STOP II, Oisin II, Falcone, Hippocrates and Grotius (general and criminal) funding programmes expired on 31 December 2002. Their Management Committees last met on 23 and 24 July 2002 to agree the successful projects for funding for that final year. They have since been replaced by a single funding programme known as AGIS.

During the period 1 July 2003 to 31 December 2004 the AGIS Management Committee met three times. On 14 October 2003 it met to discuss the draft annual work programme and call for bids for 2004. On 27 May 2004 it discussed the evaluation of bids for 2004. On 16 September 2004 it met to discuss the draft annual work programme and call for bids for 2005. Before each meeting the Home Office conducted preparatory consultations with past bidders, stakeholders, agencies and devolved Administrations to discuss the UK's position in the Committee.

The Committee meetings take place in Brussels. The UK is generally represented at meetings of these Committees by Home Office officials and an official from the UK Permanent Representation to the EU in Brussels.

The composition of the UK delegation is always agreed beforehand and it is possible for Scottish Executive officials to attend meetings of the Committees as part of the UK delegation.

Europol

Mr. Hayes: To ask the Secretary of State for the Home Department if he will make a statement on Initiative 2004/C 317/06, OJ C317 of 22 December 2004, the designation of Europol as the central office for combating euro counterfeiting; what additional responsibilities Europol officers will have; what additional rights ensue with regard to *(a)* activities in the United Kingdom, *(b)* required liaison by UK officers, *(c)* obligations by UK courts and *(d)* the charging of criminals and the location of their hearings; and for what reasons the UK has agreed to sponsor this initiative. [215239]

Caroline Flint: The initiative to designate Europol as the central office for combating euro counterfeiting is still being discussed in the Council of Ministers. Its aim is to make Europol a central point at which EU member states and third countries can share information in relation to euro counterfeiting.

Euro counterfeiting is a growing area of crime. The UK Government considers that this initiative would improve the effectiveness of the fight against euro counterfeiting and consequently agreed to co-sponsor it.

The designation will not affect the responsibilities, rights or powers of Europol officers or Europol staff in the UK or elsewhere.

The Bank of England is the designated "National Central Office" in the UK and as such acts on behalf of the European Central Bank in the UK for matters relating to the counterfeiting of euro banknotes. UK officers send any counterfeit currencies found in the UK to the National Criminal Intelligence Service in the first instance. Counterfeit euros or English sterling are then sent on to the Bank of England which will represent the European Central Bank in court proceedings in the UK. UK officers supplying or requesting information about euro counterfeiting would liaise with Europol staff in the usual way. The initiative creates no new obligations for the UK courts, or in respect of charges or the location of hearings. Charges may be brought in the UK courts for euro counterfeiting crimes.

Mr. Hayes: To ask the Secretary of State for the Home Department if he will list the raids which have been conducted by Europol in the United Kingdom in the last 10 years. [216447]

Caroline Flint: Europol is not an operational police force and its staff do not have operational powers. Europol does not conduct any raids.

Since the UK recently ratified the 2002 "Protocol amending the convention on the establishment of the European Police office (Europol Convention) and the Protocol on the privileges and immunities of Europol, the members of its organs, the deputy directors and the employees of Europol", Europol staff members are able to be present when joint investigation teams carry out coercive measures. However they will not have any operational powers when they are present in those situations.

Extradition (United States)

Miss McIntosh: To ask the Secretary of State for the Home Department what steps he is taking to ensure reciprocity of extradition arrangements with the United States, following the recent agreement allowing British nationals to be handed over to the US authorities to face charges for any criminal offence. [217291]

Caroline Flint: Her Majesty's Government are satisfied that the extradition treaty concluded with the USA on 31 March 2003 is broadly reciprocal, and that there are sufficient safeguards in the treaty and in the Extradition Act 2003, which governs extradition requirements in the UK, to prevent unfairness.

The arrangements apply only to serious criminal charges, as defined in the Treaty and the Extradition Act 2003, these being punishable under the laws of both States by deprivation of liberty for a period of one year or more. This modernises the definition of an extradition offence in line with international practice. Both nations have been prepared to extradite their own citizens to each other, and to other states with whom they have had arrangements, since the 19th century.

Andrew Mackinlay: To ask the Secretary of State for the Home Department when the House was informed of the content of the treaty amendment agreed in 2003 between the USA and the United Kingdom relating to extradition; and if he will place a copy of the treaty amendment in the Library. [217775]

Caroline Flint: The text of the treaty was presented to Parliament in May 2003, and was published as a Command Paper on 22 May 2003. A copy of the new treaty was placed in the Library.

Andrew Mackinlay: To ask the Secretary of State for the Home Department what the URL is for the internet text of the US/UK extradition treaty as amended in 2003; and if he will make a statement. [217777]

Caroline Flint: The link for the US/UK bilateral extradition treaty can be found on the Foreign and Commonwealth Office website, at www.fco.gov.uk. The document is available in pdf format under the "Command Papers" section on the FCO site.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many deaths were caused by *(a)* legally held and *(b)* illegally held firearms in each year since 1996. [210009]

Caroline Flint: There have been concerns over the quality of this data and, as a result, it has not been published. Because of these concerns, and following consultation with the police service, this data item ceased to be collected centrally from 1 April 2004.

Mr. Djanogly: To ask the Secretary of State for the Home Department how many civilians have been issued with a licence to own a pistol for self-defence pursuant to section 5 of the Firearms Act 1968 in England and Wales in each of the last five years, broken down by county. [215779]

Caroline Flint *[holding answer 10 February 2005]:* None.

Forensic Science Service

Mr. Edwards: To ask the Secretary of State for the Home Department (1) if he will make a statement on the future of the Forensic Science Service; [216824]

(2) what representations he has received on the future of the Forensic Science Service. [216825]

Caroline Flint: As my statement of 11 January made clear, it is the Government's intention to transform the Forensic Science Service (FSS) into a wholly owned Government company (GovCo) during the course of this year. It is intended that GovCo should be a success, but we recognise that, in future, it may need access to private sector capital and skills in order to meet its full potential.

I recognise that there have been a range of representations expressing concern about our proposals for the FSS, but my statement made clear the need for change in the face of increased competition, the emergence of new technology and the action of the police service to achieve strategic market management.

Identity Cards

Mr. Weir: To ask the Secretary of State for the Home Department (1) what arrangements he plans to put in place for Swedish citizens resident in the UK in relation to identity cards and access to public services; [218023]

(2) whether the Danish biometric passport will be an accepted form of identification for Danish citizens in the UK to access public services; [218024]

(3) whether EU citizens will be required to *(a)* register for and *(b)* use a UK identity card to access public services in England and Wales. [218025]

Mr. Browne: In accordance with EU law, all EU nationals who come to stay in the UK from a specified date for more than three months will be required to enrol on the National Identity Register. The specified date will be set by Parliament in regulations. For those EU nationals who are already resident, the scheme would become compulsory if it became compulsory for British citizens to register, though EU nationals could choose to register voluntarily. Any EU nationals who are not required to register may, as now, use their national passport or identity card as proof of identity. EU legislation will require the incorporation of digital facial image and fingerprint biometrics from 2008. It is for each public service to decide how it will require its users to demonstrate their identity, irrespective of nationality. The Identity Cards Bill provides powers for Parliament to approve regulations specifying how individual non-devolved public services may use the Identity Cards Scheme to verify identity.

Inland Revenue

Mr. Gray: To ask the Secretary of State for the Home Department whether his Department conducted an assessment of the impact that the measures in the Regulation of Investigatory Powers Bill would have upon the activities of the Inland Revenue, including its use of third party members of the public assisting it in investigating taxpayers' compliance with Revenue law. [215657]

Caroline Flint: The inclusion of the Commissioners of Inland Revenue, in Schedule 1 of the Regulation of Investigatory Powers Bill, as relevant authorities for the purposes of section 28 (the authorisation of directed surveillance) and section 29 (the authorisation of covert human intelligence sources) was on the basis of the Inland Revenue having identified a necessary and proportionate requirement to authorise the conduct of directed surveillance and the use of covert human intelligence sources.

Inquests (Teesside)

Vera Baird: To ask the Secretary of State for the Home Department how many inquests in the jurisdiction of the Teesside coroner were heard in *(a)* August, *(b)* September, *(c)* October, *(d)* November and *(e)* December 2004 by the (i) coroner, (ii) deputy coroner and (iii) assistant deputy coroner. [212063]

Paul Goggins: The information requested is given in the table.

HM Coroner Teesside—Number of cases

	Inquests heard by:		
	Coroner	*Deputy coroner*	*Assistant deputy coroner*
August 2004	18	2	2
September 2004	25	2	12
October 2004	16	3	4
November 2004	22	2	2
December 2004	17	5	3
January 2005	16	3	3

This table includes all inquests concluded in the relevant months (i.e. a verdict delivered, or the coroner has declared that the inquest is not to be resumed after an adjournment under Section 16 of the Coroners Act 1988).

International Organisations Bill

Mr. Hayes: To ask the Secretary of State for the Home Department whether Europol informants would be protected by the provisions contained in the International Organisations Bill, with particular reference to clause 5 (3) *(b)*. [216467]

Caroline Flint: Europol is not operational and has no operational powers. It supports law-enforcement agencies in combating serious organised crime. Europol does not use informants, and so there are no issues of privileges and immunities as outlined in the International Organisations Bill.

Justice and Home Affairs Council

Mr. Hood: To ask the Secretary of State for the Home Department what the outcome was of the Justice and Home Affairs Council held on 25 and 26 October 2004; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [216665]

Caroline Flint: My right hon. Friend the Home Secretary, Cathy Jamieson (Scottish Minister for Justice) and I represented the United Kingdom at the Justice and Home Affairs Council in Luxembourg on the 25–26 October 2004.

A list of "A" points approved (with the exception of items 11 and 32, which were withdrawn) at the Council has been placed in the Library (Document PTS A 50 13815/04). The UK tabled a Declaration on item 1 (European Border Agency), in relation to its participation and its position regarding Gibraltar.

The main discussion at the Council centred around the new [illegible] annual work programme, the Hague Programme, which follows on from the programme agreed at the Tampere European Council in 1999.

The Home Secretary and I welcomed the Presidency's emphasis on evaluation and implementation within the Programme and the importance of delivering work at an EU level which was of demonstrable benefit to the EU's citizens. There was also a useful focus on key areas of work which the UK had been pushing for: on closer police co-operation and more intelligence led policing; on mutual recognition of judicial decisions, respecting the diversity of member states' legal traditions; on

biometrics and strengthening our external borders; and on working more closely together to combat terrorism and organised crime.

In areas where the draft text was less welcome, such as on asylum and parts of criminal justice, we intervened robustly to protect the United Kingdom's interests. The final draft of the Programme went to the European Council on 5 November for final agreement. The final draft accommodated our key priorities and provided a strong foundation for work at an EU level over the next five years which will be beneficial for the UK.

With regard to other issues on the agenda, the Presidency put forward a compromise solution on the time scale for including biometrics in passports. This would be 18 months from adoption of the Regulation for a first identifier (digital facial image) and 36 months from adoption for the second (fingerprint). I was able to support this as a means to ensure greater security for our borders. The text of the draft Regulation was agreed in principle.

The Counter-Terrorism Co-ordinator (De Vries) outlined to the Council the progress which had been made on "peer evaluations". An interim report, covering the 15 "old" member states, was discussed at the Council on 2–3 December. A similar report on the "new" member states will be prepared during 2005.

The Council did not reach an agreement on the issue of proposed amendments to the Framework Decision on Ship Source Pollution. The Presidency concluded that the issue would be sent to the European Council for further discussion.

The Commission presented its initiative for a Council Decision on the exchange of information from criminal records. This was a first step in meeting the mandate from the March European Council for a register of convictions and disqualifications. The Presidency confirmed that the Commission proposal would be further discussed in the Working Group.

In considering other business, the Presidency confirmed its intention to adopt Council Conclusions on improving access to durable solutions and on the development of a common readmission policy, which were subsequently adopted at the General Affairs and External Relations Council on 2 November.

The Commission reported on the evaluation of the Drugs Action Plan for 2000–04. The evaluation assessed the impact of achievements to date and assessed the areas where more could be done. The Commission called for a future strategy to include clear aims, operational indicators and responsibilities, in order to meet these challenges.

Also during the Council, on behalf of the UK, I signed the agreement between Switzerland and the EU and EC, regarding their participation in the Schengen acquis. This means that they now join Norway and Iceland in attending Mixed Committees.

Knives

Dr. Kumar: To ask the Secretary of State for the Home Department what plans his Department has to outlaw the sale of knives to those under the age of 18 years. [215873]

Caroline Flint: As we announced on 15 December 2004 the Government are looking at a range of measures, including a ban on the sale of knives to the under 18s, to tackle knife crime. We expect to say more shortly about how we will take this forward.

Mental Health

Mr. Hoyle: To ask the Secretary of State for the Home Department what recent discussions his Department has had with the Department of Health concerning people who have mental health problems. [216215]

Paul Goggins: The Home Office is working in partnership with the Department of Health on a range of issues concerning mental disorder.

We are concerned to ensure that mentally disordered people who commit offences are not sent to prison inappropriately, by promoting court diversion schemes and flexible sentencing options for the courts. We are working together to develop services for dangerous offenders with severe personality disorder, and we are improving mental health services in prisons through the development of mental health in-reach services.

To ensure that these developments are managed in a co-ordinated fashion, a new cross cutting Directorate was launched on 1 October 2004, incorporating relevant organisations from both Departments.

Operation Reptile

Paul Flynn: To ask the Secretary of State for the Home Department what the cost of Operation Reptile was. [216053]

Caroline Flint: The costs arising from the Operation to date are £130,000.

Police

Mr. Hoyle: To ask the Secretary of State for the Home Department how many *(a)* police dogs and *(b)* police horses are available to Lancashire police. [216217]

Caroline Flint: Lancashire constabulary tell me that they have 67 police dogs and 17 police horses available in their force area. They also use police horses from other forces, through mutual aid arrangements, for crowd management.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many police officers are trained to use *(a)* guns and *(b)* taser guns. [216216]

Caroline Flint: The number of Authorised Firearms Officers (AFOs) trained to use conventional firearms for 2003–04 was 6096. The Home Secretary has approved the M26 Taser in England and Wales for use by Authorised Firearms Officers as a less lethal alternative in circumstances in which a firearms authority has been granted in accordance with criteria laid down in the ACPO Manual of Guidance on Police Use of Firearms. We do not hold information centrally on the number of Authorised Firearms Officers who have been trained to use tasers.

Mr. Kevan Jones: To ask the Secretary of State for the Home Department (1) how many convictions for drug-related crime have been secured in Durham since 2001; [214463]

(2) how many convictions for drug-related crime have been secured in North Durham since 2001. [214468]

Caroline Flint: Official conviction figures include statistics on convictions for drugs offences, such as possession, supply, and on property crimes such as burglary, but do not contain information on the offender's drug habits. It is therefore not possible to estimate the volume of convictions which are linked to the use of drugs or to the operation of drug markets.

Information on the number of known drug offenders found guilty or cautioned for drugs offences is available for police force areas only and it is not possible therefore to give an estimate for North Durham alone. For the Durham police force area, there were 1,180 convictions for drugs offences in 2001. The equivalent estimate for 2002 is 1,200. This information is available in the area tables of the "Drug Seizure and Offender Statistics, UK, 2001 and 2002" filed in the House Library.

Proceeds of Crime Act

Chris Ruane: To ask the Secretary of State for the Home Department how much money has been recovered under the Proceeds of Crime Act 2002; and if he will introduce further legislation to increase the powers of the *(a)* police and *(b)* courts to seize all (i) property and (ii) money gained from illegal activities. [210436]

Caroline Flint: The total amount of money recovered in the United Kingdom under the Proceeds of Crime Act 2002 since the Act came into force on 24 February 2003 is £25,484,192. The Proceeds of Crime Act already allows for the seizure of cash and the freezing of all property and assets that are derived from crime. The value of property and assets are then recovered following their sale. The Act contains significant new powers to investigate and recover criminal assets. It established a dedicated Assets Recovery Agency with new powers of civil recovery and taxation of criminal assets. We are determined that the powers in the Act will be used to the full to recover the proceeds of crime. There are no plans at this time to introduce further powers on recovering the proceeds of crime.

Mr. David Marshall: To ask the Secretary of State for the Home Department what the value of all recoveries made under the Proceeds of Crime Act has been since it came into effect. [217382]

Caroline Flint: The total amount of money recovered in the United Kingdom under the Proceeds of Crime Act 2002 since the Act came into force on 24 February 2003 is £28,700,501.

Replica Guns

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what restrictions there are on the sale of replica guns; and if he will make a statement. [213878]

Caroline Flint *[holding answer 3 February 2005]:* Under the Firearms Act 1982, imitation firearms that are readily convertible to fire live ammunition are treated in law as real, working guns and are therefore prohibited or require a firearms certificate. The Criminal Justice Act 2003 introduced a new mandatory minimum sentence of five years imprisonment for the unlawful sale or possession of prohibited firearms. There are otherwise no restrictions on the sale of imitation firearms, some of which are capable of discharging low powered projectiles and some not. Any imitation sold as a toy must not have an energy level in excess of 0.08 joule.

The Anti-social Behaviour Act 2003 introduced a new offence of carrying an imitation firearm in public without reasonable excuse. The police believe that this is a significant contribution to dealing with problems of misuse as they can now challenge anyone seen in public with an imitation and can arrest them if they do not have a reasonable explanation. It is also an offence to possess an imitation firearm with intent to cause fear of unlawful violence.

We are looking at the need for further controls as part of our current comprehensive review of firearms legislation.

Security Industry Authority

Mr. Andrew Mitchell: To ask the Secretary of State for the Home Department what budget has been allocated to the Security Industry Authority in each of the last two years [201731]

Caroline Flint: The Security Industry Authority (SIA) became a legal entity on 1 April 2003. It became operational on 1 March 2004 with the commencement of the rollout of door-supervisor licensing. It is intended that SIA will, in due course, be self-funding from fee revenue.

The level of grant in aid paid (or due to be paid) to the SIA in the financial year 2003–04 was £7.113 million; this was increased to £25.995 million in the current financial year, 2004–05.

Serious Organised Crime Agency

Mr. Andrew Mitchell: To ask the Secretary of State for the Home Department what the reasons were for the decision that National Crime Squad and National Criminal Intelligence Service officers transferring to the Serious Organised Crime Agency should have the status of holder of the Office of Constable and the powers of police officers. [206685]

Caroline Flint *[holding answer 21 December 2004]:* All permanent staff transferring to the Serious Organised Crime Agency (SOCA) from precursor agencies will become SOCA employees, with any previous office held in suspense. They may be designated with police, customs or immigration powers according to operational needs (subject to suitability and training).

Staff will be able to develop careers across the whole range of SOCA activities, and the Agency will be able to make the most effective use of the experience, skills and potential available to it.

Speeding

David Taylor: To ask the Secretary of State for the Home Department at what speed drivers found guilty of speeding offences automatically qualify for *(a)* speed awareness workshops and *(b)* refresher driving courses; and if he will make a statement. [216807]

Caroline Flint: Attendance at a speed awareness workshop or refresher driving course is offered to drivers by some forces as an alternative to prosecution. It is a matter for individual chief officers of police to decide in what circumstances such an offer is made, including at what speed a driver has been recorded as travelling.

Mark Tami: To ask the Secretary of State for the Home Department how many individuals received *(a)* points penalties and *(b)* convictions in respect of speeding offences in each of the last five years. [211879]

Caroline Flint: Available data, given in the tables, shows the number of fixed penalty notices issued and convictions and endorsements imposed at all courts for speeding offences within England and Wales from 1998 to 2002 (latest available).

2003 data will be available in March 2005.

Fixed penalty notices issued, for speeding offences[1], 1998–2002, England and Wales

	Number issued (Thousand)
1998	781
1999	825
2000	989
2001	1,233
2001	1,505

[1] Including speeding offences detected by camera.

Total findings of guilt and endorsements[1] without disqualifications imposed at all courts, for speeding offences[2], 1998 to 2002, England and Wales

	Number of offences (Thousand)				
	1998	*1999*	*2000*	*2001*	*2002*
Total findings of guilt	153	154	141	136	125
Endorsements without disqualification	136	136	126	116	106

[1] Excludes penalty points given under section 35 of the Road Traffic Offenders Act 1988 (totting up system).
[2] Including speeding offences detected by camera

Taser Guns

Dr. Kumar: To ask the Secretary of State for the Home Department what assessment his Department has made of the health risks posed by the taser guns to be used by the police. [215876]

Caroline Flint: The independent medical statement on Taser provided by the Defence Scientific Advisory Council (DSAC) Sub Committee on the Medical Implications of Less Lethal Weapons (DOMILL) concludes that the risk of life threatening and other serious injuries is considered very low. Copies of the statements provided by DOMILL were placed in the Library of the House on 15 September 2004.

Dr. Kumar: To ask the Secretary of State for the Home Department (1) what controls will be placed on the use of taser guns by police; [215877]

(2) in what circumstances taser guns may be used by police. [215878]

Caroline Flint: The Home Secretary has approved the M26 Taser in England and Wales for use by Authorised Firearms Officers as a less lethal alternative in circumstances in which a firearms authority has been granted in accordance with criteria laid down in the ACPO Manual of Guidance on Police Use of Firearms.

Halliday Report

Mr. Chope: To ask the Secretary of State for the Home Department when he expects the Halliday report on traffic offences resulting in death or serious injury to be published. [213159]

Caroline Flint *[holding answer 1 February 2005]:* The Home Office consultation paper "Review of Road Traffic Offences involving Bad Driving" was published on 3 February.

Traffic Wardens

Tom Cox: To ask the Secretary of State for the Home Department how many traffic wardens for which his Department has responsibility operate within the Greater London area; and how many there were in each of the last five years. [214383]

Caroline Flint: The total numbers of traffic wardens operating within the Greater London area and employed by the Metropolitan Police Authority in each of the last five years are given in the table:

Traffic warden strength

	Number
1999–2000	[1]828
2000–01	698
2001–02	638
200203	650
2003–04	479

[1] Prior to boundary changes on 1 April 2000 a small number of Metropolitan police traffic wardens operated in areas which were outside Greater London but within the Metropolitan police district.

The Police Authority for the City of London has not employed any traffic wardens during the years for which details were requested.

Uninsured Drivers

Mr. Hammond: To ask the Secretary of State for the Home Department if he will take steps to ensure that penalties for uninsured drivers are commensurate with the financial gain achieved by not paying insurance premiums. [216523]

Caroline Flint: The courts set fines to reflect the seriousness of the offence while taking into account the means of the offender. Therefore the fines imposed for driving while uninsured are often lower than £200, the level of the fixed penalty notice. This may be addressed in part by the Management of Offenders and Sentencing Bill. It proposes a simple statutory methodology for calculating the amount of the fine. In addition courts will have the discretion to adjust the amount of the fine up to the level of the fixed penalty that otherwise would have been imposed.

The Criminal Justice Act 2003 introduces changes to community penalties offering courts much tougher sentences than are currently available. They will be

available as an alternative to fines where the court considers the offence serious enough to warrant a community punishment.

Visa Extensions (Students)

Mr. Rendel: To ask the Secretary of State for the Home Department what assessment he has made of the effect of increased student visa charges on international applications to UK universities with particular reference to science and technology and engineering courses and departments within UK universities. [214569]

Mr. Browne: Following on from the Home Office consultation document 'Review of Charges for Immigration Applications', I am introducing new fees for a range of immigration applications. On 7 February I published a summary and analysis of the consultation responses, the supporting Regulatory Impact Assessments and an analysis of the likely impact of the new charges on international student numbers. These documents are available on the Home Office website at: www.homeoffice.gov.uk.

DEPUTY PRIME MINISTER

Affordable Housing

Martin Linton: To ask the Deputy Prime Minister what steps he is taking to increase the supply of affordable housing in London over the next five years. [218526]

Keith Hill: The Office of the Deputy Prime Minister is investing nearly £1.5 billion through the Housing Corporation's Approved Development Programme in 2004–2006 to provide over 21,000 affordable homes in London. Our consultation 'Housing investment in the Regions' on the regional split of housing investment for 2006–08 proposed that London should receive £2.3 billion to support local authority and Registered Social Landlord housing programmes, a significant proportion of which would be for affordable housing. We expect to announce the outcome of the consultation in the near future.

In addition, English Partnerships London-Wide Initiative will provide a further 2,000 affordable homes for sale over the next five years, of which half will be available under the First Time Buyers Initiative announced by my right hon. Friend the Deputy Prime Minister on 24 January 2005, *Official Report*, columns 21–25.

Antisocial Owner-occupiers

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister what plans he has to introduce legislation to deal with antisocial owner-occupiers. [219331]

Keith Hill: The Government have no plans to introduce legislation to deal with antisocial behaviour specifically in relation to owner-occupiers. Existing measures are designed to work as a package across housing tenure, so antisocial behaviour can be addressed no matter where it occurs.

"Tenure-neutral" measures include Acceptable Behaviour Contracts, Anti-social Behaviour Orders, injunctions under Section 222 of the Local Government Act 1972 and measures to tackle noise nuisance under the Environmental Protection Act 1990.

Building Regulations

Mr. Wiggin: To ask the Deputy Prime Minister what *(a)* changes and *(b)* additions have been made since 1993 to the Building Regulations; when each (i) change and (ii) addition came into effect; and what the estimated change to (A) the annual cost of new house construction and (B) the overall annual cost of construction resulting from each change or addition was. [218321]

Phil Hope: The principal Building Regulations were revised in 1991 and 2000, with amendments in each year except 1993 and 1996. A list of the relevant statutory instruments, is published on the Office of the Deputy Prime Minister's website and can be reached at http://www.odpm.gov.uk/stellent/groups/odpm_buildreg/documents/page/odpm_breg_600270.hcsp.

The text of all the instruments, including their detailed content and the date they came into force is available on the website of Her Majesty's Stationery Office by search at: http://www.legislation.hmso.gov.uk/stat.htm The text of and amendments to the 2000 Regulations are also available from the Office of the Deputy Prime Minister's webpage mentioned above.

Compiling estimates of the costs of all the actual changes since 1993 would incur disproportionate costs, as these are not kept as a running record. However, all proposals for change have been subject to a cost benefit or regulatory impact assessment to ensure they are justified.

Mr. Wiggin: To ask the Deputy Prime Minister what *(a)* additions and *(b)* changes to building regulations are under development; when each is planned to take place; and what the estimated change to the annual cost of new house construction resulting from each would be. [218358]

Phil Hope: The following parts of the Building Regulations are under review:

B (Fire safety)—public consultation expected this spring.

F (Ventilation)—revised Approved Document expected to be published summer 2005, to come into force 31 December 2005.

G (Hygiene)—public consultation expected early 2006.

L (Conservation of fuel and power)—amendment to Approved Document (L1—condensing boilers) April 2005; revised regulations expected to be made summer 2005, to come into force 31 December 2005.

M (Access and use of domestic buildings)—public consultation expected summer 2006.

In addition, proposals for regulations on sustainability and security are being developed following the passing the Sustainable and Secure Buildings Act 2004.

For parts F and L a partial regulatory impact assessment, including estimated costs of the various options for change, was published last year as part of the consultation exercise on the Office of the Deputy Prime Minister's website and is available, as part of the

relevant consultation document, at: http://www.odpm.gov.uk/stellent/groups/odpm_control/documents/contentservertemplate/odpm_index.hcst?n=168&l=1.

However, until final decisions have been taken, it would be premature to regard these estimates as definitive. For the remaining parts listed above, a partial regulatory impact assessment will be published which will assess the estimated costs and benefits of recommended changes, as part of the public consultation.

Business Rates (London)

Sarah Teather: To ask the Deputy Prime Minister what estimate he has made of the likely average increase in business rates for 2005 for commercial properties in each London borough following revaluation of properties in October 2004. [218832]

Mr. Raynsford: No such estimate has been made.

Sarah Teather: To ask the Deputy Prime Minister (1) how many properties in each London borough will benefit from the new business rate relief scheme, based on the revaluation of commercial property in 2004; [218833]

(2) what the average relief given to businesses under the new business rate relief scheme will be in each London borough. [218834]

Mr. Raynsford: The information requested is not held centrally and could be provided only at disproportionate cost.

Sarah Teather: To ask the Chancellor of the Exchequer what the average increase in rateable value for commercial properties in each of the London boroughs is following the revaluation of businesses in October 2004. [218831]

Dawn Primarolo: The Valuation Office Agency has published an analysis of the Draft Rating Lists, which were published on 1 October 2004. An analysis of the changes in rateable value, arising from the revaluation, can be found on their website www.voa.gov.uk under Business Rates Information—Non Domestic Revaluation 2005 Draft Lists Statistics.

Consent Regimes

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 9 February 2005, *Official Report*, column 1576W, on consents, if he will list the consent regimes that regulate the activities of local government that the Government have resolved to maintain. [217867]

Mr. Raynsford: Of those consent regimes identified by the 1997 Efficiency Scrutiny, the Office of the Deputy Prime Minister has no immediate plans to deregulate the 56 powers listed as follows, 36 of those 56 powers were recommended for retention by the scrutiny. Our announcement on consent regimes in September 2002 provided explanations for our retention of the additional 20 powers.

Description	*Number of powers*
Power to consent to employment based teacher training programmes	1
Power to approve the placing of a child with special needs in a non-approved independent school	1
Power to consent to use of ionising radiation in schools and colleges	1
Approval of the provision of welfare services	5
A power to approve the licensing of secure accommodation for children	1
A power to approve an order to direct that a disease is locally notifiable, and to vary or revoke such an order	1
Agreements between authorities to undertake public health functions at airports and ports	1
A power to consent to the provision by a police authority of advice and assistance to international organisations and overseas bodies	1
A power to implement a proposal to establish, vary or revoke a sea fisheries district order	1
Power to approve a reorganisation of small holdings	1
A power to consent to the exercise of land drainage powers by local authorities	1
Power to consent to the delegation of housing management to an agent	1
Power to approve a variation to the model registration scheme for houses in multiple occupation	1
Power to set statutory upper limits on defective housing grants, but also to relax those limits in certain circumstances	3
Housing Act 1985, s294. Extinguishment of public rights of way over land acquired under s290 (land acquired for clearance)	1
Control over areas of special control of advertisements	1
A power ("Article 4 Direction") to consent to withdrawal of permitted development rights	1
A power to consent to various planning matters in respect of the local planning authority itself, other than "planning permission to develop land"	1
Three powers to confirm various orders revoking, modifying or otherwise affecting existing planning permissions or existing uses of land or existing buildings or works	3
A power to confirm orders revoking or modifying listed building consent	1
Approval of orders removing caravan site licence exemptions	1
A power to confirm an order giving access to open country	1
Confirm orders amending definitive maps	1
Confirm public path orders and orders to extinguish or divert footpaths or bridle-ways to enable development	2
A power to approve industrial improvement areas	1
A power to confirm, amend, or revoke limestone pavement orders	1
A power to introduce a requirement to seek consent relating to management schemes for marine sites involving relevant local authorities	1
A power to consent to capitalisation of redundancy costs	1
A power to consent to the sale or appropriation of statutory allotment land, or its use for other purposes	1
A power to consent to commencing certain statutory nuisance proceedings in relation to prescribed industrial processes	1
Police use of wheel clamps on highways in a local traffic authority's area	1
Approval of the transfer of responsibility for enforcing on-street parking controls from the police to local traffic authorities	1
Confirming orders stopping up or diverting right of way for alterations to side roads	1
Two powers to consent to sale or financial restructuring of local authority-owned bus companies	2
Construction of bridges/tunnels on navigable waters/ to divert a non-navigable watercourse	2
Four powers to confirm traffic regulation orders (TROs) and other measures where the Secretary of State is the highway authority	4

Description	Number of powers
Altering tolls at statutory undertakings	1
A power to approve TROs on Crown roads	1
Three powers to consent to establish/maintain or acquire shares in an aerodrome, or operate an ancillary business	3
A power to approve non-standard traffic calming measures	1

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the consent regimes that regulate the activities of local government that have been created since May 1997. [217785]

Mr. Raynsford: The information requested is not held centrally and could be provided only at disproportionate cost.

Council Tax (Second Homes)

Mr. Edward Davey: To ask the Deputy Prime Minister what estimate he has made of total council tax revenue raised by local authorities from charging on second homes in 2004–05. [217576]

Mr. Raynsford: It is provisionally estimated that just over £220 million is being raised by local authorities from charging council tax on second homes in 2004–05.

Departmental Policies

Mr. Gordon Marsden: To ask the Deputy Prime Minister if he will set out, with statistical information relating as closely as possible to the constituency, the effect of his Department's actions and policies on Blackpool, South constituency since *(a)* 1997 and *(b)* 2001. [215620]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Blackpool, South constituency through a number of programmes.

For example over the period 2001–06 Blackpool has been allocated £12.8 million Neighbourhood Renewal Fund (NRF) resources to help the local authority, in collaboration with the Local Strategic Partnership, improve services in the most deprived neighbourhoods in the area.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Blackpool council has received average annual increases in formula grant since 1997 of 5.3 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk/.

Mr. Pike: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to the Burnley constituency, the effects on Burnley of his Department's policies and actions since 2 May 1997. [214694]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Burnley constituency through a number of programmes.

For example over the period 2001–06 Burnley has been allocated £5.4 million Neighbourhood Renewal Fund (NRF) resources to help the local authority, in collaboration with the Local Strategic Partnership, improve services in the most deprived neighbourhoods in the area.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Burnley council has received an average annual increase in formula grant since 1997 of 5.2 per cent. Residents of Burnley have also benefited from Lancashire county council's average annual increase in grant of 4.4 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk/.

Mr. Chris Smith: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Maidenhead constituency, the effects on Maidenhead of his Department's policies and actions since 2 May 1997. [215971]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Maidenhead constituency through a number of programmes.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. The two local authorities in Maidenhead

constituency have received average annual increases in formula grant since 1997 of 3.8 per cent. for Windsor and Maidenhead and 5.9 per cent. for Wokingham.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk/.

Ross Cranston: To ask the Deputy Prime Minister if he will set out, with statistical evidence relating as closely as possible to the constituency, the effects of his Department's policy since 1997 on Dudley, North constituency; and if he will make a statement. [213146]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, we are determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Dudley, North constituency through a number of programmes.

For example over the period 2001–2006 Dudley has been allocated £6.5 million Neighbourhood Renewal Fund (NRF) resources to help the local authority, in collaboration with the Local Strategic Partnership, improve services in the most deprived neighbourhoods in the area.

Dudley metropolitan borough council was awarded a Liveability Fund grant worth a total of £3.4 million in March 2004. The grant is being used to support sustainable changes to the way the council delivers key environmental services and also to reward the council with capital grants for meeting agreed performance milestones.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms.

Dudley has received average annual increases in formula grant since 1997 of 5.9 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Entertainment Costs

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on entertainment by his Office in each year since 1997, broken down by *(a)* food, *(b)* alcohol, *(c)* staff and *(d)* accommodation. [204358]

Yvette Cooper: The Office of the Deputy Prime Minister was created following the machinery of Government changes on 29 May 2002. The information is not available in the form requested and could be provided only at disproportionate cost.

However, the following table shows how much the Office of the Deputy Prime Minister (Central) spent on catering, hospitality and official entertainment in 2002–03 and 2004–05.

	£
2002–03	241,124
2003–04	226,880
2004–05[1]	58,090

[1] Spend to date.

All expenditure on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in "Government Accounting".

School Fires

Jim Knight: To ask the Deputy Prime Minister how many fires in school buildings were attended by each fire and rescue authority in England and Wales during the period from 1999 to 2004. [217517]

Mr. Raynsford: The number of school fires attended between 1999–2000 and 2003–04 by Fire and Rescue services in England and Wales are tabled as follows:

Fires[1] in schools, England and Wales, 1999–2000 to 2003–04[2]

Area	*Number*
England and Wales	6,882
England	6,469
England—Non-Met Counties	3,608
Avon	126
Bedfordshire	102
Berkshire	122
Buckinghamshire	80
Cambridgeshire	73
Cheshire	113
Cleveland	138
Cornwall	22
Cumbria	66
Derbyshire	94
Devon	104
Dorset	64
Durham	76
East Sussex	103
Essex	94
Gloucestershire	38
Hampshire	194
Hereford & Worcester	72
Hertfordshire	109
Humberside	163
Isle of Wight	16
Kent	146
Lancashire	247
Leicestershire	98

Returns by Fire and Rescue services to ODPM

Fire Authorities (Leaked Information)

Mr. Drew: To ask the Deputy Prime Minister (1) what the evidential basis was for the assertions made in the letter to chairs of fire authorities in the south-west that one of them had leaked figures for the outline business case for regional control centres to the Fire Brigades Union; [218804]

(2) whether he has undertaken an investigation into how the Fire Brigades Union obtained the figures from the outline business case for regional control centres. [218805]

Mr. Raynsford: The letter in question was sent to all the chairs of Fire and Rescue Authorities (FRAs) in England. It did not accuse any specific authority of leaking information to the Fire Brigade Union (FBU) but reflected findings that the leak did not originate from an official, consultant or from the Regional Management Boards.

An internal investigation showed that the version of the Outline Business Case (OBC) that was acquired by the FBU was the same as that circulated in confidence to Fire and Rescue Authority chairs. Forensic analysis showed that at some point between it being sent out to FRAs and the FBU placing it on their website it was electronically manipulated by a technically competent person. That analysis also showed that it was not leaked by anyone at headquarters.

High Hedges

John Mann: To ask the Deputy Prime Minister what plans his Department has to offer training to local councils with regard to the high hedges provisions contained within the Anti-social Behaviour Act 2004. [218862]

Phil Hope: To assist local authorities in implementing Part 8 of the Anti-social Behaviour Act 2003—the high hedges legislation—the Office of the Deputy Prime Minister will be issuing detailed guidance, which will cover such matters as how to deal with complaints and will include model letters and forms. Additionally, we are planning to hold a number of regional workshops to which we will invite members of each local authority in England.

Mr. John Taylor: To ask the Deputy Prime Minister whether he expects antisocial behaviour legislation relating to high hedges to be implemented before Easter. [219308]

Phil Hope: The Regulations to implement Part 8 of the Anti-social Behaviour Act 2003, which gives local authorities the powers to deal with complaints about high hedges, have not yet been laid before Parliament. The Office of the Deputy Prime Minister will not, therefore, be able to bring the legislation into force before Easter. We are, however, hoping to lay the Regulations before then.

Mayoral Elections (Expense Limits)

Mrs. Spelman: To ask the Deputy Prime Minister what plans the Government have to take steps to change election expense limits for local government mayoral elections. [217781]

Mr. Raynsford: The Government have no plans to change elections expense limits for local government mayoral elections.

Local Government Employees (Medical Retirement)

Mr. Tynan: To ask the Deputy Prime Minister how many members of local government pension schemes were granted ill-health retirement in each of the last three years. [218482]

Phil Hope: The number of members granted ill-health retirement from the Local Government Pension Scheme in England and Wales in the three years commencing 2001–02 were 9,805, 7,515 and 6,784 respectively. Information about the number of ill-health retirements granted by other public service pension schemes that operate within local government is not held by the Office of the Deputy Prime Minister.

Structural Funds (East Midlands)

Keith Vaz: To ask the Deputy Prime Minister if he will list *(a)* projects and *(b)* organisations which have received EU Structural Funds in the East Midlands Objective 2 Programme, broken down by amount received. [217930]

Mr. Raynsford: The information requested is available on the website of the Government office for the East Midlands. Full details of projects and organisations that have received European Regional Development Fund (ERDF) can be viewed at:

http://www.go-em.gov.uk/european/obj2/erdf/approved.php?x=0

Projects and organisations that have received European Social Fund (ESF) can be viewed at:

http://www.go-em.gov.uk/european/obj2/esf/approved.php?x=0

The information on the website details grant which has been approved and offered to individual projects and organisations. Requests for information on up to date payments made can be obtained from the Government Office for the East Midlands as follows:

ERDF—Mark Klemba—mklemba.goem@go-regions.gsi.gov.uk

ESF—Melanie Phythian—mphythian.goem@go-regions.gsi.gov.uk

Keith Vaz: To ask the Deputy Prime Minister what assessment he has made of the East Midlands Objective 2 Programme. [217931]

Mr. Raynsford: In common with all other regions receiving EU Structural Funds under the Objective 2 Programme, the East Midlands completed a Mid Term Evaluation in October 2003 which assessed the performance of the Programme in its first four years and made recommendations to change its strategy over the second half of the programme. In addition, the programme is reviewed on an annual basis and the findings documented in an Annual Implementation Report. The 2003 Annual Implementation Report was completed in June 2004. Copies of the full report of the East Midlands Mid Term Evaluation and the Annual Implementation Report can be viewed at:

http://www.go-em.gov.uk/european/obj2/evaluation.php?x=0

Further information on the Objective 2 Programme can be obtained from Peter Holmes, Head of European Finance, Performance and Policy Team at the Government Office for the East Midlands—pholmes.goem@go-regions.gsi.gov.uk

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister for what purpose his Department requested copies of campaign material from "North East Says No" during the North East referendum period in 2004. [219076]

Mr. Raynsford: Schedule 12 of the Political Parties, Elections and Referendums Act 2000 gives designated organisations (the yes and no campaigns) the right to send a referendum address post free. The referendum addresses must be sent by the universal postal provider. The Office of the Deputy Prime Minister therefore put in place a contract with the Royal Mail in summer 2004 to deliver these referendum addresses. The total cost was just under £500,000.

To ensure that the Royal Mail had complied with the contract and delivered the referendum addresses to a high standard, the Office of the Deputy Prime Minister also had a small quality control contract with NOP. NOP contacted a sample of the electorate by telephone to ask whether they had received leaflets from the yes or no campaigns. To do this effectively, NOP had to describe the leaflets. Therefore officials in the Office of the Deputy Prime Minister requested a copy of each campaign organisation's leaflet from the Electoral Commission and explained in full the reasons for doing so. Copies of these leaflets were not sent to Ministers or special advisers.

A copy of the questionnaire used by NOP and their results has today been made available in the Library of the House.

Social Housing (Right to Buy)

Mr. Edward Davey: To ask the Deputy Prime Minister whether centrally pooled capital receipts from the sale of council homes under the Right to Buy in debt-free authorities will be used as Approved Development Programme funding. [217578]

Keith Hill: Pooled capital receipts from debt-free authorities do not form a dedicated funding stream into any particular grant or borrowing support regime, rather, the level of pooled capital receipts from debt-free authorities are taken account of when the Office of the Deputy Prime Minister is determining its level of investment in housing, including the Approved Development Programme.

TRADE AND INDUSTRY

Anti-bribery/Corruption Procedures

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 3 February 2005, *Official Report*, column 1011W, on anti-bribery/corruption procedures, if she will make a statement on the conclusions reached following comparison of the revised Export Credits Guarantee Department anti-bribery and corruption procedures and those provided by G7 counterparts. [217445]

Mr. Alexander: I refer the hon. Member to the reply I gave on 18 November 2004, *Official Report*, column 1922W.

Caviar

Janet Anderson: To ask the Secretary of State for Trade and Industry how much *(a)* wild and *(b)* farmed caviar was imported into the UK in each of the last five years, broken down by country of origin. [217989]

Alun Michael: I have been asked to reply.

The following table shows UK imports of caviar and caviar substitute for the years 2000 to 2004. Imports for wild and farmed caviar are not separately identified.

Tonnes

Product/country	*2000*	*2001*	*2002*	*2003*	*2004*	*Total*
Caviar						
Germany	14	1	10	87	69	181
France	3	1	64	9	43	120
Russia	6	7	0	—	—	12
Denmark	0	0	2	2	0	4
Greece	—	—	—	3	0	3

Tonnes

Product/country	*2000*	*2001*	*2002*	*2003*	*2004*	*Total*
Others	4	1	2	2	2	12
Caviar total	27	11	78	102	115	333

Company Law

Lynne Jones: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* next steps and *(b)* timetable for the Government's review of company law; and what proposals she is considering to change the liability of individual directors of UK companies, when a company causes social or environmental damage overseas. [218218]

Mr. Sutcliffe: Parliament has already passed the Companies (Audit, Investigations and Community Enterprise) Act 2004, and agreed the Companies Act 1985 (International Accounting Standards and Other Accounting Amendments) Regulations 2004 (SI 2004/2947). The Companies Act 1985 (Accounts of Small and Medium-Sized Enterprise and Audit Exemption) (Amendment) Regulations 2004 (SI 2004/16) are also in force. The draft Companies Act 1985 (Operating and Financial Review and Directors' Report etc.) Regulations 2005 have been laid before Parliament for approval.

Completion of implementation of the Company Law Review will be achieved through the Company Law Reform Bill, draft clauses for which will be published this session. The Bill will be introduced as soon as parliamentary time permits.

Department Store Chargecards

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what recent research she has *(a)* commissioned and *(b)* evaluated on the levels of interest charged on department store chargecards. [218926]

Mr. Sutcliffe: In March 2004, the Office of Fair Trading (OFT) published a report on the store card market and referred the supply of store card services to the Competition Commission.

The OFT report raised particular concerns about the rate of interest on store cards compared to credit cards; a lack of transparency and clarity for customers; the ability of store card providers to enter the market; and the ability of existing providers to expand market share.

As part of its inquiry, the Competition Commission published its emerging thinking in January this year. It is due to publish its final report by early July.

Departmental Policies (Havant)

Mr. Chris Smith: To ask the Secretary of State for Trade and Industry if she will set out, with statistical information relating as directly as possible to Havant constituency, the effects on Havant of her Department's policies and actions since 2 May 1997. [215982]

Mr. Sutcliffe: The Department of Trade and Industry has provided funding totalling £253,572 since 2 May 1997, to organisations in the Havant constituency through the Small Business Service's grant for Research and Development formerly known as SMART.

In addition the South East England Development Agency, which receives funding from the Department of Trade and Industry and others has provided a range of initiatives that have an impact on Havant. Havant is a SEEDA priority area for economic regeneration and they have invested in excess of £20,000,000 in the Havant area since 1999. Projects include five rounds of Single Regeneration Budget funding targeting more than £9 million at Havant, principally in the Leigh Park area, a £10 million investment in the Broadmarsh area, in particular acquiring 12 hectares of brownfield land that has been developed in four phases providing 7,400 sq m of office and industrial units and £6,300,000 Area Investment Framework funding in South East Hampshire over four years.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Committee on security of information systems, (ii) Committee for the implementation of the multi-annual Community action plan on promoting the safe use of the Internet and (iii) Committee on projects of common interest in the field of trans-European telecommunications networks met; when and where each meeting took place; what UK Government expert was present at each meeting; and if she will make a statement. [216725]

Mr. Mike O'Brien: The Committee on the Security of Information Systems (know as SOGIS) did not meet during the Presidencies of the European Council you have specified. It has not done so since 1998. The Committee on the implementation of the multi-annual Community action plan on promoting the safe use of the

Internet did not meet during the Italian and Dutch Presidencies; but did so during the Irish Presidency of the EU, on 27 January 2004 in Luxembourg, and was attended by an official from the Home Office.

The Financial Committee and Guidelines Committee for the trans-European telecommunications networks (eTEN) met nine times during the course of the three Presidencies (on 3 October, 29 October and 18 November 2003 and on 20 January, 26 April, 15 July, 23 September, 9 November and 14 December 2004). The meetings took place in Brussels with the exception of that on 3 October 2003, which was held in Milan. On each occasion the United Kingdom was represented by an official from the Digital Content and Publishing Unit of the Department of trade and Industry.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee for the management of generalised preferences met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217837]

Mr. Alexander: Further to the answers given by my right hon. Friend the Secretary of State for Trade and Industry on 19 November 2003, *Official Report*, column 979W, and 19 October 2004, *Official Report*, column 645W, the Generalised System of Preferences (GSP) Committee met in Brussels three times during the Italian Presidency on 11 July 2003, 13 October 2003, 24 November 2003 and once during the Irish Presidency on 18 June 2004. No GSP Committee took place during the Dutch Presidency.

Both UK and Brussels based staff attended these meetings.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on conformity assessment and surveillance of the telecommunications market met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217885]

Mr. Mike O'Brien: Meetings of the Telecommunications Conformity Assessment and Market Surveillance Committee took place during:

(a) the Italian presidency on 18–19 September 2003 in Luxembourg, when four officials from my Department, one from the Office of Telecommunications and one from the Home Office attended;

(b) the Irish presidency on 23–24 March 2004 in Luxembourg, when three officials from my Department and one from the Office of Communications attended, and on 21–22 June 2004 in Luxembourg when three officials from my Department and one from the Office of Communications attended; and

(c) the Dutch presidency on 17–18 November 2004 in Brussels when two officials from my Department and one from the Office of Communications attended.

Angus Robertson: To ask the Secretary of State for Trade and Industry (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on Protection Against Subsidised Imports met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217913]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on Defence Against Obstacles to Trade Which Affect the Market of the Community or a Non-member Country met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217918]

Mr. Alexander: These Committees are not recognised under the tiles given. Matters relating to trade defence issues would have been discussed in the EU Advisory Anti-Dumping and Anti-Subsidy Committee. This Committee met in Brussels as follows:

Italian Presidency

2 July, 24 July, 3 September, 11 September, 16 October, 17 November, 1 December and 18 December 2003.

Irish Presidency

15 January, 30 January, 12 February, 8 March, 7 April, 21 April, 13 May and 16–17 June 2004; and

Dutch Presidency

22 July, 7 September, 14–15 October, 16 November and 16 December 2004.

Officials from the Department of Trade and Industry attended each meeting.

Flexible Employment

Mr. Willetts: To ask the Secretary of State for Trade and Industry how many *(a)* men and *(b)* women have so far exercised their right to request more flexible employment arrangements; and how many have been successful, broken down by gender. [215528]

Mr. Sutcliffe: From the results of the First Working Employee Survey (2004) 10 per cent. all of male employees requested to work flexibly, compared with 16 per cent. of all female employees. However of those with children under six 10 per cent. of male employees, compared with 37 per cent. of female employees have requested flexible working.

Over three quarters (77 per cent.) of flexible working requests were fully accepted and a further 9 per cent. were either partly accepted or a compromise arrangement was reached. 78 per cent. of all female employees reported requests being fully accepted, compared with 75 per cent. of all male employees.

Gas Prices

Mr. Weir: To ask the Secretary of State for Trade and Industry what steps her Department is taking to limit the impact of the recent gas price rises on customers with low incomes. [218820]

Mr. Mike O'Brien *[holding answer 28 February 2005]:* I am working with the industry, Ofgem, Energywatch and voluntary sector to ensure that customers on low incomes are aware of, and take advantage of, the significant reductions that can be made in energy bills by transferring supplier, using the cheapest and simplest payment methods, installing energy efficiency measures and accessing Government and industry social and fuel poverty programmes.

Hydrogen Fuel

Iain Wright: To ask the Secretary of State for Trade and Industry what plans she has to develop new and renewable energy sources in the North East and Tees Valley, with particular reference to the use of hydrogen. [218504]

Mr. Mike O'Brien: The Government's role is to provide a supportive regulatory/fiscal framework for the development of renewable energy sources. The Government's key mechanism for supporting the development of renewables is the Renewables Obligation. The obligation is a market-based mechanism which is technology neutral. In addition to the obligation the Government are spending over £500 million between 2002 and 2008 on R and D and funding for capital grants for emerging renewable and low carbon technologies.

Hydrogen is an energy carrier (like electricity), not a renewable energy source. It can be produced via a number of different routes, including electrolysis using fossil, renewable or nuclear electricity, or by chemical reactions using biomass, natural gas or coal.

Kazakhstan

John Mann: To ask the Secretary of State for Trade and Industry how many visits were made to Kazakhstan by her *(a)* officials and *(b)* Ministers in 2004. [208934]

Mr. Alexander: Officials made four visits to Kazakhstan in 2004. There were no ministerial visits.

Nuclear Waste

Dr. Kumar: To ask the Secretary of State for Trade and Industry what the Department's policy is towards burying nuclear waste. [215884]

Mr. Morley: I have been asked to reply.

The UK Government and devolved Administrations have established the independent Committee on Radioactive Waste Management (CoRWM) to assess the options for the long term management of the UK's higher activity radioactive waste. This includes underground disposal. The Committee's recommendations are due to be delivered in July 2006. Further details of CoRWM's work programme, including the options that the Committee is considering, can be found at www.corwm.org.uk.

Post Office

Mr. Hopkins: To ask the Secretary of State for Trade and Industry how many post office closures have been stopped following objections from local users in each of the last five years. [218649]

Mr. Sutcliffe: Under the urban reinvention programme, to date, 78 closure proposals have been withdrawn following public consultation.

Data prior to the start of the urban reinvention programme in November 2002 is not available.

Mr. Hopkins: To ask the Secretary of State for Trade and Industry how many post offices have been closed since the start of the Post Office Reinvention Programme. [218650]

Mr. Sutcliffe: To the end of December 2004, the latest quarter for which figures are available, 2,070 sub-post office had closed under the Urban Reinvention Programme.

Postal Services (Scotland)

Annabelle Ewing: To ask the Secretary of State for Trade and Industry what consultations were conducted with mail users in Scotland on the opening of the UK postal services market to full competition by 1 January 2006. [218593]

Mr. Sutcliffe: Postcomm conducted consultations concerning the opening of the UK postal services market to full competition throughout the UK including Scotland.

Solar Photovoltaics

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry what her Department's estimate is of the number of jobs that will be affected in the solar PV industry and related sectors in *(a)* Wales and *(b)* the UK when the Government's 2002–2012 solar PV Major Demonstration Programme comes to an end in March 2006. [218602]

Mr. Mike O'Brien: The Department plans to continue its support for PV and other building scale renewables through a "low carbon building programme". This programme will succeed both the Major PV Demonstration Programme and the Clear Skies programme which are due to end in March 2006

The low carbon building programmes is currently under development and there will be formal consultation on this later this year. As recommended in the Renewables Innovation Review, February 2004, the programme will be technology blind addressing building integrated renewables and energy efficiency technologies. Therefore the Department has not estimated the number of jobs that will be affected in the solar PV industry and related sectors by the introduction of this programme.

Mr. Challen: To ask the Secretary of State for Trade and Industry what steps she is taking to ensure continuity of capital grant support for large scale solar PV installations when stream 2 funding allocations under her Department's 2002 to 2012 solar PV demonstration programme comes to an end in November. [218981]

Mr. Mike O'Brien: The final call for proposals for the Major PV Demonstration programme will take place at the end of 2005. Grants are expected to be paid up to March 2007.

The Department plans to continue its support for PV and other building scale renewables through a "low carbon building programme". The low carbon building programme is currently under development and there will be formal consultation on this later this year. The programme is expected to begin operating in financial year 2006–07.

Trade Balance

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what recent steps her Department has taken to promote trade with Europe. [217365]

Mr. Alexander: My Department promotes trade with Europe on an ongoing basis through UK Trade and Investment, the Government organisation which helps UK companies build their international business success. It does so through a range of services and support designed to help companies gain international trade skills and turn trade opportunities into real business.

WORK AND PENSIONS

Benefit Recipients (Scotland)

John Thurso: To ask the Secretary of State for Work and Pensions (1) how many people in Scotland were in receipt of *(a)* the minimum income guarantee, *(b)* council tax benefit, *(c)* jobseeker's allowance and *(d)* housing benefit in 2002–03; [217724]

(2) how many non-pensioners in Scotland were in receipt of income support in 2002–03. [217725]

Mr. Pond: The information is in the table.

Benefit recipients in Scotland, 2002–03

	Number
Housing Benefit	447,700
Council Tax Benefit	527,900
Jobseekers Allowance	101,000
Minimum Income Guarantee	185,400
Income Support (non-pensioners)	260,100

Notes:
1. Figures are rounded to the nearest hundred.
2. The data refers to benefit units, which may be a single person or a couple.
3. HB/CTB figures for any non-responding authorities have been estimated.
4. Council Tax Benefit totals exclude any Second Adult Rebate cases.
5. Housing Benefit figures exclude any Extended Payment cases.
6. Figures are given as a four quarter average (May, August, November 2002 and February 2003).
7. Non-pensioners are defined as working age claimants (i.e. men aged 16–64 and women aged 16–59) therefore there will be a small overlap between the Income Support non-pensioner figure and the Minimum Income Guarantee figure; men aged 60–64 are counted in both categories.

Sources:
Information Directorate, 5 per cent. samples for Income Support and Minimum Income Guarantee; Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count; and Seasonally adjusted count of unemployment-related benefits, Jobcentre Plus computer systems.

Council Tax Benefit

Mr. Cousins: To ask the Secretary of State for Work and Pensions if he will issue notifications of basic entitlement to council tax benefit to relevant claimants of pension credit. [218028]

Mr. Pond: The Pension Service are already doing much to promote council tax benefit take-up, from issuing a housing benefit/council tax benefit claim form to everyone who calls the pension credit application line and wishes to claim, to helping people fill in this form when visiting pensioners to take a claim for pension credit.

The Pension Service have also recently provided local authorities with details of those people in their area claiming pension credit but not claiming housing benefit or council tax benefit, for authorities to use to complement their own take-up activities.

Disability Awareness Training

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how much his Department spent on disability awareness training in 2003–04; and what information he collects concerning the *(a)* number and *(b)* occupation of training recipients. [217359]

Maria Eagle *[holding answer 21 February 2005]:* The Department for Work and Pensions (DWP) provides a variety of training for its staff which raises awareness of disability. It is principally aimed at advisers and other people who deal with the public but some is available to all employees. It includes an event called 'Dealing with Vulnerable Groups' which helps staff in dealing with people who are deaf or are visually impaired or who have mental health issues.

In addition to formal training courses, people are increasingly developed by a variety of other means, including mentoring and e-learning in the work place. These include The Diversity Toolkit, which offers a range of training options and which won a British Diversity silver award in the innovation and awareness category in 2004. The disability awareness strand of this has been made compulsory for staff in several DWP businesses.

Although the Department works in partnership with external organisations to develop disability awareness products, training is only delivered to the Department's own staff.

The Department does not collect information about the numbers of its staff who access particular types of training or the cost of delivering different types of training. This information could be collected only at disproportionate cost.

Health and Safety at Work, etc. Act

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many company *(a)* directors, *(b)* managers and *(c)* secretaries have been (i) prosecuted and (ii) convicted for health and safety offences under section 37 of the Health and Safety at Work, etc. Act 1974 in each year since 1996. [216303]

Jane Kennedy: Information is not available in the format requested. The numbers of company directors or other senior corporate officers (i) prosecuted and (ii) convicted for offences under section 37 of the Health and Safety at Work etc. Act 1974 in each year since 1996, in cases following as HSE investigation, are as follows.

Year[1]	Number of individuals prosecuted	Number of individuals convicted
1996–97	17	15
1997–98	6	5
1998–99	9	9
1999–2000	17	12
2000–01	16	15
2001–02	16	11
2002–03	18	9
2003–04[2]	12	10

[1] Year refers to operational year which runs from 1 April to 31 March.

[2] Figures for 2003–04 are provisional

Information specifically about company directors, managers or secretaries is not available and could be obtained only at disproportionate costs.

Similar figures for local authority cases are not available from the (voluntary) local authority returns on health and safety enforcement.

Parliamentary Questions

Mr. Frank Field: To ask the Secretary of State for Work and Pensions when he will reply to the question tabled by the right hon. Member for Birkenhead on 19 January, reference 210053. [218695]

Mr. Pond: An answer was given on 21 February 2005, *Official Report*, columns 405–06W.

Pension Service

John Thurso: To ask the Secretary of State for Work and Pensions how many and what percentage of calls made to the crisis line from Scotland in each month since July 2004 *(a)* were answered within 30 seconds, *(b)* received an engaged tone or recorded message that all agents are busy and *(c)* were abandoned. [217081]

Mr. Pond: The information is not available.

Public Service Pensions

Mr. Gordon Prentice: To ask the Secretary of State for Work and Pensions what the cost was of the review of the local government, health and other public service pension schemes. [218013]

Mr. Timms: I have been asked to reply.

The cost of the reviews of local government, health and other public service pension schemes is a matter for the individual Departments which are responsible for the schemes and is not available centrally.

Social Fund

John Thurso: To ask the Secretary of State for Work and Pensions how many Social Fund *(a)* community care grants, *(b)* crisis loans and *(c)* budgeting loan applications have been (i) made and (ii) received by Jobcentre plus in Scotland in each month since January 2002. [216921]

Mr. Pond: Information is only available on the number of Social Fund claim applications received.

The available information is in the table.

Numbers of applications for Social Fund Community Care Grants (CCGs), Crisis Loans (CLs) and Budgeting Loans (BLs) received in Scotland since January 2002

	CCGs	CLs	BLs
January 2002	6,700	29,290	17,100
February 2002	8,060	27,810	19,730
March 2002	8,550	28,130	21,350
April 2002	8,400	27,870	22,270
May 2002	8,840	28,240	21,960
June 2002	7,050	24,390	18,580
July 2002	8,320	27,230	20,330
August 2002	8,150	27,000	19,100
September 2002	7,520	23,670	18,360
October 2002	9,040	27,900	25,000
November 2002	8,790	24,030	28,390
December 2002	6,550	21,560	17,910
January 2003	7,420	28,570	17,540
February 2003	8,190	26,200	19,370
March 2003	8,290	25,510	20,530
April 2003	8,180	25,820	20,200
May 2003	7,850	26,660	20,150
June 2003	7,820	27,440	20,210
July 2003	8,060	28,280	18,910
August 2003	7,210	26,530	18,020
September 2003	8,000	26,870	18,910
October 2003	8,590	28,940	23,350
November 2003	8,270	24,610	25,950
December 2003	6,850	24,700	19,010
January 2004	6,930	28,300	15,610
February 2004	7,620	28,120	17,030
March 2004	9,080	30,260	21,430
April 2004	7,400	24,500	18,050
May 2004	7,590	25,410	17,850
June 2004	8,360	26,860	19,250
July 2004	7,010	22,750	15,380
August 2004	7,840	25,140	17,530
September 2004	7,030	24,320	16,670
October 2004	7,280	23,710	18,980
November 2004	8,260	24,350	27,420
December 2004	6,270	22,500	18,260
January 2005	6,780	27,820	12,810

Notes:

1. Jobcentre Plus was created in April 2002. Data prior to that is for the Benefits Agency.

2. Figures are rounded to the nearest 10.

Source:

Social Fund Policy, Budget and Management Information System.

DEFENCE

Afghanistan/Iraq

Annabelle Ewing: To ask the Secretary of State for Defence how much has been spent since 2001 on UK military operations *(a)* solely and *(b)* mainly relating to (i) Afghanistan and (ii) Iraq. [218320]

Mr. Ingram: Ministry of Defence identifies the costs of operations in terms of the net additional costs it has incurred. Additional costs for larger operations are identified separately and are published in the MOD's annual report and accounts following audit by the NAO.

On this basis, the cost of military operations in Afghanistan from 2001–02 to the end of 2003–04 was £578 million. Similarly, the cost of activities in Iraq under Operation Telic commencing in 2002–03 and to the end of 2003–04 was £2,158 million.

Figures for costs in 2004–05 will be published in the MOD's annual report and accounts for 2004–05 in the autumn.

Aircraft Carriers

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the *(a)* timescale for, *(b)* size of, *(c)* capability of, *(d)* contracts for, *(e)* sub-contracts for and *(f)* cost of the new aircraft carriers. [215504]

Mr. Ingram: Our target acquisition cost for the Future Carrier (CVF) programme is around £3 billion, with target in service dates of 2012 and 2015. The project is in its Assessment Phase. We have not so far sought to fix the dimensions of the ships, but are focusing instead on the future capability required. This was outlined in the July 2004 Defence White Paper supplement "Delivering Security in a Changing World: Future Capabilities". As is normal for a project at this stage, the design will continue to evolve. The timescale, cost and performance parameters will be set following the main investment decision.

We believe that the Alliance approach represents the best prospect for delivering the future carriers to time and cost. Discussions are ongoing on the contracting arrangements for the Demonstration and Manufacture phase of the project.

Army Officers

Mr. Soames: To ask the Secretary of State for Defence what the *(a)* established and *(b)* current trained strength of officers in the British Army is, broken down by arm. [217035]

Mr. Caplin: The information in the following table is the strength and establishment figures for Trained UK Regular Army Officers as at 1 January 2005:

Arm/Service	*Establishment*	*Strength*
Total	13,720	13,760
Staff	830	820
Household Cavalry/Royal Armoured Corps	800	860
Royal Regiment of Artillery	1,020	1,060
Corps of Royal Engineers	1,290	1,200
Royal Corps of Signals	960	1,000
Infantry	2,500	2,950
Army Air Corps	510	480
Royal Army Chaplain's Department	160	130
The Royal Logistic Corps	1,670	1,640
Royal Army Medical Corps	980	860
Corps of Royal Electrical And Mechanical Engineers	800	850
Adjutant General's Corps (Staff And Personnel Support Branch)	230	210
Adjutant General's Corps (Provost Branch)	480	470
Adjutant General's Corps (Educational and Training Services Branch)	330	330
Adjutant General's Corps (Army Legal Services Branch)	120	90
Royal Army Veterinary Corps	20	20
Small Arms School Corps	30	30
Royal Army Dental Corps	170	150
Intelligence Corps	330	280
Army Physical Training Corps	50	40
Queen Alexandra's Royal Army Nursing Corps	400	260
Corps of Army Music	30	40
Unallocated	—	—

Notes:

1. UK Regular Army includes nursing services and excludes Full Time Reserve Service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment, mobilised reservists.
2. Denotes zero or rounded to zero.
3. All figures have been rounded to the nearest 10. Due to the rounding methods used, figures may not always equal the sum of the parts. While rounding to the nearest 10, numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.

Canberra PR9

Mr. Soames: To ask the Secretary of State for Defence when he expects the Canberra PR9 to be withdrawn from service; what will replace the capability; and when. [218129]

Mr. Ingram: We currently expect the Canberra PR9 to be withdrawn from service in 2006. We will continue to provide Intelligence, Surveillance, Target Acquisition and Reconnaissance (ISTAR) capabilities through a mix of in-service systems and new equipment programmes that will deliver enhanced capability incrementally.

Chief of the Defence Staff

Mr. Keith Simpson: To ask the Secretary of State for Defence what methodology is used to calculate the Chief of the Defence Staff's performance-related pay. [218675]

Mr. Ingram: Following a recommendation from the Senior Salaries Pay Review Body, an incremental pay scale has been introduced for the Chief of the Defence Staff (CDS). Each year, the Permanent Under-Secretary at the Ministry of Defence, in conjunction with the independent member of the Department's Remuneration Committee, will make recommendations to my right hon. Friend the Secretary of State for Defence on whether CDS should move up the incremental pay scale. This recommendation will take account of a short narrative, prepared by the Secretary of State, setting out how CDS has contributed to delivering the Government's objectives for defence over the past year.

Chinook Crash

Mr. Arbuthnot: To ask the Secretary of State for Defence on what date flight lieutenants Jonathan Tapper and Richard Cook were given self-authorisation status for VIP flights, prior to the crash of Chinook ZD576 on 2nd June 1994. [217789]

Mr. Ingram: Flight Lieutenants J. Tapper and R. Cook were granted self-authorisation for all Chinook flights, other than displays and role demonstrations, on 23 May 1994.

Civil Contingency Reaction Forces

David Davis: To ask the Secretary of State for Defence (1) how many personnel are employed as part of the Civil Contingency Reaction Forces; [217811]

(2) how many personnel are employed as part of the Civil Contingency Reaction Forces in a state of permanent readiness; [217810]

(3) how many specific Civil Contingency Reaction Force (CCRF) training days have taken place in each year since the creation of CCRF; how many people were involved in each event; and where each such training day was held; [217734]

(4) how many of the reservists who make up the operational capability of Civil Contingency Reaction Forces are on active duty overseas. [217733]

Mr. Ingram: The 14 Civil Contingency Reaction Forces (CCRFs) are based on the 14 TA infantry battalions spread across the country and, should the need arise, would be manned by members of the Volunteer Reserve Forces, albeit mainly the Territorial Army. A list of qualified volunteers up to a maximum of 500 per CCRF is maintained by each CCRF Headquarters in order that they can respond at short notice to a crisis. But CCRF volunteers are not permanently employed by the armed forces, nor are they held at permanent readiness.

It is, however, a fundamental principle that volunteers for the CCRFs agree to be mobilised at relatively short notice. We expect to be able to deploy a CCRF within 24 hours should the need arise, although this may be tempered by the need for additional training depending upon the nature of the crisis.

The list of CCRF volunteers is dynamic and reflects the availability of individuals as their personal circumstances change. When an individual becomes unavailable, whether through operational deployment or any other change in circumstances, they cease to be a member of the CCRF and another volunteer is brought forward to replace them. In this way the CCRF capability is maintained.

Volunteers receive five days training per year, in addition to their normal reservist training. Details of individual training activities are not held centrally, but in general the additional days are used to ensure familiarisation and integration with the local authorities and the emergency services and to ensure that the procedures for mobilisation are well practised.

It should be borne in mind that the CCRFs are neither an automatic nor the only option to respond to a request from the civil authorities for military assistance. Regional commanders will identify the best choice from all available units, regular or reserve, depending on the nature and urgency of the request.

Courts Martial

Mr. Gordon Prentice: To ask the Secretary of State for Defence if he will re-examine the operation of courts martial; and if he will make a statement. [218425]

Mr. Caplin: The maintenance of a system of military law is essential for the operational effectiveness of the armed forces. Courts martial are a vital element of this system. The next armed forces Bill will introduce a number of changes to the operation of courts martial, as part of the modernisation and harmonisation of service law. These are set out in the Ministry of Defence's Memorandum to the Defence Select Committee of 5 October 2004.

Mr. Gordon Prentice: To ask the Secretary of State for Defence whether commanding officers are advised in all cases by military lawyers prior to deciding on the most appropriate disciplinary action to take against soldiers facing *(a)* murder charges and *(b)* other serious charges. [218426]

Mr. Caplin: In accordance with Queen's Regulations, Commanding Officers are obliged in all cases to seek legal advice prior to deciding on the most appropriate disciplinary action to take against soldiers facing murder charges and other serious charges.

Falcon II

Mr. Soames: To ask the Secretary of State for Defence how many Falcon II tactical radio sets have been used in Iraq since November 2004. [218131]

Mr. Ingram: The Bowman PRC325 High Frequency patrol radio and the AN/PRC117F radio are both variants of the Falcon II range of radios. Some 330 Bowman PRC325 have been delivered to Iraq for use by UK forces since November 2004. A small number of AN/PRC117F radios have been used by UK forces in Iraq since November 2004.

Infantry Future Army Structure

Ann Winterton: To ask the Secretary of State for Defence pursuant to the answer of 24 January 2005, *Official Report*, column 50W, on Infantry Future Army Structure, what procedure will be used for a regiment with two or more battalions in deciding which Sandhurst officer cadets are to join which battalion; and whether the procedure is the same for all super regiments. [215950]

Mr. Ingram: Recruitment of officer cadets under the Future Infantry Structure will be by regiment rather than by battalion. An individual posting policy is presently being developed and therefore the procedure for assigning officer cadets to a specific battalion has yet to be determined. However, individual posting preferences will be accommodated where possible, while recognising that the interests of the Regiment and the Infantry must come first.

Iraq

Adam Price: To ask the Secretary of State for Defence when UK armed service personnel first received the United States military planning document on the Iraq war which contained references to P day, A day and G day. [210737]

Mr. Ingram *[holding answer 24 January 2005]*: P, A and G day are standard US military planning terms. They refer to the day a presidential decision would be required for military action (P day), in order for action to commence in the air (A day) and on the ground (G day) by specified dates.

As set out in the Butler report, UK and US military personnel had frequent discussions on Iraq dating back to June 2002. However the decision to resort to military action to ensure that Iraq fulfilled its obligations imposed by successive UN Security Council Resolutions was taken only after other routes to disarm Iraq had failed. The decision to commit UK forces was taken after approval of the House had been secured in the vote on 18 March 2003.

Joint Strike Fighter Programme

Mr. Soames: To ask the Secretary of State for Defence what his Department's current estimate is of the cost of the Joint Strike Fighter programme. [218167]

Mr. Ingram: The United Kingdom's procurement cost is likely to be up to £10 billion, depending on the eventual number of aircraft required. In service support costs will be determined by whatever through life support strategy we decide to adopt.

Military Bands

Mr. Hancock: To ask the Secretary of State for Defence what the cost to his Department is of maintaining the military bands of *(a)* the Royal Navy, *(b)* the Army, *(c)* the Royal Air Force and *(d)* the Royal Marines. [204945]

Mr. Caplin: The approximate annual costs to the Ministry of Defence of maintaining military bands are as follows:

	£ million
Royal Navy	0
Army	24.0
Royal Air Force	5.5
Royal Marines	8.4

The costs comprise band personnel and associated expenses, e.g. travel, but not infrastructure costs. Personnel costs include time spent on other duties, e.g. first aid support.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Defence on how many occasions in each of the past three years an aircraft from the Queen's Flight carrying Ministers on official business has stopped off at a UK airport other than RAF Northolt during a return flight from overseas. [213984]

Mr. Caplin: The number of occasions in each of the past three financial years an aircraft from 32 (The Royal) Squadron carrying Ministers on official business has stopped off at a UK airport other than RAF Northolt is as follows.

	Number
April 2002 to March 2003	17
April 2003 to March 2004	17
April 2004 to February 2005	8

Since RAF Northolt is not open on a 24 hour basis, these figures include occasions when aircraft from 32 (The Royal) Squadron have had to land at London Heathrow when RAF Northolt was closed.

RAF Personnel (Warton)

Mr. Hoyle: To ask the Secretary of State for Defence how many RAF personnel work at BAE Warton, broken down by rank. [216555]

Mr. Ingram: The numbers of RAF personnel who were posted to Warton at the 1 July 2004 are shown in the table. These are Trained RAF Regular Forces and Full Time Reserve Service (FTRS) personnel:

	Number
Wing Commander and above	—
Squadron Leader	5
Junior Officer	5
Total Officers	10
Master Aircrew and Warrant Officer	5
Flight Sergeant	10
Chief Technician	30
Sergeant (including FTRS)	30
Corporal	5
Senior Aircraftsman/woman	—
Total Ranks	80
Total RAF personnel	95

[1] Denotes fewer than 5.

Notes:

1. Figures are rounded to the nearest 5.
2. Due to rounding methods used totals may not equal the sum of their parts.

Secondary Monitoring

Mr. Hancock: To ask the Secretary of State for Defence (1) which naval bases have a policy of mandatory secondary monitoring; which do not; and if he will make a statement; [218441]

(2) what the reasons were for implementing mandatory secondary monitoring at *(a)* HM Rosyth and *(b)* HM Base Devonport; [218442]

(3) what recent research he has *(a)* commissioned and *(b)* evaluated on the effect on levels of safety of introducing mandatory secondary monitoring at HM Base Clyde Faslane; [218443]

(4) whether he plans to introduce mandatory secondary monitoring for radiation at HM naval base Clyde Faslane; what modifications of existing facilities would be required to allow such monitoring; and if he will make a statement. [218444]

Mr. Ingram: At HM Naval Base Clyde (Faslane) staff working in the Active Processing Facility and the Nuclear Repair Workshop are required to use routine secondary monitoring. Staff exiting submarine reactor compartments are monitored by suitably qualified and

experienced workers, using appropriate hand held instrumentation, capable of detecting very low levels of radioactive contamination. This monitoring is precautionary as work procedures and protective clothing are designed to minimise the chance of becoming contaminated. Secondary monitoring (using a walk-through monitor), which takes place after the worker has completed primary monitoring and removed his protective clothing, is mandatory when contamination is suspected or found. All nuclear safety matters relating to the Royal Dockyards at Rosyth and Devonport are a responsibility of the owners of the Dockyards: Babcock Rosyth Defence Limited and Devonport Management Limited respectively. However, they must comply with nuclear safety regulations including the Ionising Radiation Regulations 1999.

There are no plans to make secondary monitoring mandatory at the Clyde Naval Base as current arrangements within existing facilities comply with legal requirements and have been assessed by the Health and Safety Executive's Nuclear Installations Inspectorate (HSE/NII). A recent review of the options for enhancing monitoring arrangements for new facilities has been completed and will inform future worker monitoring protocols. There are no further plans, at this stage, to commission research into whether levels of safety would be increased by introducing mandatory secondary monitoring.

Swan Hunter Contract

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 3 February 2005, *Official Report*, column 1017W, on Swan Hunter, what the clerical error was; what investigation he has conducted into the reasons for the error; and if he will make a statement. [217910]

Mr. Ingram: I have looked into the reasons behind this error and Ministry of Defence officials have found that:

Shortly after the parliamentary question was received by the Department on 24 November 2004, officials drafted a reply. That draft reply accurately reflected the situation at that time. This was forwarded to the Department's parliamentary branch on 25 November 2004. As the question concerned a defence procurement issue, the reply was passed to my hon. Friend the Minister for Defence Procurement (Lord Bach)'s Private Office for clearance.

My hon. Friend the noble Lord was on official duties overseas between the periods 29 November to 5 December, 6 to 9 December, and 9 to 10 December. Some time between the period 5 to 21 December, my hon. Friend the noble Lord cleared the draft reply. Our records do not show the exact date this happened, but this was more likely to have been towards the end of this period.

On 9 December, the Department concluded its negotiations with Swan Hunter regarding the Landing Ship Dock (Auxiliary) project and a contract amendment was signed. At this point, the reply which had been drafted no longer accurately reflected the situation.

By the time the reply was signed out of Minister (DP)'s Private Office on 21 December, the answer was incorrect. This was not identified by the Private Office.

I approved the reply at some point between 21 December 2004 and 7 January 2005, on the assumption that the reply and supporting advice provided was accurate. The reply was returned to the Table Office on 7 January 2005. The reply appeared in the "Official Report" on the next sitting day, 10 January 2005.

This was a regrettable incident resulting from a genuine error. There was no intention by Ministers deliberately to mislead the House. My hon. Friend the noble Lord has put in place measures to improve the handling procedures in his Private Office which should help prevent such an incident happening again.

Trident

Mr. Salmond: To ask the Secretary of State for Defence what assessment of possible acquisition costs for a replacement for the Trident nuclear submarine he has made. [218336]

Pete Wishart: To ask the Secretary of State for Defence what estimates have been made of the possible acquisition costs of a replacement for the Trident nuclear warhead delivery system. [218345]

Mr. Hoon: We made clear in the 2003 Defence White Paper (paragraph 3.11) that decisions on the UK's future nuclear deterrent capability were not needed during this Parliament but were likely to be needed during the next Parliament. Cost factors will of course be taken fully into account along with all other relevant issues.

Mr. Salmond: To ask the Secretary of State for Defence when the last risk assessment was made on the transportation of nuclear material for the Trident nuclear system; and whether the Scottish Executive has been involved in the risk assessment process. [218338]

Mr. Hoon: The last risk assessment on the transport of nuclear material for the Trident nuclear system was issued in January 2005. The Scottish Executive was not involved in the generation of this risk assessment.

Mr. Salmond: To ask the Secretary of State for Defence how many accidents have taken place since 1990 involving *(a)* nuclear warheads and *(b)* other nuclear material related to the Trident nuclear missile system. [218339]

Mr. Hoon: None.

Mr. Salmond: To ask the Secretary of State for Defence when he last reviewed command and control procedures for the Trident missile system. [218340]

Mr. Hoon: All aspects of the operation of the UK nuclear deterrent force are audited on a regular basis.

Pete Wishart: To ask the Secretary of State for Defence what assessment he has made of potential risks of malfunction in the *(a)* nuclear warhead and *(b)* delivery system of the Trident nuclear missile. [218346]

Mr. Hoon: Comprehensive assessments of risks arising from ownership of the Trident missile and associated warheads were undertaken before introduction into service. Risk is kept under constant review and arrangements are in place to ensure formal regular reporting to the appropriate bodies.

Written Answers to Questions

Wednesday 2 March 2005

WALES

Police and Community Support Officers

9. **Ann Clwyd:** To ask the Secretary of State for Wales what recent assessment he has made of the numbers of police officers and community support officers in Wales. [218074]

Mr. Touhig: This Government have delivered record police numbers to Wales. There were 7,448 police officers at the end of September 2004, an increase of 856, or around 13 per cent., since March 1997. Funding is now in place for nearly 300 community support officers.

13. **Dr. Francis:** To ask the Secretary of State for Wales what assessment he has made of the numbers of police officers and community support officers in Wales. [218078]

Mr. Touhig: This Government have delivered record police numbers to Wales. There were 7,448 police officers at the end of September 2004, an increase of 856, or around 13 per cent., since March 1997. Funding is now in place for nearly 300 Community Support Officers.

Child Poverty

10. **Huw Irranca-Davies:** To ask the Secretary of State for Wales what recent assessment he has made of measures to address child poverty in *(a)* Wales and *(b)* Ogmore. [218075]

Mr. Touhig: This Labour Government are delivering on their promise to tackle child poverty:

228,000 working families in Wales benefit from the child tax credit

an average of 30,000 babies born in Wales every year will benefit from the Child Trust Fund

record increases in child benefit have produced a real terms increase of 25 per cent.

I can tell my hon. Friend that in his constituency, 6,000 families benefited from the child tax credit.

National Assembly

11. **Mr. Steen:** To ask the Secretary of State for Wales if he will take steps to increase the scope of the powers of the National Assembly for Wales. [218076]

Mr. Hain: The Government of Wales Act 1998 provides for the transfer of additional functions to the National Assembly for Wales; other functions can be and have been transferred by primary legislation. Examples are responsibility for animal health by order under section 22 of the Government of Wales Act; responsibility for the Fire Service in the Fire Services and Rescue Act 2004 and responsibility for CAFCASS in the Children Act 2004.

Public Service Broadcasting

12. **Kevin Brennan:** To ask the Secretary of State for Wales what discussions he has had with ministerial colleagues on the Ofcom report on public service broadcasting in Wales. [218077]

Mr. Touhig: My right hon. Friend and I have regular discussions with ministerial colleagues about matters affecting Wales. Ofcom's report addresses the changes necessary to protect Public Service Broadcasting in the run up to the digital age, and in particular in maintaining the plurality of service in the nations and regions.

Coal Health Claims Monitoring Group

14. **Mr. Win Griffiths:** To ask the Secretary of State for Wales when the Welsh sub-group of the coal health claims monitoring group last met; and what progress was reported on payments under the scheme. [218079]

Mr. Touhig: The Wales Monitoring Group met on Monday 24 January 2005 and reported progress for the whole of Wales showing that by mid January, a total of over £462 million had been paid out in Wales under both schemes.

This figure has since increased by over £5 million bringing the total to over £467 million under both schemes.

INTERNATIONAL DEVELOPMENT

Advertising

Mr. Arbuthnot: To ask the Secretary of State for International Development how many advertising contracts, and to what value, were signed by his Department in the periods *(a)* 1 September 2004 to 1 March 2005 and *(b)* 1 September 2003 to 1March 2004, broken down by (i) television, (ii) radio, (iii) press, (iv) direct mail and (v) other advertising. [219353]

Hilary Benn: DFID has only one advertising contract. This contract has been in place since 22 October 2001 and was extended for a further 12 months in November 2004. Under the terms of the contract no fee is levied on DFID for the services provided by the advertising agency. They negotiate fees on a commission basis with the media. The placement of adverts is agreed by DFID.

Asian Tsunami

Tom Brake: To ask the Secretary of State for International Development whether he has had discussions with the governments of the tsunami-affected countries about the representation of women on their tsunami reconstruction panels and task forces. [218515]

Hilary Benn: I have not had any discussions with the governments of tsunami-affected countries specifically about the representations of women on tsunami reconstruction panels and task forces. However, the Department for International Development (DFID) is working to ensure that the international response to the tsunami, which is being led by the affected Governments and international organisations such as the UN and the

Asian Development Bank (ADB), focus on helping the poorest people and those often marginalised because of gender, caste, age, ethnicity or religion.

For example, donors and the Government of Sri Lanka have agreed a set of Guiding Principles for post-tsunami relief and recovery. These provide the framework for all Government and donor initiatives and stipulate that the allocation of resources should be strictly guided by identified needs and local priorities, without discrimination on the basis of political, religious, ethnic or gender considerations. The taskforces will include Government, civil society, private sector and donor representatives and will reflect gender concerns. In India, we are actively engaging with the World Bank, Asian Development Bank (ADB) and the United Nations Development Programme (UNDP) to ensure that social inclusion and gender issues are central to the reconstruction and livelihoods work that they will be funding.

Bangladesh

Jeremy Corbyn: To ask the Secretary of State for International Development which civil society organisations in Bangladesh are supported by UK-funded aid programmes. [218630]

Hilary Benn: Department for International Development (DFID)'s Country Assistance Plan (CAP) 2003–06 to Bangladesh, emphasises access for the poor to resources and services, and the realisation of their rights. In working to achieve this, approximately 40 per cent. of DFID Bangladesh's programme is channelled through civil society organisations (CSO)—both through direct grants and indirectly through grants issued by DFID funded organisations, agencies and through large sector programmes. The Foreign and Commonwealth Office (FCO) also supports some CSOs through their Small Grants Scheme (SGS).

Some examples of Bangladesh CSOs funded by DFID are:

Bangladesh Rural Advance Committee (BRAG) (£64 million over 13 years)-Specific BRAG programmes improving the quality of education and livelihoods of the poor.

Nijera Kori (£5 million over 7 years)—An organisation lobbying to give poor people better access to decision making processes, resources and services.

Transparency International Bangladesh Chapter (TIB) (£4 million over 5 years)—Working towards increased citizens' demand for transparency in public, non-profit and private sectors.

Samata (£7 million over 7 years)—Improving livelihoods and empowerment of the landless poor.

Bangladesh Legal Aid and Services Trust (BLAST) (£3 million over 5 years)—Providing legal services and advocacy for greater access to justice.

CARE Bangladesh (£22 million over 12 years)—Enhancing livelihood security of poor people and improving the ability of public and private sectors to deliver more financial services them. Improving the quality and coverage of sustainable HIV/Aids programmes nationwide.

Action Aid (£2 million over 10 years)—Increasing literacy rates and problem-solving skills, particularly for women.

Friends in Village Development in Bangladesh (FIVDB) (£2 million over 7 years)—improving the quality of primary education through action learning.

Under Privileged Children's Education Programme (UCEP) (£5 million over 3 years)—Giving urban working and underprivileged children access to basic education and skills training.

DFID funds umbrella organisations that provide grants to smaller size CSOs/NGOs, for example Manusher Jonno (£14 million over 5 years) which provides grants to CSOs demanding better human rights and governance.

In response to the 2004 floods in Bangladesh, DFID channelled funds to national and international NGOs in Bangladesh through United Nation Development Programme (UNDP) (£15 million) and World Food Programme (WFP)(£10 million).

Several CSOs are funded through the central DFID Civil Society Challenge Fund and through regional and global Partnership Programme Agreements (PPAs) with international NGOs that have representation in Bangladesh.

Some examples of CSOs funded by the FCO SGS are:

Centre for Sustainable Development (CFSD)—Climate Change Education

Democracy Watch—Media training on human rights

Waste Concern—Environmental management for the private sector

Indonesia

Mr. Battle: To ask the Secretary of State for International Development what his Department's estimate is of the number of homeless refugees in the Puncak Jaya region in West Papua. [218846]

Hilary Benn: As at 31 January 2005 the number of homeless refugees in the Puncak Jaya region of West Papua stood at 14,071. DFID obtained this figure from information provided by the UN.

International Conference on Population and Development

Mr. Dhanda: To ask the Secretary of State for International Development if he will make a statement on the plan of action arising from the International Conference on Population and Development (ICPD); and what steps the UK Government are taking to help achieve the goals of the ICPD programme. [218665]

Hilary Benn: The UK Government remain firmly committed to the Cairo Programme of Action (POA) and its key goal of reproductive health for all by 2015. The UK believes that sexual and reproductive health are also fundamental human rights. DFID5s recently published position paper on Sexual and Reproductive Health and Rights makes this position clear and we continue to invest strongly in reproductive health, such as recent multi-year increases in funding to the United Nations Population Fund (UNFPA) and the International Planned Parenthood Foundation (IPPF).

Progress on the POA has been made since 1994. The recent regional International Conference on Population and Development (ICPD) plus 10 celebratory events in Asia and Latin America strongly demonstrated country ownership and commitment to the Cairo POA and how this has become a platform for real policy change at country level. The UK Government have also advocated vigorously to maintain the ICPD consensus

within the UN and elsewhere. Tony Blair was the first Head of State to sign the World Leaders Statement in support of ICPD plus 10. DFID also continues to support country programmes via budgetary support and project funding to NGOs, and agencies such as the Global Fund, active in reproductive health supply security.

The UK believes that sexual and reproductive health and rights are fundamental to attaining the Millennium Development Goals (MDGs). Progress towards the attainment of the goals is currently being reviewed. The Sachs Millennium Project Review and accompanying Task Force Reports, all emphasise the importance of reproductive health and rights to the attainment of the MDGs. Access to reproductive health, a key feature of the Cairo POA, is identified within the main Sachs report as one of the "quick wins"—solutions to implement now for speeding efforts to reduce poverty. DFID is therefore working with like-minded EU member states to ensure that positive reproductive health and rights messages strongly appear in the Secretary-General's report which is due in March.

Iraq

Martin Linton: To ask the Secretary of State for International Development what progress has been made in the reconstruction of *(a)* hospitals and *(b)* civic and judicial buildings in Iraq since the end of the war in 2003; and if he will make a statement. [218532]

Hilary Benn: The Iraqi Ministry of Health is leading on the rehabilitation of health services in Iraq, working closely with international agencies including the World Health Organisation (WHO). The Ministry of Health reports that more than 75 hospitals and nearly all the primary care clinics which were damaged or looted during and after the 2003 conflict have been rehabilitated. Further work to construct and rehabilitate hospitals in Iraq is under way, and health services are gradually improving. More than $1 billion has been pledged in donor support to the health sector. In 2003, DFID provided £5 million to the WHO to enable it to assist the Iraqis on health issues, including improving the delivery of drugs and medical supplies. DFID is providing further support through its contribution to the United Nations and World Bank International Reconstruction Fund Facility for Iraq, and through the provision of an adviser to the Iraqi Ministry of Health on secondment from the UK Department of Health. United States agencies are renovating 19 hospitals and constructing a new Paediatric Hospital in Basra, and the Japanese Government are funding the rehabilitation of 11 general hospitals.

The WHO is working to improve primary health care and emergency obstetric provision. The World Bank has agreed an emergency health and rehabilitation project to finance the rehabilitation of emergency services in 12 hospitals. Nevertheless, it will still take several years for Iraq's health sector to recover fully from the under-investment and poor management which it suffered under Saddam Hussein's regime, and approach the standards experienced in developed countries.

Comprehensive figures on the numbers of civic and judicial buildings which have been rehabilitated in Iraq since May 2003 are not readily available. However, considerable progress has been made in rebuilding Iraq's civic infrastructure. In the first year after the conflict, DFID renovated over 50 public buildings in southern Iraq including hospitals, universities and governorate offices, enabling the resumption of public sector work and the continued provision of services to the Iraqi people. United States agencies carried out similar work in other parts of Iraq, are currently renovating buildings for three Ministries in Baghdad, and are planning the construction of new facilities for the Council of Judges, Court of Cassation and Central Criminal Court.

St. Helena

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on the progress of the establishment of an airport on St. Helena. [218967]

Mr. Gareth Thomas: Options to maintain future access for St. Helena are under consideration. Decisions will be taken, in consultation with the St. Helena Government, as soon as it is possible to do so.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs when her Department was notified of the results of the four counties study on bovine tuberculosis in Ireland. [214124]

Mr. Bradshaw: My Department was notified of the final results of the Irish four area trial at the time of publication in *Preventive Veterinary Medicine* on 5 January.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many outbreaks of bovine tuberculosis in cattle herds in Cumbria were judged by her officials to be caused by infection transmitted by purchased stock during 2004. [214127]

Mr. Bradshaw: Seven of the 16 confirmed bovine tuberculosis breakdowns disclosed in Cumbria during 2004, were judged, to have been introduced through purchased stock. In a further incident, the source of infection was not definitive, however, purchased stock or contiguous contact were considered to be potential sources of infection. This number is provisional pending culture results for incidents disclosed in the last quarter of 2004.

BSE

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of BSE in cattle were reported *(a)* in the UK and *(b)* in each EU country in the last year for which figures are available. [217532]

Mr. Bradshaw: The information is as follows:

(a) The number of BSE cases reported in the United Kingdom for 2004 is as follows:

	Number
Great Britain	309
Northern Ireland	34
United Kingdom	343

Source:
DEFRA & DARD

(b) The number of BSE cases reported in European Union member states in 2004 is as follows:

EU member state	*BSE cases reported*
Austria	0
Belgium	11
Cyprus	0
Czech Republic	7
Denmark	1
Estonia	0
Finland	0
France	54
Germany	59
Greece	0
Hungary	0
Ireland	126
Italy	7
Latvia	0
Lithuania	0
Luxemburg	0
Malta	0
The Netherlands	6
Poland	11
Portugal	92
Slovakia	7
Slovenia	2
Spain	131
Sweden	0

OIE

Carbon Dioxide Emissions

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the amount of carbon dioxide emitted by private pleasure craft in each year since the Energy Products Directive came into force; [218535]

(2) what estimate she has made of the annual change in the level of carbon dioxide emissions that would take place if the rebate on diesel for private leisure craft under the Energy Products Directive were to end in 2006. [218536]

John Healey: This information is not available and could be obtained only at disproportionate cost.

Cattle Transportation

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what requirements exist in respect of the transportation of pregnant cattle; and if she will make a statement. [216343]

Mr. Bradshaw: The Welfare of Animals (Transport) Order 1997 prohibits transport of an animal unless it is fit for the intended journey and suitable provision has been made for its care. An animal that is likely to give birth during transport is not fit for transport. There no requirements specific to the transport of pregnant cows.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the proportion of pregnant cattle transported which had calves that died before or at birth since 1997; [216344]

(2) what estimate she has made of the proportion of cattle transported which were pregnant in each year since 1997. [216345]

Mr. Bradshaw: Defra does not hold this information.

Contaminated Land

Paul Holmes: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much financial assistance has been given to meet the capital costs of site investigation and clean up of contaminated land in each of the last three years *(a)* in total and *(b)* broken down by local authority; and if she will make a statement; [216795]

(2) how much has been given to local authorities through the Contaminated Land Supplementary Credit Approval programme in each of the last three years; which authorities have received funding through this programme; how local authorities' expenditure through the programme is monitored; and if she will make a statement; [216819]

(3) what sites of contaminated land have been *(a)* investigated and *(b)* cleaned up under the auspices of (i) local authorities and (ii) the Environment Agency in each of the last three years; and if she will make a statement. [216820]

Mr. Morley: Tables A-D will be made available in the Library of the House. Support to local authorities given under Defra's Contaminated Land capital projects programme is shown in Table A. The Environment Agency's Contaminated Land capital programme is shown at Table B, with an indication of the local authority area involved. Figures for 2004–05 are not yet available.

Under Part IIA of the Environmental Protection Act 1990, investigation is undertaken to decide whether or not land is "contaminated land" as defined. Investigations also take place in other contexts and central records are not kept. Information about "clean-up" is only available where Defra and Environment Agency funding programmes are involved and is shown in Tables C1–3 and D. This includes work in progress.

Under the Defra programme successful authorities are required to provide mid financial year progress reports. Final returns, certified by the authority's Chief Finance Officer, are provided at the end of the financial year showing actual expenditure incurred on each project. Full details of our monitoring requirements are set out in "A Guide for English Local Authorities" which is made available to each authority.

Paul Holmes: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what financial assistance she makes available to local authorities to compensate residents living on contaminated land where the owners of the land have gone into liquidation; and if she will make a statement; [216817]

(2) if she will make a statement on compensation from local authorities for residents living on contaminated land. [216818]

Mr. Morley: Under Part MA of the Environmental Protection Act 1990 local authorities are under a statutory duty to inspect their areas to identify contaminated land as defined in the Act, and to secure its remediation in accordance with the detailed provisions of the regime. DETR Circular 02/2000 "Contaminated Land" contains statutory guidance including detailed liability rules as to who is the appropriate person(s) to bear responsibility for remediation. In line with the polluter-pays principle, this is normally the person who caused or knowingly permitted the presence of the substances causing the problem. Where this person cannot be found, for example because the company no longer exits or has gone into liquidation, the landowner may be the appropriate person, subject to the Act and guidance.

The Act recognises that, particularly in the case of private individuals owning land, costs of remediation might cause hardship. Section 78P(2) of the Act requires local authorities to have regard to hardship and to statutory guidance when serving remediation notices, or recovering costs, and there is provision for remediation costs to be waived or reduced in certain circumstances. Charging notices may be used in certain cases to recover costs where local authorities carry out remediation on behalf of appropriate persons, which allows recovery to be deferred until land is sold. The regime does not provide compensation to any individuals, unless they are required to grant rights in order that remediation can be carried out.

Energy Conservation

Hugh Bayley: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government has spent on energy conservation in *(a)* York and *(b)* Yorkshire in each year since 1996–97. [217623]

Mr. Morley *[holding answer 23 February 2005]:* Defra currently provides grant funding for energy efficiency through four main routes. These organisations or programmes undertake work at a national or UK level. Previous to 2001 some of the activities undertaken by the Carbon Trust and Energy Saving Trust were carried out under the Energy Efficiency Best Practice Programme which was also UK wide. The Trusts' programmes have no specific levels of funding attributed to particular regions and therefore no figures for these programmes are given as follows:

The Warm Front programme—to provide energy efficiency measures to the vulnerable.

The Community Energy programme—capital and development funding to refurbish existing and install new community heating schemes.

The Carbon Trust—to support and promote energy efficiency and low carbon innovation for business and public sector.

The Energy Saving Trust—to support and promote energy efficiency in the household sector.

Warm Front

The total annual estimated expenditure on energy efficiency measures under the Home Energy Efficiency Scheme in the City of York and North Yorkshire from June 1997 to May 2000 was:

£

	City of York	*North Yorkshire*
1996–97	177,000	1,180,000
1997–98	97,000	4,955,000
1998–99	202,000	5,332,000
1999–2000	82,000	6,234,000

From the launch of the new Home Energy Efficiency Scheme now known as Warm Front in June 2000 until the end of January 2005 the total approximate expenditure for these areas was:

£

	City of York	*North Yorkshire*
2000–01	46,000	2,980,000
2001–02	176,000	18,500,000
2002–03	233,000	19,500,000
2003–04	112,000	15,890,000
2004–05 (Up to end of January 2005)	81,000	17,000,000

Note:
The figures quoted for North Yorkshire include the following areas East Riding, North Yorkshire, South Yorkshire, West Yorkshire and Kingston upon Hull.

Community Energy programme

There has been no programme spend in York, but the Yorkshire spend figures are as follows.

	£
1996–02	[1]—
2002–03	No spend
2003–04	53,000
2004–05	[2]33,000

[1] Programme not up and running until 2002–03.
[2] To date.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committee for fisheries products met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214316]

Mr. Bradshaw: The Management Committee for fisheries products routinely meets in Brussels at one of the Commission's meeting facilities. The dates of the meetings during the Italian, Irish and Dutch presidencies of the EU are given as follows. Representatives from the UK Fisheries Departments were present at virtually all of these meetings. The exact nature and number of representatives depended on the subjects under discussion, with experts on marketing standards, support prices, producer organisations, tariff quotas and other relevant issues, being present as necessary.

Italian presidency

10 July 2003
12 September 2003
7 October 2003
7 November 2003
8 December 2003

Irish presidency

25 March 2004
23 April 2004
13 May 2004
24 June 2004

Dutch presidency

15 September 2004
7 October 2004
13 October 2004
12 November 2004
8 December 2004

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committee for the fisheries and aquaculture sector met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215917]

Mr. Bradshaw: The EU Committee for the fisheries and aquaculture sector routinely meets in Brussels at one of the Commission's meeting facilities. The dates of the meetings during the Italian, Irish and Dutch Presidencies of the EU are given as follows. Representatives from the UK Fisheries Departments were present at all of these meetings. The exact nature and number of representatives depended on the subjects under discussion, with experts on control and enforcement, fleet policy and statistics being present as necessary.

Italian Presidency

15 July 2003
1 October 2003
20 October 2003
19 November 2003
9 December 2003

Irish Presidency

14 January 2004
11 February 2004
10 March 2004
20 April 2004

Dutch Presidency

6 and 7 July 2004
9 September 2004
13 October 2004
17 November 2004
14 December 2004

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Advisory Committee on Community policy regarding forestry and forest-based industries met; when and there these meetings took place; what UK Government expert was present; and if she will make a statement. [215903]

Mr. Bradshaw: The EU Advisory Committee on Community Policy regarding forestry and forest-based industries did not meet during the Italian and Irish Presidencies; it met once during the Dutch Presidency and this meeting took place in Brussels on 16 November 2004. There was no UK Government expert present at the meeting, which was attended by individuals from the UK forest-based industries private sector.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the adaptation to technical and scientific progress and implementation of the directive on urban waste-water treatment met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217241]

Mr. Morley: The information is as follows:

Italian presidency—July to December 2003

The Committee met over 1–2 September 2003 when five delegates from the UK attended.

Irish presidency—January to June 2004

The Committee met twice on 19 April, when one UK delegate attended, and 1–2 June when no UK delegate attended.

Dutch presidency—July to December 2004

The Committee met three times over 22–23 July when no UK delegate attended; 7–8 October when one UK delegate attended; 23 November 2004 when four delegates from the UK attended.

All the meetings were held in Brussels.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Management Committee on application of the Directive on the standardisation and rationalisation of reports on the implementation of certain Directives relating to the environment met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [217243]

Mr. Morley: During the Irish, Italian and Dutch Presidencies in 2003 and 2004 there were no Management Committee meetings on this issue. The Management Committee on the application of the "Standardised Reporting" Directive (91/692/EEC) last met in 1997. In 2002 the Commission started work on a new framework for environmental reporting in response to the 6th Environment Action Programme. An Expert Group was set up to discuss Commission proposals for a Directive. This group last met in October 2002. There is as yet no formal proposal for a Directive, and no Management Committee has been convened. In the event of any meeting being scheduled, officials will, as a matter of course, liaise with their counterparts in the Scottish Executive and the other devolved Administrations.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the Protection of Species of Wild Fauna and Flora by Regulating Trade met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217818]

Mr. Morley: The EC CITES Committee on Trade in Wild Fauna and Flora met three times during the Italian presidency (1 July 2003, 19 September 2003 and 13 November 2003), twice during the Irish presidency (29 January 2004 and 20 April 2004) and twice during the Dutch presidency (2 July 2004 and 14 December 2004). All meetings took place in Brussels. UK representation normally comprises officials from my Department, supported where necessary by scientific advisers from the Royal Botanic Gardens at Kew or the Joint Nature Conservation Committee. Business at these meetings concentrated mainly on issues relating to implementation of the European Wildlife Regulations and preparation for the 13th Conference of Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) held in Bangkok in October 2004.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee on the Conservations, Characterisation, Collection and Utilisation of Genetic Resources in Agriculture met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217875]

Mr. Morley: The Committee on the Conservations, Characterisation, Collection and Utilisation of Genetic Resources in Agriculture had no meetings during the Italian and Dutch Presidencies of the EU. The Committee met twice (26 April and 21 June 2004) during the Irish Presidency. On both occasions the United Kingdom was represented by Defra officials responsible for policy issues on Genetic Resources for Food and Agriculture.

Regulation 870/2004 is now in force and the Commission are preparing the Call for Proposals documentation which will be advertised in the Official Journal shortly.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Scientific Review Group for the protection of species of wild fauna and flora by regulating trade, (ii) Committee on the Community action programme in the field of civil protection and (iii) Committee on the control of major accident hazards involving dangerous substances (Seveso II) met; when and where these meetings took place; what UK Government experts were present; and if she will make a statement. [218261]

Mr. Morley: The details relating to these Committees are as follows:

(i) The Scientific Review Group (SRG) met once during the Italian presidency (9 October 2003), twice under the Irish presidency (15 January and 19 April 2004) and twice under the Dutch presidency (1 July and 13 December 2004). All meetings were held in Brussels and were attended by Defra's scientific advisors from the Royal Botanic Gardens, Kew and the Joint Nature Conservation Committee (JNCC).

(ii) The Committee for the Action Programme and for the Mechanism in the field of Civil Protection met once during the Italian presidency (28 November 2003), twice during the Irish presidency (26–27 February and 3–4 June 2003) and once during the Dutch presidency (21–22 October 2004). All meetings took place in Brussels and were attended by officials from the Cabinet Office.

(iii) The Committee on the control of major accident hazards involving dangerous substances (Seveso II) met once during each of the Italian, Irish and Dutch presidencies, in Cagliari, Sardinia (16 October 2003), Dublin (13 May 2004) and Amsterdam (7 October 2004) respectively. The UK representatives were from the Health and Safety Executive and the Environment Agency.

EU Fisheries

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs (1) under which European Court decisions the common fisheries policy has been changed to exclusive competence over the marine biological resources of the seas in the EU constitution; [215489]

(2) whether the exclusive competence over marine resources of the sea provided for in the EU constitution will necessitate the development of a common policy on other marine vertebrates and invertebrates. [215490]

Mr. Bradshaw: Existing Community competence over marine biological resources under the common fisheries policy derives from article 102 of the UK treaty of accession. The EU constitutional treaty does not change the current arrangements.

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the *(a)* budget and *(b)* role of the European Fisheries Fund. [215206]

Mr. Bradshaw: The budget for the European Fisheries Fund remains to be negotiated. The European Commission has proposed that the figure for the whole of the European Union should be €4.963 billion. Decisions have yet to be taken on the Financial Perspective for the period 2007–13, from which the amount for EFF spending will be derived. The UK believes the budget proposed by the Commission for the financial perspective is unaffordable.

The proposed fund aims to:

Support the CFP to ensure sustainable exploitation of natural marine resources and the protection of the environment;

Promote a sustainable balance between resources and fleet capacity, strengthen economic competitiveness and improve the quality of life in fishing communities; and

Promote equality between women and men in the sector.

Fallen Stock

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs within what time scale farmers should expect their fallen stock to be collected under the fallen stock scheme. [217538]

Mr. Bradshaw: Under the Animal By-Products Regulations 2003 farmers must arrange collection or other disposal of fallen stock without undue delay. The National Fallen Stock Company has said that it would normally expect fallen stock collectors to collect carcases within 48 hours following notification.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she is taking to ensure that the fallen stock scheme works effectively in all areas. [217539]

Mr. Bradshaw: This is a matter for the National Fallen Stock Company (NFSCo) which has been set up jointly by government and the farming industry to run the scheme. Generally, the scheme is working well in most areas of the UK but the company is aware that the service in some areas requires improvement and is actively addressing this with the local collection industry.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many companies are registered to collect fallen stock; [217356]

(2) how many companies registered to collect fallen stock are hunt kennels. [217401]

Mr. Bradshaw: Over 360 approvals have been granted to establishments under Regulation (EC) No 1774/2002 to allow them to collect and/or treat Category 1 and 2 animal by-products (including fallen stock). Of this number 143 are hunt kennels.

In practice not all of the establishments referred to above will be engaged in the collection of fallen stock. Under the National Fallen Stock Scheme, there are currently 126 collectors registered, of which 25 are hunt kennels.

These latter figures include some freelance collectors, who do not require approval under the Regulation, but who must consign any collected carcases to an appropriately approved plant for disposal.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place to monitor the National Fallen Stock Scheme. [216593]

Mr. Bradshaw: The National Fallen Stock Company (NFSCo) which is running the Scheme has Government representation on its Board to ensure that government funding is spent properly. In addition NFSCo is subject to the normal financial and audit controls which apply to a Limited Company. With regard to the operation of the Scheme the Company actively seeks feedback from its members on the service provided and records are kept of calls to the helpline and of complaints received to inform improvements to service provision. NFSCo has also engaged the State Veterinary Service to inspect collection premises and vehicles to enable compliance with Scheme rules, in particular in relation to biosecurity.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints the National Fallen Stock Company has received to date. [216595]

Mr. Bradshaw: The National Fallen Stock Company Ltd. reports that as of 11 February 2005 it had received 282 complaints. Of these 84 were in relation to the collection of fallen stock. This is out of some 30,000 collections in the same period.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the maximum recommended time period is under the National Fallen Stock Scheme for the collection of fallen stock. [216596]

Mr. Bradshaw: The National Fallen Stock Company has said that under most circumstances it would normally expect fallen stock collectors to collect carcases within 48 hours following notification.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the average costs of the collection of fallen stock to farmers subscribing to the National Fallen Stock Scheme *(a)* in the last year before and *(b)* since the Scheme began. [216597]

Mr. Bradshaw: None. Information of this nature is not collected by the Department.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many collections under the National Fallen Stock Scheme since its implementation have occurred 48 hours or more after the animals death was reported to the National Fallen Stock Company. [216598]

Mr. Bradshaw: Although comprehensive information of this nature is not collected the National Fallen Stock Company Ltd. reports that as of 11 February 2005 it had received 62 complaints regarding collections that were not made within 48 hours of the animals' death being reported.

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to raise the *(a)* registration and *(b)* other fees payable by farmers subscribing to the National Fallen Stock Scheme. [216599]

Mr. Bradshaw: None. The setting of registration fees for farmers subscribing to the National Fallen Stock Scheme is for the National Fallen Stock Company Board to decide. The Board also sets the percentage rate by which farmers' collection costs are reduced using the government contribution to the Scheme. No other fees are payable by farmers with regard to subscribing to the Scheme.

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the compliance of delivery of information systems for the National Fallen Stock Scheme with the original *(a)* schedule, *(b)* functionality specification and *(c)* budget. [216644]

Mr. Bradshaw: The IT system was delivered to enable the Scheme to begin in the autumn of 2004 which was as previously announced by the National Fallen Stock Company. However, further work is taking place to provide full functionality in respect of financial and reporting systems. Defra previously announced it would provide £1 million towards setting up the system. The final cost will not be known until full functionality is in place, but it is likely to be close to this figure.

Flooding

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the role of *(a)* regional resilience teams and *(b)* regional flood defence committees; and what discussions each has with local planning authorities (i) on preventing flooding and (ii) building on functional floodplains. [216009]

Mr. Morley: I refer the hon. Member to the answer I gave her on 3 February 2005, *Official Report*, column 1023W, where I stated that the Government have set up a Regional Resilience Team in each of the English regions to enhance the co-ordination of planning for wide impact events, such as major flooding, and to improve lines of communication between central Government and local responders during the response to an incident. These arrangements worked successfully in relation to the Boscastle and Carlisle floods.

The Environment Agency (EA) is required by section 106 of the Water Resources Act 1991 to carry out most of its flood defence functions through regional flood defence committees (RFDCs). The committees in particular take decisions about the annual programmes of improvement and maintenance work to be carried out by the Agency and oversee other aspects of the Agency's work and operations. RFDCs also decide on such matters as the extension of main rivers, the making and operation of land drainage byelaws and various issues affecting any internal drainage boards in their area. They are required annually to approve estimates of expenditure and to determine the amounts to be levied by the Agency on constituent councils.

Through Planning Policy Guidance Note 25 (PPG25), the Government have given strengthened guidance to local planning authorities regarding inappropriate development in areas of flood risk. The EA (in conjunction with RFDCs) provides advice to local planning authorities on planning applications in areas at risk of flooding and this is used by the authorities in reaching decisions. The Office of the Deputy Prime Minister and Defra have recently consulted on the need to revise PPG25 and whether the EA should be made a statutory consultee on proposals for development in flood risk areas.

Regional Resilience Teams have been established to enhance the co-ordination of major events and incidents and are not involved in the development control process.

Foot and Mouth

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what the 10 largest amounts paid to valuers in each county in relation to the foot and mouth epidemic were. [216185]

Mr. Bradshaw: A national fee structure applied to reimbursement of valuer's fees for valuations undertaken during the 2001 foot and mouth disease outbreak. The fee agreement was a fee of 1 per cent. of the valuation total, subject to a £500 per day minimum and a £1,500 per day maximum per valuer.

Individual valuers often worked across a number of disease emergency control centres and animal health offices which themselves covered more than one county.

Information on the 10 largest amounts paid to individual valuers in each county is not held centrally and can be provided only at disproportionate cost.

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of a possible link between the level of commission paid to valuers in the foot and mouth epidemic and the level of their valuations; [216186]

(2) if she will take steps to uncouple the link between fees paid to valuers and the levels of commissions paid to them for assessments of animals to be destroyed due to disease. [216187]

Mr. Bradshaw: A review of the system for valuation was undertaken after the foot and mouth disease outbreak in 2001. A national list of valuers, approved on the basis of their qualifications and experience in livestock valuation, has been set up. There are 280 valuers covering England and Wales. There is a separate list for Scotland, though valuers on either list can be used both sides of the border. The lists are for use in any future outbreak of exotic disease e.g. foot and mouth disease, classical swine fever and Newcastle disease.

Fees will be paid on the basis of £100 per hour for time spent carrying out the valuation and reasonable travelling from office to office. As fees in the future will be based on an hourly rate, they will not be related to the level of valuation of the livestock.

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what changes took place in the average amount paid in compensation for *(a)* sheep and *(b)* cattle during the foot and mouth epidemic in each month of the epidemic. [216540]

Mr. Bradshaw: The average amount paid in compensation for both sheep and cattle is as follows:

Month	Average Sheep	Cattle
February	62	547
March	122	988
April	159	1,182
May	200	1,467
June	229	1,689
July	292	1,478
August	220	1,455
September	176	1,308
October	108	2,010

The amounts shown are rounded to the nearest whole £.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which countries are recorded as having endemic foot and mouth disease; [217533]

(2) what steps are taken to prevent direct or indirect imports from countries which have endemic foot and mouth disease. [217534]

Mr. Bradshaw: Defra does not hold separately, a list of countries that are recorded as having endemic foot and mouth disease (FMD). The internationally recognised central source for official information on the distribution of animal diseases such as FMD is the Office International des Epizooties (OIE). Also known as the World Organisation for Animal Health, the OIE is the world organisation responsible for the collection and dissemination of information on international animal health—it has a role analogous to the World Health Organisation (WHO).

Information on FMD can be found on their website, at the following address: http://www.oie.int/eng/info/en_fmd.htm.

Rather than listing countries in which FMD is considered to be endemic, the OIE lists countries and regions that are considered to be free of FMD, broken down into those that are free and do not vaccinate; and those that are free and do vaccinate against the disease.

European Community legislation permits the importation of meat from certain countries where FMD is present, but only where the disease is officially recognised as being restricted to specific areas and effective movement controls are in place within the country. Imports are permitted either from parts of the country that are free of disease or under strict conditions that ensure the meat does not come from any animal that may have come in contact with FMD before, during and after slaughter. These provisions are in line with the guidelines established by the OIE.

All meat imported from third countries must be accompanied by veterinary certification. This must confirm that the meat is derived from animals which have been subjected to a veterinary inspection during the 24 hours prior to slaughter and showed no signs of FMD.

Community legislation does not permit imports of livestock (cattle, sheep, pigs and goats) from countries with FMD.

If there is an outbreak of disease likely to present a risk to human or animal health, Community legislation allows us to take appropriate safeguard action, which may include a ban on imports of animals and animal products from all, or parts, of that country.

All meat and animals imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. At least 20 per cent. of consignments of animal products undergo physical checks, and a number of animals in each consignment are physically checked. These checks ensure import conditions are met.

For personal imports meat and dairy products are banned from most countries outside the EU. Customs are responsible for enforcement at the border. Defra and Customs undertake publicity campaigns to make the public aware of the rules relating to personal food imports.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the contiguous cull used in the last foot and mouth outbreak would be implemented in a future outbreak; [217540]

(2) whether vaccines would be used in a future outbreak of foot and mouth disease. [217614]

Mr. Bradshaw: The decision tree published as part of the foot and mouth disease (FMD) contingency plan on the Defra website sets out the factors that the Government would take into account in deciding disease control strategy including vaccination or different approaches to culling in a future outbreak. The disease control strategy adopted will depend on many factors.

The EU directive gives greater prominence to the potential use of emergency vaccination in the event of an outbreak as an adjunct to this basic slaughter policy. Article 14 of the directive places a duty on member states

"to prepare all arrangements necessary for emergency vaccination in an area at least the size of the Surveillance Zone"

as soon as the first case of FMD is confirmed.

The Government will consider emergency vaccination as a disease control option from the start of any outbreak of FMD on the basis of vaccinate to live. The vaccines held by the UK are suitable for use in emergency vaccination. This is in line with the recommendations of the main FMD inquiries. The circumstances in which vaccination might be used are illustrated in the vaccination scenarios published last year on the Defra website.

The decision tree makes it clear that other forms of culling beyond that on infected premises and dangerous contacts are not ruled out.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what contingency plan is in place in case of an outbreak of foot and mouth disease; and what elements of the plan drew on the experience of the outbreaks of 1967 and 2001. [217820]

Mr. Bradshaw: The measures that the Government would take in the event of an outbreak of foot and mouth disease are set out in the Defra FMD Contingency Plan, the latest version of which was laid before Parliament at the end of March 2004. These include the immediate imposition of movement controls on all susceptible livestock, strict biosecurity guidance and enhanced options for controlling disease. Vaccination would be considered from the onset of an outbreak in addition to the culling of all susceptible animals on infected premises and those that have been exposed to infection, as required by EU law.

We are engaging with operational partners and with stakeholders to ensure they are aware of their responsibilities and the measures that would be taken in an outbreak. Plans are also in place in the event of an outbreak to enable a rapid increase in resources and for the implementation of contingency contracts, including that for emergency vaccination. We have revised the instructions for staff and are ensuring that they are trained and equipped to deal with an outbreak of disease. A revised version of the contingency plan, incorporating lessons learned form the national Foot and Mouth Disease Exercise held last June, will be issued for public consultation shortly.

The current FMD contingency plan reflects lessons learned from the outbreaks of FMD in 1967 and 2001. The vast majority of the recommendations of the Northumberland Committee after the 1967 outbreak were applied during the 2001 outbreak. Such elements of the response in 2001 as bringing in senior administrators to allow vets to be relieved of non veterinary duties such as carcase disposal and cleansing and disinfection, and calling in the armed forces, resulted from the experiences of the 1967 outbreak and remain in the contingency plan. Lessons learned from 2001 and from the inquiries thereafter have resulted in the contingency plan including revised policies including the immediate imposition of a GB national movement ban on susceptible animals, closure of footpaths only within the 3 km protection zone and a hierarchy of disposal options for carcases headed by incineration and rendering. They have also led to the inclusion in the plan of senior management structures and systems that would be established in an outbreak.

Free Trade

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact on biodiversity in developing countries of allowing free trade in agricultural products. [217346]

Mr. Morley: In 2004 my Department commissioned a review of the literature on the implications of trade liberalisation for sustainable development, which included an initial assessment of the impact on biodiversity in developing countries of freer trade in agricultural products. The report, "The Implications of Trade and Investment Liberalisation for Sustainable Development: Review of Literature", is available on the Defra website.

The Department subsequently has commissioned new research which will include further assessment of the impact on biodiversity of trade liberalisation in agricultural products. The report is expected to be published this July.

In addition, the European Commission has released recently its draft sustainability impact assessment on agriculture which includes a more comprehensive assessment of the impact on biodiversity of freer trade in agricultural products. The draft report is available on the website of the Institute for Development Policy and Management at Manchester University.

The assessments carried out to date show that the impacts on biodiversity of liberalising trade in agricultural products depend upon a range of factors, including the location and type of agricultural activity being undertaken. However, the assessments suggest that there could be negative impacts on biodiversity in some areas and hence a need to develop policies to mitigate any such impacts.

Game Birds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will seek to legislate to ensure that game birds are reared in humane conditions. [216497]

Mr. Bradshaw: Under the Protection of Animals Act 1911 it is already an offence to cause unnecessary suffering to a domestic or captive animal in the keeping of man, this includes game birds that are being kept for rearing.

The proposed Animal Welfare Bill would allow certain animal related activities to be regulated by use of secondary legislation. It is proposed that game bird rearing should be subject to a Government code of practice to help secure the welfare of the birds.

The Animal Welfare Bill will also introduce an offence of failing to promote the welfare of an animal kept by man. The duty to promote welfare will apply to those responsible for captive game birds.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will consult interested groups which are critical of current game bird rearing practices; and if she will make a statement. [216501]

Mr. Bradshaw: The proposed Animal Welfare Bill would allow certain animal related activities to be regulated. It is proposed that game bird rearing should be subject to Government codes of practice made under the Bill. Any proposals will be subject to wide consultation.

GM Crops

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to announce the formal consultation on co-existence measures and the GM planting regime. [217355]

Mr. Morley: In collaboration with the devolved Administrations we held a series of stakeholder workshops last Autumn as the first phase of consultation on co-existence measures for GM and non-GM crops. As the second phase of consultation we are now developing a package of specific proposals and options. This is not expected to be published before the summer. Once published everyone will get a chance to contribute to, and comment upon, our proposals.

It remains the Government's clear intention to introduce co-existence measures before any commercial cultivation of GM crops takes place in the UK. No commercial cultivation is expected here before 2008 at the earliest, so we have time for a thorough consideration of this issue.

Greenhouse Gases

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to ensure that implementation of the EU Greenhouse Gas Emissions Trading Directive takes into account the national climate change target of achieving a 20 per cent. cut in emissions of carbon dioxide between 1990 and 2010. [218291]

Mr. Morley: The UK is on course to exceed its Kyoto Protocol target of a 12.5 per cent. reduction in CO_2 emissions on 1990 levels during 2008–12. The Climate Change Programme expects emissions of carbon dioxide to be about 14 per cent. below 1990 levels in 2010. The impact of the EU Emissions Trading Scheme will contribute to further savings.

The total number of allowances to be allocated in the UK National Allocation Plan for Phase I (2005–07) are significantly below (c.5 per cent.) the finalised emissions projections for this period (subject to Commission approval). This takes the UK ahead of other member states, in terms of effort against business as usual.

The Government have stated that the overall number of allowances to be allocated for Phase II (2008–12) should be consistent with the trading sector's contribution to the achievement of our goal to reduce carbon dioxide emissions by 20 per cent. below 1990 levels by 2010. The Climate Change Programme review will consider what that contribution will be.

Meat (Illegal Imports)

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many successful prosecutions of those illegally importing meat into the UK there have been in each of the last eight years. [217536]

Mr. Bradshaw: Details of prosecutions taken by local authorities specifically for offences relating to illegal import of meat into the UK are held by individual local authorities and are not held centrally.

HM Customs and Excise have had responsibility for anti smuggling controls on products of animal origin since 11 April 2003. In the year April 2003-March 2004, no prosecutions were taken by HM Customs and Excise for Products of Animal Origin (POAO) illegal import offences. In the year April 2004-March 2005, they have prosecuted six people for imports contrary to the POAO regulations.

Protected Birds

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the current review of the Wildlife and Countryside Act 1981 with regard to the advice offered by the Joint Nature Conservation Council on Schedule 4 to the Act on the list of birds given protection by the registration scheme. [217220]

Mr. Bradshaw: In 2002 Defra carried out a full public consultation on the bird registration scheme with the key results that the scheme be retained with some minor changes to the administration process and that a study be commissioned by the Joint Nature Conservation Committee (JNCC), firstly to agree scientific criteria for including species on Schedule 4 and then to apply those criteria to candidate species.

The study has now been completed and the recommendations in their report are likely to form the basis for a full public consultation where interested parties will be invited to comment on the proposals and to submit further evidence for consideration.

Timber

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to include social criteria in the UK's timber procurement policy. [216574]

Mr. Morley: A key objective of the UK Government's timber procurement policy is to encourage the protection of forest dependent peoples' rights and enhance their well-being. By requiring its contractors to supply only timber that has been legally harvested and by preferring timber grown in sustainably managed forests, the Government are helping to achieve this outcome in many producing countries.

The EU public procurement directives ensure that public bodies conduct their procurement in a fair and transparent manner, do not discriminate or create barriers to trade and obtain value for money for taxpayers. In line with the above requirements, the criteria for selecting bidders must be limited to their capacity and ability to supply the product or service, and the criteria for specifying requirements must be limited to relevant technical, quality and performance characteristics that can be objectively measured and priced. The criteria can include relevant manufacturing processes and that enables forest management standards that affect the product to be specified. Protecting and conserving a product's raw material is relevant, measurable and a reasonable demand to make of a contractor. Protecting and conserving the rights and socio-economic well-being of forest dependent people is not something a contractor based in another country could be reasonably expected to undertake. Such social and ethical issues are beyond the capacity of suppliers to control, measure and price. Furthermore, the introduction of non product related issues into contracts would enable contracting authorities to choose their suppliers on the basis of subjective

judgements that would jeopardize the fairness and openness that have served the public procurement process so well for many decades.

A public authority can refuse to invite tenders from suppliers who have been convicted of an offence or grave professional misconduct in relation to the conduct of their business and that could include offences relating to the treatment of forest dependent people. Any such refusal would have to be proportionate to the offence.

UN Environment Programme

Mr. Garnier: To ask the Secretary of State for Environment, Food and Rural Affairs what the annual grant from her Department to the United Nations Environment programme World Conservation Monitoring Centre was in each financial year from 2000; and how much the grant from each other donor nation was in each year. [218000]

Mr. Morley: The Department, on behalf of the UK Government has contributed $ million per annum to the main United Nations Environment Programme (UNEP) Environment Fund since 2000. UNEP World Conservation Monitoring Centre (UNEP-WCMC) receives direct income from UNEP, as well as project funding.

The Department does not provide an annual grant to UNEP-WCMC. However DETR made a contribution to the Centre when it was incorporated into UNEP. This payment of £750,000 was to pay off the mortgage on the premises to give UNEP-WCMC a secure financial basis for their new beginning.

Defra, and other Government Departments, make use of the Centre's expertise and services to deliver specific products and services. Defra/DETR funding for projects in the years since 2000 is as follows:

	£
2000	500.00
2001	1,000,228.77
2002	109,096.00
2003	340,543.84
2004	180,183.00

UNEP-WCMC has also undertaken work for DFID and FCO.

We do not have information on other states contributions to UNEP-WCMC.

Mr. Garnier: To ask the Secretary of State for Environment, Food and Rural Affairs when she last held discussions with the management of the United Nations Environment Programme World Conservation Monitoring Centre on *(a)* staff levels at its establishment in Cambridge and *(b)* the level of her Department's financial support to it; and what the outcomes of those discussions were. [218001]

Mr. Morley: I met Dr. Klaus Toepfer, the Executive Director of the United Nations Environment Programme (UNEP), at the Eighth Session of UNEP's Governing Council in Nairobi (held 21–25 February 2005) and discussed the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) among other issues. Dr. Toepfer and I expressed our commitment to securing the short and long term future of the Centre.

In addition, my officials are in regular discussions with UNEP, WCMC Trustees and staff of the Centre to explore ways to secure the Centre's short and long term future.

These discussions have embraced a range of issues relating to the Centre's organisation including its financing. Staff levels are a matter for the management of the Centre and UNEP.

Waste Incineration

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* local, *(b)* regional and *(c)* national targets have been set on levels of incineration of waste. [217822]

Mr. Morley: Government have set no specific targets for levels of waste incineration.

Dr. Murrison: To ask the Secretary of State for Environment, Food and Rural Affairs on what dates since June 2001 Ministers have met *(a)* the Environment Agency and *(b)* the cement industry to discuss the burning of waste in cement kilns. [218015]

Mr. Morley: Ministers have met the Environment Agency (EA) on two occasions since June 2001 to discuss the burning of waste in cement kilns.

On 15 July 2004 I met the Environment Agency for that purpose together with representatives of the waste treatment company Cleanaway.

On 9 September 2004 I again met the Environment Agency for that purpose together with representatives of the British Cement Association.

Waste Management Regulations

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when the Waste Management Licensing (England and Wales) Regulations 2005 will come into force; [216808]

(2) what account is being taken of differences in size and resources of different composting operations when defining the tonnage brackets under the Waste Management Licensing (England and Wales) Regulations 2005; [216809]

(3) what steps she will take to ensure that charges for composting sites proposed under the Waste Management Licensing (England and Wales) Regulations 2005 do not place a disproportionately high financial burden on small scale organisations composting less than 150 tonnes of organic waste per annum. [216810]

Mr. Morley: The Government have taken account of comments made during the consultation process by representatives of smaller community composting schemes and is considering amending the original proposal.

Details of the scheme will be available when the regulations are published. This is expected to be in late spring/early summer 2005.

Flood Defence (York)

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on flood defence in the City of York. [217063]

Mr. Morley: I refer the hon. Member to the answer I gave her on 24 January 2005, *Official Report*, column 10W, which I hope will answer this question also. The Environment Agency's plans for the City of York remain unaltered.

Zoos

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to review the licensing of zoos. [218279]

Mr. Morley: The terms of reference of the Zoos Forum, the Government's independent advisers on zoo matters, include keeping the operation and implementation of the zoo licensing system continually under review and advising Government as necessary.

EDUCATION AND SKILLS

Commonwealth Working Holiday Scheme

Mr. Willis: To ask the Secretary of State for Education and Skills how many *(a)* teachers, *(b)* teaching assistants and *(c)* other school staff from Commonwealth countries are working in the UK under the Commonwealth working holiday scheme on two year visas; and if she will make a statement on the effect on recruitment in the education system of changing the scheme to one year visas. [218043]

Mr. Browne: I have been asked to reply.

Working holidaymakers are required to obtain entry clearance prior to coming to the United Kingdom. This allows them to take relevant employment, including as teachers, teaching assistants and as other school staff. No central record is kept by the Home Office of the numbers of working holidaymakers in each part of the work force, including teaching and other jobs in educational establishments, because they do not need separate permission to work after arrival.

After 12 months in the United Kingdom working holidaymakers are eligible for work permit employment in any of the occupations on the list of designated shortage occupations maintained by Work Permits (UK). These include all teaching posts that relate to the provision of compulsory schooling. Working holidaymakers were eligible to switch into these occupations after 12 months in the United Kingdom before the changes announced on 7 February. The effect of these changes on recruitment into teaching roles in the education system is therefore neutral. Non-teaching roles in schools are not generally shortage occupations and so will not feature, but it is unlikely that there will be difficulty in filling such posts.

Curriculum

Mr. Rosindell: To ask the Secretary of State for Education and Skills whether any changes have been made to *(a)* the primary school curriculum and *(b)* the secondary school curriculum in the past year. [219018]

Derek Twigg: We introduced new flexibilities to Key Stage 4 of the secondary curriculum in September 2004 to enable schools to offer programmes that better meet young people's individual needs and strengths. Pupils are no longer required to learn modern foreign languages and design and technology. Instead schools are required to provide access to a minimum of one course in each of the following areas: the arts; design and technology; the humanities; and foreign languages. Students within Key Stage 4 are able to follow a course of study in a subject within each of these entitlement areas if they wish to do so. We also introduced a new statutory requirement for work-related learning at Key Stage 4.

There have been no other statutory changes to the primary and secondary curriculum in the last year.

Education (Hartlepool)

Iain Wright: To ask the Secretary of State for Education and Skills how much funding per pupil was allocated for *(a)* primary and *(b)* secondary school education in Hartlepool in each year since 1997. [218514]

Mr. Stephen Twigg: The information requested is contained within the following table:

Average funding per pupil, Hartlepool

	£	
	Primary (3 to 10-year-olds)	*Secondary (11 to 15-year-olds)*
1997–98	2,230	3,220
1998–99	2,350	3,280
1999–2000	2,510	3,380
2000–01	2,720	3,740
2001–02	2,890	3,980
2002–03	3,020	4,010
2003–04	3,330	4,210
2004–05	3,450	4,380

Notes:

1. Total funding includes funding via education formula spending/standard spending assessment and revenue grants allocated at an LEA level. It excludes the pensions transfer to EPS and the Learning and Skills Council, and is in real terms.
2. Real terms at 2003–04 prices, based on GDP deflators as at 30 September 2004.
3. Figures reflect relevant sub-blocks of education SSA/EFS settlements and exclude the pensions transfer to EFS and LSC.
4. Total funding also includes all revenue grants in DfES departmental expenditure limits relevant to pupils aged 3–10 and 11–15 and exclude EMAs and grants not allocated at LEA level.
5. The pupil numbers used to convert £ million figures to per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
6. Figures are as reported by the LEA and rounded to the nearest £10.
7. 2003–04 and 2004–05 figures are provisional as some grants have not yet been finalised/audited.
8. 1997–98 figures for LEAs subject to local government reorganisation in that year have been estimated, pro-rate to their post LGR figures.

New Approaches to Contact

Mr. Forth: To ask the Secretary of State for Education and Skills (1) when the Department's Design Team planning the Family Resolutions Pilot Project met the New Approaches to Contact organisation; [216440]

(2) when the Minister of State for Children, Young People and Families met the Director of New Approaches to Contact as referred to in the letter from the Minister to the right hon. Member for Bromley and Chislehurst of 24 January (ref 2004/0065500POMH). [216442]

Margaret Hodge: Neither I, nor the Design Group, nor the Steering Group, for the Family Resolutions Pilot Project have met New Approaches to Contact (NATC).

Individual members of the Design Group for the Family Resolutions Pilot Project and my noble Friend the Parliamentary Under Secretary of State for Children and Families have met the Director of New Approaches to Contact, to discuss his early interventions proposals.

My reply of 24 January 2005 to correspondence of 29 November 2004 from the hon. Member (ref 2004/0065500POMH) contained an error in stating that I had met the Director of NATC to discuss the Early Interventions project. My noble Friend the Parliamentary Under Secretary of State for Children and Families met the Director of New Approaches to Contact .

Local Intervention and Development Fund

Mr. Willis: To ask the Secretary of State for Education and Skills under which line in the Budget 2004 Annual Report the Local Intervention and Development Fund appears; and what the projected budget for the fund is for each year from 2005–06 to 2009–10. [218684]

Mr. Ivan Lewis: The Local Intervention and Development (LID) Fund is administered by the Learning and Skills Council (LSC) and appears within the LSC figures in Chapter 2 and Annex B to the 2004 Annual Report. For 2005–06, 2006–07 and 2007–08 a budget for the LID fund of £195 million in each year was set out in the LSC Grant Letter published on 15 November 2004. Figures from 2008–09 onwards have not yet been set.

Music

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the Department's policy is regarding the position of music education in the school curriculum. [219016]

Mr. Stephen Twigg: The Department's commitment to music education is set out in the Music Manifesto and the national curriculum.

We recognise the importance of music in schools both as a subject in its own right and as a means of driving up standards across the curriculum. Music is a statutory entitlement for all pupils up to the age of 14, and can be taken as an option at Key Stage 4.

Primary Teachers

Charles Hendry: To ask the Secretary of State for Education and Skills how many graduates have entered teaching at primary education level in each year since 1997; and if she will make a statement. [218807]

Mr. Stephen Twigg: The following table shows the number of graduates with qualified teacher status entering service for the first time in maintained nursery and primary schools from 1996–97 to 2002–03, the latest year available.

	Full and part-time entrants
2003[1]	13,410
2002[1]	14,250
2001	13,590
2000	13,640
1999	12,670
1998	13,480
1997	12,670

[1] Provisional data: The numbers shown in service may change as a result of late receipt of annual service returns.

Source:

Database of Teachers' Records.

Figures include teachers who have qualified in the previous calendar year and those who have no known service in the English maintained sector and qualified before the previous calendar year. It is possible that a very small number of this latter group are not graduates.

10–20 per cent. of part-time teachers may not be included in the data.

School Funding Arrangements

Mr. Kidney: To ask the Secretary of State for Education and Skills whether she plans to extend the consultation period for her consultation on new school funding arrangements if a General Election intervenes before the closing date of 13 May. [218539]

Mr. Stephen Twigg: Guidance on the conduct of Government business, including the handling of consultation exercises, will be published by the Cabinet Office on the announcement of a General Election.

School Violence

Mr. Rosindell: To ask the Secretary of State for Education and Skills what her Department's policy is on dealing with violence taking place in primary and secondary schools. [219363]

Derek Twigg: Although violence in schools is rare the Government takes the issue very seriously. We have made it clear that head teachers may permanently exclude pupils for violence even when this is a first offence. But it is even more important to help schools create an environment that reduces the risk of violence to an absolute minimum. To achieve that we have:

given every secondary school access to high-quality behaviour management training materials and expert advice from behaviour management consultants;

funded extra support for schools facing the greatest challenges through our Behaviour Improvement Programme;

provided £120 million for school security improvements since 1997; and

based over 300 police officers in schools.

In addition we are:

giving every primary school access to high-quality behaviour management training materials and curriculum materials for developing pupils' social, emotional and behavioural skills;

developing staff training and curriculum materials to help secondary schools develop the social, emotional and behavioural skills of their pupils;

developing specific violence prevention materials through our Violence Reduction in Schools project; and

consulting on new proposals on keeping knives out of schools, including searching suspect pupils.

Sexual Abuse

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what estimate she has made of the number of individuals under the age of 18 years who had been sexually abused who received support and counselling in each of the last five years. [218655]

Margaret Hodge: The requested information is not collected centrally.

Targets

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of progress towards the Public Service Agreement target to increase the percentage of school children who spend a minimum of two hours each week on high quality PE and school sport from 25 per cent. in 2002 to 75 per cent. in 2006. [219210]

Derek Twigg: Progress in delivering the Public Service Agreement target—which the Department for Education and Skills shares with the Department for Culture, Media and Sport—is monitored annually via the national PE, School Sport and Club Links survey. This is the largest and most comprehensive survey of school sport in England.

Good progress is being made. The 2003/04 survey, in which over 6 500 schools took part, showed that 62 per cent. of children were spending two hours in a typical week on high quality PE and school sport within and beyond the curriculum. The survey results were published on 29 April 2004 and a copy of the report "The Impact of School Sport Partnerships: The Results of the 2003/04 PE, School Sports and Club Links Survey" has been placed in the House of Commons Library.

Schools will take part in the 2004/05 survey between May and July this year and the results will be published later in the year.

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) what recent assessment she has made of whether the Public Service Agreement target to reduce school absence by 8 per cent. compared to 2003 will be met by 2008; [219215]

(2) whether the Public Service Agreement target for 2004 to reduce school truancies by 10 per cent. compared to 2002 was met. [219209]

Derek Twigg: Schools appear well on course to meet the Public Service Agreement target to reduce school absence by 8 per cent. compared to 2003 by 2008. Absence data for state schools covering the autumn term 2004 was placed in the Libraries of both Houses on 24 February 2005. The data indicate that the level of absence from state schools has fallen to 6.17 per cent.—a decrease of 11 per cent. from 2002/03 and equivalent to over 50,000 more pupils in school each day.

The Public Service Agreement target to reduce the 2002 level of unauthorised absence by 10 per cent. by 2004 was not met as the level remained unchanged at 0.72 per cent. Unauthorised absence has remained near to 0.7 per cent. since national records for school attendance began in 1993/94.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the Public Service Agreement target to improve the basic skills levels of 2.25 million adults by 2010 will be met. [219219]

Mr. Ivan Lewis: The Government reported in December 2004 that it had been successful in meeting its Public Service Agreement (PSA) target to improve the literacy, language and numeracy skills of 750,000 adults by 2004. The most recent estimates show 827,000 adults have attained at least one qualification in literacy, numeracy or language since the launch of "Skills for Life" in 2001. Due to continued commitment and development of the Skills for Life Strategy we remain confident that we are on track to meet the challenging 2010 target of improving the literacy, language and numeracy skills of 2.25 million adults.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the Public Service Agreement target for at least 28 per cent. of young people to start a modern apprenticeship by age 22 by 2004 was met. [219251]

Mr. Ivan Lewis: This is a 2004/05 academic year PSA target against which we are due to measure progress in July 2005. In the last full academic year 2003–04 the proportion of young people starting an apprenticeship had risen to 24.8 per cent.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether, in accordance with the Public Service Agreement's targets for minimum performance and value for money have been set for further education colleges; and whether these targets have been met. [219253]

Mr. Ivan Lewis: The Public Service Agreement committed Government to set minimum performance and value for money targets for further education colleges. The Learning and Skills Council (LSC) set the minimum performance targets in May 2003. Each college has been set a minimum standard for learner achievement. Success rates are continuing to improve in colleges and we expect every college to meet or exceed the minimum standard by 2006. On latest data, the percentage of Further Education and Sixth Form Colleges below this standard (for both short and long qualifications) has fallen from 30 per cent. in 2000–01 to 15 per cent. in 2002–03.

Value for money targets for colleges have not yet been set. The Department and LSC will develop and trial new value for money indicators during 2005/06 and implement new measures from 2006/07.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the Public Service Agreement target to improve the basic skills levels of 750,000 adults as a result of the launch of the Skills for Life initiative was met in 2004. [219259]

Mr. Ivan Lewis: I reported in the House of Commons on 9 September 2004 that the Government had met its Public Service Agreement (PSA) target to improve the literacy, language and numeracy skills of 750,000 adults by 2004. I refer the hon. Gentleman to 9 September 2004, *Official Report*, column 851.

This announcement was confirmed on the 6 December 2004, with the release of a press notice in England.

Since the launch of the Skills for Life Strategy in 2001, 2.4 million adults across England have taken up 4.8 million courses in literacy, language and numeracy skills. Over 750,000 of these learners have gone on to achieve nationally recognised qualifications.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the Public Service Agreement target to improve the basic skills levels of 1.5 million adults will be met by 2007. [219260]

Mr. Ivan Lewis: The Government reported in December 2004 that they had been successful in meeting their Public Service Agreement (PSA) target to improve the literacy, language and numeracy skills of 750,000 adults by 2004. The most recent estimates show 827,000 adults have attained at least one qualification in literacy, numeracy or language since the launch of "Skills for Life" in 2001. Due to continued commitment and development of the Skills for Life strategy we remain confident that we are on track to meet the challenging 2007 target of improving the literacy, language and numeracy skills of 1.5 million adults.

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) what recent assessment she has made of whether the Public Service Agreement target to reduce by at least 40 per cent. the number of adults in the workforce who lack NVQ 2 or equivalent qualifications by 2010 will be met; [219261]

(2) what recent assessment she has made of whether the Public Service Agreement target for one million adults in the workforce to achieve Level 2 by 2006 will be met. [219262]

Mr. Ivan Lewis: We welcome the continuing increase in the number of adults who have at least NVQ level 2, as published in the Labour Force Survey Statistical First Release on 24 February.

We are taking action to increase the numbers of adults getting level 2 qualifications and the forthcoming Skills White Paper will set out clear proposals for raising the numbers of adults getting qualifications at level 2 and above.

If we maintain the progress made over recent years, we are on course to achieve the target of one million adults getting a level 2 by 2006; and through a combination of public and private investment, to make progress towards the 2010 target.

Teachers

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how long teachers stayed in the profession in England according to the most recently produced statistics; and what percentage of teachers retired from the profession in the last year for which figures are available. [218065]

Mr. Stephen Twigg: Of those teachers entering service in 1993, 63 per cent. were in service in the maintained sector 10 years later (at March 2003). Of those entering in 1998, 77 per cent. were in service five years later. Some teachers may have not have been in service continually.

In 2002–03, 9,260 full or part-time teachers retired from regular service in the maintained sector, 2.0 per cent. of the number in service in March 2002.

TREASURY

Citizens Advice Bureaux

Mr. Fallon: To ask the Chancellor of the Exchequer whether citizens advice bureaux will be eligible for assistance from the new Financial Inclusion Fund towards their money advice services. [218988]

Mr. Timms: Yes. Further details on the breakdown of the fund, including eligibility criteria will be announced in due course.

Correspondence

Mr. Frank Field: To ask the Chancellor of the Exchequer when he expects to reply to the letter of the right hon. Member for Birkenhead of 4 February regarding the tax credits of his constituent Mr. Williams. [219385]

Dawn Primarolo: I understand that the Inland Revenue has replied to the right hon. Member.

They aim to reply to 80 per cent. of correspondence within 15 working days and 95 per cent. within 40 working days.

Mr. Frank Field: To ask the Chancellor of the Exchequer when he expects to reply to the letter of the right hon. Member for Birkenhead of 9 February regarding the tax credits of his constituent Mrs. Smith. [219386]

Dawn Primarolo: The Inland Revenue have told me that they will be replying to the right hon. Member very shortly.

They aim to reply to 80 per cent. of correspondence within 15 working days, and 95 per cent. within 40 working days.

Employment (Hartlepool)

Iain Wright: To ask the Chancellor of the Exchequer (1) what proportion of the workforce in Hartlepool was

employed in *(a)* the public sector, *(b)* the manufacturing industry, *(c)* the service sector and *(d)* farming and agriculture in (i) 1997 and (ii) the last year for which figures are available; [218806]

(2) how many people were in employment in Hartlepool in each year since 1992. [218503]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Iain Wright, dated 2 March 2005:

As National Statistician, I have been asked to reply to your Parliamentary Questions about the number of people employed in Hartlepool and the proportion of the workforce employed in selected industries in Hartlepool (218503, 218806).

The attached tables show the available information requested.

Table 1 shows estimates of the number of employed people resident in Hartlepool and are taken from the Labour Force Survey. Estimates are for 12 month periods ending in February from 1995, the first year in which these statistics are available for Parliamentary Constituencies, to 2004.

Table 2 shows estimates of employees working in the public sector resident in Hartlepool as a proportion of all in employment, for 12 month periods ending February in 1999, 2002 and 2004. Equivalent figures for 1997 are not available for Parliamentary Constituencies.

Tables 3 shows estimates of the proportion of total employees jobs in Hartlepool which are in the manufacturing industry, the service sector and in agriculture and fishing industries. These figures are taken from the Annual Business Inquiry. Estimates are provided for 1997 and 2002, the latest available year for Parliamentary Constituencies.

Table 1: Number of employed people resident in Hartlepool parliamentary constituency

12 months ending February	*Number*
1995	28,000
1996	34,000
1997	37,000
1998	35,000
1999	34,000
2000	32,000
2001	35,000
2002	36,000
2003	34,000
2004	35,000

Note:
LFS estimates are subject to sampling variability. Changes from year to year in particular should be treated with caution.
Source:
Labour Force Survey

Table 2: Employees in the public sector resident in Hartlepool as a proportion of all in employment

12 month period ending February	*Percentage*
1999[1]	24.5
2002	23.7
2004	25.5

[1] LFS estimates are not available for 1997.

Note:
LFS estimates are subject to sampling variability. Changes from year to year in particular should be treated with caution.
Source:
Labour Force Survey

Table 3: Employee jobs[1] in Hartlepool in selected industries as percentages of all employment

	Manufacturing	*Total services*	*Percentage Agriculture and fishing[2, 3]*
1997	23.3	63.3	0.1
2002	18.2	73.7	.

[1] Excludes self-employed jobs.
[2] These figures are aggregates from which agriculture class 0100 (1992 SIC) have been excluded.
[3] Estimates for agriculture and fishing for 2002 are not given to conform with the 1947 Statistics of Trade Act, preventing release of data that may disclose companies.
Source:
2002; Annual Business Inquiry, 1997; Annual Employment Survey (re-scaled).

Energy Products Directive

Mr. Simon Thomas: To ask the Chancellor of the Exchequer if he will commission research on the earning levels of owners of private leisure craft who have benefited from rebated diesel under the Energy Products Directive. [218954]

John Healey: This information is not available and could be obtained only at disproportionate cost.

EU Committees

Angus Robertson: To ask the Chancellor of the Exchequer (1) how many times during the *(a)* Italian and *(b)* Irish presidency of the EU the Customs Co-operation Committee-EEC Cyprus met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement; [218851]

(2) how many times during the *(a)* Italian and *(b)* Irish presidency of the EU the Customs Co-operation Committee-EEC Malta met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218852]

Dawn Primarolo: This committee is the responsibility of the European Commission. No UK Government expert was present.

Health Expenditure

Iain Wright: To ask the Chancellor of the Exchequer what the per capita spending on health in each year since 1997 was in *(a)* England, *(b)* the North East and *(c)* Hartlepool. [218801]

Mr. Boateng: Expenditure based on individual constituencies is not available. The closest match for Hartlepool is Tees health authority area, and its successor County Durham and Tees Valley strategic health authority. Public expenditure per capita on health in these areas, in the North East and in England is shown in the following table.

£

	England	*North East*	*Tees health authority*	*County Durham and Tees valley strategic health authority*
1997–98	710	586	556	n/a
1998–99	750	635	623	n/a
1999–00	820	749	771	n/a

£

	England	North East	Tees health authority	County Durham and Tees valley strategic health authority
2000–01	890	796	824	n/a
2001–02	990	879	858	n/a
2002–03	1,120	995	n/a	991
2003–04	1,280	1,081	n/a	1,075

Notes:

1. Public spending on health per capita in England will always appear higher because many areas of health expenditure are funded centrally and are not factored into local health authority spending. These include medical research, the funding of Special Health Authorities, NDPBs and some central budgets.
2. Expenditure per capita for health authorities and the North East is taken from audited health authority summarisation forms and primary care trust summarisation schedules that are prepared on a resource basis and therefore differ from cash allocations in the year. Weighted capitation figures are used to determine expenditure per capita—these are population figures that are weighted to reflect differing needs. Figures are given in cash terms.
3. Figures for 1997–98 to 2001–02 have been prepared using gross expenditure figures. Figures for 2002–03 and 2003–04 have been adjusted to eliminate expenditure that would be double counted where an authority acts as a lead in commissioning healthcare or other services.

Iraq

Harry Cohen: To ask the Chancellor of the Exchequer if he will match the United States' commitment to top up the Paris Club deal in respect of Iraq's debt by a bilateral agreement taking the debt write-off to 100 per cent.; and if he will make a statement. [208732]

Mr. Timms: The UK has been at the forefront of efforts to help rehabilitate Iraq's economy. The UK fully supported a generous debt treatment for Iraq at the Paris club meeting of 21 November at which it was agreed to write off 80 per cent. of Iraq's debt in order to provide a robust exit from debt unsustainability. Under the Paris Club deal, no payments are due from Iraq to Paris Club creditors until 2008. In addition to supporting the IMF and World Bank in providing assistance, the UK has pledged £544 million in direct aid over three years to March 2006, of which over £331 million has been committed. These funds are bringing immediate benefits to the Iraqi people. We continue to keep options to support Iraq's economy under review.

Law and Order Expenditure

Iain Wright: To ask the Chancellor of the Exchequer what the per capita spending on law and order was in each year since 1997 in *(a)* England and Wales, *(b)* the North East and *(c)* Hartlepool. [218787]

Mr. Timms: The information is as follows:

Spending in England and Wales

To enable proper comparison to other regions, the following data shows total per capita spending on Public Order and Safety that can be identified as spending for a region within England and Wales. This is different from total per capita-spending as it excludes expenditure that cannot be identified as spending for a region.

£

	England	Wales
1998–99	246	240
1999–2000	245	237
2000–01	265	260
2001–02	300	295
2002–03	323	320

Source:

Public Expenditure Statistical Analysis 2004, ONS Population Data

Spending in the North East

Per capita spending on Public Order and Safety in the North East is outlined as follows. This shows only expenditure that can be identified as spending for the North East.

£

1998–99	279
1999–2000	301
2000–01	319
2000–02	345
2002–03	387

Source:

Public Expenditure Statistical Analysis 2004

Figures are not provided for 1997–98 as there are not comparable sources of data across all of these fields for this year.

Data is collected on the basis of "Public Order and Safety" as HMT functional analyses are based on the UN standard classification of the functions of Government. Public Order and Safety includes police, fire, administration of justice, prison and offender programmes and immigration and citizenship.

Regional data for 2003–04 will be announced in PESA 2005 later this year.

Data is not held for spending in Hartlepool.

Further information can be found in PESA 2004 (Table 8.10) and a full definition of identifiable and non-identifiable spending can be found in paragraph 8.15 of PESA 2004.

MRSA

Chris Grayling: To ask the Chancellor of the Exchequer how many recorded deaths from MRSA there have been in the East Elmbridge and Mid Surrey area in each of the past five years. [219408]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Chris Grayling, dated 2 March 2005:

As National Statistician, I have been asked to reply to your recent question asking how many recorded deaths from MRSA there have been in the East Elmbridge and Mid Surrey area in each of the past five years. (219408)

The latest year for which figures are available is 2003. Numbers of deaths where MRSA was a contributory factor are given in the table below.

Number of deaths where MRSA was a contributory factor,[1] East Elmbridge and Mid Surrey Primary Care Trust, 1999–2003[2]

	Number of deaths where MRSA was a contributory factor
1999	[3]

Office for National Statistics

Pensions

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will defer the proposed reforms to the public sector pension scheme pending further consultation. [219279]

Mr. Timms: Each public service pension scheme is the subject of a separate review led by the responsible Department. Schemes have been consulting on proposals for reform. In some cases consultation is over, in other cases consultation is still in progress. To allow consideration of all the relevant issues, including the appropriate timetables for implementing reforms, it is right for the reviews to continue, accepting representations from all those affected, as at present.

Population Census

Mr. Amess: To ask Mr Chancellor of the Exchequer what representations he has received about the conclusions of the last Census on the population of towns. [219429]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Amess, dated 2 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what representations have been received about the conclusions of the last Census on the population of towns. 219429

Between September 2002, when the 2001 Census results were published and February 2005, The Office for National Statistics has received letters of concern regarding the published population figures from the 2001 Census from 44 Local Authorities.

In addition to the representation made by Southend-on-Sea, we are aware of six others having been made.

Public Sector Accounts

Mr. Damian Green: To ask the Chancellor of the Exchequer if he will list the changes made to the definitions of capital spending in the Public Sector Accounts since May 1997. [218916]

Mr. Boateng: The Public Sector Accounts are drawn up by the ONS. They are based on the definitions in the European System of Accounts (ESA 95), which are determined by Eurostat. Interpretation of these standards is a matter for the ONS.

School Buildings

Mr. Damian Green: To ask the Chancellor of the Exchequer what changes he has made to the scope and definitions of the repair of school buildings in the Public Sector Accounts since May 1997; and if he will make a statement. [218915]

Mr. Boateng: The Public Sector Accounts are drawn up by the Independent ONS. They are based on the definitions in the European System of Accounts (ESA 95), which are determined by Eurostat. Interpretation of these standards is a matter for the ONS.

Tax Credits

John Thurso: To ask the Chancellor of the Exchequer how many recipients of *(a)* working and *(b)* child tax credit award notices issued in 2003–04 who queried the accuracy of the Revenue's calculations and received no response within the 30-day period are being asked to make repayment; and if he will make a statement. [218543]

Dawn Primarolo: The Inland Revenue (IR) do not hold the information in the format requested.

The IR's Code of Practice 26 ("What happens if we have paid you too much tax credit?") sets out their approach to handling overpayments of tax credits.

Mr. Pope: To ask the Chancellor of the Exchequer what estimate he has made of the total value of over-payments of working tax credits in the last year for which figures are available. [218549]

Dawn Primarolo: For working tax credit and child tax credit, I refer my hon. Member to my reply to the hon. Members for Northavon (Mr. Webb) and Yeovil (Mr. Laws) on 15 November 2004, *Official Report*, columns 946–48W.

For the previous system of working families' and disabled person's tax credits, I refer the hon. Member to my answer to the hon. Member for Eddisbury (Mr. O'Brien) on 12 November 2003, *Official Report*, column 394W.

Mr. Dhanda: To ask the Chancellor of the Exchequer if he will make it his policy for child care provided by grandparents to be considered eligible for the working tax credit child care element. [218610]

Dawn Primarolo: The child care element of working tax credit is only available for the costs of formal child care and is in line with the Government's commitment to promote good quality and safe provision.

Relatives can provide a high standard of child care in a safe environment but the Government do not wish to impose requirements of registration on family members.

If grandparents are registered childminders, then the cost of their services will count as eligible child care for the purposes of claiming the child care element of the

working tax credit. However, if the child care is being provided from the child's home, then it will not be treated as eligible child care.

Mr. Drew: To ask the Chancellor of the Exchequer how long it took on average for an adjudication decision on a tax credit to be made in the last year for which figures are available. [218642]

Dawn Primarolo: The Inland Revenue's aim is to decide 55 per cent. of all new tax credits claims, renewals and changes of circumstances within five working days of receipt, and 95 per cent. within 30 working days. They published their performance for 2003–04 against these targets in their Annual Report for the year ending 31 March 2004 and this is available at www.inlandrevenue.gov.uk. They are on course to meet the targets for 2004–05.

Mr. Drew: To ask the Chancellor of the Exchequer how many people in the Stroud constituency have current cases in the adjudication process for tax credit overpayments. [218644]

Dawn Primarolo: This information is not available.

VAT (Further Education Colleges)

Mr. Grieve: To ask the Chancellor of the Exchequer if he will reduce the level at which further education colleges pay VAT to the same level as that applicable to the school sector. [219423]

Dawn Primarolo: I refer the hon. Member to the answer I gave on 1 February 2005, *Official Report*, column 762W to the hon. Member for Aylesbury (Mr. Lidington).

TRANSPORT

Cancer

Dr. Gibson: To ask the Secretary of State for Transport what policies his Department has in place for supporting employees with cancer. [218673]

Charlotte Atkins: The Department and its agencies have access to Occupational Health Advisers and Counselling and Support Services/Employee Assistance Programmes, which would be used to provide specialist support and advice to employees suffering with cancer.

Our attendance management policies and medical referral protocols are sympathetic to individuals suffering from cancer.

Driving Instruction

Mr. Pike: To ask the Secretary of State for Transport what research his Department collected to inform the decision that compulsory motorway tuition is unnecessary; and if he will make a statement. [218774]

Mr. Jamieson: The Department collects statistics and carries out research to help inform road safety policy. In 2003, there were 14,839 car drivers involved in injury road accidents on Britain's motorways. Of these car drivers, 258 were aged 17–18 and 309 were aged 19. However, casualty statistics do not take account of the amount of driving done on motorways by different categories of drivers.

Research for the Department published in 2002 indicates that although young novice drivers are more at risk than other drivers in all or most situations, motorways do not present them with a disproportionately higher risk than other road types.

The research report, TRL 527, is available in the Libraries of the House and on-line, at www.trl.co.uk/static/dtlr/pdfs/TRL527.pdf. Paragraphs 7.3.4 and 7.3.5 and figures 17 and 18 on page 19 refer.

Driving Licence (Medical Checks)

Sir Paul Beresford: To ask the Secretary of State for Transport whether he plans to introduce compulsory medical checks when driving licence holders reach the age of 70; and if he will make a statement. [219393]

Mr. Jamieson: At present there is no clear evidence to suggest that mandatory medical examinations for drivers at the age of 70 would result in a marked improvement to road safety sufficient to justify the potential inconvenience and expense for the majority of drivers, who remain fit to drive.

London Commuters

John Thurso: To ask the Secretary of State for Transport what the *(a)* passengers in excess of capacity and *(b)* total number of passengers figure was (i) for each London commuting service train operator and (ii) in total, broken down into (A) am peak and (B) pm peak figures measured in the annual survey in 2004; and what the number was of peak passengers into London for (1) am peak periods, (2) pm peak periods and (3) in total for each London commuting service train operator. [218212]

Mr. McNulty: The results of the autumn 2004 counts are not yet available. The results of the autumn 2003 counts are shown in the following table. The "Passengers In Excess of Capacity" (PIXC) mechanism monitors services into London in the morning peak and out of London in the evening peak.

	Am peak		*PM peak*		
Operator	*Load*	*PIXC (percentage)*	*Load*	*PIXC (percentage)*	*PIXC total (am and pm) (percentage)*
Chiltern	9,191	3.3	8,157	0.8	2.1
South Central	69,127	4.7	52,083	1.1	3.1
Connex South Eastern	118,162	3.1	92,048	0.5	2.0
Great Eastern	49,739	2.1	46,358	2.1	2.1
c2c	26,643	1.3	23,619	0.6	1.0
Silverlink	19,824	6.0	17,395	2.1	4.2
South West Trains	81,670	7.4	70,373	2.8	5.2
Thames	11,054	2.0	8,977	0.9	1.5

Operator	Am peak Load	Am peak PIXC (percentage)	PM peak Load	PM peak PIXC (percentage)	PIXC total (am and pm) (percentage)
Thameslink	27,131	2.3	23,218	2.7	2.5
WAGN	47,367	1.5	43,003	1.3	1.4
Total	459,908	3.8	385,231	1.5	2.7

Taxis

Mr. Betts: To ask the Secretary of State for Transport what estimate he has made of the number of taxis per head of population in each metropolitan authority. [218390]

Charlotte Atkins: The estimates are given in the following table.

Met. district	Taxis per 1,000 head of population
Gateshead	0.9
Newcastle on Tyne	3.1
North Tyneside	0.7
South Tyneside	1.5
Sunderland	1.1
Knowsley	1.6
Liverpool	3.2
St. Helens	0.4
Sefton	1.0
Wirral	0.6
Bolton	0.4
Bury	0.5
Manchester	1.9
Oldham	0.4
Rochdale	0.5
Salford	0.4
Stockport	0.4
Tameside	0.7
Trafford	0.5
Wigan	0.4
Bradford	0.5
Calderdale	0.3
Kirklees	0.6
Leeds	0.6
Wakefield	0.3
Barnsley	0.3
Doncaster	0.4
Rotherham	0.2
Sheffield	1.1
Birmingham	1.1
Coventry	1.7
Dudley	0.5
Sandwell	0.1
Solihull	0.2
Walsall	0.2
Wolverhampton	0.4

Mr. Betts: To ask the Secretary of State for Transport which metropolitan councils have placed limits on the numbers of licensed taxis; what the limits are in each case; and which metropolitan councils have placed no limits on the number of taxis. [218391]

Charlotte Atkins: Our latest statistics, as at 31 March 2004, show that 26 metropolitan authorities place a limit on the number of taxis they license. Those authorities, together with their respective limits, are listed as follows:

Authority	Number
Newcastle on Tyne	2,000
South Tyneside	224
Sunderland	306
Knowsley	240
Liverpool	1,417
Sefton	271
St Helens	63
Bolton	104
Manchester	833
Oldham	85
Rochdale	103
Salford	78
Stockport	114
Tameside	143
Trafford	103
Wigan	136
Bradford	224
Calderdale	[1]65
Kirklees	217
Leeds	402
Wakefield	96
Barnsley	65
Rotherham	48
Solihull	32
Walsall	60
Wolverhampton	92

[1] Limit applies in only one licensing zone.

10 metropolitan authorities do not impose a limit on the number of taxis they license:

Gateshead
North Tyneside
Wirral
Bury
Doncaster
Sheffield
Birmingham
Coventry
Dudley
Sandwell

We have written to those authorities which control taxi numbers requesting that they undertake a review of their policy, and if they decide to retain a limit that they publish a justification of that policy by the end of March 2005.

TRADE AND INDUSTRY

Arms Exports (Indonesia)

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 13 January 2005, *Official Report*, column 627W on arms exports (Indonesia) if she will provide a breakdown of the most recent repayment schedule for the sums owed by Indonesia in connection with the Indonesian purchases of *(a)* Scorpion and Stormer vehicles and *(b)* Hawk aircraft. [217443]

Mr. Alexander: Repayments in respect of the amounts referred to in my previous answer are due to be made in half-yearly instalments, the next falling due on 1 June 2005 and the last on 1 June 2021.

Because details of amounts owed to the Paris Club are not held at contract level, it is not possible to provide repayment schedules in relation to individual contracts.

Business Regulation

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what discussions she has had with businesses to review current levels of regulation. [217357]

Nigel Griffiths: I maintain close and regular contact with business. Businesses are routinely invited to participate in consultations on new policy and legislative proposals.

Business Regulatory Costs

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what estimate her Department has made of the financial burden of business regulation for 2004. [217363]

Nigel Griffiths: All proposals which impact on business, charities or the voluntary sector require a Regulatory Impact Assessment (RIA) which includes details of the costs, benefits and risks of the proposal. Copies of final RIAs are available from the House Libraries and on departmental websites. We consult fully on proposals on the basis of these RIAs with business and other stakeholders.

Business Start-ups (Hartlepool)

Iain Wright: To ask the Secretary of State for Trade and Industry how many business start-ups were registered in Hartlepool in each year since records for unitary authorities are available. [218511]

Nigel Griffiths: Barclays data show that there were 400 business start-ups in Hartlepool unitary authority in 2003 and a further 500 in the first nine months of 2004. This represents a 67 per cent. increase on the first nine months of 2003.

Business start-up data for unitary authorities are not available for before 2003. Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 445,000 business start-ups in England and Wales in 2003, a 16 per cent. increase on the year before. A further 396,000 businesses started up in England and Wales in the first nine months of 2004. This represents an increase of 14 per cent. on the first nine months of 2003.

DTI figures based solely on VAT registrations and de-registrations for Hartlepool unitary authority are shown below for 1994 to 2003. Data for 2004 will be available in autumn 2005.

VAT registrations	*Hartlepool*
1994	145
1995	95
1996	105
1997	110
1998	130
1999	110
2000	110
2001	115
2002	105
2003	135

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2003, Small Business Service, available from the Library of the House and also at: http://www.sbs.gov.uk/analytical/statistics/vatstats.php.

A separate series of data is available for 1980 to 1993. Due to large increases in the VAT threshold in 1991 and 1993, and geographical boundary changes in the 1990s, this series is not comparable to the 1994 to 2003 series. DTI figures based solely on VAT registrations and de-registrations for Hartlepool are shown in the table for 1980 to 1993.

VAT registrations in Hartlepool 1980 to 1993

	Number
1980	130
1981	160
1982	180
1983	200
1984	195
1985	210
1986	220
1987	195
1988	235
1989	230
1990	215
1991	165
1992	170
1993	155

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1980–1993, Small Business Service, available from http://www.sbs.gov.uk/analytical/statistics/vatstats.php

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

Debt Recovery

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 10 February 2005, *Official Report*, column 1788W, on debt recovery, what the repayment schedule for each of the countries listed is; and what the estimated cost to the Government of rescheduling the debts is. [217612]

Mr. Alexander: The following table shows repayment schedules for debt that has been rescheduled under Paris Club agreements. Repayments are due to be made in half-yearly instalments.

Market	*Next payment due*	*Final payment due*
Algeria	31 May 2005	30 November 2011
Ghana	01 April 2005	01 July 2025
Indonesia	01 June 2005	01 June 2021
Pakistan	31 May 2005	30 November 2024

The details of non-Paris Club rescheduling arrangements are Commercial in Confidence. To reveal details would compromise ongoing negotiations with similar debtors.

In addition to the premium that ECGD charges for insuring or guaranteeing a risk, the debt agreements through which recoveries of claims are made earn interest which is expected to cover the cost of funding the outstanding debt, including administration costs.

Digital Tick Logo

Mr. Sayeed: To ask the Secretary of State for Trade and Industry what the take-up has been to date of the digital tick logo indicating digitally compatible products and service among manufacturers and retailers; what the cost of the scheme has been so far; and if she will make a statement on the take-up of digital products and services. [218603]

Mr. Mike O'Brien: The Digital Switchover Logo licensing scheme was open to receive licence applications from manufacturers and retailers from 16 September 2004. As at Thursday 18 February 2005, manufacturer and retailer licensees of the logo numbered:

245 retail organisations, representing 2,303 retail outlets across the UK

20 manufacturers of digital television equipment (including most major brands)

8 manufacturers of television aerials and/or coaxial cable

Those companies who applied within the first seven weeks of the scheme, and single branch independent electrical retailers, were not required to pay an administration fee for the first year of the scheme. Once the founder member period, ended, all subsequent applicants were charged an administration fee.

Ellington Colliery

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what discussions she has had with *(a)* the National Union of Mineworkers and *(b)* UK Coal about (i) safety of and (ii) the proposal to close Ellington Colliery. [219070]

Mr. Mike O'Brien: I have held discussions with representatives of both the National Union of Mineworkers and UK Coal. A range of issues were discussed.

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry if she will make a statement on the proposed closure of Ellington Colliery. [219072]

Mr. Mike O'Brien: As a privately owned company, UK Coal is the operator of Ellington, and any decision taken is a commercial one for the company. However, the Government do deeply regret the loss of Ellington, and our sympathies are with the workforce and their families at this difficult time. One North East is working with its partners on plans to assist regeneration in the in the area and offer the best possible new job opportunities for Ellington workers.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on medical devices met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217886]

Ms Rosie Winterton: I have been asked to reply.

The committee on safety of devices (CSD) is an advisory non-departmental public body. This committee advises on a wide range of device related initiatives in order to help healthcare professionals deliver high standards of care to patients in relation to medical devices.

The CSD met once during the Italian presidency, not at all during the Irish presidency and twice during the Dutch presidency. These meetings took place on 20 November 2003, 1 July 2004, and 18 November 2004. All the meetings took place in London. The Government expert present was Dr. Susanne Ludgate, clinical director (devices) of the Medicines and Healthcare products Regulatory Agency, which acted as secretariat.

A series of Command Papers on prospects for the European Union—Cm6174, laid in April 2004, Cm 6310, laid in September 2004 and Cm 6450, laid in February 2005, which cover the periods of the above presidencies are available on the Foreign and Commonwealth Office website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Advisory Committee on Common Rules for Exports of Products met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217914]

Mr. Alexander: This Committee did not meet during these presidencies.

Nuclear Industry Safety

Mr. Dalyell: To ask the Secretary of State for Trade and Industry (1) how many site inspections at nuclear installations did not proceed as a result of the recent work-to-rule by inspectors; [217764]

(2) what the full complement of site inspectors is; and how many are employed in monitoring the safety performance of the nuclear industry. [217765]

Mr. Mike O'Brien *[holding answer 24 February 2005]:* No site inspection visits have been cancelled because of the work-to-rule associated with the HSE-wide pay dispute, but some visits have been shorter and have covered fewer topics. Ministers have been advised by the Acting Chief Inspector, Dr. Mike Weightman, that the dispute has not resulted in a less than adequate level of nuclear regulatory oversight to date.

The Health and Safety Executive's Nuclear Installations Inspectorate (NII) has a complement of 179 inspectors to provide regulatory oversight of the civil and defence-related nuclear industries. At present there are 164 inspectors in post, and there is a recruitment campaign underway. Inspectors are deployed flexibly across a wide range of inspection,

project management and assessment duties, all of which contribute to delivery of nuclear safety assurance, including performance monitoring.[1]

NII does not have a fixed complement of site inspectors, but has a nominated lead inspector for every site. At present some 46 inspectors are employed full-time on site inspections (including investigations). In addition some inspectors normally employed on assessment work are also carrying out site inspections.

Parliamentary Questions

Mr. Meacher: To ask the Secretary of State for Trade and Industry when she will reply to the question tabled by the right hon. Member for Oldham, West and Royton on 10 January, reference 207743. [218704]

Mr. Alexander: I answered the question on 17 January 2005, *Official Report*, column 696W.

HOME DEPARTMENT

Asylum Seekers

Mrs. Spelman: To ask the Secretary of State for the Home Department how much central Government grant has been paid to each local authority in England to cover the cost of asylum seeker support in each year since 1996–97. [211919]

Mr. Browne: I refer the hon. Member to the answer I gave her on 9 February 2005, *Official Report*, column 1519W.

Mrs. Spelman: To ask the Secretary of State for the Home Department if he will list the payments and grants made by the Government to each local authority in Wales to reimburse the costs of supporting asylum seekers in each year from 1996–97 to the establishment of the Welsh Assembly. [217879]

Mr. Browne: The information requested is not available in the precise format requested. The available information on grant payments to local authorities in Wales in respect of the support of asylum seekers was given to the hon. Member on 9 February 2005, *Official Report*, column 1519W.

Communicable Diseases

Charles Hendry: To ask the Secretary of State for the Home Department pursuant to the answer of 8 February 2005, *Official Report*, column 1469W, on communicable diseases (NHS staff), whether tests for communicable diseases are *(a)* compulsory and *(b)* required before a visa is issued, in those cases where a visa is necessary. [218730]

Mr. Browne *[holding answer 28 February 2005]:* It is long standing policy that people subject to immigration control who are seeking to enter the UK for more than six months from countries which are high risk for tuberculosis, whether for work or another purpose, should be checked for tuberculosis. High-risk countries are those with an annual incidence rate of over 40 cases of tuberculosis per 100,000 population.

As we made clear in our five-year strategy for asylum and immigration Controlling our borders: Making migration work for Britain (Cm 6472), we will target health screening for tuberculosis in high-risk areas at the entry clearance stage; those who are diagnosed with it would then need to seek treatment at home before being allowed to enter the UK. We are keeping the case for extending routine health checks to diseases other than tuberculosis under review.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for the Home Department how much has been spent on the production of in-house magazines in the Department in each year since 1997. [213638]

Fiona Mactaggart: The Home Office produces one departmental internal magazine centrally, Inside Track. Costs of production are held since April 1998 as follows:

	£
1998–99	109,000
1999–2000	87,000
2000–01	125,000
2001–02	134,000
2002–03	171,000
2003–04	174,000
2004–05	[1]143,000

[1] To January 2005.

Costs of other internal publications in the different business areas of the department are not held centrally and could be obtained only at disproportionate cost.

Mr. George Osborne: To ask the Secretary of State for the Home Department what the cost of staff surveys in the Department was in each year since 1997. [213676]

Fiona Mactaggart: Staff surveys are regularly undertaken within the Home Office to assist understanding of organisational issues and pressures. External survey professionals are used to conduct these surveys and historical trends are evaluated. These surveys have the benefit of concentrating the department's efforts on issues which are considered to be problems by its staff. The cost of conducting the staff survey in the Department are set out in the table.

£

	1997	1999	2000	2001	2003	2004
Non-Agency Home Office	Cost not available	Cost not available	Cost not available	120,475	No survey	75,459
Prison Service	No survey	No survey	30,000	40,000	47,700	[1]23,000
United Kingdom Passport Service	No survey	22,150	No survey	22,250	35,904	No survey
Forensic Science Service	No survey	No survey	12,619	10,175	16,050	8,490

[1] This is the estimated cost of the 2004 survey. The reduction in cost can be attributed primarily from the transfer from a paper based survey to an electronically disseminated questionnaire.

Departmental Policies

Mr. Pike: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Burnley constituency, the effects on Burnley of his Department's policies and actions since 2 May 1997. [214718]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Burnley constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Lancashire police force increased by 332 from 3,247 to 3,579. The Government's introduction of community support officers (CSOs) in 2002 has put 117 CSOs on Lancashire police force streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Lancashire police force area has seen a reduction in recorded domestic burglary crimes of 41 per cent. and in recorded vehicle crimes of 39 per cent.

Lancashire police will receive £190.8 million in general grants for 2005–06, an increase of 4.31 per cent. (£7.9 million) over last year. Lancashire police also gains around £0.4 million from the amending report for 2003–04, bringing the overall increase to 4.52 per cent. General grants funding to Lancashire has increased by 29.9 per cent. between 1997–98 and 2005–06. In addition to general grants, Lancashire will also receive around £17.4 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in the Burnley CDRP area received a total of £426,000 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £760,658 has been allocated to Burnley CDRP under these initiatives. A further £2.3 million has been provided over the two years 2003–04 and 2004–05 to the Home Office regional director in the north west for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Burnley set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's crime reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Burnley a total of 51 antisocial behaviour orders have been issued as of 10 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

- reducing the supply of illegal drugs;
- preventing young people from becoming problematic drug users;
- providing effective treatment to all who need it; and
- reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Burnley has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Lancashire Drug Action Team amounted to £5.47 million, rising to £7.61 million in 2004–05. Details of action taken to tackle drugs in the Burnley constituency can be obtained from the Lancashire Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the "futurebuilders" fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

The Home Office allocated £305,000 community support team funding (2002–04) for Burnley borough council. This funding covered four strands of work: leadership and change management (focusing on training and capacity building for members and officers) as well as providing managerial support, consultation and communications, youth and conflict resolution and race and community relations work.

To support strong and active communities in which people of all races and backgrounds are valued, the Home Office funded a Community Cohesion Pathfinder in East Lancashire for 18 months ending September 2004. Burnley borough council was one of five authorities that made up the East Lancashire Pathfinder (known as East Lanes Together—ELT). The other areas included in this were Pendle, Rossendale, Lancashire county council and Hyndburn.

ELT, for example, set up three different funding streams, which together distributed £275,000 to over 40 bodies and produced 20 Young Community Champions. Through this work, Community Empowerment Networks have run conflict resolution workshops; schools from very different areas have linked up; and local community groups have run multiracial sports and arts events.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office annual report and in the strategic plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mr. Sheerman: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of his Department's policies and actions since 2 May 1997. [216873]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Huddersfield constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the West Yorkshire police force increased by 104 from 5,209 to 5,313. The Government's introduction of community support officers (CSOs) in 2002 has put 298 CSOs on West Yorkshire streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, West Yorkshire has seen a reduction in recorded domestic burglary crimes of 23 per cent. and in recorded vehicle crimes of 6 per cent.

West Yorkshire police will receive £313.6 million in general grants for 2005–06, an increase of 4.95 per cent. (£14.7 million) over 2004–05. West Yorkshire police also gains around £0.6 million from the amending report for 2003–04, bringing the overall increase to 5.15 per cent. General grants funding to West Yorkshire has increased by 31.7 per cent. between 1997–98 and 2005–06. In addition to general grants, West Yorkshire will also receive around £26.1 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local crime and disorder reduction partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Four CCTV projects in the Kirklees CDRP area (which includes Huddersfield constituency) received a total of £438,650 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 crime and disorder reduction partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £2.07 million has been allocated to Kirklees CDRP under these initiatives. A further £1.8 million has been provided over the two years 2003–04 and 2004–05 to the Home Office regional director in the Yorkshire and the Humber for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Kirklees set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's crime reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Kirklees a total of 66 antisocial behaviour orders have been issued as of 21 February 2005. Kirklees is also one of 50 communities across the country that have been designated as 'Together Action Areas' and are set to get extra help to tackle antisocial

behaviour. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Kirklees has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for Kirklees Drug Action Team amounted to £2.32 million, rising to £3.06 million in 2004–05. Details of action taken to tackle drugs in Huddersfield constituency can be obtained from the Kirklees Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

To support strong and active communities in which people of all races and backgrounds are valued, in 2003 the Home Office allocated from the Connecting Communities Fund a total of £590,000 to two, three-year projects in the Kirklees area. A Voluntary Action Kirklees project (grant £338,812) is supporting the development of Asian women's networks to promote greater community involvement from Asian women. Outcomes include partnership work with South Asian Healthy Living to run a confidence project and fitness training programmes. A Kirklees Racial Equality Council project (grant £251,718) is being launched in April 2005 and will see a series of seven faith resource centres, reflecting the major faiths, set up across Kirklees, with books, displays and other information materials. The centres will provide a unique educational experience for local school children and others wishing to learn more about faiths and cultures within Kirklees.

Kirklees has also benefited from participation in the 18-month Community Cohesion Pathfinder Programme, established and launched in 2002 by the Home Office and the Neighbourhood Renewal Unit in the Office of the Deputy Prime Minister. Kirklees was one of 14 successful Pathfinders and was granted £285,000 to explore the best ways of building strong, active, and harmonious communities. Key outcomes from the programme included the 'Learning Lessons' report, which, by establishing what levels of community cohesion already existed, provided a basis for moving forward; and the "Stories in a suitcase" project, which encouraged people over 50 in the community to create a story board reflecting where they had come from. This project was popular with both white and Asian residents living in Kirklees and helped change local perceptions about the differences between community groups.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org.

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Pendle constituency, the effects on Pendle of his Department's policies and activities since 2 May 1997. [21498!]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Pendle constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Lancashire Police Force increased by 332 from 3,247 to 3,579. The Government's introduction of community support officers (CSOs) in 2002 has put 117 CSOs on Lancashire's streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, Lancashire CDRP has seen a reduction in recorded domestic burglary crimes of 41 per cent. and in recorded vehicle crimes of 39 per cent.

Lancashire Police will receive £190.8 million in general grants for 2005–06, an increase of 4.31 per cent. (£7.9 million) over last year. Lancashire Police also gains around £0.4 million from the Amending Report for 2003–04, bringing the overall increase to 4.52 per cent. General grants funding to Lancashire has increased by 29.9 per cent. between 1997–98 and 2005–06. In addition to general grants, Lancashire will also receive around £17.4 million in specific grants funding for targeted initiatives and capital provision

in 2005–06. The distribution of resources locally is a matter for the police authority and the chief constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. One CCTV project in the Pendle CDRP area, which includes the Pendle constituency, received a total of £201,000 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £543,187 has been allocated to Pendle CDRP under these initiatives. A further £2.3 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the North West for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Pendle set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's crime reduction website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Pendle a total of 16 antisocial behaviour orders have been issued as of 22 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk

Mrs. Fitzsimons: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Rochdale constituency, the effects on Rochdale of his Department's policies and actions since 1997. [217373]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Rochdale constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Greater Manchester Police Force increased by 1,189 from 6,922 to 8,111. The Government's introduction of Community Support Officers (CSOs) in 2002 has put 229 CSOs on Greater Manchester's streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, the Greater Manchester Police Force area has seen a reduction in recorded domestic burglary crimes of 16 per cent. and in recorded vehicle crimes of 29 per cent.

Greater Manchester Police Force will be receiving £412.5 million in general grants for 2005–06, an increase of 4.89 per cent. (£19.3 million) over 2004–05. Greater Manchester also gains around £0.8 million from the Amending Report for 2003–04, bringing the overall increase to 5.1 per cent. General grants funding to Greater Manchester Police has increased by 30 per cent. between 1997–98 and 2005–06. In addition to general grants, Greater Manchester will also receive around £39 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Two CCTV projects in the Rochdale CDRP area received a total of £209,536 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1.6 million has been allocated to Rochdale CDRP under these initiatives. A further £1.8 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in the North West for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Rochdale set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Rochdale a total of 54 antisocial behaviour orders have been issued as of 17 February 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp.

Tackling Drug Misuse is a priority of this Government and their policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library). Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Rochdale has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drug Intervention Programme. In 2003–04 the allocation for Rochdale Drug Action Team amounted to £2.04 million, rising to £2.31 million in 2004–05. Details of action taken to tackle drugs in the Rochdale constituency can be obtained from the Rochdale Drug Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

Rochdale was one of the founder members of the Home Office's Civic Pioneers network which now includes 14 local authorities in England. As a 'Civic Pioneer', a local authority shows its commitment to involving and engaging local people in decision making processes and in the design and delivery of local services, so that their involvement in local decision-making can be more diverse, constructive, sustained and rewarding. Rochdale has pioneered devolution to Area Forums and has been innovative in devising ways to engage and motivate young people at risk of offending, through schemes like Junior Wardens and projects to improve the local environment.

To support strong and active communities in which people of all races and backgrounds are valued, the Home Office funded a Community Cohesion Pathfinder in Rochdale over 18 months from April 2003. This invested £150,000 via the local authority and £90,000 via voluntary and community sector partners. The Rochdale Community Cohesion Pathfinder focused on the complexity, diversity and distinctiveness of the local communities and put community partnership at the centre of the programme. Activities engaged a broad cross of people in the borough and included cultural and sports projects, local voluntary and community activity and activities developed by young people themselves. Examples of activity are the Sports United project which targeted territorialism and tension among local young people through the medium of sport and the Multi-faith partnership which promoted dialogue, learning and understanding between different faiths. Rochdale local authority achieved Beacon status for community cohesion.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Entry Clearance (Students)

Mr. Malins: To ask the Secretary of State for the Home Department how many student applications for entry clearance from *(a)* the Indian sub-continent, *(b)* Africa, *(c)* the United States, *(d)* Canada, *(e)* Australia and *(f)* New Zealand there were in (i) 2002, (ii) 2003 and (iii) 2004; how many were (A) granted and (B) refused; how many successful appeals there were against refusal; when he introduced fees for in-country variation of leave for students; and what assessment he has made of the reasons for the change in the number of students coming to the UK between 2002 and 2003. [217616]

Mr. Mullin: I have been asked to reply.

The information on student applications for entry clearance, which are issued and refused for the specified areas, is as follows:

	Visas	April 2001 to March 2002 Issued	April 2001 to March 2002 Refused	April 2002 to March 2003 Issued	April 2002 to March 2003 Refused	April 2003 to March 2004 Issued	April 2003 to March 2004 Refused
(a)	Indian Sub-Continent[1]	16,192	10,502	18,808	14,331	29,409	25,827
(b)	Africa	19,864	8,978	20,551	14,363	19,312	20,501
(c)	US	658	6	699	8	1,917	33
(d)	Canada	219	1	294	1	612	3
(e)	Australia	363	2	355	1	412	2
(f)	New Zealand	74	5	62	7	78	20

[1] Comprised of Chennai (Madras), Colombo, Dhaka, Islamabad, Karachi, Kathmandu, Kolkata (Calcutta), Mumbai (Bombay), New Delhi.

Figures for April 2004 to March 2005 are not yet available. When they are, they can be found, along with further entry clearance statistics, on the UKvisas website at www.ukvisas.gov.uk—"Entry Clearance: Facts and Figures". The figures provided represent pre-entry applications and show a general increase in issues and refusals. The Foreign and Commonwealth Office does not have figures detailing the number of successful appeals that were made against decisions to refuse entry clearance.

The Home Office introduced fees for in-country leave to remain applications in August 2003. A joint project undertaken recently by the Home Office, the Department for Education and Skills, and the British Council includes an assessment of the impact of the charges on the numbers of international students coming to the UK (see particularly Sections 5 and 6 of the report). The report was published on the Home Office website on 7 February 2005 and is available at www.ind.homeoffice.gov.uk (Link through "News"—to "Press Releases and Announcements"—to "2005 IND Fee Review"—to "Improving the Evidence on International Students").

EU Directive 2004/81

Sarah Teather: To ask the Secretary of State for the Home Department pursuant to the answer of 9 December 2004, *Official Report*, column 741W on EU Directive 2004/81, if he will publish the review undertaken. [217585]

Mr. Browne: The cross Whitehall review referred to in my response to the hon. Member, 9 December 2004, *Official Report*, column 741W, was an internal process and was not intended for publication.

Freedom of Information

John Mann: To ask the Secretary of State for the Home Department what categories of information are available

under Freedom of Information legislation that have not been provided in written parliamentary answers by his Department in the last three years. [207835]

Fiona Mactaggart: I refer my hon. Friend to the answer given by the Parliamentary Secretary, Department for Constitutional Affairs (Mr. Leslie) on 24 January 2005, *Official Report*, column 140W.

Dr. Julian Lewis: To ask the Secretary of State for the Home Department what his policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215217]

Fiona Mactaggart: Guidance on Publication Schemes, issued by the Department for Constitutional Affairs in July 2002, recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments and non-departmental public bodies should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate.

Both our policy and our Publication Scheme is currently being developed to ensure that where information releases are likely to be of interest to the wider public the information is routinely and simultaneously disclosed on the departmental website, and additional classes considered for inclusion within the Publication Scheme, where it is appropriate. We do not currently have plans to place copies of released information in the Library.

Llew Smith: To ask the Secretary of State for the Home Department on how many occasions when considering requests to his Department for information under the Freedom of Information Act 2000 it has been necessary to extend the statutory reply period beyond 20 working days because of consideration of whether the request might result in a breach of national security. [214643]

Fiona Mactaggart: For the period from 1 January to 4 February, there has been one case in the Home Office where we have written to the applicant, extending the deadline because we are considering the public interest test in relation to the exemption contained within s.24 (national security).

Initiatives (Funding)

Mr. Andrew Mitchell: To ask the Secretary of State for the Home Department what budget has been allocated to the Home Office Internal Communications Unit in each of the last two years; and how many staff have been employed by the Unit in each year. [201893]

Fiona Mactaggart: The Home Office Internal Communication Unit's budget was £1.593 million in the financial year 2003–04, when it employed 19 staff.

In 2004–05 the Unit's budget was £1.619 million and 21 staff were employed.

Religious Qualifications

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the outcome of his consultations with faith groups on his Department's proposal to introduce religious qualification requirements for those seeking admission as a Minister of Religion. [216801]

Fiona Mactaggart: We have carried out extensive consultation with faith bodies and representatives about the introduction of a pre-entry English language requirement for Ministers of Religion from abroad that came into effect last August. Individuals now applying for leave to enter the United Kingdom as Ministers of Religion are required to demonstrate that they are competent in the use of spoken English, to level 4 of the International Language Testing System, this will be raised to level 6 after two-years.

We will shortly begin a further stage of consultation with faith communities on other requirements the Government are considering introducing to ensure that Ministers of Religion admitted from abroad are able to play a full role in their communities and gain an understanding and appreciation of British civic life. An announcement about the launch of this consultation will be made in February.

Rural Policing Fund

Mr. Llwyd: To ask the Secretary of State for the Home Department whether he plans to expand in real terms the Rural Policing Fund. [214466]

Ms Blears: There are no plans to expand the Rural Policing Fund. We consider it is fairer to put any increases in grant into the main £4.6 billion Home Office general police grant provision. The Rural Policing Fund remains a discrete £30 million pot outside the main formula grant arrangements for 2005–06. It is paid to 31 police authorities.

Small and Medium-sized Enterprises

Annabelle Ewing: To ask the Secretary of State for the Home Department whether the New Grant Programme for small and medium-sized (SME) enterprises to be launched on 26 January by the Home Office is applicable to SMEs in Scotland. [209145]

Fiona Mactaggart *[holding answer 17 January 2005]:* The Payroll Giving Grant Programme does apply to SME's in Scotland and a dedicated launch event took place in Scotland on 2 February.

SCOTLAND

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for Scotland what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215093]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Staff identity passes for the Office are produced by the Scottish Executive and separate costs of production are not available. Details of passes lost or stolen are only available from January 2003; the information is as follows.

Period	Lost	Stolen
2002–03[1]	1	0
2003–04	3	1

[1] Part year only.

Departmental Publications

Mr. Carmichael: To ask the Secretary of State for Scotland how many publications his Department has produced in each of the last six years; how many copies of each publication were made; and what the total cost of producing each set of documents was. [210651]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Information on publications is set out in the following table; this does not include a number of documents currently on the Office website which were produced solely for web-based consultation or printing.

Year	Title	Number of copies	Cost (£)
1999–2000	Comparisons of Motoring Taxation Costs Across Europe	200 (estimate)	4,500
2000–01	The Scotland Office Departmental Report 2000	150	2,000
	The Scotland Office Resource Accounts 1999–2000	30	151
2001–02	Scotland Office Winter Supplementary Estimate 2001–02	50	2,200
	Friends of Scotland	1,000	4,171
	The Scotland Office Departmental Report 2001	150	3,160
	The Scotland Office Resource Accounts 2000–01	55	2,323
2002–03	The Size of the Scottish Parliament—a consultation	750	1,007
	Sunday Working in Scotland—a consultation	750	1,250
	The Scotland Office Departmental Report 2002	150	3,869
	The Scotland Office Resource Accounts 2001–02	55	2,346
2003–04	The Scotland Office Departmental Report 2003	150	4,036
	The Scotland Office Resource Accounts 2002–03	60	2,142
2004–05	The Scotland Office Annual Report 2004	150	4,119
	The Scotland Office Resource Accounts 2003–04	61	1,999
	Fifth Periodical Report of the Boundary Commission for Scotland	500	7,374

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for Scotland what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217096]

Mrs. McGuire: As I confirmed to the hon. Member at Scottish questions on 8 February 2005, *Official Report*, column 1331, the Scotland Office has been working closely with colleagues in Whitehall and the Scottish Executive on the voluntary arrangements for UK bodies in Scotland to reflect the spirit of the Scottish Parliament's legislative proposals on Gaelic language schemes.

The Scotland Office attaches great importance to the promotion and protection of the Gaelic language in line with the UK's obligations under the European Charter for Regional and Minority Languages.

ADVOCATE-GENERAL

Gaelic Language

Mr. Alan Reid: To ask the Advocate-General what her Department's policy is on the use of the Gaelic language; and what plans her Department has to prepare and implement a Gaelic language scheme. [217090]

Dr. Lynda Clark: I refer the hon. Member to the answer given today by my hon. Friend the Parliamentary Under-Secretary of State for Scotland.

CABINET OFFICE

Departmental Contracts

Mr. Hancock: To ask the Minister for the Cabinet Office how many contracts in his Department have been granted to *(a)* EDS, *(b)* Fujitsu and *(c)* EDS and Fujitsu jointly in each of the last two years; whether they were open to competition; for what they were granted; for how much; over what period of time; and if he will make a statement. [211606]

Mr. Miliband: The following contracts were awarded to EDS Ltd. and Fujitsu in 2002–03 and 2003–04.

EDS Ltd:

For: An Emergency Communications Network

This contract was originally let in October 2000 by the Home Office, through the Government Telecommunications Catalogue. The contract was transferred to the Cabinet Office in February 2002, and was extended by the Cabinet Office in October 2003 for a further two years to November 2005.

Value: As this contract is still current, this information is regarded as commercially confidential.

Fujitsu:

For: A Risk Analysis Study

Competitively Tendered: Yes

Value: Approximately £24,000

Duration: October 2002 to December 2002

For: Development of an Information Strategy

Competitively Tendered: Yes

Value: Approximately £140,000

Duration: March 2003 to June 2003

For: Audit of Secure Computer Systems in Emergency Room

Competitively Tendered: No, in view of the value of the contract and the swift resolution required, a single-tender action was taken using Fujitsu. Fujitsu were able to provide information technology engineers who were already security cleared, which was a necessary requirement of this contract.

Value: Approximately £4,700

Duration: Five days in May 2003

For: A Scoping Study for a Management Information System

Competitively Tendered: Sourced from S-CAT

Value: Approximately £100,000

Duration: February 2004 to April 2004

No joint contracts were awarded to EDS Ltd. and Fujitsu.

The Cabinet Office awards contracts in open competition according to the EU Procurement Regulations, based on best value for money.

Government Car and Despatch Agency

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on overtime pay to drivers from the Government Car and Despatch Agency in each year since 1997. [215113]

Mr. Miliband: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and Despatch Agency. I have asked its Chief Executive Mr. Nick Matheson to write to the hon. Member. Copies of his letter will be placed in the Library.

Waste

Mr. Sheerman: To ask the Minister for the Cabinet Office what the status is of the review of co-ordination of interdepartmental responsibility for waste policy and the possible establishment of a strategic waste authority; and what plans there are to publish the review findings. [217602]

Dr. Whitehead: To ask the Minister for the Cabinet Office what has been the outcome of the review conducted by his office of the scope for improving the co-ordination of interdepartmental responsibilities for waste policy; and what plans he has for its publication. [218771]

Mr. Miliband: The Strategy Unit's report "Waste not Want Not: a Strategy for Tackling the Waste Problem in England" concluded that there should be a review to assess the merits of focusing all central government's waste policy in one Department. The Cabinet Office was invited by the Department for Environment Food and Rural Affairs to conduct this review. The conclusions of the review will be published in due course.

HEALTH

Alcohol-related Emergencies

Mr. Rosindell: To ask the Secretary of State for Health how many *(a)* binge drinking and *(b)* other alcohol-related emergency cases there were in hospitals in *(a)* England and *(b)* Romford and Havering in the last period for which figures are available. [219369]

Dr. Ladyman: These data are held collectively by counts of finished admission episodes for in-patients for alcohol-related cases where the admission method was emergency. Figures for binge drinking are not held centrally.

The table shows data for finished admission episodes in England and Barking, Havering and Redbridge hospitals national health service trust, which operates in Romford and Havering.

Count of finished admission episodes (alcohol-related[1])—NHS hospitals in England 2003–04

		Finished admission episodes
RF4	Barking, Havering and Redbridge Hospitals NHS Trust	563
	England	103,918

[1] ICD-10 codes = "alcohol-related" as advised by NHS Information Authority clinical coding service. Counts include any of the records where the following listed codes are recorded in the primary or secondary field.

Primary diagnosis:

F10—Mental and behavioural disorders due to use of alcohol.

R78.0—Finding of alcohol in blood.

T51.0—Ethanol.

Secondary diagnosis:

F10—Mental and behavioural disorders due to use of alcohol.

R78.0—Finding of alcohol in blood.

X45—Alcohol poisoning and exposure to alcohol.

Y90—Evidence of alcohol involvement determined by alcohol level.

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. As well as the primary diagnosis, there are up to 13 (six prior to 2002–03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.
4. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

HES, Department of Health.

Ambulance Service

Chris Grayling: To ask the Secretary of State for Health what guidance he issues about the number of ambulances per head of population that should be on call at any one time. [219413]

Ms Rosie Winterton: No recent guidance has been issued about the number of ambulances per head of population that should be on call at any one time.

Each ambulance service should plan to provide appropriate resources to meet local demand. This may include resources in addition to ambulance provision, for example using community paramedics or emergency care practitioners.

The "Ambulance improvement checklist" includes a section on information management, which refers for example to; matching supply and demand on an hourly

basis by good use of information and establishing systems to analyse and predict demand and resulting capacity requirement throughout the trust on a dynamic basis. The checklist is intended as an aid to all national health service ambulance trusts and their staff to ensure that all possible steps are being taken to improve and streamline the care of patients presenting to emergency care, and is available on the Department's website at www.dh.gov.uk/assetRoot/04/05/07/60/04050760.pdf.

Aneurysm

Mr. George Osborne: To ask the Secretary of State for Health what plans he has to introduce an NHS national screening programme for aneurysm. [217954]

Miss Melanie Johnson: The United Kingdom national screening committee (NSC) is currently considering the feasibility of implementing a screening programme for abdominal aortic aneurysms, including the implications for the national health service. This follows a multi centre study funded by the Medical Research Council.

The NSC is expected to advise later in the year.

Cardiac Care (Essex)

Mr. Rosindell: To ask the Secretary of State for Health how many cardiac-related emergency cases have been treated in hospitals in Romford and Havering in each year since 1997. [219365]

Dr. Ladyman: A count of finished consultant episodes for in-patients for cardiac-related operations where the admission method was emergency at Barking, Havering and Redbridge Hospitals National Health Service Trust is shown in the table. The trust operates in Romford and Havering.

Counts do not include those elective patients who undergo an emergency treatment.

Count of finished consultant episodes for selected providers. Method of admission—emergency. Main operation—heart operations defined as OPCS-4 between K01 to K71. NHS Hospitals in England 1996–97 to 2003–04

	RG4 Redbridge Healthcare NHS Trust	*RG7 Havering Healthcare NHS Trust*	*RF4 Barking, Havering and Redbridge Hospitals NHS Trust*	*Total*
1996–97	48	74	—	122
1997–98	46	55	—	100
1998–99	52	62	—	114
1999–2000	65	40	—	105
2000–01	54	20	—	74
2001–02	—	—	97	97
2002–03	—	—	82	82
2003–04	—	—	208	208

Notes:

1. A finished consultant episode is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

2. Figures are grossed for both coverage and missing/invalid clinical data, except for 2002–03 and 2003–04, which are not yet adjusted for shortfalls.

3. The main operation is the first recorded operation in the hospital episode statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, eg time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

Source:

HES, Department of Health.

CFS/ME

Mr. Luff: To ask the Secretary of State for Health what his most recent estimate is of the incidence of chronic fatigue syndrome/myalgic encephalomyelitis *(a)* in England and *(b)* in Worcestershire. [218902]

Dr. Ladyman: The Department does not hold the information requested on the incidence of chronic fatigue syndrome/myalgic encephalomyelitis.

Departmental Policies (Stourbridge)

Ms Shipley: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to the Stourbridge constituency, the effects of changes to departmental policy since 1997 on the Stourbridge constituency. [219416]

Dr. Ladyman: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Stourbridge constituency.

For example:

At the end of December 2004, the number of people waiting more than six months for in-patient treatment within Dudley South Primary Care Trust (PCT) has fallen to three, from 327 in June 2002.

At the end of September 2004, the number of patients waiting over 13 weeks for out-patient treatment within Dudley South PCT has fallen to two, from 209 in June 2002.

In September 2002, at the Dudley Group of Hospitals NHS Trust, 85.5 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer or

discharge. Figures for December 2004 show an improvement to 96.5 per cent.

The latest figures, September 2004, show that all urgent general practitioner referrals with suspected cancer are seen by a specialist within two weeks.

Figures for December 2004 show that all patients within Dudley South PCT are able to be offered an appointment with a GP within two working days and a primary care professional within one working day.

Russell's Hall Hospital, part of the Dudley Group of Hospitals NHS Trust, is a new £160 million private finance initiative-funded hospital due to be officially opened later this year.

A new computed tomography scanner was delivered to the Dudley Group of Hospitals NHS Trust in January 2005.

Between September 1997 and June 2004, the number of consultants working at the Dudley Group of Hospitals NHS Trust has increased from 84 to 105. Between September 1997 and September 2003, the number of nurses has increased from 1,087 to 1,112.

Between September 2001 and June 2004, the number of general medical practitioners within the Dudley South PCT has increased from 120 to 130.

Chorley Hospital

Mr. Hoyle: To ask the Secretary of State for Health how many people have been treated for cancer at Chorley Hospital in the last five years. [216206]

Miss Melanie Johnson: The information is not collected in the format requested. The table shows the number of patients treated for cancer at Chorley and South Ribble National Health Service Trust, Preston Acute Hospitals NHS Trust and Lancashire Teaching Hospitals NHS Trust. Chorley and South Ribble District Hospital was previously part of Chorley and South Ribble NHS Trust and is now part of Lancashire Teaching Hospitals NHS Trust.

Provider of Treatment		*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
RJU	Chorley and South Ribble NHS trust	—	1,542	1,631	n/a	n/a
RMF	Preston Acute Hospitals NHS trust	8,338	7,470	5,336	n/a	n/a
RXN	Lancashire teaching hospitals NHS trust	n/a	n/a	n/a	6,611	5,927
Unique patients[1]	8,338	8,673	6,770	6,611	5,927	

[1] This is not the sum of the counts for each trust, since a patient may be treated by more than one trust.

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
4. Patient counts are based on the unique patient identifier HESID. This identifier is derived based on patient's date of birth, postcode, sex, local patient identifier and NHS number, using an agreed algorithm. Where data are incomplete, HESID might erroneously link episodes or fail to recognise episodes for the same patient. Care is therefore needed, especially where duplicate records persist in the data. The patient count cannot be summed across a table where patients may have episodes in more than one cell.

Providers of treatment:
RJU—Chorley and South Ribble National Health Service Trust
RMF—Preston Acute Hospitals NHS Trust
RXN—Lancashire Teaching Hospitals NHS Trust
Primary diagnosis: (ICD-10 C00-D48) Cancer Neoplasms—counts of finished admission episodes and patients. NHS hospitals, 1999–2000 to 2003–04

Source:
HES, Department of Health.

Co-proxamol

Mr. Brady: To ask the Secretary of State for Health whether his Department will maintain approval for Co-proxamol for those patients who have intolerance to other painkillers. [217484]

Ms Rosie Winterton: There are a number of alternatives for managing painful conditions and the Committee on Safety of Medicines (CSM) has issued advice on pain management options to assist prescribers together with individual patients, in choosing appropriate pain management strategies. This guidance also refers to a number of sources of additional advice including the British National Formulary, which is sent to all doctors and pharmacists.

The CSM's overview of alternative analgesic options was communicated though the Chief Medical Officer's public health link to all health care professionals, accompanying the communication on the withdrawal of co-proxamol and is available on the Medicines and Healthcare products Regulatory Agency's website www.mhra.gov.uk. Copies have been placed in the Library.

It has been agreed with the manufacturers to withdraw co-proxamol over an extended period of time in order to allow long term users an opportunity to adopt suitable alternative pain management strategies. At the end of the phased withdrawal and following the cancellation or withdrawal of the Marketing Authorisations for existing products, the provision would remain for the supply of unlicensed preparations to individual patients on the clinical responsibility primarily of a patient's doctor.

Exempted Prescriptions

Mr. Cousins: To ask the Secretary of State for Health what changes have been made over the last two years to the guidance issued to the NHS Counter Fraud Compliance Unit on *(a)* recovery of incorrectly exempted prescriptions, *(b)* recovery of incorrectly exempted prescriptions from incapacity benefit claimants, *(c)* the bringing of cases to the civil courts and *(d)* the recovery of past debts and costs. [218026]

Ms Rosie Winterton: No changes have been made to guidance issued to the national health service counter fraud and security management service (CFSMS)

compliance unit regarding recovery of funds lost due to incorrect claims to exemption in relation to prescription charges.

Guidance was issued in 2004 regarding incapacity benefit claimants, directing the compliance unit to urge patients to make a claim under the Low Income Scheme where they were found to have made an incorrect claim for exemption, and to only recover the cost of the prescription if their claim to exemption was successful. In cases where claimants are not successful, a penalty charge will be applied.

During the financial year 2003–04, a review of the compliance unit systems was carried out by CFSMS to improve the efficiency and cost effectiveness of the unit.

The process for the compliance unit taking cases to the civil courts for recovery was specifically reviewed to assess whether use of the court represented best value for money to CFSMS in the recovery of debts and whether the costs of the unit could be reduced.

In August 2003, the compliance unit was advised not to take any further cases to the civil courts as the review showed that the process cost 10 times more than the amount that was actually recovered.

Gender Dysphoria

Chris McCafferty: To ask the Secretary of State for Health what guidance he has given to primary care trusts on ensuring that patients with gender dysphoria are able to access assessment and treatment on the same basis as other patients with a mental illness. [218731]

Ms Rosie Winterton: Guidance on gender dysphoria was included in the national definitions set for specialised services; this suggests that primary care trusts should commission such services collectively. Specialised services for mental health, including services for people with gender dysphoria, are being reviewed by Professor Louis Appleby, the national director for mental health. A report is due in May.

Heart Disease (Women)

Mr. George Osborne: To ask the Secretary of State for Health (1) what steps the NHS takes to encourage women to have regular blood pressure checks; [217955]

(2) what steps the Department is taking to raise awareness of the risks of cardiac disease in women. [217956]

Miss Melanie Johnson: Standards one to four of the national service framework for coronary heart disease, published in March 2000, set out a comprehensive programme of action for the management of risks associated with heart disease including high blood pressure, for both men and women. The Department is working with the national health service, local government, the voluntary sector and other key stakeholders to ensure improved awareness and better management of risks for all patients at risk of cardiovascular illness.

HIV/AIDS

Mr. Evans: To ask the Secretary of State for Health (1) how many people in England *(a)* have AIDS and *(b)* are HIV positive; [217472]

(2) what the average life expectancy of someone with AIDS is; and what it was in 1990; [217473]

(3) what percentage of new HIV cases in England in *(a)* 2003 and *(b)* 2004 were not British citizens. [217475]

Miss Melanie Johnson: In 2003, the latest year for which figures are available, there were 34,103 individuals with diagnosed HIV infection living in England, 8,056 of whom were reported as having AIDS, and a further 246 with a diagnosis of an AIDS defining illness who were reported as having died during that year. Estimates for the total number of adults living with HIV—undiagnosed and diagnosed—are available for the United Kingdom. In 2003, it was estimated that in total 53,000 adults were living with HIV in the UK.

National HIV surveillance figures do not include information about nationality, citizenship or residency status.

Highly active antiretroviral therapies (HAART) became available in the mid-1990s. HIV infection can be well controlled if infection is diagnosed and appropriate treatment with these therapies is given. There is no sign of any decline in the effectiveness of HAART at a population level. Although it is not possible to estimate precisely the life expectancy of individuals whose HIV infections have been diagnosed and who are receiving HAART, the availability of these treatments has greatly prolonged the life expectancy of those diagnosed with HIV (and AIDS).

In 1990 (before the introduction of HAART), and in people today whose HIV infection is not diagnosed or is not treated, life expectancy varies considerably. It is estimated that the average time between HIV infection and developing AIDS is 10 years and from AIDS diagnosis to death is 18 months to two years.

Hospital Funding (Essex)

Mr. Rosindell: To ask the Secretary of State for Health what funds have been allocated to hospitals in Romford and Havering in each year since 1997. [219367]

Dr. Ladyman: The Department does not make revenue allocations to national health service trusts. Revenue allocations are made to primary care trusts, which are responsible for commissioning services from NHS trusts, such as those provided by Barking, Havering and Redbridge Hospitals NHS Trust, to meet the needs of their local population.

International Recruitment

Tom Brake: To ask the Secretary of State for Health how many private sector healthcare providers have signed up to the NHS Code of Practice for the international recruitment of healthcare professionals; and how many private sector healthcare providers there are. [218454]

Mr. Hutton: The Code of Practice for international recruitment of healthcare professionals has been signed up to by both the Independent Healthcare Forum and the Registered Nursing Home Association. Both these organisations represent many independent healthcare providers. The number and names of these providers is not collated by the Department.

Data related to the number of independent sector healthcare providers are not held centrally by the Department.

Living Wills

Dr. Iddon: To ask the Secretary of State for Health (1) what the policy of Hammersmith and Fulham Hospital is in relation to providing living wills to patients; and if he will make a statement; [218754]

(2) how many NHS hospitals provide living wills to patients. [218755]

Dr. Ladyman: Information on how many national health service hospitals provide living wills to patients is not collected centrally.

Healthcare professionals will discuss possible treatment options with a patient as part of the treatment process and this should, where an individual's condition makes it appropriate, include how they would like to be treated if or when they become incapacitated. Individual trusts will decide what arrangements to have in place locally.

Mental Health Care

Lynne Jones: To ask the Secretary of State for Health pursuant to the answer of 21 February 2005, *Official Report*, column 164W, on mental health, how many NHS trusts *(a)* supplement the income of and *(b)* provide goods in kind for people in hospital for more than a year. [218292]

Ms Rosie Winterton: The information is not collected centrally.

Mr. Rosindell: To ask the Secretary of State for Health how many trained medical doctors there have been in mental health facilities in Romford and Havering constituencies in each year since 1997. [219366]

Dr. Ladyman: The information requested is shown in the table.

Data held by the Department are not broken down by mental health facilities but by the number of hospital, public health medicine and community health services (HCHS) staff within the psychiatry group of specialties for each trust.

Barking, Havering and Redbridge Hospitals National Health Service Trust and East London Mental Health Trust are the two trusts operating in Romford and Havering.

There are no staff in Barking, Havering and Redbridge Hospitals NHS Trust within the psychiatry group of specialities and the Department only has figures dating back to 2001 for North East London Mental Health Trust.

HCHS staff within the psychiatry group of specialties—as at 30 September each year

North East London Mental Health NHS Trust RAT	*Number (headcount)*

Department of Health medical and dental workforce census.

Naltrexone

Lynne Jones: To ask the Secretary of State for Health (1) if his Department will conduct trials of the use of low-dose naltrexone in the treatment of multiple sclerosis; and if he will make a statement on its availability on the NHS; [215112]

(2) what trials have taken place of low dose Naltrexone (LDN) for the treatment of multiple sclerosis; and if he will make a statement on the availability on the NHS of LDN for sufferers of MS. [217518]

Dr. Ladyman: The Medicines and Healthcare products Regulatory Agency, which is responsible for ensuring that all new medicines and medical devices sold in the United Kingdom meet appropriate standards of safety, quality and efficacy, is unaware of any clinical trials having taken place in the United Kingdom using low-dose naltrexone in the treatment of multiple sclerosis. It is aware that a small trial, funded by a charity, is under consideration.

In the UK, naltrexone is currently only licensed for the treatment of opiate dependency. Nevertheless, there is provision in both UK and European legislation, which allows doctors to prescribe, on their own direct personal responsibility, a specially prepared medicinal product for administration on a "named patient" basis where they consider it necessary to meet a special clinical need.

NHS Funding

Dr. Murrison: To ask the Secretary of State for Health pursuant to his oral statement of 9 February 2005, *Official Report*, columns 1503–18, on NHS funding, what the total expenditure on the National Programme for IT in England by *(a)* the Department and *(b)* primary care trusts will be in each financial year from 2003–04 to 2007–08. [217072]

Mr. Hutton: The Department's actual/planned expenditure on the national programme for information technology for the years in question is shown in the table. The figures are on a resource accounting basis and therefore include the cost of capital charges and depreciation of fixed assets.

	Amount (£ million)
2003–04	102
2004–05	404
2005–06	1,873
2006–07	1,968
2007–08	1,796

Estimates for primary care trust expenditure are not held centrally.

NHS Performance

Mr. Burns: To ask the Secretary of State for Health if he will publish the URL on his Department's website which allows users to view the guide to NHS performance in each parliamentary constituency. [215855]

Ms Rosie Winterton *[holding answer 10 February 2005]:* The Department publishes on its website information on national health service organisations,

which includes some performance data. This information is in the form of NHS factsheets, which can be viewed by NHS region and by parliamentary constituency. The URL is: www.dh.gov.uk/nhsfactsheets.

NHS factsheets are internal Departmental briefing sheets on individual strategic health authorities and NHS trusts. They contain organisational information, contact details and selected published statistical information. NHS factsheets are updated regularly.

The Department first published these factsheets on its website on 3 December 2004 as part of the Departments commitment to openness under Freedom of Information. They have been available to anybody willing to access the website since then.

Obesity Clinics (West Midlands)

Mr. Jim Cunningham: To ask the Secretary of State for Health how many obesity clinics there are in the West Midlands region; and what the waiting times were for those clinics in the latest year for which figures are available. [218041]

Dr. Ladyman: There is one national health service obesity clinic and one NHS child obesity clinic in the West Midlands. Both are at Heartlands hospital, part of the Birmingham Heartlands and Solihull NHS Trust.

Waiting times data for obesity clinics are not held centrally.

Prisons

Mr. Battle: To ask the Secretary of State for Health how many prisons in *(a)* Yorkshire and *(b)* England and Wales have mental health in-reach teams; and if he will make a statement. [218661]

Dr. Ladyman: 13 prison establishments in Yorkshire have mental health in-reach teams and a mental health nurse visits the fourteenth, Askham Grange, on one day a week. Such teams are now in operation at over 100 establishments in England and Wales.

Respiratory Syncytial Virus

John Mann: To ask the Secretary of State for Health what assessment his Department has made of the report of the Health Protection Agency on infection rates for respiratory syncytial virus; and if he will take steps to ensure that a higher priority is given to preventive treatment for the virus in premature babies. [218435]

Miss Melanie Johnson: The Department receives weekly updates on respiratory syncytial virus incidence from the Health Protection Agency. Recommendations on the use of paluvizumab were made by the joint committee on vaccination and immunisation at its November 2002 meeting. Details can be found on the Department's website at: www.advisorybodies.doh.gov.uk/jcvi/mins01nov02.htm.

Scans (Alliance Medical)

Mr. Burstow: To ask the Secretary of State for Health what representations he has received from NHS bodies on time taken to report *(a)* scans and *(b)* incidence of double reporting of scans for a second opinion under the mobile scanning contract with Alliance Medical; what assessment his Department has made of the effect of *(a)* and *(b)* on requirements for hospital consultants to undertake follow-up appointments after scans performed by Alliance Medical; and if he will make a statement. [215715]

Mr. Hutton: The Department has regular contact with national health service bodies through strategic health authority (SHA) cluster leads. As a result, Alliance Medical Ltd. is ensuring that two qualified radiologists read all scans. This high quality oversight of reading is setting best practice.

It is the responsibility of local hospital consultants and general practitioners to ensure that the process of follow up appointments is managed effectively and that patients are seen quickly once their scan has been performed.

Treatment Costs

Dr. Gibson: To ask the Secretary of State for Health what the cost to the NHS of treating *(a)* fractures of all types, *(b)* multiple sclerosis, *(c)* cancer, *(d)* non-melanoma skin cancer and *(e)* melanoma was in the last year for which figures are available. [217055]

Mr. Hutton: With the exception of cancer, this information is not available centrally. The Department's resource accounts shows gross expenditure on cancer in 2003–04 as £3.4 billion.

Variola Virus Research

Mr. Dalyell: To ask the Secretary of State for Health pursuant to the letter of 6 January from the Minister of State, my right hon. Friend the Member for Barrow and Furness (Mr. Hutton), to the hon. Member for Linlithgow (Mr. Dalyell), on variola virus research, what the outcome was of the meeting of Government Departments to which he refers. [217680]

Mr. Hutton *[holding answer 24 February 2005]*: The meeting is scheduled for 4 March and will be hosted by the Ministry of Defence.

DEFENCE

Afghanistan/Iraq

Annabelle Ewing: To ask the Secretary of State for Defence how much of the change in RFR2 Resource relates *(a)* solely and *(b)* mainly to peacekeeping in (i) Afghanistan and (ii) Iraq. [218319]

Mr. Ingram: The amounts included in the MOD's Spring Supplementary Estimates under Request for Resources 2 (Conflict Prevention costs) for Iraq and Afghanistan are as follows:

	£ million
Operations in Iraq	975
Operations in Afghanistan	53

These figures represent a current estimate of the net additional cost of these operations in the current financial year.

Armoured Vehicles

Ann Winterton: To ask the Secretary of State for Defence what the operational date is of the Panther armoured reconnaissance vehicle. [208298]

Mr. Ingram: We expect Panther to be introduced into service by November 2007. Panther is not, however, primarily a reconnaissance vehicle. As the original name of the project, the Future Command and Liaison Vehicle, suggests, it will be mainly used for a variety of command and liaison roles.

Bowman System

Mr. Soames: To ask the Secretary of State for Defence when Bowman was first used by British forces in Iraq; and who provided the training for its use. [218132]

Mr. Ingram: The first radios delivered as part of the Bowman project were Personal Role Radios, which have been in service since January 2002. They were used by combat troops and others in March 2003.

The first use of Bowman PRC325 High Frequency manpacked patrol radios in Iraq was in December 2004. Training for the operators of the PRC325s was provided by Harris Comms Plc under contract from General Dynamics UK Ltd.

Casualty Treatment Ship

Mr. Hancock: To ask the Secretary of State for Defence whether he plans to commission the building of a joint casualty treatment ship. [218445]

Mr. Ingram: The Joint Casualty Treatment Ship programme is currently in its assessment phase. No decision has been made concerning the placement of a contract for demonstration and manufacture.

Chinook Crash

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library copies of all memoranda, letters and emails between the Chief of the Air Staff, the Air Officer Commanding No. 1 Group, Air Officer Commander in Chief Strike Command, members of the RAF Directorate of Legal Services, the Inspector of Flight Safety and the President of the Board of Inquiry into the crash of ZD576, between 2 June 1994 and 5 April 1995. [217788]

Mr. Ingram: The documents requested are being collated from four separate branches within the Ministry of Defence and the files will need to be recovered from archive, which will therefore take some extra time to complete. I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Mr. Arbuthnot: To ask the Secretary of State for Defence whether there was a meeting between the Chief of the Air Staff, the Air Officer Commanding No. 1 Group, Air Officer Commander in Chief Strike Command, and the Inspector of Flight Safety to discuss the Board of Inquiry into the crash of ZD576. [217790]

Mr. Ingram: A search of available records has provided no evidence that a meeting involving all the named officials took place.

Mr. Arbuthnot: To ask the Secretary of State for Defence who gave the authorisation for senior anti-terrorist specialists to travel together on the flight in Chinook ZD576, which crashed on 2 June 1994. [217819]

Mr. Ingram: There was no requirement for specific authorisation to be given in respect of the number of senior personnel to be carried on the flight. However, we know from evidence given to the Board of Inquiry that the flight was carried out under instruction from the Joint Air Tasking Operation Cell.

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library all special flying instructions that applied to the flight of Chinook ZD576 on 2 June 1994. [219458]

Mr. Ingram: There were no special flying instructions that applied to the flight of Chinook ZD576.

Cooneen Watts & Stone

Mr. Hoyle: To ask the Secretary of State for Defence how many people Cooneen Watts & Stone employed in *(a)* December 2003 and *(b)* December 2004. [218497]

Mr. Ingram: Cooneen Watts & Stone (CWS) Ltd. was formed in February 2004 from Watts & Stone Ltd. and Cooneen Textiles Ltd., as a Special Purpose Vehicle for the cut and sew garment contract tender process. The number of people employed by CWS is a matter for the company.

Deaths in Service (Northern Ireland)

Mr. McNamara: To ask the Secretary of State for Defence what assistance he has made available to the Northern Ireland Veterans Association in identifying those who died in the Northern Ireland conflict. [217801]

Mr. Caplin: No request has been received from the Northern Ireland Veterans Association for assistance in gathering such information.

Defence Employment (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2002–03 and *(b)* 2003–04 the British Forces Post Office spent in Scotland in (i) monetary terms and (ii) as a percentage of the total personnel budget; and if he will make a statement. [215946]

Mr. Ingram: Expenditure on personnel specifically based in Scotland by the British Forces Post Office was £136,801.92 in financial year 2002–03 and £145,952.75 in 2003–04, representing 1.1 per cent. of the Agency's total personnel costs in each year. Excluding personnel serving overseas and at the BFPO main sorting office, which is based in London due to the proximity of the MOD HQ and Heathrow and Gatwick airports, personnel based in Scotland accounted for 8.5 per cent. and 8.7 per cent. of the total in each of the years in question.

Defence Export Services Organisation

Mr. Meacher: To ask the Secretary of State for Defence whether the Defence Export Services Organisation has been asked *(a)* to supply information to and *(b)* to co-operate with the Serious Fraud Office

in respect of its investigation into allegations of bribery and false accounting concerning BAe Systems and Saudi Arabian officials. [207744]

Mr. Ingram: Details of the existence of any such request or inquiry are properly a matter for the Serious Fraud Office. However, the Defence Export Services Organisation co-operates fully with any requests from authorities investigating allegations of bribery and corruption.

Defence Service Agencies (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how many people work for the Defence Storage and Distribution Agency; how many are employed in Scotland; what the personnel costs of the agency are; and what the figures were in 2003–04. [215432]

Mr. Ingram: The Defence Storage and Distribution Agency currently employs 4,160 people of which 660 work in Scotland. In 2003–04 the numbers were 4,530 and 810 respectively.

Personnel costs in 2003–04 were £117.2 million and the forecast for this year is £111.6 million.

Departmental Finances

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will place in the Library copies of quarterly progress reports provided to the Treasury against Spending Review 2002 Public Service Agreement Targets for *(a)* 2003–04 and *(b)* the first three quarters of 2004–05. [217993]

Mr. Ingram: I refer the hon. Member to the answer I gave him on 22 February 2005, *Official Report*, columns 599–600W.

DESO

Mr. Meacher: To ask the Secretary of State for Defence how many times in the last 12 months the Defence Export Services Organisation has provided advice to BAe Systems on *(a)* agents and *(b)* agents' commission. [207792]

Mr. Ingram: It is the policy of the Ministry of Defence not to advise companies on agents' commissions. On the selection of agents, if Defence Export Services Organisation (DESO) has information likely to assist United Kingdom companies, our policy is to make this available. Provision of such advice is part of normal DESO business and is not centrally recorded.

Disposal Services Agency

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2002–03 and *(b)* 2003–04 the Disposal Services Agency spent in Scotland (i) in monetary terms and (ii) as a percentage of the total personnel budget; and if he will make a statement. [214249]

Mr. Ingram: The figures are as follows.

Financial year	*Personnel costs for DSA staff based in Scotland (£000)*	*Expressed as a percentage of total DSA personnel costs*
2002–03	100	2.8
2003–04	124	3.3

FRES

Mr. Soames: To ask the Secretary of State for Defence when he expects the Future Rapid Effects System to be operational. [218138]

Mr. Ingram: The Future Rapid Effect System (FRES) is now in its initial Assessment Phase. Studies being carried out during this phase will enable us to define an appropriate In-Service Date (ISD) in both capability and schedule terms for endorsement at Main Gate.

The ISD will not be formally endorsed until then, but our current planning assumption is that the early variants of FRES will be introduced to service early in the next decade, with a phased approach to achieving full operational capability thereafter.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the viability of Gibraltar as a UK base. [217598]

Mr. Ingram: The Ministry of Defence is fully committed to Gibraltar, its security and its outputs in support of UK military operations. Over the last six months, there has been over a 25 per cent. increase in air and maritime movements.

Helicopters

Mr. Soames: To ask the Secretary of State for Defence (1) how many helicopters are in service; and how many he expects will be in service in 2012; [218139]

(2) how many different types of helicopters are in service with UK armed forces; and what the length of in-service life of each is. [218133]

Mr. Ingram: The Department currently operates the following types of helicopter:

Helicopter type	*Fleet size*	*In-service date*	*Planned out of service date*
Attack Helicopter	67	[1] 2001	2030
Chinook Mk 2	34	1993	2015
Chinook Mk 2a	6	2000	2025
Lynx Mk 7	86	1977	2012
Lynx Mk 9	23	1992	2012
Lynx Mk 3	33	1976	2012
Lynx Mk 8	34	1994	2014
Merlin Mk 1	42	1999	2029
Merlin Mk 3	22	2000	2030
Puma Mk 1	45	1971	2010
Gazelle Mk 1	127	1973	2018
Sea King Mk 3	19	1978	2017
Sea King Mk 3a	6	1996	2017
Sea King Mk 4	37	1979	2012
Sea King Mk 5	16	1981	2017
Sea King Mk 6	4	1988	2006
Sea King Mk 6c	5	2004	2008
Sea King Mk 7	11	2002	2017
Agusta A109	4	1984	2008

[1] Initial Operating Capability declared 28 September 2004. Full Operating Capability due 2007.

In addition to the aircraft above, the department contracts for a Commercially Owned Military Registered (COMR) fleet of helicopters. These helicopters are on the Military Register and flown by military aircrew, but are owned and maintained by commercial operators.

Helicopter type and location	*Number*	*Contract let*	*Contract expires*
Bell 412/Shawbury	11	1997	2012
Bell 412/Cyprus	4	2003	2008
Bell 212/Belize	3	2003	2008
Bell 212/Brunei	3	1993	2008
Bell 212/Middle Wallop	1	2004	2007
Dauphin/Plymouth	2	1996	2007
Single Squirrel/Shawbury	27	1997	2012
Single Squirrel/Middle Wallop	10	1997	2012
Twin Squirrel (AS355F)/ Northolt	3	1995	2005
Twin Squirrel (AS355N)/ Northolt[1]	4	2006	2011
Sikorski S61N/Falklands	2	1983	2011

[1] Replacement contract for the AS355Fs based at Northolt.

Although planned out of service and contract expiry dates have been given, no decisions have yet been taken on the shape of the future helicopter programme, or the individual components within it. We hope to have a clearer idea of the way forward later this year. It is not at this stage possible to say exactly how many helicopters will be in service in 2012.

Hercules Disaster

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether the Defensive Aid Suite on the C130 Hercules lost in Iraq offered protection against medium-range missiles. [219040]

Mr. Ingram: The Hercules C130K that crashed in Iraq on 30 January had an enhanced defensive capability designed to provide protection against a wide range of missile systems.

Iraq

Mr. Salmond: To ask the Secretary of State for Defence how many trained *(a)* soldiers and *(b)* police his Department estimates are available in Iraq; and if he will give *(a)* the source and *(b)* methodology used to calculate the figures. [218825]

Mr. Ingram *[holding answer 28 February 2005]:* As at 14 February, the Iraqi Ministry of the Interior forces numbered some 79,000 trained and equipped personnel. This includes the Iraqi Police Service and the Department of Border Enforcement forces. The Iraqi Ministry of Defence forces numbered some 57,500 trained and equipped personnel. This includes the Army, Air Force and Coastal Defence Force.

These figures are collated on a regular basis by the Multinational Security Transition Command—Iraq.

Mr. Salmond: To ask the Secretary of State for Defence what discussions he has had with his US counterparts over their plans to set up 14 permanent military bases in Iraq. [218827]

Mr. Ingram *[holding answer 28 February 2005]:* Ministers at the Ministry of Defence are in continuous dialogue with all of our allies, including the United States, on a range of issues. My right hon. Friend the Secretary of State for Defence has had no discussions with his US counterparts on plans to set up permanent military bases in Iraq.

Parliamentary Questions

Mr. Meacher: To ask the Secretary of State for Defence when he will reply to the Questions tabled by the hon. Member for Oldham, West and Royton on *(a)* 10 January, reference 207744 and *(b)* 11 January, reference 207792. [218703]

Mr. Ingram: I replied to the hon. Member today.

Swan Hunter Contract

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2005, *Official Report*, column 1515, on the Swan Hunter contract, whether there is legal liability to his Department arising from the unsuccessful bidder referred to; and if he will make a statement. [217833]

Mr. Ingram: The Ministry of Defence's competitive tendering process was applied equitably in the assessment of each company's bid, against the criteria specified in the Invitation To Tender. In accordance with those criteria the MOD selected the proposals including the design of the ship offered by Swan Hunter. The MOD does not consider that either the selection process or any subsequent variations create a legal liability to the unsuccessful bidders.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 9 February 2005, *Official Report*, column 1515W, on the Swan Hunter contract, what role he played in finalising the revised programme costs on 8 December 2004; and if he will make a statement. [217909]

Mr. Ingram: The revised programme costs were considered and approved by the Minister for Defence Procurement and the Chief Secretary to the Treasury, following approval from the Department's Investment Appraisals Board. The Board considered a Review Note recommendation prepared by departmental officials, outlining the various programme options and costings.

Tornado

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether the funding allocation for the Sky Shadow Defensive Aid System for the Tornado aircraft has been changed. [219042]

Mr. Ingram: The required level of support for all Electronic Warfare equipment is kept under regular review and funds are allocated accordingly. In the case of the Tornado Skyshadow Defensive Aid System the Operational priorities, as detailed in the Customer Service Agreement between the Defence Logistics Organisation and the Operational Customer, are being met.

Trident

Mr. Salmond: To ask the Secretary of State for Defence whether commanders of UK Trident

submarines are empowered to launch a nuclear missile in circumstances other than with the express authority of the Prime Minister. [218341]

Mr. Hoon: As my right hon. Friend the Prime Minister made clear in the answer he gave on 28 January 2003, *Official Report*, column 774W, to the hon. Member for Shrewsbury and Atcham (Mr. Marsden), the use of the United Kingdom's nuclear weapons may be ordered only by the Prime Minister.

Pete Wishart: To ask the Secretary of State for Defence (1) what assessment he has made of potential risks arising from *(a)* an accident and *(b)* human error in relation to the transportation of nuclear warheads within the naval base on the Clyde; [218348]

(2) what estimate he has made of potential casualties in the west of Scotland arising from a catastrophic malfunction of a Trident nuclear warhead on a submarine based in the Clyde. [218347]

Mr. Hoon: At HM Naval Base Clyde, nuclear warhead handling, storage, transportation and fitting of components is carried out using rigidly controlled and approved procedures, and staff undertaking these activities undergo extensive training before they are designated competent to carry out the work. The potential risks arising from an accident and human error are therefore very low. It is also highly unlikely that a catastrophic malfunction of a nuclear warhead that involved nuclear yield (a high explosion and the release of radioactive material), would occur, whether onboard a submarine or elsewhere within the Naval Base.

Risks to employees, members of the public and the environment are routinely assessed during preparation of the Hazard Identification and Risk Evaluation (HIRE), which is the responsibility of the local authority and which is a requirement of the Radiation (Emergency Preparedness and Public Information) Regulations 2001 (REPPIR). Such planning is based on a vigorous precautionary approach and the chances of any incident happening, for which the REPPIR emergency plans have been prepared, have been assessed as highly unlikely.

US Defence Department (2006 Budget)

Llew Smith: To ask the Secretary of State for Defence for which types of buildings, and at which locations in the United Kingdom, the US Department of Defense has sought financial appropriation in the fiscal year 2006 budget recently published; and whether permission has been granted for the construction of these structures. [217485]

Mr. Ingram: The US Department of Defense Fiscal Year 2006 budget submission separately identifies funding for: an office complex at RAF Mildenhall; a munitions storage facility and a separate munitions maintenance facility at RAF Lakenheath; and an operations/technical building at RAF Menwith Hill. There is also provision for other potential projects, but none of them are at a stage where internal or external permissions for construction have been sought.

NORTHERN IRELAND

Cancer

Dr. Gibson: To ask the Secretary of State for Northern Ireland what policies his Department has in place for supporting employees with cancer. [218586]

Mr. Pearson: The Northern Ireland Departments and the Northern Ireland Office have a wide range of policies and support mechanisms in place to support staff who are suffering from serious illnesses. These include a generous occupational sick pay scheme, special leave, alternative working patterns and phased return to work arrangements. Reasonable adjustments which could help the individual are considered on a case by case basis. Where medical retirement is appropriate the individual will receive immediate payment of enhanced pension and lump sum.

All staff have access to the Welfare service and Occupational Health Service for support and advice. Some Departments have also introduced an external counselling service for staff.

Cannabis

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the impact that the reclassification of cannabis has had in Northern Ireland. [218225]

Mr. Paul Murphy: The Government conducted a survey of statutory organisations, including the police, together with the community and voluntary sector, in April/May 2004 after the reclassification of cannabis from Class B to Class C to assess the impact of this change.

While the level of response from the various agencies was disappointing, the general view was that reclassification had had little impact on overall attitudes towards cannabis, both among young people and adults. There was no evidence to suggest that consumption had increased or that adults and young people were more open about their use of cannabis. There was however, a view that young people did not fully understand all the various terminology such as "reclassification", "de-criminalisation" and "legalisation".

Statistics from PSNI indicate that the number of prosecutions taken against younger people for possession of cannabis (both actual and pending) has not reduced since reclassification. While separate figures are not kept in relation to adults, there was a small reduction in the number of arrests for possession of Class C drugs, in the three months after reclassification when compared to the three months prior to this change in status.

As this legislative change took place over 12 months ago officials are currently preparing to undertake a further assessment of the impact.

Coiste na n-Iarchimi

Mr. Beggs: To ask the Secretary of State for Northern Ireland how much funding was given to the Republican ex-prisoners' umbrella group, Coiste na n-Iarchimi and its member groups in each of the last eight years. [214206]

Mr. Spellar: Records indicate the following amounts have been paid to Coiste na n-Iarchimi and its member groups in each year since 1998 by the Departments of the Northern Ireland administration and the Northern Ireland Office:

Financial year	*Amount paid (£)*
1998–99	592,626
1999–2000	1,847,640
2000–01	423,532
2001–02	782,107
2002–03	1,752,873
2003–04	1,207,017
2004–05[1]	553,529

[1] Figures for 2004–05 are from 1 April 2004 to 31 December 2004.

Information prior to 1 April 1998 was not readily available.

Deaf People (Public Service Delivery)

Lady Hermon: To ask the Secretary of State for Northern Ireland who the *(a)* members and *(b)* chairman is of the inter-departmental group established to oversee the delivery of public services to deaf and hard of hearing people in Northern Ireland; what the group's terms of reference are; whether the minutes of its meetings are published; and what reports it has published. [218666]

Angela Smith: In January 2004, a Sign Language Partnership Group was formed to allow Northern Ireland Government Departments to work with representatives of the Deaf community in Northern Ireland to identify and recommend a course of action to improve respect, understanding and tolerance of British and Irish Sign Languages (BSL and ISL).

The group is chaired by the Head of Cultural and Language Diversity Policy Branch in the Department of Culture, Arts and Leisure. Other members are from the following organisations:

The British Deaf Association, Royal National Institute for the Deaf, Council for the Advancement of Communication with Deaf People, Hands that Talk, National Deaf Children's Society, Northern Ireland Deaf Youth Association, Deaf Senior Citizens and all Northern Ireland Government Departments.

Minutes of meetings are circulated to attendees.

Reports recommending action *(a)* to enhance the supply of BSL and ISL interpreters and tutors, in line with demand and *(b)* to raise awareness of BSL and ISL, have been prepared and approved.

Energy Efficiency

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent on *(a)* the Domestic Energy Efficiency Scheme, *(b)* fuel poverty pilot projects, *(c)* the Warm Homes Scheme, *(d)* the Energy Efficiency Levy Programme, *(e)* winter fuel payments and *(f)* cold weather payments in each financial year since 1997–98. [218800]

Mr. Spellar: The level of expenditure in each financial year since 1997 on all such schemes is:

£

	The Domestic Energy Efficiency Scheme	*Fuel Poverty Pilot Projects*	*The Warm Homes Scheme*	*The Energy Efficiency Levy Programme*	*Winter Fuel Payments*	*Cold Weather Payments*
1997–98	2,545,677	0	0	0	5,700,000	0
1998–99	2,582,627	75,000	0	0	5,800,000	0
1999–2000	2,629,238	1,060,000	0	1,003,068	24,000,000	0
2000–01	2,604,302	500,000	0	1,190,132	56,000,000	1,650,000
2001–02	0	800,000	5,200,000	1,433,495	42,000,000	260,000
2002–03	0	500,000	7,952,000	3,043,063	42,700,000	260,000
2003–04	0	480,000	10,650,000	3,938,905	43,000,000	620,000
2004–05[1]	0	279,600	11,850,000	n/a	19,072,100	n/a

[1] The total spend for winter fuel payments and the NIE Energy Efficiency Levy Programme are not yet available for this financial year.

EU Grants

Mr. Hancock: To ask the Secretary of State for Northern Ireland what recent representations he has received about mismanagement of EU regional development grants; and if he will make a statement. [217276]

Mr. Pearson: There have been eight representations to Ministers about mismanagement of EU Structural Funds received within the last three months concerning EU Structural Funds Programmes. These representations concerned the decisions taken and procedures followed for the allocation of funding under the EU Programmes. EU funding supports a large number of projects and all such representations are thoroughly investigated and any necessary corrective action taken.

GPs

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how many requests for general practitioner appointments there were in Northern Ireland in each of the past 15 years; and what the average waiting time for GP appointments was in each year. [218830]

Angela Smith: The information requested is not available.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how many general practitioners there are in *(a)* North, *(b)* West, *(c)* East and *(d)* South Belfast per 10,000 population; and what the spending per capita on general practitioner provision is in the current financial year in each case. [218381]

Angela Smith: The information on the number of general practitioners in particular areas of Belfast is as follows:

Belfast locality	*Number of GPs per 10,000 population*
North Belfast	6.2
West Belfast	5.3
East Belfast	6.5
South Belfast	6.4

The information regarding the spending per capita on general practitioner provision in the current financial year will not be available until after the end of this financial year.

High Hedges

Lady Hermon: To ask the Secretary of State for Northern Ireland when he will publish the consultation document on tackling the problems caused by high hedges in Northern Ireland. [218231]

Angela Smith: A consultation paper will be published in September 2005 to collect information about the scale of the nuisance high hedge problem in Northern Ireland. This will enable the Department to produce a regulatory impact assessment, and providing it supports a legislative solution, a policy consultation paper will then issue before Christmas seeking views on proposed legislation.

Lady Hermon: To ask the Secretary of State for Northern Ireland what recent discussions he has had about the extension to Northern Ireland of Part 8 of the Anti-social Behaviour Act 2003 governing nuisance hedges. [218232]

Angela Smith: There have been no recent discussions in relation on extending Part 8 of the Anti-social Behaviour Act 2003 to Northern Ireland.

Hospital Travel Costs Scheme

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland if he will change the rules of the hospital travel costs scheme in Northern Ireland to enable cancer sufferers to reclaim the costs of travel to hospital. [218762]

Angela Smith: Patients who are also in receipt of certain state benefits, or are on a low income, may be entitled to reimbursement of hospital travel costs. Details are given in leaflet HC 11: "Are you entitled to help with health costs?"

The present scheme is directed towards those patients who do not have a medical need for ambulance transport, but who have difficulty meeting the cost of travel to hospital. It is not considered appropriate under such a scheme, which is based on financial need, to differentiate between patients with different medical conditions. The Department has no plans to amend the current hospital travel costs scheme to enable all cancer sufferers, by virtue of their illness, to recover the cost of travel to and from hospital.

The new cancer centre in Belfast city hospital, which is due to open in 2006, will include a patient hotel with 29 rooms, where cancer patients will be able to stay free of charge. Relatives will also be able to stay for a small fee. This should help reduce the amount of travelling required by some patients during their treatment cycles, with a consequent reduction in costs.

Hospital-acquired Infections

Mr. Lidington: To ask the Secretary of State for Northern Ireland on how many occasions at each hospital trust in Northern Ireland in each of the last four years *(a)* an infection control team has recommended that a ward be closed immediately for cleaning and *(b)* that recommendation has been rejected; and if he will make a statement. [217113]

Angela Smith: The Department of Health, Social Services and Public Safety does not collect or record details on hospital wards being closed for cleaning. From information obtained from Trusts there is no evidence of any infection control team's recommendation about closing wards for cleaning being rejected.

Housing

Mr. McNamara: To ask the Secretary of State for Northern Ireland what action is being taken by the Department for Social Development to ensure that *(a)* the expenditure for the Housing Executive is clearly defined and prioritised in light of the recommendation of the Committee of Public Accounts and *(b)* that the Housing Executive undertakes economic appraisals. [219326]

Mr. Spellar: The Department for Social Development requires the Northern Ireland Housing Executive to clearly define expenditure priorities for the funding of homelessness services as part of its Homelessness Strategy, as recommended by the Committee of Public Accounts. The Department monitors Housing Executive performance on a regular basis and the specific recommendations of the Committee are reviewed quarterly as part of the accountability arrangements put in place to ensure that effective housing services are delivered.

With regard to economic appraisals, the Department for Social Development has directed the Housing Executive to carry out economic appraisals in accordance with current guidance, for all relevant investments.

Identity Cards

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether he expects the implications of the Identity Cards Bill for the common travel area will be tabled for consideration at a future meeting of the British-Irish Governmental Conference; and if he will make a statement. [218228]

Mr. Paul Murphy: The Irish Government raised this matter at the British-Irish Intergovernmental Conference held in Dublin on 2 March 2005.

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether he expects that the implications of the Identity Cards Bill for the common travel area will be tabled for consideration at a future meeting of the British-Irish Council Conference; and if he will make a statement. [218229]

Mr. Paul Murphy: The British Government have no plans to raise this matter at a future meeting of the British-Irish Council.

Andrew Mackinlay: To ask the Secretary of State for Northern Ireland whether he expects the implications of the Identity Cards Bill for the common travel area and the land border to be tabled for consideration at a future meeting of the North/South Ministerial Council; and if he will make a statement. [218230]

Mr. Paul Murphy: The North South Ministerial Council cannot meet when Section 1 of the Northern Ireland Act 2000 is in force.

NHS Pension Review

Mr. Trimble: To ask the Secretary of State for Northern Ireland what progress has been made in the NHS pension review; and if he will make a statement. [219056]

Angela Smith: The National Health Services (NHS) Employer's Organisation has been leading a review of the NHS Pension Scheme for England and Wales in partnership with NHS employer and staff side representatives. The Review Partners have produced a consultation document setting out a number of options for a new NHS Scheme. The NHS consultation started on 10 January 2005, and will run for a period of three months.

The Health and Personal Social Services (HPSS) Superannuation Scheme in Northern Ireland operates on a policy of parity with the NHS Scheme for England and Wales. In view of this the Department of Health, Social Services and Public safety is consulting on the proposals contained in the NHS (England and Wales) consultation document. Consultation in Northern Ireland commenced on 24 January 2005 and will run to 30 April 2005. The Department's HPSS Superannuation Branch is arranging presentations for HPSS management and staff representatives within each HPSS Board area.

The information contained in responses submitted to the Department will be published in a summary report of responses and will be passed also to colleagues involved in the NHS Pensions Review for England and Wales for consideration in the final decisions to be taken on the scheme.

Operating Theatres

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what changes have been initiated within the Department for Health, Social Services and Public Safety following the publication of the 2003 Northern Ireland Audit Office Report on The Use of Operating Theatres. [218380]

Angela Smith: Since publication of the Report in April 2003, the Department has required all Trusts to submit six-monthly updates on progress being made towards the implementation of the Report's recommendations. The most recent update indicated that 38 of the 43 recommendations in the Report have been fully implemented, and the other five have been partially implemented.

A number of changes have been initiated, in particular:

All Trusts now have a Theatre Manager, Theatre Director, and Theatre Users Committee in place;

A range of measures has been introduced to improve the planning of theatre sessions;

A regional Theatre Managers Forum has been established to develop theatre policies and protocols, and share good practice;

The Department has asked one Trust to take the lead in procuring a new computerised Theatre Management System to be introduced in all Trusts.

The utilisation of planned theatre sessions in Northern Ireland in 2003–04 increased to 95 per cent., exceeding the recommended target of 90 per cent. in the Bevan Report on the Management and Utilisation of Operating Departments.

Paediatric Gastroenterology Service

Mr. Beggs: To ask the Secretary of State for Northern Ireland what progress has been made in establishing a regional paediatric gastroenterology service for Northern Ireland; and if he will make a statement. [216928]

Angela Smith: Until recently this service was provided on an out-patient basis in Belfast by a consultant paediatric gastroenterologist from Birmingham Children's Hospital. This has now ceased and, in the short-term, patients requiring access to a paediatric gastroenterology service are being referred to hospitals in Great Britain.

The sustainability of vulnerable regional specialties such as paediatric gastroenterology remains a key issue. The Royal Group of Hospitals Health and Social Services Trust has previously attempted to recruit a consultant paediatrician with an interest in gastroenterology, but this has proved unsuccessful.

The Department is continuing to work with Commissioners and the Royal Group of Hospitals Health and Social Services Trust on how best to provide the service in the long-term and is exploring the possibility of a Service Level Agreement with Birmingham Children's Hospital for the 2005–06 financial year.

Principal Civil Service Pension Scheme

Mr. Lidington: To ask the Secretary of State for Northern Ireland when he expects the current full actuarial valuation of the liabilities of the Principal Civil Service Pension Scheme (Northern Ireland) to be completed; and if he will place a statement on the conclusions of that valuation in the Library. [208660]

Mr. Pearson: At the request of the Department of Finance and Personnel, the Government Actuary carried out an actuarial valuation as at 31 March 2003 of the Principal Civil Service Pension Scheme (Northern Ireland) (PCSPS(NI)).

A statement on the conclusions of the valuation as at 31 March 2003 has not been placed in the Library however a copy of the yearly resource accounts have been, the latest being as at 31 March 2004. The resource accounts are produced in line with the Financial Reporting Standard 17 (FRS17), the accounting

standard for pension scheme liabilities, and contain an actuary report on the liabilities of the PCSPS(NI) as at 31 March 2004.

Protection of Children and Vulnerable Adults Order

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what steps the Department of *(a)* Education, *(b)* Finance and Personnel, *(c)* Health Social Services and Public Safety and *(d)* Culture, Arts and Leisure will take to implement the requirements of accreditation contained in the Protection of Children and Vulnerable Adults Order 2003, in relation to (i) non-departmental public bodies, (ii) next step agencies and (iii) grant funding for children's services. [218372]

Angela Smith: The Department of Health, Social Services and Public Safety has commissioned the Volunteer Development Agency to develop and pilot a framework of quality standards, which could be used in the accreditation process. The pilot is scheduled to end on 31 March 2005 and findings will be used to inform the Department's view as to how the accreditation agenda should be taken forward. The Department of Health Social Services and Public Safety will consult other Departments and relevant key stakeholders on the way ahead.

Small Businesses

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many businesses that employ 60 people or fewer there are in each Northern Ireland constituency; how many people are employed by such small businesses in total; and how many new small businesses have been created in each year since 2000. [218310]

Mr. Timms: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Roy Beggs, dated 2 March 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning the number of businesses that employ 60 people or fewer in each Northern Ireland constituency; how many people are employed by such small businesses in total; and how many new small businesses have been created in each year since 2000. (218310)

The latest period for which the total number of small businesses is available is March 2004. The data requested are shown in Table 1, which I am placing in the House of Commons Library.

Further information about the number of businesses in the United Kingdom is available from the National Statistics publication "UK Business: Activity, Size and Location—2004" available free of charge on the National Statistics website at: http://www.statistics.gov.uk/pal003

The numbers of small business creations for each year between 2000 and 2003 are shown in Table 2, which I am placing in the House of Commons Library.

The figures presented here differ slightly from those published by the Small Business Service (SBS), as adjustments for birth lags have been applied only to the published data.

For further information on business start-ups please see the National Statistics publication "VAT Registrations and De-registrations: Business Start-ups and Closures" available free of charge on the SBS website at: http://www.sbs.gov.uk/statistics/vatstats.php

All figures have been rounded to the nearest five to avoid disclosure. This means that totals may not necessarily equal the sum of the data in columns, and counts of less than three will be shown as zero. Where counts and employment are released, all figures based on a count of less than 20 must have employment estimates replaced with an asterisk and other employment estimates must be suppressed to ensure that there is no disclosure by difference.

The employment data relate mainly to the 2001 Census of Employment updated for more recent creations and closures.

DEPUTY PRIME MINISTER

Congestion Charge

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213827]

Yvette Cooper: I refer the hon. Member to the answer given by my hon. Friend the Minister of the Cabinet Office on 28 February 2005, *Official Report*, column 957W, which detailed congestion charges and penalty charges incurred by vehicles provided to all Government Departments by the Government Car and Despatch Agency.

In addition to the costs covered by that answer, the Office of the Deputy Prime Minister has spent a total of £1,425 (this does not include the Government Offices for the Regions which perform functions on behalf of 10 Government Departments) on the congestion charge since its introduction.

Civil servants are personally responsible for meeting the cost of the congestion charge and any penalty charges incurred. Congestion charges incurred by civil servants in the necessary conduct of their business are reimbursed by the Office of the Deputy Prime Minister.

Departmental Policies (Folkestone)

Mr. Chris Smith: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Folkstone and Hythe constituency, the effects on Folkestone and Hythe of his Department's policies and actions since 2 May 1997. [215972]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Folkstone and Hythe constituency through a number of programmes.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Shepway district council has received average annual increases in formula grant since 1997 of 2.7 per

cent. Residents of Folkestone and Hythe have also benefited from Kent county council's average annual increase in grant of 4.8 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at Parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk/.

Disabled Facilities Grant

Gregory Barker: To ask the Deputy Prime Minister (1) when the report from the Disabled Facilities Grant Review Group will be made available to the House; and which Government Departments are involved in the review; [218886]

(2) whether he expects that the Strategy Unit's recent recommendation that the disabled facilities grant for disabled children should be reformed will be implemented by the end of the year; [218887]

(3) what percentage of disabled facilities grants are allocated to families with *(a)* disabled children, *(b)* disabled adults and *(c)* pensioners; [218888]

(4) what assessment he has made of the likely impact of the working tax credit on the calculations for the disabled facilities grant means test for families with disabled children; and if he will make a statement. [218889]

Yvette Cooper: The work of the Disabled Facilities Grant (DFG) review group is due to be completed in May. The Government will publish and make available in the Library of the House a consultation document on any proposals for change as soon as possible after this date. The Office of the Deputy Prime Minister, the Department for Education and Skills and the Department of Health are represented on the review group. The consultation document will include proposals for what, if any, changes should be made to the means test for disabled facilities grant.

Central records of the type of applicants for DFG by age are not kept by the Office of the Deputy Prime Minister. The latest published evaluation of the DFG system was undertaken by PIED A in 1996. This showed that 5 per cent. of DFG approvals related to disabled children under 18 and 70 per cent. where from disabled persons over the age of 60.

Apart from a disregard in relation to the 30 hour element of working tax credit, this credit is counted as income for the purposes of the DFG means test. This follows the procedures for eligibility for housing benefit and council tax benefit on which the DFG means test is based. The review of DFG is considering the DFG means test and the implications of any changes for the public sector cost of the DFG system will be fully considered.

Fire Service

Mr. Clapham: To ask the Deputy Prime Minister whether the guidance contained in Fire Service Circular No3/1995 has been *(a)* withdrawn and *(b)* replaced. [219350]

Mr. Raynsford: The guidance has neither been withdrawn nor replaced.

Mr. Clapham: To ask the Deputy Prime Minister pursuant to his answer of 27 January, *Official Report*, columns 462–63W, on the fire service, how many applications for new fire certificates in each brigade requested between 1999 and 2004 remain outstanding; what assessment he has made of the guidance issued by the Chief Fire Officers' Association to fire and rescue authorities regarding the processing of applications for fire certificates; and whether the guidance is publicly available. [219351]

Mr. Raynsford: The numbers of valid applications for fire certificates, and the number of applications outstanding at the end of each of the years requested, is given in Table 1 for England and Wales. Data on the age of outstanding applications is not collected centrally. However, average times taken to issue of fire certificates in England and Wales for the last year for which figures are available are given in Table 2.

The Office of the Deputy Prime Minister reviewed the guidance promulgated to fire and rescue authorities by the Chief Fire Officers' Association (CFOA) and made the assessment that it was consistent with the legal obligations of fire and rescue authorities and others concerned.

CFOA are arranging for the guidance to be placed on a publicly available part of the CFOA website as soon as possible. Meanwhile copies of the CFOA guidance circular have been made available in the Library of the House.

Table 1

1 April to 31 March	*Valid applications received*	*Outstanding applications at end of year*
1999–2000	4,932	1,650

Fire Service Emergency Response

Iain Wright: To ask the Deputy Prime Minister what the average response time of the fire service to 999 calls was in *(a)* Hartlepool and *(b)* England and Wales in each year since 1997. [218508]

Mr. Raynsford: The available information covers fire and rescue service response to primary fires (involving property, casualties or rescues) in England and Wales and Cleveland. Details of response times on other incidents attended by the fire and rescue service are not available centrally, and could be provided only at disproportionate cost.Response times for primary fires are collected at fire and rescue authority level, so separate information covering Hartlepool is not available centrally, and could be provided only at disproportionate cost.

Average fire and rescue service response times (primary fires) 1997–2003

	Minutes	
	England and Wales	Cleveland
1997	6.1	4.9
1998	5.9	4.7
1999	6.2	4.9

Fire and Rescue Service FDR1 returns to ODPM.

Housing

Ms Oona King: To ask the Deputy Prime Minister whether local authorities will be allowed to use capital receipts generated from right to buy sales after 1 April 2006 to fund investment in new social housing. [219348]

Keith Hill: Under the present regime governing the treatment of capital receipts arising from right to buy sales, all local housing authorities may use 25 per cent. of the receipt for any capital purpose they see fit, including investment in new social housing.

At present, there are no plans to change this regime.

Ms Oona King: To ask the Deputy Prime Minister whether local authorities will be allowed to use capital receipts generated from right to buy sales between 1 April 2003 and 31 March 2006 to fund investment in new social housing through any mechanism other than transitional local authority social housing grant. [219349]

Keith Hill: Under the regime governing the treatment of capital receipts arising from right to buy sales in financial year 2003–04, with-debt authorities could use 25 per cent. of the receipt and debt-free authorities 100 per cent. of the receipt, for any capital purpose they saw fit, not necessarily housing related.

Under the present regime, introduced on 1 April 2004, governing the treatment of capital receipts arising from right to buy sales, all local housing authorities may use 25 per cent. of the receipt for any capital purpose they see fit, including investment in new social housing.

Mr. Hoyle: To ask the Deputy Prime Minister when he expects the North West Housing Board to make a decision on affordable housing in South Lancashire. [218971]

Keith Hill: The North West Regional Housing Board will submit its proposed regional housing strategy, setting out its views on the region's housing priorities, in May 2005. Ministers will make decisions on the allocation of funds for housing investment in 2006–07 and 2007–08 in the light of these recommendations. Detailed allocations to registered social landlords, which will be subject to the usual competitive bidding process, and to local authorities will be announced around the end of the year.

Meden Valley Partnership

John Mann: To ask the Deputy Prime Minister (1) what discussions have taken place between the Meden Valley partnership and *(a)* Nottinghamshire Mental Health Trust and *(b)* Mansfield primary care trust about stress-related health problems due to delays in regenerating housing in the Meden Valley; [214487]

(2) what provision English Partnerships and the East Midlands Development Agency are making for residents who refuse to move and who are not offered refurbished accommodation or low-cost home ownership on completion of the Meden Valley partnership project; [214488]

(3) whether he expects the guarantee given by his Department, the East Midlands Development Agency and English Partnerships that residents will be able to remain in the Royal Estate and Warsop Vale under the Meden Valley partnership housing regeneration programme to be maintained; [214540]

(4) what legal opinion has been sought by English Partnerships in relation to compulsory purchase of properties in the Meden Valley; [213730]

(5) how many repairs orders due to public safety have been issued through the Meden Valley Partnership; [213731]

(6) how many residents have neither requested to move nor opposed compulsory purchase of their home under the Meden Valley Partnership; and how many of these are over 80 years old; [213732]

(7) how many residents of the Royal Estate and Warsop Vale have indicated a wish to remain living in their area under the Meden Valley partnership; [213733]

(8) what meetings have taken place between the Meden Valley partnership and the police about drug dealing and antisocial behaviour in the last two years; [213734]

(9) how many letters of thanks have been received by the Meden Valley partnership from local residents since its inception; [213735]

(10) when English Partnerships expects to build new houses in Warsop as part of the Meden Valley partnership; [213736]

(11) what plans English Partnerships has to meet its commitment to involve residents in the management of housing regeneration projects in Warsop; [213737]

(12) when and under what authority English Partnerships required means testing for existing tenants to buy new homes in Warsop under the Meden Valley partnership; [213738]

(13) how much public money has been spent through the Meden Valley partnership; [213739]

(14) how many homes have been refurbished under the Meden Valley partnership; [213740]

(15) when an employee of the East Midland Development Agency last entered *(a)* a house and *(b)* an area under threat of compulsory purchase from the Meden Valley partnership; [213750]

(16) when an employee of English Partnerships last entered *(a)* a house and *(b)* an area under threat of compulsory purchase from the Meden Valley partnership. [213751]

Substantive answer from Keith Hill to John Mann:

I promised to write to you in answer to your parliamentary questions regarding the Meden Valley Partnership when my Department had looked closely at the issues you raised.

On the important issue of improving communication with residents affected by proposals, you will be pleased to hear that the Meden Valley Board intend to appoint a Community Participation Officer to assist with the consultation process, and that in the short-term Leicester Housing Association will provide a secondee to the project. The Meden Valley Board has also confirmed that it will seek to hold monthly meetings with you, if agreeable, to address the concerns raised by your constituents, and the Community Participation Officer will be involved with these meetings. I hope that you will be able to work closely with this officer who will service the Residents Implementation Groups, which I understand you have played a role in forming through chairing the well-attended public meetings in Warsop Vale and on the Royal Estate. The Community Participation Officer will also help to develop an effective communication strategy with residents affected by the scheme.

I understand that Meden Valley Making Places Ltd are making good progress on the negotiated acquisition of properties, but I can understand the frustration some residents must feel about the length of time to complete the Compulsory Purchase Order process. To mitigate the negative impact of abandonment, Meden Valley Making Places Ltd is prioritising joint working with the Police and Community Safety Officers to help minimise problems for residents who wish to stay.

On the issue of alternative accommodation, I would support the Meden Valley Making Places Ltd's commitment to assisting homeowners and tenants, affected b redevelopment, to secure alternative accommodation on a like for like basis. I am sure that

you would agree with this policy. The various options available to residents can be discussed with either Sarah Streater or Shamus O'Leary (Tel: 01623–847675) at Meden Valley Making Places Ltd.

I hope that you feel we are moving forward in Meden Valley and driving forward the Government commitment to developing sustainable communities.

Neighbourhood Management Pathfinders

Mr. Cummings: To ask the Deputy Prime Minister if he will make a statement on the progress of neighbourhood management pathfinders and their future funding allocations. [217866]

Keith Hill: Funding was made available to 20 round one neighbourhood management pathfinder schemes from 2001–02 and to 15 round two schemes from 2003–04.

Round one schemes have made good progress on working towards mainstreaming interventions and working with service providers so that their services better meet the needs of the local community. Round two pathfinders have successfully submitted their delivery plans and have completed the first stage of implementation. The 2004 National Evaluation says there is evidence of the Pathfinder programme making a real change to people's lives.

Funding for each round of the programme is for seven years with £77.6 million available to round one schemes and £44.4 million available to round two schemes over the life of the programme. The announcement for funding allocations for 2005–06 will be made in the near future.

Pendle

Mr. Gordon Prentice: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to Pendle constituency, the effects on Pendle of his Department's policies and activities since 2nd May 1997. [215011]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

The Office of the Deputy Prime Minister provides grant funding that benefits the Pendle constituency through a number of programmes.

For example over the period 2001–06 Pendle has been allocated £8.3 million Neighbourhood Renewal Fund (NRF) resources to help the local authority, in collaboration with the Local Strategic Partnership, improve services in the most deprived neighbourhoods in the area.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Pendle council has received an average annual increase in formula grant since 1997 of 6.0 per cent. Residents of Pendle have also benefited from Lancashire county council's average annual increase in grant of 4.4 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at Parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk/.

Right to Buy

Martin Linton: To ask the Deputy Prime Minister how many council homes have been sold under the right to buy in Wandsworth since 1990. [218530]

Keith Hill: The local authority has reported 4,276 sales of council dwellings under the right to buy and rent to mortgage schemes in Wandsworth between 1990–91 and 2003–04.

FOREIGN AND COMMONWEALTH AFFAIRS

European Constitution

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what reasoning underlay the decision to describe the treaty establishing a constitution for Europe as the treaty establishing a constitution for the European Union in the question that will be used for the referendum on the constitution. [217451]

Mr. Leslie: I have been asked to reply.

The treaty binds only its signatories, that is, members of the European Union, and not every state geographically in Europe. Although the treaty is said to establish a "Constitution for Europe" it is clear from the very first article that "this Constitution establishes the European Union . . . ". Referring in the question to the "Constitution for the European Union" is likely to be more intelligible to the voter since it reflects more accurately what he or she is being asked to approve.

The Electoral Commission commented in its assessment of the question on 3 February 2005 that the modification of the title of the treaty in the question does not detract from its overall intelligibility.

Falkland Islands

Vera Baird: To ask the Secretary of State for Foreign and Commonwealth Affairs what the date is of the next meeting between officials representing the UK and Argentine Governments to discuss charter flights to the Falkland Islands for the purposes of cruise ship passenger transfers. [219343]

Mr. Rammell: There are no meetings scheduled between the UK and Argentine Governments to discuss the issue of charter flights. The situation on this issue remains unchanged from that given in my statement on 18 November 2004, *Official Report*, column 1782W to the hon. Member for Boston and Skegness (Mr. Simmonds).

Firecrest

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the cost of his Department's new Firecrest contract, with Hewlett-Packard, signed on 16 February. [218705]

Mr. Rammell: The seven year deal, the largest contract the Foreign and Commonwealth Office (FCO) has ever signed, will see Hewlett-Packard take on overall responsibility for the FCO's business critical IT infrastructure in partnership with in-house IT providers FCO Services, original developers of the "Firecrest" system. The total cost of the contract over seven years is currently estimated at £320 million based on a contract with Hewlett-Packard UK worth approximately £180 million and FCO internal costs of £140 million, including FCO Services' charges.

Iran/Iraq

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of relations between the Iranian regime and the *(a)* Supreme Council for the Islamic Revolution in Iraq, *(b)* United Iraqi Alliance and *(c)* Iraqi National Congress. [218177]

Mr. Rammell: We maintain a close dialogue on Iraq with the Iranian Ministry of Foreign Affairs and others in the Iranian Government. The Iranian authorities have a well-known friendship with many of the Shia groups, including the Supreme Council for the Islamic Revolution in Iraq and other component members of the United Iraqi Coalition. They also have good relations with non-Shia groups, including among the Kurdish parties. Iran has stated that it will co-operate with the future Iraqi Government, regardless of its religious preferences.

Iraq

Mr. Cousins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many contracts for the supply of security and surveillance services and equipment from the private sector have been placed by the UK Government and its agencies in Iraq, broken down by base country of the contracting company; and what the total value of such contracts is. [204613]

Mr. Rammell: The Foreign and Commonwealth Office currently has four contracts with two British private sector companies for the provision of security services in Iraq. The annual value of these contracts is approximately £50 million.

I will write to my hon. Friend with details of any other contracts placed by other UK Government Departments and its agencies in Iraq. I will place a copy of my letter in the Library of the House.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his EU counterparts regarding the war in Iraq over the last six months. [210588]

Mr. Rammell: Over the last six months, my right hon. Friend the Foreign Secretary has had continuous discussions on Iraq with his European Union (EU) colleagues. This dialogue has taken place regularly at the monthly EU Foreign Ministerials, in bilateral meetings and in other fora.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people have been registered to vote in northern Iraq *(a)* in numbers, *(b)* as a percentage of the population of the Kurdish area of Iraq, *(c)* as a percentage of eligible voters in Iraq and *(d)* as a percentage of all registered voters in Iraq; and if he will make a statement. [213237]

Mr. Rammell: In the Kurdistan Regional Government (KRG) area, 2,124,181 were registered to vote. This represents an estimated 61 per cent. of the population within the KRG. This figure is 25 per cent. of the overall registered voters in Iraq. In addition a further 280,000 Iraqis registered to vote outside of Iraq. Figures on the number of people who are eligible to vote but not registered are not known. However, a comprehensive registration exercise was carried out in the six week period from 1 November to 15 December.

Nepal

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the political situation in Nepal and its development since January 2004; and if he will make a statement. [214732]

Mr. Alexander: We are deeply concerned by the current political situation in Nepal. The King's recent move to assume direct control of the country is a backward step for democracy. Following the royal takeover I summoned the Nepalese ambassador to express our grave concern and released a public statement in which I said that his action would increase the risk of instability in Nepal and undermine the institutions of democracy and constitutional monarchy in the country. I also called for the immediate restitution of multi-party democracy. A copy of my statement is available on the Foreign and Commonwealth Office website www.fco.gov.uk/policy/news/press-releases.

Immediately after the takeover of power by the King the EU presidency issued a statement on behalf of the EU which expressed our concerns about restrictions on liberty and calling for human rights to be respected. Our ambassador in Kathmandu raised these issues directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised them with the new Nepalese Foreign Minister on 7 February.

On 14 February my right hon. Friend the Foreign Secretary recalled our ambassador in Nepal to London for consultations. Following those consultations with our ambassador and other key international partners we decided to withdraw the proposal, laid before Parliament in a minute of 20 January 2005, for a further tranche of military assistance to Nepal.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations *(a)* he, *(b)* members of his Department and *(c)* representatives of the UK Government have made to (i) members of the royal family of Nepal and (ii) representatives of the Government of Nepal regarding King Gyanendra's declaration of a state of emergency on 1 February; and if he will make a statement. [214733]

Mr. Alexander: Following the takeover of power by the King I summoned the Nepalese ambassador on 1 February to express our grave concern at developments. I also issued a public statement on 1 February in which I set out our concern that his actions would increase the risk of instability in Nepal and undermine the institutions of democracy and constitutional monarchy in the country. In that statement I called for the immediate restitution of multi-party democracy. A copy of my statement is available on the Foreign and Commonwealth Office website www.fco.gov.uk/policy/news/press-releases.

Immediately after the takeover of power by the king the EU presidency issued a statement on behalf of the EU which explained our concerns about restrictions on liberty and calling for human rights to be respected. Our ambassador in Kathmandu raised these issues directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised them with the new Nepalese Foreign Minister on 7 February.

On 14 February my right hon. Friend the Foreign Secretary recalled our ambassador in Nepal to London for consultations. Following those consultations with our ambassador and other key international partners we decided to withdraw the proposal, laid before Parliament in a minute of 20 January 2005, for a further tranche of military assistance to Nepal.

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to *(a)* seek the release and *(b)* secure the protection of (i) political leaders and (ii) human rights activists following recent actions by King Gyanendra in Nepal; and if he will make a statement. [215933]

Mr. Alexander: Immediately after the takeover of power by the King we issued a statement with our EU partners which expressed our grave concerns about restrictions on liberty and calling for human rights to be respected. Our ambassador in Kathmandu raised these issues directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised them with the new Nepalese Foreign Minister on 7 February.

Because of media and other restrictions we may not be aware of all those arrested or detained, especially outside Kathmandu. Human rights sources have identified some 270 individuals who are still detained, including students, political activists, journalists and academics.

We are keeping the situation on the various restrictions on liberty in place in Nepal under review. We intend that our ambassador should again raise our concerns about restrictions on civil rights in his next audience with the King.

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to seek to secure the independence and integrity of the Nepali National Human Rights Commission and ensure the protection of its premises and documents; and if he will make a statement. [215936]

Mr. Alexander: The UK has been a committed supporter of the National Human Rights Commission (NHRC) in Nepal, whose activities we have part funded, in particular by providing for technical assistance on human rights monitoring. The tenure of the current Commission expires in April and the absence of Parliament will make the appointment of new commissioners problematic. We are particularly concerned about the future independence and integrity of the NHRC following the King's takeover of power on 1 February. Our ambassador has raised our concerns with the new Foreign Minister and we will be considering with international partners how best to press for the continuing independence and integrity of the NHRC.

Immediately after the takeover of power by the King we issued a statement with our EU partners which expressed our grave concerns about restrictions on liberty and calling for human rights to be respected. Our ambassador in Kathmandu raised these issues directly with the King in an audience on 8 February. With other EU member states' ambassadors he also raised them with the new Nepalese Foreign Minister on 7 February.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* officials in his Department and *(c)* representatives of the UK Government have had with members and representatives of the Government of (i) India, (ii) China and (iii) Bhutan regarding the current situation in Nepal; and if he will make a statement. [215988]

Mr. Alexander: My right hon. Friend the Foreign Secretary discussed the situation in Nepal during his recent visit to India. Senior officials have also had a number of discussions with Indian officials about the situation in Nepal. Officials have also discussed the situation in Nepal with the Government of China. We have so far had no discussions with the Government of Bhutan regarding recent developments in Nepal.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the number of civilian and military casualties of the Maoist revolt in Nepal per annum since 1997, *(b)* the social and economic impact of the Maoist revolt in Nepal and *(c)* the measures undertaken by the Government of Nepal to address the Maoist revolt since 1997; and if he will make a statement. [215989]

Mr. Alexander: It is very hard to give precise figures for the number of casualties caused by the Maoist insurgency in Nepal. We do not have figures of casualties going back to 1997 on an annual basis.

The social impact of the conflict has been very considerable. Maoist violence, especially in the villages and towns outside the district capitals, has caused widespread fear among the locals. It has caused major disruption to key services, including education and health. Many schools have been forced to close and many locals have been forced to flee their homes to avoid being attacked by the Maoists or forcibly recruited into their ranks. Many thousands of people have been displaced, many are homeless and without access to basic amenities. The security forces' failure consistently to respect human rights has compounded

the situation. The conflict has further damaged the social fabric by increasing ethnic divisions and reducing the rule of law in the rural areas.

The conflict has also done great damage to the Nepalese national economy, which has become one of the prime Maoist targets. The Maoists regularly extort money from local businesses and industries and prevent businesses from running normally. They enforce frequent strikes (bandhs) and seek to prevent the free movement of goods. Hundreds of companies have been forced to close. The Maoists have also attacked the tourism industry infrastructure, so damaging a key contribution to the Nepalese economy. Unemployment is now a serious problem.

The Government of Nepal have employed a mixture of military and diplomatic measures since 1997 to combat Maoist activity and bring about a successful resolution of the conflict. There have been two rounds of negotiations, in 2001 and 2003, both of which broke down.

We continue to advocate the need for an inclusive peace process, involving all of the constitutional forces. We consider that this offers the only way to resolve the conflict in a manner which will lead to a stable Nepal based on a multi party democracy, good government and respect for human rights.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* officials in his Department and *(c)* representatives of the UK Government have had with members and representatives of the Government of Nepal concerning (i) civil rights and (ii) freedom of speech in Nepal since 1 February; and if he will make a statement. [215990]

Mr. Alexander: Following the King of Nepal's assumption of power on 1 February I summoned the Nepalese ambassador to express the UK's grave concern about his actions. In a statement afterwards I set out our real concern at the King's dismissal of his Prime Minister, and warned that his action would increase the risk of instability in Nepal and undermine the institutions of democracy and constitutional monarchy. I called for the immediate restitution of multi-party democracy in Nepal. A copy of my statement is available on the Foreign and Commonwealth Office website www.fco.gov.uk/policy/news/press-releases.

Our ambassador met with the King on 8 February. During this meeting he conveyed to the King the UK's strong concern about the damage the King's actions had done to democracy in Nepal, and about the state of emergency in Nepal, including the continuing suspension of civil liberties, the detention of politicians and the strict media censorship since the palace coup of 1 February. Our ambassador also conveyed our concerns to the new Nepalese Foreign Minister in a meeting on 7 February.

Such is our concern about the King's takeover of power that on 14 February my right hon. Friend the Foreign Secretary recalled our ambassador in Nepal to London for consultations. Following those consultations with our ambassador and other key international partners we decided to withdraw the proposal, laid before Parliament in a minute of 20 January 2005, for a further tranche of military assistance to Nepal. We intend that our ambassador should again raise our concerns about restrictions on civil rights in Nepal in his next audience with the King.

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the political situation in Nepal. [218706]

Mr. Alexander: The UK is deeply concerned by the current political situation in Nepal. We believe that the King's recent move to dismiss the Prime Minister and assume power outside the framework of a multi party democratic system is likely to put back the prospects of a negotiated settlement. Immediately following the King's takeover of power on 1 February I issued a statement in which I said that this action would increase the risk of instability in Nepal and undermine the institutions of democracy and constitutional monarchy in the country. A copy of the statement is available on the Foreign and Commonwealth Office's website www.fco.gov.uk/policy/news/press-releases. Such is the level of our concern that my right hon. Friend the Foreign Secretary temporarily recalled our Ambassador in Kathmandu for consultations on 14 February.

The UK has consistently held the view that there can be no military resolution and that a negotiated political settlement involving all parties offers the best way to resolve the ongoing conflict and to create a stable democracy with good governance and respect for human rights. We will continue to press all parties for an early return to negotiations.

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had regarding *(a)* the current situation in Nepal and *(b)* the safety of British non-governmental organisations in the area; and if he will make a statement. [219342]

Mr. Alexander: We have held discussions about the current situation in Nepal with both the Nepalese authorities and our international partners. Following the King's takeover of power on 1 February I summoned the Nepalese Ambassador to convey our grave concerns. Our Ambassador in Nepal also had an audience with the King to convey the same message. On 14 February my right hon. Friend the Foreign Secretary recalled our Ambassador to Nepal for consultations, in step with similar action by the US, EU, Indians and others. The Foreign Secretary held discussions on Nepal with his Indian counterparts during his recent visit to India and we have also discussed Nepal with other international parties at official level.

The Government take any threat to the safety of United Kingdom nationals in Nepal, as elsewhere, very seriously. The British embassy in Nepal has been in close contact with British NGOs since the early days of the Maoist insurgency and offers regular briefings on

security to new arrivals as well as making provision for assistance in times of emergency through a system of local volunteer wardens in which representatives of British NGOs take part.

Syria

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of US accusations of Syrian involvement in *(a)* terrorism and *(b)* insurgency in Iraq; and if he will make a statement. [216324]

Mr. Rammell: We share the US concerns about terrorism in the region and the insurgency in Iraq. We have made clear to Syria that we expect them to play a constructive role in tackling both of these issues.

In this context we welcome the steps Syria and Iraq have taken to strengthen their co-operation, including the handing over of Sabawi Ibrahim al-Hassan to Iraq. We encourage them to continue to develop such co-operation.

We have repeatedly told Syria that she must address the problems created by Palestinian rejectionist groups. Closure of their offices in Damascus is a step in the right direction but Syria must exercise her influence over these groups in a positive manner.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the Syrian Accountability Act and *(b)* the US Administration's use of the Syrian Accountability Act since November 2003; and if he will make a statement. [216325]

Mr. Rammell: We assess that in the short-term the impact of the Syrian Accountability Act on Syria will be limited. The use of the Accountability Act is a matter for the US. We regularly discuss with the US Administration our concerns about Syria on a number of issues.

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what his most recent assessment is of the policy of Syria towards *(a)* Iraq, *(b)* the Lebanon and *(c)* terrorism; and if he will make a statement on UK relations with Syria. [217859]

Mr. Rammell: We have a continuing dialogue with Syria on a number of issues, including Syrian support for the Iraqi Transitional Government; the policing of the Syria-Iraq border; improving security in Iraq; implementation of United Nations Security Council Resolution 1559; and support for Palestinian rejectionist groups such as Hamas and Palestinian Islamic Jihad.

We encourage Syria to strengthen its support for Iraq. Syria knows that helping to improve security in Iraq will benefit not only the Iraqi people but also the wider region.

Syria is aware that we are seeking full compliance with the demands of Security Council Resolution 1559 and we look forward to discussing with our Security Council Partners in April the UN Secretary-General's report on progress. We welcome the UN Secretary-General's announcement of an investigation into the bombing in Beirut on 14 February, which killed 15 people including former Prime Minister Hariri. My noble Friend the Baroness Symons of Vernham Dean visited Lebanon, 24–25 February, to offer the condolences of HMG on the death of Mr. Hariri and the other victims.

We have repeatedly told Syria that she must address the problems created by rejectionist groups. Closure of their offices in Damascus is a step in the right direction but Syria must exercise her influence over these groups in a positive manner.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Ugandan authorities regarding plans by President Museveni to amend the constitution in order to grant himself an indefinite term in office. [218267]

Mr. Mullin: I refer the hon. Member to the reply I gave to the hon. Member for Boston and Skegness (Mr. Simmonds) on 22 February 2005, *Official Report*, column 590W.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide capacity-building assistance to the Forum for Democratic Change in Uganda. [218271]

Mr. Mullin: The Foreign and Commonwealth Office is currently funding a project to help build capacity in all Uganda's major political parties as they prepare for the 2006 elections. This includes the Forum for Democratic Change. The project provides small group training focusing on professional skills development for parties. We will seek opportunities to build on this with further cross-party support over the coming year.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made representations to the Ugandan Government regarding the plans by President Museveni to amend the constitution in order to secure an indefinite term in office. [218284]

Mr. Mullin: I refer the hon. Member to the reply I gave to him on 22 February 2005, *Official Report*, column 590W.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Council of Europe's support for the Baker Peace Plan for the Western Sahara. [217223]

Mr. Rammell: The United Kingdom has noted the Parliamentary Assembly of the Council of Europe's Resolution 1408 (2004) on the Western Sahara.

The United Kingdom fully supports the efforts of the UN Secretary-General and his Special Representative Alvaro de Soto to find a just, lasting and mutually acceptable solution to the Western Sahara dispute which provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

We believe UN efforts to find a solution to the dispute should be maintained and continue to urge all parties to the dispute to engage constructively with the UN.

Zimbabwe

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with the EU regarding the situation in Zimbabwe. [218707]

Mr. Mullin: We regularly discuss the situation in Zimbabwe with our EU partners. With our strong support the EU unanimously agreed to renew for a further year its package of targeted measures against the Government of Zimbabwe, starting as of 21 February 2005. These consist of an arms embargo, and a travel ban and assets freeze on leading members of the Zimbabwean Government.

WORK AND PENSIONS

Access to Work Scheme

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) what the cost range of bids made to the Access to Work scheme was in the latest period for which figures are available; and what the average award was; [214626]

(2) by which months of the financial year the Access to Work budget has been spent in each of the last five years; and how often the Access to Work budget has been *(a)* overspent and *(b)* underspent in each of the last five years. [214636]

Maria Eagle: The Access to Work grant paid to individuals is based on their particular need and can range from the cost of a small piece of specialised office equipment to six-figure sums paid to provide Support Workers. Although information is not collected on the cost range of Access to Work grants, the average amount paid to Access to Work beneficiaries during the last full financial year, 2003–04, was £1,607.

Spend on Access to Work has exceeded the baseline funding figure in each of the past five financial years. Funding for Access to Work was spent by March 2000; February 2001; January 2002; February 2003 and February 2004. Expenditure subsequent to those dates in each financial year was funded from underspend on other Departmental budgets.

Total expenditure in each year is in the following table.

Access to work spend

	£ million
1999–2000	24.4
2000–01	32.5
2001–02	42.5
2002–03	50.3
2003–04	56

Note:
Figures are rounded to the nearest thousand.

DWP Disability and Rehabilitation Division

Age-based Benefits

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how many benefit recipients receive *(a)* some and *(b)* all their benefits at a lower rate on the basis that they were aged less than 25 years, broken down by benefit. [211897]

Mr. Pond *[holding answer 1 February 2005]:* Incapacity benefit (IB), severe disablement allowance (SDA), disability living allowance (DLA) rates are not normally affected if a customer is under 25.

The information is not available in the format requested; the available information is in the table.

Recipients of income-related benefits aged under 25[1] August 2004[2] and May 2003[2]

	All	Also claiming IB/SDA/DLA[3]	Not claiming IB/SDA/DLA
JSA (including those on HB/CTB)	216,700	3,300	213,400
IS (including those on HB/CTB)	107,500	77,600	29,900
HB only[4]	10,000	[5]—	[5]—
CTB only[4]	[5]—	[5]—	[5]—
HB and CTB (not also IS/JSA)[4]	10,000	[5]—	10,000

[1] Under 18 for lone parents, as lone parents aged 18–24 qualify for the full benefit rates. Couples on JSA where either the claimant or the partner is under 18 also receive a lower rate of benefit.
[2] IS/JSA figures are at August 2004 from 5 per cent. Working Age Client Group data. HB/CTB figures are at May 2003 and from 1 per cent. data.
[3] Claimants of JSA are only entitled to claim DLA as an additional benefit.
[4] Due to the estimation procedure to remove overlaps between housing benefit and council tax benefit recipients, and the collection procedures in Scotland, these figures have been rounded to the nearest 10 thousand.
[5] data is negligible.
Notes:
1. IS/JSA figures are rounded to the nearest hundred.
2. Totals may not sum due to rounding.
3. Council tax benefit totals exclude any Second Adult Rebate cases.
4. Housing benefit figures exclude any Extended Payment cases.
5. A very small number of housing benefit claimants, where both the claimant and partner are aged under 18, receive a lower rate of benefit. These are not included in the figures but the number is negligible.
Source:
IAD Information Centre, 5 per cent. Working Age Client Group sample and 1 per cent. HB/CTB sample.

Benefits

Charles Hendry: To ask the Secretary of State for Work and Pensions how many under-35 year olds are on lower benefit rates. [218849]

Mr. Pond: Lower rates of income-related benefits are paid to some of those under 25 years of age. Those over 25 years of age receive the standard rate. The available information is in the following table.

Claimants of income-related benefits aged under 25[1]

	Number
Jobseekers Allowance (whether or not also HB/CTB)	216,700
Income Support (whether or not also HB/CTB)	107,500
Housing Benefit (HB) only	10,000
Council Tax Benefit (CTB) only	[2]—
Housing Benefit and Council Tax Benefit	10,000

[1] Under-18 for lone parents, as lone parents aged 18 to 24 qualify for the full benefit rates. Couples on JSA where either the claimant or the partner is under 18 also receive a lower rate of benefit.
[2] Signifies the data is negligible.

Notes:
1. Income support and jobseekers allowance figures are at August 2004; housing benefit and council tax benefit figures are at May 2003.
2. Income support and jobseekers allowance figures are rounded to the nearest hundred; housing benefit and council tax benefit figures have been rounded to the nearest 10 thousand.
3. Council tax benefit totals exclude any second adult rebate cases.
4. Housing benefit figures exclude any extended payment cases.
5. A very small number of housing benefit claimants, where both the claimant and partner are aged under-18, receive a lower rate of benefit. These are not included in the figures but the number is negligible.

Source:
Information Directorate, 5 per cent. Working Age Client Group sample and 1 per cent. Housing Benefit/Council Tax Benefit sample.

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many people claimed *(a)* income support, *(b)* jobseekers allowance, distinguishing between contribution and income based jobseekers allowance and *(c)* national insurance credits only in (i) each parliamentary constituency in the north east and (ii) each electoral ward of Newcastle upon Tyne in (A) August 1997 and (B) August 2004. [219057]

Mr. Pond: Information for electoral wards is not available prior to 1998; the information for 2004 has not yet been published. The parliamentary constituency information is in the tables.

Income support claimants by parliamentary constituency in the North East:

August 1997 and August 2004 Parliamentary constituency	*August 1997*	*August 2004*
Berwick-upon-Tweed	4,100	2,000
Bishop Auckland	6,800	4,000
Blaydon	5,900	2,200
Blyth Valley	5,700	3,700
City of Durham	4,400	2,500
Darlington	6,700	4,100
Easington	7,800	5,200
Gateshead, East and Washington, West	8,100	4,200
Hartlepool	8,500	4,800
Hexham	2,800	1,300
Houghton and Washington, East	7,700	4,400
Jarrow	6,900	3,600
Middlesbrough	10,600	7,000
Middlesbrough, South and East Cleveland	6,700	4,000
Newcastle upon Tyne, Central	7,700	4,100
Newcastle upon Tyne, East and Wallsend	9,300	5,500
Newcastle upon Tyne, North	6,800	3,800
North Durham	6,400	3,800
North Tyneside	8,300	4,700
North West Durham	6,900	3,100
Redcar	8,700	5,200
Sedgefield	6,600	3,800
South Shields	8,600	4,800
Stockton, North	7,200	5,000
Stockton, South	5,500	2,900
Sunderland, North	8,500	4,600
Sunderland, South	10,500	4,900
Tyne Bridge	12,400	6,900
Tynemouth	7,100	2,700
Wansbeck	5,400	2,700

Jobseeker's allowance claimants by parliamentary constituency in the North East and type of jobseeker's allowance

Cancer

Dr. Gibson: To ask the Secretary of State for Work and Pensions what policies his Department has in place for supporting employees with cancer. [218591]

Maria Eagle: The Department has a range of policies in place to support all staff who are ill, whatever the cause. This includes extensive sick pay arrangements, special leave for staff attending medical appointments, the opportunity for a phased return to work following an absence and the advice and support of an Occupational Health Provider. In addition, the Department's staff can make use of the facilities of an Employee Assistance Provider, who can provide advice and support to individuals who have an illness themselves or who are affected by the illness of a friend or relative. For those who are unlikely to be able to return to work, there is also the opportunity of ill health retirement via the civil service pension scheme.

In the last 12 months nearly 400 people have had time off work due to cancer.

Child Support Agency

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how many Child Support Agency centres there are in the West Midlands region. [218039]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Jim Cunningham, dated 2 March 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many Child Support Agency centres there are in the West Midlands region.

Within the West Midlands Government Office Region there is 1 main Child Support Agency centre this is based at Dudley, Pedmore House. In addition we have 3 Satellite Processing Centres at Birmingham, Litchfield & Shrewsbury.

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217100]

Maria Eagle: Action to support the Gaelic language is primarily the responsibility of Scottish Ministers.

The Department for Work and Pensions attaches great importance to the promotion and protection of the Gaelic language in line with the UK's obligations under the European Charter for Regional and Minority Languages.

The Gaelic Language (Scotland) Bill currently before the Scottish Parliament does not extend statutory obligations on UK public bodies in Scotland in relation to the preparation or implementation of Gaelic language plans. However, UK departments and public bodies which operate in Scotland may—like comparable Scottish public bodies—have a role to play in facilitating the use of the language.

The Department for Work and Pensions has been working closely with colleagues in the Scotland Office and the Scottish Executive on the role we can play, voluntarily, in securing the status of Gaelic.

Housing allowance

Mr. Webb: To ask the Secretary of State for Work and Pensions when the findings of the comprehensive evaluation of the local housing allowance pathfinders will be published. [218909]

Mr. Pond: We published the baseline stage of the evaluation of the Local Housing Allowance (LHA) pathfinders in September 2004. Copies of these reports covering the views and experiences of tenants, landlords, pathfinder local authorities and other stakeholders prior to the start of the Local Housing Allowance scheme, are available in the Library. All these publications can also be found on the DWP's website at www.dwp.gov.uk/housingbenefit/lha/evaluation/index.asp

Further publications covering the first six months of the new scheme are due to be published during spring 2005. The evaluation will then provide a further series of interim publications, based on experience at the 15 month stage, followed by a final evaluation in 2006.

The full titles and dates of publications of the reports and summaries published to date are:

"Evaluating the LHA Pathfinders"

This introductory paper sets out the policy context for the LHA and the evaluation strategy for the pathfinders (published September 2004)

"The nine LHA Pathfinder areas: a summary of the baseline position before the introduction of the LHA"

This sets the scene for the introduction of the policy and provides a benchmark for future reports. It brings together the evidence gathered from the key stakeholders and captures the later stages of the preparation for 'go-live' in the nine authorities (published September 2004)

"Claiming Housing Benefit in the Private Rented Sector: the baseline experience of claimants in the nine LHA Pathfinder areas"

This looks in detail at the household, housing and financial characteristics from a survey of housing benefit claimants before the introduction of the LHA (published September 2004)

"Landlords and Agents in the nine LHA Pathfinder areas: a summary report"

This provides initial top-line findings from the baseline survey of landlords and letting agents (published September 2004).

"Landlords and Agents in the private rented sector: the baseline position in the LHA Pathfinders"

This follows on from the summary and completes the series of reports from the baseline stage of the evaluation. This is the full report of findings from a survey of landlords and agents, carried out prior to the introduction of the LHA (published February 2005).

Income Support

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions how many families with children have been in receipt of income support for more than one year in Coventry. [218040]

Mr. Pond: As at August 2004, 6,100 families with dependant children up to the age of 19 had been in receipt of income support for more than one year in the Coventry local authority area.

Notes: 1. Figures are rounded to the nearest hundred and quoted in thousands.2. Figures are based on a 5 per cent. sample and therefore subject to a degree of sampling variation.

Source: DWP Information Directorate, 5 per cent. samples.

New Deal for Lone Parents

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many people living in Lancashire have gained work through the new deal for lone parents. [217580]

Jane Kennedy: 8,060 people in Lancashire have gained work through the new deal for lone parents since the start of the programme in October 1998.

Data for Lancashire are the total for the Jobcentre Plus districts of East Lancashire and Lancashire West.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his written statement of 3 February 2005, *Official Report*, column 68WS, on pension credit, if he will place in the Library a copy of the analysis from which the take-up estimates were derived. [216899]

Malcolm Wicks *[holding answer 22 February 2005]:* National Statistics on take-up of major DWP benefits are published annually by the Department in Income Related Benefits: Estimates of Take-up. These are based on the Family Resources Survey (FRS) for the relevant year and take account of both entitled non-recipients and non-entitled recipients. However, they are published significantly in arrears and the 2004-05 statistics will not be available for some time.

In the interim, indicative take-up figures may be calculated by comparing estimates of entitlement with actual numbers of claimants in the administrative data.

Projections from the Department's Policy Simulation Model, based on the 2002–03 Family Resources Survey, have yielded estimates of entitlement. This methodology suggests an initial view that in 2004–05 take-up is over 80 per cent. for those on the guarantee element, and could be as high as 90 per cent. for single women pensioners entitled to the guarantee element.

Mr. Hoyle: To ask the Secretary of State for Work and Pensions what the total value of pensioner credit paid in Chorley constituency to date is; and what the average sum paid in Chorley is. [218973]

Malcolm Wicks: Between 1 October 2003 and 31 December 2004 an estimated total of £9.4 million, rounded to the nearest £100,000, was paid in pension credit in the Chorley constituency. The average award in Chorley at 31 December 2004 was £38.32.

Sources:

Programme Accounting Computer System and IAD Information Centre, Department for Work and Pensions.

Pension schemes

Mr. Denham: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of pension schemes which were wound up while the sponsoring employer remained solvent between 1 May 2004 and 4 November 2004. [219453]

Malcolm Wicks: No such estimate has been made.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions how many pensioners receive attendance allowance; and what proportion this represents of all pensioners. [216760]

Maria Eagle: At August 2004, the latest date for which figures are available, 1, 403,000 pensioners received Attendance Allowance. This represents 15 per cent. of the total population aged 65 and over (eligibility for attendance allowance begins at age 65).

Staff Surveys

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library staff surveys for *(a)* the Department of Work and Pensions, *(b)* the Department of Social Security and *(c)* the executive agencies of each for the last seven years for which figures are available. [218911]

Maria Eagle: The Department for Work and Pensions was formed in June 2002. The results for the staff surveys completed in 2002, 2003 and 2004 have been placed in the Library.

The available results for the staff surveys conducted within the predecessor departments and agencies have been placed within the Library. This includes the Employment Service in 1998, 1999, 2000 and 2001; Child Support Agency in 1999 and 2001; Benefits Agency in 1998 and the Appeals Service in 2001.

Winter Fuel Allowance (Battersea)

Martin Linton: To ask the Secretary of State for Work and Pensions how many people in each ward of Battersea constituency received the winter fuel allowance in 2003–04. [218528]

Malcolm Wicks: The number of people in each ward of Battersea constituency who received the winter fuel payments in 2003–04 is in the following table.

Parliamentary constituency: Battersea

Ward name	*WFP claimants 2003–04*
Balham	1,475
Fairfield	1,215
Latchmere	1,815
Northcote	1,205
Queenstown	1,485
Shaftesbury	1,425
St Mary's Park	1,665
Wandsworth Common	1,490

Notes:

1. All Wards based on Census Wards—those current as at April 2003.
2. The wards of Fairfield and Wandsworth Common are included as they are partially in the Battersea parliamentary constituency.
3. WFP data is the latest currently available, winter 2003–04.
4. All benefit counts at ward level are rounded to a multiple of 5.

IAD Information Centre.

Written Answers to Questions

Thursday 3 March 2005

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Air Pollution

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the overall change in UK carbon dioxide emissions has been since 1997, taking 1997 as a base figure of 100; and what the change in carbon dioxide emissions from *(a)* industry, *(b)* domestic sector, *(c)* transport, *(d)* road transport and *(e)* air transport have been since 1997, taking 1997 as a base figure of 100. [218908]

Mr. Morley *[holding answer 1 March 2005]:* The following table contains the rebased carbon dioxide emission from 1997 to 2002. The figures are based on the 2004 official inventory ("UK Greenhouse Gas Inventory, 1990 to 2002") using new factors for Gas and Power Station Coal (Scenario 2 and 6) to be in line with the "Review of the UK Climate Change Programme Consultation Paper". The total decrease in carbon dioxide from 1997 to 2002 is 1.1 per cent.

	1997	*2002*
(a) Industry[1]	100	102.6
(b) Domestic sector	100	105.2
(c) Transport[2]	100	98.8
(d) Road transport	100	100.7
(e) Air transport[3]	100	113.6
(f) Other sources[4]	100	88.7
Total	100	98.9

[1] Includes energy industries and industrial processes
[2] Includes all domestic transport (incl. domestic aviation and domestic shipping only)
[3] Domestic aviation only (excl. international aviation)
[4] Includes businesses and land use change emissions (excl. landuse change removals)

Avian Flu

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what safeguards she has put in place to prevent the importation and spread of avian flu; and if she will make a statement; [219285]

(2) what steps she has taken to ensure that imports of poultry from countries with known outbreaks of avian flu are safe; what inspections are made of foodstuffs imported from such countries; and if she will make a statement. [218465]

Mr. Bradshaw: If there is an outbreak of disease in an exporting country, Community legislation allows member states to take appropriate emergency safeguard action, which may include a ban on imports of animal products from all, or parts, of that country, pending emergency action at Community level. Once Community measures are put in place the safeguard measures will reflect them. Safeguard measures are currently in place to ban or restrict imports of meat and other animal products of susceptible species in respect of highly pathogenic avian influenza in Cambodia, Indonesia, Japan, Laos, Malaysia, Pakistan, the People's Republic of China, including the Territory of Hong Kong, South Korea, Thailand, Vietnam and South Africa and Newcastle disease in Bulgaria

All poultry meat and products derived from birds imported from third countries must be accompanied by veterinary certification. As laid down in Community law.

All live birds, poultry meat and poultry meat products imported from third countries must be accompanied by a licence and/or veterinary certification. This confirms that the birds are not derived from an area where there has been an outbreak of avian influenza or Newcastle disease; it also confirms that live birds have not been vaccinated against Newcastle disease; show no clinical signs of disease and are fit to travel.

Post imports of live poultry, or eggs once hatched, must be held in quarantine for six weeks in an approved establishment.

All poultry meat and birds imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. At least 20 per cent. of consignments of animal products undergo physical checks, and a number of animals in each consignment are physically checked. These checks ensure import conditions are met.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of avian flu have been reported in the UK in the last 12 months; and if she will make a statement. [219287]

Mr. Bradshaw: Since February 2004, five reports of suspected avian influenza have been notified to the State Veterinary Service. None were subsequently confirmed. The results of the UK survey for avian influenza in farmed poultry required by Commission Decision 2004/630/EC and carried out between August and December 2004 were all negative.

Defra has produced risk assessments on avian influenza in other countries and these are available on the Defra website.

The Diseases of Poultry (England) Order 2003 provides powers to control avian influenza and a contingency plan for avian influenza and Newcastle disease was laid before Parliament in March 2004 in line with provisions of the Animal Health Act of 1981 (as amended). The plan outlines Defra's objectives for disease control in terms of emergency preparedness, mobilisation of the response effort, and outbreak management. The contingency plan is currently being reviewed and is due to be laid before parliament in July this year.

Beef Market

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment

she has made of the impact of the withdrawal of *(a)* the over-30-month scheme and *(b)* other beef subsidies on the UK beef market. [217821]

Alun Michael: The information is as follows:

(a) Defra commissioned a report from the MLC entitled "Impact of OTM Exit on the UK Market" which is regularly updated as market conditions change. This describes the expected impact on the market of over-30-month cattle, cattle born after August 1996 when they return to the food chain after the OTM rule is replaced by a robust system of BSE testing.

(b) Defra has commissioned a number of reports examining the impact of the change in the support arrangements for agricultural production as a result of CAP reform. These are collated on Defra's website. The impact on the UK beef production industry is covered in these reports.

Biofuels

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned on steps to encourage the production of biofuels and bioethanol to meet the EU biofuels directive of May 2003. [217531]

Mr. Bradshaw: The Government are currently carrying out a feasibility study on the possible introduction of a Renewable Transport Fuel Obligation. In parallel, the Low Carbon Vehicle Partnership are preparing advice for the Government on how a carbon certification scheme might operate. Cambridge University has been commissioned to review the economics of energy crops, including those used for biodiesel and bioethanol. In the light of these studies, the Government will consider the way forward for biofuels.

Cattle

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 February 2005, *Official Report*, column 1653W, on bovine passports, if she will list the reasons for the successful appeals of the 8,196 bovines initially refused applications for passports: [218859]

Alun Michael: Cattle passports are issued by the British Cattle Movement Service which is part of the Rural Payments Agency.

Successful appeals in respect of the 8,196 cattle initially refused passports can be broken down as follows:

External circumstances outside the control of the farmer for example floods or industrial action—6 per cent.

Exceptional personal circumstances for example the bereavement of a close relative—11 per cent.

Exceptional postal delay—15 per cent.

Actions of officials for example mistakes or removal of farm records during inspection—12 per cent.

An illness or malady affecting the keeper which prevented the application being made on time—21 per cent.

Other reasons—including problems with the use of home computers or unavoidable delays in obtaining ear tags from manufacturers—35 per cent.

In all these cases, evidence of the exceptional circumstance was demonstrated.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs when she will publish a Government strategy for the *(a)* control and *(b)* eradication of bovine TB from the British herd. [218326]

Mr. Bradshaw: The "Government Strategic Framework for the Sustainable Control of Bovine Tuberculosis in Great Britain" was published on 1 March.

The strategic framework focuses on what is achievable in the control of bovine TB in a 10 year timeframe. Whilst eradication is desirable we believe it is not achievable in 10 years.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when the first results are expected from the Bourne/Krebs triplet trials. [218769]

Mr. Bradshaw: I refer the hon. Member to the answer given on 31 January 2005, *Official Report*, column 575W to the hon. Member for North-West Leicestershire (Mr David Taylor).

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what her latest estimate is of the number of live cattle kept in the UK which were born *(a)* before and *(b)* after August 1996 which would be eligible for compensation payments under the over-30-month-scheme; and what records her Department has maintained of these cattle. [218366]

Alun Michael: At 24 February 2005 the Cattle Tracing System (CIS) database shows there to be 846,530 cattle alive that were born before 1 August 1996 and 3,166,935 cattle born after this date, all of which are potentially eligible for compensation under the over-30-month-scheme if they meet the scheme requirements.

The CTS is a computer based system to register cattle in Great Britain. CTS records the:

identification and death of cattle,

movements from birth to death of cattle issued with passports from 28 September 1998, and

movements of older cattle since 29 January 2001.

Cancer

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs what policies her Department has in place for supporting employees with cancer. [218674]

Alun Michael: Support for employees with cancer is the same as support for employees with any long term (and possibly terminal) illness, through the following policies and services:

Welfare Services provide individual support.

Reduced working hours for medical reasons.

Reasonable adjustments to the workplace.

Special leave arrangements (including disability leave).

Retirement on medical grounds.

In each case the Department takes account of the wishes of the individual.

Committee on Radioactive Waste Management

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has received from the Chairperson of the Committee on Radioactive Waste Management (CoRWM) concerning *(a)* the suspension of Dr. Keith Baverstock from the Committee and *(b)* the current status of Professor David Ball on CoRWM; and if she will make a statement on progress made to date by CoRWM in meeting its planned timetable. [217827]

Mr. Morley: CoRWM's sponsoring Ministers in Defra and the devolved administrations have jointly commissioned a review with the terms of reference:

"To consider (i) concerns identified by Dr. Keith Baverstock concerning the operation of the CoRWM Committee and (ii) the role and personal contribution of Dr. Baverstock in delivering the corporate aims and objectives of CoRWM. To report the outcome of this review, and to provide recommendations to CoRWM's sponsoring Ministers".

This follows receipt of representations from both the CoRWM Chair, Gordon MacKerron, and Dr. Keith Baverstock. Dr. Baverstock has been suspended from the Committee pending the outcome of this review.

The review is being carried out by the independent assessor, approved by the Office of the Commissioner for Public Appointments (OCPA), who was involved in the CoRWM appointments process. The assessor will be considering the information provided by relevant parties in arriving at his recommendations to Ministers.

Subsequent to the commissioning of this review, Professor David Ball informed Defra that he has voluntarily suspended himself from CoRWM's activities while the situation giving rise to Dr. Baverstock's suspension is resolved.

In the meantime CoRWM's work continues unchanged from the programme set out in its First Annual Report 2004, available on its website—www.corwm.org.uk. This will lead to the Committee publishing its short list of options and proposed assessment methodology for public and stakeholder consultation during the course of March 2005.

Climate Change

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what funding was allocated to programmes dealing with *(a)* the risk of human-induced climate change, *(b)* assessment of the impact of climate change on the environment and *(c)* identification of mitigation and adaptation options for climate change since 1997; and if she will make a statement. [217553]

Mr. Morley: The Department's climate change science research programme analyses the risk of human-induced climate change, assesses its potential impacts, and means of adaptation and mitigation. The following table details this research programme's spend over the last three financial years.

£

Financial year	*Cost of research assessing the risk of human-induced climate change*	*Cost of research assessing the impact of climate change and identification of mitigation and adaptation options*
2002–03	9,780,160	3,143,938
2003–04	10,484,174	3,562,397
2004–05	11,732,070	3,947,992

Information for the financial year 1996–97 to 2001–02 is not available without disproportionate costs of retrieval. It is impossible to separate climate change impacts and adaptation research as these are complementary. An aggregate figure, therefore, describing research spend on both impacts *(b)* and adaptation/mitigation *(c)* has been presented. Data presented for the financial year 2004–05 are estimates of expected annual spend.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list government-funded *(a)* organisations and *(b)* projects whose sole duty is (i) to analyse and (ii) to combat the effects of climate change in the UK; how much funding was allocated to each in 2004–05; and if she will make a statement. [217554]

Mr. Morley: Information on all of the Government's spending on addressing the impacts of climate change is not held centrally—work to analyse these impacts and then to build in adaptation is rightfully carried out by many Departments in the course of their policy planning and implementation.

The Department supports a broad climate change science research programme, which includes funding a number of organisations to undertake projects to assess the impacts of climate change in the UK, and potential adaptation responses. It is not possible to separate the funding into discrete categories of that which supports analysis of the impacts of climate change, and that which supports the investigation of adaptation responses to tackle these impacts, since in almost all cases, projects address both.

The following table provides a breakdown of the relevant research projects, giving the project title, the organisation contracted to carry out the research, and the Department's allocated funding for this financial year, 2004–05.

Project	*Contractor*	*Cost (£)*
Climate Prediction Programme	Met Office	10,793,000
Intergovernmental Panel on Climate Change (IPCC) Working Group 2 Technical Support Unit	Met Office	341,700
Intergovernmental Panel on Climate Change (IPCC) Working Group 2 Co-chair	Parry Associates	46,875
Stabilisation Scoping Study	University of East Anglia	35,190
Climate Impacts LINK Project	Climate Research Unit (University of East Anglia)	98,006

Project	Contractor	Cost (£)
UK Climate Impacts Programme (UKCIP) 2002	Environmental Change Institute (University of Oxford)	644,812
Climate Change and the Visitor Economy in England's Northwest	Sustainability Northwest	70,000
Review of the UK Climate Impacts Programme (2004)	ESYS	39,972
UK Cross-Regional Research Programme: Project A—Adaptation Responses To Climate Change for New Development in the Growth Areas	Land Use Consultants	24,521
UK Cross-Regional Research Programme: Project B—Climate Change and Business	Risk Solutions	73,550
UK Cross-Regional Research Programme: Project C—Climate Change and Water Resources	HR Wallingford	29,108
UK Cross-Regional Research Programme: Project D—Countryside and the Rural Economy	Land Use Consultants	31,820
UK Cross-Regional Research Programme: Project E—Costs of Impacts and Adaptation	Metroeconomica	13,500
UK Cross-Regional Research Programme: Project F—Linking Adaptation Research and Practice	Tyndall Centre (University of East Anglia)	25,808
Development of a Metamodel Tool for Regional Integrated Climate Change Management	Cranfield University	165,000
Publication of outputs arising from Agriculture—Climate Change Impacts and Adaptation Programme and related programmes	Institute of Grassland and Environmental Research	13,000
Re-assessing Drought Risks for UK Crops Using UKCIP02 Climate Change Scenarios	Rothamsted Research	18,000
The development of a soil properties database for England and Wales for climate change impact studies	Cranfield University	68,000
Spatial Temporal Rainfall Modelling with Climate Change Scenarios	University of London: Imperial College and University College	45,141
Marine Biodiversity and Climate Change (MARCLIM)	Marine Biological Association	10,000
Assessing Climate Change Effects on Land Use and the Ecosystems (ACCELERATES)	University of Oxford	4,831
Climate Change And Migratory Species	British Trust for Ornithology	41,700
Marine Biodiversity and Climate Change: Assessing and Predicting the Influence of Climate on the Marine Environment	Marine Biological Association	10,739
The Impacts of Climate Change on Soil Functions	National Soils Resources Institute	29,981
Total		12,674,254

The implementation of adaptation actions falls to a wide range of organisations in both public and private sector.

The figures provided here do not cover the Government's funding for organisations and projects that analyse the causes of climate change and contribute to its mitigation through reductions of greenhouse gas emissions.

Cormorants

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely impact on the UK breeding population of cormorants of her Department's change of policy on cormorant control. [217969]

Mr. Bradshaw *[holding answer 24 February 2005]:* Modelling by Defra's Central Science Laboratory (CSL) has examined the likely consequences of the new policy on winter cormorant numbers. The focus on winter numbers is appropriate since this coincides with the period when licensed shooting occurs; wintering counts are also recorded annually, unlike counts of breeding birds which are only conducted infrequently at the national level. CSL have explored the limits within which the licensing system may operate without risking the conservation status of the cormorant population. The aim has been to identify prudent upper limits for shooting and not to recommend levels of population reduction. To further safeguard the conservation of cormorants Defra will monitor the national winter population and if necessary reduce or stop the granting of licences should the population not respond in the manner predicted.

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the effectiveness of fish refuges in reducing predation by cormorants; and how much her Department has spent on research into the effectiveness of fish refuges in the last two years. [217970]

Mr. Bradshaw *[holding answer 24 February 2005]:* Mr Bradshaw Defra's Centre for Environment, Fisheries and Aquaculture Science is currently undertaking research into the use of fish refuges to reduce damage to inland fisheries by cormorants. Early results are encouraging and suggest that the technique has considerable potential for reducing fish losses at some sites, such as smaller stillwater coarse fisheries. Currently, fish refuges do not offer a solution for all fisheries. However, work is continuing to further evaluate the benefits of introducing refuges in a range of fisheries and to assess any effects of the refuge structures on anglers. Over the past two years this research has cost the Department £260k.

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs how many licences to control cormorants have been issued in each English county since 16 September 2004; and how many birds are permitted to be killed under each licence. [217971]

Mr. Bradshaw *[holding answer 24 February 2005]:* Up until 9 February 2005 the Department granted 274 licences. The minimum number of birds which have been licenced to be killed is 1800. This equates to an average of almost seven birds per licence. The analysis of licences per county involves a disproportionate cost and has not been supplied.

Countryside Agency

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria she is using to determine the location of the new headquarters of the Countryside Agency; and whether premises in Cheltenham are under consideration. [214714]

Alun Michael: The Secretary of State announced in Rural Strategy 2004 that the 'new' Countryside Agency would in due course be located in a "lagging" rural area. For these purposes, "lagging" rural areas will be defined by reference to those local authority districts demonstrating poor economic performance in their rural economies, as set out in Annex B to Defra's Public Service Agreement 2004 (see www.defra.gov.uk/corporate/busplan/tn.pdf). As Rural Strategy 2004 sets out, poor economic performance is both affected by, and affects, social exclusion.

The annex above lists the geography of poor economic performance in rural England as follows:

Region	*1. Rural districts with consistently poor rural economic performance*	*2. Other urban or rural districts containing significant poor rural economic performance*
1.SE	1. Shepway	1. New Forest
	2. Isle of Wight	2. Wealden
	3. Swale	—
	4. Dover	—
	5. Rother	—
2.SW	1. Kerrier	1. West Somerset
	2. Penwith	2. West Dorset
	3. Carrick	3. Sedgemoor
	4. Caradon	4. Teignbridge
	5. Restormal	—
	6. North Cornwall	—
	7. Torridge	—
	8.North Devon	—
	9. West Devon	—
	10. Forest of Dean	—
3.EoE	1. North Norfolk	1. Great Yarmouth
	2.Fenland	2. Peterborough
	3. Breckland	3. Forest Heath
	4. Tendring	4. Waveney
	5. Kings Lynn and West Norfolk	—
4.WM	1. Oswestry	1. Staffordshire Moorlands
	2. Herefordshire	2. North Warwickshire
	3. South Shropshire	3. Wychavon
	4. North Shropshire	—
5.EM	1. East Lindsay	1. Bassetlaw
	2. West Lindsay	2. Newark and Sherwood
	3. High Peak	3. Derbyshire Dales
	4. South Holland	—
	5. Bolsover	—
6.NW	1. Copeland	1. Lancaster
	2. Allerdale	2. Carlisle
	3. Eden	3. Pendle
	4. West Lancashire	4. Crewe and Nantwich
	—	5. South Lakeland
	—	6. Ribble Valley
7.YH	1. Scarborough	1. Craven
	2. East Riding	2. Barnsley
	3. North Lincolnshire	3. Wakefield
	—	4. Doncaster
	—	5. Harrogate
	—	6. Selby
	—	7. Hambleton
8.NE	1. Sedgefield	1. Redcar and Cleveland
	2. Wear Valley	2. Tynedale
	3. Derwentside	3. Castle Morpeth
	4. Alnwick	4. Darlington
	5. Berwick	
	6. Teesdale	

We are looking forward to receiving proposals shortly from the agency, taking into account the Government's policy priorities set out in Rural Strategy 2004 and the objectives of the 'new' Countryside Agency, that will enable an early decision to be made on the new location.

Dairy Herds

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many dairy herds had an average size of *(a)* less than 20, *(b)* 21to 40, *(c)* 41 to 60, *(d)* 61 to 80, *(e)* 81 to 100, *(f)* 101 to 120, *(g)* 120 to 140, *(h)* 141 to 160, *(i)* 161 to 180, *(j)* 181 to 200 and *(k)* more than 200 in (i) 1995, (ii) 2000 and (iii) the last year for which figures are available. [219310]

Alun Michael: The figures in the table show dairy herd and holding numbers in England by dairy cow size group in (i) 1995, (ii) 2000 and (iii) 2003. The dairy herd are all cows and heifers that have calved and including cows in calf, cows in milk and cull cows.

Dairy cows in England by dairy cow size group in (i) 1995, (ii) 2000 and (iii) 2003

200 and over	964	271,902	282
Total	16,027	1,434,727	90

Notes:
(a) Figures prior to 2000 are for main holdings only, from 2000 onwards main and minor are included.
A holding is defined as minor if it meets all of the following conditions:
1. the total area is less than 6 hecatres
2. the labour requirement is estimated to be less than 100 standard person-days
3. there is no regular full-time farmer or worker
4. the glasshouse area is less than 100 square metres
5. the occupier does not farm another holding

June Agricultural Census

Deer

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of wild deer in the UK, broken down by breed. [218931]

Mr. Bradshaw: The following are mid-1990s estimates of wild deer numbers in Britain by species[1].

Species	*Number*
Red deer	360,000
Roe deer	500,000
Fallow deer	100,000
Sika Deer	11,500
Muntjac	40,000
Chinese Water deer	480–650

[1] From Harris S, Morris P, Wray S, and Yalden D. (1995) A review of British Mammals. JNCC, Peterborough. Quoted in "Current and Future Deer Management Options," Defra December 2003.

Disability Discrimination Act

Charles Hendry: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the application of the Disability Discrimination Act 1995 to access to the countryside, with particular reference to the use of gates and stiles. [218382]

Alun Michael: The Disability Discrimination Act 1995 ensures that private or public landowners, who are "service providers", will be subject to the provisions of the Act. Service providers are required to take reasonable steps to remove, alter or provide a reasonable means of avoiding physical features.

As far as rights of way are concerned, we believe that this will apply to features such as stiles and gates—which might act as barriers to disabled people accessing their services—since the provision and maintenance of these is the landowner's responsibility. However, it is not clear at this stage what "reasonable steps" would mean in practice and this will probably only be established by case law.

Section 69 of the Countryside and Rights of Way Act 2000 provides for the Secretary of State to issue guidance on how the powers to authorise works are to be exercised. We plan to issue this guidance later this year and will consider using this opportunity to issue guidance on the application of the Disability Discrimination Act 1995.

As regards access to open country under Part I of the Countryside and Rights of Way Act 2000, we believe that landowners are unlikely to be service providers under the Disability Discrimination Act just because their land has been designated under this part of the Act. Landowners may become service providers if they voluntarily provide signs, gates, stiles or other infrastructure to support the right of access, but there is no case law in this area. If the courts decide that the Disability Discrimination Act does apply in these circumstances, then we would expect "reasonable steps" to take account of factors like cost, land management, privacy and the level of demand from local disabled people

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the Adaptation to Technical and Scientific Progress of the Directive on Conservation of Wild Birds (ORNIS) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217816]

Mr. Bradshaw: The Committee for the adaptation to technical and scientific progress of the Directive on conservation of wild birds (the ORNIS Committee) met twice during the Irish and Dutch residencies on 18 March 2004 and 20 September 2004 in Brussels. The ORNIS Committee did not meet during the Italian presidency. UK representation on 18 March 2004 comprised one official from my Department together with a scientific adviser from the Joint Nature Conservation Committee and on the 20 September 2004 an official from the Scottish Executive attended together with a scientific adviser from the Joint Nature Conservation Committee.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Gambia) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217823]

(2) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Greenland) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217824]

(3) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Guinea) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217825]

(4) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Guinea Bissau) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217826]

(5) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Cape Verde) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217828]

(6) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Comoros) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217829]

(7) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Côte d'Ivoire) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217830]

(8) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Estonia) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217831]

(9) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Angola) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217883]

(10) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Argentina) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217884]

(11) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch residency of the EU the Fisheries Joint Committee (EC-Russia) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217926]

(12) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Fisheries Joint Committee (EEC-São Tomé and Principe) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217927]

(13) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Senegal) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217928]

(14) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Seychelles) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217929]

(15) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Madagascar) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217932]

(16) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Fisheries Joint Committee (EEC-Morocco) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217933]

(17) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Mauritania) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217934]

(18) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EC-Poland) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217935]

(19) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch residency of the EU the Fisheries Joint Committee (EEC- Equatorial Guinea) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement;[217936]

(20) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Mauritius) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217937]

(21) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Fisheries Joint Committee (EEC-Latvia) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217938]

(22) how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Fisheries Joint Committee (EEC-Lithuania) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement; [217939]

Mr. Bradshaw: The UK did not attend any of the Joint Committees (except that for EU-Greenland) listed in these questions as we have no fishing interest in these waters. Records about these meetings are not held by my Department. The meetings of the EU/Greenland Joint Committee took place on 28 September 2004 and 1–2 February 2005. The discussions were about the operation of the Fourth EU/Greenland Protocol. The UK was represented by a Defra official.

There are no bilateral fisheries agreements between Estonia, Poland, Latvia, Lithuania, Argentina and Morocco.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Oils and Fat met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217847]

Alun Michael: Meetings of the Oils and Fats Management Committee were held on the following dates:

Presidency	*Date of meeting*
Italian	16 July 2003
	28 August 2003
	10 September 2003
	24 September 2003
	8 October 2003
	19 November 2003
	10 December 2003
Irish	21 January 2004
	19 February 2004
	24 March 2004
	15 April 2004
	27 May 2004
	1 June 2004
	25 June 2004
Dutch	23 July 2004
	26 August 2004
	15 September 2004
	29 September 2004
	20 October 2004
	12 November 2004
	10 December 2004

All meetings were held in Brussels and were attended by a Defra official.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004, and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Natural Fibres met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217848]

Alun Michael: The information is as follows.

Italian presidency—July to December 2003

The committee met on the 28 November 2003 when one UK expert attended.

Irish presidency—January to June 2004

The committee met on 24 March and 28 May 2004. On each occasion one UK expert attended.

Dutch presidency—July to December 2004

The committee met on 7 September when one UK expert attended, and on 30 November 2004, when two UK representatives attended.

The meetings provide an opportunity to exchange market information and to discuss the regulation of natural fibres.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Fresh Fruit and Vegetables met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217855]

Alun Michael: Meetings of the Fresh Fruit and Vegetables Management Committee were held on the following dates:

Presidency	*Date of meeting*
Italian	3 July 2003
	22/23 July 2003
	4 September 2003
	16/17 September 2003

	8 December 2004

All meetings were held in Brussels and were attended by Defra officials.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004, and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Wines met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217857]

Alun Michael: The Wine Management Committee met nine times during the Italian presidency, 10 times during the Irish presidency and six times during the Dutch presidency. The meetings took place on the following dates: 8 and 23 July 2003, 9 and 23 September 2003, 15 and 28 October 2003, 12 and 25 November 2003, 10 December 2003, 13–14 and 27 January 2004, 10 and 24 February 2004, 9 and 23 March 2004, 20 April 2004, 11 May 2004, 9 and 15 June 2004, 13 July 2004, 17 September 2004, 12 and 26 October 2004, 24 November 2004 and 16 December 2004. All meetings were held in Brussels.

UK Government representation consisted of one Defra official for the majority of these meetings, although on several occasions, two Defra officials attended in view of the nature of the agenda items. In each case the representatives were from the Department's Food and Drink Industry Division.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Raw Tobacco met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217858]

Alun Michael: Meetings of the Raw Tobacco Management Committee were held on the following dates:

Irish presidency

28 January 2004

26 February 2004

6 May 2004

25 May 2004

27 May 2004

17 June 2004

25 June 2004

Dutch presidency

29 July 2004

22 September 2004

27 October 2004

30 November 2004

The Raw Tobacco Management Committee did not meet during the Italian presidency.

All meetings were held in Brussels and were attended by a Defra official.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004, and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Hops met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217861]

Alun Michael: Meetings of the Hops Management Committee were held on the following dates:

Presidency	*Date of meeting*
Italian	2 October 2003
Irish	No meeting
Dutch	11 November 2004

All meetings were held in Brussels and were attended by Defra officials.

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004, and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Seeds met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217862]

Mr. Bradshaw: The Management Committee for the common organisation of the market in seeds did not meet during the Italian presidency. During the Irish and Dutch presidencies the Committee met in Brussels on the following dates, with UK representatives as noted:

	Representative from:
Irish Presidency	
28 January 2004	The Department for Environment, Food and Rural Affairs
Dutch Presidency	
29 September 2004	The Department for Environment, Food and Rural Affairs

A series of Command Papers on prospects for the EU (Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005), which covers the periods of the above presidencies, is available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Live Plants and Floriculture Products met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217863]

Mr. Bradshaw: There were no meetings of the Management Committee for Live Plants and Floriculture Products during the period covered by the Italian, Irish and Dutch presidencies.

A series of Command Papers on developments in the EU—Cm 174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Bananas met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217864]

Alun Michael: Meetings of the Bananas Management Committee were held on the following dates:

Presidency	*Date of meeting*
Italian	16 July 2003
	5 November 2003
Irish	11 February 2004
	26 February 2004
	1 April 2004
	6 April 2004
	11 May 2004
Dutch	17 June 2004
	25 June2004
	23 July 2004
	13 October 2004
	22 October 2004
	18 November 2004

All meetings were held in Brussels and were attended by Defra officials and on occasions a representative from the Rural Payments Agency .

A series of Command Papers on developments in the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, cover the periods of the above presidencies and are available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Implementation Committee for spirit drinks met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217868]

Alun Michael: The Spirit Drinks Implementation Committee (SDIC) met once during the Italian presidency, three times during the Irish presidency and twice during the Dutch presidency. The meetings took place on the following dates: 29 October 2003, 9 and 23 March 2004, 15 June 2004, 27 September 2004 and 24 November 2004. All meetings were held in Brussels.

UK representation at all these meetings consisted of one Defra official, apart from that held in November 2004, when two Defra officials attended. In each case the representatives were from the Department's Food and Drink Industry Division.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Implementation Committee on aromatised wine-based drinks met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217869]

Alun Michael: The Aromatised Wine Implementation Committee meets very infrequently. There have been no meetings of the Committee since 2002.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the joint meetings of management and/or regulatory committees in the field of agriculture—agrimonetary questions met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217871]

Alun Michael: The committees dealing with these issues met irregularly over the period specified.

The meetings took place in Brussels and were attended by officials from Defra only.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the joint meetings of management and/or regulatory committees in the field of agriculture—trade mechanisms met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217872]

Alun Michael: Meetings of the Directorate General (DG) Agri Trade Mechanisms Management Committee usually take place on a monthly basis in Brussels. The Committee met five times during each of the Italian, Irish and Dutch presidencies.

During the Italian presidency, the committee met on 15 July, 16 September, 14 October, 11 November and 9 December 2003.

During the Irish presidency, the committee met on 20 January, 17 February, 16 March, 20 April and 25 June 2004.

During the Dutch presidency, the committee met on 20 July, 21 September, 19 October, 16 November and 14 December 2004.

The United Kingdom's delegation to the DG Agri Trade Mechanisms Management Committee is led by officials from the Rural Payments Agency, with HM Customs in attendance depending on the agenda.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Standing Forestry Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217874]

Mr. Bradshaw: The Standing Forestry Committee met twice during the Italian presidency, on 1 July 2003 and 4 November 2003; it met four times during the Irish presidency, on 12 January 2004, 31 March 2004, 28 May 2004 and 22 June 2004; and it met twice during the Dutch presidency, on 28 September 2004 and 22 October 2004. All the meetings took place in Brussels and were attended by Forestry Commission officials.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the European Agricultural Guidance and Guarantee Fund Committee and working party on irregularities met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217881]

Alun Michael: The European Agricultural Guidance and Guarantee Fund Committee and related working parties met on average about once a month during the lifetime of each presidency.

All meetings were held in Brussels. The UK was represented by officials from Defra, and, depending on the agenda and their availability, officials from the UK Co-ordinating Body, the Treasury, the Devolved Administrations, and the Rural Payments Agency also attended some meetings.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the committee on supply of agricultural products to the population of the former Soviet Union met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217882]

Alun Michael: The Department has no record of such a committee and is not aware that any such meetings have taken place.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Standing Committee on Propagating Material and Plants of Fruit Genera and Species met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215918]

Alun Michael: The Standing Committee on Propagating Material and Plants of Fruit Genera and Species met once during the Italian presidency on 14 October 2003; once during the Irish presidency on 2 April 2004; and once during the Dutch presidency on 18/19 October 2004. All the meetings took place in Brussels and were attended by an official from the Department's Plant Health Division and also, in the case of the meeting on 18/19 October 2004, a scientific adviser from the Central Science Laboratory.

The mandate of the Committee is to consider and adopt measures to facilitate implementation of Council Directive 92/34/EEC on the marketing of fruit propagating material and fruit plants intended for fruit production. The UK's priorities are to secure arrangements which are proportionate and facilitate access to a wide range of healthy propagating material, and provide increased opportunities for UK trade while ensuring co-ordination with the parallel EU plant health regime. The Committee's agendas and meeting reports are available on the European Commission's website at http://europa.eu.int/comm/food/fs/rc/scpfgs/index_en.html.

A series of Command Papers on prospects for the EU—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods for the above presidencies are available on the FCO website at http://www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215919]

Mr. Bradshaw: The Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry met in Brussels on the following dates with UK representatives as noted:

Presidency	*UK representatives*
Italian	
2003	
24/25 July	Department for Environment, Food and Rural Affairs (Defra)
22 September	Defra, and the UK Permanent Representation to the EU
25/26 September	Defra (including the Central Science Laboratory) and the Forestry Commission
15 October	Defra
27/28 October	Defra
11 November	Forestry Commission
26 November	Defra
15 December	Defra
Irish	
2004	
26/27 January	Defra
2 February	Defra

Presidency	*UK representatives*
23 February	Defra (including the Central Science Laboratory) and the Forestry Commission
8/9 March	Defra
6/7 May	Defra
25 June	Defra and the Scottish Executive Environment and Rural Affairs Department
Dutch Presidency 2004	
6 July	Defra
13/14 September	Defra and the Scottish Executive Environment and Rural Affairs Department
21 October	Defra
12 November	Defra
16/17 November	No UK representative

UK representation at these meetings depended upon the agenda for each meeting.

A series of Command Papers on prospects for the EU (Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005), which covers the periods of the above presidencies, is available on the FCO website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for Community protection of plant variety rights met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215920]

Mr. Bradshaw: The Standing Committee on Community Plant Variety Rights did not meet during the Italian and Irish presidencies. The Committee met once during the Dutch presidency on 24 November 2004 in Brussels and was attended by representatives from the Plant Variety Rights Office in my Department.

A series of Command Papers on prospects for the EU (Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005), which covers the periods of the above presidencies, is available on the FCO website at: www.fco.gov.uk/commandpapers.

EU Emissions Trading Scheme

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what lessons have been learned from the deadline for the implementation of phase I of the EU Emissions Trading Scheme in the UK for phase II. [219339]

Mr. Morley *[holding answer 2 March 2005]:* The directive specifies the dates by which National Allocation Plans in the EU Emissions Trading Scheme (EU ETS) should be submitted to the European Commission, final allocation decisions should be made and the date by which allowances should be issued. For phase I these deadlines have proved extremely challenging to meet for all member states.

One of the key lessons learned from phase I is with regard to the volume of analysis, negotiation and decision making required to develop a robust and effective NAP within a demanding timeframe. In light of this we have already started work on phase II in particular focussing on analytical work to inform the decision making process.

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs how many member states have implemented Phase 1 of the EU Emissions Trading Scheme. [219340]

Mr. Morley *[holding answer 2 March 2005]:* The Commission has approved 21 National Allocation Plans (NAPs) (eight on 7 July 2004, eight on 20 October 2004 and five on 27 December 2004). The Commission has yet to announce decisions on NAPs from Poland, the Czech Republic, Italy and Greece.

To date only Denmark has begun spot trading, although the Netherlands are expected to start shortly. A number of member states have announced installation level allocations (e.g. Germany, the Netherlands, Sweden, Finland, Slovenia and Ireland) but are not yet in a position to issue allowances, either as a result of the registry not being approved or because a final allocation decision has not yet been made.

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the European Commission to make a decision on the UK's application for an opt out from Phase 1 of the EU Emissions Trading Scheme. [219341]

Mr. Morley *[holding answer 2 March 2005]:* We aim to make an application to the Commission for temporary exclusion from the EU Emissions Trading Scheme for Climate Change Agreement participants before Easter, after operators have made their applications to Defra by 4 March. We do not know when the Commission will make a decision on the application, but there is no guarantee that they will approve it.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what recent developments there have been on the application to the European Commission for exemption from phase one of the Emissions Trading Scheme; and if she will make a statement. [218612]

Mr. Morley: Installation level allocations for the National Allocation Plan were published on 14 February. Operators of Climate Change Agreements were asked to decide whether they wished to apply for temporary exclusion by 4 March. Defra aims to make an application to the Commission before Easter.

Fallen Stock Scheme

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what threshold has been set for the number of farmers who need to sign up to the Fallen Stock Scheme in order to make it viable; and if she will make a statement. [218471]

Mr. Bradshaw: In its business projections for the Scheme the National Fallen Stock Company estimated that it would need 40–50,000 members to ensure the Scheme was viable in the longer term. However, no threshold has been set and the number which would ensure viability may differ from this depending on how closely actual Scheme costs and income match those that had been projected.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what safeguards she has put in place to ensure that contamination does not take place between farms when animals are transferred through the Fallen Stock Scheme; and if she will make a statement; [218472]

(2) what research she has conducted of the risks of bio-contamination occurring due to the Fallen Stock Scheme; and if she will make a statement. [218473]

Mr. Bradshaw: Animal By-Products legislation, which applies equally to fallen stock collected outside and inside the Scheme, already controls the collection, storage and transportation of animal by-products, including animal carcases. It also requires records to be kept of any consignment of animal by-products to assist in the auditing and traceability of this material. General guidance on biosecurity is also available on the Defra website.

Although no formal assessment has been made of the biosecurity risks of the National Fallen Stock Scheme, Scheme rules require that fallen stock are collected and disposed of according to strict biosecurity guidelines and is available on the Defra website. The National Fallen Stock Company has engaged the State Veterinary Service to inspect collection premises and vehicles to ensure compliance with these rules.

Farm Income

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what the total estimated income for the farming industry was in each of the last 10 years for which figures are available. [218470]

Alun Michael: Information on total income from farming for the years 1995 to 2004 is given in the following table:

Total income from farming (real terms at 2004 prices)

	£ million
1995	6,599
1996	5,962
1997	3,508
1998	2,432
1999	2,424
2000	1,805
2001	2,037
2002	2,521
2003	3,281
2004	3,014

Total income from farming is income generated by production within the agriculture industry, including subsidies. It represents business profits plus remuneration for work done by owners and other unpaid workers.

Fisheries

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs in which other EU member states the fishing industries are subject to full cost recovery for their management costs; how many have partial cost recovery; and how many do not charge their industries management costs. [218140]

Mr. Bradshaw: The Department does not hold information on all other EU member states in relation to cost recovery for fisheries management. However, we are making enquiries in order to complete the information and will respond in writing once we have the complete picture.

Mr. Beith: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received about the withdrawal of designated port status for haddock landings from Warkworth Harbour, Amble, Northumberland; and if she will reconsider the decision. [219077]

Mr. Bradshaw *[holding answer 1 March 2005]:* The Fisheries Department has received three representations regarding the withdrawal of designated port status for haddock landings from Warkworth Harbour, Amble, Northumberland.

The purpose of designating ports is to assist Defra inspectors in the monitoring of landings of fish. Amble was designated in 2004 following the introduction of the haddock permit scheme which made it compulsory for vessels with haddock permits to land into designated ports. It was made clear at the time that designation would only remain while the haddock permit scheme remained. The scheme has now ended.

Under current rules, landing into a designated port is not compulsory except for vessels with more than two tonnes of cod on board. Vessels landing into Amble do not normally catch such quantities and they are therefore free to continue landing there, subject to requirements for advance notification in certain circumstances. I therefore do not propose to reconsider the decision.

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what proportion of the management costs of the UK fishing industry was borne *(a)* by her Department and *(b)* by the industry in the last year for which figures are available; [218116]

(2) what proportion of the management costs of the UK fishing industry was borne by her Department in the last year for which figures are available. [218117]

Mr. Bradshaw: The costs of the Fisheries Directorate within the Department was £53 million in financial year 2003–04. This included expenditure on enforcement, regulation, quota management, licensing, European negotiation, research and policy development. All of these activities contribute to management of the industry. Devolved administrations bear their own costs.

The industry bears the cost of Producer Organisations (PO) which play a part in quota management. The Department does not have information on the sums involved.

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs how much was spent by *(a)* her Department and *(b)* departmental sponsored bodies on research into aquaculture and fish farming at sea in the last year for which figures are available. [218127]

Mr. Bradshaw: Defra spent £1,907,488 on aquaculture related research including fish health and welfare in 2004–05. The Sea Fish Industry Authority have allocated £190,000 to fund aquaculture research and development projects in 2004–05. They also contribute about £150,000 to the research work of the Scottish Association of Marine Science in 2004–05.

FOI Requests

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions when her officials have been processing requests under the Freedom of Information Act 2000 it has been necessary to extend the statutory 20 working day limit for response due to the need to assess whether the public interest in disclosing the information requested outweighed the public interest in witholding the information requested. [214644]

Alun Michael: It must be remembered that officials are dealing within an entirely new set of requirements and we expect these processes to be much easier to follow once they are bedded in. To date our central tracking system records that there have been a total of 14 requests for information where a reply has had to be extended past the statutory 20 working day limit due to the need to apply the Public Interest Test. Of these requests nine were under the Freedom of Information Act and five were under the new Environmental Information Regulations.

Foot and Mouth

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what her contingency plans are for dealing with a future foot and mouth epidemic. [217535]

Mr. Bradshaw: The measures that the Government would take in the event of an outbreak of foot and mouth disease are set out in the Defra FMD Contingency Plan, the latest version of which was laid before Parliament at the end of March 2004. These include the immediate imposition of movement controls on all susceptible livestock, strict bio-security requirements and enhanced options for controlling the disease. Vaccination would be considered from the outset of an outbreak in addition to the culling of all susceptible animals on infected premises and those that have been exposed to infection, as required by EU law.

We are engaging with operational partners and with stakeholders to ensure they are aware of their responsibilities and the measures that would be taken in an outbreak. Plans are also in place in the event of an outbreak to enable a rapid increase in resources and for the implementation of contingency contracts, including that for emergency vaccination. We have revised the instructions for staff and are ensuring that they are trained and equipped to deal with an outbreak of disease. A revised version of the contingency plan, incorporating the lessons learned from the national foot and mouth disease exercise held last June, will be issued for public consultation shortly.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has evaluated on whether wild birds can spread the foot and mouth virus, with particular reference to geese. [218662]

Mr. Bradshaw: The Department commissioned and published a risk assessment to consider the risks of importation of contaminated meat and meat products and the subsequent exposure of GB livestock. Several viral pathogens were included in this work, among them Foot and Mouth Disease (FMD).

As part of this work the risk of transfer and spread of contaminated material, by scavengers (including wild birds), from an infected site to livestock holdings was considered.

Foot and mouth disease virus has been recovered from the plumage and feet of birds in contact with affected livestock, however, there is a lack of evidence that birds play a significant role in the spread of the disease. In those cases where wild geese were possibly implicated in 2001 UK outbreak of FMD, other more likely sources were usually found.

Greenhouse Gases

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what the levels of greenhouse gases emitted by the UK were in each of the last 10 years; and what levels were emitted during that period by other EU countries. [218290]

Mr. Morley: The following table contains the most recent greenhouse gas emissions estimates, in million tonnes of carbon equivalent per year, for each of the EU-15 countries and for the ED-15 collectively from the European Environment Agency.

Member state	*1990*	*1991*	*1992*	*1993*	*1994*	*1995*	*1996*
Austria	21.27	22.36	20.45	20.45	20.73	21.55	22.64
Belgium	39.82	40.64	40.36	40.09	41.45	42.27	43.36
Denmark	18.82	21.55	19.91	20.73	21.82	21.00	24.55

Netherlands	57.55	59.45	59.45	60.27	60.55	61.36	63.82
Portugal	15.82	16.36	17.45	16.91	17.18	18.27	17.73
Spain	77.73	79.36	81.82	78.82	82.91	86.18	84.55
Sweden	19.64	19.64	19.64	19.64	20.45	20.18	21.00
United Kingdom	202.64	202.91	196.64	191.18	189.82	187.09	193.09
EU-15	1,153.91	1,156.09	1,131.00	1,111.64	1,112.45	1,123.36	1,146.27

Member state	1997	1998	1999	2000	2001	2002
Austria	22.36	22.36	21.82	22.09	22.91	23.18
Belgium	40.91	42.27	40.36	40.91	40.64	40.91
Denmark	22.09	20.73	19.91	18.55	18.82	18.55
Finland	22.09	21.27	21.00	20.45	22.09	22.36
France	154.91	159.00	153.82	152.18	153.27	151.09
Germany	295.09	288.00	278.18	277.09	280.09	277.09
Greece	32.73	33.82	33.82	35.45	36.82	36.82
Ireland	16.91	17.45	18.00	18.55	19.09	18.82
Italy	142.64	145.91	147.27	148.36	151.09	151.09
Luxemburg	2.45	2.18	2.45	2.73	2.73	3.00
Netherlands	59.45	61.09	58.09	58.09	58.91	58.36
Portugal	18.55	19.64	21.82	21.27	21.27	22.36
Spain	90.27	93.00	100.91	105.00	104.45	109.09
Sweden	19.91	19.91	19.09	18.55	18.55	19.09
United Kingdom	186.55	185.18	176.73	176.73	178.91	173.18
EU-15	1,126.91	1,131.82	1,113.27	1,116.00	1,129.64	1,125.00

The data, expressed as million tonnes carbon dioxide equivalent per year, are published in the "Annual European Community greenhouse gas inventory 1990–2002 and inventory report 2004", which is available from the European Environment Agency (http://www.eea.eu.int/main html).

The estimates differ a little from those published in the Consultation Paper for the Review of the Climate Change Programme because the latter contain estimates for emissions due from land use change, which are not included in the comparative data from the European Environment Agency, and because of revisions to the emission factors for coal used in power stations and for natural gas, as described in the Consultation Paper.

Marine Protection

Mr. Dalyell: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to protect coral reefs and seamounts in UK territorial waters. [208419]

Mr. Bradshaw: Reefs are included in annex I of the EC Habitats Directive and the UK has designated 33 Natura sites in territorial waters under article 4 of the directive which have reefs listed as a feature of interest. These are biogenic and rocky reefs rather than coral reefs given available data on the nature and distribution of reefs in UK territorial waters. However, the UK's statutory nature advisers will be investigating whether there are further occurrences of marine habitats listed in annex I that meet the criteria in annex III of the directive as part of a wider exercise in which EC member states are working with the European Commission to extend the Habitats Directive into the marine environment.

In 1999 a habitat action plan for *Lophelia pertusa* reefs was published as part of the UK Biodiversity Action Plan (UKBAP). The objectives of the action plan are to protect the distribution and status of the *Lophelia pertusa* reefs to enhance their density and community richness.

The UK is also working through OSPAR's Biodiversity Committee to identify species (and habitats) in need of protection. *Lophelia pertusa* reefs have been classified as a priority habitat, OSPAR is currently investigating possible management measures.

There are no known occurrences of seamounts in UK territorial waters.

Parliamentary Questions

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs when she will answer the question from the hon. Member for Portsmouth South, ref 200297. [216500]

Alun Michael: I refer the hon. Member to the answer given on 10 February 2005, *Official Report*, column 1660W.

Mr. Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the projects being undertaken by her Department in respect of which information cannot be given in answer to parliamentary questions as a result of commercial confidentiality. [216634]

Alun Michael: Requests for information on projects currently being undertaken by the Department would be considered on their merits in accordance with the provisions of the Freedom of Information Act governing disclosure or exemption(s) from disclosure.

Single Farm Payments

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to assist farmers with cashflow difficulties arising from switching from IACS to Single Farm Payments; and if she will make interim payments to them. [217537]

Alun Michael: The Rural Payments Agency has announced that payments are planned to start from February 2006. I have asked my officials to look at any mitigating actions that might be possible to speed up any payments.

Soil

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the work of the task force on soil guidance values; and when she expects this group to report formally on the outcomes of their work and meetings. [218927]

Mr. Morley: The Soil Guideline Values Task Force is an initiative of the Cabinet Office Business Regulation team and the Government Departments and agencies most involved in the publication of the Defra/ Environment Agency soil guideline values and related materials. This technical guidance help in assessing risk

to human health in connection with land contamination, for example when considering regulatory action or proposals for development of land.

In the interests of better communication with ail stakeholders the group now includes representatives from both local authorities and the private sector. It is looking at a number of issues including, training and awareness raising, timetables for further publications, and approaches to elevated ambient levels of some substances. We currently expect formal proposals from the group later in the year.

UN Environment Programme

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs by whom her Department was represented at the annual ministerial planning meeting for the United Nations Environment Programme, held in Nairobi, on 21 to 25 February; what issues were on the agenda; what matters were agreed; what papers were submitted to the meeting by the United Kingdom; and if she will place a copy of the final agreement and papers submitted in the Library. [217832]

Mr. Morley: I represented the United Kingdom during the 23 governing council, global ministerial environment forum of the United Nations Environment Programme. The UK delegation also included officials from Defra, DfID,

FCO and the UK mission in Nairobi.

The ministerial consultations considered UNEP's contribution to the following themes:

Eradicating extreme poverty and hunger (millennium development goal one) within the context of environment;

Ensuring environmental sustainability (millennium development goal seven) together with policy issues related to water, sanitation and human settlements;

Promoting gender equality and empower women (millennium development goal three) within the context of gender and environment.

A non-negotiated president's summary was produced to capture the key elements of the ministerial consultations, which will form UNEP's contribution to the UN commission on sustainable development and the UN millennium review summit.

In parallel discussions formal decisions were taken on the following issues:

Chemicals;

Water policy and strategy of UNEP;

International environmental governance;

Gender equality and the environment;

Green procurement practices for UNEP;

Poverty and environment;

Strengthening environmental emergency response and developing disaster prevention, preparedness, mitigation and early warning in the aftermath of the Indian ocean tsunami disaster;

Keeping the world environmental situation under review;

2006–07 budget and work programme of UNEP;

Trust funds;

Administrative and other budgetary matters;

Agenda and location of the nine special session of the UNEP governing council, global ministerial environment forum.

The United Kingdom worked closely with its EU colleagues in all areas on the basis of papers tabled by the secretariat of UNEP and others, but did not table any papers of its own. The outcomes of the meeting highlighted that environmental sustainability underpins the achievement of the millennium development goals and the world summit on sustainable development targets in line with EU and UK objectives.

A copy of the decisions and the president's summary will be made available in the Library once formally issued.

Wheat

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of the two metre-wide strip on wheat farmers with regard to contamination from ergot and other weeds; and if she will make a statement. [218469]

Alun Michael: This cross compliance requirement allows regular cutting to control the growth of vegetation, it also includes an exemption which allows the spot application of herbicide for the control of weeds in the 2-metre protection zone. In cases of severe weed infestations, farmers can also seek the Rural Payments Agency's approval to use more rigorous weed control measures.

TRADE AND INDUSTRY

Renewable Energy Manufacturing Industry

12. **Ian Lucas:** To ask the Secretary of State for Trade and Industry what steps she is taking to support the renewable energy manufacturing industry. [219473]

Nigel Griffiths: We are spending almost half a billion pounds from 2002–08 on emerging technologies. Money that has already been allocated from this includes: £117 million in capital grants for round 1 offshore wind farms; approximately £66 million for biomass capital grants; £33 million for solar; £12.5 million for the Clear Skies Programme; over £50 million for Renewables; around £[illegible]/year for industry led R and D: £4 million for research under the Engineering and Physical Sciences Research Council's Supergen programme.

Globalisation

13. **Mr. MacDougall:** To ask the Secretary of State for Trade and Industry what steps she is taking to assess the impact of globalisation on UK manufacturing. [219474]

Mr. Alexander: The White Paper "Trade and Investment: Making Globalisation a Force a Good" published in July 2004 analyses the growth of globalisation and the challenges it poses. In the same month we published a review of the Manufacturing Strategy setting out a framework for action to address

this and other challenges facing manufactures in the UK. It focuses on support for innovation and skills, and helping industry to produce smarter, higher value-added products. This message is reinforced in The DTI Five Year Programme, published in November 2004, which sets out the Government's approach to help British companies succeed in today's challenging global economy.

Energy Supply (Security)

14. **David Hamilton:** To ask the Secretary of State for Trade and Industry what assessment she has made of the security of energy supply for the UK. [219475]

Mr. Mike O'Brien: The market is delivering secure energy supplies, and we expect it to continue to do so.

For example, we are seeing plans being brought forward for new gas import pipelines and infrastructure to import liquid natural gas.

There are also signs that the market is already thinking about the need for new build to meet future demand. For example, E-On recently announced plans for an upgrade of its generating facility on the Isle of Grain.

Competition

15. **David Cairns:** To ask the Secretary of State for Trade and Industry what steps she is taking to assist UK-based companies in competing against companies in China. [219476]

Ms Hewitt: The DTI Five Programme and Manufacturing Strategy Review set out a framework for action to help British companies succeed in today's global economy, including responding to challenge from emerging economies such as China.

My right hon. Friend the Deputy Prime Minister chairs the China Task Force, set up following the Prime Minister's visit to China in 2003, which has produced a range of recommendations to strengthen our commercial performance in China.

16. **Lynne Jones:** To ask the Secretary of State for Trade and Industry what action she is taking to assist UK companies in competing with companies in emerging economies, with particular reference to India and China. [219478]

Mr. Alexander: The Government are fully aware of the challenges from emerging economies. That is why in 2002 we brought together industry and other stakeholders to develop the Manufacturing Strategy, the first from any Government in over 30 years. We are building a consensus on the challenges that lie ahead and have set out a framework for action to address them in the original Strategy document and the Strategy review published in July last year. This message is reinforced in The DTI Five Year Programme, published in November 2004, which sets out the Government's approach to help British companies succeed in today's challenging global economy.

Minimum Wage (Coventry)

17. **Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of the proposed increase to the minimum wage in October on workers in Coventry. [219479]

Mr. Sutcliffe: We do not have information on the number of workers specific to Coventry who will be guaranteed a pay rise from the recently announced increases in the minimum wage for 2005. For the West Midlands region as a whole, we estimate this will guarantee a pay rise for 140,000 workers.

Manufacturing (West Bromwich)

18. **Mr. Bailey:** To ask the Secretary of State for Trade and Industry what action she is taking to help small and medium UK manufacturing companies in West Bromwich West. [219480]

Nigel Griffiths: DTI support to small and medium UK manufacturing companies is in the main accessed via the Black Country Business Link and the West Midlands Manufacturing Advisory Service.

Over the last two year the Business Link has provided a range of support to more than 300 small and medium manufacturing companies with 66 receiving significant assistance. The West Midlands Manufacturing Advisory Service has worked with 96 companies since September 2002 with approximately 12 receiving significant assistance of approximately £75,000 after referral to other programmes.

EU Regulations

19. **Jim Sheridan:** To ask the Secretary of State for Trade and Industry what steps she takes to ensure that EU regulations do not conflict with the competitiveness of UK industry and to encourage uniform application within the EU. [219481]

Nigel Griffiths: DTI has taken a strong lead in the Government drive for better EU law, in line with Lisbon goals. Ensuring that impacts on competitiveness are properly considered for all new EU proposals is a key priority and will continue to be during the UK Presidency. DTI is fully supportive of the European Commission's actions to ensure consistent application of EU law.

Corporate Responsibility

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what duty of care there is on corporate directors to take account of the consequences to *(a)* communities, *(b)* the environment, *(c)* health and safety of employees and *(d)* shareholders of decisions they take. [218999]

Jacqui Smith: Directors owe fiduciary duties and duties of care and skill to the company.

In fulfilling these duties, a director will need, where relevant, to consider the impact of the company's operations on the community and on the environment. Directors can, in certain circumstances, be personally guilty of a health and safety offence (under the Health and Safety at Work etc. Act 1974).

The Company Lay Reform Bill, draft clauses of which will be published this session, will include a statutory statement of director's general duties. This will require each director to act in the way that he or she concludes is most likely to achieve the success of the company for the benefit of its members as a whole. The director's duties will be owed to, and enforceable by the company.

Ellington Colliery

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what assessment she has made of the safety of Ellington Colliery; and if she will make a statement. [219071]

Mr. Mike O'Brien: Assessment of the safety risks associated with activities at any coal mines is principally a matter for the operator. UK Coal will have taken safety into account when considering the viability of Ellington Colliery.

Manufacturing

Sir Teddy Taylor: To ask the Secretary of State for Trade and Industry what percentage of actual output related to manufacturing *(a)* at the latest date for which figures are available, *(b)* five years ago and *(c)* 10 years ago. [219477]

Jacqui Smith: The percentage of UK GDP accounted for by manufacturing in *(a)* 2003 was 15.7 per cent. The corresponding figure for *(b)* was 20.2 per cent. and for *(c)* 1993 was 21.0 per cent.

Nuclear Power

Norman Baker: To ask the Secretary of State for Trade and Industry if she will make a statement on her policy on nuclear power. [219466]

Mr. Mike O'Brien: Our policy remains as set out in the 2003 Energy White Paper. The Government has no specific proposals but does not rule out the option.

Premium Telephone Numbers

Mr. Gibb: To ask the Secretary of State for Trade and Industry if she will refer the operators of premium telephone numbers *(a)* 09061 260000, *(b)* 09058 091165 and *(c)* 09011 332222 to the Independent Committee for the Supervision of Standards of Telephone Information Services. [219290]

Mr. Mike O'Brien: ICSTIS can investigate Premium Rate Numbers only if it receives full written details of how the service or the promotional literature for it has failed the consumer. The hon. Member should write to ICSTIS with details of the complaint. I understand that the numbers 09058091165 and 09011332222 have been turned off. ICSTIS presumes that this has happened for commercial reasons.

Mr. Gibb: To ask the Secretary of State for Trade and Industry if she will refer the operators of premium telephone numbers *(a)* 09064 069447, *(b)* 09061 222823 and *(c)* 09066 650440 to the Independent Committee for the Supervision of Standards of Telephone Information Services. [219292]

Mr. Mike O'Brien: ICSTIS can investigate Premium Rate numbers only if it receives full written details of how the service or the promotional literature for it has failed the consumer. The hon. Member should write to ICSTIS with details of the complaint. I understand that the number 0906660440 has been turned off. ICSTIS presumes this has happened for commercial reasons.

Mr. Gibb: To ask the Secretary of State for Trade and Industry (1) if she will refer the operators of premium telephone number *(a)* 09064 037022, *(b)* 09064 038500 and *(c)* 09064 037811 to the Independent Committee for the Supervision of Standards of Telephone Information Services; [219293]

(2) if she will refer the operators of premium telephone numbers *(a)* 09065 701933, *(b)* 09050 090990 and *(c)* 09063 490192 to the Independent Committee for the Supervision of Standards of Telephone Information Services; [219289]

(3) if she will refer the operators of premium telephone numbers *(a)* 09065 706214, *(b)* 09066 650458 and *(c)* 09065 706725 to the Independent Committee for the Supervision of Standards of Telephone Information Services. [219291]

Mr. Mike O'Brien: ICSTIS can investigate Premium Rate Numbers only if it receives full written details of how the service or the promotional literature for it has failed the consumer. The hon. Member should write to ICSTIS with details of the complaint.

Radioactive Emissions

Mr. Duncan Smith: To ask the Secretary of State for Trade and Industry for what reasons no filter was fitted to the discharge outlet at Dounreay to prevent the discharge of radioactive particles into the sea prior to 2004. [218377]

Mr. Mike O'Brien *[holding answer 28 February 2005]:* Regulation of radioactive discharges from nuclear sites is a devolved matter for the Scottish Executive.

A principle objective of the system used for the management of radioactive effluent at Dounreay has been to prevent particulate getting into the effluent at source. UKAEA recognises that the methods used to achieve this during the early years of the plant's operation were not wholly effective and would not be acceptable by today's standards.

Over many years, improvements have been carried out to improve the control of particulate in liquid effluent. These improvements include the replacement of the low-active drain in the late 1970s and the installation in the early to mid 1980s of filters to the discharge outlets of facilities where particles are known to have originated. A new sea discharge pipeline was installed circa 1990 and a new Low Level Liquid Effluent Treatment Plant was commissioned in 2003. The new effluent treatment plant is designed to facilitate the settlement and removal of solids from the site's active liquid effluent. In parallel with the construction and commissioning of the new effluent treatment plant, a wide range of investigations were carried out to determine whether there were still particles in the site's

active liquid effluent system. These investigations failed to find any evidence that particles were still being discharged from the site.

The installation of final filtration at the point of discharge to sea from the new effluent treatment plant is currently being undertaken and will provide additional reassurance that particles are not being discharged from the site.

Mr. Duncan Smith: To ask the Secretary of State for Trade and Industry what reports she has received on levels of contamination arising from radioactive emissions in Sandside Bay in Caithness and the surrounding seabed in the period since 1977. [218378]

Mr. Mike O'Brien *[holding answer 28 February 2005]:* Environmental monitoring and regulation of radioactive discharges are devolved matters for the Scottish Executive.

However, I understand that information about radioactive emissions from Dounreay has been published in the annual reports of UKAEA, the Statistical Bulletin Series published the Scottish Office and the Radioactivity in Food and the Environment (RIFE) Series published by the Scottish Environment Protection Agency. All particle finds at Sandside are reported to the regulator. Information about all particles found on Sandside is published on the UKAEA website which is updated as soon as analytical results are available and SEPA have been notified (normally the following working day).

Mr. Duncan Smith: To ask the Secretary of State for Trade and Industry for what reasons the levels of radioactive emissions into Sandside Bay and the surrounding area were not accurately reported by the UK Atomic Energy Authority in the period from 1977. [218379]

Mr. Mike O'Brien *[holding answer 28 February 2005]* Environmental monitoring and regulation of radioactive discharges are devolved matters for the Scottish Executive.

There are no emissions directly into Sandside Bay. However, discharges of radioactivity to the environment from Dounreay have been regulated since 1977 by the former HM Industrial Pollution Inspectorate and, since 1996, by the Scottish Environment Protection Agency. UKAEA calculates the impact of these discharges on the local environment and compares this with the effects measured on local fauna and flora in its statutory environmental monitoring programme. SEPA undertakes independent monitoring and publishes their findings in the annual Radioactivity In Food and the Environment (RIFE) report.

All finds of particles at Sandside (including the offshore, foreshore and beach) are fully reported on UKAEA's website. UKAEA have recently checked the accuracy of this information against all the historical records available and tell me they are confident that they have been accurately reported.

Steel Industry

Helen Jackson: To ask the Secretary of State for Trade and Industry if she will make a statement on prospects for the steel industry. [219462]

Ms Hewitt: After a period of very difficult trading conditions, prospects for the UK steel industry are now good. Deliveries by UK producers increased by 9.6 per cent. over the last year. In September 2004, Corus announced that it had made a profit for the first time since the company was formed in 1999.

Tuvalu (Trojan Diallers)

Mr. Roger Williams: To ask the Secretary of State for Trade and Industry if she will make representations to the Government of Tuvalu concerning UK citizens facing charges from trojan diallers operating from Tuvalu. [218420]

Mr. Mike O'Brien: The Government have no plans to make representations to the Government of Tuvalu concerning UK citizens facing charges from Trojan diallers operating from Tuvalu. UK telecoms companies regularly bar access to the specific numbers dialled. The volume of complaints about Tuvalu numbers is currently declining.

MINISTER FOR WOMEN

Equal Pay

23. **Miss McIntosh:** To ask the Minister for Women if she will make a statement on progress towards equal pay for men and women doing the same job. [219486]

Jacqui Smith: Since 1998 the median gender pay gap has closed from 17.4 per cent. to 14.4 per cent. To close the pay gap further we set up the Women and Work Commission to investigate the causes. I look forward to their interim statement, due to be published later this month.

25. **Mr. Sarwar:** To ask the Minister for Women what steps the Government are taking to close the pay gap between men and women; and if she will make a statement. [219488]

Jacqui Smith: As well as setting up the Women and Work Commission, the Government have led by example with all 88 Government Departments and Agencies having conducted equal pay reviews. This is reinforced by our target of 45 per cent. of large organisations having carried out equal pay reviews by 2008.

I am pleased that the Equal Opportunities Commission in Scotland have recently launched into occupational segregation.

Commission on Equality and Human Rights

24. **Mr. Lazarowicz:** To ask the Minister for Women what progress is being made towards the establishment of a Commission on Equality and Human Rights. [219487]

Ms Hewitt: I am very pleased that the Government have today published a Bill to establish the Commission for Equality and Human Rights, which will play a key part in realising our vision of a fair, cohesive and prosperous society based on opportunity for all, respect for all and good relations between communities.

Career Sexism

26. **Mrs. Anne Campbell:** To ask the Minister for Women what steps she is taking to tackle career sexism. [219489]

Ms Hewitt: I was delighted to launch a cross-Government plan to tackle career sexism at the Equal Opportunities Commission's Gender and Productivity Summit in October. Further work on tackling occupational segregation is being taken forward in the context of the Women and Work Commission, and I look forward to their interim statement, which is due to be published later this month.

PRIME MINISTER

Ministerial Visits (Expenses)

Norman Baker: To ask the Prime Minister what proportion of the costs of his visits to UK towns and cities since 1 January have been met from public funds; and what the total sum spent from public funds has been. [212342]

The Prime Minister: Since 1 January I have made official visits to 17 UK towns and cities. The cost to public funds of these visits, for which figures are available, is £13,350. The Labour Party meets any costs incurred on party political business.

I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 7 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

Royal Marriage

Andrew Mackinlay: To ask the Prime Minister (1) what discussions he has had with *(a)* the Prime Minister of (i) Canada, (ii) New Zealand and (iii) Australia and *(b)* other heads of government of countries where Her Majesty the Queen is Head of State about legislating in accordance with the Statute of Westminster 1931 for His Royal Highness Prince Charles to effect a morganatic marriage; and if he will make a statement; [212387]

(2) what advice the Government have given to His Royal Highness the Prince of Wales regarding whether his proposed marriage to Mrs Camilla Parker-Bowles would constitute a morganatic marriage; [212389]

(3) what advice the Government have given to His Royal Highness the Prince of Wales regarding the basis on which Mrs Camilla Parker-Bowles would not become Queen following her proposed marriage to His Royal Highness the Prince of Wales on his accession to the throne; and if he will make a statement. [212390]

The Prime Minister: It is not the practice of the Government to make public details of all discussions with foreign Governments.

Discussions with the Royal Household are not disclosed.

HOME DEPARTMENT

Asylum Seekers

Martin Linton: To ask the Secretary of State for the Home Department what proportion of Somali asylum seekers have claimed asylum *(a)* at an airport and *(b)* having travelled first through other countries in the past 24 months. [218524]

Mr. Browne *[holding answer 25 February 2005]:* The number of asylum applications received from nationals of Somalia, excluding dependants, was 5,090 in 2003 and 2,590 in 2004. Internal management information shows that between nine and 10 per cent. of Somali asylum applications are made at an airport.

There are no direct flights to the United Kingdom from Somalia. All those asylum applicants who claimed that they were Somali nationals and who had travelled from Somalia will therefore have travelled through other countries in order to reach the United Kingdom.

Information on asylum applications is published quarterly on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Biometric Data

Mr. Weir: To ask the Secretary of State for the Home Department in what ways his proposal for biometric data on UK identity documents *(a)* exceeds and *(b)* fails to meet the standard required by the United States for non-visa entry into that country; and if he will make a statement. [218296]

Mr. Browne: The US requirements for non-visa entry currently apply only to the British passport. US legislation requires that by 26 October 2005 all countries participating in the Visa Waiver Programme must have a programme in place to include biometric identifiers into their machine readable passports that meet International Civil Aviation Organisation (ICAO) standards.

The UK is fully engaged with the US in meeting the requirements to remain part of the visa waiver programme (VWP). The UK has established an implementation programme to enable it to begin the issue of UK biometric passports (ePassport) by 26 October 2005. The design of the ePassport meets the current set of requirements demanded by the United States for non-visa entry. It will incorporate identifiers that meet ICAO standards for biometric authentication, including a photographic image of the bearer, held digitally in the chip of the ePassport.

Crime Figures

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the recorded crime figures published in July 2004. [214827]

Ms Blears: The recorded crime figures showed an increase of 1 per cent. in the number of crimes recorded by the police in 2003–04 compared with 2002–03. There were falls of 9 per cent. in both offences of theft of and theft from a vehicle. Domestic burglary also fell by 8 per cent.

Overall violent crime rose by 12 per cent. though much of this increase is due to the impact of changes in recording and the introduction of new offences.

Police recorded crime statistics provide a good measure of trends in well-reported crimes, and are an important indicator of police workload. For the offences it covers, and the victims within its scope, the British Crime Survey gives a more complete estimate of crime in England and Wales since it covers both unreported and unrecorded crime and provides more reliable data on trends. 2003–04 BCS interviews showed a reduction of 5 per cent. compared with 2002–03 interviews.

Latest quarterly figures were published on 25 January and both recorded crime and BCS results showed crime falling. BCS interviews during the 12 months ending September 2004 found an 11 per cent. fall compared with the preceding 12 months. There was a 6 per cent. reduction in the overall level of crime recorded by the police in July to September 2004 compared with the same period in the previous year.

Hugh Bayley: To ask the Secretary of State for the Home Department how many *(a)* thefts, *(b)* burglaries, *(c)* robberies, *(d)* property crimes, *(e)* violent crimes and *(f)* all crimes there were in (i) England, (ii) north Yorkshire and (iii) City of York in each of the last 10 years according to the British Crime Survey. [217625]

Ms Blears *[holding answer 23 February 2005]:* Results from the British Crime Survey (BCS) on the number of incidents of crime in England and Wales are available in the Home Office Statistical Bulletin 10/04 (2004) 'Crime in England and Wales 2003–04', which is published at: http://www.homeoffice.gov.uk/rds

Detention Centres

Annabelle Ewing: To ask the Secretary of State for the Home Department (1) how many detainees under the age of 18 years were held in detention centres in each year since 1997; [218809]

(2) what the average detention time of each individual under the age of 18 years held in detention centres was in each year since 1997. [218810]

Mr. Browne: Information on the number of children held in detention centres and the average time for which they were there in each year since 1997 is not available. It would only be available by examination of individual case files at disproportionate cost.

Information is only available on a quarterly snapshot basis since December 2003. As at 27 December 2003, 10 people who were detained solely under Immigration Act powers were recorded as being under 18-years old; as at 25 December 2004, there were 25 people recorded as being under 18-years old. However, information on the number of children detained on 27 December 2003 excludes minors detained with their families at Oakington Reception Centre. These children were included in the published statistics for 2004; for this reason the figures are not comparable. Information on the average time these children had been detained is not available.

Feltham Young Offender Institution

Dr. Cable: To ask the Secretary of State for the Home Department how many prisoners at Feltham Young Offender Institution are held on remand awaiting deportation having completed their sentences; how many prisoners were held on that basis in 2004; and for what periods such prisoners were held. [208522]

Mr. Browne: With effect 19 February there was one person detained in Feltham after completion of sentence and a total of 194 in the prison estate.

Information on the numbers held during 2004 and the period persons are detained following completion of prison sentences is not available.

Work is ongoing to improve the quality of data held on those people detained under Immigration Act powers in prison establishments.

Fresh Talent Initiative

Pete Wishart: To ask the Secretary of State for the Home Department what recent discussions he has held with the Scottish Executive concerning the implementation of the Fresh Talent initiative. [219765]

Mr. Browne: The Scottish Executive is responsible for its broader Fresh Talent Initiative but we hold regular discussions with them on various aspects of it. In respect of the Fresh Talent: Working in Scotland scheme, which will be launched in summer 2005, Home Office and Scottish Executive officials last held discussions on 1 February 2005.

Pete Wishart: To ask the Secretary of State for the Home Department what *(a)* changes to existing legislation and *(b)* new legislation will be required to allow for introduction of the measures proposed in Fresh Talent; what the timetable is for the introduction of such (i) changes and (ii) legislation; and if he will make a statement. [219766]

Mr. Browne: The Scottish Executive's Fresh Talent Initiative is a wide-ranging initiative, not confined to immigration matters. We are working with them on a range of measures, such as ensuring that Scottish employers have full information on the existing immigration routes to the UK. These require no changes to legislation.

One aspect which requires changes to the Immigration Rules is the Fresh Talent: Working in Scotland scheme. This scheme will enable overseas students who have successfully completed an HND, degree, Masters or PhD in Scotland to apply for leave to seek and take work in Scotland for up to two years. The scheme will be launched in summer 2005 and a specific date will be published in due course. The necessary amendments to the secondary legislation will be laid before Parliament 21 days before the scheme comes into effect, as is customary practice.

Judicial System

Mr. Rosindell: To ask the Secretary of State for the Home Department what the cost of running the justice system was in *(a)* 1995, *(b)* 1997, *(c)* 1999, *(d)* 2001 and *(e)* 2003; and what the expected cost is in 2005–06. [209490]

Paul Goggins: Three Government Departments, the Home Office, Department for Constitutional Affairs and the Office of the Attorney General (including the Crown Prosecution Service) are jointly responsible for the justice system.

HM Treasury regularly publish statistics on public expenditure which are freely available via the HM Treasury's website at http://www.hmtreasury.gov.uk/economic_data_and_tools/finance_ spending_statistics/pes_publications.

The three Departments also publish annual departmental and other reports, which give comprehensive information about delivery and service improvements.

The overall cost of the "justice system" as a whole, including the administration of justice, policing and offender management was:

£ million

	Overall cost
1995–96	13,352
1997–98	14,318
1999–2000	15,099
2001–02	18,340
2003–04 (estimate)	22,227

The figures presented are a mix of cash and accruals. All outturn figures up until 1997–98 are on a cash accounting basis. Outturn figures for 1999–2000 and 2001–02 are on an accruals basis, as is the estimated outturn data for 2003–04.

The expected costs of the "justice system" in 2005–06 have not yet been finalised and are subject to central and local government financial planning rounds.

Note:

The historical figures used in this answer are taken from the HM Treasury Public Expenditure Statistical Analyses 2004 and 2001–02.

Personation

Dr. Pugh: To ask the Secretary of State for the Home Department what steps his Department takes to prevent fraud against private enterprises by people impersonating individuals known to be dead. [218453]

Mr. Browne: The Home Office-led Identity Fraud Steering Committee, which comprises public and private sector organisations that are committed to reducing identity fraud, began a project in November 2004 to explore the benefits, feasibility and legal impediments of sharing public sector deceased person information with private sector organisations involved in fraud prevention. The organisations involved are the Home Office, the Department for Work and Pensions (DWP), the Office for National Statistics (ONS) and CIFAS—the UK's Fraud Prevention Service. CIFAS membership includes more than 200 companies covering sectors such as financial services, utilities and insurance.

The first phase of the project involved a sample of 50confirmed impersonation of deceased (IOD) cases. These were processed against ONS data on deceased people to establish whether the fraud could have been detected and prevented had the ONS data been available to CIFAS members when the fraudsters' applications were processed. The project found that sharing this data would not have a significant impact on reducing this type of fraud.

The second phase of the project is exploring the benefits of sharing deceased person data held by DWP to reduce deceased person fraud. This includes confirming whether the data held by DWP would help to reduce IOD fraud; running the same cases of IOD fraud (as used in the first phase) against the information held by DWP; and establishing whether any "showstoppers" or legal impediments exist that would prevent DWP data on deceased people from being shared with the private sector.

Initial results suggest that sharing DWP data may help to reduce IOD fraud, but further work is needed to evaluate the benefits that could be obtained. This work is now under way along with an examination of any possible legal impediments to sharing the data.

Police

Helen Southworth: To ask the Secretary of State for the Home Department if he will draw on best practice within the public and private sector to ensure that the skills and abilities of women and ethnic minorities within the police force are developed to their full potential; and if he will make a statement. [213769]

Ms Blears: The Government are committed to professionalising the whole police workforce. A central plank of our workforce modernisation programme is to develop and implement improved learning and development for everyone in the service and ensure, in particular, that women and people from ethnic minorities have the opportunity to reach their full potential.

The Core Leadership Development Programme will ensure that officers of all levels can develop the important leadership skills that they need to carry out their duties effectively. This programme will be open to officers from sergeant to chief inspector level. It will also be open to police staff—6 per cent. of whom are from minority ethnic backgrounds and 62 per cent. of whom are women—at equivalent levels.

We intend to strengthen the Senior Careers Advisory Service to support those with potential for senior leadership. In doing so, we will learn from other organisations' experience and explore joint development opportunities with them, including secondments and exchanges.

A career in the police service should be an opportunity for life long learning and development. We want all those working in the police service to have clear career pathways in which to develop their professional skills and have these accredited. We will develop a formal qualifications framework and are considering developing professional registers for the service in line with practice in other professions.

Officers and staff will be given the opportunity to keep their skills up to date as they progress through more structured careers. We will put in place mechanisms for continuously developing the operational skills of

constables. Officers will be assessed against national occupational standards and we will award those who achieve the standards with a qualification which will be recognised outside the service.

We are also considering changes to regulations so that officers will no longer be required to have spent a specific number of years in a particular rank before being eligible for promotion. This will remove barriers to promotion and widen the pool of those who are eligible. We are also keen to identify members of police staff with potential for development and we will look to develop arrangements for a high potential development scheme for police staff similar to that available to officers.

Police staff play an increasingly important role in the police service and we are keen to attract more women and people from ethnic minorities into the police service from outside. We intend also to draw on practice elsewhere and encourage members of ethnic minorities with successful careers in other professions to apply for lateral entry to the police service.

We will review our promotion and progression procedures to ensure they are fair, transparent and have no adverse impact on women or minority ethnic officers. Any barriers identified will be removed.

We will also work closely with the British Association of Women Police to ensure women have the support and opportunities to reach their potential. Part of this will be ensuring that the working environment for women is professional and supportive and that police training will be available on a non- residential and part time basis. More opportunity for flexible working patterns, should provide greater opportunity to gain experience in a wider range of roles.

CULTURE, MEDIA AND SPORT

Arts Council Funding

Ann Keen: To ask the Secretary of State for Culture, Media and Sport what proportion of the total grant in aid to the Arts Council in England was provided to theatres in each financial year since 1997. [218499]

Estelle Morris: The table shows the Arts Council's funding commitments to theatres over the last three years as a percentage of their total grant-in-aid spending.

Theatre spend as a proportion ACE spending

	Percentage
2002–03	33
2003–04	35
2004–05	34

Information on funding for theatres as a proportion of total grant-in-aid between 1997–2002 could be provided only at disproportionate cost. However, it is clear that the increase in funding that took place after the 2001 theatre review has dramatically improved funding to theatre. The increase in funding between 2000–01 and 2003–04 represents a 72 per cent. increase in ACE funding for theatre.

Departmental Policies

Mr. George Osborne: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to Islington, South and Finsbury constituency, the effects on Islington, South and Finsbury of her Department's policies and actions since 2 May 1997. [218974]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Islington, South and Finsbury since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. There are two school sport partnerships based in Islington south and Finsbury, involving three school sport co-ordinators and 27 primary link teachers. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Islington, South and Finsbury have benefited from four Sport England community capital lottery grants totalling £4,792,287, and a further two awards worth £875,736 in total from the £108 million investment in innovative sports facilities through the Active England programme.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–5. Between 1998–99 and 2003–04, funding to Arts Council England, London increased from £13.6 million to £133.8 million, including from 1 April 2003, funding to major national arts organisations in London. In 2005–06 the total Arts Council England, London investment in regularly funded organisations will be £151.6 million. Islington south and Finsbury has benefited from grants to arts organisations and individuals, including the Almeida theatre and the Union Chapel Project: "Ten Feet Away".

Schools in Islington, South and Finsbury were included in the first phase of the Creative Partnerships programme which began in 2002. Creative Partnerships aims to give school children and their teachers the opportunity to explore their creativity by working on sustained projects with creative organisations and individuals, including artists, theatre companies, dance studios, museums, orchestras, film-makers and historic buildings. Funding of £65 million was allocated for the period 2002–05 to develop creative partnerships, and the programme will receive at least a further £86 million in 2005–08.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived

communities and people with particular educational or physical needs. People in Islington, South and Finsbury will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Islington, South and Finsbury area. The UK Film Council's First Light initiative for young film-makers aged between 11 and 18 has supported a number of initiatives in Islington, including providing a grant of £30,000 to the "All Change Arts" organisation for the making of five films in which 95 young people were involved. Film London provided a £10,000 lottery grant to the Film and Video Workshop. The Human Rights Watch Festival, also based in Islington, received £5,000.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in the Islington south and Finsbury constituency with at least one person aged 75 or over claiming the winter fuel payment in 2003–4 was 3,505.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11pm on new year's eve to 11am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Islington south and Finsbury, a greater say in the regulation of gambling in their area.

Tourism across London has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and its successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Islington, South and Finsbury. Responsibility for the promotion of tourism in London was devolved to the Mayor of London and the Greater London Authority (GLA) under the Greater London Authority Act 1999. Since 2000–01, DCMS has worked with the Mayor and the GLA to fund marketing and tourism development activities in London. Data on the precise effect of this support for tourism in Islington south and Finsbury is not held centrally.

English Heritage has awarded grants worth £1,567,929 to Islington, South and Finsbury since 2 May 1997, including £1,121,654 to the London borough of Islington for the Keystone Crescent Conservation Area Partnership Scheme (£159,691 in 1997), the Caledonian Road and Chapel Market Heritage Economic Regeneration Schemes (£459,698 from 1997 to 2004) and funding for specialist conservation posts (£502,265 from 1997 to 2003).

In common with all those in the United Kingdom, the public library branches in Islington, South and Finsbury are connected to the Internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the museums, libraries and archives council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

Information from the national lottery distributors indicates that since 2 May 1997 Islington, South and Finsbury constituency has benefited from 868 awards totalling over £189 million. Of these, 55 awards worth over £44 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Mr. Wyatt: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as closely as possible to Sittingbourne and Sheppey constituency, the effects on Sittingbourne and Sheppey of the Department's policies and actions since 1997. [218758]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence

and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Sittingbourne and Sheppey since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. A school sports partnership in Sittingbourne and Sheppey is scheduled to begin in the autumn of 2005. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Sittingbourne and Sheppey have benefited from six Sport England lottery grants totalling £1,286,628.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 funding to Arts Council England, South East increased from £2.6 million to £12.1 million. In 2005–06 the total Arts Council England, South East investment in regularly funded organisations will be £12.7 million. Sittingbourne and Sheppey has benefited from grants to arts projects, organisations and individuals in the South East Department including the Stour Valley Arts Project and the Sheppey Community Theatre.

Young people in Sittingbourne and Sheppey have benefited from the South East Youth Music Action Zone, known as Rhythmix. Rhythmix became a Youth Music Action Zone in 2000 and has so far been awarded three grants totalling £1,150,000. 21,431 young people have taken part in local music projects and events run by this action zone.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Sittingbourne and Sheppey will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Sittingbourne and Sheppey with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 4,885.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Sittingbourne and Sheppey, a greater say in the regulation of gambling in their area.

Tourism in Sittingbourne and Sheppey has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including the South East Regional Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Sittingbourne and Sheppey.

English Heritage has awarded grants worth £512,984 to Sittingbourne and Sheppey since 2 May 1997, including £169,900 to SS Mary and Sexburgha Church, Minster on Sea in 1998 and £185,000 to Swale borough council for the Sheerness Town Centre Heritage Economic Regeneration Scheme from 2001 to 2003.

In common with all those in the United Kingdom, the public library branches in Sittingbourne and Sheppey are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Kent county council has recognised this value and has undertaken initiatives such as giving access to automated services of information in 12 of Kent's

libraries, including Sheerness, and training library workers to deal with the particular needs of asylum seekers and refugees across the county of Kent. These two projects were allocated DCMS/Wolfson Foundation funding of £224,000 and £75,000 respectively.

Information from the national lottery distributors indicates that since 2 May 1997 Sittingbourne and Sheppey has benefited from over 128 awards totalling over £6.1 million. Of these, 27 awards worth over £3.3 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Licensing

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what powers the police have to object to the licensing of a night club. [219432]

Mr. Caborn: There is no legal definition of a "nightclub". Under the current licensing regime the police may object to the licensing justices about the grant or renewal of a justices' licence authorising the sale of alcohol for consumption on the premises. They may also object to the grant of a special hours certificate by the justices which authorises sales of alcohol outside of normal permitted hours until 2.00 a.m. in most of the country and until 3.00 a.m. in the west end of London. In order to obtain a special hours certificate, a nightclub must first obtain a public entertainment licence which authorises music and dancing and which is granted by the local authority. The police may also object to grant or renewal of this licence.

The Licensing Act 2003 provides that responsible authorities, including the chief officer of police, may make representations about applications, including those by nightclubs, for provisional statements and about the grant or variation of premises licences. Responsible authorities may also apply for a review of a licence at any time as well as make representations about a review after it has been granted.

Representations must be about the effects of the application on the promotion of the licensing objectives. Where a simple conversion of an existing licence is made under the grandfather rights provisions in schedule 8 of the Act then the chief officer of police may make representations based on crime and disorder grounds.

National Lottery

Mr. Whittingdale: To ask the Secretary of State for Culture, Media and Sport if she will list each of the programmes that have been funded by the New Opportunities Fund since 1997, broken down by amounts *(a)* allocated and *(b)* distributed. [218570]

Estelle Morris: The table shows the total funding target for each of the New Opportunities Fund's policy direction initiatives, together with amounts committed, since 1997. Several of these programmes are long-term initiatives which were not intended to be completed by 2005 or where planning and design of facilities was expected to take time. For example, the Big Lottery Fund are on target to comply with the direction to commit all the Fund for New Opportunities for PE and Sport before the end of this year.

£000

Initiatives	*Total funding target*	*Amount committed as at 31 December 2004*	*Amount distributed as at 31 December 2004*
Health Programmes			
Healthy Living Centres	300,000	267,775	124,536
Cancer prevention detection treatment and care	149,530	145,193	135,295
Reducing the burden of CHD, stroke and cancer	213,500	199,088	102,819
Palliative Care	84,470	78,616	30,063
Education Programmes			
Out of school hours learning	258,900	214,906	167,794
Out of school hours childcare and childcare	418,500	372,785	279,386
Community access to lifelong learning	200,000	188,218	169,279
ICT training and content creation	301,000	287,361	255,540
Opportunities for young people—PE and sport in schools	852,050	597,968	82,385
Opportunities and activities for young people	67,200	64,549	60,913
Young People's Fund	174,120	0	
Environment programmes			
Green spaces and sustainable communities	130,000	116,727	94,251
Transforming communities	159,000	138,062	29,381
Small scale grants scheme	54,840	44,519	38,367
Fairshare	50,000	50,000	50,000
Veterans[1]	5,160	10,723	9,074

[1] Remaining Veterans budget to be allocated from ICT underspend

National Trust

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport whether *(a)* she and *(b)* her Ministers discussed the proposed administrative changes at the National Trust at the meeting with the director general of the National Trust on 2 February. [219684]

Mr. Caborn: The meeting on 2 February 2005 was an informal discussion with a number of representatives from the heritage sector. The proposed administrative changes at the National Trust were not discussed.

Sports (Access)

Iain Wright: To ask the Secretary of State for Culture, Media and Sport (1) what plans she has to expand access to sports and fitness services for young people on low incomes; [218796]

(2) what plans she has to expand access to sports and fitness services for elderly people on low incomes; [218797]

(3) what plans she has to expand access to sports and fitness services for disabled people on low incomes. [218798]

Mr. Caborn: My Department has a Public Service Agreement target to increase, by 2008, the take-up of cultural and sporting opportunities by people aged 16 and above from priority groups. The Department's Funding Agreement with Sport England sets a target to increase the proportion of the population engaged in regular physical activity by 1 per cent. per annum, and focuses on developing participation among specific sections of the population, including young people and the most economically disadvantaged groups in society.

The Equality Standard for Sport, launched last year, is a framework to guide sports and community organisations towards achieving equality. Its aim is to widen access and increase the participation and involvement in sport and physical activity from under-represented individuals, groups, and communities. It will assist organisations in developing structures and processes, assessing performance, and ensuring continuous improvement in equality. Progress through The Standard is a mandatory condition within the national funding agreements involving Sport England, National Governing Bodies of Sport, and national and regional sports organisations in England.

TREASURY

Air Ambulance Charities (Tax)

Mr. Wyatt: To ask the Chancellor of the Exchequer how much tax has been collected from air ambulance charities in VAT in respect of pilot costs since January 1989. [219052]

John Healey: HM Customs and Excise do not collect data on VAT from individual goods and services. The amount of VAT paid by air ambulance charities on pilot costs is therefore unavailable.

Mr. Wyatt: To ask the Chancellor of the Exchequer what discussions Customs and Excise has had with the British Air Ambulance charities with respect to zero rating fuel supplies since January 2004. [219054]

John Healey: There is no provision in law for the supply of fuel to charities to be zero-rated for VAT. HM Customs and Excise have, however, met with representatives of British Air Ambulance charities and agreed to review the VAT liability of air ambulances and related supplies.

Congestion Charge

Mr. George Osborne: To ask Chancellor of the Exchequer how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213826]

Mr. Timms: I refer to the answer given by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Milburn) on 28 February 2005, *Official Report*, column 957W. The Treasury has no cars other than those supplied by the Government Car and Dispatch Agency. Where officials incur congestion charges or penalty charges on their own cars used travelling to work or on business, they are personally responsible for meeting the cost.

Research and Development Tax Credits

Mr. Byrne: To ask the Chancellor of the Exchequer what the value was of research and development tax credits awarded in each year since their introduction, broken down by *(a)* industry and *(b)* size of firm. [219437]

John Healey: I refer the hon. Member to the reply I gave to the hon. Member for Salisbury (Mr. Key) on 2 February 2005, *Official Report*, column 908W.

ELECTORAL COMMISSION

Election Participation

Mr. Evans: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how much has been spent by the Commission since 1 February 2004 on measures designed to increase participation by young people at elections. [218449]

Mr. Viggers: I am informed by the Electoral Commission that young people (18 to 24-year-olds) are the most likely of all age groups not to be registered to vote, and are among the least likely to turn out to vote. A significant element of its public awareness work is therefore aimed at improving voter engagement in this group. The Commission anticipates spending up to £705,000 in the current financial year for programmes aimed at raising young people's awareness of democratic processes in the United Kingdom, and encouraging them to get involved.

DEPUTY PRIME MINISTER

Building Regulations

Mr. Wiggin: To ask the Deputy Prime Minister what estimate his Department has made of the total additional costs to the construction industry of meeting the requirements of the changes to building regulations that are being planned by his Department. [219658]

Phil Hope: As part of the consultation process on proposals for amendments to the Buildings Regulations the Office of the Deputy Prime Minister publishes a draft regulatory impact assessment with estimated costs, including where relevant costs to the construction industry, of the various options for change. Until final decisions are taken the costs cannot be regarded as definitive.

At the moment the Office of the Deputy Prime Minister is consulting on proposals to amend Parts F (ventilation) and L (conservation of fuel and power) of the Building Regulations. The consultation documents, including the draft regulatory impact assessments, are available on the Office of the Deputy Prime Minister's website www.odpm.gov.uk/building-regulations and in the Library of the House.

Council Tax (Southend)

Mr. Amess: To ask the Deputy Prime Minister how many council tax payers have registered in Southend in each year since 1997. [219430]

Mr. Raynsford: Local authorities are not required to maintain or register individuals who are liable for council tax because council tax is a property-based tax.

Numbers of dwellings in the Southend-on-Sea unitary authority area that were chargeable for council tax purposes are tabled as follows:

November	*Number*
1997	72,505
1998	72,937
1999	72,900
2000	73,555
2001	73,673
2002	73,671
2003	73,875
2004	74,022

Source:
CTB1 returns to ODPM

Departmental Costs

Mr. George Osborne: To ask the Deputy Prime Minister how much has been spent on *(a)* entertainment lunches involving civil servants and guests and *(b)* working lunches, in each year since 1997. [215044]

Yvette Cooper: The Office of the Deputy Prime Minister was created following the Machinery of Government changes on 29 May 2002. The information is not available in the form requested and could be provided only at disproportionate cost.

For spending figures for catering, hospitality and official entertainment, I refer the hon. Member to the answer given to him on 1 March 2005, *Official Report*, column 1124W.

Fire Control Rooms

Mr. Hammond: To ask the Deputy Prime Minister what his Department's estimate is of the total cost to public funds of delivery of the proposed eight new English regional fire control rooms. [218256]

Mr. Raynsford: The estimated total net cost to public funds of delivering a national network of nine regional control centres (RCC) for England is approximately £72 million. This covers the costs of setting up the new fire control centres from the start of the project in January 2004 until the last RCC goes live during FY 2008–09.

This information is drawn from the draft Outline Business Case, which is available on the Office of the Deputy Prime Minister's website. This estimates that there will be net annual savings from FY 2009–10 onwards. The project will pay for itself within five years of the last regional control centre going live.

Planning Application (South Devon)

Mr. Steen: To ask the Deputy Prime Minister if he will call in the Planning Application 17/2235/04/CU Sports Motorbiking in South Devon Area of Outstanding National Beauty granted by South Hams district council on 23 February subject to conditions under a Section 106 Agreement. [219682]

Keith Hill: I thank the hon. Member for drawing this to our attention. An Article 14 direction was issued on 1 March 2005 to the local planning authority preventing any decision notice being issued until the First Secretary of State, my right hon. Friend the Deputy Prime Minister has had an opportunity to look at the application. The hon. Member will be aware that the Government's policy is to leave the control of day-to-day planning matters, as far as possible, in the hands of locally accountable planning authorities. Normally, the First Secretary of State, my right hon. Friend the Deputy Prime Minister would intervene and use his powers to 'call in' applications for his own decision only if the issues raised were of regional or national significance. Once papers have been received the First Secretary of State, my right hon. Friend the Deputy Prime Minister will be in a position to determine whether he should exercise his power in this case, and take the decision himself, following a public inquiry. To comment now could risk prejudicing the First Secretary of State, my right hon. Friend the Deputy Prime Minister's future decisions.

Right-to-buy Regulations

Mr. Clifton-Brown: To ask the Deputy Prime Minister whether he has made personal calls to housing campaigners regarding changes in the right-to-buy regulations. [217784]

Keith Hill: The Office of the Deputy Prime Minister holds no record of any personal calls made by Ministers to housing campaigners regarding changes in the right-to-buy regulations.

Ministerial colleagues and I have made reference to the changes to the right-to-buy scheme brought about by the Housing Act 2004 on a number of occasions in the fulfilment of relevant speaking engagements since the Act gained Royal Assent. I refer the hon. Member to the answer given on 31 January 2005, *Official Report*, column 644W, which dealt with the steps that the Government have taken to alert tenants to these changes to the right-to-buy rules.

CABINET OFFICE

EU Intelligence Sharing and Co-ordination Service

Mr. Hayes: To ask the Minister for the Cabinet Office pursuant to the answer of 10 January 2005, *Official Report*, column 13W, on EU intelligence sharing and co-ordination service, if he will list those documents, with security grading and caveat, that have been supplied to the EU intelligence sharing and co-ordination service by his Department; and if he will make a statement on the Department's policy regarding the nature of departmental material that may be supplied. [216511]

Mr. Miliband: I refer the hon. Member to the answer given to him by my hon. Friend the Minister for Europe (Mr. McShane) on 21 February 2005, *Official Report*, column 355W.

NORTHERN IRELAND

Asylum Seekers

Mrs. Spelman: To ask the Secretary of State for Northern Ireland if he will list the payments and grants made by the Government to each local authority in Northern Ireland to reimburse the costs of supporting asylum seekers in each year from 1996–97. [217880]

Angela Smith: The following table details the monies paid by the Government through the Department of Health, Social Services and Public Safety to Health and Social Services (HSS) Trusts to reimburse the costs of supporting asylum seekers since 1996–97 is as follows:

Reimbursement of costs to HSS trusts

	Health and Social Services Trust	*Amount paid (£)*
1996–97	—	0
1997–98	—	0
1998–99	—	0
1999–2000	—	0
2000–01	—	0
2001–02	North and West Belfast Community	37,937.00
	South and East Belfast Community	67,649.00
	Causeway	2,087.00
	Homefirst	3,245.00
	Foyle	1,302.00
2002–03	North and West Belfast Community	44,644.00
	South and East Belfast Community	95,063.00
	Causeway	7,972.00
	Craigavon and Banbridge Community	2,316.00
2003–04	North and West Belfast Community	76,295.00
	South and East Belfast Community	176,002.00
	Causeway	9,968.00
	Homefirst	13,852.00
	Foyle	780.00
	Ulster community and hospitals	3,169.00
2004–05	North and West Belfast Community	33,452.00
	South and East Belfast Community	162,255.00
	Causeway	10,398.00
	Homefirst	7,723.00
	Foyle	10,000.00
	Ulster community and hospitals	6,686.00

Education Funding

Mr. Beggs: To ask the Secretary of State for Northern Ireland what discussions he has had with the Secretary of State for Education and Skills regarding funding formulas for schools. [218623]

Mr. Gardiner: The Secretary of State for Northern Ireland has not discussed the funding formulas for schools with the Secretary of State for Education and Skills.

Ferry Services

Mr. Alan Reid: To ask the Secretary of State for Northern Ireland pursuant to the answer of 22 February 2005, *Official Report*, column 566W, on ferry services, if he will place in the Library a copy of the letter from his Department's Minister to the Ministers for Transport in the Scottish Executive. [212388]

Mr. Gardiner: This issue remains the subject of ongoing discussions. It is a policy matter and therefore it would not be appropriate to make available this piece of ministerial correspondence.

Global Point International Business Park

David Burnside: To ask the Secretary of State for Northern Ireland how much public money has been invested in Global Point International Business Park at Corr's Corner, Newtownabbey; and over what period. [219685]

Mr. Gardiner: The total investment between 1971 and 2004, including land purchase, is £7.2 million.

David Burnside: To ask the Secretary of State for Northern Ireland what the main strategic objective is of Global Point International Business Park. [219686]

Mr. Gardiner: The strategic objective for Global Point is to create a modern quality business park which would be attractive for both inward and indigenous investment.

David Burnside: To ask the Secretary of State for Northern Ireland how many companies are in discussion with Invest Northern Ireland with a view to locating at Global Point International Business Park. [219687]

Mr. Gardiner: There are no live negotiations with companies at this time.

David Burnside: To ask the Secretary of State for Northern Ireland when the first operational company is expected to be located at Global Point International Business Park. [219688]

Mr. Gardiner: The first operational company is not expected in Global Point International Business Park until the Public Inquiry into the Belfast Metropolitan Area Plan is completed.

Hearing Screening Programme

Lady Hermon: To ask the Secretary of State for Northern Ireland whether the Department of Health, Social Services and Public Safety moratorium will affect the start date for the newborn hearing screening programme; when he expects the programme to commence; and if he will make a statement. [216253]

Angela Smith: The moratorium imposed in October 2004 on health and social services boards recruiting new staff was lifted in a letter dated 23 December 2004 from the Permanent Secretary of the Department of Health, Social Services and Public Safety to board chief executives.

Boards and trusts, which have not yet recruited screening and co-ordinator staff, are now in the process of doing so. As a result, the date for full implementation of the neonatal hearing-screening programme, which was 31 March 2005, has slipped to September 2005. However, screening has been introduced in a number of trusts with about one third of babies currently being screened.

Housing

Mr. McNamara: To ask the Secretary of State for Northern Ireland what arrangements are in place to ensure that housing associations under the direction of the Housing Executive reinvest their operation profits back into the provision of housing. [219325]

Mr. Spellar: Housing associations are not under the direction of the Housing Executive. They are regulated by the Department for Social Development. As such, they are restricted in their permissible purposes or objects by the Housing (Northern Ireland) Order 1992. They are not for profit organisations and generate reserves from their surpluses and all such reserves have to be employed in the business. Their boards of management are accountable for the stewardship of the reserves and are duty bound to use them effectively in the pursuit of the associations' objectives. Reserves are used to:

(i) subsidise the development of properties and diversified activities;

(ii) enable future major repairs requirements to be met;

(iii) satisfy the loan covenant requirements of lenders, (who often require surpluses to be generated to develop services to meet rising customer expectations); and

(iv) provide a cushion against uncertainty regarding assumptions in medium to longer term business plans.

Their expenditure is subject to scrutiny by internal and external auditors, the Department for Social Development and the Northern Ireland Audit Office to ensure that the association's behaviour is proper and regular.

Homelessness (Intimidation)

Mr. McNamara: To ask the Secretary of State for Northern Ireland what action is being taken by the Housing Executive to tackle homelessness caused by sectarian intimidation. [219327]

Mr. Spellar: The Northern Ireland Housing Executive (NIHE) assists those who have become homeless as a result of sectarian intimidation by providing temporary accommodation and arranging for storage of possessions, as necessary. If the Police Service for Northern Ireland (PSNI) can confirm that intimidation has taken place, the Housing Executive will award the applicant the highest level of priority for re-housing. Owner-occupiers who have become homeless as a result of intimidation have the facility to sell their homes under the Housing Executive's Scheme for the Purchase of Evacuated Dwellings and tenants of rented property are entitled to an emergency grant of £692 when they are re-housed.

While homelessness caused by sectarian intimidation is not a problem that can be tackled solely by the NIHE, the Housing Executive works, through its Community Cohesion Unit, to prevent such intimidation by promoting good relations between communities. The Housing Executive's strategic objective to promote good relations is linked to the following aims:

to respond quickly and effectively to the needs of people in danger as a result of community conflict;

to work in partnership with others to address the complex housing needs of a divided society;

to respect the rights of people who choose to live in single identity neighbourhoods, and

to facilitate and encourage integrated housing as far as this is practicable, desirable and safe.

Interface Schools Initiative

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much each school in North Belfast has received under the Interface Schools Initiative in each year since it was introduced. [218799]

Mr. Gardiner: Additional funds under Interface Programmes have been allocated to schools in North Belfast as follows:

Financial year/Schools	£
Recurrent funding	
2001–02	
Holy Cross Girls' Primary	75,000
Wheatfield Primary	46,000
(From December 2001)	
Ballysillan Primary	5,000
Cliftonville Primary	5,000
Currie Primary	5,000
Grove Primary	5,000

Wheatfield Primary	100,000
2003-04	
Currie Primary	37,000
Wheatfield Primary	45,000

Schools (Funding)

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the projected outcome is of the new Common Funding Formula in each school sector in Northern Ireland. [218316]

Mr. Gardiner: All grant-aided schools in Northern Ireland, covered by the Common Funding Scheme, have now received notification of their budget shares for the 2005–06 financial year. The information on allocations by management sector is shown in the following table:

£000

Allocations by sector	Total funding in 2004-05[1]	Total common funding 2005-06[2]
Education and Library Board—Controlled	350,659	380,830
Education and Library Board—Maintained	318,380	347,753
Voluntary grammar	168,017	182,112
Grant-maintained integrated	38,719	43,205
Total	875,775	953,900

[1] Figures taken from 2004–05 Budget Statements plus the Chancellor's ('Budget Addition') funding

[2] Figures from Common Funding budget share allocations, including the Budget Addition.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what procedures he has put in place to measure the educational outcomes of the allocations made under the new Common Funding Formula system. [218317]

Mr. Gardiner: The introduction of a Common Funding Formula does not change the fundamental principles of local management of schools (LMS) arrangements: that the decisions on the relative priorities and use of allocated funds are taken by principals and governors of schools. What it does is ensure that schools with similar characteristics receive similar levels of funding, regardless of the area or sector in which they are located.

The Department already uses a wide range of measures of educational outcomes. These measures will continue to be used to inform judgments on educational priorities and the allocation and distribution of resources.

SOLICITOR-GENERAL

Information Technology

Mr. Oaten: To ask the Solicitor-General how the £600 million set aside for case management information technology in the Crown Prosecution Service referred to in the document Justice For All (2002) has been spent. [218854]

The Solicitor-General: The £600 million in paragraph 9.47 of the White Paper "Justice for All", was allocated for modernisation of all Criminal Justice System information technology, not for the Crown Prosecution Service (CPS) alone. The CPS has paid £56.41 million since 1 January 2002 under its 10-year public finance initiative for its Case Management System COMPASS and for legacy system support.

COMPASS was delivered on time, to specification and within budget. It has improved the way the Crown Prosecution Service works by:

- reducing paper handling, increasing focus on operational priorities;
- providing an infrastructure which facilitates enhanced communication with other criminal justice agencies.

Over two million cases are registered on COMPASS with over 4,000 users accessing the system daily. It has delivered its contribution to the CJS IT targets and is the IT system selected to support the No Witness, No Justice initiative.

TRANSPORT

A74 (Improvement Scheme)

David Maclean: To ask the Secretary of State for Transport what the projected costs of the road improvement scheme for the A74 from Carlisle to Guardsmill were in 1998–99; and what the latest estimate is of the costs. [219528]

Mr. Jamieson: The projected total outturn cost for the original scheme, as designed in 1998–99 was approximately £50 million. That scheme was substantially redesigned to include replacement of the Mossband viaduct. The latest projected total outturn cost for the redesigned scheme is approximately £174 million, including allowances for risk and inflation which were not reflected in the 1998–99 estimate.

Crossrail

Sue Doughty: To ask the Secretary of State for Transport if he will make a statement on the Superlink proposals for connecting Crossrail to other networks in the South East, with particular reference to Guildford station. [219388]

Mr. McNulty: The environmental statement deposited with the hybrid Crossrail Bill contains details of the analysis that has been undertaken of the Superlink proposals. In summary, we have concluded that Superlink presented significant operational, environmental and consent risks, that it did not appear consistent with planning policies for the South East, and that its costs appeared to be underestimated. We are confident that the scheme in the Crossrail Bill is the best way forward.

Driving Instruction

Mr. Pike: To ask the Secretary of State for Transport how much was spent in each of the last 10 years to promote and provide information about Pass Plus courses to *(a)* newly qualified drivers and *(b)* those who apply for a provisional driving licence; and if he will make a statement. [218564]

Mr. Jamieson: Driving Standards Agency receives around £22,000 per year in contributions donated by members of the Association of British Insurers.

This budget, along with the money generated from selling Pass Plus packs and re-fill packs, is used for printing leaflets which are distributed to road safety officers, driving test centres and universities and are available at major events. The Agency does not directly target provisional and newly qualified drivers.

The budget for printing takes into account the cost of having the packs and certificates printed as well as any promotional leaflets. The Agency is unable to extrapolate figures solely for advertising.

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for Transport what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217098]

Charlotte Atkins: Action to support the Gaelic language is primarily the responsibility of the Scottish Executive.

The Government attach great importance to the promotion and protection of the Gaelic language in line with the UK's obligations under the European Charter for Regional and Minority Languages.

The Gaelic Language (Scotland) Bill currently before the Scottish Parliament does not extend statutory obligations on UK public bodies in Scotland in relation to the preparation or implementation of Gaelic language plans. However, UK departments and public bodies which operate in Scotland may—like comparable Scottish public bodies—have a role to play in facilitating the use of the language.

We have been working closely with colleagues in the Scotland Office and the Scottish Executive on the role we can play, voluntarily, in securing the status of Gaelic.

Hauliers (Working Time Restrictions)

Mr. Todd: To ask the Secretary of State for Transport what steps he is taking to ensure that hauliers employing non-EU nationals operating in the UK comply with working time restrictions. [219283]

Mr. Jamieson: Any mobile workers employed by UK hauliers will be subject to the new working time rules, regardless of their nationality. The Vehicle and Operator Services Agency will be responsible for enforcement of the new rules.

Newly-qualified Drivers

Mr. Pike: To ask the Secretary of State for Transport what research his Department has conducted into the driving performance of newly-qualified drivers; and if he will make a statement. [218773]

Mr. Jamieson: Details of the Department's programme of research on driver behaviour can be found on-line in the "Compendium of Road Safety Research Projects 2002/2003" at:

www.dft.gov.uk/stellent/groups/dft_rdsafety/documents/page/dft_rdsafety_022211 .hcsp.

A number of projects have established that newly qualified drivers have a higher risk of collisions than older, more experienced drivers. Relevant research published recently includes:

"Monitoring and evaluation of safety measures for new drivers" (TRL525) published in 2002 (www.trl.co.uk/static/dtlr/pdfs/TRL525.pdf),

"Novice driver accidents and the driving test" (TRL527) published in 2002 (www.trl.co.uk/static/dtlr/pdfs/TRL527.pdf); and

"In-depth accident causation study of young drivers" (TRL542) published in 2002 (www.trl.co.uk/static/dtlr/pdfs/TRL542.pdf).

Copies of these documents are available in the Libraries of the House.

The Department also has under way a "Cohort Study of Young and Novice Drivers" looking at the methods used by learners to organise their training and the results of that training in terms of test outcome, accidents and attitudes, aimed at further improving standards of new drivers'. The study updates and extends an earlier Cohort Study, carried out in the late 1980s, and the results will begin to be published from autumn 2005.

Postage

Mr. George Osborne: To ask the Secretary of State for Transport how much has been spent on postage by the Department and its predecessors in each year since 1997. [215028]

Charlotte Atkins: The Department for Transport was formed in May 2002.

The recorded cost of postage in the central Department comprising DfT HQ in London and Hastings, the Air Accidents and Marine Accident Investigation Branches and Mobility Advice and Vehicle Information Service was £926,772 in 2003–04

and in 2004–05 (until 31 January 2005) £576,246. Comprehensive postal costs for 2002–03 are not available as the costs allocated against DfT were affected by the machinery of government changes during that year and do not provide an accurate picture of departmental postal activity.

For the six Departmental Agencies the total costs were £15,992,915 in 2002–03 and £18,819,755 in 2003–04. The majority of these costs (84 per cent. in 2002–03 and 83 per cent. in 2003–04) were incurred by the Driver and Vehicle Licensing Agency in the course of their business.

The costs set out include general postage items such as standard postal charges, franking units, business reply post, and courier services etc. However, there may be other postal costs relating to mailing arrangements set up by individual units for a specific purpose such as distributing reports or other information which are not covered in the figures given but to identify these separately would involve disproportionate cost.

In terms of using postal services the Department's approach towards using postal services is to employ the most economical and effective arrangements that are conducive to meeting both business and customer needs.

Public Consultations

Mr. Yeo: To ask the Secretary of State for Transport if he will list the public consultations undertaken by his Department and its predecessors since 1997. [218635]

Mr. Darling: The Department consults widely with stakeholders and customers to assist in policy development. Since it was established in May 2002 the Department has made written consultations available on its website at:

http://www.dft.gov.uk/stellent/groups/dft_about/documents/page/dft_consultation_page. hcsp

Current and closed consultations can be accessed from this site.

Consultations are also undertaken by the Department's Executive Agencies and can be found on their own websites:

Driving Standards Agency (DSA)

http://www. dsa.gov.uk/Category.asp?cat = 328

Highways Agency(HA):

http://www.highways.gov.uk/roads/consult.htm

In addition to these consultations the Highways Agency consults on Road schemes. Details of these can be found on the Road Projects section of their site:

http://www.highways.gov.uk/roads/

Maritime and Coastguard Agency (MCA)

http://www.mcga.gov.uk/c4mca/mcga-guidance-regulation/mcga-consultations.htm

Vehicle and Operator Services Agency (VOSA)

http://www. vosa.gov.uk/vosa/consultations/consultations.htm

Vehicle Certification Agency (VGA)

All consultations relate to Departmental initiatives and as such are included on the Department site.

Driver and Vehicle Licensing Agency (DVLA)

http://www. dvla.gov.uk/public/corporat.htm

The DVLA website is being restructured so not all consultations are currently available. A list of all consultations since May 2002 is included in the following list:

Consultations conducted by DVLA since May 2002

Exchange of Republic of Korea driving licences

Future of driver licensing arrangements for drivers of invalid carriages (NHS trikes)

Reducing motorcycle evasion of vehicle excise duty (VED)

Consultation on a harmonised vehicle registration document

DVLA consultation on fee proposals—driving licences and vehicle registration

DVLA consultation on fee proposals—driving licences and vehicle registration (follow up consultation)

The establishment of a trading fund

Consultation on Vehicle Number Plate Security

International driving permit fees and driving licence charges

Consultation on regulating the supply of number plates in Northern Ireland

The future of the counterpart to the photocard driving licence

Consultation on fees for the issue of digital tachograph cards

Review of the registration of number plate suppliers—10 December 2004 Purpose and scope

DVLA/Driver Vehicle Licensing Northern Ireland (DVLNI) consultation document on the convenience charge for credit card payments of vehicle excise duty (VED)

DVLA consultation on fee proposals

DVLA consultation on access to goods vehicle test record database for purposes of vehicle relicensing

A review of the vehicle inspection procedures of the Driver and Vehicle Licensing Agency and Driver and Vehicle Licensing Northern Ireland

Road Haulage Industry

Sir Nicholas Winterton: To ask the Secretary of State for Transport what assessment he has made of prospects for the road haulage industry. [218921]

Mr. Jamieson: The Government have undertaken no formal assessment of prospects for the road haulage industry. But continued demand for drivers and waiting lists for new trucks suggests that the industry is buoyant and with the continued strong performance of the UK economy the prospects for the road haulage industry should be very good.

Sir Nicholas Winterton: To ask the Secretary of State for Transport when he last met representatives of the Road Haulage Association. [218922]

Mr. Jamieson: I last met representatives of the Road Haulage Association at the road haulage forum meeting on 9 December 2004.

Sir Nicholas Winterton: To ask the Secretary of State for Transport what steps his Department has taken *(a)* to reduce regulation in the road haulage industry and *(b)* to reduce on-costs on road haulage client businesses; and if he will make a statement. [218923]

Mr. Jamieson: Much of my Department's activity is non-regulatory. We have a significant programme of research into best practice, and we disseminate this knowledge to the industry. The last impact assessment concluded that companies involved achieved annual savings of £65 million of which £42 million was attributed to the best practice programme.

In the last two years we have funded a major programme to train truck drivers to drive in a more fuel-efficient way. Savings of up to 9 per cent. are possible on fuel bills, typically worth £2,100 per year per driver. We have funded a similar programme to advise on fuel-efficient operating practices, for example advice on aerodynamic equipment and tyres that optimise fuel-consumption. Again substantial fuel and cost savings have been shown to be possible.

We will be consulting later in the year on proposals to streamline the operator licensing system, building on the successful computerisation for the Traffic Area Network, which is already saving time and money for both operators and Government.

Our Road Safety Bill contains proposals for a system of graduated fixed penalties for offences relating to the operation of commercial vehicles, and a deposit scheme to ensure hauliers from abroad who commit offences to not escape unpunished, as happens too often now. This will provide a more effective deterrent to those who compete unfairly by operating outside the law, to the benefit of legal operators.

South Hampshire Rapid Transit Project

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the Answer of 24 January 2005, *Official Report*, column 36W, on South Hampshire Rapid Transit Project, what his timetable is for dealing with the application when the necessary documentation is received. [219700]

Mr. McNulty: The Department is currently working closely with the promoters of South Hampshire Rapid Transit on the appraisal, procurement and financing aspects of the application. Once the Department has received all of the necessary information, a decision will be made as soon as possible.

Strategic Rail Authority

John McDonnell: To ask the Secretary of State for Transport if he will publish the Function Mapping Report and Directorate Capability statements commissioned by his Department on Strategic Rail Authority responsibilities. [211085]

Mr. McNulty: The Department commissioned a report from KPMG on SRA and DfT Rail functions and business activities. The report was concluded in July 2004, and since then the SRA has re-organised. I will arrange for a copy to be placed in the Library of the House.

Street Works

Mr. Chope: To ask the Secretary of State for Transport pursuant to the Answer of 21 February 2005, *Official Report*, column 214W, on street works, if he will place in the Library copies of the documents to which reference is made. [212386]

Charlotte Atkins: Copies of the report "Estimation of the Cost of Delay from Utilities' Street Works", carried out for the Department for Transport by Halcrow, were placed in the Libraries of the House on 14 October 2004.

Copies of a report carried out for the National Joint Utilities Group on the same subject can be found at: http://www.transport.uwe.ac.uk/research/projects/njug-congestion.htm.

Working Time Directive

Miss McIntosh: To ask the Secretary of State for Transport when he will publish the regulations implementing the Working Time Directive for Transport. [218618]

Mr. Jamieson: I expect to be able to table the implementing regulations before Parliament very shortly.

Sir Nicholas Winterton: To ask the Secretary of State for Transport how many representations he has received about the implementation of the road transport working time directive; and if he will make a statement. [218917]

Mr. Jamieson: Following our consultation on the draft implementing regulations and guidance we received over 50 responses. I will shortly be announcing the Government's conclusions following the consultation, together with a summary of the responses received.

Sir Nicholas Winterton: To ask the Secretary of State for Transport for what reasons the road transport working time directive is being incorporated in domestic law. [218918]

Mr. Jamieson: Unlike EU regulations, which are directly applicable, EU directives are addressed to member states, and it is for member states to transpose the legislation into national law.

Sir Nicholas Winterton: To ask the Secretary of State for Transport what assessment he has made of the effect of the road transport working time directive on road safety. [218919]

Mr. Jamieson: Our partial regulatory impact assessment, published alongside our consultation, estimated the road safety benefits of the directive, in terms of accident costs avoided, at between £15–30 million per year.

Sir Nicholas Winterton: To ask the Secretary of State for Transport what assessment he has made of the impact of the road transport working time directive on the profitability of *(a)* road haulage firms and *(b)* road haulage client businesses. [218920]

Mr. Jamieson: Our partial regulatory impact assessment, published alongside our consultation, estimated the costs to road haulage firms, in terms of need for additional staff costs of between £250-£500 million per year. No judgments were made about how much of this cost would be passed on to client business. Nor has any quantification been made of the possible commercial benefits of the directive, for example in reduced costs from lower driver turnover if the directive makes the job more attractive.

DEFENCE

BAE Systems/Finmeccanica

Mr. Keith Simpson: To ask the Secretary of State for Defence what assessment he has made of whether the proposed restructuring of BAE Systems and Finmeccanica may lead to the loss of key technologies and classified information from the UK. [218935]

Mr. Ingram *[holding answer 1 March 2005]*: BAE Systems and Finmeccanica's proposed restructuring of their communications, avionics and system integration businesses (Eurosystems) is currently being considered by the Regulator (Office of Fair Trading (OFT)). The Ministry of Defence's submission on the proposed restructuring has been passed to the OFT. The submission seeks to ensure that our national security interests are protected as a result of the restructuring.

Departmental Finances

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will place in the Library copies of Royal Navy, Army and Royal Air Force Institute accounts for financial years 1997–98 to 2003–04. [217994]

Mr. Ingram: Arrangements will be made for a copy of these, and future annual Navy, Army and Air Force Institutes (NAAFI) Accounts, to be placed in the Library of the House.

Dyslexia

Mr. McNamara: To ask the Secretary of State for Defence how many and what percentage of personnel in each of the armed services have been diagnosed with dyslexia; what studies have been undertaken to investigate the *(a)* welfare and *(b)* operational impact of dyslexics in the armed forces; and what special measures are available to (i) identify and (ii) assist soldiers who may be dyslexic. [217798]

Mr. Caplin: The armed forces do not screen recruits for dyslexia, nor are personnel obliged to disclose that they are dyslexic. Nonetheless, dyslexia may emerge during initial training or in service; 394 RN and 144 RAF personnel have been identified. The Army intends in the future to capture the number of dyslexic learners receiving support.

While no studies have been undertaken to investigate the welfare and operational impact of dyslexics in the armed forces, every service unit has access to guidance on dyslexia. All three services have specialists which administer the dyslexia adult screening test (DAST) to assess personnel once an instructor or trainee, line manager or member of the services suspect dyslexia. The DAST result will determine whether further specialist assessment by an educational psychologist is required and also provide a profile of strengths and weaknesses which will support the remedial training programme.

The armed forces assist personnel with dyslexia during their training and throughout their service career; for example, dyslexic personnel can attend funded training at local colleges. As a result of assessment, extra time may be given in some service examinations with the approval of the appropriate examination authority. Notwithstanding this allowance, all service personnel must achieve the training performance standard. Following learning support, if an individual is unable to meet the operational performance standard they will, where possible, be retrained or moved to another trade.

Falklands Anniversary

Mr. Hoyle: To ask the Secretary of State for Defence pursuant to his answer of 21 February 2005, *Official Report*, column 117W, on the Falklands anniversary, if his Department will have talks with the Royal British Legion concerning the 25th anniversary of the Falklands War. [219036]

Mr. Caplin: I should be happy to meet representatives of The Royal British Legion, but to date they have expressed no wish for a meeting.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence what plans there are for the role of the *(a)* Army, *(b)* Royal Air Force and *(c)* Royal Navy in Gibraltar; and what spending plans there are for each service's role in Gibraltar. [218620]

Mr. Ingram: Plans for the role of the armed forces in Gibraltar are unchanged. Commander British Forces' mission is to secure and maintain key sites and air and sea ports of disembarkation, which allow reinforcement, in order to ensure Gibraltar's security and territorial integrity, and provide staging and mounting facilities for UK and coalition operations elsewhere. Cascading from this, the Royal Navy's role, in conjunction with the Royal Gibraltar police, is to maintain the security and integrity of British Territorial Waters with a visible maritime presence.

The Royal Gibraltar Regiment contributes to the protection of key facilities in Gibraltar and provides immediate military support to the governor. The RAF's role is to sustain the airfield and associated facilities as an operational airhead, and to facilitate the safe use of the airfield by civilian operators. Linked together, these components provide a collective capability that, together with other local agencies, is charged with providing for the defence and security of Gibraltar. This also provides the capacity for British armed forces to use Gibraltar in support of other operations outside of the territory.

As a result of a recent review into its structure and tasks, the Royal Gibraltar Regiment will be reconfigured, resulting in a small increase in regular soldiers.

Future spending plans have not yet been set. We have yet to complete our planning round and the budget will be set in due course.

Mr. Hoyle: To ask the Secretary of State for Defence how much land in Gibraltar is held by his Department; and what plans he has for such landholding. [218621]

Mr. Ingram: As at 25 February 2005, British Forces Gibraltar hold 153.364 Hectares. Once the transfer of land to the Government of Gibraltar under the Lands

Agreement is complete, British Forces Gibraltar will hold 119.43 hectares. In addition, the Government of Gibraltar has asked for a further 0.363 hectares for their new power station and the land at Windmill Hill parade ground. This land will be transferred to the Government of Gibraltar in due course, in accordance with the Land Transfer Agreement.

The 119.43 hectares of land that the Commander British Forces, Gibraltar will retain following the transfer of land under the lands agreement, will be used to fulfil Commander British Forces Gibraltar's mission. His mission is to secure and maintain key sites and air and sea ports of disembarkation, which allow reinforcement, in order to ensure Gibraltar's security and territorial integrity, and provide staging and mounting facilities for UK and coalition operations elsewhere.

Iraq

Adam Price: To ask the Secretary of State for Defence what the *(a)* date and *(b)* nature was of each of the occasions, which are not currently before a court or a court martial but for which investigations have been launched into incidents where the actions of UK service personnel may have led directly to the death or injury of Iraqi civilians; what the status is of each investigation; what the name of the victim was in incidents where the victim is deceased; how many officers were reported or charged in connection with the incident; whether compensation or ex gratia payments were made in connection with the incident; and in relation to which of these incidents there is evidence of the deliberate abuse of Iraqis in British military custody. [211460]

Mr. Ingram: As at 21 February 2005, 164 investigations had been launched into the death, injury or alleged abuse of Iraqi civilians. The majority of these incidents occurred when UK forces returned fire after being attacked. The information requested is shown in a table which has been placed in the Library and excludes those cases which are currently or have recently been before a Court-Martial. Ex gratia payments were made in three cases, those of Waleed Sayay Muzban, Baha Musa and Hanan Matrud.

Maritime Coherence Study

Mr. Hancock: To ask the Secretary of State for Defence what the purpose is of the Maritime Coherence Study; who has been commissioned to write it; when he expects it to be published; and if he will make a statement. [218446]

Mr. Ingram: I refer the hon. Member to the answer I gave the hon. Member for Mid-Sussex (Mr. Soames) on 23 February 2005, *Official Report*, column 655W.

Military Bands

Mr. Hancock: To ask the Secretary of State for Defence how many military bands in *(a)* the Royal Navy, *(b)* the Army, *(c)* the Royal Air Force and *(d)* the Royal Marines are fully funded by his Department. [204944]

Mr. Caplin: The information requested is shown as follows:

Service	*Number of bands*
Royal Navy	0
Army	29
RAF	3
Royal Marines	5

I also refer the hon. Member to the statement my right hon. Friend the Secretary of State for Defence made to the House on 16 December 2004, *Official Report*, column 1799, about the future structure of the Army.

Military Museums

Mr. Soames: To ask the Secretary of State for Defence to which military museums the Department makes grants; and how much the grant for each was in the last year for which figures are available. [218141]

Mr. Caplin: The Department provides grant in aid funding for the six principal service museums, detailed for financial year 2003-04 in the following table. In addition, there are 66 regimental and corps museums that receive public funding, through the provision of staff costs, property maintenance, etc.

Funding from Department financial year 2003-04

Museum	*£ million*
Royal Naval Museum	0.923
Royal Marines Museum	0.689
Royal Navy Submarine Museum	0.510
Fleet Air Arm Museum	0.556
National Army Museum	4.442
RAF Museum	6.811

Near Air Misses (Worcestershire)

Sir Michael Spicer: To ask the Secretary of State for Defence what assessment he has made of the number of near air misses between RAF aircraft and the Air Ambulance helicopters at Strensham, Worcestershire. [219546]

Mr. Caplin: There have been two airprox reports made to the Civil Aviation Authority's UK Airprox Board concerning incidents near Strensham Heliport on 14 December 2004 and 9 February 2005. It would be inappropriate to comment while the investigations into these incidents are still in progress.

Orion Laser Programme

Lynne Jones: To ask the Secretary of State for Defence what measures he is taking to ensure that the proposed Orion Laser programme at the Atomic Weapons Establishment in Aldermaston does not contravene Article VI of the Non-Proliferation Treaty. [218217]

Mr. Ingram: A key objective of the proposed Orion Laser project is to have the ability to conduct our nuclear warhead assurance programme in compliance with the Comprehensive Test Ban Treaty and the project will achieve this. The use of the Orion Laser would not conflict with Article VI of the Nuclear Non-Proliferation Treaty.

Procurement Costs

Mr. Soames: To ask the Secretary of State for Defence what the current forecast cost is of the *(a)* Nimrod MRA4 and *(b)* Type 45 destroyer projects. [217962]

Mr. Ingram: The current forecast cost for the procurement of 12 Nimrod MRA4 aircraft as provided in Major Project Report 04 is £3.6 billion. The current forecast cost of the Type 45 Destroyer project is £5.8 billion based on the approved six ship programme.

Reservists

Mr. Hoyle: To ask the Secretary of State for Defence how many reservists were deployed overseas as at 1 February, broken down by country. [219045]

Mr. Caplin: As at 1 February 2005 the number of Reservists deployed overseas by country was:

	Number
Afghanistan	31
Bahrain	1
Bosnia	69
Cyprus	2
Dubai	3
Iraq	811
Kosovo	11
Kuwait	<1
Netherlands	<1
Oman	<3
Qatar	<6

Mr. Hoyle: To ask the Secretary of State for Defence how many reservists have been sent overseas without an annual classification on personal weapons in the last 12 months. [219046]

Mr. Caplin: No reservists have been deployed overseas without a Weapons Handling Test.

Shoeburyness Ranges

Mr. Whittingdale: To ask the Secretary of State for Defence what assessment he has made of *(a)* contamination which may have occurred as a result of the work carried out for the original nuclear weapons programme at the Shoeburyness ranges and *(b)* residual radioactive contamination at the site. [218572]

Mr. Caplin: The Ministry of Defence has just started a land quality assessment (LQA) of the entire site at Shoeburyness, which will include areas formerly used for research in support of the development of nuclear weapons. The LQA process is a step-by-step investigation into historic contamination and, as they become known, the results will be made available to the public. The initial report should be available by May, although it is likely that, at that stage, the report will simply highlight areas where more intrusive investigations will be required.

Tornado

Mr. Gerald Howarth: To ask the Secretary of State for Defence what assessment he has made of the implications for defence of the Tornado aircraft from missile attack of not fitting the Tornado advanced self-protection system. [219041]

Mr. Ingram: Full operational analysis is conducted when evaluating the military requirement and considering future equipment capability. The Tornado GR4 relies for its protection on a combination of defensive aids and use of appropriate tactics, concepts of operation and employment appropriate to the threat.

Trafalgar Submarines

Norman Baker: To ask the Secretary of State for Defence (1) how many of the Trafalgar class nuclear powered submarines are in active service and at sea; [216811]

(2) how many of the Trafalgar class submarines are in dock for *(a)* scheduled repairs and *(b)* refuelling; [216812]

(3) how many of the Trafalgar class submarines are not in service *(a)* undergoing and *(b)* awaiting unscheduled (i) inspection and (ii) repairs; [216813]

(4) what the nature is of the defect in the nuclear propulsion system of those Trafalgar class submarines undergoing *(a)* inspection and *(b)* repair; and when the boats of the Trafalgar class flotilla will be back to normal operating strength. [216814]

Mr. Ingram: There are seven Trafalgar Class submarines in active service of which four are currently available for FLEET programming. Of the remaining boats, two are in dock: one is undergoing a scheduled Long Overhaul Period, which includes a refuel (LOP(R)) and the other is undergoing a scheduled Revalidation and Assisted Maintenance Period (RAMP). A further boat is awaiting the start of Her LOP(R).

Two boats are currently subject to unscheduled operating restrictions, due to an emergent issue that was identified during routine reviews of their safety cases. Further safety justification work is under way and, while there has been no failure of components, until a robust safety case has been re-established the safest course of action is to limit their operation.

For the purposes of FLEET programming, no distinction is made between the Swiftsure and Trafalgar Class submarines. Consequently, there is not actually a full operating strength for the Trafalgar Class. A generic SSN Readiness Profile is used, but to release details of this would prejudice the capability, effectiveness and security of the SSN force, so this data is being withheld under exemptions of the Freedom of Information Act.

EDUCATION AND SKILLS

Basic Skills

Mr. Byrne: To ask the Secretary of State for Education and Skills if she will deposit in the Library a copy of her Department's segmentation of the market for basic skills. [219436]

Mr. Ivan Lewis: In 2003 the Department published the "Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills" (DfES, October 2003). The survey provides the latest estimates [mapped to the National Standards] of literacy, numeracy and ICT levels for adults aged 16 to 65 in England.

While the Skills for Life programme offers high quality, free learning opportunities to all adults who want to improve their skills to Level 2, the survey findings have helped the Department to identify and target some key groups with low skills, including: unemployed people and benefit claimants; low-skilled people in employment; young adults who leave school and begin work with low skills; parents with low skills; and people who live in disadvantaged communities.

A copy of the survey report has been placed in the House of Commons Library.

Departmental Policies

Geraint Davies: To ask the Secretary of State for Education and Skills if she will set out, with statistical evidence relating as closely as possible to the Croydon, Central constituency, the effects of changes to departmental policy since 1997 on the Croydon, Central constituency. [219297]

Mr. Stephen Twigg: The Croydon, Central constituency lies within Croydon local education authority. The most recent Key Stage 2 and GCSE and equivalents Achievement for pupils attending schools in Croydon, Central are given in the following tables:

Key Stage 2 Achievements of 11-year-old pupils attending schools in the Croydon, Central constituency

Percentage of pupils gaining level 4 and above

	1997	*2004*	*Percentage point improvement 1997 to 2004*
Croydon, Central			
English[1]	60	79	19
Maths[1]	58	70	12
National average			
English[2]	63	78	15
Maths[2]	61	74	13

[1] Pupils attending schools in Croydon, Central constituency
[2] The average for all schools in England (including independent schools)

GCSE and equivalents[1] Achievement of 15-year-old pupils[2] attending schools in the Rochdale constituency

Percentage of 15-year-olds gaining	*1997*	*2004*	*Percentage point improvement*
Croydon, Central			
5+ A*–C	38.8	46.5	7.7
5+ A*–G	81.4	90.1	8.7

GCSE and equivalents[1] Achievement of 15-year-old pupils[2] attending schools in the Rochdale constituency

Percentage of 15-year-olds gaining	*1997*	*2004*	*Percentage point improvement*
National average			
5+ A*–C	45.1	53.7	8.6
5+ A*–G	87.0	88.8	1.8

Notes:
1. For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.
2. As standard the results reported relate to pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas are continuing to deliver better results.

Further information by constituency, is provided within the Department's 'In Your Area' website available at http://www.dfes.gov.uk/inyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offers comparisons between 1997 and the latest available year and covers five geographies. These are parliamentary constituency, ward, local authority district, local education authority, Government office region. England figures are also provided.

The information available within the website is grouped in a number of broad categories including Literacy and Numeracy at age 11, Literacy and Numeracy at age 14, GCSE/GNVQ results, Pupils with Special Educational Needs, School Initiatives, School Workforce, School Funding and Resources, Children's Social Services, Early Years, Class Sizes, Post 16, Higher Education and Adult Education

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we can disseminate more information about the effects of our policies at a local level. The In Your Area website will be further developed over the coming months to include additional information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post 16.

Drug Awareness (Essex)

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many teachers who specialise in drug awareness and prevention are currently employed in Romford and Havering constituency schools. [219021]

Mr. Stephen Twigg: The information is not collected centrally.

Teaching Staff

Martin Linton: To ask the Secretary of State for Education and Skills how many *(a)* teachers and

(b) learning assistants there were in Battersea secondary schools on the latest date for which figures are available. [218522]

Mr. Stephen Twigg: The following table provides the full-time equivalent number of teachers and learning assistants in maintained secondary schools in Battersea in January 2004, the latest information available.

Maintained secondary schools

Battersea	*Number*
Qualified teachers	80
Other teaching staff	10
Total teaching staff	80
Teaching assistants	[1] —
Other support staff	30
Total support staff	30

[1] Less than 5.

Note:
Figures are rounded to the nearest 10.

Source:
Annual school census.

Iain Wright: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* classroom assistants have been employed in the Hartlepool constituency in each year since 1997. [218513]

Mr. Stephen Twigg: The following table provides the full-time equivalent number of regular teachers and classroom assistants in maintained schools in Hartlepool constituency in each year from January 1997 to 2004, the latest information available.

	Regular staff	*Teaching Assistants*	*Other support staff*	*Total support staff*
1997	840	100	110	210
1998	810	110	120	230
1999	800	120	120	240
2000	820	140	140	280
2001	840	210	160	370
2002	850	140	340	470
2003	840	260	270	530
2004	850	250	300	550

Note:
Figures are rounded to the nearest 10.

Source:
DfES annual survey of teacher numbers and vacancies, (teacher numbers) and Annual School Census, (teaching assistants and support staff).

Teaching assistants and other support staff include maintained and non-maintained special schools.

Education Funding

Mr. Mackay: To ask the Secretary of State for Education and Skills what the reasons are for the funding gap between school sixth forms and further education colleges in the Bracknell constituency; and if she will make a statement. [218659]

Dr. Howells: As a direct consequence of the 1992 Further and Higher Education Act and the removal of the incorporated FE sector funding systems from local authority control, there was a divergence from local authority systems which has resulted in funding level differences. These differences were made more apparent when all post 16 funding became the responsibility of the Learning and Skills Council in 2001.

The Government recognises that there is a funding gap between school sixth forms and further education colleges in the resources provided for students aged 16 to 18 following similar programmes. Our policy has been to 'bring up' the level of funding for colleges, as and when we are able to secure the resources to do so.

Essex Students

Mr. Rosindell: To ask the Secretary of State for Education and Skills what information she has collated on the percentage of Essex county's 17 to 18-year-olds who go on to attend university. [217143]

Dr. Howells: The most recent information shows the proportion of 18-year-olds from local education authorities within Essex county who obtained places on full-time higher education courses via the Universities and Colleges Admissions Service (UCAS), and this is shown in the table.

Proportion of students aged 18 from Essex county accepted through UCAS to full-time undergraduate courses in the UK, 2003/04

Local education authority:	*Percentage*
Essex	23.1
Thurrock	10.9
Southend-on-Sea	19.6

In addition, HEFCE have recently published 'Young participation in Higher Education', which shows the proportion of young people who enter higher education at age 18 or 19 by local areas, although this only covers the years up to 2000.

Participation rates for local authorities based on this work are given on the supporting POLAR website www.hefce.ac.uk/polar. These indicate that, for the cohorts reaching 18 between 1997 and 1999, the proportion of young people from the LEAs in Essex county who entered higher education at age 18 or 19 was 27 per cent. in Essex, 24 per cent. in Southend-on-Sea and 14 per cent. in Thurrock. The English average for these cohorts is 29 per cent.

Extended Schools

Mr. Rosindell: To ask the Secretary of State for Education and Skills if she will make a statement on *(a)* extended schools and *(b)* the Government's proposal to have at least one such school in each local area by 2006. [219373]

Mr. Stephen Twigg: This Government are committed to the creation of at least one 'full service' extended school in each local area by 2006. Over time, however, we want all schools to become extended schools. Our Five-year Strategy for Children and Learners outlines the core offer of extended services that we expect all schools to develop, in partnership with other children's services and the voluntary and community sectors. Our 10 year strategy for child care states that by 2010 all secondary schools will be open from 5am to 6pm all year round, offering a range of activities such as music, sport, and holiday activities. Many schools already offer some

activities, recognising the benefits that extended services provide for children, their families, local communities and schools themselves. We are supporting the development of extended schools with both advice and funding including, from April this year, £107 million through all local education authorities in England.

Fair Access

Mr. Clappison: To ask the Secretary of State for Education and Skills if she will list *(a)* the universities and *(b)* secondary schools which have been visited by (i) the Director General of the Office for Fair Access and (ii) other members of her staff. [218987]

Dr. Howells: The Director of Fair Access and his staff have met or spoken with numerous institutions and sector bodies since OFFA was established in October 2004. In particular, a series of OFFA seminars were attended by most higher education institutions, and meetings have taken place with representative bodies, including Universities UK, the Standing Conference of Principals, the Association of Colleges, the Independent Schools Council, and the Secondary Heads Association.

Foreign Students

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills how many students from EU accession countries have obtained places at London universities in each year since 1997. [218968]

Dr. Howells: The available information on undergraduate entrants is taken from the Higher Education Statistics Agency (HESA) student record and figures are given in the table.

EU accession country[1] domiciled undergraduate entrants at London HE institutions[2] 1997/98 to 2003/04

Academic year	*Entrants to London HE institutions*
1997/98	360
1998/99	345
1999/2000	430
2000/01	420
2001/02	475
2002/03	430
2003/04	535

[1] Includes Cyprus, the Czech Republic, Hungary, Malta, Poland, Estonia, Latvia, Lithuania, Slovenia and Slovakia.
[2] Figures exclude the OU.
Note:
Snapshot as at 1 December and figures are rounded to the nearest 5.

Higher Education Statistics Agency (HESA)

Freedom of Information

Mr. Clappison: To ask the Secretary of State for Education and Skills pursuant to the answer of 18 January 2005, *Official Report*, columns 855-56W, on Freedom of Information, what progress has been made by the Office for Fair Access in preparing a publication scheme under the provisions of the Freedom of Information Act 2000; and how many requests for information under the Freedom of Information Act have been *(a)* received and *(b)* responded to by the Office for Fair Access. [218990]

Dr. Howells: The Office for Fair Access has a draft publication scheme which it expects to submit in March 2005 to the Information Commissioner. OFFA has to date received two requests under the Freedom of Information Act, and has responded to one of them.

Girls' Schools (Sixth-form Boys)

Ann Winterton: To ask the Secretary of State for Education and Skills how many representations her Department received during January 2004 requesting information and advice on making applications to the admissions forum for the admission of boys to the sixth-form of a girls' school; if she will list them; and if she will make a statement. [218930]

Mr. Ivan Lewis: The Department did not receive any representations on this matter during January 2004. Decisions to admit boys to the sixth-form of a girls' school are made locally and do not involve the Secretary of State.

If a single-sex maintained school wishes to admit pupils of the opposite sex to the school's sixth-form, it must publish statutory proposals if the number of these pupils would exceed 25 per cent. of the year group. A final decision on the statutory proposals would be for the local School Organisation Committee (SOC) or, if the SOC could not reach a unanimous decision, the schools adjudicator. If statutory proposals were not required it would then be for the admission authority—either the school's governing body or the local authority—to decide, taking into account all relevant legislation and having regard to the school admissions code of practice and any advice given by the admissions forum.

Maths and Science

Charles Hendry: To ask the Secretary of State for Education and Skills how many higher education institutions offered *(a)* mathematics *(b)* physics, *(c)* biology and *(d)* chemistry-related degrees in each of the last 10 years. [218882]

Dr. Howells *[holding answer 28 February 2005]:* The Department does not specifically collect information on the subjects offered by each HE institution. The available information is taken from the Higher Education Statistics Agency (HESA) student record and summarises the number of HE institutions with one or more enrolments at degree level in the given subject. Figures are given in the table.

Number of UK HEIs[1] with one or more first degree enrolment in the given subjects, 1994/95 to 2003/04

		Physical sciences[2]		
			Of which:	
Academic year	*Mathematical sciences*	*Total*	*Physics*	*Chemistry*
1994/95	90	113	68	83
1995/96	92	115	69	85
1996/97	95	116	68	81
1997/98	97	117	67	78
1998/99	99	115	66	78
1999/2000	95	115	61	77
2000/01	96	115	57	78

Number of UK HEIs[1] with one or more first degree enrolment in the given subjects, 1994/95 to 2003/04

		Physical sciences[2]		
			Of which:	
Academic year	Mathematical sciences	Total	Physics	Chemistry
2001/02	93	115	55	75
2002/03[3]	107	119	64	83
2003/04[3]	108	120	68	82

[1] Figures exclude the Open University.

[2] Physical sciences includes chemistry, materials science, physics, astronomy, forensic and archaeological studies, geology, ocean sciences and physical geography.

[3] Figures for the years up to and including 2001/02 are the number of institutions with one or more first degree enrolment in the subject, based upon a headcount of the students major subject of study. For 2002/03 onwards, the figures are the number of institutions based on a count of students who have been allocated between subjects according to the split between the component parts of their degree. Because of this coverage, the figures for 2002/03 and 2003/04 are not comparable to earlier years.

Higher Education Statistics Agency (HESA)

Charles Hendry: To ask the Secretary of State for Education and Skills what the total number of students studying *(a)* mathematics *(b)* physics, *(c)* biology and *(d)* chemistry-related degrees was in each of the last 10 years. [218883]

Dr. Howells *[holding answer 28 February 2005]*: The available information is given in the table. A new method of coding subject was introduced on the Higher Education Statistics Agency (HESA) student record in 2002/03, hence figures for 2002/03 onwards are not directly comparable to earlier years.

First degree enrolments to UK HEIs[1], 1994/95 to 2003/04

		Physical sciences[2]		
			Of which:	
Academic year	Mathematical sciences	Total	Physics	Chemistry
1994/95	15,200	51,730	9,470	15,115
1995/96	14,875	51,930	9,365	14,730
1996/97	15,240	51,915	9,915	14,520
1997/98	15,990	50,725	9,645	14,325
1998/99	15,675	50,220	9,710	14,315
1999/2000	15,635	49,115	9,435	13,615
2000/01	16,090	47,615	9,210	12,755
2001/02	16,190	45,435	8,855	12,160
2002/03[3]	19,690	48,975	9,185	12,200
2003/04[3]	19,810	48,990	9,585	11,815

[1] Figures exclude the Open University to maintain a consistent time series.

[2] Physical sciences includes chemistry, materials science, physics, astronomy, forensic and archaeological studies, geology, ocean sciences and physical geography.

[3] Figures are not comparable to earlier years due to a change in the coding methodology for subject of study in 2002/03.

Note:

Figures are on snapshot basis as at 1 December and are rounded to the nearest 5.

Higher Education Statistics Agency (HESA)

Higher Education

Mr. Cousins: To ask the Secretary of State for Education and Skills what the rate of participation by 18-year-olds in higher education in each region in England was in *(a)* 2003–04 and *(b)* 2004–05. [216487]

Dr. Howells: The latest information shows the proportion of 18-year-olds from each region who obtained places on full-time higher education courses via the Universities and Colleges Admissions Service (UCAS), and this is shown in the following table. Figures for 2004/05 are not yet available.

Percentage of 18-year-olds obtaining places in HE

	2002/03	2003/04
North East	19.8	20.9
North West	21.8	20.9
Merseyside	21.4	21.0
Yorkshire and the Humber	19.7	19.3
East Midlands	21.0	21.0
West Midlands	21.7	21.2
East of England	22.6	22.0
London	23.9	23.6
South East	23.3	22.7
South West	21.1	20.2

In addition, HEFCE have recently published 'Young participation in Higher Education' published by HEFCE, which shows, for each region, the proportion of young people who enter higher education at age 18 or 19. The figures for the two most recent years are:

Percentage of each year cohort aged 18

	1999	2000
North East	24.0	24.0
North West	27.6	28.2
Yorkshire and the Humber	25.2	25.6
East Midlands	27.5	27.9
West Midlands	27.7	28.1
East of England	28.6	30.1
London	35.0	36.4
South East	32.7	33.3
South West	29.1	30.0

Rochdale Students

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills what percentage of 18 to 22-year-olds from Rochdale were studying at university *(a)* in 1997 and *(b)* at the latest date for which figures are available. [217367]

Dr. Howells: Participation rates for each parliamentary constituency are not calculated by the Department. The most recent information shows the proportion of 18-year-olds from Rochdale local education authority who obtained places on full-time higher education courses via the Universities and Colleges Admissions Service (UCAS), and this is shown in the table.

Proportion of students aged 18 from Rochdale local education authority accepted through UCAS to full-time undergraduate courses in the UK

Academic year	Percentage
1996–97	16.3
2003–04	18.0

In addition, HEFCE have recently published "Young participation in Higher Education", which shows the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency, although this only covers the years up to 2000. A discussion of the participation divisions between areas with high and low levels of participation, and trends (18-year-olds in 1994 to 18-year-olds in 2000) for constituencies is contained in the report (sections 2.12, 3.8 and 4.1).

The figures indicate that the proportion of young people from Rochdale who entered higher education at age 18 or 19 was 24 per cent. in 1997 and 25 per cent. in 2000.

School Funding

Mr. Rosindell: To ask the Secretary of State for Education and Skills how much the Government have allocated per child in *(a)* primary and *(b)* secondary schools in the Romford and Havering constituencies in 2004–05. [219374]

Mr. Stephen Twigg: The information requested is collected at local education authority level. Romford schools fall within Barking and Dagenham, Essex, Havering and Redbridge LEAs. The information requested is shown in the following table:

Total cash funding per pupil by each LEA containing a school in Romford, 2004–05

£

LEA name	Primary (3 to 10-year-olds)	Secondary (11 to 15-year-olds)
Barking and Dagenham	4,060	5,080
Essex	3,460	4,360
Havering	3,480	4,480
Redbridge	3,750	4,580

Notes:
1. Figures reflect relevant sub-blocks of education EPS settlements and include the pensions transfer to EPS and LSC.
2. Total funding also includes all revenue grants in DfES Departmental Expenditure Limits relevant to pupils aged 3–10 and 11–15 and exclude EMAs and grants not allocated at LEA level.
3. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the EPS settlement calculations.
4. Figures are in cash terms rounded to the nearest £10 as reported by the LEA.
5. 2004–05 figures are provisional as some grants have not yet been finalised/audited.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills if she will make a statement on the allocation of capital funding to schools in Crosby and Formby before they receive Building Schools for the Future funding. [219086]

Mr. Stephen Twigg: On 30 November 2004, we announced capital funding allocations for all schools and authorities in England for the next three years. This followed the settlement of the 2004 spending review, in which schools capital increased to £6.3 billion by 2007–08, a six fold real-terms increase since 1996–97. Our announcement included direct capital funding for schools, and a typical primary school of 250 pupils will receive £25,500 of devolved formula capital in 2005–06, £32,250 in 2006–07and £34,250 in 2007–08. A typical secondary school of 1,000 pupils will receive £87,250, £108,500 and £113,000 in these years to use for its own priorities.

Further, Sefton local education authority, which includes Corby and Formby, will receive a total of £12.6 million of formulaic funding over the next three years, and a further £3.5 million will be available for its voluntary aided schools. In all, over £32.5 million has been allocated from 2005–06 until 2007–08 for Sefton and its schools.

Additionally, the authority can apply to the Targeted Capital Fund for exceptional needs which it cannot fund from its formulaic allocations. Last week we announced details of how authorities can access this funding for 2006–07, and all authorities are invited to apply for this additional funding. Finally, because Sefton is not prioritised early in the Building Schools for the Future (BSF) programme, by 2011 we aim to provide it with funding to transform at least one of its secondary school with the greatest need.

My officials are currently meeting all authorities to discuss their capital strategy in the light of our recent announcements on funding allocations and BSF, and how they can best use the funding available to them from our allocations and their other resources to improve their school estate.

School Toilets

Dr. Palmer: To ask the Secretary of State for Education and Skills (1) which national body is responsible for the standard of school toilets and washrooms for pupils; [218913]

(2) what discussions her Department has had with the Health and Safety Executive about extending its powers of inspection to cover school toilets for pupils; and if she will make a statement. [218914]

Mr. Stephen Twigg: The minimum number of toilets for pupils in maintained schools is controlled by the Education (School Premises) Regulations 1999. Local education authorities are responsible for ensuring compliance with the regulations. The condition of the facilities is a matter for the school's head teacher and governors as they are responsible for cleaning and maintenance. We have had no discussions about extending the inspection powers of the Health and Safety Executive to cover school toilets for pupils.

School Violence (Essex)

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many school violence episodes occurred in Romford and Havering schools in each year since 1997. [219020]

Mr. Stephen Twigg: This information is not collected centrally.

Schools (Essex)

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many private, independent and faith schools there are in Romford and Havering constituencies. [219017]

Mr. Stephen Twigg: The information requested is shown in the tables.

All schools: Number of schools by religious character, January 2004: Romford parliamentary constituency and Havering local education authority

Romford parliamentary constituency

	Maintained nursery	*Maintained primary*[1]	*Maintained secondary*[1]	*Special*[2]	*Pupil referral units*	*Independent*

Annual Schools' Census and EduBase

Schools (Gang Culture)

Keith Vaz: To ask the Secretary of State for Education and Skills what representations she has received with regard to gang culture in schools. [220101]

Derek Twigg: One letter has been received from a member of the public.

Specialist Schools

Dr. Tonge: To ask the Secretary of State for Education and Skills what EU funding is available to the Specialist Schools Trust; and what assistance her Department is giving to the Trust in applying for such funds. [218955]

Mr. Stephen Twigg: The Specialist Schools Trust may apply for EU funding on the same basis as other organisations by way of formal application. The Department has no involvement.

State Schools (Accountability)

Mr. Rosindell: To ask the Secretary of State for Education and Skills if she will make a statement on the means by which publicly funded schools are accountable for the academic performance of their pupils. [219372]

Mr. Stephen Twigg: The accountability system revolves around externally assured tests which set the standards of academic performance; publishing the results, both through individual notification to parents and in national school achievement and attainment tables; setting targets for academic achievement at 11, 14 and 16; and school inspection.

The accountability system demonstrates whether or not schools are succeeding. Those that are, increasingly adopt leadership roles in the school system; those that require assistance because of the circumstances they face, can receive it; and where there are demonstrable failings, they can be tackled.

Student Debt

Annabelle Ewing: To ask the Secretary of State for Education and Skills what assessment she has made of the impact of non-completion of courses on the capacity of students to repay tuition fees and student loans. [217550]

Dr. Howells: The average starting earnings of students, who do not complete their courses, are estimated to be around 70 per cent. of those of completing students entering repayment status at the same time. Future earnings are then assumed to increase based on average earnings growth. Borrowers are only required to start making repayments from the April following completion or withdrawal from their course and only if their earnings reach the repayment threshold.

Annabelle Ewing: To ask the Secretary of State for Education and Skills how many student loan borrowers have been declared bankrupt in each year since student loans were introduced in *(a)* the UK, *(b)* Scotland and *(c)* England and Wales. [217561]

Dr. Howells: The table shows the numbers of all student loan bankruptcies notified to the Student Loans Company in each year since student loans were introduced. As requested, the table gives the figures for *(a)* the UK, *(b)* Scotland and *(c)* England and Wales. For completeness the figures for Northern Ireland are included as well.

Number of borrowers

	UK	*Scotland*	*England and Wales*	*Northern Ireland*
1990	0	0	0	0
1991	0	0	0	0
1992	20	2	18	0

Source:
Student Loans Company

Annabelle Ewing: To ask the Secretary of State for Education and Skills what assessment she has made of the effects on her Department's income flow for each financial year from April 2005 if the income threshold at which graduates start to repay their student loans were to be raised to *(a)* £15,000, *(b)* £19,000 and *(c)* £25,000 per annum. [217564]

Dr. Howells: The Department has estimated the impact on annual repayments via the tax system of raising the repayment threshold on income contingent loans from April 2005. This is not the same as the impact on the Department's total income flow, nor on the resource cost of issuing student loans as reflected in the Department's accounts.

The following table summarises the estimated percentage reduction in annual repayments from raising the repayment threshold above £10,000 from April 2005. The estimates are based on maintenance loans only, exclude voluntary repayments, and assume that all repayment thresholds increase in line with inflation beyond 2005.

Percentage reduction in forecast annual repayments compared to a £10,000 repayment threshold

	Repayment threshold in April 2005		
FY	*£15,000*	*£19,000*	*£25,000*
2005	46	73	90
2006	44	68	88
2007	40	65	86
2008	38	62	84
2009	35	58	84

Mr. Hopkins: To ask the Secretary of State for Education and Skills what the estimated level of debt owed to the Student Loan Company is in 2005; what the

level of such debt is expected to be in each of the next five years; and what estimate has been made of the amount of bad debt which the Student Loan Company will write off in each year between 2005 and 2010. [218648]

Dr. Howells: Estimates for total student loan debt owed to the Government for maintenance (mortgage style and income contingent) loans and fee loans in England and Wales are highly dependent on the future growth of student numbers, among other factors.

Estimates for 2005–06 to 2007–08 are as follows:

At end of financial year	*£ million*
2005–06	16,270
2006–07	19,400
2007–08	23,160

Forecasts for years beyond FY07–08 are dependent on Spending Review 06 allocations. Around 5 per cent. of income contingent loans (the type of loan issued since 1998/99) in England and Wales are forecast not to be repaid. The majority of write-offs are for policy reasons, when a borrower reaches 65 years old, becomes disabled or dies.

Mr. Hopkins: To ask the Secretary of State for Education and Skills if she will estimate the cost of deferred loan arrangements for EU students after 2006; and what arrangements are planned by *(a)* her Department and *(b)* the Student Loan Company to recover such loans. [218788]

Dr. Howells: If 75 per cent. of EU students were charged the full £3,000 fee and 25 per cent. charged the standard fee and assuming that 80 per cent. of them took out a fee loan and their repayment behaviour was similar to English and Welsh students, costs are currently estimated to be around £40 million per year (steady state at Academic Year 2006/07 terms).

The Student Loans Company (SLC) are responsible for ensuring repayments are made when they fall due and have well established procedures for recovering loans from graduates living and working outside the UK. All students taking out a loan are required to sign a declaration agreeing to repay, even if they move abroad and the SLC have a range of sanctions that can be imposed on defaulters. DfES officials and SLC are exploring ways to ensure the most robust and effective loan recovery mechanisms are in place by the time the first graduate contributions from EU students are due to be collected.

Sure Start

Mr. Drew: To ask the Secretary of State for Education and Skills what definition she uses of children's centres; and what steps areas with no history of Sure Start or Neighbourhood Nurseries can take to set up children's centres. [217222]

Margaret Hodge: Children's centres are one-stop shops joining up services for young children and their families, including child care integrated with early learning. Children's centres are community based, responsive to local needs and focused on tackling early disadvantage. Centre staff will help parents access services their family needs either by offering services at the centre or linking parents with other providers in the local area. This will include:

early education and child care places that fit with families' needs, whether in group settings, with child minders, or at home;

parenting and family support;

health advice, including health visiting and midwifery;

preventative services to support children with additional needs early in a child's life, including outreach into communities; and

support and help for parents to move into training and work.

Children's centres are currently being developed in the most disadvantaged areas where needs are greatest. In most cases children's centres will offer early education and child care but in some less disadvantaged areas, a more flexible model may be appropriate. The services delivered at each centre will depend on local needs and existing service provision in the area.

A large number of children's centres especially those in the more disadvantaged areas will be based upon Sure Start Local Programmes and Neighbourhood Nurseries. However, children's centres can be, and already are being, based upon a much wider range of existing private and public provision including, day nurseries, schools (nursery, primary and secondary) and family centres as well as other early years settings. Local authorities should draw upon their experience delivering the full range of early years settings and services, when establishing children's centres, building on what is currently available in the immediate locality.

Targets

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target of 90 per cent. of young people by age 22 to have participated in a full-time programme fitting them for entry into higher education or skilled employment by 2010 will be met. [219252]

Dr. Howells: This target has been replaced by the new 2008 public service agreement target on level 2 and level 3 attainment. In the Department's 2004 autumn performance report we announced that we would no longer be reporting on the 2010 target in the context of a more streamlined and outcome-based package of spending review 2004 targets and supporting performance indicators.

In addition to the level 2 at 19 public service agreement target, we will continue to track improved outcomes for young people through the participation rates of 16 and 17-year-olds in further education and training and the number of young people attaining a level 3 by age 19 and completing an apprenticeship.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to increase participation in higher education towards 50 per cent. of those aged 18 to 30 years by 2010 will be met. [219254]

Dr. Howells: Demand projections based on anticipated improvements in attainment suggest that demand for HE will continue to grow and that progress towards 50 per cent. can be maintained between now and 2010.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the public service agreement target to make significant progress year on year towards fair access into higher education was met in 2004. [219255]

Dr. Howells: The Higher Education Statistics Agency publishes a set of performance indicators for UK universities and higher education colleges. The latest data relates to entrants to higher education in the academic year 2002/03. These show that:

The percentage of young entrants to full-time first degree courses from state schools in England has risen as follows:

	Percentage
1999	84.1
2000	85.0
2001	85.2
2002	86.4

The percentage of young entrants to full-time first degree courses from low participation neighbourhoods in England has risen as follows:

	Percentage
1999	11.7
2000	11.8
2001	12.4
2002	12.5

A full copy of the performance indicators can be found at www.hesa.ac.uk/pi/default.htm.

Mr. Bercow: To ask the Secretary of State for Education and Skills what the estimated cost to public funds is of achieving the Public Service Agreement target to make significant progress towards fair access into higher education. [219257]

Dr. Howells: No estimate has been made of the cost to the public funds of achieving the Public Service Agreement target to make significant progress year on year towards fair access into higher education.

The then Secretary of State for Education and Skills, Charles Clarke, made a statement to the House of Commons on 16 September 2004 about how expenditure announced by the Chancellor of the Exchequer in his budget statement would be used to support the reforms set out in the Department's Five Year Strategy for Children and Learners.

Concerning higher education, he explained that Government expenditure will increase by about £2 billion between 2004–05 and 2007–08, taking total investment to almost £9.5 billion.

This means there will be average increases of over 6 per cent. in real terms over the next three years. These increases will cover the sector's financial needs in the short term.

Teachers (Allegations)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills when the results of the consultation into proposals for dealing with allegations against teachers and other staff will be published. [218863]

Mr. Stephen Twigg: My officials have received 160 responses to the consultation and aim to publish a summary of those on my Department's website in early April.

HEALTH

A and E

Mr. Flight: To ask the Secretary of State for Health (1) how many people attended an accident and emergency department in England in each quarter since March 2000; [215134]

(2) what the average percentage of patients seen in under four hours from arrival at an accident and emergency department to admission, transfer or discharge has been in each quarter since March 2000. [215136]

Ms Rosie Winterton: Data on the number of attendances and the percentage of patients seen in four hours or less in accident and emergency departments are available on the Department's website at www.performance.doh.gov.uk/hospital activity/index.htm.

Data for each quarter from 2001–02 for A&E attendances and for each quarter from quarter 2, 2002–03 for patients seen in less than four hours are available in the Library. Prior to this, information was published annually in "Outpatient and Ward Attenders, England", copies of which are also available in the Library.

Ambulance Response Times

Iain Wright: To ask the Secretary of State for Health what the average response time for ambulances attending 999 calls was in *(a)* Hartlepool and *(b)* England in each year since 1997. [218510]

Miss Melanie Johnson: This information is not collected centrally in the format requested. Data on response times for North East Ambulance Service National Health Service Trust and for all ambulance services in England are shown in the table. The Welsh Assembly should be contacted for information on the Welsh Ambulance Service.

Data are only available from the date trusts introduced call prioritisation. North East Ambulance Service introduced call prioritisation in 1999–2000. All ambulance services in England had introduced call prioritisation by 2001–02.

Further information can be found in the statistical bulletin, "Ambulance services, England: 2003–04". A copy is available in the Library and on the Department's website at www.publications.doh.gov.uk/public/sb0411.htm.

	North East	England
Percentage of category A calls responded within eight minutes		
1997–98	n/a	n/a
1998–99	n/a	n/a
1999–2000	50.1	n/a
2000–01	50.8	n/a
2001–02	72.3	70.8
2002–03	76.6	74.6
2003–04	75.6	75.7
Percentage of category A calls responded within 14–19 minutes		
1997–98	n/a	n/a
1998–99	n/a	n/a
1999–2000	96.1	n/a
2000–01	93.9	n/a
2001–02	98.0	94.1
2002–03	99.1	94.6
2003–04	98.9	93.9
Percentage of category B/C calls responded within 14–19 minutes		
1997–98	n/a	n/a
1998–99	n/a	n/a
1999–2000	93.0	n/a
2000–01	90.3	n/a
2001–02	94.7	90.2
2002–03	96.0	89.6
2003–04	95.1	87.5
Percentage of urgent journeys with arrival time not more than 15 minutes late		
1997–98	91.5	88.0
1998–99	85.4	84.0
1999–2000	80.1	80.5
2000–01	77.6	78.8
2001–02	85.0	78.5
2002–03	83.7	78.0
2003–04	85.4	78.1

n/a = Not available

Assertive Outreach Teams

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* crisis resolution teams, *(b)* assertive outreach teams and *(c)* early intervention teams he has established since 1999. [216154]

Ms Rosie Winterton: There were estimated to be 243 crisis resolution, 278 assertive outreach and 81 early intervention teams established in England as at 31 December 2004. These figures are based on local delivery plan returns (LDPRs). These LDPR figures are the most timely data available, but are best viewed as approximate rather than definitive. Final data will become available via the 31 March update to the Durham mapping of adult mental health services.

Breast Screening

Miss McIntosh: To ask the Secretary of State for Health what facilities are available for breast screening of women aged 50 to 64 years in *(a)* North Yorkshire, *(b)* East Anglia and *(c)* other parts of England; and if he will make a statement. [217654]

Miss Melanie Johnson: The National Health Service Breast Screening Programme provides free breast screening every three years for all women in England aged 50 and over. Women aged between 50 and 70 are currently invited every three years. Once women reach the upper age limit for routine invitations for breast screening, they are encouraged to make their own appointment.

There are 85 breast screening units in the United Kingdom. These are specialised screening units, which can either be mobile, hospital based, or permanently based in another convenient location such as a shopping centre. Approximately 80 per cent. of the units are mobile.

In Northern Yorkshire, the breast screening service is comprised of two static sites, based in York, and three mobile units. For East Anglia, Ipswich, Yarmouth, King's Lynn and Peterborough each have one static site and one mobile unit. Cambridge has one static site and two mobile units, and Norfolk and Norwich have two static sites and two mobile units.

Capital Improvements (Hartlepool)

Iain Wright: To ask the Secretary of State for Health what capital improvements have been made by his Department in the Hartlepool constituency since 1997. [218501]

Miss Melanie Johnson: County Durham and Tees Valley Strategic Health Authority reports that the total value of capital developments/investments at North Tees and Hartlepool National Health Service Trust in each year since 1997–98 is as shown in the table.

	Amount (£000)
1997–98	658
1998–99	1,294
1999–2000	1,698
2000–01	1,478
2001–02	1,544
2002–03	1,159
2003–04	1,193
2004–05	1,553

The improvements that this funding has paid for include:

a new computed tomography (CT) scanner, which was delivered to North Tees General Hospital in February 2002;

a new £1 million pathology laboratory, which opened in December 2002 at the University Hospital of Hartlepool;

a new £65,000 mammogram machine, which became operational in April 2003 at the University Hospital of North Tees;

a new £2 million angiography unit, which is currently in development.

In addition, Hartlepool PCT purchased the Barlows building in 2003–04 at a cost of around £750,000.

Care Standards

Dr. Cable: To ask the Secretary of State for Health how many inspections of care homes were carried out in *(a)* 2003 and *(b)* 2004 under the auspices of the Care Standards Commission; how many were unannounced; and how many led to deregistration of care homes. [218727]

Dr. Ladyman *[holding answer 28 February 2005]*: Information on the number of inspections of care homes completed by the National Care Standards Commission in 2002–03 and 2003–04 is shown in the table.

Care home inspections	2002–03	2003–04
Announced	25,800	24,645
Unannounced	15,634	22,160
Total	41,434	46,768

As of 24 February, the Commission for Social Care Inspection has completed 39,473 of the 44,674 care home inspections scheduled to be conducted by 31 March 2005. Of the 39,473 inspections, 20,440 were announced and 19,033 were unannounced.

From 1 April 2004 to 24 February 2005, 2000 care homes have de-registered through inspection activity, home closure and change in ownership.

Cataract Operations (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for Health if he will make a statement on waiting times for cataract operations in Wirral, South. [218500]

Miss Melanie Johnson: The information requested is shown in the table.

Finished consultant admission episodes and average time waited for episodes with a cataract main operation in Wirral Hospital National Health Service Trust, 2003–04

	Wirral Hospital NHS Trust	England (all NHS trusts)
Finished admission episodes	1,600	297,935
Mean time waited (days)	157	148
Median time waited (days)	142	127

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year. Figures given are for all admission methods.
2. The main operation is the first recorded operation in the hospital episodes statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, eg time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation. OPCS4 codes C71-C72 and C74-C75 have been used for cataract operations.
3. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension. Average time waited figures given are for waiting list and booked admissions.
4. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
Source:
HES, Department of Health.

Civil Servants

Mr. Laws: To ask the Secretary of State for Health what the cost of the enhanced early retirement scheme for civil servants in his Department and its agencies was in each year from 1997–98 to 2003–04 and what the estimated cost will be in each year from 2004–05 to 2007–08; and if he will make a statement. [214653]

Ms Rosie Winterton: The cost of enhanced exits in the Department of Health for financial years 1997–98 to 2003–04 are shown in the following table.

Financial year	Total cost[1] (£000)
1997–98	1,762
1998–99	1,129
1999–2000	2,303
2000–01	2,023
2001–02	3,200
2002–03	16,964
2003–04	9,201
Total	36,582

[1] The total includes annual compensation payments, for those aged over 50, until they reach normal retirement age

The estimated costs for financial years 2004–05 to 2007–08 are shown in the following table.

Financial year	Estimated costs (£000)
2004–05	[1]34,076
2005–06	3,000
2006–07	3,000
2007–08	3,000
Total	43,076

[1] This estimate includes £6.67 million for NHS Estates and Inventures.

Dentistry

Chris Grayling: To ask the Secretary of State for Health what proportion of dentists in *(a)* England and *(b)* each parliamentary constituency are accepting NHS patients. [217053]

Ms Rosie Winterton: As of 15 February 2005, there were 8,443 dental practices accepting at least one type of national health service treatment. Information is not available centrally number of dentists accepting NHS patients by parliamentary constituency. Information on the number of dental practices that are accepting at least one type of NHS treatment by primary care trust has been placed in the Library. Because dental practices may be accepting more than one type of NHS patient, the data cannot be proportioned.

Chris Grayling: To ask the Secretary of State for Health what percentage of dentists in *(a)* each primary care trust and *(b)* each parliamentary constituency have stopped taking NHS patients in each year since 1997. [217054]

Ms Rosie Winterton: The great majority of dental practices treat both private and national health service patients. The Office of Fair Trading report "The private dentistry market in the UK" published in March 2003 estimated that out of 11,000 dental practices about 210 are totally private, treating no NHS patients. Data on the percentages of complete leavers, by primary care trust and parliamentary constituency has been placed in the Library. The data do not take account of dentists who moved to other areas and continued to work in the general or personal dental services. The dentists could have ceased doing NHS work for a number of different reasons including retirement or leave to take a short-term absence. New contractual arrangements, which we are to introduce by April 2006, are intended to make NHS dentistry more attractive to dentists.

Mr. Damian Green: To ask the Secretary of State for Health what proportion of the additional £250 million allocated to NHS dentistry in England in 2005–06 is designated for new services. [217229]

Sir Paul Beresford: To ask the Secretary of State for Health what impact the decision to delay full implementation of the NHS dentistry reforms until April 2006 will have on the £250 million additional investment in NHS dentistry previously announced for 2005–06. [218597]

Ms Rosie Winterton *[holding answer 28 February 2005]:* The decision to allow primary care trusts and dentists more time to prepare for the full implementation of the national health service dental reforms does not affect the resources available to support NHS dentistry. While primary dental services remain predominantly demand led, the distribution of resources is not susceptible to detailed central control. However, the additional resources underpin not only the higher income levels for existing dental practices recommended by the doctors and dentists review body but also the recruitment of 1,000 NHS dentists in little over a year and the expansion of personal dental service (PDS) schemes to provide new ways of working to the benefit of dentists and patients. We now have over 4,000 dentists in over 1,400 dental practices working under PDS arrangements. By April, we expect 25 per cent. of dental practices to be operating within the PDS.

Mr. Damian Green: To ask the Secretary of State for Health what the average waiting time is in a Dental Access Centre for *(a)* emergency treatment and *(b)* routine treatment. [217230]

Ms Rosie Winterton: Information is not held centrally on waiting times in dental access centres (DACs). There are 50 DACs, which provided some 375,000 episodes of treatment in 2004.

Mr. Damian Green: To ask the Secretary of State for Health how many dentists were signed up to the PDS contract by 31 January, broken down by primary care trust area. [217231]

Ms Rosie Winterton: Dentists, who wish to have advanced benefit of the new contractual arrangements that will be introduced to national health services dentistry by April 2006, may move to the personal dental services (PDS). As of 31 January 2005, there were 3,881 dentists with at least one PDS contract in England. There are some further 500 practices with applications under consideration and by April 2005, we expect 25 per cent. of all dental practices to be in the PDS. A breakdown of PDS contracts by primary care trust has been placed in the Library.

Emergency Admissions

Mr. Lansley: To ask the Secretary of State for Health how many patients have been admitted to hospital after attending *(a)* a major accident and emergency department, *(b)* a minor injuries unit and *(c)* a walk-in-centre in each of the last three years; and what percentage of all attendances at accident and emergency departments this represented in each case. [218110]

Ms Rosie Winterton: Data on the number of patients admitted to hospitals after attending minor injuries units and walk-in-centres are not held centrally. The number of patients admitted to hospital after attending a major accident and emergency department and the percentage of all attendances at a major accident and emergency department that this represents, is shown in the table.

Quarter	*Number of patients admitted through major A and E*	*Patients admitted through A and E as a percentage of first attendances (major A and E)*
2002–03		
1	563,836	19
2	565,743	19
3	574,983	21
4	583,491	21
2003–04		
1	584,987	19
2	604,515	19
3	637,406	21
4	640,840	22
2004–05		
1	651,785	20
2	673,452	21
3	705,901	22

Source:
Department of Health QMAE.

Epilepsy

Helen Jones: To ask the Secretary of State for Health what the average waiting time is for first referral for a patient to see an epilepsy specialist; and what changes have occurred to this waiting time over the past five years. [219740]

Dr. Ladyman: Figures on waiting times for the treatment of neurological conditions are published but epilepsy is not separately identified.

Avian Influenza

Mr. Lansley: To ask the Secretary of State for Health what progress is being made in developing a vaccine for the H5N1 strain of avian influenza. [211550]

Dr. Murrison: To ask the Secretary of State for Health (1) what assessment he has made of the effectiveness of the amantadine vaccine as a *(a)* treatment and *(b)* prophylactic for avian influenza; [214755]

(2) what advice he has received from the Health Protection Agency on what vaccines or antivirals, and how many, to stockpile in preparation for an influenza pandemic; [214758]

(3) what vaccines, and at what minimum number of doses, his Department has assessed as sufficient to prevent an *(a)* influenza and *(b)* avian flu (i) pandemic and (ii) epidemic; [214759]

(4) what his Department's definition is of a pandemic; and what assessment he has made of the likelihood of an *(a)* influenza pandemic and *(b)* avian influenza pandemic occurring in the next five years; [214760]

(5) what estimate his Department has made of the total number of people in at risk groups for influenza, as defined by the National Institute for Clinical Excellence; [214761]

(6) what estimate his Department has made of the length of time, from February, it will take his Department to obtain the stockpiles of flu vaccines or antivirals necessary to cope with an *(a)* influenza and *(b)* avian flu (i) pandemic and (ii) epidemic; [214762]

(7) pursuant to his answer of 10 February to question 213139 on influenza vaccines, when the review will report. [217362]

Mr. Peter Ainsworth: To ask the Secretary of State for Health (1) what are the current stocks of Oseltamivir are held by the NHS; and what plans he has to increase them; [218679]

(2) what assessment he has made of the risk of a pandemic of avian flu; and if he will make a statement. [218683]

Miss Melanie Johnson *[holding answer 28 February 2005]:* I refer the hon. Members to the reply I gave the hon. Member for Westbury (Dr. Murrison) on 1 March 2005, *Official Report*, column 1080W.

Mr. Edward Davey: To ask the Secretary of State for Health (1) what plans he has in place to protect the UK against an influenza pandemic; and what emergency procedures are in place to protect vulnerable groups; [217618]

(2) what quantity of influenza vaccine the Government has stockpiled; [217619]

(3) what steps he will take to communicate advice and warnings to the public in the event of an influenza pandemic. [217620]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to the hon. Member of Westbury (Dr. Murrison) on 1 March 2005, *Official Report*, column 1080W.

Meat Hygiene

David Taylor: To ask the Secretary of State for Health what qualifications and training the Food Standards Agency proposes to implement to comply with the requirement under EC Regulation 854/2004 that company meat inspectors in white meat plants undertake the same training and pass the same qualification as Government meat inspectors. [219003]

Miss Melanie Johnson: The board of the Food Standards Agency will be considering implementation of Regulation 854/2004 at its March meeting when a decision on how to implement this requirement is expected to be taken.

Mental Health

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* median and *(b)* mean waiting times for patients waiting to see a consultant psychiatrist as (i) an outpatient first attendance and (ii) an elective inpatient admission were, in each year since 1997. [216159]

Ms Rosie Winterton: The information requested is shown in the tables.

Outpatient provider and commissioner waits for mental health specialities[1] quarterly from June 1996 (provider only) to December 2004 in England

		Weeks

Provider—KH07

Commissioner—QF01

Mr. Lansley: To ask the Secretary of State for Health what the total expenditure on mental health services has been in each year in real terms since 1986, broken down as in Annex A of the further memorandum given by his Department to the Joint Select Committee on the draft Mental Health Bill. [216164]

Ms Rosie Winterton: The information is not available for the period requested. However, information on expenditure on mental health services in each year since 1993–94 has been placed in the Library. The information is from the hospital and community health service programme budget and does not include expenditure on people with mental health problems seen solely in primary care.

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* men and *(b)* women detained voluntarily or involuntarily as psychiatric inpatients are detained in (i) high security NHS hospitals, (ii) other NHS facilities and (iii) private mental nursing homes. [216173]

Ms Rosie Winterton: Information is not available in the format requested. On 31 March 2004, there were 7,727 men and 3,981 women detained in national health service facilities and 1,516 men and 776 women in independent hospitals (known until April 2002 as private mental nursing homes) under Parts II, III and X the Mental Health Act 1983. It is not possible to identify the number of detentions in high security NHS hospitals separately as the information is collected by NHS trusts

Information on informal (voluntary) patients in hospital on 31 March 2004 is not available. However, there were 191,070 admissions to NHS hospitals under mental illness and learning disability specialties in 2003–04 as a whole.

Mobile Phones

Dr. Stoate: To ask the Secretary of State for Health how much his Department has spent on research programmes on the possible health effects of mobile phone technologies in each of the last five years. [217700]

Miss Melanie Johnson: The Department has contributed the following amounts directly to mobile phones and health research through its radiation protection research programme and (after 2001) the mobile telecommunications and health research (MTHR) programme (www.mthr.org.uk).

	£000
2000–01	42,061
2001–02	101,320
2002–03	373,404
2003–04	[1]378,052
2004–05	390,625

[1] Includes part estimate to end of March 2005

The total value of the MTHR programme and its adjunct funding arrangements is currently £8.8 million.

The Department supports other mobile phone health research through its contributions to the National Radiological Protection Board (www.nrpb.org) and the World Health organisation electromagnetic fields project (www.who.int/peh-emf).

NHS Injury Cost Recovery Scheme

Mr. Mole: To ask the Secretary of State for Health if he will make a statement on the proposed expansion of the NHS Injury Cost Recovery Scheme. [219864]

Ms Rosie Winterton: The Department recently completed a public consultation exercise on draft regulations to govern the operation of the expanded national health service injury costs recovery (ISR) scheme. Although the full analysis of the responses to the consultation is still under way, one of the key messages to come out of our initial scrutiny was that high levels of concern remain about the insurance market's ability to cope with the new changes. After further discussions, I have decided that now is not the right time to introduce the expanded scheme. However, we remain committed to the principle of "polluter pays" that underpins the ICR Scheme, and the expanded scheme will be introduced by October 2006.

Nursing Homes (Essex)

Mr. Rosindell: To ask the Secretary of State for Health how much money has been allocated for the improvement and renovation of nursing homes in the Romford and Havering constituencies in 2004–05. [219378]

Dr. Ladyman: This information is not collected by the Department. Care homes are private businesses and any improvements and renovations they make are a matter for them to decide on and fund out of their own resources.

Open Mind (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health how much funding Open Mind in Chorley received in the last year for which figures are available. [218925]

Miss Melanie Johnson: The Department does not provide funding directly to Open Mind in Chorley. Over 80 per cent. of national health service resources are allocated to primary care trusts (PCTs) which are responsible for commissioning health services to meet the needs of their local population. In the current financial year, Chorley and South Ribble PCT received a resource revenue allocation of £171.7 million, this will increase to £266.7 million in 2007–08.

Physical Activity

Mr. Burstow: To ask the Secretary of State for Health how much his Department has spent on advertising the benefits of physical activity in each of the last seven years. [217501]

Miss Melanie Johnson: The Department and the national health service promote the benefits of physical activity in many ways to professionals, the public and other stakeholders. In particular, primary care trusts are required to have systematic and managed health promotion programmes, including action on exercise, that are responsive to local needs.

In support of local delivery, we published a national quality assurance framework for exercise referral systems in 2001 and a report from the Chief Medical Officer, "At least five a week" in 2004 setting out evidence on the impact of physical activity and its relationship to health.

The public health White Paper "Choosing health, making healthier choices easier" includes a commitment for a new cross-government campaign to raise awareness of the health risks of overweight and obesity, and the steps people can take through diet and physical activity to prevent obesity.

Self-harming

Mr. Lansley: To ask the Secretary of State for Health what proportion of people who commit suicide he estimates have previously self-harmed. [216169]

Ms Rosie Winterton: This information is not collected centrally. However, research suggests that around 50 per cent. of people who commit suicide have previously self-harmed.

As part of the implementation of the national suicide prevention strategy, three centres have been established to monitor deliberate self-harm and provide accurate data on national trends and patterns to help inform suicide prevention interventions and detect changing patterns or local variations. Through monitoring, it will be possible to estimate the number of suicides by people who have self-harmed in the year prior to death.

Sunlight Exposure

Dr. Gibson: To ask the Secretary of State for Health (1) what recent research he has examined concerning *(a)* the effects of lifetime exposure to sunlight on the risk of melanoma and *(b)* the effect of sun exposure on survival rates for melanoma; [217717]

(2) what recent research he has examined concerning the effect of exposure to UV light on the risk of lymphoma;

(3) what recent research he has examined concerning the effect of exposure to vitamin D from sunlight in the months immediately after birth on the risk of developing multiple sclerosis. [217719]

Miss Melanie Johnson: The most recent review of the research evidence about the health effects of UV radiation was published in 2002 by the National Radiological Protection Board's (NRPB) independent advisory group on non-ionising radiation (AGNIR).

The review gives clear evidence that exposure to ultra-violet radiation (UVR) is a risk factor for developing melanoma and other skin cancers. There is less certainty about the relative roles of cumulative (lifetime) exposure or burning episodes in the genesis of the different types of skin cancer. Chronic exposure to solar radiation also causes photo-ageing of the skin. The risk of developing melanoma has increased substantially in white populations in the United Kingdom and Europe for several decades. The review did not consider clinical issues such as the effect of sun exposure on survival rates for melanoma.

The review noted that the possibility has been raised that the immunosuppressive effects of UVR might be involved in causing lymphoma. The review concluded that overall the results are not-consistent with a major role for solar UVR in the aetiology of non-Hodgkins lymphoma (NHL), but they leave open the possibility of a minor role, or an aetiological relation for a particular subtype of NHL.

The review also contains a chapter on vitamin D, which considers the amount of vitamin D needed from UV exposure or the diet to sustain adequate vitamin D levels. It considers the role of vicarious sun exposure in vitamin D synthesis. It notes that infant formula milks are fortified with vitamin D. There is no information in the review on vitamin D and multiple sclerosis, or on any relationship between vitamin D levels in early childhood and illness in adulthood.

The European skin cancer society, Euroskin, is hosting an international meeting to look at the whole issue of UV exposure, vitamin D levels and health later this year. This meeting will include consideration of hypotheses of a wider role for vitamin D in long-term health.

Surrey and Sussex (Health Inspection Bodies)

Mr. Blunt: To ask the Secretary of State for Health if he will list the bodies which inspect *(a)* the East Surrey hospital and *(b)* the Surrey and Sussex Healthcare NHS Trust. [218042]

Ms Rosie Winterton: The specific information requested is not held by the Department.

However, 31 bodies have the right to inspect and regulate national health service hospital trusts in England. Of these, 18 are regulators of the professions and only have a role in inspecting training.

The 31 bodies are as follows:

Independent health regulators,

Audit Commission,

Healthcare Commission (formerly called the Commission for Healthcare Audit and Inspection),

Monitor (formerly called the Independent Regulator of NHS Foundation Trusts),

Health and Safety Executive,

General Social Care Council,

Health Development Agency*,

Human Fertilisation and Embryology Authority* (This will be incorporated into the Regulatory Authority for Fertility and Tissue by 2007–08, along with the Human Tissue Authority),

National Audit Office,

National Biological Standards Board*,

National Health Service Appointments Commission,

National Institute of Clinical Excellence,

Commission for Social Care Inspection,

The Commission for Patient and Public Health Involvement in Health*,

Regulators of the Professions,

General Chiropractic Council,

General Dental Council,

General Medical Council,

General Optical Council,

General Osteopathic Council,

Health Professionals Council,

Nursing and Midwifery Council,

Royal Pharmaceutical Society of Great Britain,

Royal College of Anaesthetists,

Royal College of General Practitioners,

Royal College of Obstetricians and Gynaecologists,

Royal College of Ophthalmologists,

Royal College of Paediatrics and Child Health,

Royal College of Pathologists,

Royal College of Physicians,

Royal College of Psychiatrists,

Royal College of Radiologists,

Royal College of Surgeons of England.

Bodies indicated with a * will no longer exist in 2007–08.

The Better Regulation Task Force defines an independent regulator as: "A body which has been established by Act of Parliament, but which operates at arm's length from Government and which has one or more of the following powers: inspection; referral; advice to a third party; licensing; accreditation; or enforcement."

CONSTITUTIONAL AFFAIRS

Constitutional Treaty

Kate Hoey: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the answer of 18 January 2005, *Official Report*, columns 902–03W, on the Constitutional Treaty, how the restrictions on Government publication of information under section 125 of the Political Parties, Elections and Referendums Act 2000 will be enforced. [219047]

Mr. Leslie: It is the responsibility of those to whom section 125 applies to ensure that they comply with the requirements of that provision. A person alleging a breach of section 125 could seek a judicial review.

Kate Hoey: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the answer of 18 January 2005, *Official Report*, columns 902–03W, on the Constitutional Treaty, (1) what obligations there will be under the Political Parties, Elections and Referendums Act 2000 for permitted participants in the referendum on the European Constitution to declare donations from the institutions of the European Union; [218838]

(2) what regulations will govern expenditure by UK-based organisations that are funded by the institutions of the European Union but are permitted participants in the referendum on the European Constitution. [218839]

Mr. Leslie: Donations to permitted participants are regulated by the Political Parties, Elections and Referendums Act 2000 (PPERA). Donations must be declared to the Electoral Commission and can only be accepted if they are from permissible donors (except for donations of less than £200). A permissible donor can only be:

an individual registered on a UK electoral register;

a UK company;

a UK trade union;

a UK building society;

a UK Limited Liability partnership;

a UK friendly/building society;

a UK based unincorporated association.

a UK registered political party (in the case of a donation to a designated organisation or a registered political party which is not a minor party)

In addition, powers in the European Union Bill may be used to include similar classes of donors for Gibraltar.

Therefore donations of £200 or more from the institutions of the European Union to a permitted participant would have to be declared as impermissible donations and returned.

All permitted participants are subject to referendum expenditure limits, set out in Schedule 14 to PPERA, namely: £5 million in the case of a designated organisation; between £500,000 and £5 million in the case of political parties; and £500,000 in other cases.

FOREIGN AND COMMONWEALTH AFFAIRS

Diplomatic Posts

Mr. Wilkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total personnel costs were for the last full financial year for which records are available of running the diplomatic posts in *(a)* the European Union, *(b)* Paraguay, *(c)* Belgium, *(d)* El Salvador, *(e)* Nicaragua, *(f)* Hondouras, *(g)* Germany, *(h)* France, *(i)* Luxemburg, *(j)* Vanuatu, *(k)* Tonga, *(l)* East Timor, *(m)* Kiribati, *(n)* The Bahamas, *(o)* Lesotho, *(p)* Swaziland and *(q)* Madagascar. [217807]

Mr. Rammell *[holding answer 24 February 2005]*: The total personnel costs of running diplomatic posts for 2003–04 for the relevant countries are set out in the table. The European Union figure includes UK representation to the European Union and to 24 member states.

	£ million
The European Union	79.190
Paraguay	0.259
Belgium	2.824
El Salvador	0.085
Nicaragua	0.316
Honduras	0.271
Germany	9.882
France	12.526
Luxembourg	0.622
Vanuatu	0.218
Tonga	0.122
East Timor	0.033
Kiribati	0.006
The Bahamas	0.377
Lesotho	0.289
Swaziland	0.230
Madagascar	0.222

EU Committees

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Co-operation Committee (EEC—ASEAN) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217922]

Mr. Mullin: The EU Joint Co-operation Committee with the Association of South East Asian Nations did not meet during this period.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Joint Committee (i) EEC-Bangladesh, (ii) EC-Kingdom of Cambodia and (iii) EEC-China met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218273]

Mr. MacShane: During this period the EC Joint Committee with Bangladesh met in Brussels on 19 November 2003 and the EC Joint Committee with China on 30 October 2003 in Beijing. The EC Joint Committee meeting with Cambodia did not meet during this period.

As these Committees are chaired by the Commission, with support from the Presidency, there were no UK representatives at these meetings. However, the UK participated fully in formulating the EU's position for the meetings.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Joint Committee EEC-Mongolia, (ii) EC-Moldova Co-operation Committee and (iii) Joint Committee (EC-Former Yugoslav Republic of Macedonia) met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [218433]

Mr. MacShane: During this period, there were two meetings of the EU-Moldova Co-operation Committee—on 28 October 2003 in Chisinau and on 23 November 2004 in Brussels. There was one meeting of the Joint Committee on EEC-Mongolia on 4 November 2003 in Ulaanbaatar. As these meetings are chaired by the Commission, with support from the presidency, there were no UK representatives. However, the UK participated fully in formulating the EU's position for the meetings.

There is no Joint Committee between the EC and the former Yugoslav Republic of Macedonia. Technical dialogue between the EU and Macedonia now takes place in the annual meetings of the Stabilisation and Association Committee, which met for the first time in Skopje on 2–3 June 2004. Prior to the entry into force of the EU-Macedonia Stabilisation and Association Agreement on 1 April 2004, technical dialogue took place in the annual meetings of the Co-operation Council, which met for the last time in Brussels on 25 July 2003. The European Commission leads these technical dialogue meetings on behalf of the EU. Member states have the option of attending as observers. The UK sent an observer from the local UK mission to each of the meetings mentioned above.

EU Information Campaigns

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) which EU budget lines in the EC draft budget for 2005 may be used for information campaigns; how much is allocated under each line; which projects under each line are operating in the United Kingdom; and which projects he intends to support within the United Kingdom as part of the EU Constitution debate; [218738]

(2) how much has been spent by the EU on PRINCE within the UK in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218740]

(3) how much has been spent by the EU under the PRINCE information programme *(a)* on Economic and Monetary Union, *(b)* on the Debate on the Future of Europe and *(c)* under EC budget line 16 04 04 in the UK in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218741]

(4) how much he estimates will be spent in the United Kingdom from EC budget lines *(a)* 2710, *(b)* 2719, *(c)* 2720 and *(d)* 2830 during the 2005–06 financial year; [218742]

(5) how much has been spent under EC budget line *(a)* 16 02 02 and *(b)* 16 03 01 in the UK in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218743]

(6) what public relations campaigns the European Commission UK Representation has undertaken under EC budget line 16 03 01 in the last 12 months; and what campaigns are planned in the forthcoming year; [218744]

(7) what events the European Commission UK Representation has undertaken under EC budget line 16 03 01 in the last 12 months; and what events are planned in the forthcoming year; [218745]

(8) how much has been spent by the European Commission representation in the UK *(a)* under EC budget line 16 03 02 and *(b)* on priority

communications under EC budget line 16 03 03 in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218746]

(9) how much has been spent on *(a)* information and *(b)* communication tools by the European Commission UK Representation under EC budget line 16 04 02 in the UK in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218747]

(10) how much his Department spent in partnership with the European Commission and its UK Representation in relation to EC budget line 16 04 02 in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218748]

(11) what publications funded under EC budget line 16 04 02 were distributed in the UK during the last 24 months; [218749]

(12) how much has been spent on information outlets by the European Commission UK Representation under EC budget line 16 05 01 in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year; [218750]

(13) how much has been spent on special events by the European Commission under EC budget line 15 06 06 in the UK in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year. [218752]

Mr. MacShane: The Institutions of the European Union are responsible for their own activities in terms of providing information to the public. Further details can be obtained from the UK Representations of the European Union's Institutions, contact details of which can be found at www.cec.org.uk, www.europarl.org.uk and www.europe.eu.int.

European Commission

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on information outlets in partnership with the European Commission and its UK representation in relation to EC budget line 16 05 01 in each of the last five financial years; and how much is budgeted to be spent in the 2005–06 financial year. [218751]

Mr. MacShane: None and nothing.

European Constitution

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 17 January 2005, *Official Report*, column 703W, on the European Union, what assessment the Government have made of whether the National Assembly for Wales, the Scottish Parliament and the Northern Ireland Assembly, could be construed as national parliaments under the terms of Article 6 of Protocol 2 of the EU Constitutional Treaty. [218537]

Mr. MacShane: The Government believes that the National Assembly for Wales, the Scottish Parliament and the Northern Ireland Assembly are not "national parliaments" for the purposes of that Article.

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department will take to promote the proposed EU constitution; when its actions will commence; and how much his Department will spend on promotion of the proposed constitution. [218538]

Mr. MacShane: For the financial year 2004–05, the Foreign and Commonwealth Office budget for informing the public about the EU, including about the constitutional treaty, is £613,000. A range of materials communicating the facts about the EU and the new treaty will be produced. A Guide to the European Union, which included information about the new treaty, was published recently. Additionally, I make regular visits around the country to discuss European issues with the public.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the remit is of the EU Constitution Team; what the budget for the EU Constitution Team *(a)* is in 2004–05 and *(b)* was in 2003–04; and how many staff work in the EU Constitution Team. [218647]

Mr. MacShane: The EU Constitution Team of 14 staff leads on managing the passage of the EU Bill through Parliament, policy on the EU constitutional treaty and EU communications work. It has a programme budget of £613,000 for financial year 2004–05. The EU Constitution Team did not exist in 2003–04 as the EU constitutional treaty was only agreed at the June 2004 European Council.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the planned timetable for appointing the agencies for partnership marketing and e-communications to promote the European Constitution is. [218813]

Mr. MacShane: A partnership marketing agency, Iris, was appointed on 11 February 2005 through a competitive tendering process. We hope to appoint an agency to help with online information in mid March. The objective of this work is to provide factual information about the EU and the proposed EU constitutional treaty.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 8 February 2005, *Official Report*, column 1454W, on the European constitution, whether the external companies appointed to promote the constitution will be contractually required to ensure that the information they give is objective. [218814]

Mr. MacShane: The work of external companies in communicating the EU and proposed EU constitutional treaty is managed by the Foreign and Commonwealth Office (FCO). Contracts are with Central Office of Information Communications following standard guidelines. All output by external agencies must be cleared with the FCO. The FCO works to ensure that all information it issues on the subject of the EU and the EU constitutional treaty is objective and explanatory.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs from what budget within his Department the contracts for the external companies promoting the European constitution are being met. [218815]

Mr. MacShane: Europe directorate meets the costs of hiring external companies to inform the public about the EU, including about the proposed EU constitutional treaty.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs which unit within his Department is responsible for deciding the terms of reference for the external companies promoting the European constitution. [218816]

Mr. MacShane: The work of external companies in communicating the EU and proposed EU constitutional treaty is managed by the Europe directorate. Contracts are with Central Office of Information Communications following standard guidelines.

Kate Hoey: To ask the Parliamentary Secretary, Department for Constitutional Affairs for what reasons the Electoral Commission may not designate a permitted participant in the referendum on the EU Constitution as referred to in paragraph 59 of the Explanatory Notes to the European Union Bill. [219274]

Mr. Leslie: Sections 108(2)*(b)* and 109(4) and (5) of the Political Parties, Elections and Referendums Act 2000 provide for the circumstances under which the Electoral Commission may not designate a permitted participant as a campaign representative. The Electoral Commission shall designate a permitted participant to be a campaign representative in relation to each outcome unless they are not satisfied that in both cases there is an applicant who adequately represents those campaigning for the outcome.

Kate Hoey: To ask the Parliamentary Secretary, Department for Constitutional Affairs on what grounds it would be possible to seek a judicial review of the result of the referendum on the EU Constitution. [219275]

Mr. Leslie: Clause 8 of the European Union Bill provides that a legal challenge to the referendum result may only be brought by proceedings for a judicial review commenced within six weeks of the certified result.

It would be for the court to determine if there were grounds for a judicial review, if sought.

Falkland Islands

Vera Baird: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with his counterpart in the Government of Argentina about charter flights for cruise ship passenger transfers to the Falkland Islands; [218728]

(2) whether he has made representations to the Government of Argentina following the revocation of permission for charter flights to the Falkland Islands for cruise ship passenger transfers; and if he will make a statement. [218835]

Mr. Rammell *[holding answer 1 March 2005]*: I met the Argentine Foreign Minister Bielsa in the margins of the international aid conference on support for Colombia in Cartagena. The subject of charter flights was discussed. The situation on this issue remains unchanged from that given in my statement to the hon. Member for Boston and Skegness (Mr. Simmonds) on 18 November 2004, *Official Report*, column 1782W.

General Affairs and External Relations Council

Mr. Hood: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the General Affairs and External Relations Council held on 21 February; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [218156]

Mr. MacShane: The information is as follows:

Outcome of the 21 February 2005 General Affairs and External Relations Council

My right hon. Friend the Foreign Secretary, John Grant (UK Permanent Representative to the EU) and I represented the UK at the General Affairs and External Relations Council (GAERC) in Brussels on 21 February 2005.

Conclusions were agreed on the Middle East, Iraq, Western Balkans, Ukraine and Sudan.

General Affairs Session

Preparations for the European Council—22/23 March, Brussels

The presidency introduced the draft agenda for the March European Council. The European Council will discuss the mid-term review of the Lisbon agenda, reform of the Stability and Growth Pact, sustainable development and international issues. The next meeting of the GAERC on 16 March will or prepare discussions in detail.

Future financing 2007–13

The Council had an exchange of views on competitiveness for growth and employment (spending on Lisbon-related objectives). The Government argued that the budget needed to be determined according to rigorous prioritisation and clear EU value added. The Government also argued, along with other supporters of an overall 1 per cent. GNI budget package, that the proposed budget (a threefold increase) was far too high. All member states endorsed research and development as a general priority but with different emphases on where EU value-added lay. Most member states expressed deep scepticism about the proposed Growth Adjustment Fund. The next meeting of the GAERC on 16 March will have a broader discussion of progress in the overall future financing negotiation.

External Relations Session

MEPP

The Council discussed the recent political developments in the MEPP, including the outcomes from the Sharm al-Sheik meeting and the Israeli Government's formal decision to implement the disengagement plan, which includes withdrawal of settlements from Gaza and part of the West Bank. The UK thanked the presidency, High Representative Solana, Commissioner Ferrero-Waldner and member states for their support for the 1 March London Meeting and explained the aim of the meeting was to assist the Palestinian leadership in building the institutions for a viable state. The focus would be on economic, governance and security institutions. The Council also discussed the importance of implementing UNSCR 1559 and condemned the attack which killed former Lebanese Prime Minister Rafic Hariri.

Iraq

The Council discussed strengthening the EU's relations with Iraq following last month's successful elections and agreed a package of measures to that end. These include an integrated ESDP Rule of Law Mission (EUJUST LEX) with a liaison office in Baghdad, continued assistance with the elections process, provision of constitutional experts, intensified activity on capacity building in Iraqi Ministries particularly in the trade and energy sectors, and a commitment to an EU Troika visit to Iraq and a Joint Political Declaration to frame future co-operation, as soon as the Iraqi Transitional Government is in place and political developments allow. There was also discussion on the effective co-ordination of international reconstruction assistance to the Iraqi administration based on a French proposal. The UK welcomed the French proposal and thanked member states and the Commission for their constructive approach. There was much the EU could now do to help nurture Iraq's new government and the continuing political process.

Western Balkans

The UN Secretary-General's Special Representative, Soren Jessen-Petersen, joined Ministers for a discussion on Kosovo. The Council offered Mr. Petersen its support for his work to implement UN Security Council Resolution 1244. It noted that the Review of UN-endorsed Standards would take place in mid-2005. If positive, this Review would pave the way for a process to determine Kosovo's final status. The Council expressed hope that the Provisional Institutions of Self Government would continue implementation of Standards to allow a positive assessment. The Council encouraged Belgrade to engage constructively on Kosovo. It reaffirmed that the future of the Western Balkans—including Kosovo—was within the European Union; the EU would therefore have an important future role to play. The Council emphasised that Kosovo's future must be consistent with the principles of multi-ethnic democracy. The UK supported this assessment of the road ahead, agreeing that the UN would remain in the lead in Kosovo but that the EU would also have an important role to play.

The Council also discussed Croatia and adopted Conclusions which set out clearly that Croatia must co-operate fully with the International Criminal Tribunal for the former Yugoslavia if accession negotiations are to open on 17 March.

Transatlantic relations

Ministers briefly discussed the EU meeting with President Bush on 22 February with the presidency stressing the need for strict discipline on both the length and substance of interventions at the 22 February meeting.

Ukraine

After a brief discussion, the Council agreed Conclusions based on the 10 point package presented to the GAERC on 31 January by Commissioner Ferrero-Waldner. The package consists of 10 concrete steps to strengthen co-operation between the EU and Ukraine beyond the European Neighbourhood Action Plan which was also launched and endorsed by the EU-Ukraine Co-operation Council in the margins of the GAERC on 21 February.

Revision of Cotonou

The Council discussed revisions to the text of the Cotonou Agreement (which governs EU relations with the African Caribbean and Pacific (ACP) states) and the accompanying financial package to succeed the ninth European Development Fund (EDF) in preparation for the EU/ACP ministerial meeting on 23 February 2005. Commissioner Michel briefed the Council of the latest state of play on negotiations of the text with the ACP. Differences between the two sides were now small and he was confident that agreement could be reached on 23 February. Agreement was also reached on the financial package with the retention of language on a performance review on which decisions about financing beyond the minimum agreed sum would be based. The flexibility in the language on the sunset clause setting 2007 as the final date for commitments of funds under the current EDF was also retained. Both are good outcomes for the UK.

Sudan

The Council agreed Conclusions which call upon the Government of Sudan and the National Democratic Alliance to sign the full Cairo Agreement as soon as possible, note the Council's concerns about violations of the ceasefire and it's readiness to support measures agreed in the UN Security Council, and welcome the International Commission of Inquiry report on Darfur.

AOB—Great Lakes

Belgian Foreign Minister De Gucht briefed the Council on his recent visit to the Democratic Republic of Congo (DRC). He had two concerns. First, further problems could arise if no solution was found to the training of a unified army. Belgium had trained one unified brigade, and was helping with a second. But EU funding was required to support this. He hoped that a solution could be found by the time of the next GAERC. Second, election plans for the DRC were unrealistic. If a referendum on the constitution was held in July, as planned, elections could not take place until 2006. One solution would be to hold elections in July and for both houses of the provisional parliament to vote on a new constitution immediately thereafter. The presidency suggested that EU Africa Directors meet soon to discuss the two issues raised.

AOB—Belarus

Lithuania called for the EU to do more to support democratisation, human rights and the independent media in Belarus. Lithuania informed the Council they would host a workshop in Vilnius on 18 March.

AOB—Mercosur

Spain stressed the importance of the EU's strategic relationship with the Mercosur countries. The presidency said they would strengthen work with a view to the EU/Mercosur meeting in May.

Iraq

Alan Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what involvement the UK Government had in the drafting of Order 81, issued by the Coalition Provisional Authority in Iraq, which prohibits the saving of seed by Iraqi farmers. [216068]

Mr. Rammell: UK Government officials in Iraq, as members of the Coalition Provisional Authority (CPA), and other officials in the UK were consulted and invited to comment during the drafting of CPA Order 81. The Order was the subject of consultation and co-ordination with the Iraqi Governing Council, and was consistent with the needs identified by the Special Representative of the UN Secretary-General for the development of Iraq and its transition from a centrally planned economy to a market economy.

The provisions of CPA Order 81 concern the registration and protection of intellectual property rights in new plant varieties. The Order should not affect the ability of Iraqi farmers to save seeds from traditional sources. Any restrictions would relate only to patented biotech inventions or protected plant varieties. This is the normal effect of introducing such an intellectual property law. To secure protection, plant varieties would have needed to have been shown to be new, distinct from other varieties in common knowledge, uniform and stable. Farmers will have a choice of sources for their seed supply: they may choose to continue using current sources, such as saving their own seeds of traditional and unprotected varieties, or may choose to buy seeds which are subject to patent or plant variety rights protection.

The implementation, application and interpretation of all CPA orders is now a matter for the Iraqis. The newly elected Transitional National Assembly, together with the Iraqi Transitional Government, have the power to overturn or rewrite any existing CPA Orders that they feel do not address the needs and rights of the Iraqi people.

Kazakhstan

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place between the UK and Kazakhstan regarding the proposed autumn 2005 closure of Almaty airport to international arrivals into Kazakhstan and the diversion of all international flights to Astana; and what assessment has been made of the effect of this change on UK-Kazakhstan *(a)* bilateral relations and *(b)* trade. [218178]

Mr. Rammell: Discussions are ongoing with the Kazakhstan authorities but the Government have made clear their opposition to their proposals for Astana to become the sole point of entry for international flights from certain European countries. The Government are discussing with UK airlines, and with other European countries, what the implications of this might be for future aviation links with Kazakhstan. We are also discussing the possible wider implications with British businesses.

Kyrgyzstan

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made by his Department of the prospects for free and fair elections in Kyrgyzstan on 27 February; and if he will make a statement. [218282]

Mr. Rammell: President Akaev and his Government have declared their commitment to holding fair and transparent elections in line with fundamental human rights. We have welcomed this commitment and we have been supporting efforts to fulfil it—bilaterally and through the Organisation for Security and Cooperation in Europe (OSCE) and the EU. These elections are an opportunity for Kyrgyzstan to demonstrate that they are leading the way towards democracy in Central Asia. However, several NGOs have raised concerns about the conduct of these elections including on the freedom of the media and freedom of expression. The international community will keenly await the findings of the OSCE/Office for Democratic Institutions and Human Rights Election Observation Mission and others who have been present in Kyrgyzstan over the election period.

Nepal

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what types of assistance have been given to the global conflict prevention pool since its inception in 2001 for the specific purpose of tackling the causes of the conflict in Nepal; if his Department will continue assistance to foster a democratic Nepalese state following the actions of King Gyanendra since 1 February 2004; and if he will make a statement. [214728]

Mr. Alexander: The global conflict pool has funded many activities aimed at tackling the underlying causes of conflict in Nepal. These causes include poverty, social injustice, corruption and human rights violations. We have funded the following activities to address them:

Rural infrastructure programmes 2002–03

Food support to communities in Maoist areas 2003–04

Support for civilian human rights initiatives 2003–04

Police reform 2003–04

Human rights advisor 2003–04

Assistance to the ICRC programme 2004–05

Support to the Government peace unit 2004–05

Political and conflict analysis 2004–05

My right hon. Friend the Minister of State for Defence (Mr. Ingram) notified Parliament of the withdrawal of our proposed package of military assistance to Nepal on 21 February 2005, *Official Report*, columns 252–53W. In his reply to my right hon. Friend the Member for Birmingham, Ladywood (Clare Short) on Nepal he stated:

> "In light of the recent events in Nepal, the Government has decided to withdraw the minute relating to the gift of military equipment rending a full review of our policy with regard to the provision of military assistance and equipment to Nepal".

We remain deeply concerned by the King's assumption of power on 1 February 2005. Such is the level of our concern that on 14 February the Foreign Secretary temporarily recalled our ambassador in Nepal for consultations. We will continue to work to secure a peaceful, durable and democratic resolution to the conflict. I have already made a statement calling for the immediate restitution of multi-party democracy. A copy of my statement is available on the FCO website www.fco.gov.uk/policy/news/press-releases.

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will halt the provision of military equipment and training to the Government of Nepal following recent actions by King Gyanendra; what assessment he has made of reports of human rights abuses by the Nepali security forces; and if he will make a statement. [215939]

Mr. Alexander: The UK is deeply concerned by the King's assumption of power in Nepal on 1 February. Through the Global Conflict Prevention Pool, funded by the Foreign and Commonwealth Office, the Ministry of Defence and the Department for International Development, we have been providing non-lethal military assistance to Nepal including training and equipment to help enhance bomb disposal efforts and intelligence gathering capabilities, and to increase the accuracy of the army's legitimate counter insurgency operations.

On 14 February my right hon. Friend the Foreign Secretary recalled our Ambassador in Nepal to London for consultations. Following those consultations with our Ambassador and other key international partners we decided to withdraw the proposal, laid before Parliament in a minute of 20 January 2005, for a further tranche of military assistance to Nepal. I refer my right hon. Friend to the reply my right hon. Friend the Minister of State for Defence gave her on 21 February 2005, *Official Report*, columns 252–53W.

We are deeply troubled by numerous credible reports of severe human rights violations by the Maoists and the Nepalese security forces. We have regularly criticised Nepal's poor human rights record. We have also funded projects working with the armed forces and the police to improve their understanding and respect for human rights. When I visited in Nepal in November 2004 I underlined the strong importance the UK attaches to human rights with all my interlocutors, including the King.

Student Visas

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of processing an international student visa was in the last year for which figures are available. [218550]

Mr. Mullin: Visa fees are set at a level to ensure that the full cost of providing the world-wide entry clearance service is met entirely from fee income and that no part of the cost is met by the UK taxpayer. Since 1 July 2002, the student visa fee has been £36, which is considerably below the cost of processing. The levels of all visa fees are currently under review to ensure that the full cost of the visa service is being met.

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of international visas issued by the Foreign and Commonwealth Office were student visas in the last year for which figures are available. [218580]

Mr. Mullin: The Foreign and Commonwealth Office issued 1,836,362 visas in the year from 1 April 2003 to 31 March 2004. Of these, 146,736 were issued to students. This is approximately 8 per cent. of the total of visas issued.

Figures for April 2004-March 2005 are not yet available. When they are, they can be found, along with further entry clearance statistics, on the UK visas website at www.ukvisas.gov.uk-"Entry Clearance: Facts and Figures".

Sudan

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps *(a)* the UK and *(b)* the UN are taking to assist the reform of Sudanese criminal law to bring it into line with international human rights and humanitarian law. [218668]

Mr. Mullin: Under the terms of the Comprehensive Peace Agreement (CPA), the Sudanese Government have committed itself to complying fully with international human rights treaties. The CPA sets out rights and freedoms to be enjoyed under Sudanese law, including the rights to fair trial and equality before the law. The UK plans to play a leading role supporting reform of the Sudanese justice sector. We have committed £7.2 million for a programme which will include training for police and the establishment of key commissions to support the implementation of the Peace Agreement. We are also funding programmes through the UN Development Programme (UNDP), Christian Aid and the Sudanese Organisation Against Torture (SOAT) to support legal aid training and to raise awareness of human rights standards.

The United Nations Development Programme (UNDP) is leading the UN's effort to strengthen the rule of law in Sudan. They are focusing on training and capacity building. The UK has provided funds for UNDP to appoint two legal experts to work on legal reconstruction and reform, and to co-ordinate donor support in this area. The United Nations High Commissioner for Human Rights (UNHCR) is also implementing programmes for the promotion and protection of human rights in the administration of justice. It is important to seize the opportunities offered by the CPA to make progress on human rights in Sudan.

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps *(a)* the UK and *(b)* the UN is taking to ensure that the Sudanese Government adheres to its obligations under the Comprehensive Peace Agreement. [218669]

Mr. Mullin: We have made clear our commitment to helping the parties implement the Comprehensive Peace Agreement (CPA), signed on 9 January 2005, in Nairobi.

We regularly press the Government of Sudan and the Sudanese People's Liberation Movement/Army to establish the Government of National Unity and the necessary Commissions to take the CPA forward. We have also committed £100 million in humanitarian and development aid to Sudan for the coming financial year, and supported signature of the EU's Country Strategy Paper, which unlocks a progressive release of funds to Sudan based on successful implementation of the Agreement.

The UN Security Council is currently discussing a draft resolution, which includes plans for a UN Peace Support Operation (PSO) of up to 11,000 personnel to south Sudan. The PSO will monitor compliance with the

terms of the CPA and will include a number of civilian experts to assist the parties in implementing the agreement.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the chances for future stability in Uganda, with particular reference to the recent statement on the issue by British High Commissioner Mr. Adam Wood. [218272]

Mr. Mullin: Given Uganda's past experience, it is crucial that the current process of constitutional change is widely perceived as legitimate, and carries the confidence of the Ugandan people and Parliament. We have urged that Parliament should be given the opportunity to vote on proposed amendments individually and in the spirit of constitutional provisions for change.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the visit to Uganda by the Iranian President Mohammad Khatami and *(b)* the level of support by President Museveni for the Iranian nuclear programme. [218285]

Mr. Mullin: I refer the hon. Member to the reply I gave to the hon. Member for Portsmouth, South (Mr. Hancock) today (UIN 218287).

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the visit to North Korea by the Ugandan Defence Minister Mr. Amama Mbabazi and *(b)* the extent of Ugandan support for North Korea's nuclear programme. [218286]

Mr. Mullin: The Defence Minister may have been exploring military procurement. We have helped Uganda undertake a comprehensive defence review. We are now concerned that all Uganda's defence spending—including its classified budget—should reflect the priorities identified in that review.

We do not consider that Uganda can offer significant support on nuclear issues.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the visit to Uganda by the Iranian President Mohammad Khatami and *(b)* the extent of Uganda's support for the Iranian nuclear programme. [218287]

Mr. Mullin: The two Presidents, in their public statements, discussed Iranian investment in Uganda. Inward investment is important to Uganda. It needs to be based on sustainable financial arrangements that benefit the economy. We do not consider Uganda has significant support to offer on nuclear issues.

Zimbabwe

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to dissuade African countries from supporting President Mugabe's land reform policies in Zimbabwe. [218288]

Mr. Mullin: We want to see the return of democracy, prosperity and the rule of law in Zimbabwe and are working with our international partners to that end. In this context we have raised, and continue to raise, Mugabe's disastrous land reform policies with other African countries.

WORK AND PENSIONS

APW Pension Scheme

Mr. Chidgey: To ask the Secretary of State for Work and Pensions whether pensioners who will retire after the wind-up of the APW pension scheme will qualify for the deemed buyback of guaranteed minimum pensions and have these benefits backdated to the date at which they retired at age 65. [218995]

Malcolm Wicks: Pensioners who retire after the wind-up of the APW Pension scheme may qualify for deemed buyback, providing the amount of scheme rights that are available in respect of the member (the Actual Transfer Value) is less than the amount required to restore State Scheme rights to the level they would have been had the member never been contracted-out (the Technical Amount).

For those who qualify and opt for deemed buyback the state pension will be uprated from the "effective date" (as defined in regulation 1(2) of the Occupational Pension Schemes (Contracting-out) (Amount Required for Restoring State Scheme Rights and Miscellaneous Amendment) Regulations 1998 (SI 1998/1397). The "effective date" is the date that the Secretary of State determines, for the purposes of Deemed Buyback, the extent to which the resources of the pension scheme are insufficient to meet the liability for the cash equivalent of the member's rights under the scheme.

Benefit Overpayments

Mr. Chope: To ask the Secretary of State for Work and Pensions what representations he has received in response to proposals to change the rules relating to overpayments of benefit resulting from changes in circumstances which have been reported to his Department but have not been acted upon. [212340]

Mr. Pond: Where there has been a full and correct disclosure of changes of circumstances, overpayments arising as a result of the Department failing to action a reported change are not recoverable under social security legislation.

We have no plans to change the rules relating to such overpayments.

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213815]

Maria Eagle: Where a congestion charge is incurred in the course of official business, the Department meets this cost. The information on cost is not held centrally and could be obtained only at disproportionate cost.

The Department incurs no costs relating to penalty charge notices incurred by civil servants.

For information on congestion charges and penalty charges incurred by vehicles provided to Departments by the Government Car and Despatch Agency I refer the hon. Member to the answer given by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Milburn) on 28 February 2005, *Official Report*, column 957W.

Council Tax Benefit

Mr. Cousins: To ask the Secretary of State for Work and Pensions what the *(a)* savings limit and *(b)* disregards in the assessment of council tax benefit have been since 2001; and what assessment he has made of the financial consequences of introducing assessments of savings based on those used in pension credit. [218027]

Mr. Pond: Prior to April 2001 the lower capital limit was £3,000 and the upper capital limit was £16,000 for all client groups. From April 2001 the lower capital limit for pensioners was raised to £6,000. From April 2006 the lower capital limit for working age people will be raised to £6,000 to bring it into line with that of pensioners. With the introduction of pension credit in October 2003 the amount of notional income that is assumed from capital, for pensioners has been halved from £1 in every £250 over the lower limit to £1 in every £500; there is no upper capital limit for those pensioners receiving the guarantee credit element of pension credit.

If the savings rules for council tax benefit were changed to match those in pension credit, there would be some 160,000 additional beneficiaries at an estimated cost of £65 million.

Notes:

1. Beneficiaries are rounded to the nearest 10 thousand, costs to the nearest £5 million.
2. Each beneficiary represents a benefit unit, which can be a single claimant or a couple.
3. The impact is estimated using the DWP Policy Simulation Model for 2005–06.
4. This model is based on the 2002–03 Family Resources Survey data, up-rated to 2004–05 prices, benefit rates and earnings levels, and is calibrated to latest published forecasts and policies.

Departmental Policies

David Taylor: To ask the Secretary of State for Work and Pensions if he will set out, with statistical evidence relating as closely as possible to North-West Leicestershire constituency, the effects of changes to departmental policy since 1997 on North-West Leicestershire constituency. [218046]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in North West Leicestershire will have benefited from these improvements in disability rights. Similarly, families with severely disabled three and four-year old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, whilst older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 22 per cent. of adults and 7 per cent. of children in the East Midlands Region are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in North West Leicestershire who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

North West Leicestershire

Operational year	*Number DLA/AA recipients*
2001	5,400
2002	5,500
2003	5,700
2004	6,000

Note:
Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

DWP Information Centre.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; in North West Leicestershire, the proportion in employment has risen to 87 per cent.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the New Deals, with over 920 in North West Leicestershire alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 1,200 families in North West Leicestershire.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the State Second Pension, which helps more future pensioners build up better pensions, especially carers. pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 3,495 pensioners in North West Leicestershire are receiving pension credit, with an average award of £36.33 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70 plus payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their Basic State Pension of 7 per cent. and 8 per cent., respectively. Some 16,400 pensioners in North West Leicestershire have benefited from this increase.

Mr. Martyn Jones: To ask the Secretary of State for Work and Pensions if he will set out, with statistical information relating as directly as possible to the Clwyd, south constituency, the effect on the constituency of policies pursued by his Department at the Council of Ministers; and if he will make a statement. [215720]

Jane Kennedy: I refer the hon. Member to the written answer I gave him on 31 January 2005, *Official Report*, columns 605–07W. Promoting work and social inclusion are also at the heart of this Department's policy towards business in the Employment and Social Policy Council. These policies apply to the whole of the United Kingdom and it is not possible to distinguish the effect on a particular constituency.

Geraint Davies: To ask the Secretary of State for Work and Pensions if he will set out, with statistical evidence relating as closely as possible to the Croydon, Central constituency, the effects of changes to departmental policy since 1997 on the Croydon, Central constituency. [219288]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Croydon, Central will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Governments decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 18 per cent. of adults and 4 per cent. of children in the London area are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Croydon, Central who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Croydon, Central

Operational year	*DLA/AA recipients*
2001	4,600
2002	4,600
2003	5,000
2004	5,600

Source:
DWP Information Centre. Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; though in Croydon, Central the proportion in employment has reduced by 1.5 points since 1997 to 77.6 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 2,630 in Croydon, Central alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years-old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 3,600 families in Croydon, Central.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the state second pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the

first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 3,815 pensioners in Croydon, Central are receiving pension credit, with an average award of £48.69 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70+ payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 16,600 pensioners in Croydon, Central have benefited from this increase.

Departmental Expenditure

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how much has been spent by his Department on *(a)* new furniture and *(b)* hired furniture in each year since 1997. [205606]

Maria Eagle: DWP was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment, including the Employment Service (ES). Information on the cost of purchasing new furniture is in the table.

DWP purchases of furniture and fittings

	£
1997–98	7,335,000
1998–99	14,341,000
1999–2000	1,239,000
2000–01	636,000
2001–02	11,373,000
2002–03	3,780,000
2003–04	1,398,000

Note:

Figures for the period prior to June 2001 refer to the former DSS and ES.

DSS entered into a 20-year PFI Partnership Agreement from 1 April 1998 for the provision of fully serviced accommodation for the former DSS estate. The agreement included the hire of furniture, the cost of which is not separately identifiable. During 2003–04, the agreement was extended to cover all Jobcentre Plus properties.

All expenditure incurred in the purchase and procurement of services and items is made in accordance with the departmental guidance on financial procedures and propriety, based on principles set out in Government accounting.

Financial Assistance Scheme

Adam Price: To ask the Secretary of State for Work and Pensions pursuant to his oral statement of 22 February 2005, on the Financial Assistance Scheme, what estimate his Department has made of the annual cost of the guarantee to workers within three years of retirement. [218368]

Malcolm Wicks *[holding answer 25 February 2005]:* As made clear in the statement, on 22 February 2005, *Official Report,* column 16WS, firm estimates of the extent of individual losses, and of costs overall and in individual years, can only be made once the pension schemes concerned have applied for FAS assistance and completed or are close to completing wind-up, so it is much too early in the setting up of the FAS to have a firm estimate of the annual cost of the assistance.

Growth Areas (Funding)

Phil Sawford: To ask the Secretary of State for Work and Pensions what funding his Department has earmarked for growth areas to ensure that they have the resources required to meet the demands of a growing population. [218333]

Maria Eagle: The Department for Work and Pension's major expenditure (around £100 billion in 2005–06) is on benefits and pensions which are determined by a combination of need and entitlement conditions. Application of these factors will ensure that where appropriate our expenditure meets the demands of a growing population. The Department does not have any resource specifically earmarked for growth areas.

Job Vacancies

Malcolm Bruce: To ask the Secretary of State for Work and Pensions how information on job vacancies is provided to the public other than through Jobcentres; and what the cost is of each such method. [217477]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Malcolm Bruce, dated 3 March 2005:

The Secretary of State has asked me to reply to your question 'how information on job vacancies is provided to the public other than through Jobcentres; and what the cost is of each such method'. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Information about vacancies is provided through four different channels in addition to Jobcentres. Jobseeker Direct, a telephone service operated through Jobcentre Plus contact centres which customers can access from home or through a dedicated phone. The annual cost for this service is £11.8 million.

A network of 68 jobpoints located in libraries, supermarkets and community centres provides access to vacancy information outside the Jobcentre network and cost £0.3 million. We are introducing access to vacancy information via touch screen kiosks provided by our partners (mainly local authorities). This costs £0.03 million per annum.

The Jobcentre Plus and Worktrain websites provide internet access to vacancy information and in total the service costs £2.3 million to operate both sites.

I hope this is helpful.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions what his latest estimate is of the take-up rate of the savings credit element of the pension credit; and how much savings credits remains unclaimed. [218690]

Malcolm Wicks *[holding answer 28 February 2005]:* National statistics on take-up of major DWP benefits are published annually by the Department in "Income Related Benefits: Estimates of Take-up". These are based on the Family Resources Survey (FRS) for the relevant year and take account of both entitled non-recipients and non-entitled recipients. However, they are published significantly in arrears and the 2004–05 statistics will not be available for some time.

Take-up for private households entitled to the savings element of pension credit is of the order of 60 per cent. This figure does not include those in residential care or nursing homes. It is derived by comparing administrative and survey sources, which are not directly comparable. No meaningful robust figures for the savings element unclaimed can be derived in this way. Indeed any take-up figure derived this way is indicative only.

Pensions Act 1995

Mr. Denham: To ask the Secretary of State for Work and Pensions how many individuals have been able to exercise their right to deemed buy back under the Pensions Act 1995. [219452]

Malcolm Wicks *[holding answer 2 March 2005]:* It has been established that, of the schemes that have approached the Inland Revenue so far, there are currently around 800 members of underfunded contracted-out pension schemes in wind-up who have had the opportunity to exercise their right to deemed buyback. However, deemed buyback is only one of a number of options available to a member for securing their accrued rights (for example they could transfer their rights to another scheme). The final decision on which option to use is taken by the member, not the scheme.

Personal Advisers

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many personal advisers will be employed within Jobcentre Plus as part of the roll out of the Pathways to Work programme in the financial years *(a)* 2005–06 and *(b)* 2006–07. [219733]

Maria Eagle: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from Jeremy Groombridge to Mr. Paul Goodman dated 3 March 2005:

The Secretary of State has asked David Anderson to reply to your question concerning the number of Personal Advisers employed within Jobcentre Plus as part of the roll out of the Pathways to Work Programme in the financial years 2005–06 and 2006–07. This is something which falls within the responsibilities delegated to him as Chief Executive of Jobcentre Plus. I am replying on his behalf as one of the Directors of the Jobcentre Plus Board.

In answer to your specific question, the estimated number of Personal Advisers who will be employed in 2005/06 is 359, increasing to 467 in 2006/07.

I would add that the number of Personal Advisers who will be employed as part of the Pathways to Work Programme is subject to change. Our current estimate of the number of additional Personal Advisers has been determined by the latest version of the Costing Model. This Model determines the number of Personal Advisers, and other staff, required to undertake the additional Pathways activity and allocates resources accordingly. The Costing Model continues to be developed and consequently any changes that are made may potentially alter the estimate of the number of Personal Advisers required, I hope this is helpful.

Prescribed Disease A11

David Hamilton: To ask the Secretary of State for Work and Pensions when he expects that the change to the terms of prescription of prescribed disease A11 will be put in place. [218257]

Jane Kennedy: The Industrial Injuries Advisory Council published its report on Hand Arm Vibration Syndrome in July 2004. The principal recommendation was that the terms of prescription for PD A11 (vibration white finger) be extended to include sensorineural symptoms, in addition to the existing vascular symptoms.

The regulatory changes required to implement the recommendations relating to Hand Arm Vibration Syndrome are currently being worked on. It is intended that the new regulations will come into force in summer 2005.

Private Pensions

Mr. Chidgey: To ask the Secretary of State for Work and Pensions if he will review the information in booklets and leaflets issued by *(a)* his Department, *(b)* the Occupational Pensions Regulatory Authority and *(c)* the Financial Services Authority regarding the security of private pensions. [218997]

Malcolm Wicks: We recognise the need to keep leaflets and other material up to date, but the Department does not offer financial advice and cannot assume responsibility for doing so. The Department and the Occupational Pensions Regulatory Authority regularly review the information in their general booklets and leaflets and provide whatever helpful general information they can.

The Financial Services Authority does not have responsibility for the rights of members of occupational pensions schemes but does provide basic information for consumers on these schemes through its consumer publications. This information is general and does not constitute financial advice. The FSA regularly reviews and updates its consumer publications.

Written Answers to Questions

Friday 4 March 2005

CONSTITUTIONAL AFFAIRS

Gaelic Language

Mr. Alan Reid: To ask the Parliamentary Secretary, Department for Constitutional Affairs what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217091]

Mr. Leslie: Action to support the Gaelic language is primarily the responsibility of the Scottish Executive.

The Department for Constitutional Affairs attaches great importance to the promotion and protection of the Gaelic language in line with the UK's obligations under the European Charter for Regional and Minority Languages.

The Gaelic Language (Scotland) Bill currently before the Scottish Parliament does not extend statutory obligations on UK public bodies in Scotland in relation to the preparation or implementation of Gaelic language plans. However, UK Departments and public bodies which operate in Scotland may—like comparable Scottish public bodies—have a role to play in facilitating the use of the language.

My Department has been working closely with colleagues in the Scotland Office and the Scottish Executive on the role we can play, voluntarily, in securing the status of Gaelic.

Unpaid Fines

Sarah Teather: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many and what value of court-imposed fines have been defaulted on in *(a)* each London borough and *(b)* England in each year since 1997. [212370]

Mr. Leslie: Information on fines imposed and collected is provided by the 42 magistrates courts committees (MCCs) with the Greater London Magistrates' Courts Authority (GLMCA) responsible for courts covering the Greater London area.

Data are collected on the value of financial penalties (including fines) imposed and outstanding. It is not possible to separately identify the number and value of court-imposed fines defaulted on in any one year.

Table 1 shows the national position since 1999 when payment rate collection began. There is no comparable data for previous years. Table 2 shows performance and payment rates prior to the establishment of the GLMCA in 2001 for the 22 magistrates courts committees (MCCs) that were subsequently amalgamated into the GLMCA. Data are not available centrally at borough level.

Table 1

Percentage

Financial year	*Payment rate[2] (National—England and Wales)*	*Payment rate (GLMCA)*
1999–2000	62	[1]See table 2 and note below
2000–01	63	[1]See table 2 and note below
2001–02	59	46
2002–03	55	40
2003–04	74	66
2004–05 (April-January)	80	67

[1] Prior to 2001 the GLMCA did not exist as a single entity. It was created from the amalgamation of 22 magistrates courts committees (MCCs) on 1 April 2001 and therefore no earlier comparable figures exist. In addition, as a result of changes to the calculation of the payment rate in 2003–04, direct year-on-year comparisons are not appropriate (see note [2]).

[2] The Payment Rate is defined as the amount paid into court as a percentage of new amounts owed. As a result of the revisions in the method of calculating the payment rate (detailed as follows), direct year-on-year comparisons cannot be made.

Payment rate (September 1999 to March 2003)

The calculation for the payment rate until March 2003 was:

Payment rate = amount paid divided by new amount owed

(New amount owed includes legally cancelled plus civil plus confiscation orders)

Payment rate (April 2003 to December 2003)

The calculation for the payment rate between April 2003 and December 2003 was:

Payment rate = amount paid divided by new amount owed

(New amount owed excludes legally cancelled plus civil plus confiscation orders)

Payment rate (January 2004 onwards)

The payment rate is currently calculated as follows:

Payment rate = amount paid divided by new amount owed

(New amount owed excludes legally cancelled plus administratively cancelled plus civil plus confiscation orders)

Table 2: Payment rate for Greater London MCCs (now GLMCA)

TREASURY

Correspondence

Mr. Steen: To ask the Chancellor of the Exchequer when the Chairman of the Inland Revenue will reply to the letter from the hon. Member for Totnes dated 20 December 2004 with regard to Mr. and Mrs. J Griffin of Brixham. [219812]

Dawn Primarolo: The Inland Revenue replied to the hon. Member on 1 March 2005.

Euros

Mr. Brady: To ask the Chancellor of the Exchequer how many euro coins and notes have been produced *(a)* in and *(b)* for the United Kingdom in preparation for possible British membership of the euro; and what the cost of production has been. [220230]

Mr. Timms: No UK euro notes or coin have been produced for a possible changeover to the single currency.

Further details of the Government's Policy on how a cash changeover would be managed, should there be a UK changeover, is published in Chapter 5 of the "third outline National Changeover Plan, June 2003", which is available in the House of Commons Library.

Bereavement Grants

Mr. Willetts: To ask the Chancellor of the Exchequer whether bereavement grants are taxable. [219555]

Dawn Primarolo: Bereavement payment, made under s36 SSCBA 1992, is not taxable but the weekly bereavement allowance, paid under s39 SSCBA 1992, is taxable.

Corporation Tax

Mr. Byrne: To ask the Chancellor of the Exchequer how much UK corporation tax revenue was collected in each of the last 10 years, broken down by industry. [219439]

Dawn Primarolo: The following table shows the amount of Corporation Tax liability by industry for the last 10 years for which figures are available.

Corporation tax liability by financial year

£ million

Growth Rate

Mr. Willetts: To ask the Chancellor of the Exchequer what the UK's five year rolling average growth rate has been in each year since 1992. [219556]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Willetts, dated 4 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what the UK's five year rolling average growth rate has been in each year since 1992. (219556)

The rolling average growth rates of UK Gross Domestic Product, for each year since 1992, in nominal terms (current prices) and chained volume measures (constant prices) are summarised in the table below:

Growth rates of UK Gross Domestic Product

Rolling annual average growth rates for:	*Using data for:*	*Average percentage change in GDP—current prices*	*Average percentage change in GDP—constant at 2000 prices*
1992	1989 to 1994	5.8	1.3
1993	1990 to 1995	5.2	1.7
1994	1991 to 1996	5.4	2.5
1995	1992 to 1997	5.8	3.1
1996	1993 to 1998	6.0	3.3
1997	1994 to 1999	5.8	3.0
1998	1995 to 2000	5.8	3.2
1999	1996 to 2001	5.4	3.1
2000	1997 to 2002	5.2	2.8
2001	1998 to 2003	3.8	3.9
2002	1999 to 2004	3.4	4.4

Mr. Willetts: To ask the Chancellor of the Exchequer what estimate his Department has made of the effect of migration on the underlying growth rate of the UK economy. [219561]

Mr. Timms: The Treasury's projection for the trend growth rate of the economy is built up from projections of growth for the different components that drive trend growth, one of which is the population of working age. As referred to in the 2004 pre-Budget report, the trend growth assumption is 2¾ per cent. over the current economic cycle, with growth in the working-age population contributing around ¼ percentage point. Included in this ¼ percentage point is a contribution from net migration of slightly over ¼ percentage point. The paper "Trend Growth: Recent Developments and Prospects" published alongside Budget 2002 explained the Treasury's approach to assessing trend growth, and further relevant material is published in the economy chapter of each pre-Budget and Budget report.

Inland Revenue/Customs and Excise (Merger)

Mr. Key: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the Inland Revenue office in Alexandra House, Salisbury of the merger of the Inland Revenue with Customs and Excise. [219776]

Dawn Primarolo: Any decisions are dependent upon customer requirements and the development of the new HMRC business model. The plans for Alexandra House, Salisbury were made public in my written answer of 1 February 2005, *Official Report*, column 759W. Planning options continue to be explored for the staff affected.

Rent-a-room Scheme

Mr. Willetts: To ask the Chancellor of the Exchequer how many *(a)* landlords and *(b)* tenants have participated in the rent-a-room scheme. [219553]

Dawn Primarolo: The Inland Revenue does not have central records of the numbers of landlords or tenants who have participated in the rent-a-room scheme, as many of those landlords do not have to complete tax returns.

Tax Credits

Mr. Willetts: To ask the Chancellor of the Exchequer pursuant to the oral answer of 11 November 2004, *Official Report*, column 922, on tax credits, when the figures for overpayments of tax credits referred to will be published. [212358]

Dawn Primarolo: Statistics on overpayments and underpayments will be published in spring 2005 under National Statistics. In line with the National Statistics code of practice, the date of publication will be announced on the Inland Revenue website in due course.

http://www.inlandrevenue.gov.uk/stats/updates/updating_figures_2003_1.htm

Mr. Tynan: To ask the Chancellor of the Exchequer (1) what safeguards are in place to ensure individuals do not suffer financial hardship through the recovery of overpayment of tax credits by the Inland Revenue; [219531]

(2) what factors are taken into account before the Inland Revenue takes a decision on the level of repayment an individual should make towards recovery of overpayment of tax credit; [219532]

(3) what steps the Inland Revenue takes to discuss affordability with individuals in advance of imposing deductions to recover overpayments of tax credit. [219533]

Dawn Primarolo: The Inland Revenue's Code of Practice 26 ("What happens if we have paid you too much tax credit?") sets out their approach to handling overpayments of tax credits. It describes a number of measures the Revenue has put in place to protect against hardship being caused by the recovery of an overpayment, which I can summarise as follows:

Where possible, the Inland Revenue will collect an overpayment from a previous year from a continuing award. There are automatic limits on the amounts that will be deducted from payments and these are designed to prevent hardship.

Where a claimant's circumstances change, the Inland Revenue adjust their payments for the rest of the year with the aim of paying the right amount of tax credits for the year as a whole. The Inland Revenue may make additional tax credits payments to prevent hardship where payments are reduced following the adjustment of an award. The effect of these payments is that only part of an expected overpayment being collected is recovered by the end of the year, leaving the balance to be recovered in later years.

In exceptional cases, where claimants still feel that recovery of an overpayment is causing hardship, the Inland Revenue will consider the facts of the case and may decide not to collect all or part of the overpayment, or allow more time to pay.

Where claimants have no award for the current year, they receive a "Notice to Pay". This advises them to contact the Inland Revenue if they want to arrange to pay back their overpayment in 12 monthly instalments, or to request repayment over a longer period.

Mr. Webb: To ask the Chancellor of the Exchequer when he will reply to the letter from the hon. Member for Northavon of 5 January (PO Ref: 1/38019/2005) regarding the tax credits position of a constituent; and if he will ensure that the constituent receives emergency giro payments of tax credits at the earliest possible opportunity. [219743]

Dawn Primarolo: I wrote to the hon. Member on 2 March.

The Inland Revenue sent the hon. Member's constituent a payment on 1 March.

Mr. Steen: To ask the Chancellor of the Exchequer when a giro for an underpayment of tax credits for the 2004–05 tax year will be sent to Mr. David Crawford of Galmpton; why it has not been issued to date; and if he will make a statement on the tax credit computer system problems which are preventing giros being issued. [219809]

Dawn Primarolo: The Inland Revenue wrote to the hon. Member on 3 March 2005.

Mr. Steen: To ask the Chancellor of the Exchequer if he will investigate the reasons for working family tax credit being reclaimed from Ms Deborah Porter of Paignton; and for what reasons the Tax Credit Office have not replied to her letters. [219810]

Dawn Primarolo: The Inland Revenue replied to the hon. Member's constituent's letters on 3 December 2004 and 3 March 2005. Their Code of Practice 26 "What happens if we have paid you too much tax credits?" outlines the approach they take in dealing with overpayments of tax credits.

Tax Returns

Pete Wishart: To ask the Chancellor of the Exchequer if he will estimate the annual saving to the Exchequer of the introduction of *(a)* self-assessment tax returns and *(b)* online filing of self-assessment tax returns. [212348]

Dawn Primarolo: Self-Assessment was introduced in 1996 to modernise and simplify the assessment and payment processes. The new system also produced staff savings worth over £450million within the first four years. The success of the project was confirmed in an independent post-implementation review.

Since 1996 many improvements and changes have been made in the light of experience and they have also produced savings. One of the most significant has been the ability to file online (via the internet or the electronic lodgement service). More than 1.6 million online tax returns have been received in 2004–05 (for tax year 2003–04). These will generate targeted savings of more than £14 million in 2005–6, which as take-up continues to rise will increase to over £40 million per annum from 2011–12.

Pete Wishart: To ask the Chancellor of the Exchequer how many random checks on *(a)* self-employed and *(b)* small business tax returns there were in (i) 1997, (ii) 2001 and (iii) the last year for which figures are available; and what proportion of these random checks identified (A) major and (B) minor errors or omissions. [212349]

Dawn Primarolo: I can inform that hon. Gentleman that in every year since 1997 the Inland Revenue has undertaken roughly 2,600 random enquiries into the tax returns of self-employed individuals and roughly 250 random enquiries into the tax returns of small businesses. In the tax year 1997–98 adjustments were made to the returns in 32 per cent. of all random enquiries. The last year for which the Inland Revenue has produced complete analysis is 1998–99. In 1998–99 adjustments were made to returns in 30 per cent. of random enquiries.

Pete Wishart: To ask the Chancellor of the Exchequer if he will estimate the cost of random checks of self-assessment tax returns in *(a)* 1997, *(b)* 2001 and *(c)* the last year for which figures are available. [212350]

Dawn Primarolo: The Inland Revenue has not undertaken any research into such costs.

Pete Wishart: To ask the Chancellor of the Exchequer what assessment he has made of the tax fee insurance being offered by accountancy firms to cover costs in the event of a random audit by the Inland Revenue; and if he will make a statement. [212351]

Dawn Primarolo: The Inland Revenue has not made any assessment of these insurance schemes.

Pete Wishart: To ask the Chancellor of the Exchequer what estimate he has made of the average costs borne by an individual facing a random audit of their income tax return; whether financial assistance will be made available to cover the costs for those individuals who are found to have filed their return correctly; and if he will make a statement. [212352]

Dawn Primarolo: The Inland Revenue has not undertaken any research into the costs concerned and has no plans to offer to reimburse such costs in any inquiry case.

Pete Wishart: To ask the Chancellor of the Exchequer whether there is a difference in the average cost for the Inland Revenue when undertaking a random audit of an individual's income tax return when the Inland Revenue deals with *(a)* an accountant representing the individual and *(b)* the individual themselves. [212353]

Dawn Primarolo: The Inland Revenue has not undertaken any research into the relative costs concerned.

Tax Take (Scotland)

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will estimate the impact *(a)* in total and *(b)* as a percentage on (i) total Government revenue, (ii) income tax take, (iii) corporation tax take, (iv) national insurance take and (v) revenue from duties of an increase in Scottish gross domestic product of (A) 0.5 per cent., (B) 1 per cent. and (C) 1.5 per cent. on his most recent estimate for UK gross domestic product growth. [212356]

Dawn Primarolo: The information requested is not available. The overall impact on revenues of stronger relative Scottish growth would depend upon the composition of the extra growth.

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will estimate the impact *(a)* in total and *(b)* as a percentage on (i) total Government revenue, (ii) income tax take, (iii) corporation tax take, (iv) national insurance take and (v) revenue from duties of a medium-term fall in Scotland's population of (A) 100,000, (B) 250,000 and (C) 500,000. [212357]

Dawn Primarolo: The information requested is not available. The impact on total government revenues from a fall in the population of Scotland would depend in part on the effects on the age profile and income distribution of the population.

HOUSE OF COMMONS COMMISSION

Portcullis House (Fire Alarms)

Mr. Dismore: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many fire alarms have gone off in Portcullis House in each of the last two years; how many were found not to have been caused by a fire; what the *(a)* shortest, *(b)* average and *(c)* longest period was that the building was closed; and if he will make a statement. [219696]

Sir Archy Kirkwood: In 2003, detecting devices were triggered in Portcullis House on 73 occasions, of which 18 were caused by fire and smoke, 17 were activated for other reasons such as steam, and 38 were faults in the system. The corresponding figures for 2004 are 86, 18, 14 and 54. The fire alarm sounded and as a result there was a full evacuation of the building on two occasions in 2003 and seven in 2004. Records are not kept of the length of each evacuation.

SOLICITOR-GENERAL

Crown Prosecution Service Prosecutions

Mr. Amess: To ask the Solicitor-General how many *(a)* fraud, *(b)* forgery, *(c)* gun crime, *(d)* internet crime, *(e)* robbery, *(f)* snatch theft and *(g)* alcohol-related violent offence cases the Crown Prosecution Service has brought in (i) Essex and (ii) England and Wales in each year since 1997; and how many of these resulted in (A) conviction and (B) acquittal. [210455]

The Solicitor-General: Gun crime, internet crime and alcohol-related violent offences are offences which cannot be separately identified on the Home Office Court Proceedings Database. Snatch theft is categorised as theft from the person. The table sets out the relevant figures for the other requested categories. The figures relate to persons for whom these sentences were for the principal offences for which they were found guilty. When a defendant has been found guilty of two or more offences it is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Number of defendants proceeded against at magistrates courts, found guilty at all courts and acquitted at crown courts for various offences—Essex police force area and England and Wales, 1997 to 2003 [1]

[1] These data are on the principal offence basis.

Freedom of Information Requests

Dr. Julian Lewis: To ask the Solicitor-General what her policy is in respect of the publication *(a)* on the departmental website and *(b)* by placing copies in the Library of (i) all or (ii) a selection of the information disclosed in response to Freedom of Information requests since January. [215220]

The Solicitor-General: Where a response is likely to be of general interest, I have arranged for the information to be placed on the departmental website. This is decided on a case-by-case basis.

This is consistent with Guidance on Publication Schemes issued by the Department of Constitutional Affairs in July 2002, which recommended that where information is disclosed to an individual in response to a request under the Freedom of Information Act, Departments should consider whether the information disclosed is of general interest and include released information in the Publication Scheme where appropriate.

I do not intend as a general rule to make such information available in the Library, as placing it on the website makes it available to a wider audience.

Rape/Sexual Assault

Vera Baird: To ask the Solicitor-General what plans she has to improve the prosecution attrition rate in rape cases. [215577]

The Solicitor-General: The HMCPSI and HMIC joint thematic inspection into the investigation and prosecution of cases involving allegations of rape was published in April 2002. The report set out concerns regarding levels of victim satisfaction, high attrition rates and low conviction rates in cases of rape.

In July 2002, the Government published a Rape Action Plan. It accepted nearly all the recommendations put forward by the HMCPSI and HMIC report.

Implementation of these recommendations has been ongoing since the publication of the Rape Action Plan. The measures implemented by the Crown Prosecution Service following the Rape Action Plan include each CPS Area having a rape co-ordinator to provide and disseminate good practice within and across areas; that rape cases are reviewed by specialist lawyers; that decisions to drop or substantially reduce the prosecution case, or to advise the police to take no further action, are discussed with a second specialist lawyer before a final decision is made; that instructions are given to prosecuting advocates that offensive and seemingly irrelevant cross-examination should be challenged, and inappropriate cross-examination about previous sexual experience should be challenged; and that the Crown Prosecution Service has published its policy statement on rape explaining to the public how the Crown Prosecution Service deals with rape cases.

There will be an audit of the Rape Action Plan of police forces and CPS areas by a working group comprised of Home Office, CPS and ACPO officials. The audit of the Rape Action Plan will take into account forthcoming research in attrition rates and other recent publications, both in terms of assessing progress, and identifying any further recommendations that may follow. It is planed to carry out this audit in the spring/summer of this year.

The work of the audit will tie in with the Home Office research planned to look in detail at the decline in detection rates in rape and sexual assault cases and current variation in detection rate performance.

An audit of the Rape Action Plan will enable the Government to identify what is working and what remains to be done to tackle attrition in rape cases, which has been identified by the Inter-departmental Ministerial Group on Sexual Offending as a key priority.

Whiterock Parade

Mr. McNamara: To ask the Solicitor-General what the reasons were for the decision of the Director of Public Prosecutions not to proceed with charges arising from events associated with the Whiterock Parade in July 1993. [216317]

The Solicitor-General: Arising out of an incident at Whiterock, Belfast, on 28 June 2003, the Department of the Director of Public Prosecutions for Northern Ireland received a police file in respect of an alleged breach of a Parades Commission's Determination of 28 June 2003. Following consideration of the file the police were asked to commence proceedings against one individual for an offence contrary to section 8(7) of the Public Processions Act (Northern Ireland) 1998. This is an offence that can only be tried in the magistrates court and proceedings must be commenced within six months of the alleged offence having been committed. The administrative steps required to initiate the proceedings were a matter for the police.

The absence of formal confirmation of commencement of proceedings was noticed by the Department on 23 December 2003 and the police were asked to confirm that proceedings had in fact been commenced. The Department was assured that proceedings had been commenced. In February 2004 the Department was informed that through administrative error, proceedings had not in fact been commenced by police within the statutory time period. As more than six months had elapsed at that stage proceedings were by then statute barred and it was not possible to take any further action.

The Police Service for Northern Ireland referred the matter to the Police Ombudsman for investigation.

Witnesses

Mrs. Curtis-Thomas: To ask the Solicitor-General what powers of investigation are granted to the Crown Prosecution Service to check the credibility and reliability of witnesses, in addition to the initial investigations by the police. [218870]

The Solicitor-General: On 20 December 2004, the Attorney-General published his report on "Pre-trial Interviews with Witnesses". The Attorney recommended that, in certain circumstances, a crown prosecutor should in the future have the ability to hold pre-trial interviews with witnesses.

Such interviews should be conducted for the purpose and the extant that, in the view of the prosecutor, such an interview is necessary in order to assess the reliability of or clarify a witness's evidence. This will inform the decision to prosecute or to continue with a prosecution that has already been commenced. The intention is not to gain or obtain new evidence, although further evidence upon which the prosecution would seek to rely may be revealed during the course of the interview. In such circumstances, a police officer will be asked to take a further statement.

The Director of Public Prosecutions has commissioned work to take forward the recommendations of the report and to see how the recommendations can best be piloted.

TRANSPORT

Departmental Expenditure

Mr. Bercow: To ask the Secretary of State for Transport what the cost of refurbishing each ministerial private office was in the last two years. [202416]

Charlotte Atkins: The cost of works in 2002–03 to restore four ministerial suites, the offices of the Permanent Secretary and two Special Advisers and associated private office areas (including those for the ministerial support unit and the parliamentary branch) was £145,660 plus fees plus VAT. This work was undertaken as part of a consolidation package to co-locate Ministers and DfT staff in the same building and has resulted in an annual saving of some £220,000 in accommodation costs to the Department.

Foreign Airlines (Disabled People)

Mr. Hunter: To ask the Secretary of State for Transport (1) if he will press for measures to ensure that deaf and other disabled people are not refused carriage by foreign airlines operating in the UK unless there are legitimate safety grounds; [220213]

(2) if he will request that Iberia Airlines apologise to, and compensate, the party of deaf UK passengers, for refusing to carry them on 22 July 2004. [220214]

Charlotte Atkins: In light of the incident on the Iberia Airlines flight last summer we have referred the issue of restrictions on the number of disabled people who are carried on particular aircraft to the European Civil Aviation Conference's Facilitation Sub Group on air travel for persons with reduced mobility (PRM). The term PRM is used in European fora to refer to disabled and, in some cases, also to other mobility impaired people.

The ECAC group has agreed to look at the issue with a view to seeing what, if any, changes might be needed to current recommended practices and policies. That work item has been included in the progamme for this year.

We have no basis on which to ask Iberia Airlines to apologise to, or to compensate those involved in last summer's incident.

Growth Areas (Funding)

Phil Sawford: To ask the Secretary of State for Transport what funding his Department has earmarked for growth areas to ensure that they have the resources required to meet the demands of a growing population. [218332]

Charlotte Atkins: Apart from the new £200 million Community Infrastructure Fund for transport projects to facilitate new housing development, my Department has taken account of the benefits that particular projects would have for the four growth areas when considering individual proposals, rather than set aside specific parts of national budgets to spend in those areas.

Our latest estimate of recent and planned expenditure on local authority and Highways Agency major transport projects that will support the growth areas is about £3.5 billion. This includes, for example, the cost of a number of Local Transport Plan projects that have been provisionally accepted for DfT funding and therefore assumes that they will obtain all necessary statutory approvals as well as satisfying the Department's detailed scheme assessment requirements.

CULTURE, MEDIA AND SPORT

2012 Olympics

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what undertakings the Government have given to the London bid team on meeting shortfalls in the budget for the London 2012 bid; and who will be responsible for meeting a shortfall in the budget to deliver a 2012 London bid. [216081]

Tessa Jowell: London 2012 have stated that they are not budgeting for a shortfall on the bid and they have received no assurances from the Government on meeting any shortfall on the bid should one arise. London 2012 and its directors are responsible for ensuring that it has sufficient income to meet its costs.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with Transport for London on special arrangements to control the flow and numbers of passengers using the London Underground system during the visit of the International Olympic Committee evaluation team to London in February. [216093]

Tessa Jowell: I have had no such discussions. The operation of the London Underground is the responsibility of Transport for London.

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with *(a)* local authorities, *(b)* businesses and *(c)* representatives of users of public roads regarding the use of synchronised traffic lights and other special measures during the visit of the International Olympic Committee evaluation team in February. [216094]

Tessa Jowell: I have had no such discussions, although officials are aware that some measures were considered by Transport for London. The management of traffic signalling in London is the responsibility of Transport for London.

Mr. Edward Davey: To ask the Secretary of State for Culture, Media and Sport how much has been spent on promoting London's bid for the 2012 Olympics; how much has been spent in London; and if she will make a statement. [216002]

Tessa Jowell: As stated in the Command Paper Cm 5867 laid before the House in June 2003, the Mayor and I agreed that DCMS and the London Development Agency (LDA) should contribute to the costs of the bid organisation and associated planning in equal shares to a combined limit of £30 million.

Included within this sum is an agreed grant, with a limit of £20 million and financed in equal part from the DCMS and LDA, to the bid company "London 2012", which oversees the majority of the work associated with promoting the London bid. A cost breakdown of what proportion of this money has been spent in London is not readily available.

The further £10 million is a bid support budget jointly funded and managed by DCMS and the LDA. Costs committed under this budget to date are as follows:

Item	*Amount (£)*
Start up costs for London 2012	278,822
Stakeholder accountability (including cost validation and OGC review)	169,578
Masterplanning (including consultancy and legal work)	3,000,000
Sports events	600,000
Infrastructure (including feasibility study for Aquatics Centre and for undergrounding of power lines in Olympic Park area)	1,598,000
Staging period preparation (including economic benefit assessment and consultancy work)	719,553
Miscellaneous (including assessment work for transport and "kids swim free" scheme)	1,865,040
Total	8,230,993

DEFENCE

12 Mechanised Brigade

Mr. Keith Simpson: To ask the Secretary of State for Defence (1) what the date is for the deployment of 12 Mechanised Brigade to Iraq; [219524]

(2) what training in prisoner handling 12 Mechanised Brigade will receive before their deployment to Iraq. [219525]

Mr. Ingram *[holding answer 3 March 2005]:* 12 Mechanised Brigade (12 Mech Bde) will deploy to Iraq in the next few months. I am withholding the precise date as its disclosure would be likely to prejudice the capability, effectiveness or security of our forces.

Prisoner handling training for 12 Mech Bde will be covered by the following methods: all soldiers receive initial training on handling of prisoners through Individual Training Directive No 6: "Law of Armed Conflict", which is then repeated on an annual basis; all personnel will receive a legal brief on the handling of prisoners during Central Pre-Deployment Training; additional legal training to be undertaken by commanding officers and key staff will include a study period on search and detention; and a number of other personnel will attend a specific course on prisoner handling and tactical questioning. In addition, aspects of prisoner handling will be practised on 2 Field Training Exercises prior to the Brigade's deployment.

Commando Training Centre (Lympstone)

Mr. McNamara: To ask the Secretary of State for Defence what the reasons were for the decision to drop assault charges against the six Royal Marines instructors based at the Commando Training Centre at Lympstone; on what date the decision was taken; and whether further complaints against officers are awaiting consideration. [218574]

The Solicitor-General: I have been asked to reply.

Six members of the training staff at Lympstone Marine Commando Training Centre were originally charged with offences including disgraceful conduct, ill-treatment of men of inferior rank and conduct prejudicial to military discipline. On receipt of fresh evidence pertaining to the case, and in accordance with its duty to keep the prosecution under constant review, the Army Prosecuting Authority reviewed the charges against the six accused. Applying the tests of sufficiency of evidence and public interest contained in the Code for Service Prosecutors, the APA decided to discontinue all proceedings against one accused on 31 January and then, following the receipt of further evidence, against the remaining five accused on 2 February 2005. The Army Prosecuting Authority is not aware of any further complaints against these servicemen.

Infantry Armoured Artillery

Mr. Hoyle: To ask the Secretary of State for Defence what proportion of infantry armoured artillery was deployed at 1 January. [219048]

Mr. Caplin: Around 15 per cent. of Infantry units, 20 per cent. of Royal Armoured Corps units and 21 per cent. of Royal Artillery units were deployed on operations on 1 January 2005.

Recruitment (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Defence how many members of the *(a)* Black Watch, *(b)* King's Own Borderers and *(c)* Scots Guards were recruited from Lancashire in the last year for which figures are available. [219051]

Mr. Caplin: The information requested for the period 1 April 2003 to 31 March 2004, the last full financial year for which figures are available, is shown in the following table.

Recruited from Lancashire during financial year 2003–04

Regiment	*Number*
Black Watch	0
King's Own Royal Border Regiment	15
Scots Guards	10

It should be noted that Infantry recruits are enlisted into a Division and not a specific Regiment. The results in this table may not, therefore, be fully accurate as it reflects those recruits who specified The Black Watch, The King's Own Royal Border Regiment and the Scots Guards as a "Preferred Capbadge" on enlisting as recorded on the database of Headquarters Recruiting Group, who oversee the Army's recruiting offices.

TRADE AND INDUSTRY

Arms Exports (Sudan)

Tom Brake: To ask the Secretary of State for Trade and Industry (1) how many prosecutions have been brought in courts outside the UK against *(a)* UK nationals and *(b)* UK bodies for breach of the embargo on sales of arms to Sudan; [216465]

(2) how many *(a)* UK nationals and *(b)* UK bodies are under investigation but have not yet been charged for possible breaches of the embargo on sales of arms to Sudan. [216466]

Dawn Primarolo: I have been asked to reply.

Customs are not aware of any prosecutions in courts outside the UK of UK nationals or UK bodies for breaches of the embargo on the supply of arms to Sudan.

Customs made inquiries into allegations concerning two UK nationals supplying the Government of Sudan with military equipment. As a result of those inquiries Customs concluded that there was insufficient evidence to commence criminal proceedings and they intend to take no further action unless new information comes to light.

The release of further information regarding any inquiries in this area would prejudice law enforcement or the prevention and prosecution of crime. However, it is normal policy that Customs will look into all significant allegations and intelligence in relation to breaches of arms embargoes.

Correspondence

David Winnick: To ask the Secretary of State for Trade and Industry, when she expects to reply to the letter from the hon. Member for Walsall North of 2 February concerning the malfunction of pensioners' PIN cards. [219530]

Mr. Sutcliffe: I replied to my hon. Friend's letter on 17 February 2005.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Advisory Committee for the Technical Adaptation of the Community Procedure to Improve the Transparency of Gas and Electricity Prices Charged to Industrial End-users and (ii) Committee for the Implementation of the Series of Guidelines for Trans-European Energy Networks met; when and where these meetings took place; which UK Government expert was present; and if she will make a statement. [218434]

Mr. Mike O'Brien: A "Task Force on Gas and Electricity Prices", composed of experts from member states looked into the new methodology for the data collection of gas and electricity prices for both the industrial and domestic sectors. It reported prior to the Italian, Irish and Dutch presidencies of the EU, which spanned the period July 2003 to December 2004. Subsequently, the Energy Statistics Committee

Working Group with senior statisticians from member states, discussed the conclusions of the Task Force in May 2004.

The Trans-European Networks Financial Assistance Committee for the Energy Sector met once during the Italian presidency of the EU, on 15 July 2003, and once during the Dutch presidency, on 12 November 2004. Both meetings took place in Brussels. The Committee did not meet during the Irish presidencies.

Nuclear Industry

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of proposals in the International Atomic Energy Agency publication, Multilateral Approaches to the Nuclear Fuel Cycle (infcirc/640), in respect of the conversion of the Sellafield and Dounreay reprocessing facilities to international ownership and management. [219450]

Mr. Mike O'Brien: The Government believes this publication will provide a valuable contribution to the nuclear debate. It is too early for any detailed assessment on the implication of the report for the UK nuclear industry. However the Government will, as the report recommends, be giving attention to the approaches set out in the report to investigate their practicality, feasibility and usefulness, and be playing a full part in the international discussions which follow.

Nuclear Waste

Mr. Weir: To ask the Secretary of State for Trade and Industry what mechanisms are used to monitor and track nuclear waste materials; and if she will make a statement. [218821]

Mr. Mike O'Brien *[holding answer 28 February 2005]:* The majority of UK radioactive waste stocks are recorded in a UK Radioactive Waste Inventory prepared jointly by The Department of Environment, Food and Rural Affairs (Defra) and United Kingdom Nirex Ltd (Nirex) approximately every three years. The last published inventory, for a stock date of 1 April 2001, was published in October 2002. The next, for a stock date of 1 April 2004, will be published towards the end of this year. But the inventory is not used to specifically track waste materials, nor does it list all such materials.

The UK's civil nuclear sites apply stringent security measures regulated by the Office for Civil Nuclear Security (OCNS). OCNS also regulate security for the transportation of civil nuclear materials. Security at nuclear sites and during transportation of nuclear material is kept under regular review in the light of the prevailing threat.

In addition, Euratom Safeguards are applied to the nuclear material content of certain types of nuclear waste and these involve reporting to and inspection by the European Commission.

Post Office Card Accounts

Ms Walley: To ask the Secretary of State for Trade and Industry what provisions are made for those who withdraw their pension using the Post Office account card and forget their pin; and if she will make a statement. [218608]

Mr. Sutcliffe: Where a customer has forgotten their PIN when in the Post office branch they are asked to call the customer service helpline 08457 22 33 44 to order a replacement PIN. The account holder should receive a replacement PIN within four working days. The terms and conditions document for the card account which customers are required to read before opening an account also gives this information.

As with most card accounts, Post Office card account customers can change the PIN originally allocated to them to a set of numbers that they might find easier to remember.

Wind Turbines

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry how many wind turbines she anticipates will be erected in the UK by 2010. [217348]

Mr. Mike O'Brien: The Government's target of renewable energy sources contributing 10 per cent. of our electricity by 2010 is for all forms of renewables, not just wind, although it is clear that wind will make the main contribution. At this stage it is difficult to predict precise numbers. There are already just under 1,200 wind turbines currently in operation. Generating 10 per cent. of UK electricity from renewables could mean an increase of possibly another one and half times that number. There will also be a rather smaller number of offshore turbines.

EDUCATION AND SKILLS

Complaints about Schools

Mr. Wyatt: To ask the Secretary of State for Education and Skills how many complaints the Commissioner for Local Administration in England has received concerning schools in Sittingbourne and Sheppey. [212345]

Mr. Stephen Twigg: The Department for Education and Skills does not keep a record of the number of complaints the Commissioner for Local Administration has received concerning schools in Sittingbourne and Sheppey.

Mr. Wyatt: To ask the Secretary of State for Education and Skills what action the Commissioner for Local Administration in England has taken in relation to complaints that he has upheld concerning schools in Sittingbourne and Sheppey. [212346]

Mr. Stephen Twigg: The Department does not keep a record of any action taken by the Commissioner for Local Administration in relation to complaints that he has upheld about schools in Sittingbourne and Sheppey and on which he expects the organisation to provide a suitable remedy.

Post-16 Education (York)

Hugh Bayley: To ask the Secretary of State for Education and Skills how many and what percentage of

young people in York continuing in education and training after GCSE was in *(a)* each year since 1996–97 and *(b)* 2004–05. [220284]

Mr. Ivan Lewis: Information for 16-year-olds (i.e. the first year of post compulsory education) in education and work based learning (WBL—including apprenticeships) by local education authority (LEA) is currently only available as at the end of the calendar year 2001.

The number of 16-year-olds participating in education or WBL in York LEA at end 2001 was around 1,900, or 88 per cent.

Figures for end 2002 and end 2003 will be published, alongside an historic time series, on 31 March 2005 on the Department's website.

Education Maintenance Allowances (York)

Hugh Bayley: To ask the Secretary of State for Education and Skills how many students at education institutions in York are receiving education maintenance allowances; what the average weekly value of those allowances is in York; and what the total expenditure on the allowances in York is expected to be in the 2004–05 academic year. [220283]

Mr. Ivan Lewis: At 1 March 2005 a total of 916 young people who are studying in institutions in York LEA area have received at least one EMA payment since the start of the 2004/05 academic year.

Data is not available at LEA level as to the actual expenditure. Payments are, and vary between £10, £20 and £30 per week according to household income, and are dependent upon whether the student has attended college or school in each week. There are also bonuses, which are linked to progression and retention. Taking account of these factors, and applying national averages, the estimated expenditure on students in York for the 2004/05 academic year is around £915,000.

Permanent Exclusions

Keith Vaz: To ask the Secretary of State for Education and Skills what change there has been in the level of unsatisfactory behaviour leading to permanent exclusions since 1997. [220102]

Derek Twigg: We are unable to indicate what change there has been in levels of behaviour leading to exclusion since 1997 as schools use a range of measures to tackle poor behaviour before it reaches a point where exclusion is the only appropriate response. There were 12,668 permanent exclusions in 1996/97. In 2002/03, the last school year for which we have data, exclusions had fallen to 9,290, which is around 25 per cent. below the 1996/97 peak. The following table provides information on the levels of permanent exclusion from 1996/97 to 2002/03:

Permanent exclusions 1996/97 to 2002/03 for England

	Number of pupils	*Percentage of school population*
1996/97	12,668	0.17
1997/98	12,298	0.16
1998/99	10,438	0.14
1999/2000	8,323	0.11
2000/01	9,135	0.12
2001/02	9,535	0.12
2002/03	9,290	0.12

Primary Teachers (London)

Sarah Teather: To ask the Secretary of State for Education and Skills how many primary school teachers were on permanent contracts in London in September in each year since 1997; and how many unfilled vacancies there were in each of these years. [212374]

Mr. Stephen Twigg: Information on the numbers of teachers employed on permanent contracts in primary schools is not collected centrally.

The following table provides the number of nursery and primary teacher vacancies in London in January of each year from 1997 to 2004, the latest information available.

	Number
1997	450
1998	630
1999	590
2000	520
2001	820
2002	600
2003	410
2004	250

Note:
Figures are rounded to the nearest 10.
Source:
DfES annual survey of teachers in service and teacher vacancies (Form 618G Survey).

Pupil Referral Units

Mr. Willis: To ask the Secretary of State for Education and Skills what security measures are implemented in pupil referral units; and what the costs of those measures were in the last year for which figures are available, broken down by *(a)* costs of security personnel, *(b)* costs of security features including alarm systems, metal detectors, fencing and CCTV cameras and *(c)* other costs. [218044]

Derek Twigg: Security measures in schools, including in Pupil Referral Units (PRUs), are arranged locally. The Department for Education and Skills does not collect implementation details or figures showing the security costs in PRUs. Money made available to local authorities in England (as Grant 317) or from the Capital Modernisation Fund from 1997–08 to 2002–03 could be used to improve security in PRUs as well as in other maintained schools. Ring-fenced funding totalled £120 million and was all drawn down.

School Budget Deficits (London)

Sarah Teather: To ask the Secretary of State for Education and Skills which schools in each borough in Greater London ran a budget deficit in the year ended 31 March 2004; and how much this deficit was for each school. [219749]

Mr. Stephen Twigg: The information requested has been placed in the Library.

School Playground Schemes

Hugh Robertson: To ask the Secretary of State for Education and Skills, what support the Government are giving to school playground schemes. [218004]

Mr. Stephen Twigg *[pursuant to the reply, 24 February 2005, Official Report, c. 756W]:* The funding being provided by the Big Lottery Fund (BLF), towards playground improvements in England, is around £8.1 million. This is distributed through the New Opportunities for Physical Education and Sport programme.

Specialist Schools

Dr. Tonge: To ask the Secretary of State for Education and Skills what steps her Department is taking to encourage head teachers who have not applied for specialist status for their schools to do so. [212315]

Mr. Stephen Twigg: Within the framework of the Specialist Schools Programme it is for individual schools to decide on whether to apply for specialist school designation. We fund the Specialist Schools Trust and the Youth Sport Trust to offer advice and to support schools wishing to apply for specialist status.

Sure Start

Mr. Kevan Jones: To ask the Secretary of State for Education and Skills (1) how many children in North Durham have benefited from the Sure Start programme since its inception; [214673]

(2) how much money has been spent on the Sure Start programme in North Durham since its inception. [214674]

Margaret Hodge: Durham North has two Sure Start local programmes; Sure Start Stanley and Sure Start Chester-le-Street.

Sure Start Stanley was approved as a local programme in October 2000 and supports around 940 young children and their families living in the Stanley area of North Durham. The local programme provides a wide range of services to support local families including: access to good quality and affordable childcare, crèche provision, playgroups and parent and toddler groups; improved local health care and family support and an extensive range of training and work related courses.

Since opening Sure Start Stanley has worked toward improving the quality of life for local families. The number of women smoking during pregnancy has fallen from 36 per cent. to 28 per cent.; the usage of libraries by young children and their families is 7 per cent. above the national average; there has been a significant improvement in the personal and social development of children at school-age. The programme has contacted 869 children out of the total of 943 under 5s in the catchment area and has seen 100 per cent. of newborns within two months of birth.

There is strong parental involvement in this programme through the Parent Communications Group, (a decision-making group of 18 parents), training programmes facilitated by Sure Start Stanley (340 training places taken up by parents) and parents involved as volunteers delivering a range of Sure Start activities and services.

Sure Start Chester-le-Street was approved as a local programme in April 2001 and has a semi rural catchment area. It supports around 800 young children living in the Chester West area and surrounding villages. The local programme provides a range of services from its main centre including: high quality daycare, parent and toddler and crèche facilities; successfully integrated health services and a wide range of work based training courses.

Sure Start Chester-le-Street is working toward delivering a rotating service to the outlying villages within its boundary to ensure regular access to Sure Start activities and services for those families living in remote areas.

The local programme has been successful in improving the quality of life for young children and their families. Following the programme being established, breastfeeding has increased by 5 per cent., a storyline and Bookstart service has promoted the use of libraries by 100 per cent. and a successful baby massage service has led to an extension of the programme to include baby yoga and training for parents for them to deliver the service in the future.

There is strong parental involvement in Sure Start Chester-le-Street. A Parents' Committee (14 elected parents) is represented on the Management Committee (two parents) and Partnership Committee (two parents), the decision making bodies for this local programme. Parents are actively involved in a childcare NVQ level 2/3 training programme run jointly by Sure Start Chester-le-Street and The Bridge, a local women's charity.

Durham North has six neighbourhood nurseries. Durham city council is developing four children's centres from these settings that are delivering 169 integrated early learning with childcare places. Around 700 three-year-olds and 830 four-year-olds are receiving free nursery education in maintained nursery and primary schools and other maintained schools.

The Sure Start local programmes have received DfES funding of £2,286,323 revenue and been allocated £2,075,000 in capital grants since being opened in October 2000 and April 2001 respectively. The neighbourhood nurseries have been allocated a total revenue grant of £777,062 and have received a total of £255,528 in capital grants.

These programmes are developing into children's centres and will contribute towards achieving our goal of a children's centre in every community by 2010.

A well thought-through careers advice service has enabled 49 parents to complete the Parent Employability Programme.

Unauthorised Absence (London)

Sarah Teather: To ask the Secretary of State for Education and Skills how many half-days have been lost owing to unauthorised absence of pupils in *(a)* Greater London and *(b)* each London borough in each year since 2002–03 (i) in absolute terms and (ii) as a proportion of the total number of half-days. [220108]

Derek Twigg: The information requested is shown in the following table:

Unauthorised absence in primary and secondary schools in Greater London

	Academic year 2002/03		*Academic year 2003/04*	
	Number of half days missed	*Percentage half days missed*	*Number of half days missed*	*Percentage half days missed*
Greater London	2,671,594	1.02	2,665,298	0.99
Barking and Dagenham	119,169	1.60	121,981	1.60
Barnet	87,718	0.74	99,017	0.83
Bexley	50,333	0.51	74,947	0.71
Brent	57,691	0.61	68,193	0.70

Newham	150,817	1.29	117,667	0.94
Redbridge	76,663	0.73	90,365	0.85
Richmond upon Thames	56,648	1.09	57,358	1.04
Southwark	157,226	1.75	155,229	1.66
Sutton	35,024	0.46	39,458	0.51
Tower Hamlets	138,820	1.56	141,381	1.53
Waltham Forest	81,085	0.90	100,796	1.07
Wandsworth	52,766	0.78	43,182	0.66
Westminster, City of	48,561	1.08	56,494	1.18

Unauthorised absence is absence without leave from a teacher or other authorised representative of the school. It includes pupils who are late or who take time off with parents' consent—for example for a holiday which the school will not authorise.

DEPUTY PRIME MINISTER

Business Rates

Mr. Drew: To ask the Deputy Prime Minister if he will make a statement on progress with the business rate property revaluation. [219780]

Mr. Raynsford: The Valuation Office Agency (VOA) has successfully completed the revaluation of all business properties. The draft rating lists were published, as planned, on 1 October 2004. At the same time, as part of a comprehensive programme to make more information available to ratepayers, a summary valuation (an explanation of how the valuation is determined) was issued for the bulk of the properties. This was sent to many ratepayers and made available on the VOA website. Final lists have been given to billing authorities enabling them to issue the rate bills for 1 April 2005 using the new valuations.

Departmental Policies (Hull, North)

Mr. McNamara: To ask the Deputy Prime Minister if he will set out, with statistical information relating as directly as possible to the Kingston-upon-Hull, North constituency, the effects on Kingston-upon-Hull, North of his Department's policies and actions since 2 May 1997. [211811]

Yvette Cooper: Along with other Government Departments, the Office of the Deputy Prime Minister is committed to improving the lives of people across the whole of the UK. For example, the Office of the Deputy Prime Minister is determined that everyone should have the opportunity to have a decent home, and since 1997 we have reduced the number of non-decent homes nationally by one million.

North Hull Housing Action Trust, which operated between 1991 and 1999, invested £109 million of public funds to modernise 2,083 homes, provide community

facilities and services, promote training and employment initiatives and undertake environmental improvements in the North Hull area.

The Office of the Deputy Prime Minister provides grant funding that benefits the Kingston-upon–Hull, North constituency through a number of programmes.

For example over the period 2001–06, Kingston-upon-Hull has been allocated over £39 million Neighbourhood Renewal Fund (NRF) resources to help the local authority, in collaboration with the Local Strategic Partnership, improve services in the most deprived neighbourhoods in the area.

More broadly, since 1997 the Office of the Deputy Prime Minister has been able to increase the total amount of government grant given to local authorities by £22.6 billion. This is a 33 per cent. increase in real terms. Kingston-upon-Hull has received an average annual increase in formula grant since 1997 of 3.7 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at: http://neighbourhood.statistics.gov.uk./.

Faith-based Volunteers

Charles Hendry: To ask the Deputy Prime Minister what guidance he gives to local authorities regarding the funding of voluntary projects run by churches and religious groups. [220267]

Mr. Raynsford: Although the Office of the Deputy Prime Minister does not formally guide local authorities on funding of voluntary projects run by churches and religious groups, its position on this issue remains as outlined in the Local Government Association's "Faith and community—a good practice guide for local authorities". The "Compact: Community Groups Code" also sets out a position on funding for faith communities agreed within the Compact process which the Government endorses.

Housing

Mr. Salter: To ask the Deputy Prime Minister how many units were built as part of each affordable housing scheme funded in Reading, West in each of the last three years; and how many units in each scheme are for key workers. [219498]

Keith Hill: The Housing Corporation records affordable housing schemes by type of funding, Housing Association, site and whether or not the housing is for key workers. Thus key worker housing and non-key worker housing are identified as separate schemes even if they are built in close proximity in the same or different years.

A summary of affordable dwellings built in Reading local authority area, which includes Reading, West, for the last three years for which data are available is given in the following table.

Affordable housing in Reading 2001–02 to 2003–04

	Number of schemes	*Number of units*
2001–02		
Non-key worker	22	157
Key worker	4	4
Total	26	161
2002–03		
Non-key worker	17	138
Key worker	41	41
Total	58	179
2003–04		
Non-key worker	38	250
Key worker	104	249
Total	142	499

Source:
Housing Corporation South East

In 2001–02 and 2002–03 the key worker housing was constructed under the Starter Homes Initiative and individual dwellings were recorded as separate schemes. In 2003–04 the key worker housing built in the local authority area consisted of 94 dwellings under the Starter Homes Initiative and recorded as separate schemes together with 155 dwellings built in 10 schemes using Challenge Funds. These 10 schemes consisted of between eight and 26 dwellings. Funding for affordable housing for non-key workers are through the Housing Corporation's Approved Development Programme, Challenge Fund, and Local Authority Social Housing Grant.

Mr. Salter: To ask the Deputy Prime Minister if he will make a statement on funding plans for key worker housing in Reading, West. [219499]

Keith Hill: Affordable housing assistance for eligible key workers within the Reading, West area is available through the £690 million Key Worker Living programme.

As at the end of January 2005, a total of £3,885,366 had been spent to assist 102 key workers in Berkshire to purchase homes through the "Homebuy" element of the programme. "Homebuy" allocations for 2005–06 within the Berkshire, Oxfordshire and Buckinghamshire Zone are still subject to confirmation.

In addition it is anticipated that a further £11,306,959 will be spent on producing 396 new build units by March 2007. The following table breaks down these figures by local authority:

	Homebuy Element		*New Build Element*	
Local authority	*Number of key workers assisted*	*Total grant expenditure (£)*	*Number of units*	*Total grant expenditure (£)*
Bracknell Forest	17	691,460	50	1,003,001
Reading	29	1,051,530	247	7,770,871
Slough	24	900,476	31	667,500
West Berkshire	7	270,789	0	0
Windsor and Maidenhead	4	164,940	28	640,000
Wokingham	21	806,171	40	1,225,587
Total	102	3,885,366	396	11,306,959

Key workers may also benefit from the shared ownership and Homebuy programmes funded by the Housing Corporation to help existing social tenants and those on waiting lists into home ownership.

Mr. Wiggin: To ask the Deputy Prime Minister if he will break down the expected building costs of building the Government's planned £60,000 homes by each estimated unit construction cost. [219656]

Keith Hill: In the Office of the Deputy Prime Minister's "Homes for All" public service plan, launched on 24 January 2005, a competition was announced that would invite organisations to bid for the right to construct one or more new developments on English Partnerships owned sites. This "Design for Manufacture" competition aims to demonstrate that it is possible to build a home that reaches good standards of accessible design and environmental performance for £60,000.

This target cost of £60,000 for constructing a home relates solely to construction costs. In setting this target, the Office of the Deputy Prime Minister looked at a series of data sets, including those produced by RICS Building Costs Information Service and the Tender Price Index of Social Housing, as well as real-life case studies, to identify what might be a challenging but achievable figure for the core costs of constructing a home.

One of the main purposes of the competition is to encourage greater efficiency in the construction process. The Office of the Deputy Prime Minister anticipates that the creativity and innovation that exists within the industry will mean that this could be achieved in different ways. Thus it is not possible at present to break down anticipated dwelling building costs.

It is important to note that competition entries will be expected to include a range of dwellings of different types and sizes. While it is anticipated that approximately 30 per cent. of all the dwellings built through the competition will meet a target construction cost of £60,000, the Office of the Deputy Prime Minister will expect all of the dwellings built through the competition to achieve equivalent cost-efficiency.

Local Government Ombudsman

Mr. Sanders: To ask the Deputy Prime Minister how many complaints were received by the Local Government Ombudsman in the last year for which figures are available; and how many were upheld. [219491]

Mr. Raynsford: In 2003–04, the last complete year for which figures are available, the Local Government Ombudsman received 18,982 complaints. Of the cases in which determinations were made, local settlements (where the council agrees to take action which the Ombudsman considers is a satisfactory response to the complaint) were made in 3,188 cases. Maladministration was found to have occurred in 180 cases. No or insufficient evidence of maladministration was found in 5,418 cases. In the remainder of cases, the complaints were not pursued, for example, because the complaint was outside the Ombudsman's jurisdiction, or the council had not first been given a reasonable opportunity to deal with the complaint.

Ordnance Survey Maps

Mr. Rendel: To ask the Deputy Prime Minister what criteria Ordnance Survey uses in deciding whether to include school names on maps it produces. [219815]

Yvette Cooper: Ordnance Survey (OS) routinely records all school names within its national large-scale mapping. On smaller scale OS Explorer and OS Landranger map series, textual information is reduced to maintain clarity and legibility, and school names are not normally shown unless space permits or unless a school constitutes a tourist attraction.

Planning Appeal

Mr. Chope: To ask the Deputy Prime Minister what the reason was for the delay in *(a)* determining the appeal against refusal to grant consent to fell an oak tree at 8 Langley Close, St. Ives, Ringwood, Hampshire and *(b)* publication of the decision letter. [219774]

Keith Hill: Tree preservation order appeals are processed by officials in the Government Offices for the Regions, who issue the final decision on behalf of the Secretary of State, my right hon. Friend the Deputy Prime Minister. There are several stages in the process, including an exchange of written representations between the appellant and the local planning authority, and arranging a site visit. In this case the appeal was submitted on 16 April 2004 and the site visit took place on 3 September 2004. There is currently a non-statutory timetable for appeal decisions to be issued within 16 weeks of the site visit. In this case a Planning Officer from the Government Office for the South West carried out the site visit on 3 September 2004, and he submitted his report on 9 November, with the decision being issued on 26 November, some 12 weeks after the site visit. While Government Offices would hope to be able to issue decisions within a shorter timescale whenever possible, this cannot always be achieved. In this particular case I do not consider there was any undue delay in determining the appeal.

Mr. Chope: To ask the Deputy Prime Minister for what reason the inspector who carried out a site visit in connection with a tree preservation order appeal at 8 Langley Close, St. Ives, Ringwood, Hampshire on 3 September 2004 did not retain any notes taken during his visit; and if he will make a statement on the standard practice required in relation to the retention of site notes by the Planning Inspectorate. [219775]

Keith Hill: The inspector who held the site visit on 3 September was a Planning Officer from the Government Office for the South West (GOSW). Any notes that he took following the site visit were incorporated directly into the body of his report. He therefore decided that there was no longer any need to retain his notes once the appeal decision including the report had been issued. Government Office officials carrying out such site visits will in future be instructed to retain their site visit notes at least until the period for challenging the decision in the High Court has expired.

It is the standard practice for Inspectors of the Planning Inspectorate to retain their notes of any site visit for one year.

Local Government Finance

Mr. Bercow: To ask the Deputy Prime Minister what recent progress has been made towards achieving the Public Service Agreement target to ensure that stable resources are available to local government. [219196]

Mr. Raynsford: The local government Public Service Agreement targets require the improved delivery and value for money of local services. A key part of this will be to ensure that authorities are able to plan their budgets effectively. The introduction of the three-year settlements for individual authorities from 2006–07 onwards, as announced in Spending Review 2004, will greatly assist this process. The Office of the Deputy Prime Minister is currently consulting on the implementation of three-year settlements and will announce the outcome later this summer.

It is also clear that the Office of the Deputy Prime Minister should review some aspects of the grant distribution system before the 2006–07 settlement in order to ensure that the system continues to distribute grant in a fair way between authorities. We will be conducting this review in partnership with local government.

The existing spending plans for 2006–07 onwards provide continued investment in local government which reflect the work to identify pressures and enable local government to deliver high quality services with low council tax increases. It builds on the 33 per cent. real terms increase in Government grant which the Office of the Deputy Prime Minister has been able to provide to councils since taking Office. We will continue to work closely with local government to ensure that levels of central grant are based on a realistic assessment of the service commitment pressures faced by councils.

PRIME MINISTER

Miscarriages of Justice

Mr. Chope: To ask the Prime Minister pursuant to the answer of 21 February 2005, *Official Report*, column 194W, on Miscarriages of Justice, if he will place a copy of the transcript in the Library. [220082]

The Prime Minister: Due to an administrative error, the date to which I referred should have been Wednesday 9 February. I have placed a copy of the press briefing in the Libraries of the House.

Official Visits

Norman Baker: To ask the Prime Minister if he will list the towns and cities in the UK he visited in 2004 in an official capacity; and what the purpose of the visit was in each case. [220229]

The Prime Minister: In 2004, I undertook the following official visits within the UK:

Date (2004)	*Destination*
8 January	London
16 January	London
22–23 January	Hexham
	Newburn
	Newcastle
29 January	Rickmansworth
9 February	London
12 February	London
23 February	Birmingham
	Edgbaston
24 February	London
26–27 February	Inverness
4–5 March	Teesside university
11–12 March	Liverpool
	Manchester
18 March	Enfield
	Milton Keynes
5 April	London
19 April	London
2 May	Cardiff
4 May	Leeds
13–14 May	Coventry
	Birmingham
	Gateshead
	Newcastle upon Tyne
	Bishop Auckland
	Chesterfield
27–28 May	London
	Manchester
	Bury
	Sheffield
7 June	Birmingham
	Wolverhampton
	Wednesbury
15 June	London
7 July	London
19 July	London
22 July	Durham
	Coventry
31 August	Harlow
1 September	London
4–5 September	Scotland
9–10 September	Middlesbrough
13 September	Brighton
16–18 September	London
	Kent
25 September	Crawley
	Brighton
18 October	Coventry
	Birmingham
21–22 October	Sedgewick
	Stockton
	Tees Valley
	Shildon
9 November	Falconwood Green
	Welling
13 November	Liverpool
25 November	Slough
2–3 December	Edinburgh
8 December	Belfast
9, 10 December	Sheffield

My visits covered a range of matters including health, education, criminal justice, the economy and meeting current and former members of the armed forces. I also travel regularly to my constituency.

I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 7 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

The Progressive Consensus

Dr. Julian Lewis: To ask the Prime Minister what discussions he has had with the Chancellor of the Exchequer on the role of Government employees in the preparation of The Progressive Consensus; and if he will make a statement. [220232]

The Prime Minister: I have regular meetings and discussions with ministerial colleagues and others on a wide range of subjects. Information relating to internal meetings, discussion and advice is not disclosed as to do so could harm the frankness and candour of internal discussion.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Atomic Waste

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how much atomic waste was produced in the UK in each of the last five years; and how much atomic waste in total was disposed of in the UK in each year. [216938]

Mr. Morley: The 2001 UK Radioactive Waste Inventory, the latest in the series published, gives predictions of the annual volumes of waste produced in the period 2001 to 2005 (The actual figures for 2001 to 2004 will be published in the 2004 Inventory, due out in autumn 2005). The first table presents the production broken down into the three main levels of waste i.e. High, Intermediate and Low, which are abbreviated to HLW, ILW and LLW. Varying amounts of the predicted annual amounts of waste have now been conditioned; in order to aid comparison the numbers presented are for all the waste in its conditioned form, expressed in cubic metres.

Cubic metres

Waste level	*Predicted arisings 2001*	*Predicted arisings 2002*	*Predicted arisings 2003*	*Predicted arisings 2004*	*Predicted arisings 2005*
HLW	68	66	66	66	64
ILW	3,026	3,671	3,678	3,754	3,648
LLW	12,447	12,919	12,574	13,579	10,976

The HLW and ILW produced will have been stored and most of the LLW will have been disposed of routinely. The predicted disposal volumes of LLW, expressed in cubic metres, are set out in the following table:

Waste LLW

Predicted disposal	*Cubic metres*
2001	10,360
2002	10,834
2003	10,676
2004	11,759
2005	9,396

Bio-energy/Biofuels

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has received from the biomass study group on *(a)* barriers to developing bio-energy and *(b)* how barriers to developing bio-energy might be overcome. [219515]

Mr. Morley: The Biomass Task Force issued its first progress commentary on 14 February. The commentary has been sent to stakeholders and can also be accessed on the Defra website.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Chancellor of the Exchequer on further fiscal measures to encourage the production of biofuels. [217530]

Mr. Morley: The Department is in regular contact with Treasury Ministers to discuss a whole range of matters related to energy and environmental policy. In addition, my right hon. Friend, the Secretary of State, meets regularly with the Chancellor of the Exchequer on a wide range of matters that affect the business of the Department.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her Department's policy is in respect of areas of grazing where it is too dangerous to graze cattle due to the high density of the badger population and the associated dangers of badger-to-cattle transmission of tuberculosis. [214164]

Mr. Bradshaw: Defra has published guidance advising farmers to minimise direct contact between cattle and badgers, and contact between cattle and places where badgers may have left saliva, urine or faeces.

The booklet "TB in Cattle—Reducing the Risk", includes the following guidance for farmers:

identify areas which badgers use

fence off the areas around badger setts to keep cattle out

fence off badger dung pits

avoid grass from badger latrines and field margins when cutting silage

This advisory booklet has been available to farmers, free of charge, since 1999.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will undertake research to determine what measures would be needed to alter public perception of the culling of TB-infected badgers in order to facilitate a comprehensive culling programme of TB-infected badgers. [214708]

Mr. Bradshaw: Defra wants to achieve a better understanding of the views of the wider public so these can be reflected in policy development. Public opinion around badger culling is one area of interest. Defra strives to ensure that its policies are based on the best available scientific evidence, and that they are cost effective and sustainable. Any future decision on badger culling will need to take account of the way the general public perceives badgers and acceptability of culling them to control TB in cattle.

Defra-commissioned research at Reading University will give some assessment of societal values ascribed to changes in badger populations. We will consider the report of this work, expected shortly, and undertake further work on informing and assessing public opinion.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress on tests for a vaccine for bovine TB using the BCG vaccine; and whether she expects the vaccine to be applicable to badgers. [218767]

Mr. Bradshaw: The research programme for producing an effective vaccine remains broadly in line with the timetable outlined in the Krebs report (1997). This estimated:

Years 1–5: Identification of candidate vaccines and development of differential diagnostic tests;

Years 5–10: Experimental investigations of vaccination protocols;

Years 10–15: Field trials.

Vaccination of cattle with BCG remains a problem because it affects skin test readings. Work is in progress on a differential diagnostic test. The sequencing of the *Mycobacterium bovis* genome in 2002 has led to the development of an experimental test to distinguish between vaccinated and unvaccinated cattle, but more work is required to validate the test under field conditions. Defra is funding research at the Veterinary Laboratories Agency, in collaboration with New Zealand workers, to experimentally vaccinate cattle with BCG and to differentiate vaccinated animals from infected animals. The current project is due to end in 2005. New research proposals taking the work forward on new candidate vaccines and neonatal vaccination are currently being appraised by independent referees. Future plans to look at the performance of vaccine candidates under natural infection conditions are also being drawn up.

Collaborative research with the Republic of Ireland has shown that parenteral BCG vaccination provides a degree of protection against experimental challenge with *M. bovis* in badgers. Some work has already been done on requirements for a field trial. Further work is still required on vaccine delivery, immunological monitoring of effective immunisation of badgers and effect of exposure of non-target species. This work is addressed in the current research requirements for 2005.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will reconsider the decision to end the reactive element in the Bourne/Krebs bovine TB trials. [218768]

Mr. Bradshaw: There is no evidence to suggest that the resumption of reactive culling would reduce the incidence of bovine TB in cattle. The ISO has continued to collect data from the reactive areas and recent analyses are consistent with results presented in late 2003, with the confidence limits providing no evidence for a beneficial effect of the reactive strategy over the time scale under study. Further detailed investigations based on the distribution of TB breakdowns in space and time are under way to investigate whether the observed increased incidence was linked to proximity to reactive culling. In addition, as further TB incidence data are obtained, the ISG will continue to analyse data from reactive areas. If the TB incidence rates in reactive and survey areas become more similar over time, this finding would indicate that the observed increase in TB breakdowns in reactive areas, compared with survey-only areas, was associated with reactive culling.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether pockets of M. bovis infection reported in wild deer in the Dulverton area of Exmoor are related locally to high levels of endemic infection in badgers; and whether isolates of M. bovis from both species share the same spoligotype. [214134]

Mr. Bradshaw: During the period 1972 to 1998, none of the badgers from the Dulverton area that were examined by MAFF/Defra were found to be positive for bovine tuberculosis. The release of information relating to the TB status of badger carcases since the start of the Randomised Badger Culling Trial is not being made publicly available on the advice of the Independent Scientific Group on Cattle TB.

Environment and Development (Ministerial Meetings)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the environment and development ministerial meeting scheduled for 17 and 18 March in Buxton, providing details of *(a)* the agenda and what aspects of the impact of climate change upon development will be discussed, *(b)* which environmental non-governmental organisations have been invited and will attend and *(c)* what the desired outcomes of the meeting are. [218928]

Mr. Morley: On 17 and 18 March, the Secretary of State for International Development and the Secretary of State for Environment, Food and Rural Affairs will co-host the first G8 meeting of Environment and Development Ministers. The agenda will include action to tackle illegal logging, Africa and climate change, the recommendations from the Commission for Africa Report, biodiversity and Humanitarian Aid Reform.

The Africa and climate change item will examine recommendations made in the "African Climate Report" published by my Department and the Department for International Development in December 2004 and seek agreement on ways in which these should be addressed.

There will be a parallel outreach session, which will report back to the ministerial. A wide range of civil society groups, including environmental non-governmental originations from across G8 countries have been invited.

The desired outcomes will be action by G8 partners to tackle illegal logging, and on Africa and climate change to highlight the importance of measures to reduce Africa's vulnerability to climate change.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her statement on 8 February 2005, *Official Report*, column 1368, on climate change and the environment, which 20 countries will attend the round table discussion for Ministers; what the *(a)* date and *(b)* location of the meeting will be; what the agenda is for the meeting; what aspects of the impact of climate change upon development will be discussed; which environmental

non-governmental organisations (i) have been invited and (ii) will be attending; and what the desired outcomes of the meeting are. [218929]

Mr. Morley: The Energy and Environment Ministerial Roundtable will take place at the Brewery, London, on 15–16 March 2005. The invited countries are: Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Iran, Italy, Japan, Mexico, Nigeria, Poland, Russia, South Africa, South Korea, Spain, the United States and the European Commission. At this point, most countries have confirmed attendance by at least one minister and in some cases two.

In addition to participation by ministers, selected senior figures from international and non-governmental organisations concerned with energy and environmental issues have been invited.

The round table will consider the challenges and opportunities for investment in sustainable and secure energy systems in a lower carbon world. The sessions will cover national and international policy drivers, national experience of and priorities for the development and diffusion of technology and how to accelerate these and the deployment lower carbon energy systems. The roundtable will focus on the key issues that were identified by national experts during the preparatory meeting, including sustainable energy and its development context.

This new and innovative forum will enable us to share valuable experience and look at new ways of working together in the development and deployment of sustainable energy systems.

Emissions Trading (Brick Industry)

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the consequences for the brick industry if the European Commission does not ratify Phase 1 of the EU Emissions Trading Scheme. [219545]

Mr. Morley *[holding answer 3 March 2005]:* The brick industry have made several representations on the effects of the EU Emissions Trading Scheme on their industry and these have been taken fully into account in our negotiations with the Commission on temporary exclusion from the scheme for Climate Change Agreement participants. If the Commission do not approve the UK's application to temporarily exclude Climate Change Agreement participants from Phase 1 of the EU scheme, the brick industry will join the scheme from 1 January 2005.

If the European Commission did not approve the amended UK National Allocation Plan for Phase I (2005–7) of the EU Emissions Trading Scheme, the Government would be unable to issue free allowances to installations covered by the Scheme. This would include operators of installations in the brick industry.

Government are continuing its dialogue with the Commission with a view to finding a solution which addresses the concerns of both sides and which will enable allowances to be issued as soon as possible. While we cannot give a firm date at this stage, the Government envisage that the issuance of free allowances will be made well in advance of the deadline for surrendering allowances of 30 April 2006.

Energy from Waste

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the use of energy from waste. [217139]

Mr. Morley: Energy from waste is a sustainable waste management option that offers a solution for dealing with the residual waste that will be left after steps have been taken to reuse, recycle or compost waste.

Foot and Mouth

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many companies have not yet been paid by her Department for work on the foot and mouth epidemic; [216563]

(2) how many companies have gone to court to seek payment for work done during the foot and mouth epidemic; and how many have been settled *(a)* in and *(b)* out of court. [216565]

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many claims arising from the foot and mouth outbreak lodged with the Department are awaiting payment. [218770]

Mr. Bradshaw: I refer my hon. Friend to pages 36 and 37 of the National Audit Office report "Foot and Mouth Disease: Applying the Lessons—Report by the Comptroller and Auditor General HC184 Session 2004–2005 2 February, 2005".

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs which companies have disputed claims outstanding from the foot and mouth epidemic; and what amounts are involved in each case. [216564]

Mr. Bradshaw: It is neither appropriate nor fair to identify the names of contractors with whom the Department is in dispute given that these are ongoing disputes, which are being concluded either through litigation or alternative disputes resolution procedures, or which are the subject of investigation by the relevant authorities.

Although some contractors and their representatives have sought to publicise their disputes through the media for reasons unknown to the Department, others have chosen not to do so and no useful purpose is likely to be served by the identity of contractors being divulged in these circumstances.

Gangmasters (Licensing) Act

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to take action against those gangmasters who contravene provisions of the Gangmasters (Licensing) Act 2004. [218459]

Alun Michael: The Gangmasters (Licensing) Act 2004 gives the Secretary of State responsibility for enforcing the criminal offences set out in the legislation. These

include the offences of operating as a gangmaster without a licence, using an unlicensed gangmaster and the possession or use of false documents.

These offences will be brought into effect once gangmasters who require a licence have had the opportunity to apply for one. It will also be necessary for the Secretary of State to make regulations clarifying the checks labour users must make to establish the due diligence defence created by the Act. If the Gangmasters Licensing Authority makes early progress on specifying licence conditions and establishing the new licensing arrangements after its anticipated establishment on 1 April, it is expected that the new offences will be introduced mid 2006.

A new team of enforcement officers will be appointed by the Secretary of State to enforce the criminal offences created under the Act. Enforcement officers will have wide ranging powers including the power of arrest, the right of entry and the power to obtain information or the production of records.

The Act gives the Gangmasters Licensing Authority responsibility for ensuring that licence holders comply with the provisions of a licence issued to them. The Authority will set out how it intends to undertake its compliance role once it is formally established.

Institute for Animal Health

Sir Paul Beresford: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she had made of the effects the restructuring at the Institute for Animal Health will have on research into *(a)* BSE, *(b)* milk quality, *(c)* streptococcal pathogenicity, *(d)* pestiviruses, *(e)* porcine immunology, *(f)* avian pox virus, *(g)* avian leucosis, *(h)* Marek's disease and *(i)* respiratory syncitial virus. [219738]

Mr. Bradshaw *[holding answer 3 March 2005]:* In line with the evolving needs and requirements placed on such an institute the IAH management have developed a five-year strategy, within which decisions have been reached no longer to continue certain areas of work. This is to reflect changing priorities in part governed by financial constraints. Throughout the process of strategic planning the IAH management have been mindful to ensure that the Institute will be able both to maintain the depth of its research activity and to develop the financial capability to work on important new areas of science as they arise.

With respect to work on BSE and more general TSE research, this remains of critical importance to the Institute, with approximately 20 per cent. of the research capability devoted to this area. The changes being made will not have a significant impact on the Institute's ability to deliver its core science around TSEs.

In areas where it has been decided to cease or reduce work then there will inevitably be some effects but research on these subjects continues to be done by other groups in the UK or elsewhere.

Lard (North-west)

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate she has made of shop stock levels of lard in *(a)* Chorley, *(b)* Lancashire and *(c)* the north-west of England. [218937]

Alun Michael: The Government does not collect any figures on shop stock levels of lard.

Millennium Ecosystem Assessment

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what contribution her Department has made to the United Nations Millennium Ecosystem Assessment and what use she expects to make of the Assessment once it is published; and if she will make a statement. [218903]

Mr. Morley: In August 2004, the Department co-ordinated views on the second review of the Millennium Ecosystem Assessment (MA) to the MA Secretariat from Government Departments and agencies. Defra also submitted reviews on the final synthesis reports in December 2004. In addition, a scientific adviser from my Department was a lead author of the chapter on policy implications (Volume II, Chapter 14).

In 2001, DETR contributed £42,100 to the UNEP World Conservation Monitoring Centre (UNEP-WCMC) to enable the recruitment of a member of the MA technical support staff and to initiate assessment work for the MA. The MA will be published in stages. The overall findings of the report will be launched in London, and other major world cities simultaneously, on 30 March 2005. Seven synthesis reports, up to 120 pages each, will be published between April and September 2005. Four technical reports, 500–800 pages each, will be available in July 2005. An additional set of about 16 sub-global assessments will also be released separately from late 2005 to 2006. My Department will study and make use of relevant information as the different sections become available.

The Assessment is expected to contribute to the process established by the Convention on Biological Diversity (CBD) for assessing progress towards the target set by the World Summit on Sustainable Development—to achieve a significant reduction in the rate of biodiversity loss by 2010.

Salmon Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what the value of the farmed salmon market was in the last year for which figures are available. [218932]

Mr. Bradshaw: The data are not held by the Department. However the farmed salmon industry in the UK is estimated to have generated some £300 million of turnover at "farm gate" value in 2002.

Energy Efficiency (SMEs)

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the interest-free loan scheme for small and medium-sized enterprises that install energy efficiency measures is cash-limited. [216475]

Mr. Morley: The Carbon Trust offers interest-free unsecured loans of between £5,000 and £100,000 to small and medium-sized businesses who are investing in an energy-saving project. The amount of money that can be offered under the loan scheme is governed by European "de minimis" state aid exemptions which limit the amount of state aid that an organisation can receive in a three-year period. The Carbon Trust is a private company, and decisions regarding the provision of funding by the Carbon Trust is a matter for its board.

Supermarkets (Dairy Prices)

Mr. Streeter: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with supermarkets on prices for dairy products paid to farmers; and if she will make a statement. [218055]

Alun Michael: Price negotiations between producers and processors, or processors and supermarkets, are a private commercial matter in which the Government cannot and should not get involved, provided competition rules are respected. However, Ministers frequently meet representatives from all parts of the dairy supply chain and are therefore aware of the issues. For example, my noble Friend Lord Whitty will chair the next Dairy Supply Chain Forum meeting on 2 March 2005. The Supermarket Code of Conduct is currently the subject of investigation by the Office of Fair Trading, which is expected to report shortly.

Warm Front (Christchurch)

Mr. Chope: To ask the Secretary of State for Environment, Food and Rural Affairs what the waiting time is for Warm Front heating installations in Christchurch constituency. [218653]

Mr. Morley: The target for completion of heating installations under Warm Front is 119 working days. The average waiting time for a Warm Front heating installation in the Christchurch constituency currently stands at 82 working days.

Wine

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) for what reasons the UK is withdrawing from the International Organisation of Wine and Vine (OIV); and by what mechanisms UK wine growers will be represented on the OIV in future; [217522]

(2) what assessment has been made of the benefits to the UK wine market of membership of the International Organisation of Wine and Vine; [217523]

(3) what the cost to the UK of belonging to the International Organisation of Wine and Vine was in the last year for which figures are available. [217524]

Alun Michael: The costs of the UK belonging to the International Organisation of Wine and Vine (OIV) have been variable and have depended on the number of proposals under consideration within the organisation, the degree of UK involvement, the resources attached to that involvement, as well as the level of annual membership fees that have been set. Where the OIV chooses to hold its meetings, for example France or Australia, will also affect the cost. In 2003–04, the latest year for which figures are available, the meetings attended by the UK were in Paris alone, and the costs estimated to be about £25,000. A cost-benefit analysis of UK membership of OIV is not available but the UK's ability to produce, import and trade wine is not conditional on membership. Proposals emerging from OIV need to be implemented in European Community law in order to have practical effect in the UK, so our withdrawal from OIV will continue to ensure a consequence of reprioritisation of the Department's budgetary resources to focus public spending where it is most needed to meet Government objectives. The decision will not interfere with the UK continuing to play an active role in the development of European Community policy and legislation on wine and the interests of the UK wine industry and consumers are fully represented at that level.

FOREIGN AND COMMONWEALTH

Advertising

Mr. Arbuthnot: To ask the Secretary of State for Foreign and Commonwealth Affairs how many advertising contracts, and to what value, were signed by his Department in the periods *(a)* 1 September 2004 to 1 March 2005 and *(b)* 1 September 2003 to 1 March 2004, broken down by (i) television, (ii) radio, (iii) press, (iv) direct mail and (v) other advertising. [219352]

Mr. Alexander *[holding answer 2 March 2005]:* No advertising contracts were signed during the periods *(a)* 1 September 2004 and 1 March 2005 and *(b)* 1 September 2003 to 1 March 2004.

Afghanistan

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many women have been appointed in the Afghan cabinet; and what posts they hold. [220081]

Mr. Rammell: President Karzai announced his Cabinet on 23 December 2004. It included two women: Dr. Masooda Jalal (Minister of Women's Affairs) and Sediqa Balkhi (Minister of Martyrs and Disabled).

Bangladesh

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Government of Bangladesh concerning the safety of British nationals resident in Bangladesh. [218631]

Mr. Alexander: We have serious concerns about the security and law and order situation in Bangladesh. The Bangladeshi Government need to take effective action to bring those responsible for violence to justice. I made these points to the Bangladeshi Prime Minister in Dhaka on 21 December. The British high commissioner maintains a regular dialogue with the Bangladeshi authorities on these issues at a senior level, including on the implications for the safety of British citizens.

The large majority of recent attacks have been directed at political and civil society rather than against British or other foreign nationals. There is a danger, however, that British citizens could get caught up in the growing number of indiscriminate attacks. We monitor the situation closely, our high commission maintains close contacts with the British community and we update our travel advice on a regular basis, most recently on 14 February. But we do not advise against travel to the country, other than against all but essential travel to the Chittagong Hill Tracts because of the risk of being caught up in clashes between rival tribal groups, settlers and the military in that area.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment the High Commission in Bangladesh has made of the security situation in that country; and if he will make a statement. [218632]

Mr. Alexander: We have serious concerns about the security situation in Bangladesh. Attacks using explosive devices have been taking place in locations throughout the country with increasing frequency. Some of these attacks have been targeted at high profile political gatherings; others have targeted cinemas, shrines, cultural events, markets and most recently the offices of NGOs. There has also been a marked increase in the number of discoveries of illegal arms and explosives. We monitor the situation carefully and make our concerns clear to the Bangladeshi authorities. I did so with the Bangladeshi Prime Minister in Dhaka on 21 December. The British High Commissioner maintains a regular dialogue on these issues with the Bangladeshi authorities at a senior level, emphasising the need to address the security situation effectively, with full regard to human rights, in order to bring to justice those responsible for such attacks.

Burma

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Burma about human rights in that country; and if he will make a statement. [220228]

Mr. Alexander: I met the Burmese Ambassador on 29 November 2004 and pressed for political reform, full respect for human rights and the need for all groups in Burma, including ethnic groups, to play a full part in national reconciliation.

The UK works closely with its international partners to promote human rights in Burma, and fully supports the efforts of the UN Secretary General's Special Rapporteur for Human Rights in Burma, Professor Sergio Pinheiro.

Human rights violations have been highlighted in successive UK co-sponsored resolutions on Burma in the United Nations General Assembly and in the United Nations Commission on Human Rights.

The UK played a key role in drafting last year's UN General Assembly Human Rights Resolution on Burma. The Resolution, adopted by the UN in December, condemned the many human rights abuses in the country, including against ethnic groups.

Our Ambassador in Rangoon has drawn to the attention of the Burmese Foreign Minister the serious concerns expressed by hon. Members and Peers of both Houses about the question of human rights in Burma.

We will continue to raise our concerns at every suitable opportunity.

Cambodia

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government are taking to promote *(a)* democratic pluralist governance and *(b)* civil society in Cambodia. [218181]

Mr. Alexander: Strengthening governance and civil society remains a key part of UK bilateral assistance for Cambodia. The UK is helping the Cambodian Government undertake critical reforms that aid this process particularly in areas such as transnational crime, public financial management, health services and strengthening local governance.

For example, the UK is giving ongoing support to the Government to enable the elected Commune Councils to become increasingly involved in local planning of infrastructure and local services. This support also extends to district level where annual commune plans are shared between Communes, Local Government and Civil Society. We will continue to strengthen these important steps in local governance and encourage greater involvement of Civil Society.

We hope that the political will needed to implement the necessary reform will be forthcoming. I raised this issue with the Cambodian Minister of Justice, Mr. Ang Vong Vathana, on 27 January. Our ambassador in Phnom Penh also raised it with Cambodian Prime Minister Hun Sen on 1 February.

We will continue to encourage the Government of Cambodia to take concrete action towards reform and provide the practical support to help them do so.

Departmental Staff (Cancer)

Dr. Gibson: To ask the Secretary of State for Foreign and Commonwealth Affairs what policies his Department has in place for supporting employees with cancer. [218582]

Mr. Alexander: The Foreign and Commonwealth Office (FCO) considers every case based on individual need. Our occupational health doctors advise on what adjustments should be considered. Both in the UK and overseas, we encourage flexible working practices and other adjustments during cancer treatment. The Sickness Absence policy is in keeping with Health and Safety Executive best practice and, once in remission, cancer patients can benefit from the FCO Return to Work Programme which allows for gradual return (at full pay) to full-time work.

The FCO follows general civil service practice on generous provision of sick absence on full (six months) and half (six months) pay. In some cases, officers who are still unable to work after 12 months may receive pay at an abated rate until their return to work.

The FCO also has a 24-hour, free Employee Assistance Programme available to all employees worldwide which provides a range of advice and support, from psychological support through to practical advice on entitlements and care arrangements.

China (Military Technology)

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are to develop a transatlantic consultative mechanism to prevent the transfer of sensitive military technology from the EU to China. [218385]

Mr. Rammell *[holding answer 28 February 2005]:* In December 2004 the European Council discussed the EU Arms Embargo on China. The UK and partners invited the Luxembourg Presidency of the EU to take forward work on the review of the embargo. This is ongoing. Until the review process is complete, the Government continue fully to implement the Arms Embargo.

The Government are in favour of dialogue and consultations with EU partners and other close allies which might provide them with more information on which to take defence export licensing decisions under the Consolidated EU and National Arms Export Licensing Criteria. This principle applies to China as it does to any other country. There have been no formal discussions or proposals within the EU about a transatlantic consultation mechanism with respect to China, although there have been contacts between officials in several member states on this subject.

Mr. Robathan: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has received from his EU counterparts regarding the development of a transatlantic consultative mechanism to prevent the transfer of sensitive military technology from the EU to China; [218386]

(2) what recent discussions he has had with his EU counterparts regarding the development of a transatlantic consultative mechanism to prevent the transfer of sensitive military technology from the EU to China. [218388]

Mr. Rammell *[holding answer 28 February 2005]:* The Government are in favour of dialogue and consultations with EU partners and other close allies which might provide them with more information on which to take defence export licensing decisions under the Consolidated EU and National Arms Export Licensing Criteria. This principle applies to China as it does to any other country. There have been no formal discussions or proposals within the EU about a transatlantic consultation mechanism with respect to China, although there have been contacts between officials in several member states on this subject.

Correspondence

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to the letter of 6 December 2004, reference 184348/04, from the hon. Member for West Chelmsford. [219529]

Mr. Alexander *[holding answer 3 March 2005]:* I apologise to the hon. Member for the delay in replying. A reply to his letter of 6 December was not issued due to a misunderstanding about whether the Foreign and Commonwealth Office or the Department for Constitutional Affairs would respond. A reply will be sent forthwith.

Europe Day

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance has been issued to UK embassies in the EU regarding the celebration of Europe Day on 9 May. [212382]

Mr. Alexander *[holding answer 3 March 2005]:* None.

Indonesia

Mr. Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of Papuans killed in civil conflict in the last 10 years; and if he will make a statement. [218845]

Mr. Alexander: We are not aware of any official figures for those killed in Papua over the last 10 years.

Iran

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written answer of 23 February 2005, *Official Report*, column 621W, on Iran, and the oral answer to my hon. Friend the Member for Islington, North (Jeremy Corbyn) of 9 February 2005, *Official Report*, column 1496, what the E3 have agreed with Iran following the *(a)* working groups on political/security issues meeting in Geneva on 9 to 11 February and *(b)* working group on technology co-operation meeting on 8 February. [219564]

Mr. Alexander *[holding answer 3 March 2005]:* These working groups, and one on nuclear issues, were set up under the agreement between Iran and the UK, France and Germany on 15 November 2004. Their aim is to agree long-term arrangements for Iran's nuclear programme based on objective guarantees that the programme is exclusively for peaceful purposes; and they provide for co-operation in other areas. The groups meet every three or four weeks in Geneva. The group on political and security issues has discussed, for example, export controls, counter-narcotics co-operation and other subjects of mutual interest. The working group on technology and co-operation is looking at issues in a range of economic sectors. But in view of the need to build mutual confidence and trust, the two sides have agreed not to disclose details of the discussions, which are continuing.

Iraq

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials in his Department have tendered their resignation citing the war in Iraq as their reason for doing so. [212343]

Mr. Alexander *[holding answer 3 March 2005]:* Two Foreign and Commonwealth Office officials have tendered their resignation citing the war in Iraq as the reason for doing so.

Lebanon

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Lebanese Government about the treatment of Palestinian refugees. [216075]

Mr. Alexander *[holding answer 1 March 2005]:* Our ambassador in Beirut raises the situation of the Palestinian refugees with the Lebanese authorities on a regular basis. In the context of the right of return for all Palestinians, subject to final status negotiations, Lebanon restricts Palestinian refugees from settling permanently in Lebanon. We have raised our concerns that this policy places restrictions on the civil and social rights of Palestinian refugees by limiting, for example, their access to education and employment.

North Korea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage the re-establishment of the six-country discussions on north Korea. [218576]

Mr. Rammell: The Government have no direct involvement in the six-party talks process. We follow developments closely as a permanent member of the UN Security Council, as a Depositary State of the Nuclear Non-Proliferation Treaty, and as a member of the European Union. We are also in direct and regular contact with all the parties involved in the six-party talks process, including the Democratic People's Republic of Korea. We have urged the north Korean authorities to reconsider their suspension and we very much hope that the talks will be resumed as soon as possible.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the trend in the level of suppression of dissidents in north Korea in recent months; and what recent discussions he has had with the Chinese Government on this matter. [218577]

Mr. Rammell: We have no information on the level of suppression of dissidents in north Korea in recent months. We have raised the matter of north Korean refugees in China on a number of occasions with the Chinese Government, most recently during the UK/China Human Rights Dialogue in Beijing in November 2004. We continue to urge China to observe its obligations under the 1951 Convention.

Russia

Mr. Benton: To ask the Secretary of State for Foreign and Commonwealth Affairs what programmes his Department has in place to encourage the establishment of democratic institutions in Russia. [218872]

Mr. Rammell: The Foreign and Commonwealth Office has spent over £900,000 this financial year on projects that cover democracy, human rights and governance issues in Russia.

One of the larger projects, for example, aims to improve the interaction between local government and local media. Another is contributing to the process of reform of regional-level public administration, intended to improve standards in public life.

Other projects include training for small independent media companies and a project to liberalize new legislation on alternative civilian service for conscientious objectors.

Funding for the financial year 2005–06 is currently under discussion. The focus in Russia will be on increasing respect for the rule of law and freedom of expression, both of which are critical to developing democracy and civil society.

Student Visas

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of charges for applications for student visas on the number of overseas students applying to universities in Scotland. [220331]

Mr. Mullin: The fees for applying for entry clearance in order to study in the UK are set at £36 in order to recover the cost of processing the application without burdening the taxpayer. They have not risen since 2002 and are currently under review.

While statistics are available only for entry clearance to the UK as a whole and not by area, applications to study in the UK have increased year by year since 2000. I refer the hon. Member to the reply below. (UIN 220332).

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications were made for student visas to study in each country of the UK in each year since 2000; and how many student visas were issued in each year since 2000, broken down by country of study in each year. [220332]

Mr. Mullin: Statistics are available only for entry clearance to the UK as a whole and not by area.

As of March 2001, UK visas, the department responsible for entry clearance matters arising overseas, began providing statistics by financial year. Before this, statistics were provided by calendar year.

The number of those applying to study in the UK and issued entry clearance since 2000 is as follows:

Number

	Applications received	*Issued*
January 2000–December 2001	125,239	99,559
March 2001–April 2002	151,524	121,466
March 2002–April 2003	181,905	128144
March 2003–April 2004	225,239	146,736

These figures are publicly available on the UK visas website (www.ukvisas.gov.uk). Figures for 2004–2005 are not yet available.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was raised from charges for applications for student visas from students studying or seeking to study in *(a)* the UK and *(b)* Scotland in each year since 2000. [220333]

Mr. Mullin: Statistics are available only for entry clearance to the UK as a whole and not by area.

The overseas entry clearance operation is required to function on a full cost recovery basis and is therefore non-profitable. The student visa fee is calculated to ensure that it covers the cost of the work involved in processing the application. The charge for a student visa application is currently £36 irrespective of factors such as the duration of the course, where the student applied

for entry clearance overseas or where they intend to study in the UK. The fee was last raised in 2002 and the level of visa fees is currently under review.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to remove charges for student visa applications for students studying or seeking to study in Scotland. [220334]

Mr. Mullin: No. Visa fees are set in order to recover the costs of issuing visas overseas. The overseas entry clearance operation is not funded from general taxation but operates on a full cost recovery basis. Visa fees are related to the amount of work involved in issuing them.

UN Security Council (Japan)

Mr. Edwards: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Japan's aspiration to become a member of the UN Security Council; and if he will make a statement. [218552]

Mr. Rammell: As my right hon. Friend the Foreign Secretary has frequently made clear, most recently during his visit to Japan on 19–20 January, we support Japanese aspirations to become a permanent member of an enlarged Security Council.

Japan is currently a non-permanent member of the Security Council and we are working closely with our Japanese colleagues.

INTERNATIONAL DEVELOPMENT

Departmental Staff (Cancer)

Dr. Gibson: To ask the Secretary of State for International Development what policies his Department has in place for supporting employees with cancer. [218584]

Mr. Gareth Thomas: DFID has a range of measures in place to assist employees who are sick with cancer or have other serious illness. These include paid certificated sick leave of up to six months on full pay and up to a further six months on half pay, depending on the circumstances; access to our Welfare and Counselling and Occupational Health Services, and the possibility of phased arrangements for a return to work following any period of prolonged absence.

Iran

Patrick Mercer: To ask the Secretary of State for International Development what assistance his Department plans to provide for victims of the recent earthquake in Iran. [218384]

Hilary Benn: I refer the hon. Member for Newark to the answer I gave to the hon. Member for Boston and Skegness (Mr. Simmonds) on 1 March 2005, *Official Report*, column 1065W.

Mine Clearance

Mr. Lyons: To ask the Secretary of State for International Development in what countries his Department is funding mine clearance. [220353]

Hilary Benn: During the current financial year (2004–05), DFID is supporting bilateral demining projects in the following countries:

Afghanistan
Angola
Cambodia
Georgia and Abkhazia
Iraq
Laos
N. Caucasus
Somaliland
Sri Lanka
Sudan

Palestine

Dr. Tonge: To ask the Secretary of State for International Development what estimate he has made of the amount of Palestinian *(a)* arable land and *(b)* water resources which are now on the Israeli side of the separation barrier. [218725]

Hilary Benn: UN reports last year estimated that around 157,000 acres of land, some 11.5 per cent. of the West Bank and home to over 93,000 Palestinians would lie between the completed separation barrier and the 1949 Armistice Line (excluding East Jerusalem). This land includes some of the West Bank's richest agricultural land and covers part of the aquifer system which is a major source of water resources for the West Bank. The barrier also affects Palestinian access to groundwater wells in the West Bank which had previously supplied water for both drinking and agriculture. Precise figures on this are not available. The proposed route of the barrier has recently been altered by the Israeli Cabinet in response to calls from the international community and the Israeli judicial system to minimise the impact on Palestinian livelihoods. There has been no authoritative analysis yet of the impact of the changes. While some improvement is expected there will continue to be inevitable and significant disruption to the lives of Palestinians living near the route of the barrier.

Targets

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent assessment he has made of whether the Public Service Agreement target to deliver improved effectiveness of UK and international support for conflict prevention by addressing long-term structural causes of conflict, managing regional and national tension and violence, and supporting post-conflict reconstruction, where the UK can make a significant contribution, in particular Africa, Asia, Balkans and the Middle East, by 2008 will be met; [219568]

(2) what recent assessment he has made of whether the Public Service Agreement target to improve trading opportunities for developing countries and a more competitive Europe will be met by 2008; [219571]

(3) what recent assessment he has made of whether the Public Service Agreement target to ensure that the EU secures significant reductions in EU and world trade barriers by 2008 will be met; [219572]

(4) what recent assessment he has made of whether the Public Service Agreement target to ensure that 90 per cent. of eligible heavily indebted poor countries committed to poverty reduction that have reached decision point by the end of 2005 received irrevocable debt relief by the end of 2008 will be met. [219576]

Hilary Benn: These four questions relate to targets in the Department for International Development's Public Service Agreement (PSA) for the period 2005 to 2008. This PSA will be implemented from 1 April 2005. Progress against the targets will first be assessed in DFID's Autumn Performance Report 2005 (which we expect to be published in December 2005).

DFID also has targets relating to conflict prevention, trade and debt relief in its 2003–06 PSA. Progress against these targets has been assessed twice-yearly in DFID's Autumn Performance Reports and Departmental Reports. The most recent analysis of performance against DFID's PSA targets was published in the Autumn Performance Report in December 2004; this is available in both hard copy in the Library of the House of Commons and electronically on DFID's website (www.dfid.gov.uk). Updated assessments of performance against all 2003–06 PSA targets and sub-targets will be provided in DFID's Departmental Report 2005, which we expect to be published in late April.

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of EC Overseas Development Assistance to low-income countries from 38 per cent. to 70 per cent. by 2006 will be met; [219570]

(2) what recent assessment he has made of whether the Public Service Agreement target to ensure that 75 per cent. of eligible heavily indebted poor countries committed to poverty reduction receive irrevocable debt relief by 2006 will be met; [219575]

(3) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of his Department's bilateral programmes evaluated as successful by 2006 will be met; [219579]

(4) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of his Department's bilateral programme going to low-income countries from 78 per cent. to 90 per cent. by 2006 will be met; [219580]

(5) what recent assessment he has made of whether the Public Service Agreement target to secure improved trading opportunities between the UK and developing countries by 2005 will be met; [219582]

(6) what recent assessment he has made of whether the Public Service Agreement target to secure agreement to a significant reduction in trade barriers by 2005 will be met; [219583]

(7) what recent progress has been made towards the Public Service Agreement target to work with international partners to make progress towards the UN Millennium Development Goals; [219584]

(8) what recent progress has been made towards the Public Service Agreement target to increase the impact of EC external programmes on poverty reduction; [219585]

(9) what recent progress has been made towards the Public Service Agreement target to reduce the proportion of 15 to 24-year-old pregnant women with HIV in sub-Saharan Africa from 16 per cent. by 2006; [219587]

(10) what recent assessment he has made of whether the Public Service Agreement target to increase the ratio of girls to boys enrolled in primary school in Asia from 87 per cent. to 94 per cent. by 2006 will be met; [219588]

(11) what recent assessment he has made of whether the Public Service Agreement target to reduce the proportion of people living in poverty in South Asia from 42 per cent. to 32 per cent. by 2006 will be met; [219589]

(12) what recent assessment he has made of whether the Public Service Agreement target to reduce the proportion of people living in poverty in sub-Saharan Africa from 48 per cent. by 2006 will be met; [219590]

(13) what recent assessment he has made of whether the Public Service Agreement target to increase the ratio of girls to boys enrolled in primary school in sub-Saharan Africa from 89 per cent. to 96 per cent. by 2006 will be met; [219591]

(14) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of births attended by skilled birth attendants in Asia from 39 per cent. to 57 per cent. by 2006 will be met; [219592]

(15) what recent assessment he has made of whether the Public Service Agreement target to increase the cure treatment rate of tuberculosis to above 85 per cent. in Asia by 2006 will be met; [219601]

(16) what recent assessment he has made of whether the Public Service Agreement target to increase the detection rate of tuberculosis to above 70 per cent. in Asia by 2006 will be met; [219602]

(17) what recent assessment he has made of whether the Public Service Agreement target to reduce the prevalence rate of HIV amongst vulnerable groups in Asia to below 5 per cent. by 2006 will be met; [219603]

(18) what recent assessment he has made of whether the Public Service Agreement target to reduce the under-five years mortality rate of girls and boys in Asia from 92 to 68 per 1,000 live births by 2006 will be met; [219604]

(19) what recent assessment he has made of whether the Public Service Agreement target to increase primary school enrolment in Asia from 95 per cent. to 100 per cent. by 2006 will be met; [219605]

(20) what recent assessment he has made of whether the Public Service Agreement target to reduce the proportion of people living in poverty in East Asia and the Pacific from 15 per cent. to 10 per cent. by 2006 will be met; [219606]

(21) what recent progress has been made towards the Public Service Agreement target to support the effective implementation of the G8 Action plan for Africa; [219607]

(22) what recent progress has been made towards the Public Service Agreement target to reduce the number of people whose lives are affected by violent conflict in sub-Saharan Africa by 2006; [219608]

(23) what recent progress has been made towards the Public Service Agreement target to improve the effectiveness of the UK contribution to conflict prevention and management in sub-Saharan Africa; [219609]

(24) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of births attended by skilled birth attendants in sub-Saharan Africa from 49 per cent. to 67 per cent. by 2006 will be met; [219610]

(25) what recent assessment he has made of whether the Public Service Agreement target to reduce the under-five years mortality rate of girls and boys in sub-Saharan Africa from 158 to 139 per 1,000 live births by 2006 will be met; [219611]

(26) what recent assessment he has made of whether the Public Service Agreement target to increase primary school enrolment in sub-Saharan Africa from 58 per cent. to 72 per cent. by 2006 will be met; [219612]

Hilary Benn: Details of the Department for International Development's performance against its 2003–06 Public Service Agreement (PSA) targets are published twice a year, in the Autumn Performance Report (December) and the Departmental Report (April). The most recent analysis of performance against DFID's PSA targets was published in the Autumn Performance Report in December 2004; this is available in both hard copy in the Library of the House of Commons and electronically on DFID's website (www.dfid.gov.uk). Updated assessments of performance against all the PSA targets and sub-targets will be provided in DFID's Departmental Report 2005, which we expect to be published in late April.

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent progress has been made towards the Public Service Agreement target to improve the effectiveness of the humanitarian aid system; [219573]

(2) what recent progress has been made towards the Public Service Agreement target to improve the effectiveness of the UN agencies. [219574]

Hilary Benn: The Department for International Development's 2003–06 Public Service Agreement does not have PSA targets as specifically worded in these questions. However, we do monitor improvements in the institutional effectiveness of 12 multilateral agencies, as an indicator of progress against the following sub-target:

"Work with international partners to make progress against the United Nations 2015 Millennium Development Goals".

The 12 agencies monitored include the International Committee of the Red Cross (ICRC) and seven United Nations agencies.

The most recent analysis of performance against this PSA sub-target was published in the Autumn Performance Report in December 2004; this is available in both hard copy in the Library of the House of Commons and electronically on DFID's website (www.dfid.gov.uk). Updated assessments of performance will be provided in DFID's Departmental Report 2005, which we expect to be published in late April.

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent progress has been made towards the Public Service Agreement target to enhance partnership at the country and regional level to ensure that international policies support African development; [219577]

(2) what recent progress has been made towards the Public Service Agreement target to enhance partnership at the country and regional level to increase the effectiveness of aid in African development; [219578]

(3) what recent progress has been made towards the Public Service Agreement target to increase the effective response of multilateral agencies to conflict and humanitarian crises; [219593]

(4) what recent progress has been made towards the Public Service Agreement target to increase the impact of multilateral agencies in reducing poverty. [219594]

Hilary Benn: The Department for International Development's 2003–2006 Public Service Agreement does not contain targets as worded in these questions. However, we do have sub-targets that relate to the subject matter of these questions:

Effective implementation of the G8 Action Plan for Africa in support of enhanced partnership at the regional and country level.

Work with international partners to make progress towards the United Nations 2015 Millennium Development Goals.
